EXHIBIT "B-1"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Goshen-Divide Section of the Pacific Highway described as follows:

A parcel of land lying in the Marion Martin D. L. C. No. 41, Township 21 South, Range 3 West, W. M., Lane County, Oregon, and being a portion of that tract of land described in that certain deed to State of Oregon by and through its State Highway Commission, recorded on Reel 34-54 D Instrument #24925 of Lane County Records of Deeds; the said parcel being described as follows: Beginning at the Southwest corner of that tract described in that deed to Roscoe and Nora E. Yearous, recorded in Book 187, Page 578, Lane County Deed Records, said corner being 43.34 chains North and 40.59 chains East of the Southeast corner of the Charles W. Boran D. L. C. No. 37 and running thence North 89° 37' East 6.5 chains to the West line of that tract described in that deed to Roscoe and Nora E. Yearous recorded in Book 183, Page 480, Lane County Deed Records, thence South along said West line 8 feet, more or less, to a line which is parallel to and 100 feet Northerly of the relocated centerline of the Pacific Highway, which centerline is described in said State of Oregon Deed; thence Northeasterly parallel to said centerline 470 feet, more or less, to the North line of said Yearous tract as described in that deed recorded in Book 183, Page 480; thence South 89° 37' West along said North line 415 feet, more or less, to the East line of said Yearous tract described in that deed recorded in Book 187, Page 578; thence along the boundaries of said last mentioned Yearous tract as follows: North 0° 05' West 230 feet, more or less, to a point in or near the center of the channel of Martin Creek, in a Southwesterly course following the said center of said creek to a point 3.3 chains North 0° 05' West of said beginning point; and South 0° 05' East 3.3 chains to the place of beginning.

The parcel of land to which this description applies contains 4.2 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes,

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1.640.00, and the Commission is

desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 8 be entered in the minutes and records of the Commission as of the 4th day of June, 1956.

EXHIBIT "B-2"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Forest Grove-Hillsboro Section of the Tualatin Valley Highway described as follows:

> A parcel of land lying in Lot 9 Cornelius Environs situated in Section 33, Township 1 North, Range 3 West, W.M., Washington County, Oregon, and being a portion of that tract of land described in that certain deed to State of Oregon by and through its State Highway Commission, recorded in Book 379, Page 571 of Washington County Records of Deeds; the said parcel being described as follows: Beginning at the Northeast corner of said Lot 9; thence South along the East line of said Lot 9 a distance of 68 feet, more or less, to the Northerly right of way line of West bound lane of the relocated Tualatin Valley Highway; thence South 89° 52' West along said Northerly right of way line 211 feet to the West line of said property 68 feet, more or less, to the Northwest corner of said property; thence East along the Northerly line of said property 211 feet to the place of beginning.
>
> The parcel of land to which this description applies contains 0.33 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes,

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $7500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 9 be entered in the minutes and records of the Commission as of the 4th day of June, 1956.

June 4, 1956

EXHIBIT "B-3"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Unit 5 of the T. H. Banfield Expressway described as follows:

> A parcel of land lying in the Milton Frazer D. L. C., Section 30, Township 1 North, Range 3 East, W. M., Multnomah County, Oregon. The said parcel being described as follows: Beginning at a point in centerline of Wilkes Road, North 87° 17' West, 637.2 feet from the Southwest corner of George B. Pullen Donation Land Claim; running thence North 87° 17' West along the center line of said Wilkes Road 491.4 feet; thence North 63° 27' West 18.75 feet; thence North 0° 10' West parallel to West line of said Pullen D. L. C., 650.11 feet to an iron pipe in the Southerly line of the right of way of the O. W. R. & N. Co.; thence Easterly along said right of way 540.2 feet, more or less, to an iron pipe which bears North 1° 34' East from the point of beginning; thence South 1° 34' West 562.3 feet to the place of beginning; EXCEPTING that portion of above described property lying Northerly of a line which is parallel to and 100 feet Southerly of the centerline of the T. H. Banfield Expressway, and EXCEPTING that portion occupied by said Wilkes Road.
>
> The parcel of land to be sold contains 3.71 acres, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes,

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $5565.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 10 be entered in the minutes and records of the Commission as of the 4th day of June, 1956.

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the General Services Administration, United States of America, has advertised for sale certain property that is a portion of the Veterans' Administration Hospital Reservation, Roseburg, Oregon, which said property lies easterly of and adjacent to the Pacific Highway and is described as follows, to wit:

The Government's interest in that certain surplus real property known as a portion of the Veterans Administration Hospital Reservation, Douglas County, Oregon, and having GSA Control No. V-ORS-451. The premises are more particularly described as:

Beginning at a point in a northerly boundary of a parcel of land conveyed to the United States of America as described in Volume 94, Page 157 of Deeds of Record of Douglas County, Oregon, said point being at the intersection of the easterly Right of Way line of the relocated Pacific Highway (U. S. 99) as described in Deed of Easement, U. S. A. to Oregon State Highway, Volume 219, page 119 of said Records and said northerly boundary, said point being also the southeasterly corner of a parcel of land conveyed by Laurel Lodge No. 13, A. F. & A. M. to the Oregon Highway Commission described in Volume 226, page 627 of said Records, and also the southwest corner of a parcel of land conveyed by said Laurel Lodge to Roseburg Memorial Gardens, Inc., described in Volume 226, page 766 of said Records, from which the northwest corner of the J. Huntley D. L. C. No. 56, T. 27 S., R. 6 W., W.M., bears N 4° 44' 30" W., 2096.7 feet; thence east 1151.05 feet, along the said north boundary of parcel to its intersection with the west Right of Way line of the Southern Pacific Railroad; thence along said Right of Way line in a 5° curve to the left, the chords of which are as follows: S 20° 21' E., 212.7 feet, S 30° 32' E., 199.8 feet, S 42° 47' E., 299.3 feet, and S 56° 25' E., 259.65 feet, to its intersection with the meander line of the right bank of the South Umpqua River; thence following said Meander line, N 79° 04' W., 994.3 feet, N. 88° 50' W., 389.15 feet and S. 87° 52' W., 183.1 feet to its intersection with said easterly Right of Way line of Highway; thence N. 19° 56' 30" W., 579.9 feet along said Right of Way line to the place of beginning, containing 16.34 acres, more or less, in Section 13, T 27 S., R 6 W., W.M., Douglas County, Oregon.

Together with right of access to the above described property as reserved in Deed of Easement granted by United States of America to Oregon State Highway Department and recorded in Volume 219, Page 119, of Deed Records, Douglas County, Oregon; and,

WHEREAS, the General Services Administration has advertised and proposes to sell together with said property rights of access as

reserved in the Deed of Easement granted by the United States of America to the Oregon State Highway Department, recorded in Volume 219, page 119, of Deed Records of Douglas County, Oregon; and,

WHEREAS, the State of Oregon, by and through its State Highway Commission, is desirous of purchasing said property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. That Robert L. Byrum, District Right of Way Supervisor, Oregon State Highway Department, is hereby authorized, empowered and directed to bid for the cash purchase of the above-described property in the name of and for the State of Oregon, by and through its State Highway Commission, whenever said property is offered for sale by the General Services Administration during the calendar year of 1956.

2. That said Robert L. Byrum is hereby authorized, empowered and directed to accompany said bid with a bid deposit in the form of a certified check, cashier's check, or postal money order payable to the General Services Administration in the amount of $2,000.00, and is further authorized, empowered and directed to execute in behalf of the State of Oregon, by and through its State Highway Commission, a written memorandum of offer to purchase said property for cash, which memorandum may incorporate therein the terms and conditions of the sale, together with the legal description of said property.

3. That said Robert L. Byrum is further authorized, empowered and directed to do all other things required by the General Services Administration for the purchase of said property.

4. That attached hereto, and by this reference made a part hereof, is a form of Power of Attorney to be executed by the Commission in favor of said Robert L. Byrum for delivery to representatives of the General Services Administration at the auction sale of said property.

5. That this Resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Miscellaneous Resolution No. 192.

(See next page for form of Power of Attorney referred to in paragraph 4 of the above resolution.)

EXHIBIT "C" (Cont)

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS, that the STATE OF OREGON, by and through its State Highway Commission, by Ben R. Chandler, Chairman, and Charles H. Reynolds and M. K. McIver, Commissioners, in pursuance of a certain resolution duly adopted by the Oregon State Highway Commission at a regular meeting on June 4, 1956, a copy of which is attached, does hereby nominate, constitute and appoint Robert L. Byrum, District Right of Way Supervisor, Oregon State Highway Department, its true and lawful agent and attorney-in-fact to submit bids accompanied by a bid deposit, to execute a written memorandum of offer to purchase, and to do all other things required by the General Services Administration of the United States of America, for and on behalf of the State of Oregon, by and through its State Highway Commission, for purchase, when offered for sale by the General Services Administration, of the following described real property, to wit:

Beginning at a point in a northerly boundary of a parcel of land conveyed to the United States of America as described in Volume 94, page 157 of Deeds of Record of Douglas County, Oregon, said point being at the intersection of the easterly Right of Way line of the relocated Pacific Highway (U.S. 99) as described in Deed of Easement, U. S. A. to Oregon State Highway, Volume 219, page 119 of said Records and said northerly boundary, said point being also the southeasterly corner of a parcel of land conveyed by Laurel Lodge No. 13, A. F. & A. M. to the Oregon Highway Commission described in Volume 226, page 627 of said Records, and also the southwest corner of a parcel of land conveyed by said Laurel Lodge to Roseburg Memorial Gardens, Inc., described in Volume 226, page 766 of said Records, from which the northwest corner of the J. Huntley D. L. C. Nl. 56, T. 27 S., R. 6 W., W. M., bears N 4° 44' 30" W., 2096.7 feet; thence east 1151.05 feet, along the said north boundary of parcel to its intersection with the west Right of Way line of the Southern Pacific Railroad; thence along said Right of Way line in a 5° curve to the left, the chords of which are as follows: S 20° 21' E., 212.7 feet, S 30° 32' E., 199.8 feet, S 42° 47' E., 299.3 feet, and S 56° 25' E., 259.65 feet, to its intersection with the meander line of the right bank of the South Umpqua River; thence following said Meander line, N 79° 04' W., 994.3 feet, N. 88° 50' W., 389.15 feet and S. 87° 52' W., 183.1 feet to its intersection with said easterly Right of Way line of Highway; thence N. 19° 56' 30" W., 579.9 feet along said Right of Way line to the place of beginning, containing 16.34 acres, more or less, in Section 13, T 27 S., R 6 W., W. M., Douglas County, Oregon.

Together with right of access to the above described property as reserved in Deed of Easement granted by United States of America to Oregon State Highway Department and recorded in Volume 219, Page 119, of Deed Records, Douglas County, Oregon.

EXHIBIT "C" (Cont)

POWER OF ATTORNEY (Cont)

The submission of bids and the execution of a written memorandum of offer to purchase said property in pursuance of these presents shall be as binding upon the State of Oregon, by and through its State Highway Commission, as fully and amply to all intents and purposes as if made and executed by the Oregon State Highway Commissioners in their own proper persons.

IN WITNESS WHEREOF, the said Ben R. Chandler, Chairman, and Charles H. Reynolds and M. K. McIver, Commissioners, have hereunto subscribed their names and have caused the seal of said Commission to be affixed hereunto on this the 4th day of June, 1956.

ATTEST:

/s/ H. B. Glaisyer
Secretary

STATE OF OREGON, by and through its State Highway Commission

By /s/ Ben R. Chandler
Chairman

By /s/ Chas. H. Reynolds
Commissioner

By /s/ M. K. McIver
Commissioner

EXHIBIT "D"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4223 with Berke Bros. & C. R. O'Neil for grading on the Booth Ranch Unit, Shady-Canyonville Section of the Pacific Highway in Douglas County, completed February 20, 1956.

"Contract No. 4249 with Parker-Schram Co. for paving on the Concomley Road-Hayesville Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion County, completed October 31, 1955.

"Contract No. 4266 with Warren Northwest, Inc. for paving on the Jackson Creek-Tenmile Creek Section of the I. O. N. Highway in Malheur County, completed April 21, 1956.

"Contract No. 4350 with Rogers Construction, Inc., for grading and paving on the West Unit, Weston-Weston Mountain Section of the Weston-Elgin Highway in Umatilla County, completed October 6, 1955.

"Contract No. 4394 with E. H. Itschner Co. for furnishing crushed materials in stock piles on the Burns Section of the Central Oregon, John Day-Burns and Burns-Crane Highways in Harney County, completed November 28, 1955.

"Contract No. 4438 with George E. Berry for constructing guard rail and snow fence on the Emigrant Hill Section of the Old Oregon Trail Highways in Umatilla County, completed April 30, 1956.

"Contract No. 4445 with Parker-Schram Co. for grading and paving on the Killingsworth-Sandy Boulevard Section of the Cascade Highway in Multnomah County, completed April 19, 1956.

"Contract No. 4462 with Tom Lillebo for constructing Mill Creek and Penitentiary Annex Section of the Salem-Turner-Aumsville County Road in Marion County, completed May 7, 1956.

"Contract No. 4477 with F. L. Somers for grading and surfacing on the Wrights Point Section of the Frenchglen Highway in Harney County, completed May 16, 1956.

"Contract No. 4515 with Walt M. Young for constructing Hat Rock Park buildings in Umatilla County, completed May 8, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4516 with Babler Bros., Inc., for reconstruction of Bakers Bridge Approaches on Market Road No. 39 in Clackamas County, completed May 3, 1956.

"Contract No. 4525 with Mann Construction Co. for constructing Tumalo State Park latrine in Deschutes County, completed May 1, 1956.

"Contract No. 4528 with Lloyd G. Sperling for constructing Newport Maintenance building in Lincoln County, completed May 22, 1956.

"Contract No. 4530 with T. W. Thomas for constructing guard rail on the Divide-Rice Hill Section of the Pacific Highway in Douglas County, completed April 9, 1956.

Contract No. 4533 with Enoch I. Maerz for constructing Helmick Park Shelter at Helmick Park in Polk County, completed May 10, 1956.

Contract No. 4534 with Enoch I. Maerz for constructing Holman State Park latrine in Polk County, completed April 27, 1956.

"Contract No. 4535 with Babler Bros., Inc., for grading and oiling on the Odell-Dukes Valley Junction Section of the Straight County Road in Hood River County, completed May 23, 1956.

"Contract No. 4553 with Steeck Electric Co. for constructing traffic signals on the Santiam Highway in Linn County, completed April 28, 1956.

"Contract No. 4595 with Arthur Simonsen & Co. for grading and pavement widening on the Umatilla Bridge Junction-Hermiston Junction of the Columbia River Highway in Umatilla County, completed May 28, 1956.

"Contract No. 4596 with E. C. Hall Co. for furnishing crushed materials in stock piles on the Alsea Section of the Alsea and Alsea-Deadwood Highways in Benton County, completed April 10, 1956.

"Contract No. 4606 with Rogue River Paving Co. for grading and pavement widening on the Reese Creek Section of the Crater Lake Highway in Jackson County, completed May 22, 1956.

"Contract No. 4608 with Stanton W. Payne for dike construction on the Hell Gate-Oakridge Section of the Willamette Highway in Lane County, completed March 30, 1956.

"Contract No. 4637 with Warren Northwest, Inc., for paving on the Mill City (S. E. Fairview St.) City Street Section in Linn County, completed May 22, 1956.

"Contract No. 4688 with R & W Construction Co. for constructing guard

EXHIBIT "D" (Cont)

rail on the Beaver Butte Creek and Butte Creek Section of the Warm Springs Highway in Wasco County, completed May 25, 1956.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 52 shall be entered in the minutes and records of the Commission as of the 4th day of June, 1956.

EXHIBIT "E"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: OLD OREGON TRAIL

Highway number 6 Route number US30

Location of Termini				Established Speed
M.P. 418.148	(east city limits of Ontario)	to M.P. 418.448	(0.30 mile east of east city limits of Ontario)	35 M.P.H.
M.P. 418.448	(0.30 mile east of city limits of Ontario)	to M.P. 419.043	(west end of the Snake River Bridge)	40 M.P.H.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 227 be entered in the minutes and records of the Commission as of the 4th day of June, 1956.

EXHIBIT "F-1"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the Oregon Coast Highway is a primary highway and likewise a Federal-aid Highway and under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that on said Oregon Coast Highway in the vicinity of Flanagan Avenue in Bunker Hill, parallel parking is permitted on both sides of the highway; and

WHEREAS, Flanagan Avenue intersects US101 from the south forming a T-type intersection with US101; and

WHEREAS, there is a service station in the southwest quadrant and a motel in the southeast quadrant of said intersection; and

WHEREAS, fire trucks frequently are required to enter US101 from Flanagan Avenue; and

WHEREAS, parked vehicles in front of the previously-mentioned service station tend to restrict sight distance for motorists entering US101, thereby causing a dangerous situation,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the south side of said Oregon Coast Highway from M. P. 239. 34 (Engineer's Station 44+20) to M. P. 239. 37 (Engineer's Station 45+70) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the south side of said Oregon Coast Highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared on which signs shall

EXHIBIT "F-1" (Cont)

be printed in plain letters, the words, "NO PARKING".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 143 be entered in the minutes and records of the State Highway Commission as of the 4th day of June, 1956.

EXHIBIT "F-2"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the Wilsonville-Hubbard Highway No. 51 is one of the major state primary highways and is likewise a federal-aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that the parking of vehicles on the shoulders of said highway while "hotrod" races are in progress on the airplane landing field strip, approximately 3.50 miles north of the junction with the Pacific Highway East, creates a hazard to the traveling public; and

WHEREAS, the parking of said vehicles on the shoulders of said highway in said location tends to restrict and impair the use of the traveled portion of the highway to such an extent that in the opinion of the Highway Commission a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along either side of the Wilsonville-Hubbard Highway between M.P. 2.04 (Highway Engineer's Station 725+00) and M.P. 2.90 (Highway Engineer's Station 770+00) creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his

EXHIBIT "F-2" (Cont)

judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 144 be entered in the minutes and records of the State Highway Commission as of the 4th day of June, 1956.

EXHIBIT "G-1"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final survey of the route and location of the Klamath Falls-Green Springs Highway Junction Section of The Dalles-California Highway in Klamath County; and, in connection therewith, to prepare maps showing the route and location of said section and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Klamath Falls-Green Springs Highway Junction Section of The Dalles-California Highway beginning at Highway Engineer's Station 138+00 just south of Link River in Klamath Falls and extending in a southerly direction to Highway Engineer's Station 253+71.82, a short distance south of the junction with the Green Springs Highway, together with the map, which, for identification purposes, bears Map File No. 7B-36-16 and the date January, 1955, (Drawing No. 1R5-888), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location, unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "G-1" (Cont)

4. That heretofore by resolution of this Commission dated November 3, 1948, said section of said highway as mentioned above was designated as a throughway within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-described highway section should be, and it is hereby directed that the construction of the same shall be, accomplished pursuant to and within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That this resolution be entered in the minutes and records of the Commission as of the 4th day of June, 1956, as Survey Resolution No. 140.

EXHIBIT "G-2"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final survey of the route and location of the Albany-Judkins Point Section of the Pacific Highway East in Linn and Lane Counties; and, in connection therewith, to prepare maps showing the route and location of said section and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Albany-Judkins Point Section of the Pacific Highway East beginning at Highway Engineer's Station 1141+00, a short distance south of the Santiam Highway Junction east of Albany, and extending in a southerly direction to Judkins Point on the Pacific Highway a short distance south of the Willamette River east of the city of Eugene, Highway Engineer's Station 208+00, together with the map which, for identification purposes, bears Map File Nos. 8B-2-3 to 8B-2-15, inclusive (Drawing No. 10C-27-9), and the date June, 1956, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location, unless otherwise directed or ordered by the Commission.

3. Tnat the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properti4s needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Depart ment to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "G-2" (Cont)

4. That heretofore by resolution of this Commission dated November 3, 1948, said section of said highway as mentioned above was designated as a throughway within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-described highway section should be, and it is hereby directed that the construction of the same shall be, accomplished pursuant to and within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That this resolution be entered in the minutes and records of the Commission as of the 4th day of June, 1956, as Survey Resolution No. 141.

EXHIBIT "H-1"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the mainenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Catching Slough-Chandler Bridge Section of the Coos River Secondary Highway; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Catching Slough-Chandler Bridge Section of the Coos River Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "H-1" (Cont)

2. That the widening in part, relocation in part, construction, improvement and maintenance of the said Catching Slough-Chandler Bridge Section of the Coos River Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Condemnation Resolution No. 621.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 621, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-2"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the mainenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and purposes to widen, improve and maintain the Florence - Douglas County Line Section of the Oregon Coast Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Florence - Douglas County Line Section of the Oregon Coast Highway, certain interest in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interest of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "H-2" (Cont)

2. That the widening, improvement and maintenance of the said Florence-Douglas County Line Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Condemnation Resolution No. 622.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 622, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-3"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Dodson-Bonneville Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions of, and within the meaning and for the accomplishment of the purposes declared and provided under, the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property

hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state Highway system, and the relocation, construction, improvement and maintenance of the said Dodson-Bonneville Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Dodson-Bonneville Section of the Columbia River Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property; except that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted to the said parcel on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Dodson-Bonneville Section of the Columbia River Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

EXHIBIT "H-3" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 625, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-4"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and purposes to relocate, construct, improve and maintain the Neskowin - Salmon River Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Neskowin - Salmon River Section of the Oregon Coast Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Neskowin - Salmon River Section of the Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Neskowin - Salmon River Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels or property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed

and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels or real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Condemnation Resolution No. 626.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 626, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-5"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the State Highway Commission on the 22nd day of September, 1955, by resolution declared the necessity for the acquisition of a parcel of real property owned by Isaac Reimer, et al., File No. R-18159, situated in Section 15, Township 7 South, Range 5 West, W.M., Polk County, Oregon, for right of way purposes, for the construction, improvement and maintenance of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway; and

WHEREAS, the said resolution further declared that it is necessary that there shall be no rights of access of any nature between the right of way of the said Willamina-Salem Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property described in said resolution; and

WHEREAS, the said State Highway Commission, after further investigation, has found that the parcel of land described in said resolution is not large enough to complete the said construction, improvement and maintenance of the said section of the said Willamina-Salem Highway, and that in order to properly construct, improve and maintain said highway it is necessary to increase the area sought to be acquired in said resolution, and in addition the said State Highway Commission has further found that it will be to the best interests of the State of Oregon and the owners, for the State Highway Commission to grant a farm crossing to serve the said owners' remaining contiguous real property which abuts on the said Willamina-Salem Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That page 4, Exhibit "A", referring to the necessity for acquiring for right of way purposes a parcel of real property as described in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 22nd day of September, 1955, and also insofar as said resolution pertains to the rights of access to the remaining property owned by the said Isaac Reimer, et al., File No. 18159, be and the same hereby is amended to read as follows:

> The following described real property is necessary for right of way purposes, for the construction, improvement and maintenance of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway, to wit:
>
> A parcel of land lying in Section 15, Township 7 South, Range 5 West, W.M., Polk County, Oregon, and being a portion of that property described in that deed to Isaac and Marie Reimer, husband and

EXHIBIT "H-5" (Cont)

wife, recorded in Book 146, Page 701, of Polk County Records of Deeds. The said parcel being that portion of said property lying Easterly of that tract described in that deed to Ernest Reimer, et ux, recorded in Book 138, Page 75, Polk County Deed Records, and included in a strip of land variable in width, lying on each side of the center line of the Willamina-Salem Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 680+00, said Station being 2197.83 feet North and 541.66 feet East of the Southeast corner of the John Waymire Donation Land Claim No. 47, Township 7 South, Range 5 West, W.M.; thence South 51° 12' East 2500 feet to Station 705+00, said center line crossing the East line of said Ernest Reimer tract and the South line of said property approximately at Stations 684+60 and 698+90, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
680+00	689+00	60'	60'
689+00	691+00	60' taper to 100'	60' taper to 90'
691+00	693+00	100' taper to 80'	90' taper to 80'
693+00	703+00	80'	80'

The parcel of land to which this description applies contains 4.9 acres.

It is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Willamina-Salem Highway and all of the contiguous real property of the owners which abuts thereon remaining after the appropriation of the above-described real property, providing, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

A right, so long as any portions of the remaining property on both sides of the said Willamina-Salem Highway and served by such crossing are held by a common ownership, to establish, maintain and use a crossing of a width of 30 feet at Highway Engineer's center line Station 694+80, such right to continue only so long as the crossing shall be used for farm purposes only.

2. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Condemnation Resolution No. 560-a.

EXHIBIT "H-6"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part and relocate in part, construct, improve and maintain the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway; and

WHEREAS, for the purpose of widening in part and relocating in part, constructing, improving, and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that accesss to and from the said highway should be controlled southerly from Highway Engineer's centerline Station 163+50;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Pendleton-Pilot Rock Section of the Pendleton-John Day Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature on the Pendleton-John Day Highway south of Highway Engineer's centerline Station 163+50 thereon, between the right of way of the widened and improved or relocated Pendleton-John Day Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining lands, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Pendleton-Pilot Rock Section of the Pendleton-John Day Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Condemnation Resolution No. 627.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 627, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-7"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen and improve the route of the Empire-Coos Bay Highway through the City of Coos Bay; and

WHEREAS, for the purpose of widening and improving the route of the Empire-Coos Bay Highway through the City of Coos Bay, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening and improvement of the route of the said Empire-Coos Bay Highway through the City of Coos Bay, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "H-7" (Cont)

2. That the widening and improvement of the route of the said Empire-Coos Bay Highway through the City of Coos Bay and the facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Condemnation Resolution No. 628.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 628, under the heading "Real" Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-8" (Cont)

2. That the widening, construction, improvement and maintenance of the said Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Condemnation Resolution No. 630.

---

*FOOTNOTE:

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Mt. Hood Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Mt. Hood Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "H-9"

Mintues of June 4 and 5, 1956

RESOLUTION

WHEREAS, the State Highway Commission on the 1st day of March, 1956, by resolution declared the necessity for the acquisition of certain real property situated in Lot 1 and the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 25, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, for right of way purposes, for the construction, reconstruction, improvement and maintenance of the Columbia River Highway; and

WHEREAS, the said Highway Commission subsequently discovered that a certain farm structure is located partially upon the real property described as Parcel No. 2 in the resolution hereinabove mentioned and partially upon the owner's remaining real property; and

WHEREAS, the said Highway Commission has found it necessary that said farm structure be acquired and removed, and a right of entry is needed and required to go upon the owner's remaining real property for the purpose of removing said structure.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That it is necessary to acquire and remove all of that certain farm structure located partially upon the real property hereinafter described and partially upon the owner's remaining real property approximately opposite Highway Engineer's centerline Station 534+00 and northerly of the said Columbia River Highway, and in connection therewith, it is necessary to acquire a right of entry to go upon the owner's remaining real property contiguous to the real property hereinafter described for the purpose of removing, dismantling, or otherwise disposing of said structure. The real property hereinafter referred to is described as follows, to wit:

Parcel No. 2:

A parcel of land lying in the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 25, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of said Northeast quarter (NE¼) of the Northeast quarter(NE¼); thence North 40°40' East 153.5 feet; thence North 3.72 feet to the Southeast corner of that tract conveyed to Paul Martin and Verla Martin by deed recorded in Book 1523, Page 418 of Multnomah County Deed Records, said corner being the true point of beginning of the parcel herein described; thence South 84° 17' East parallel

EXHIBIT "H-9" (Cont)

to and 200 feet northerly from the relocated center line of the Columbia River Highway 535.1 feet to a point opposite Station 537+00 on said relocated highway center line; thence North 62° 28' 55" West 538.52 feet to a point opposite and 400 feet northerly from Engineer's centerline Station 532+00; thence North 84° 17' West parallel to and 400 feet northerly from said relocated highway centerline 55.1 feet to the East line of said Martin tract; thence South along said East line 201 feet to the point of beginning.

The parcel of land to which this description applies contains 1.4 acres.

2. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Condemnation Resolution No. 597-a.

EXHIBIT "H-10"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Oakland-Deady Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chaper 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

EXHIBIT "H-10" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Oakland-Deady Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner, or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as through set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the widening, construction, improvement and maintenance of the said Oakland-Deady Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 4th day of June, 1956, as Condemnation Resolution No. 645.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 645, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I"

Minutes of June 4 and 5, 1956

RESOLUTION

WHEREAS, the Baker-Homestead Highway is a primary state highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, the Idaho Power Company is engaged in the construction of the Brownlee Dam, which, when completed, will encroach upon the right of way of the Baker-Homestead Highway; and

WHEREAS, the route of the present Baker-Homestead Highway must be changed to pass around the end of the Brownlee Dam; and

WHEREAS, the Highway Commission deems it necessary and in the best interests of the travelling public that the route of the Baker-Homestead Highway be changed so as to pass around the Brownlee Dam.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. The route of the Baker-Homestead Highway is changed to a course which follows around the Brownlee Dam.

2. That this resolution be entered in the minutes and records of the Highway Commission on this 5th day of June, 1956, as Primary Highway Designation Resolution No. 23.

The Commission approved the minutes of the meetings held on April 26 and 27, 1956, and on June 4 and 5, 1956.

The State Parks Superintendent reported on the following park matters:

1. Offer of the City of Medford to convey to the State as a gift, for park purposes, an area known as Prescott Park on Roxy Anne Butte: The Parks Superintendent stated that a study previously authorized by the Commission reveals that the area contains 1,740 acres of land and that some improvements were made during the CCC days; also, that excellent views of the surrounding country can be had from the property. He estimated that it would cost approximately $110,000 to repair the existing park facilities and to place the park in a satisfactory condition. He predicted that approximately 40,000 persons would visit the area annually, most of whom would be local people, and he estimated the annual maintenance cost at about $4,000. He pointed out that the cost to develop and maintain the park would be high in relation to its use, in view of which he recommended that the area not be accepted as a state park. The Commission adopted the recommendation.

2. Proposed expenditure for publication of a report on state parks, prepared by the State Parks Advisory Committee: The Parks Superintendent recommended that 1,000 copies of this report be prepared at an expenditure of $750. The Commission approved the expenditure.

3. Request for fencing along the west side of Collier State Park to keep cattle off the highway and out of the park: The problem of cattle in the park, the Parks Superintendent stated, has reached serious proportions, it being necessary to drive from 100 to 200 cattle out of the park daily. The cattle belong to the Indians and inasmuch as there is no herd law, the only way to control them is to drive them out of the park or to build a fence along the west side of the highway and the park so they cannot enter. He recommended construction of approximately one mile of fence and the installation of a cattle guard across the county road west of the park, at an estimated cost of $900. The Commission approved the expenditure.

4. Request of Happy Cat Bowmen Archery Club, Pendleton, for use of an area approximately one mile west of the developed section of Emigrant Springs State Park as an archery range: This matter, the Parks Superintendent stated, has been checked thoroughly by his department and the Division Engineer. The club, he stated, has agreed to preserve the area in its natural state and will abide by rules and regulations which the State may establish. The Deputy Engineer commented that he could see no objection to such use of the area which is parallel to and north of the Old Oregon Trail, if proper precautions are taken to protect the public. Commissioner Reynolds observed that it does not appear necessary to erect a special fence to keep pedestrians out of the area but if such a fence is required the club should be required to in-

stall it. The Commission approved the request and ordered the matter covered by an appropriate written agreement to be prepared by the Chief Counsel.

5. Restriction on the use of horses in Wallowa Lake State Park: The Parks Superintendent reported that numerous complaints have been received from picnickers and overnight campers that horseback riders are permitted to use the roads and the camping area in the park. Many people who are not interested in horses, he said, have a hard time reconciling the presence of horses in the area that they use. He recommended that horses be prohibited from the picnic and camping areas in the north part of Wallowa Lake State Park. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT " I " which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

6. Consider additional expenditure of $500 for improvements in the new concession building at Depoe Bay: The Parks Superintendent stated that the concessionaire has requested the following: Installation of a door in the opening between the storage bay and the furnace room; the installation of doors or gates to shut off a portion of the main lobby to permit only one person to operate the concession in slack times; and, a change in the entrance from a low step to a sloping ramp. These improvements, he stated, will be beneficial to the operator and to the State and he recommended that they be installed at an estimated cost of $500. The Commission approved the expenditure.

7. Request of the State Board of Aeronautics and the Nehalem Bay Expansion Association for permission to construct an aeroplane landing strip on the Nehalem Bay Sand Spit: The Parks Superintendent stated that there is little objection to the air strip from the Park viewpoint but there is involved the new location of the Oregon Coast Highway which has not been determined. He further stated that it is proposed to locate the flight strip on the east edge of the state park land and 500 feet from the center line of the proposed new highway. It was his thought that permission to construct the flight strip should not be granted until the location of the highway is definitely known. The Commission decided to defer action for future consideration.

(A delegation which appeared before the Commission on the following day was so informed.)

8. Attendance of the Parks Superintendent and the Assistant Parks Superintendent at the National Conference on State Parks in Grand Teton National Park, Wyoming, during September 7-11, 1956: The Commission authorized the Parks Superintendent and the Assistant Parks Superintendent to attend this conference at an estimated total cost of $400.

9. Request of The Pacific Telephone and Telegraph Company for permission to install two telephone booths in Cape Lookout State Park: The Parks Superintendent advised that the Company proposes to install one booth in the overnight camping area and one in the day-use area at locations to be determined by the Parks Superintendent; also, that the Company has agreed to pay all installation and maintenance costs and to pay to the Highway Department 15 per cent of all receipts. He recommended approval of the Company's request on the basis outlined. The Commission approved his recommendation.

10. Request of the Conservative Baptist Association of Oregon for permission to construct a recreation hall in the North Falls Youth Camp area in Silver Falls State Park: The Parks Superintendent reported that the Association which is managing this area proposes to construct a new steel building designed for recreational use, at a cost of approximately $18,000, and is asking the State to contribute one-half the expense but not to exceed $9,000, the building to become the property of the State. The use of this area, he continued, is very heavy during the summer months and the Association has arranged to run the camp at full capacity from the forepart of June to Labor Day. The present recreation building is needed now for living quarters for park personnel and for the staff who operate the camp. If the new building is constructed it is planned to convert the old one for living quarters.

He also pointed out that it will be necessary in the next few years to reconstruct the buildings which are being used for youth camp purposes as they are of timber construction and approximately 20 years old.

He called attention to a previous agreement with the Association in which the Association agrees to finance and construct a swimming pool in the area, for which they are to receive free use of the pool for a period of 10 years. They have not proposed any extension of this time in their request for the building construction. He recommended that the request be approved, the State's share to be included in the 1957 budget.

The Deputy Engineer pointed out that under such an arrangement there is a possibility of adverse criticism for granting exclusive use of the building to the Baptist Association. He suggested that if the Commission approves of the building that it be paid for entirely with State money. The Parks Superintendent explained that, in order to operate the youth camp at maximum efficiency and to provide that the facilities be used by the largest number of youth, it is necessary that the camp be operated by one group for the entire season. He pointed out that the operation of a youth camp requires a considerable staff, including cooks, nurses, doctors, and laborers, and it is not feasible for groups to organize for a very short period of time. The Commission deferred action on the matter until later in the session.

(On the following day this matter was again discussed. The Parks Superintendent pointed out that, although the youth camp is under the

management of the Baptist Association, other youth groups use the camp but their use is scheduled by the Baptist Association. As a result of the discussion motion was made by Commissioner Reynolds that the building be constructed by the State at an estimated cost of $18,000, funds for the same to be provided in the 1957 budget, and that the State keep control of the building. Commissioner McIver seconded the motion and it was declared unanimous by Chairman Chandler).

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for highway right of way and for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

In this connection the Right of Way Engineer called attention to an option received from Charles S. and Myrtle Garrett for property on the Chenoweth Park-Deady Section of the Pacific Highway in Douglas County. He pointed out that this land is needed for the Oakland Interchange and that Mr. Garrett now wants to rescind the option because, he alleges, the right of way line is not as he understood it to be. The Right of Way Engineer recommended that the Commission accept the option as presented and, if Mr. Garrett fails to go through with the deal, that the Chief Counsel be authorized to condemn the property and to make an offer of $6,500 for the same. The Commission adopted the recommendation. The Chief Counsel was authorized to condemn Mr. Garrett's land if he will not deal in conformity with the terms of the option.

Commissioner McIver inquired as to the status of right of way acquisition on Adams Street in McMinnville. The Right of Way Engineer replied that only three parcels are not acquired and that two of them probably will have to be condemned.

Commissioner McIver also inquired as to property acquisition on the "Q" Street route between Eugene and Springfield. The Right of Way Engineer stated that the only properties acquired so far have been those which the owners wanted to sell or where building construction was contemplated. The Deputy Engineer commented that a portion of the "Q" Street route between Ferry Street Bridge and the proposed interchange has been declared part of the Interstate System and, as such, it is now possible to acquire right of way which will be paid for 90 per cent with Federal funds and 10 per cent with State funds.

The Commission granted the Right of Way Engineer's request for authority to negotiate acquisition of three properties that are needed for enlargement of the maintenance headquarters in Sweet Home, as follows:

COUNTY AND SECTION	FILE NO. AND NAME	PURPOSE	AREA	HIGHWAY
Linn Sweet Home Section	24885-Randolph	Maintenance	.28 ac.	Santiam
	24886-Wells	"	"	"
	24887-Koenon	"	"	"

The Commission accepted a report presented by the Right of Way Engineer showing sales of miscellaneous properties since the last Commission meeting.

(For details see Miscellaneous Sales Report, dated July 12, 1956, signed by W. H. Haskin, in the General Files).

The Commission also accepted a supplemental rental report presented by the Right of Way Engineer showing new rentals of State-owned properties and rental terminations during the period May 25, 1956 to July 1, 1956.

(For details, see supplemental rental report signed by Mr. W. H. Haskin, in the General Files).

The Right of Way Engineer presented for the Commission's approval four indentures of access. He explained that these indentures provide only for a change in existing points of access and that in no instance is additional access being granted. He recommended and the Commission approved changes in access on the following properties:

1. Arthur James and Ethel Mae Sherman, File No. 17936, on the Lapine-Diamond Lake Section of The Dalles-California Highway in Klamath County.

2. Edgar N. and Fauna Delores Roberts, File No. 20569, on the Deception Creek-Oakridge Section of the Willamette Highway in Lane County.

3. Columbia Hospital District, File No. 22132, on the Goble-St. Helens Section of the Columbia River Highway in Columbia County.

4. Central Oregon Irrigation District, File No. 22950, on the Deschutes River Section of the McKenzie Highway in Deschutes County.

The matter of compensating Nola Foss Turner for damages to a well on her property on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County was discussed. The Right of Way Engineer stated that the well deteriorated and the State Geologist who investigated it gave as his opinion that a deep highway cut near the well was a

contributing factor. Inasmuch as the State had agreed to inflict no damage to the property owner's water supply, he recommended that she be paid the sum of $750 provided that she will give a complete release of all obligations of the State in connection with preservation of the well. The Commission approved the payment.

Presented by the Right of Way Engineer was the matter of compensating the U. S. Forest Service in the sum of $2,222.98 for timber removed from the right of way of the Willamette Highway through the National Forest between Odell Lake and The Dalles-California Highway Junction, in Klamath County. He explained that it is standard practice for the State to pay for timber removed from right of way through National Forest lands. He recommended that the payment be made and that he be authorized to sign the contract coverirg the payment. The Commission approved his recommendation.

The Commission gave attention to the payment of damages inflicted to a bridge owned by O. F. Franklin caused by flood water diverted through a drainage ditch across his property on the Gervais-Hayesville Section on the Portland-Salem Expressway in Marion County. The Right of Way Engineer stated that because of extremely heavy rains of the preceding winter a much greater volume of water than was anticipated was diverted through a drainage ditch across Mr. Franklin's property and as a result thereof the abutments to his bridge were washed away. The State, he said, is responsible for the damage and Mr. Franklin has agreed to accept the sum of $200 as payment in full for a complete release. He recommended settlement on such basis. The Commission approved the payment

Authority was requested by the Right of Way Engineer to advertise for public sale 9.86 acres of excess land acquired with the Eden property, File No. 24145, on the Valley Junction-Sheridan Section of the Salmon River Highway in Polk and Yamhill Counties, for a minimum price of $4,000. The Commission granted the authority by adopting the attached resolution relative thereto, marked EXHIBIT "B-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission considered selling to Douglas County 5.85 acres of land on the Deady-Shady Section of the Pacific Highway in Douglas County. The Right of Way Engineer explained that the land is excess property no longer needed for highway purposes and is desired by Douglas County. The County has agreed to pay the sum of $1,200 for the property which is the same amount that the State paid for the property. Following his favorable recommendation, the Commission approved the sale.

The Right of Way Engineer requested authority to offer for public sale approximately 1.5 acres of excess property secured from a Mr. Gronke, File No. 17363, on the Salem By-Pass Section of the Pacific Highway East in Marion County, at a minimum price of $2,000 per acre. The Commission authorized the sale by adopting the attached resolution relative thereto, marked EXHIBIT "B-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Conveyance to Tillamook County of 0.67 on the Tillamook-Hebo Section of the Oregon Coast Highway was discussed. This property, the Right of Way Engineer explained, was originally acquired as a stock pile site from a Mr. Schau, and Tillamook County now desires to relocate a county road across it. The County, he added, intends to vacate a portion of its existing road which will be available to the State. He recommended and the Commission approved conveyance of the property to Tillamook County.

Relinquishment of title to a haul road acquired on the Shady-Canyonville Section of the Pacific Highway in Douglas County was presented by the Right of Way Engineer. He stated that the haul road which was acquired to provide access to a gravel source is no longer needed for this purpose and the County wants to use it as a county road, and will petition the Public Utilities Commissioner for a public crossing where said road intersects the Southern Pacific Railroad right of way. Upon the Right of Way Engineer's favorable recommendation the Commission approved relinquishment of title to Douglas County.

Consideration was given to a form of agreement with the Southern Pacific Company covering a longitudinal encroachment on railroad property on the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway in Coos County. The Right of Way Engineer explained that such encroachment is necessary in order to avoid greatly increased highway construction costs which would result were no encroachment provided. He presented a form of agreement covering the matter and recommended its approval. The Commission approved the agreement.

The Right of Way Engineer presented for the Commission's consideration a revised grant of access in favor of the U. S. Army Engineers from the Willamette Highway to Lookout Point Dam. He explained that in a previous right of access granted June 26, 1953, the access had been limited to use by the U. S. Army Engineers. The revised access provides that it may be used for public parking, recreational and boat-landing purposes, provided that no commercial use is made thereof. The Commission approved the revised access.

Also considered was a right of access requested by the Game Commission across a gravel bar owned by the State Highway Department at Robertson Bridge over the Rogue River near Grants Pass. This access, the Right of Way Engineer explained, is to provide access from the highway to the river for recreational and boating purposes. Upon his favorable recommendation, the Commission approved the access.

Relinquishment of title from the State to the City of Reedsport on a parcel of property located at the intersection of 7th Street and the Oregon Coast Highway in the City of Reedsport was presented by the Right of Way Engineer. He explained that the City is vacating a street adjoining the State's property and a portion of the vacated street will revert to the State. To widen the nearby intersection, the City has requested the use of a small piece of land. As the transfer of properties is advantageous to both the

City and the State, he recommended approval of the relinquishment without monetary consideration. The Commission accepted his recommendation.

Transfer to Deschutes County of a stock pile site in the city of Bend was brought up by the Right of Way Engineer. He advised that about 20 years ago the County deeded three or four lots to the State without cost. These lots, he said, have not been used for 10 years and he recommended that they be reconveyed to Deschutes County. The Commission approved such transfer.

The Chief Counsel requested authority to institute condemnation proceedings to acquire a number of properties needed for highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution dated December 20, 1951.

Pendleton-Pilot Rock Section of the Pendleton-John Day Highway

R-24223- Anna E. Hawke, Everett J. Hawke and Luella Hawke

R-24650- J. C. Anderson and Kathryn Anderson (Multnomah County)
Parcel No. 1: 982 square feet for Right of Way
Parcel No. 2: 596 square feet for Construction Easement

Right of way maps, construction plans and other data were submitted to the Commission and the Deputy Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions, marked EXHIBITS "C-1" through "C-19", which resolutions by this reference are made part hereof, with like effect as though extended in full herein.

The Commission accepted the Chief Counsel's report of condemnation cases tried in courts since the last Commission meeting, as follows:

REPORT OF CONDEMNATION CASES TRIED MAY 30, 1956 TO JUNE 30, 1956

Case	County	Highway	Section	State's Offer	Defendant's Demands	Verdict
Kruschke R-21576	Clackamas	Clackamas Secondary	Clackamas Overcrossing	$1,850	$10,000	$ 2,250

The Chief Counsel presented a list of offers that were tendered to property owners for acquisition of real property prior to the institution of condemnation proceedings as authorized by the Commission in its resolution adopted December 20, 1951. The Commission approved the offers as follows:

Myrtle Creek-Canyonville Section of the Pacific Highway:

R-21013 - Adeline Weaver, et vir. 7.72 acres for right of way purposes. Offer of $4,450.00 approved by Mr. McIver June 19, 1956.

R-21031 - Alton E. Alspaugh, et ux. 1.21 acres for right of way purposes and 0.23 acre for excess taking. Offer of $400.00 approved by Mr. McIver June 19, 1956.

R-24581 - Gerald Moore, et al. 0.4 acre for a haul road. Offer of $200.00 approved by Mr. McIver June 19, 1956.

Catching Slough-Chandler Bridge Section of the Coos River Highway:

R-24589 - Henry Wills, et al. 1.5 acres for right of way purposes. Offer of $750.00 approved by Mr. McIver June 27, 1956.

Catching Slough-Chandler Bridge Section of the Coos River Highway- Cont.

R-24606 - Fred Brunell, et al. 1.26 acres for right of way purposes. Offer of $1,745.00 approved by Mr. McIver June 27, 1956.

Mt. Hood Highway:

R-24666 - Robert T. Morris, et ux. 0.3 acre for right of way purposes. Offer of $1,650.00 approved by Mr. McIver June 27, 1956.

R-24667 - Robert T. Morris, Jr., et al. 0.3 acre for right of way purposes. Offer of $1,050.00 approved by Mr. McIver June 27, 1956.

Columbia River Highway:

R-24183 - Paul R. Martin, et ux. 1.21 acres for right of way purposes. Offer of $35,000.00 approved by Mr. McIver June 27, 1956.

Dodson-Bonneville Section of the Columbia River Highway:

R-23911 - Erick Enquist, et ux. 0.045 acre for right of way purposes. Offer of $50.00 approved by Mr. McIver June 11, 1956.

Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway:

R-24718 - Glenn E. Park, et al. 0.025 acre for right of way purposes. Offer of $800.00 approved by Mr. McIver June 6, 1956.

Florence-Douglas County Line Section of the Oregon Coast Highway:

R-24785 - Arthur W. Gudge, et ux. 0.08 acre for right of way purposes. Offer of $100.00 approved by Mr. Chandler July 6, 1956.

R-24788 - George H. Coulsey, et ux. 0.08 acre for right of way purposes. Offer of $100.00 approved by Mr. Chandler July 6, 1956.

Havana Section of the Havana-Helix Secondary Highway:

R-24200 - Andrew C. Rothrock, et al. 0.7 acre for right of way purposes. Offer of $70.00 approved by Mr. Reynolds July 10, 1956.

Ukiah-West Forest Boundary Section of the Ukiah-Hilgard Highway:

R-24460 - Gearold Hilbert, et al. 0.50 acre for right of way purposes. Offer of $50.00 approved by Mr. Reynolds July 10, 1956.

Old Oregon Trail Highway:

R-24806 - James S. Payne, et al. 3.96 acres for the acquisition of roadbuilding materials. Offer of $800.00 approved by Mr. Reynolds July 10, 1956.

Coos Bay Secondary Highway:

R-24933 - Ada May Reinertson, et vir. 1540 square feet for right of way purposes. Offer of $2,500.00 approved by Mr. Chandler July 6, 1956.

The Commission also accepted a report by the Chief Counsel concerning matters that have been before the Public Utilities Commissioner as follows:

PUX 143: Hillsboro Crossing Signal Project. The Highway Commission is to reimburse Southern Pacific Company for 50 per cent of the cost of the signals and the cost of removing and reinstalling certain crossing signs on West Baseline Street and West Oak Street in the city of Hillsboro.

PUX 174: Signal protection at the intersection of the tracks of Oregon Electric Railway Company and the Claxter Road north of Salem. The PUC order provides for equal division of cost between Marion County and the Railway Company.

PUX 179: Railway train speeds within the limits of the city of Eugene. The City had requested speed limits not to exceed 30 miles per hour at all street grade crossings. On May 11, 1956 the City filed its motion to dismiss without prejudice and cost.

PUX 180: Grade crossing of street known as Industrial Way in the city of Salem. Oregon Electric Railway Company is to bear the cost of construction of the crossing and the installation and maintenance of signs at the crossing.

Consideration was given to a petition requesting vacation of a portion of an alley in the city of Juntura which bisects State Highway property. The Chief Counsel explained that the petition was requested by the Engineer so as to join maintenance areas on each side of the alley. The City of Juntura, he said, is agreeable to the vacation of the alley, and he recommended that the petition be approved. The Commission approved the petition.

Abandonment of two damage claims on which there appears to be very little chance of recovery were presented by the Chief Counsel, as follows:

CAO-156-185, Vera Martin: Mrs. Martin was inadvertently billed for damages in the amount of $61.20, which her car did not inflict. Measures have been taken to prevent recurrence of such an error.

CAO-155-110, Tress McClintock: The claim of $23.14 is for damage to the highway surface caused by the burning of McClintock's

hay truck and trailer. His insurance company has denied the claim. As it will be difficult to establish negligence on Mr. McClintock's part he recommends abandonment of the claim.

The Commission approved abandonment of both claims.

The Chief Counsel requested and the Commission granted authority to institute legal proceedings for the collection of damages to State Highway facilities, as follows:

1. CAO-54-43, Oscar W. Francis, Jr., damage to Johnson Creek Bridge, $399.16.

2. CAO-54-76, William Junior Posey, damage to State vehicle, $79.82.

3. CAO-55-37, Robert S. McMahon, damage to State vehicles, $50.00.

4. CAO-55-65, Edward C. Koski, damage to gatepost and gate at The Dalles Maintenance Yard, $53.52.

5. CAO-55-101, Dale Snowden, damage to guard fence, $84.65.

6. CAO-56-203, P. R. Carpenter, et al., timber trespass, $453.90.

7. CAO-56-260, Orville Lock, et al., timber trespass, $651.00.

Following the favorable recommendation of the Chief Counsel, the Commission authorized the employment of Mr. Donald R. Stark as an attorney to fill the position of Chief of the Title Section, at a beginning salary of $426 per month. The Chief Counsel explained that he plans to employ Mr. Stark as Acting Chief of the Title Section for a period long enough to determine if he can competently handle the duties and, if he can, he plans to promote him to Chief of the Title Section. The Commission approved the employment of Mr. Stark.

The Commission gave attention to a petition for vacation of an alley in the city of Lakeview. The Chief Counsel explained that the Highway Commission is the owner of three parcels of property in blocks 128, 145, and 176, adjacent to and southerly from the Klamath Falls-Lakeview Highway. Each of the blocks is bisected by an alley, and as the property is used as a maintenance site it will be of considerable advantage to fence and use the entire area. Upon his favorable recommendation, the Commission approved the petition.

The Deputy Engineer reported that under authority previously granted by the Commission, he has awarded contracts which were referred to the Engineer to award when certain conditions had been satisfied, as follows:

(1) Grading and paving on Gallagher Street in Florence, Lane County. Bids received June 5, 1956. Conditions of award satisfied June 7, 1956. Contract awarded to Umpqua River Navigation Company, Reedsport, low bidder.

(2) Grading and oiling on Clackamas River Park Interchange Section of Pacific Highway East, Clackamas County. Bids received April 26, 1956. Conditions of award satisfied June 7, 1956. Contract awarded to Parker & Fuhrman, Portland, low bidder.

(3) Paving on Orchard Avenue in Hermiston, Umatilla County. Bids received June 4, 1956. Conditions of award satisfied June 11, 1956. Contract awarded to Russell Olson Constr. Co., Inc., Pendleton, low bidder.

(4) Grading and oiling the Van Sycle-Helix Section of Helix-Van Sycle County Road, Umatilla County. Bids received April 27, 1956. Conditions of award satisfied June 13, 1956. Contract awarded to Vernie Jarl, Gresham, low bidder.

(5) Paving Nachez and "F" Streets in Vale, Malheur County. Bids received June 5, 1956. Conditions of award satisfied June 13, 1956. Contract awarded to T. W. Thomas, Portland, low bidder.

(6) Grading, oiling and structures on Luckiamute River Bridge Section of Independence-Albany Highway, Polk County. Bids received June 5, 1956. Conditions of award satisfied June 15, 1956. Contract awarded to Tom Lillebo, Reedsport, low bidder.

(7) Paving "E" Street in Culver, Jefferson County. Bids received June 5, 1956. Conditions of award satisfied June 15, 1956. Contract awarded to Babler Bros., Inc., Portland, low bidder.

(8) Grading and paving Pioneer Road and Easy Street in Brookings, Curry County. Bids received June 4, 1956. Conditions of award satisfied June 19, 1956. Contract awarded to Warren Northwest, Inc., Portland, low bidder.

(9) Grading and paving South Oakland Interchange, Chenoweth Park-Deady Section of Pacific Highway, Douglas County. Bids received June 5, 1956. Conditions of award satisfied June 25, 1956. Contract awarded to Roseburg Paving Co., Roseburg, low bidder.

(10) Paving Hayhurst Road in Yoncalla, Douglas County. Bids received June 4, 1956. Conditions of award satisfied June 28, 1956. Contract awarded to Roseburg Paving Co., Roseburg, low bidder.

The Deputy Engineer also reported that under authority previously granted by the Commission he has ordered the removal of the existing load restrictions on the Weston-Elgin Highway, as follows, since they no longer are needed:

1. From M.P. 32.00 to M.P. 37.90, effective at 8:00 a.m., June 19, 1956.

2. From M.P. 15.75 to M.P. 32.00, effective at 8:00 a.m., June 28, 1956.

A tabulation of the high bids that were received in Salem on June 12, 1956 for the purchase of used equipment and scrap materials stored at Salem, Bend and Coquille was presented by the Deputy Engineer, who recommended acceptance of each offer. He called attention to the fact that the total amount bid for this equipment and material was $8,809.90, whereas the estimated value was set at $6,310. The Commission approved sale of the material as recommended.

Disposition of approximately 4.35 acres of property, located within the loops of the old Columbia River Highway east of Hood River, was discussed. The Deputy Engineer explained that the property was purchased several years ago as a protection against restriction of sight distance by erection of buildings, etc. Several offers, he said, have been received to purchase this land, but each was refused as it was believed that the Columbia Gorge Commission might have some objections. However, it has now been determined that the Columbia Gorge Commission has no objection to the sale of the property. Inasmuch as the old highway was turned over to Hood River County for use as a county road and is still used for such purpose, he recommended that the property be conveyed to the County without cost for such disposition as the County may wish to make of it. The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT " J ", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Deputy Engineer reported that Hood River County Court has elected to not concur in the award of the contract for grading and oiling the Indian Creek-Windmaster Corner Section of the Brookside Drive County Road, for which the Commission received bids on June 5, 1956, so it has been necessary to cancel the project for immediate construction, and that Babler Bros., who submitted the low bid for the work, have been so notified; however, the Court wants the job readvertised for bids to be received at some future time. The Commission accepted the report.

Change in status from Group II to Group I of the Wright Point Section of the Frenchglen Secondary Highway from M.P. 9.5 to M.P. 12.0 was reported by the Deputy Engineer. He advised that reconstruction of this highway section has been completed and that test runs using

vehicles having an over-all length of 60 feet reveal that such equipment can negotiate the turns without encroachment in the opposing traffic lane. He asked the Commission to approve his action in changing the classification. The Commission approved the reclassification as reported.

The Commission considered a request from Mr. E. B. McNaughton, Portland, for an extension of the frontage road adjacent to US 99E north of the city of Milwaukie, known as Harvester Road, to connect with Main Street in Milwaukie. The Deputy Engineer exhibited a map showing the requested extension and stated that it will not in any manner cure the traffic problem at the intersection of McLoughlin Boulevard and the old Sellwood-Milwaukie Highway, known as North River Road. The City, he stated, has acquired the right of way for the frontage road extension but has not concurred in plans proposed by the Highway Department for the solution of the intersection problem, which he explained in detail. He added that the City wants an interchange at this point which is estimated to cost approximately $500,000, and which, in his opinion, is not justified. He recalled that on January 31, 1952 the Commission denied a similar request to extend the frontage road. The Commission deferred action on the matter pending appearance of a delegation on the following day.

(Following appearance of the delegation before the Commission, the Deputy Engineer was instructed to contact the Milwaukie City Officials as to their attitude with respect to measures suggested by him for alleviation of the problem at the intersection of 99 E with River Road and through the city.)

A report was presented by the Deputy Engineer concerning an economic analysis for construction of a new highway between Dolph, on the Three Rivers Highway, and Boyer, on the Salmon River Highway. This section, he said, is 5.97 miles long and to build it will cost about $1,340,000. The rather low benefit quotient of 1.04, he stated, is caused by a saving in distance of only 0.43 mile, and the low volume of traffic which is estimated at an average of 1,000 vehicles per day 15 years from now. Because of the low benefit quotient compared with other projects, he could not recommend that the project be given a high priority at this time. The Commission accepted the report but decided not to consider the project now because of the cost involved.

The Commission gave attention to a request from Rodman & Rodman, attorneys, Eugene, for an overcrossing structure on the Pacific Highway at Hawley Riverside County Road, between Goshen and Creswell. The Deputy Engineer explained that when the new highway was constructed it was decided that there was not enough traffic to warrant construction of an overcrossing and that severance damages would be paid the property owner instead; also, that the Board of County Commissioners of Lane County signed an agreement providing for closure of this road before the project was contracted. He pointed out that a considerable sum was paid the property owners for severance damages, with the exception of two people from whom no right of way was purchased, and that a frontage road was built to allow the property owners access to another county road.

He estimated that it would cost $80,000 to build a structure over the highway to reopen the county road, and $82,000 to build a frontage road to connect with an interchange 1.8 miles to the north. He recommended that the request be denied. The Commission took no action at this time pending the appearance of a delegation on the following day.

(Following the appearance of the delegation the matter was again discussed with the Engineer, and as a result thereof, the Commission denied the request.)

The Commission considered a report submitted by the Deputy Engineer concerning the relocation of The Dalles-California Highway from the Columbia River Bridge at The Dalles, southerly to a connection with the existing highway near Eightmile Creek. The cost of this 7-mile section, the Engineer stated, is estimated at $1,750,000. He recalled that the improvement has been requested several times and in those past requests Wasco County indicated that it would acquire the right of way. Commissioner McIver commented that the traffic volume on this road is quite low, being about 1,000 vehicles per day. Chairman Chandler observed that construction of this section at the north end of the highway will not be of much benefit until the highway has been rebuilt to Madras. Commissioner Reynolds pointed out that plans are underway for construction of a bridge across the Columbia River between Biggs and Maryhill, east of The Dalles, and when the structure is completed a considerable volume of traffic will bypass The Dalles unless The Dalles-California Highway is improved. Residents of The Dalles, he stated, are greatly concerned about this matter. The Commission took no action at this time pending the appearance of a delegation the following day.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m., with the same persons present and participating.

Upon reconvening, discussion of realignment of a section of US197 from The Dalles south to Eightmile Creek was resumed. The Deputy Engineer suggested that the delegation which is to appear on the following day be advised that the project is being considered in the new five-year program. The Commission took no action at this time pending appearance of the delegation.

(The Commission made no comment following the appearance of a delegation.)

Placement of a temporary speed zone on the Wilson River Highway between M.P. 27.60 and 28.68 was reported by the Deputy Engineer. He stated that the State Police and the contractor building the new bridge on the Wilson River at the Devils Lake Fork of the Wilson River had requested the speed zone during the period of construction, and that under authority of a resolution adopted by the Commission August 6, 1953, he had approved the establishment of a 25 mile-per-hour speed zone from M.P. 27.60 to 28.68, effective 8:00 a.m., July 5, 1956. The Commission confirmed the Engineer's action.

The Commission gave attention to revised recommendations to be submitted to the Public Utilities Commissioner concerning the transportation of logs, poles or piling by motor truck. The Deputy Engineer explained that the proposed recommendations on PUC Form No. 170 provide the same hauling hours as are now permitted - namely, from 4:00 a. m. to 8:00 p. m., but side-marker lamps for hauling during the hours of darkness have been increased from one to two on each side; also, the wording of one paragraph on binder chains has been revised slightly to conform with the law. He recommended that the revised recommendations be adopted and forwarded to the Public Utilities Commissioner for his approval and reprinting. The Commission approved the recommendation. (Later in the session the Commission approved a one-hour extension of the hauling hours, from 8:00 p. m. to 9:00 p. m., and ordered such change incorporated in the revised recommendations.)

The Commission accepted a report submitted by the Deputy Engineer concerning progress of highway center-line striping during the current year and outlining the schedule for the striping crews for the balance of the summer season. He pointed out that striping is about two weeks ahead of last year's schedule and that the four large crews are averaging 1,800 miles of center line per month. He also commented that a new medium-sized paint machine has been acquired, primarily for striping contract projects as they are completed. In the discussion of the striping program, Chairman Chandler commented that he still prefers the yellow center line to the white as it seems to stay visible for a longer period of time than the white line. Commissioners Reynolds and McIver indicated concurrence. The Deputy Engineer advised that the feelings of the Commission with regard to the color of the center stripe coincides with those of the State Highway Engineer and himself, and that it is Mr. Baldock's recommendation that the color be changed back to yellow, as such color appears to be best for this state. As a result of discussion the Commission adopted the recommendation unanimously and so ordered.

The Deputy Engineer presented a report reviewing an economic survey for improvement of the Alsea Highway over Alsea Mountain. This review, he stated, offered two plans - one involving construction of 4.63 miles of new roadway and a four-lane open cut at the summit of Alsea Mountain, at an estimated cost of $2,700,000. This plan would provide a benefit quotient of 2.17. Alternate two considered construction of a four-lane tunnel at the summit, approximately 1,730 feet in length, at an estimated cost of $4,725,000. The benefit quotient for this plan would be 1.2. Comparison of the two plans, he stated, shows that the open cut plan is far superior to the tunnel plan. Although the benefit quotient of 2.17 for the open cut indicates adequate priority, he could not see how construction priority could be given at this time because of the large cost. He suggested that the matter be reviewed sometime in the future when there might be foreseeable funds to finance the project. The Commission accepted his recommendation and decided not to authorize a final location survey at this time.

The Commission considered the following items of unfinished business as shown on the Secretary's report dated June 5, 1956:

1. Request of Benton County delegation for improvement of the Alsea Highway over Alsea Mountain: The Commission ordered this item deleted from the list of unfinished business as it had been considered in a report made by the Deputy Engineer earlier in the session.

2. Request of City of Brookings for designation of a state park at Mill Creek on the ocean beach in Brookings: The Parks Superintendent stated that the request had been investigated and development of this area as a state park does not appear feasible. He recommended that the request be denied. The Commission accepted his recommendation and ordered the item removed from the list of unfinished business.

3. Feasibility study of the Diamond-Crater area near Burns for recreational development: This item is to remain on the list of unfinished business, as the Parks Superintendent's report is not yet complete.

4. Proposed installation of electrically operated gates and barriers on South Slough Bridge on Cape Arago Highway: The Deputy Engineer recommended that this item be deleted from the list of unfinished business and that it be considered as new business when the study of the effect of the new federal boat basin at this location is completed. The Commission approved his recommendation.

Consideration was given to a recommendation by the Deputy Engineer for the installation of nine new-type traffic controllers on traffic signals in the city of Salem. The Deputy Engineer explained that when the one-way street system was installed in the city of Salem, about five years ago, fixed time controllers were not installed in the signals at nine locations as they could not be acquired for installation prior to opening the one-way system. It is now desirable to replace the old type controllers and the City has agreed to pay one-half of the total cost of $2,424. The Commission approved the recommendation, the State's share, $1,212, to be paid with funds from the 1956 budget.

Consideration was also given to a request from the City of Beaverton for the widening and curbing of a section of the Farmington Secondary Highway within the city. The Deputy Engineer stated that the drainage condition in this area is particularly bad and that the City wishes to install with its own funds curbs and storm sewers, estimated to cost $14,400. Cost of widening the pavement and performance of other related items, he said, would be approximately $29,000, making the total cost of the project approximately $43,400. The amount of work which the City is willing to perform, he stated, is approximately one-third of the total project, or considerably more than the 25 percent participation which has been requested on similar projects. He recommended that the State perform the widening work in 1957, if the City will construct the necessary curbs and storm sewers this year. The Commission approved the project on such basis.

The Commission discussed the failure and refusal of Angell Bros. to execute a contract and deliver the same to the Commission, for embankment

repair on the Milo-Corn Creek Section of the Tiller-Trail Highway in Douglas County. Bids for this project were received by the Commission on June 4, 1956 and the low bid of Angell Bros. was accepted by the Commission and the contract was awarded to them; but Angell Bros. refused to enter into the contract, contending that a mistake had been made in the bid. After considering the matter, the Commission ordered that the proposal bond of Angell Bros. be forfeited to the State of Oregon, and the award withdrawn and contract cancelled.

The Commission considered and upon favorable recommendation of the Deputy Engineer approved an agreement with Southern Pacific Company covering the installation of automatic signals at the intersection of South 6th Street and the tracks of Southern Pacific Company in the city of Klamath Falls.

The Deputy Engineer requested authority to construct sections of asphaltic concrete curb along the edge of the oiled shoulder on the Gardiner-Elbow Lake Section of US 101 to prevent serious erosion of embankments. He advised that there is a total of approximately 16,000 lineal feet of roadbed which should be protected in such manner, and that it will cost an average of $0.376 per foot, or a total of about $6,000. The Commission approved the expenditure as a Minor Betterment project.

The Deputy Engineer also requested authority to advertise for bids for a blanket contract of one year's duration to provide approximately 100 hours of flying and photographic time and 1500 aerial photos. He explained that to make full use of photographic equipment recently purchased and to expedite certain surveys, it is desirable to have the aerial photography performed on short notice, which cannot now be done when it is necessary to receive competitive bids for each project. Under the terms of the proposed contract, he stated, the contractor would be required to immediately photograph and furnish aerial pictures as are required. He estimated the cost involved at $10,000. The Commission approved the request.

The Commission considered and upon the favorable recommendation of the Deputy Engineer adopted a method of procedure for the handling of county emergency relief projects. The Deputy Engineer explained that the Federal-aid Road Act provides for federal participation up to 50 percent of the cost to repair and reconstruct county federal-aid secondary routes that were damaged during the storm and flood of December, 1955, the balance to be paid by the counties concerned. However, the administrative work to collect federal funds must still be performed by the State Highway Department. The only expense to the State, he stated, would be the cost of preparing simple plans and the paper work involved in presenting claims for federal funds.

The Commission confirmed prior verbal approval for an estimated expenditure of $26,000 to seal the pavement on the Goshen-Cottage Grove Section of US 99 Freeway. The Deputy Engineer explained that to avoid risk of pavement failure it was considered necessary to seal this section in the same manner as other newly constructed sections are sealed, and

that bids for the project are to be received at this letting on the basis of prior verbal authority. The Commission confirmed the action.

The payment of additional costs in moving and replacing the Aloha-Huber Water District's pipe line facilities on the Beaverton-Reedville Section of the Tualatin Valley Highway was considered. The Deputy Engineer recalled that under terms of an agreement entered into in 1955 the Water District was to furnish all new pipe and pay for betterments, and the Highway Department's participation was to be limited to the payment of the cost to relocate the existing facilities, for which the Commission authorized an expenditure up to $9,000. In relocating the pipe line, it was considered desirable to fill several of the pipe line trenches under the pavement with crushed rock to avoid settlement which might have occurred with an earth fill. This caused an overrun of $622.91 above the amount authorized. He recommended payment of the additional expense, raising the total authorization to $9,622.91. The Commission approved the recommendation.

The Commission confirmed telephone authority to advertise for bids to be received at the July, 1956 meeting of the Commission for surfacing and paving the Rickreall-Dolph Corner Section of the Salem-Willamina Highway. The Deputy Engineer recalled that an amount of $225,000 was originally allocated for this project, but due to increased costs in surfacing and paving and the necessity to haul rock nine miles from the nearest suitable source the estimated cost of the project has increased to approximately $350,000. He recommended and the Commission approved an increase of $125,000 in the project authorization for this job.

The Deputy Engineer also mentioned that although a satisfactory bid for this project was received at today's bid opening, it is his considered opinion that it would be unwise to award the contract until the Supreme Court has ruled on the Joe Harland appeal from the decree of the lower court which denied his application for an injunction to stop the improvement. The project, he stated, cannot be completed this year even though the contract be awarded now. He recommended, in view of the circumstances, postponement of the award of the contract until the August Commission meeting. The Commission accepted the recommendation.

The Deputy Engineer requested authority to advertise for bids to be received at the August meeting for construction of a turnoff for the Front Street connection of the one-way couplet on the Oregon Coast Highway in Coos Bay. He explained that the State was unable to acquire sufficient right of way from Southern Pacific Company at its depot site for an adequate turnoff and that a temporary connection was provided which has not proved satisfactory. The City of Coos Bay, he added, has now acquired the necessary right of way and he requested authority to proceed with the project at an estimated cost of $13,000. The Commission approved the project, which is to be performed by state forces if that can be done legally, otherwise it is to be contracted in the usual manner.

The County Court of Morrow County, represented by County Judge Garnet Barrett and County Commissioner Ralph I. Thompson, appeared

before the Commission concerning improvement of the Heppner-Spray Highway. Judge Barratt requested realignment and paving of this highway, between Chapin Creek and the Wheeler County line, a distance of 11.1 miles. He stated that he had discussed the matter with a member of the U. S. Forest Service, who indicated that he would recommend improvement of the section as a Forest Highway Project. He pointed out that traffic over this road has doubled since 1952 and that a lot of logs are being trucked over it. He referred to a recent Commission biennial report which showed that very little improvement has been made on this highway since it was originally constructed, and he declared that to his recollection only one contract, which was a rock production project, had been performed on the highway in the last thirty years. The Deputy Engineer stated that a new Forest Highway Program would soon be formulated and consideration could be given to the project at that time. He estimated that the work requested would cost approximately $700,000 and would require two or three years to complete. Judge Barratt commented that in his opinion the road justifies improvement as much as the Ukiah-Hilgard Highway, and that the County is not getting its fair share of highway monies. Commissioner Reynolds stated that people who are interested in this road should make every effort to sell the project to the Forest Service people; also, that the project will be considered in formulating the next forest highway program, but no definite commitment to it can be made now.

Judge Barratt also called attention to the need for a footpath along the Heppner Highway, No. 52, from the school grounds to the fairgrounds in the city of Heppner. He stated that he would be willing to deed without cost land that he owns which could be utilized for the footpath. The School Board, he stated, has indicated its willingness to share in the cost of the work up to $500 or $600. The Commission referred the matter to the Engineer for investigation and report.

The Deputy Engineer reported a request from Columbia County for an additional FAS project for construction of the North Fork Scappoose Creek Bridge on FAS Highway 609, in the amount of $25,000. The County, he said, also requests that the Oak Ranch Creek Bridge project on FAS 567, approved by the Commission on January 26, 1956, in the sum of $22,000, be cancelled. He explained that underruns in other Columbia County FAS projects have left $3,000 available so that no additional authorization is required. He recommended approval of both requests. The Commission approved the substitution of projects as recommended.

The Commission considered a request made by the Deputy Engineer for purchase of engineering equipment for 12 new survey crews which, he said, are needed to meet the requirements of the expanded highway program. To equip the crews, it is necessary to furnish desks, filing cabinets, calculators, transits, levels, etc. The estimated cost of this equipment is approximately $31,000, and as at least 90 days will be required to make delivery, he requested authority to order the equipment immediately. The Commission approved the request.

The Engineer reported completion of a number of location surveys as follows:

(1) China Gulch-Copper Road Section of the Medford-Provolt Highway, Jackson County. (1956 Emergency Relief Fund Project). (See EXHIBIT "H-1").

(2) Whiteson Unit of the South Yamhill River-Amity Section of the Pacific Highway West in Yamhill County. (Relocation to eliminate the hazardous vertical curve known as the Whiteson Dip) (See EXHIBIT 'H-2').

(3) Finn Rock-Elk Creek Section of the McKenzie Highway in Lane County. (Relocation to eliminate a number of dangerous curves) (See EXHIBIT 'H-1').

(4) River Banks Farm Section of the Rogue River Loop Highway in Josephine County. (Relocation required to raise the roadbed above flood waters) (See EXHIBIT 'H-1').

(5) Willowdale-Lyle Gap Unit of the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County. (Relocation to improve alignment of this highway) (See EXHIBIT "H-2").

(6) Walton-Noti Section of the Richardson-Eugene Highway in Lane County. (This survey in general follows the existing highway, but departs slightly at a few points to eliminate sharp curvature) (See EXHIBIT 'H-1').

(7) Gold Beach-Cape Sebastian Section of the Oregon Coast Highway in Curry County. (Relocation to modernize alignment of this highway section.) (Chairman Chandler commented that construction will not be started until the right of way had been acquired.) (See EXHIBIT 'H-2')

The Engineer explained that these location surveys have been carefully selected to provide the best highways for the traveling public commensurate with modern standards and cost, and he recommended their approval. As a result of careful study the Commission approved the surveys by adopting the attached resolutions relative thereto, marked EXHIBIT "H-1" and EXHIBIT 'H-2', which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Deputy Engineer requested an increase in project authorization for the Walton-Noti Section of the Richardson-Eugene Highway. He explained that when the original estimate was made for this improvement it was believed that only 8 inches of additional rock would be needed to carry the traffic; however, later investigations indicate that 12 inches of material will be required to support the heavy log trucks that use this road. He offered two alternatives:

1. To shorten the project to six and one-half miles, leaving two and one-half miles unimproved.

2. To increase the project authorization from $300,000 to $440,000, it being estimated that the additional rock will cost about $140,000. He recommended that the project authorization be increased to $440,000 and that he be authorized to call for bids for improvement of the entire nine-mile section at the August letting. The Commission approved the recommendation.

The Commission discussed a resolution from the City of Brookings requesting the resurfacing of the Oregon Coast Highway between Pacific Avenue and Oak Street in Brookings. The Deputy Engineer advised that a personal investigation of the highway was made by Mr. Stiffler, Assistant Highway Engineer, and that arrangements have been made to do some patching work and to reseal the pavement in the near future, which should take care of the situation. The Commission accepted the report.

The Commission also considered a resolution from Coquille Grange No. 396, Coquille, Oregon, requesting early construction of a modern highway between the Pacific Highway and the Oregon Coast Highway, located as near as possible along the route of the existing Coos Bay-Roseburg Highway. The Deputy Engineer stated that engineers are not available to conduct such survey; moreover, the project is too big to handle in the foreseeable future. He recommended that the request be denied. The Commission indicated concurrence in the Engineer's viewpoint but deferred action pending appearance of a delegation on the following day. (The Douglas County Court, which appeared before the Commission on the following day, made no mention of this project.)

The Commission considered and upon recommendation of the Engineer, granted extensions of time within which to complete state highway contracts as follows:

1. C. J. Eldon, Contract No. 4488, for grading and surfacing the Bruce Junction-Martins Lake Section of Martins Lake Road in Benton County, requested an extension of time from November 30, 1955 to July 1, 1956. Approved to June 4, 1956, the actual completion date of the contract. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

2. The United Contracting Co., Contract No. 4459, for paving the Cannon Beach (2nd Street-1st Street) Section of the Oregon Coast Highway in Clatsop County, requested an extension of time from September 15, 1955 to July 31, 1956. Approved to and including June 19, 1956, the actual completion date of the contract. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

3. Tom Lillebo, Contract No. 4426, for construction of the Applegate River Bridge on the Redwood Highway in Josephine County, requested an extension of time from December 31, 1955 to April 15, 1956. Approved

as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

4. Enoch I. Maerz, Contract No. 4512, for Detroit Lake State Park Overnight Camp Facilities on the North Santiam Highway in Marion County, requested an additional extension of time from May 31, 1956 to November 30, 1956. Extension approved to July 15, 1956. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

5. Lee Hoffman, Contract No. 4521, for construction of a bridge over the Siletz River on the Siletz Highway in Lincoln County, requested an extension of time from July 31, 1956 to October 31, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

6. Tom Lillebo, Contract No. 4356, for replacement of dolphins on the Umpqua River Bridge Pier Protection project on the Oregon Coast Highway in Douglas County, requested an additional extension of time from May 1, 1956 to July 31, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

7. Petersen Construction Company, Contract No. 4441, for Expansion of Beverly Beach State Park on the Oregon Coast Highway in Lincoln County; requested an additional extension of time from December 31, 1955 to May 16, 1956. Approved to May 16, 1956, the actual completion date of the contract. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

8. K. F. Jacobsen & Co., Inc., Contract No. 4382, for grading and paving the Rock Creek-Damascus Section of Clackamas-Boring County Road in Clackamas County, requested an extension of time from October 1, 1955 to July 1, 1956, 270 days. Extension approved to and including June 21, 1956, the actual completion date of the contract. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

9. Warren Northwest, Inc., Contract No. 4463, for grading and paving the Turner-Aumsville Section of the Salem-Turner-Aumsville Road in Marion County, requested an extension of time from October 15, 1955 to July 31, 1956. Approved to and including June 20, 1956, the actual completion date of the contract. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed

above was based upon the recommendation of the Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Deputy Engineer reported that contract numbers 4184, 4185, 4297, 4333, 4382, 4426, 4430, 4441, 4452, 4459, 4463, 4519, 4561, 4580, 4583, 4584, 4585, 4612, 4620, 4635, 4641, 4668, 4676, 4677, 4684, 4738, and 4742 for highway construction have been completed according to requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission.

After due consideration the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT " D ", which resolution, by this reference, is made a part hereof with like effect as though extended in full herein.

Commissioner McIver inquired as to the progress that is being made by Rogers Construction Company in connection with Contract Number 4311 for paving the Glenwood-North Plains Section of the Wilson River Highway. The Deputy Engineer replied that the contractor has installed his crushing plant and very likely will finish crushing by the end of August.

The Deputy Engineer reported that projects contracted by the Bureau of Public Roads in the 1957 Forest Highway program have resulted in an overrun of $682,000 in available funds, and that before the Bureau can award more contracts in this program the overrun must be eliminated. This matter, he said, has been discussed at great length with the Bureau officials, and as a result thereof, it was decided to recommend the elimination of the following projects, totaling $647,000, which will be restored in the next program:

1. Project 51-B, Belknap Springs Highway (Grading, north end)----------$350,000

2. Project 43-C5, Diamond Lake Highway (Grading, surfacing and paving)---------- 297,000

He pointed out that the Belknap Springs project is for grading only and that no monies are currently programmed for surfacing this section; also, that the Diamond Lake project consists of seven miles of paving work which cannot be done this year because it is too late in the season to do that kind of work. The withdrawal of these two projects, he continued, will make it possible for the Bureau to award a contract on the Mt. Hood Highway, for which bids were received on June 22.

He also said that elimination of the Diamond Lake and Belknap Springs projects from the current program is recommended on the assurance that

they will be given priority over others in the next program of Forest Highway funds. The Commission approved the program revision as recommended.

Consideration was given to an inquiry from the City of Seaside concerning construction of the proposed relocation of the Oregon Coast Highway along Roosevelt Drive within the city.

The Deputy Engineer commented that this project should be performed some time within the next five years, but if the sum of over $3,000,000 is allocated to the Youngs Bay Bridge project, it will be impossible to finance the improvement in Seaside, which is estimated to cost $550,000.

The Commission decided to tell the delegation from Astoria and Seaside, that was scheduled for the following day, that the program for new monies has not yet been arranged but is being discussed, and that this project will be considered with others for the funds available.

The Deputy Engineer requested authority to spend approximately $3,500 to install partitions, revise the lighting system and place an asphalt tile floor covering in two storage rooms in the basement of the State Highway Building in Salem, which rooms are to accommodate engineering personnel who will operate a Kelsh Plotter for the Construction Division. The Commission approved the expenditure.

Consideration was given to a letter from the Lake County Court requesting a survey to determine the most practicable route for a highway to connect the Fremont Highway with the Willamette Highway. The Deputy Engineer reported that the requested highway is approximately 38 miles in length and that it will cost approximately $2,000,000 to construct it. As there are no engineers available to perform the survey work, he recommended that the request be denied. The Commission adopted the recommendation.

The Commission also gave consideration to a proposal submitted by the Lake County Court for an exchange of roads in Warner Valley. The county proposes to take over the state secondary highway extending from Adel to Plush and proposes that the State take over the county road which extends northerly from Camas Creek east of Adel along McDowell Creek to Plush. They alleged that the two roads are approximately equal in length. The Deputy Engineer recalled a similar request in 1951, which was denied because of the much higher maintenance costs on the section which the State is asked to maintain. Investigation of the two roads, he said, showed that it would cost approximately $26,000 yearly to maintain the Camas Creek-Plush Road because of its higher elevation and inferior roadbed, whereas the cost to maintain the road between Adel and Plush is approximately $2,000 per year. He recommended that the request be denied. The Commission accepted his recommendation.

A letter from the City of Coos Bay requesting that the present contract for improvement of Central Avenue be extended one block from 7th

Street to 8th Street was discussed. The Deputy Engineer pointed out that the existing contract extends from 8th to 14th Street and it is not legally possible to extend it. The present contract, he said, covers the section the city originally requested, and he recommended that the present request be denied. The Commission denied the request.

Apportionment to the various cities and towns in the state of their respective shares of Highway revenues accrued during the first six months of 1956 was presented by the Deputy Engineer, who said that the amounts have been computed according to the provisions of Oregon law. He recommended approval of the apportionment. The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT " E ", which resolution , by this reference, is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from the Department of State Police for prohibition of parking on the Oregon Coast Highway, US 101, in the vicinity of the "Juno Inn" just north of the city of Tillamook. This request, the Deputy Engineer reported, was investigated, and it was found that a hazardous condition does exist at this place due to the relatively high speed of vehicles using the highway and the parking of vehicles on the highway shoulders. He recommended that shoulder parking of vehicles be prohibited on the east side of the highway between M.P. 74.11 and M.P. 74.19. The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT 'G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Also considered was a recommendation from the Deputy Engineer that parking of vehicles be prohibited on the Beaverton-Hillsdale Highway between the Multnomah-Washington County Line and the east city limits of Beaverton. He pointed out that in some sections curbs have been constructed and the pavement width between curbs is 50 feet. Parking on these sections, he said, restricts capacity and creates a hazard to the traveling public. He recommended that parking be prohibited between the Multnomah-Washington County Line at M.P. 3.27 and the east city limits of Beaverton at M.P. 5.89. The Commission accepted his recommendation and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "G-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A petition from Central Grange No. 360, Veneta, Oregon, requesting elimination of traffic hazards on the Richardson-Eugene Secondary Highway near Fern Ridge Reservoir was discussed. The hazard, the Deputy Engineer advised, is caused by parked cars and fishermen fishing from both sides of the bridges. A traffic investigation disclosed that the only practical method of decreasing the hazards would be to construct two off-highway parking lots and to prohibit parking on the shoulders of the highway. The parking areas, he continued, have been completed, and he recommended that parking be prohibited on both sides of the highway from M.P. 39.51, immediately west of the bridge crossing the West Fork

Coyote Creek, to M.P. 41.63, which is approximately the east end of the bridge crossing Coyote Creek. The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Upon the favorable recommendation of the Deputy Engineer, the Commission approved out-of-state travel for the following personnel:

(1) R. C. Blensley, Planning Survey Engineer, to attend WASHO Factual Survey Committee's Planning Conference in Cheyenne, Wyoming, August 2 and 3, 1956, at an estimated cost of $181.15.

(2) J. Al Head, Assistant Traffic Engineer, to attend the Institute of Traffic Engineers meeting in Lafayette, Indiana, August 11 and 12, 1956, at an estimated cost of $28. Transportation costs for Mr. Head are to be paid by other agencies.

(3) Roy C. Edgerton, to attend the Highway Research Board's Committee on Surface Drainage of Highways in San Francisco September 19 and 20, 1956, at an estimated cost of $80.

(4) F. B. Crandall, Traffic Engineer; J. Al Head, Assistant Traffic Engineer; and Val P. Johnson, Traffic Control Engineer, to attend the annual conference of the National Institute of Traffic Engineers in San Francisco, September 24 to 28, 1956, at a total estimated cost of $375.

(5) Forrest Cooper, Construction Engineer, to represent Mr. R. H. Baldock at a meeting of Chief Highway Administrators in Chicago July 12 and 13, 1956, at an estimated cost of $260.

The Commission considered, and upon favorable recommendation by the Deputy Engineer, approved a request from the Tillamook County Court for the closure to vehicular traffic and the landing of aircraft of the ocean beach area at Neskowin southerly from Mt. Angel Street extended west, to Hawk and Neskowin Creeks. The Deputy Engineer explained that such closure applies only to vehicular traffic, because the law already excludes the landing of aircraft on the beaches except in emergencies or by specific permission of the Commission.

Consideration was given to a request submitted by Thomas M. McKenzie, Brookings, that a person from the Brookings area be appointed to fill the position on the Travel Advisory Committee created by the death of Arch B. Sanders of Coos Bay. (The Commission took no action at this time, but later in the session appointed Mr. George Weyerhaeuser, Springfield, for this vacancy.)

The Commission gave attention to a request from the Willamette National Lumber Company of Dallas to allow log hauling on Saturday

afternoons during the balance of the summer to establish a cold deck for winter operation. The matter was discussed in some detail, the general trend of the discussion being favorable to allowing log hauling to 9:00 P.M. instead of the present 8:00 P.M. deadline. Action, however, was deferred.

(On the following day, Chairman Chandler announced that the Commission had given the matter further consideration and had agreed to allow log hauling to 9:00 P.M. until October 1, 1956, but had denied the request for hauling on Saturday afternoons.)

An extension of a lease granting to the U. S. Forest Service the use of certain rooms and floor space in the Timberline Junction Maintenance Headquarters was presented by the Deputy Engineer. The lease extension, he stated, is from July 1, 1956, to June 30, 1957, and provides for use of state facilities on a seasonal basis at the rate of $60 per month. The Commission approved the extended lease.

The Commission discussed with the Deputy Engineer a request from the Oregon Development Commission submitted by Joseph W. Smith, Chairman, that permission be given to the Georgia-Pacific Plywood Company to place a pipeline upon the State's right of way along the Corvallis-Newport Highway to discharge waste materials from the proposed paper mill at Toledo into the mouth of Yaquina Bay. The Deputy Engineer stated that this request was carefully investigated, and it was found that the company wishes to install their pipe along the highway shoulders in the fills and in the ditches of the highway cuts. Such installation, he stated, would be very undesirable from the standpoint of interference with traffic during installation; it might also cause slides, and would be objectionable from the maintenance standpoint after the pipeline was installed. He called attention to a letter written by Mr. R. H. Baldock, State Highway Engineer, to Cornell, Howland, Hayes & Merryfield, pointing out these objections and recommending, in the public interest, that the request be denied. He suggested that the Commission concur in Mr. Baldock's recommendation. The Commission denied the request.

The Commission authorized renewing of the annual subscription to the Highway Research Board Correlation Service for the period July 1, 1956 to June 30, 1957, and the payment of $2,339 for such service. The Deputy Engineer explained that this service furnishes to the states that subscribe all reports on investigations, experiments, improvements, et cetera, carried on by the various states.

Erection of a text board at a view point on the Oregon Coast Highway just north of Cannon Beach was recommended by the Deputy Engineer, who explained that at this location there is mounted the historic cannon from which Cannon Beach derived its name. The estimated cost of the text board, he stated, is $350, and a text for the same has been approved by the Memorials Committee of the Oregon Historical Society. The Commission approved erection of the text board and the following inscription:

OREGON HISTORY

CANNON BEACH

LT. NEIL M. HOWISON, U.S.N., ARRIVED IN THE COLUMBIA RIVER 1 JULY 1846 ON BOARD THE 300-TON UNITED STATES NAVAL SURVEY SCHOONER "SHARK" FOR THE PURPOSE OF MAKING AN INVESTIGATION OF PART OF THE OREGON COUNTRY. HIS REPORT WAS INSTRUMENTAL IN CREATING PUBLIC INTEREST IN THE OREGON TERRITORY AND FORMULATING A DECISION ON THE LOCATION OF THE BOUNDARY BETWEEN ENGLISH AND AMERICAN LANDS.

THE "SHARK" WAS WRECKED ATTEMPTING TO LEAVE THE COLUMBIA ON 10 SEPTEMBER 1846. IN AN EFFORT TO GET THE SHIP OFF THE SPIT, THE THREE MASTS WERE CHOPPED DOWN AND THE CANNON WERE JETTISONED, BUT SHE BEGAN TO BREAK UP AND THE CREW TOOK TO HER BOATS. PART OF HER DECK, WITH THIS SMALL IRON CANNON, DRIFTED ASHORE SOUTH OF TILLAMOOK HEAD NEAR THIS LOCATION, THUS GIVING THE NAME TO CANNON BEACH.

The Commission approved the Secretary's report on papers signed on behalf of the Commission during the period from June 1, 1956 through July 9, 1956.

The Commission confirmed the date August 16 and 17 for its next regular meeting and instructed the Secretary to arrange for use of the Queens Room in the Imperial Hotel, Portland. The Commission also set September 27 and 28 as the tentative date for its next following meeting.

Consideration was given to a request from the Port of Siuslaw that drawbridge operators be maintained on duty at the Siuslaw River Bridge on

the Oregon Coast Highway at least from daylight to dark. The Deputy Engineer advised that similar requests were received from the Port Commission in 1953 and 1954, and that in 1953 two operators were assigned to work the fifteen hours of daylight during the month of September. During that month, he said, only one vessel requiring the opening of the drawbridge entered the harbor. As the result of this experience the President of the Port of Siuslaw stated that unless the bar and channel were improved they would not request the State to furnish full-time operators on the draw span. The bar and channel have not since been improved. He also indicated that the present method of operating the draw span, which requires two hours' advance notice to the drawbridge operator, would be sufficient. The Deputy Engineer also pointed out that there were no openings of the draw span during January, February, March, October, November and December, 1955, and twenty-six openings in the six months' period from April to September, or an average of two and one-sixth openings per month. He recommended that the request be denied. The Commission accepted his recommendation.

The Deputy Engineer reported that the State Speed Control Board at its meeting of June 28, 1956 designated certain maximum speed zones on the Nehalem Highway in the city of Astoria. To conform with the pattern established within the city, he recommended designation of reduced speed zones, as follows, outside the city:

> 45 miles per hour between a point 0.16 mile east of S. E. Eighth Street (M. P. 0.41) and a point 250 feet west of S. E. Wall Street (M. P. 0.63).
>
> 45 miles per hour between a point 50 feet west of S. E. Wall Street (M. P. 0.67) and a point 400 feet west of S. E. Hancock Street (M. P. 0.95).
>
> 45 miles per hour between a point 100 feet east of S. E. Grant Street (M. P. 1.14) and Williamsport Road (M. P. 1.26).
>
> 45 miles per hour between the south city limits of Astoria (M. P. 1.38) and a point 0.47 mile south of south city limits of Astoria (M. P. 1.85).

The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported further that the State Speed Control Board also took action at its meeting of June 28, 1956, designating certain speed zones on the North Santiam Highway in the city of Stayton. To carry these speed zones to a logical point of termination outside the city, he recommended the following: establishment of a

> 35 MPH speed zone from a point 300 feet north of Fern Ridge Road (M. P. 8.42) to the north city limits of Stayton (M.P. 8.48); and a

45 MPH speed zone from the east city limits of Stayton (M.P. 9.96) to a point 0.13 mile east thereof (M.P. 10.07).

The Commission approved the speed zones as recommended by adopting the attached resolution relative thereto, marked EXHIBIT "F-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was given to a request from the Idaho Power Company for a permit or contract agreement authorizing the Company to reconstruct a 6.74-mile section of the Baker-Homestead Highway from a point approximately three miles north of Brownlee Dam to Oxbow Dam (M.P. 66.26 to M.P. 73.00). This section of highway, the Deputy Engineer stated, will be flooded when the Oxbow Dam pool is formed, and the Company wishes to start immediately on construction of the new road, which will be built to highway department standard, according to an agreement that has been reached with the Company. Construction of the new road, he continued, will not interfere with the existing road, which will remain in use for approximately three years. He recommended that an appropriate agreement be prepared authorizing such construction and stating specifically that the Highway Commission will not relinquish its existing right of way until the new road has been built to a standard acceptable to the Commission. The Commission approved his recommendation and instructed the Chief Counsel to prepare a form of agreement or contract in conformity therewith for approval by the Commission at its next meeting.

The Commission discussed a letter from the Oregon Association of Insurance Agents requesting that action be taken to provide that the Oregon Association will participate equally with the Washington Association of Insurance Agents in commissions that accrue in connection with insurance that is furnished for the Interstate Bridge project. Commissioner Reynolds stated that not more than $4,000 is involved and that the Oregon Association feels that one-half of this amount should come to them, inasmuch as construction of the bridge across the Columbia at Portland is a joint project between the two states. He asked the Commission to authorize a letter to the Washington Toll Bridge Authority, requesting an equal division of the premium between the Oregon and Washington Associations. The Commission approved his request and referred the matter to Commissioner Reynolds to handle details.

The Deputy Engineer reported that approximately $1,500,000 of additional Federal-aid money is available for contracting, which amount, together with State match money, provides a program of $2,500,000. He recommended that this money be used to finance the following projects, all of which, except the Elsie section, were heretofore approved by the Commission for the next two-year program:

(See following page for program)

Highway	Section	Type Work	Amount
	PRIMARY		
Pacific	Whiteson Dip	GPS	$ 196,000
Redwood	Illinois River Bridges	GP	325,000
Central Oregon	Fort Rock Road-Brothers	GP	365,000
Central Oregon	Horseshoe Bend-Gwyn	GP	200,000
Mt. Hood	Sandy-Forest Boundary	R/W	175,000
Sherman	Grass Valley-Kent	R/W	40,000
Sunset	Elsie	P & Shldrs.	149,000
	Reserve		100,000
		Total	$1,550,000
	SECONDARY		
Hermiston	Hinkle-Bucks Corner	PS	$ 165,000
	Reserve		385,000
		Total	$ 550,000
	URBAN		
Pacific West	Adams St. McMinnville	GPS	$ 264,000
	" "	R/W	70,000
	Reserve		66,000
		Total	$ 400,000
		Grand Total	$2,500,000

The Commission approved the projects as recommended and authorized the Engineer to advertise them for bids as soon as plans have been prepared.

The Commission discussed with the Deputy Engineer bids received during the morning session for highway construction and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with

respect to each project as follows:

"Construction of Greasy Creek Bridge on Benton County Route No. 46, approximately two miles southwest of Philomath in Benton County: As this is a County project, the Commission referred all bids to Benton County for award.

"Grading and oiling Sunset Junction Slide Section of the Fishhawk Falls Highway, in Clatsop County: The Commission awarded the contract to the low bidder, J. N. Conley, Portland, at his bid price of $27,174.

"Division No. 4 Sanding Material Project on 3 State highways, in the vicinity of Prineville, Bend, etc. in Crook and Deschutes Counties: The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at their bid price of $29,400.

"Construction of a Sand Shed at Bend in Deschutes County: The Commission awarded the contract to the low bidder, R. H. Jones, Hillsboro, at his bid price of $9,278.16.

"Slide correction on Elkhead Road Unit, Divide-Rice Hill Section of the Pacific Highway, south of Cottage Grove in Douglas County: The Commission awarded the contract to the low bidder, Henry H. Miller, Contractor, Roseburg, at his bid price of $11,837.92.

"Slide correction on West Unit, Reedsport-Dean Creek Section of the Umpqua Highway in Douglas County: The Commission awarded the contract to the low bidder, Henry H. Miller, Contractor, Roseburg, at his bid price of $39,733.

"Construction of guardrail on the Shady-Booth Ranch Unit, Shady-Canyonville Section of the Pacific Highway, south of Roseburg in Douglas County: The Commission elects to accept the bid of Vern Hoaglin, Beaverton, in the sum of $46,935, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving the Josephine County Line-Rogue River Section of the Pacific Highway, southeast of Grants Pass in Jackson County: The Commission elects to accept the bid of Fred H. Slate Co. and E. C. Hall Co., Portland, in the sum of $258,593.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of a Sand Shed at Klamath Falls in Klamath County: The Commission awarded the contract to the low bidder, A. E. Fitzgerald, Klamath Falls, at his bid price of $8,590.

"Grading and pavement widening on the Glenada Hill Section of the Oregon Coast Highway, near Florence in Lane County: The Commission elects to accept the bid of the Umpqua River Navigation Co., Reedsport,

in the sum of $63,043, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Construction of a Maintenance Building at Sweet Home in Linn County: The Commission awarded the contract to the low bidder, Lloyd G. Sperling, Tillamook, at his bid price of $14,730.

"Santiam Junction Rock Production Project on the Santiam and N. Santiam Highways, westerly of Sisters in Linn and Jefferson Counties: There were no bids received on this project.

"MacLaren School Grading and Paving Project, north of Woodburn in Marion County: The Commission referred all bids received on this project to the State Board of Control for award.

"Construction of a Sand Shed at Mission Road Junction in Umatilla County: The Commission awarded the contract to the low bidder, Bechtel Bros., LaGrande, at their bid price of $12,585.

"Grading and paving the Oswego Section of the Country Club Road and "A" Avenue in Clackamas County: The Commission awarded the contract to the low bidder, Perkins Bros., Portland, at their bid price of $106,366.

"Removal and replacement of the movable ramp at the Megler terminus of the Astoria-Megler Ferry in Clatsop County: The Commission awarded the contract to the low bidder, General Construction Co., Portland, at their bid price of $14,875.

"Roadside Improvement on the Garden Valley Road Interchange, Deady-Shady Section of the Pacific Highway, near Roseburg in Douglas County: The Commission awarded the contract to the low bidder, Ernest Ferrante & Co., Portland, at their bid price of $22,236.20.

"Slide Correction on Ruthton Hill Section of the Columbia River Highway, about two miles west of Hood River in Hood River County: The Commission awarded the contract to the low bidder, Kelley Construction Co., The Dalles, at their bid price of $13,658.08.

"Grading and paving Sexton Mountain, N. Slope Slide Section of the Pacific Highway, north of Grants Pass in Josephine County: The Commission awarded the contract to the low bidder, C. R. O'Neil, Creswell, at their bid price of $170,311.50.

"Grading and paving the Hopmere Road Interchange and Battle Creek Junction North Connection on the Portland-Salem Expressway in Marion County: The Commission awarded the contract to the low bidder, Central Paving Co., Independence, at their bid price of $71,630.

"Preparation of slope and construction of pneumatically-applied 3" slope pavement at Chemawa Overcrossing of the Southern Pacific Railroad

on the Portland-Salem Expressway in Marion County: The Commission awarded the contract to the low bidder, Gun-Crete Cement Co., Portland, at their bid price of $8,871.20.

"Construction of Champoeg Creek Bridge on the Newberg-Yergens Corner Road in Marion County: The Commission elects to accept the bid of United Builders, Inc., Beaverton, in the sum of $35,684.10, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $8,000 is deposited by the County.

"Paving Dolph Corner-Rickreall Section of the Willamina-Salem Highway, about 10 miles west of Salem in Polk County: The Highway Commission is holding the two low bids for this project for award of the contract at the August, 1956, meeting of the Commission.

"Grading and paving the South Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County: The Commission elects to accept the bid of Roy L. Houck & Sons, Salem, in the sum of $221,422 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

Carl Jordan, Travel and Information Director, reported that at the request of Mr. William Tugman, Chairman of the Travel Advisory Committee, he contacted Mr. George Weyerhaeuser, Springfield, as to whether he would be agreeable to accepting appointment as a member of the Travel Advisory Board to fill the vacancy caused by the death of Arch Sanders, and that Mr. Weyerhaeuser indicated that he would be happy to serve. Motion thereupon was offered by Commissioner Reynolds that Mr. Weyerhaeuser be asked to serve the State in such capacity. The motion carried unanimously and the Secretary was instructed to notify Mr. Weyerhaeuser of the appointment and to ascertain definitely whether or not he will accept it.

A request from the City of John Day was presented by Commissioner Reynolds, who stated that city officials have requested widening on U. S. Highway No. 395 in the south part of the city. The cost of the work, he stated, has been estimated at $45,000, but the City of John Day does not have funds to advance the 25 percent participation usually required of the cities but will pay it piecemeal. The Commission decided not to deviate from its established policy. Commissioner Reynolds stated that he would tell the city officials that the Commission cannot perform the project until the city is financially able to advance its proportionate share of the expense.

Commissioner Reynolds also inquired as to the value of crooked center stripes which some states have painted on pavements just preceding stop signs. The Deputy Engineer stated that the traffic engineer is contacting those states which use this form of centerline as to their experience

with it, and that he will report the results of the inquiry. His personal feeling was that flashing beacons provide a much better warning for the traveling public.

The scheduling of a meeting in Medford concerning the proposed Pacific Highway Bypass of this city and others was discussed. The Engineer advised that the proposed bypass plans will be available after mid-August, so the hearing could be held any time after that date. After some discussion the Commission decided to hold the hearing some time in the early part of October, a definite date to be set later.

Chairman Chandler stated that a representative of the Al Pearce Lumber Company had called to his attention certain hazards near the Standard Oil Plant on the Oregon Coast Highway in the city of Coos Bay. The company, he said, feels that some sort of a warning signal should be installed at this point for use when shifts are changing. The Deputy Engineer was instructed to investigate the matter and submit a report.

Chairman Chandler stated that a Mr. Ernest G. Swigert, President of the Hyster Company, Portland, had requested that a lease be granted him to erect a temporary car storage garage on State property adjoining the Columbia River Highway midway between Multnomah Falls and Bridal Veil.

The Deputy Engineer recalled that when the Columbia River Highway in this area was rebuilt several years ago the First National Bank, as a Trustee, reserved a 40-foot roadway to the river for fishermen, with access to the new highway. Mr. Swigert and his son-in-law, Mr. R. C. Warren, he stated, own summer homes on the Washington side of the river and they wish to park their cars on the Oregon side at the river end of this road and take boats across the river. The garage would be to store the cars until they returned. He called attention to the fact that only three accesses were granted between Troutdale and Corbett, this being one of them. When the highway is widened to four lanes it will be necessary to acquire all three of these access rights and, if the Commission takes action to grant the lease for the temporary garage, Mr. Swigert should be informed that the access will be closed in a year or less. Commissioner McIver commented that if a lease is granted it should be only on a month-to-month basis until the access rights have been purchased. As a result of the discussion the Commission authorized negotiations to acquire all remaining access rights. Mr. Swigert's request was denied.

The meeting adjourned at 5:00 P.M. to reconvene at 9:00 A. M. on the following day.

Portland, Oregon
July 13, 1956

The meeting of the State Highway Commission reconvened at 9:00 A.M. in the Queens Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Mr. R. H. Baldock, State Highway Engineer, was excused on account of illness.

Bids as follows for highway construction work were opened and read aloud by the Secretary in conformance with previously published notice, after which he announced that the Commission would award contracts at 4:00 P.M. in the same room.

COOS COUNTY
GRADING AND PAVING CATCHING SLOUGH-CHANDLER BRIDGE SECTION OF THE COOS RIVER HIGHWAY

Coos Bay Dredging Co., Inc., Coos Bay	$ 234,778.00
Fred H. Slate & E. C. Hall Co., Portland	237,841.50
Porter W. Yett, Portland	243,381.60

LANE COUNTY

GRADING AND PAVEMENT WIDENING, ALSO ILLUMINATION, ON LOOKOUT POINT LAKE PARK INTERCHANGE ON WILLAMETTE HIGHWAY

NO BIDS RECEIVED.

The Chief Counsel presented a request from the Howard Cooper Corporation for improvements costing approximately $34,235 to state-owned property located on the T. H. Banfield Expressway in Portland that the corporation is renting. The proposed improvements would be for the benefit of the corporation and would be paid for by the corporation during a ten-year period. He recommended against the request on the basis that the Commission is not in the business of real estate investment, and surplus property should be liquidated as soon as an adequate price can be obtained and the money then converted to highways. The Commission approved his recommendation.

Commissioner Reynolds recalled that possible solutions concerning violations of highway weight laws had been discussed at a previous meeting. He inquired as to the present status of this problem. The Chief Counsel replied that he had written to four district attorneys and that one of them had agreed to test the law when an appropriate case comes through his court.

A group representing the J. Ira McNutt Construction Company came before the Commission concerning the company's refusal to enter into a contract on which they submitted a bid on June 4, 1956 for construction of the South Unit, Kellogg Bridge-Yellow Creek Section of the Elkton-Sutherlin Highway, in Douglas County. The following people were present: Theo Schaeffer, Partner, J. Ira McNutt Construction Company, Eugene; Lyle Jacobsen, Superintendent and son-in-law of McNutt; A. G. Mansfield, representing United Pacific Company (surety company). Mr. Schaeffer, who acted as spokesman, stated that in computing the unit prices for this project they inadvertently omitted costs for drilling and shooting. He explained that their office routine had been upset by the illness of J. Ira McNutt, who had suffered a stroke, and the bid computations had not been thoroughly checked. Chairman Chandler stated that the bid was accepted and the contract awarded on June 4 at the bid price of $239,248. He pointed out that the second low bid was in the sum of $260,865, a difference of less than ten percent. The bid, he continued, had been accepted and awarded in good faith, and it is the policy of the Commission to request forfeiture of the five percent bid bond if the contractor fails to execute the contract.

Commissioner McIver commented that it has been well established in other contractors' minds that the five percent bid bond is given to assure that the contract will be entered into, and in fairness to other bidders the Commission should require forfeiture of the bid bond. He pointed out that the Associated General Contractors of America supports the Commission in this policy.

Mr. Schaeffer then inquired if there is any recourse. Chairman Chandler replied that the Commission regrets that the mistake occurred, but the only recourse would be to take the matter to court. The Commission declared the five percent bid bond forfeited.

A delegation representing the Fossil Community Club and other organizations came before the Commission to request improvement of the John Day Highway from Fossil to Rock Creek Junction near Dayville. The following people were present: E. R. Fatland, Chairman, Highway Committee, Chamber of Commerce, Condon; John Tierney, representing Morgan Truck Service, John Day and Portland; Jack Steiwer, Chamber of Commerce, Fossil; Robert Misener, Community Club, Fossil; Gilbert Simpson, State Game Commissioner, Spray; Albert Williams, County Commissioner, Spray; O. E. Matthews, County Judge, Fossil; Ted Putnam, Community Club, Fossil; Gus Strecker, Farmer, Spray; Fred Croissent,

Farmer, Spray; Mike Medlock, Stockman, Spray; Al Rinartson, Manager, Chamber of Commerce, John Day; Ralph Potter, Grange representative from Wheeler & Gilliam Counties, Condon; Bill Flatt, Flatt Truck Service, Condon; and Jerry Schreiner, Garage owner, Condon. Mr. Fatland, who acted as spokesman, introduced the members of the group and pointed out that the section of highway referred to is now in very bad shape. Mr. Steiwer stated that County Judge Barratt of Morrow County is in favor of the improvement. Mr. Misener presented letters and a resolution from the Grant County Court favoring this project. He called attention to the fact that there are no bus lines or railroads in this area and school districts have a very difficult time in hiring teachers. Many teachers, after teaching for one year, refuse to come back. Mr. O. E. Matthews, Wheeler County Judge, affirmed the statements made by Mr. Misener. Mr. Rinartson stated that residents in the City of John Day receive ninety percent of their supplies by truck and one truck line operates six trucks per day over this highway. The old road, he stated, has not been improved since it was originally built and heavy rains and other storms frequently cause it to be closed. Mr. Williams stated that the natural route to Portland for people in the area of John Day and Fossil is via the Columbia River Highway and not over the Ochoco Mountains and the Wapinitia Pass. The John Day Highway route is much preferred as it is not necessary to cross the two high mountain ranges encountered on the other route. Mr. Schreiner emphasized the lack of public transportation into this area due to the poor highway. Mr. Potter and Mr. Flatt stated the local Granges and Chambers of Commerce favor improvement. Mr. Fatland observed that the Fossil-John Day area has no rail service and trucking costs are high because of the obsolete highway. He urged that improvement be made on the Butte Creek Summit section and on the section from Kimberly to Rock Creek.

Chairman Chandler advised the group that three survey parties are now working in this area. The Commission is now formulating a new five-year program and it is his opinion that work on this highway could be included in the new program. Cost of the two projects has been estimated at $3,000,000, and it appears that the maximum expenditure per year would be about $500,000. The Deputy Engineer stated that from an engineering standpoint the section most in need of improvement is the Butte Creek Summit Section. Commissioner Reynolds pointed out that additional Federal funds recently made available by Congress must be applied almost entirely to the interstate system, which, in Oregon, consists of US 30 and US 99. Mr. Steiwer inquired if the delegation could inform their local newspapers that improvements to the John Day Highway would be made in the next five years. Chairman Chandler indicated that such a statement would be in order.

Commissioner Reynolds brought up for consideration the Park Superintendent's recommendation with respect to the request of the Conservative Baptist Association of Oregon for permission to construct a recreational building in Silver Falls State Park. As a result of the discussion the Commission unanimously authorized construction of such building, which is estimated to cost $18,000, at state expense, the state to keep control of the building. Motion to that effect was offered by Commissioner Reynolds and was seconded by Commissioner McIver. The Park Superintendent was instructed to include this item in the 1957 budget.

Hon. Harry C. Fowler, County Judge, Crook County, came before the Commission concerning Unit "I" on an abandoned portion of the old Ochoco Highway near Mill Creek, east of Prineville. This unit, he stated, is part of the old highway that was abandoned by the State in favor of the County for use as a county road, under an agreement dated November 4, 1948. The old bridge over Mill Creek, he stated, is badly decayed and the County is faced with the cost of replacing it. He further stated that the only person who benefits by the road and the bridge is a Mr. Gilbert Lawson, who uses it at infrequent intervals as a cattle drive. He gave as his opinion that the cost to repair the bridge, estimated at from $2,000 to $3,000, is unwarranted, considering that it is used for a cattle drive only three or four times a year. He asked that the agreement be changed to give the County complete control of the road with the right to abandon it if the County Court considers that advisable. Chairman Chandler stated that it is the advice of the Chief Counsel that the road cannot be abandoned if it serves one or more persons who live on the road, and if the Commission would consent to the change as requested the Commission would then be liable for the maintenance of the road. Judge Fowler stated that no one lives on the road and its only use is for an occasional cattle drive. The Chief Counsel observed that if no one lives along the road the agreement might be amended to allow the County to abandon the unit in question if it is no longer required for persons living thereon or if it does not serve nearby communities. Chairman Chandler advised Judge Fowler that the matter would be investigated in light of the information disclosed at this meeting and that the Engineer will be requested to submit a report and recommendation at the August Commission meeting. The Engineer thereupon was instructed to conduct such investigation and report the findings.

A delegation from the City of Milwaukie came before the Commission regarding an extension of the frontage road that parallels US 99E between Portland and Milwaukie so as to connect with Main Street in the city of Milwaukie. The following people were present: Ralph Klein, City Councilman, representing the Mayor; R. B. Shook and Howard Perkins, City Councilmen; Earl S. Burdick, Sr., City Manager; all of Milwaukie. Mr. Klein, who acted as spokesman, explained their problem and urged the Commission to construct this gap which, he said, is about 1500 feet long, between the north end of Main Street and the southern terminus of the access road at the International Harvester Company; also, completion of the access road from the point of entry to US 99E at "A" Street, thence north to the present property of the Highway Department. The City, he continued, has required the Public Housing Administration to replat the streets in Kellogg Park to provide for a 100-foot street parallel to US 99E, which will provide a 60-foot street and a 40-foot buffer. The City is willing to transfer the 40-foot buffer strip to the State if the State will complete this portion of the access road. Mr. Perkins observed that the City has spent $25,000 for right of way to extend Main Street and the improvement is needed to alleviate a traffic problem in the city during rush hours. He pointed out that there are three traffic arteries in the city of Milwaukie, none of which have been created by the City. It was his feeling that considerable of the traffic congestion could be relieved if the frontage road is completed and traffic routed over it. He also called attention to congestion in the city at

Main and Harrison Streets, where left turns cause considerable difficulty. Mr. Klein stated that it was his understanding when the partial frontage road was built in 1951 that it was not extended into the city at that time because of right of way difficulties, and it was also his understanding that it would be extended when the right of way was acquired. The City has now acquired the right of way and placed a partial fill at a cost of $28,500. He estimated the remaining cost to connect the frontage road at $25,000. He also commented that the City Council had not opposed the Commission in its efforts to acquire additional land for the Division headquarters north of Milwaukie. Chairman Chandler stated that the Commission would give the matter further consideration but cannot be too optomistic about changing the previous agreement with the City when the present frontage road was built. He made it clear that the Commission is making no commitment whatsoever regarding the project at this time. Following departure of the group, discussion of the project was resumed. The Deputy Engineer observed that the State might have some interest in the matter if the City would agree to the prohibition of left turns within the city. He gave as his feeling that the City might agree to construction of a solid divider in front of the River Road intersection, leaving as it is the southern portion of the highway through the city. The Engineer was instructed to prepare a letter to the city officials for Commission approval, in conformity with his suggestions.

A delegation representing the City of Hillsboro appeared before the Commission concerning construction of a road extending easterly and northerly from Hillsboro to a connection with the Sunset Highway. The following people were present: J. W. Barney, City Manager, H. F. Streitwieser and Lloyd Anderson, City Councilmen, all of Hillsboro; Clifford Rowe, Mayor, M. O. Gardner, City Manager, and James R. Shick, City Attorney, all of Forest Grove. Mr. Barney, who acted as spokesman, introduced the members of the delegation and urged consideration of this project and acquisition of right of way before the area becomes highly developed. He pointed out that the City of Hillsboro has recently extended its city boundaries , and in order to develop plans for the City's growth they should know what the Highway Commission plans to do as far as this road is concerned. Chairman Chandler stated that this is a worthy project, but because of the extreme shortage of engineers it would be some considerable time before a survey could be made. The Deputy Engineer stated that a reconnaissance survey indicates that the proposed project will cost about $3,000,000, and the highway would bear enough traffic to justify four-lane construction. As a result of the discussion the Commission authorized the Engineer to give the matter study from the right of way standpoint.

Mr. Barney asked the Commission to extend an existing contract on 10th Street between Oak and Baseline. He stated that there is a half-block section which was not included in the contract and that the City would like that improved along with the other work. The Commission instructed the Deputy Engineer to investigate the request and report the findings.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m., with the same persons present and participating.

Rowland K. Rodman, Attorney, Eugene; H. V. Jenkins and Ray Andrews, property owners near Creswell, appeared before the Commission to request additional access to the Pacific Highway at Hawley Riverside Road between Goshen and Creswell. Mr. Rodman stated that he represents ten property owners in this area who now are required to travel an additional 1.5 miles in order to reach Eugene, 3 miles extra for the round trip. He requested construction of an overpass at Hawley Riverside Road or a connection to an existing overpass nearer Eugene. He pointed out that school children have to travel an additional 1.5 miles to the school bus and that the cost of hauling milk has been raised 10 cents per cwt. because of the additional distance. Chairman Chandler advised the delegation that the Commission would discuss the matter and notify them of their decision. Following departure of the delegation the matter was again discussed. The Deputy Engineer stated that although residents in this area are required to travel an additional 1.5 miles to reach Eugene it takes no more time because of the better highway facilities. He also called attention to the fact that when right of way was acquired from these people heavy severance damages were paid. He estimated the cost of an overpass structure at $80,000, and to construct a frontage road as requested at $82,000. He recommended that the request be denied. After due deliberation, the Commission denied the request.

A delegation from Lane County, including the Board of County Commissioners, was present regarding construction of a footpath on the Richardson-Eugene Secondary Highway in the village of Noti; also requested were improvements to the "Route F" Highway. The following people formed the group: Ralph Peterson, Kenneth Nielson, Bob Straub, Lane County Commissioners, Eugene; Fred Brenne, Manager, Chamber of Commerce, Eugene; Bob Booth, Road Committee, Chamber of Commerce, Eugene; Art Cooper, Lane County Chamber of Commerce, Oakridge; Ernest Nielsen, "Route F" Committee 2, and Curt Emery, Chamber of Commerce, Florence; Walter Huntington, "Route F" Committee, and Pony Ellingson, Lion's Club, Mapleton; Ray Swanson, Chairman, Noti School Board; Lawrence Chestnut, Principal, Noti School; John Nail, Kenneth Garner, and Mrs. Albert Kull, Noti Committee, all of Noti. Commissioner Peterson, who acted as spokesman, introduced the members of the delegation. He presented to the Commission several pictures and a letter calling attention to the narrow shoulders of the highway where school children must walk, and the large number of logging trucks that operate over the highway in this vicinity. Five accidents, he stated, have occurred that have been reported and there may have been others on which no report was made. He asked the Commission to reconsider its previous denial of the footpath construction.

Commissioner Peterson also brought up the matter of improving the highway from Walton to Noti. He pointed out that a large supply of timber is available in the area north and west of Swisshome, which at the present time is hauled to Eugene mills over the Siuslaw Highway, a distance of approximately 81 miles. If this timber could be hauled over the "Route F" Highway from Swisshome through Noti to Eugene the distance would be reduced to approximately 60 miles. He urged improvement of the road from Richardson to Noti. Commissioner Nielson stated that Lane County is

spending $750,000 on the "Route F" tunnel and the County would like to use their available federal-aid secondary funds to improve the road west of the tunnel if the State will improve the section east of the tunnel. Mr. Brenne asked for a survey to determine the cost to complete the "Route F" Highway. Chairman Chandler called attention to the fact that the original authorization of $175,000 set up for the Walton-Noti Section had been increased to $440,000 to provide a highway adequate for log hauling. The State, he continued, is now short twelve survey crews to implement the enlarged federal highway construction program and it would be extremely difficult to conduct this survey now as requested; however, an effort will be made to secure some data as to the cost of completing the highway. The Commission took no action regarding the request for a footpath at Noti.

A group representing the Wasco County Court and The Dalles Chamber of Commerce appeared before the Commission concerning modernization of US 197 south of The Dalles. The following people were present: Fred Mauser, Wasco County Judge; M. A. Davidson, Mayor; Wm. Dielschneider, County Planning; Virgil Kelly, Councilman; T. T. Mackenzie and Sam Van Vactor, members, Chamber of Commerce; W. E. Taylor, Highway Committee, Chamber of Commerce; all of The Dalles. Judge Mauser, who headed the delegation, introduced the members. He called attention to the extremely crooked and antiquated highway south of The Dalles. Mayor Davidson stated that the City is extremely interested in this project and asked that it be given high priority. Mr. Van Vactor stated that the delegation is principally concerned in early improvement of the section from The Dalles south to Eightmile Creek, and they would also like to have the highway surveyed from Eightmile Creek south. This highway, he continued, is nearly 35 years old and has had no major improvement in that time. The Dalles Dam is nearly completed and relocation of the north end of the highway is needed to tie in with the bridge across the Columbia River at The Dalles. Also, there are definite plans for construction of an aluminum plant at The Dalles, which will receive its raw material and ship manufactured products by boat. The Dalles, he said, is going to be the "hub" for traffic in this vicinity. Construction of the section from The Dalles to Eightmile Creek will save six miles in distance and will be of great benefit to The Dalles and adjoining territory. Mr. Mauser concluded the delegation's presentation by urging the Commission to give the matter very serious consideration. The Commission made no comments.

Hon. Otto Effenberger, Tillamook County Judge; Charles Ross, Chairman of the Highway Committee of the Oregon Coast Association, both of Tillamook; and Verne Ayers, Manager of the Oregon Coast Association, Newport, appeared before the Commission as representatives of the County Court Unit of the Oregon Coast Association to urge further improvements to the Oregon Coast Highway. Verne Ayres presented the other members of the delegation and inquired as to when construction may be expected on Cascade Head in Lincoln County and in the southern part of Curry County. He also inquired what plans the Commission has for the entire highway. Chairman Chandler advised that the Cascade Head section is in the Forest Highway Program, and it is hoped that construction will be started this year. However, there have been some difficulties in acquiring right of

way. He mentioned a rumor that $1,300,000 had been transferred from Curry County to improvement of the Lower Columbia River Highway. Such transfer, he explained, was first thought necessary, but other funds were found to finance the Lower Columbia River Highway project, so the $1,300,000 bond money is still available for improvement of US 101 in either Coos or Curry County. He also called attention to a misconception in the minds of a number of people as to where the additional federal funds may be spent. Most of the funds available to Oregon, he said, must be expended on US 30 and US 99 as interstate highways, and very little additional federal money will be available for use on other highways. In response to an inquiry from Mr. Ross as to whether additional construction might be performed in Curry County with Forest Highway funds, the Chairman replied that nearly all of the Oregon Coast Highway within the Forest Service lands has been constructed. In anticipation of further construction, an attempt is now being made to acquire right of way between Gold Beach and Cape Sebastian; however, the Commission is not going to do any more construction in Curry County until the right of way has been acquired.

A delegation from Wasco, Sherman and Gilliam Counties came before the Commission regarding improvement to the Wasco-Heppner Secondary Highway and modernization of the Grass Valley-Kent and Moro-Wasco Sections of US 97. The following people formed the group: Vernon I. Miller, Sherman County Judge, Moro; Fred Mauser, Wasco County Judge; M. A. Davidson, Mayor; Virgil Kelly, Councilman, Wm. Dielschneider, Wasco County Planning; W. E. Taylor, Highway Committee of The Dalles Chamber of Commerce; T. T. Mackenzie and Sam Van Vactor, members of The Dalles Chamber of Commerce; all of The Dalles; Giles French, Editor, Moro; County Commissioners C. F. Kuypers, Rufus, and Kenneth Sather, Kent; C. R. Morrison, Farmer, Wasco; Ernest Fatland, Commercial Club, and Ralph Potter, Grange, both of Condon. County Judge Vernon I. Miller, Sherman County, acted as spokesman. He urged completion of the Wasco-Heppner Highway between Wasco and the end of the oiled section west of Condon. He pointed out that very little improvement has been made on this highway between Wasco and the John Day River. During the Columbia River flood of a few years ago he recalled that this route served as a by-pass when the Columbia River Highway was flooded. Judge Fred Mauser commented that the highway is in fair condition from Condon to the John Day River but in very poor condition from there westerly. Mr. Van Vactor urged completion of the highway, as the improved portion cannot be utilized to its full value because of the very poor condition of the northerly and easterly end. He cited figures on the large amount of grain which is hauled over this road to elevators in Condon, Wasco and Klondike. It was also his opinion that development of this road is needed to act as a feeder road to the port at The Dalles. Mr. Fatland called attention to the fact that during the spring thaw load limits are imposed on all highways in this section of the state, with the exception of the Wasco-Heppner Highway. He declared the improvement an emergency project. The Commission offered no comment.

Mr. Giles French urged improvement of obsolete sections of US 97, pointing out that this is the most favorable route for truck hauling of products

between Seattle and cities in California. He particularly urged early construction of the section between Grass Valley and Kent and between Moro and Wasco. He also commented that it appears that construction of a bridge across the Columbia River between Biggs and Maryhill will be started within a year or so. Chairman Chandler stated that he felt there would be continuing improvements on US 97, but the improvements would take several years. Commissioner Reynolds stated that he wished to clear up a misunderstanding in some people's minds that the additional federal money that has been made available under the recent Congressional Act will be applicable to all state highways. He pointed out that these funds as they are available in Oregon must be applied almosttotally to improvement of US 30 and US 99.

Mr. E. A. Windle, Chairman of the Air Strip Committee of the Nehalem Expansion Association, and General Claude Larkin, member thereof, were present regarding the establishment of an air strip on the Nehalem Bay Sand Spit. Mr. Larkin stated that the air strip will be of great importance to the community in that it will provide a landing field for sportsmen, a base for emergency use in civil defense, forest fires, floods, air-sea rescue, et cetera. He assured the Commission that the air strip is supported by all residents of the area and that the City Councils of Manzanita, Nehalem, Wheeler, Rockaway, and many community clubs have expressed themselves in favor of it. The State Board of Aeronautics, he said, has funds available to finance immediate construction of the strip, and Tillamook County and the Port of Nehalem Commission have promised financial and material support. No funds, he stated, are expected from the State Highway Department, but all they want is use of the highway property. He urged an early decision so the air strip would be usable by fall. Mr. Windle presented letters from the Nehalem Bay Expansion Association, the City of Wheeler, the City of Manzanita, the City of Nehalem, and the City of Rockaway, all endorsing the flight strip, which, he said, would be constructed 500 feet from the proposed highway location. The Deputy Engineer stated that the survey for the new highway has not been completed and no highway route has yet been designated, and at this time he could not say where the highway would be located. He offered the opinion that even after the highway is located it probably will be several years before it will be constructed. Chairman Chandler pointed out that there is a shortage of engineers, and the Commission does not know how it can expedite the project; moreover, other projects have priority over this one.

The Deputy Engineer brought up a matter concerning the participation of the City of North Bend in financing a contract for improvement of Broadway between Monroe Avenue and 16th Street in the city. He said that Broadway is the route of the Cape Arago Highway and that the Commission originally approved $175,000 to finance the job, with the understanding that the City would contribute the sum of $42,500. It later developed that the traffic volume was such that a four-lane facility is required, the total cost of which is estimated at $250,000. He further stated that the City has agreed to contribute an additional $7,500, or a total of $50,000; in fact, the City has already paid its $50,000 share. He recommended that the money be accepted and that the contract, on which bids were received at this letting,

be awarded for the increased amount. The Commission approved his recommendation.

County Judge Lloyd Rea and Commissioners R. M. Phipps and Gill C. Wright, of Baker County, came before the Commission regarding improvement of the Baker-Homestead Highway (Highway 86) and the Haines-Anthony Lake Secondary Highway. Judge Rea stated that they are particularly interested in securing completion of Highway 86 into the town of Richland. He pointed out that travel over this highway has increased greatly since construction of the Snake River Dams was started, and traffic hazards have increased proportionately. He particularly urged elimination of excessive curvature. Commissioner Reynolds stated that improvement of this highway is being considered with other projects in the formulation of the new five-year program, and that work might possibly be started upon release of 1958 federal funds. Judge Rea then inquired as to what improvement can be expected on the Haines-Anthony Lake Highway. Commissioner Reynolds stated that improvement of this highway is also being contemplated in the new five-year program. He pointed out that in figures assembled so far it appears that Baker County will get nearly one half of the secondary money that is available in Division 5 during the next five years. Judge Rea then inquired about the relocation of US 30 between Baker and Pleasant Valley. This section, Commissioner Reynolds stated, is on one of the two interstate highways in Oregon and improvement of the same will be performed with interstate funds; however, no definite time has been set for the improvement, although the work will be performed during the next 13 years. He expressed the hope that the work can be started soon.

A delegation from Astoria, Seaside and Warrenton appeared before the Commission regarding construction of the Youngs Bay Bridge at Smith Point and the Astoria-Seaside Section of the Oregon Coast Highway. The following people were present: E. R. Baldwin, Manager, Warrenton Chamber of Commerce; John Shepherd, President, Warrenton Chamber of Commerce; Clare Wade, Director, Warrenton Chamber of Commerce; Ralph Day, Editor, Warrenton; Chas. DeFoe, Manager, Astoria Chamber of Commerce; and Malcom MacEwan, Manager, Seaside Chamber of Commerce. Mr. Baldwin, who acted as spokesman, complimented the Commission on work performed in development of Fort Stevens State Park and inquired as to what governmental body exercises jurisdiction over the access road from the park to the ocean beach. The road, he stated, is in a bad state of repair and needs considerable maintenance so that automobiles may get onto the beach. The Parks Superintendent stated that the roadway section had been deeded to the State by Clatsop County. Chairman Chandler stated that it has been the Commission's policy for several years to not encourage automobiles on the ocean beaches because of the hazard to pedestrians and the further fact that there is no adequate police authority to apprehend careless drivers.

Mr. Baldwin recalled that at the last meeting of the Commission the question had been put to the delegation as to whether they would prefer construction of the Youngs Bay Bridge or reconstruction of the highway

section between Seaside and Astoria as being first in priority. The people are generally agreed, he stated, that construction of the Youngs Bay Bridge should be the No. 1 project. He presented a resolution from the Clatsop County Development Commission urging immediate attention to the Youngs Bay Bridge project and early attention to the Seaside by-pass project. The Clatsop Development Commission, he stated, represents the Astoria, Warrenton, and Seaside Chambers of Commerce and the Cannon Beach Commercial Club. Chairman Chandler pointed out that the Commission has only a certain amount of money to allocate in any Division within the State, and if the Youngs Bay Bridge project is undertaken it will mean that other projects in the Division will have to wait. The question, he continued, is simply whether to allocate all of the available money to one project or to distribute it to a number of smaller jobs. He pointed out that it will take two or three years to build the bridge. Commissioner McIver also called attention to the great cost of the Youngs Bay Bridge. He remarked that the "one package" proposition appears to him best, and that in the meantime other projects would have to be deferred. Mr. Baldwin stated that it is the feeling of the delegation that the bridge project rates No. 1 priority, but final decision must necessarily be left to the Commission.

Mr. William Lorenze, representing the Chiloquin Chamber of Commerce, and G. A. Staiger, Chiloquin City Recorder, appeared before the Commission regarding improvement of Second Avenue in Chiloquin. Mr. Lorenze stated that there are three sawmills in Chiloquin, and logs to the mill and lumber from the mill are hauled over city streets. The City, he stated, had two special State Tax Street Fund Projects, but the burden of maintenance on the city streets is such that the City cannot maintain them with their own finances. He requested State assistance. He also commented that maintenance on the Sprague River Road is inadequate, and during the winter snow storms there has been a hazard that school busses would be stalled. The City of Chiloquin, he stated, is also vexed by the fact that a number of industries are located outside of the city limits and provide no tax revenue to the City. Chairman Chandler stated that the Sprague River Road is not a state highway but is an Indian Agency road. He suggested that the delegation contact the Indian Agency officials relative to its maintenance. Concerning state tax street funds, he pointed out that many cities have not yet had the benefit of any allocation of such funds, whereas the City of Chiloquin has already had two so presently is not entitled to any more.

The Commission discussed with the Deputy Engineer bids received during the morning session for highway construction, and at 4:00 p.m. Commissioner McIver publicly announced the Commission's decision with respect to each project as follows:

"Grading and paving Catching Slough-Chandler Bridge Section of the Coos River Highway east of Coos Bay in Coos County: The Commission awarded the contract to the low bidder, Coos Bay Dredging Co., Coos Bay, at their bid price of $234,778.

"Deschutes County Roads Oiling Project on 5 County Roads in Deschutes County: The Commission elects to accept the bid of The Central

Heating Co., Ore. Ltd., Eugene, in the sum of $74,889.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Deschutes County is received and the sum of $29,950 is deposited by the County.

"Grading and paving the South Unit, Kellogg Bridge-Yellow Creek Section of the Elkton-Sutherlin Highway in Douglas County: The Commission awarded the contract to the low bidder, Funderburk Construction Corp., Sutherlin, at their bid price of $276,215.

"Embankment repair on the Milo-Corn Creek Section of the Tiller-Trail Highway, east of Canyonville in Douglas County: The Commission rejected all bids submitted on this project as being too high.

"Torrent Creek Embankment Repair Project on the Pacific Highway, south of Ashland in Jackson County: The Commission awarded the contract to the low bidder, Phoenix Sand and Gravel, Medford, at their bid price of $10,420.

"Deschutes River-Quinton Rock Production Project on Columbia River and Sherman Highways, east of The Dalles in Sherman and Gilliam Counties: The Commission awarded the contract to the low bidder, Vernie Jarl, Gresham, at his bid price of $31,900.

"Roadside Improvement on Barbur Blvd. -Willamette River Section of the Portland-Salem Expressway, in Clackamas, Multnomah and Washington Counties: The Commission awarded the contract to the low bidder, Keizer Sand & Gravel Co., Salem, at their bid price of $23,941.

"Fort Stevens State Park Latrine in Clatsop County: The Commission rejected all bids which were submitted on this project as being too high

"Grading and paving Monroe Ave. -16th St. (North Bend) Section of Cape Arago Highway in Coos County: The Commission awarded the contract to the lowbidder, Sig Andersson, North Bend, at his bid price of $222,903.50.

"Drainage Improvement on the Sherman St. -Pine St. (Sutherlin) Section of the Elkton-Sutherlin Highway in Douglas County: No bids were received on this project.

"Umpqua River Bridge Pier Protection Project at Reedsport in Douglas County: The only bid submitted to the Commission on this project was rejected as being too high.

"Umpqua Lighthouse State Park Latrine in Douglas County: All bids submitted to the Commission on this project were rejected as being too high.

"Construction of Willow-Kane-Snider and Dry Creek Bridges in Jackson County: As this is a County project, all bids were referred to Jackson County for award.

"Pavement Sealing and Oiling the Goshen-Cottage Grove Section of the Pacific Highway in Lane County: The Commission awarded the contract to the low bidder, Morse Bros., Harrisburg, at their bid price of $20,008.

"Widening 12th Street Bridge over Shelton Ditch in the City of Salem, Marion County: The only bid submitted to the Commission on this project was rejected as being too high.

"Installation of traffic signals on Silver Creek Falls Highway in Salem, in Marion County: The Commission awarded the contract to the low bidder, Trowbridge Electric Co., Roseburg, at their bid price of $15,200.

"Installation of traffic signals and roadway illumination on Mt. Hood Highway at its intersection with the extension of East Burnside Street, east of Gresham in Multnomah County: The Commission awarded the contract to the low bidder, W. R. Grasle Co., Portland, at their bid price of $18,266.

"Banfield Expressway Undercrossing of N. E. 12th Avenue on the T. H. Banfield Expressway in Portland, Multnomah County: The Commission awarded the contract to the low bidder, General Construction Co., Portland, at their bid price of $145,024.

"McKay Creek Bridge and Tutuilla Creek Bridge Widening on the Pendleton-John Day Highway near Pendleton in Umatilla County: The Commission elects to accept the bid of Rogers Construction Co., Portland, in the sum of $59,800 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and topping the Ladd Canyon Slide Section of the Old Oregon Trail Highway, south of La Grande in Union County: The Commission rejected all bids received on this project as being too high.

"Installation of roadway illumination on Wilson River Highway at the Banks Interchange and at the North Plains Interchange in Washington County: The Commission awarded the contract to the low bidder, W. R. Grasle Co., Portland, at their bid price of $23,347.

"Grading and pavement widening on the Lookout Point Lake Park Interchange on the Willamette Highway, west of Oakridge in Lane County; No bids were received on this project.

A delegation representing the Lower Columbia Highway Association was present and requested further improvements of the Lower Columbia Highway between Portland and Astoria. The following people composed the group: From Clatskanie: Art Steele, President, Lower Columbia Highway Association; Al Nelson, Chairman, Highway Committee, Chamber of Commerce; Jess Lewis, President, Kiwanis Club; A. L. Bailey, R. S. Cohoon, F. C. Sparks, A. G. Anderson, J. Harvey Brougher, Kiwanis

Club; Don Parker, President, Jr. Chamber of Commerce; Alvin Lahti, Treasurer, Jr. Chamber of Commerce; A. E. Wheeler, Jewitt A. Bush, Walter Rietman, Ed Larsen, C. R. Holmes, and Forrest Bradley, Citizens. From Rainier: John W. Whipple, Columbia County Judge; W. E. Janvrin, President, Chamber of Commerce; Mike Tolleshaug, President, City Council; Ed Scott, President, Lions Club; Mrs. Anne Nelson, President, Women's Club; H. R. Barker, O. M. Caldwell, Commercial Club; Eugene Cholewinski, Commander, District 2 Veterans of Foreign Wars; C. R. Hallberg, Banker; Dolores Diss, member of Oregon License and Beverage Association. From Astoria: Charles DeFoe, Manager, Chamber of Commerce; Baden Rupert, Harold Johnson, Highway Committee, Chamber of Commerce. From St. Helens: J. Austin, J. H. Clausen, St. Helens Port Commission; L. C. Hall, Chairman, Highway Committee, Chamber of Commerce; Jack White, Past President, Chamber of Commerce; Mrs. Carl Brandenfels, member, Chamber of Commerce; Ed Cameron, Editor; Walden Dillard, District Attorney, Columbia County. From Westport: Ed H. Condit, Citizen.

Mr. Steele headed the group and introduced the other speakers. He urged the Commission to complete the modernization of the four remaining units of this highway. Columbia County Judge Whipple called attention to the scenic attractions of the highway which, he said, forms a part of a natural loop from Portland to Astoria, to Seaside, and to Portland over the Sunset Highway. He cited the great increase in boating and the fact that the Columbia River Highway will carry an increasing number of boating enthusiasts. Because of the very crooked nature of a large part of the existing highway, industry has failed to establish itself adjacent to the highway, favoring those areas where modern highways have been constructed. He called attention particularly to bad sections between Tide Creek and Goble, between Rainier and Delena, and between Clatskanie and Wauna. Many serious accidents have occurred in recent years on these obsolete sections, with death or injury to 116 people; also, he said, certain sections of the existing highway are subject to flooding by the Columbia River. The delegation, he stated, is not attempting to state which section should be improved first but is asking only that improvements be made at an early date. Chairman Chandler advised that the large bulk of funds recently made available by the Congress must be spent on interstate highways, which in Oregon consist of US 30 and US 99. However, the section of US 30 from Portland to Astoria is not considered as a part of the interstate system according to the federal definition. He called attention to the fact that a previous delegation from Astoria, Seaside and Warrenton also requested improvements in the northwest corner of the State. The Commission, he continued, is in the process of formulating a five-year construction program, and the delegation's request will be kept in mind when the program is prepared. Mr. Steele commented that the delegation hoped that the Commission would continue the program under way for the last four years, in which approximately $4,000,000 was contracted for improvements on this highway.

A delegation composed of the Douglas County Court and citizens of the City of Roseburg appeared before the Commission concerning highway improvements in Douglas County. The following people were present:

Carl C. Hill, Douglas County Judge; Frank Ashley and William T. Ebans, County Commissioners; Percy Croft, Highway Committee, Roseburg Chamber of Commerce; Ernest M. Barker, Jr., Mayor; George W. Farrell, City Manager; all of Roseburg. Judge Hill introduced the members of the delegation and inquired as to what plans the Commission has for highway development in Douglas County. Douglas County, he stated, has a large mileage of state highways and actual expenditures on them are not a true indication of the needs of the County. There has been a large increase in population in Douglas County, and only Multnomah and Lane Counties exceed the payroll of Douglas County. He requested that three projects be considered: (1) Construction of a one-way couplet in Roseburg on Rose and Stephen Streets, in which the City will cooperate up to 40 or 50 percent; (2) A new crossing over the South Umpqua River to replace the present bridge on Oak St. The County and the City, he said, will also assist in this project. He asked for a survey and an engineering study, and that the project be included in the five-year program; (3) Construction of the Apple Creek-Dry Creek Section of the North Umpqua Highway east of Roseburg to permit removal of timber. Chairman Chandler advised that in construction of the Pacific Highway with interstate funds it is planned to build a four-lane highway through Douglas County. The requests as presented, he said, will be given careful consideration by the Commission in formulating the new five-year program.

Joseph P. Spencer, Ontario, representing the Interstate Gateway Commission, presented petitions urging construction of a "spur" highway connection to US 30 that will cross the Snake River at Fairwell Bend, near Olds Ferry. The Commission took no action.

The Parks Superintendent stated that a tract of Indian land near Wecoma Beach in Lincoln County is to be sold at public sale soon. This area, he said, was found suitable for park purposes in 1952 and 1954 and is the only beach area in this vicinity which can be secured for such purposes. He requested authority to bid $18,000 for the 58-acre tract and that the Chief Counsel be authorized to sign the proposal. The Commission approved his request.

The Commission approved and signed a letter directed to Hon. Robert Y. Thornton, Attorney General, concerning the salary schedule of attorneys in the employ of the State Highway Department. (For details see copy of the letter, dated July 13, 1956, in general files.)

The Commission signed the following agreements and other papers:

"Indentures of Access" re changes of access points for the following:

a. Sherman property on Lapine-Diamond Lake Junction Section of The Dalles-California Highway, Klamath County.

b. Roberts property on Deception Creek-Oakridge Section of Willamette Highway, Lane County.

"Bargain and Sale Deed" re conveying to Tillamook County 0.67 acre of real property on Tillamook-Hebo Section of Oregon Coast Highway,

Tillamook County, to be used for the relocation of a county road.

"Bargain and Sale Deed" re selling to Douglas County 5.85 acres of excees property on Deady-Shady Section of Pacific Highway. Consideration $1,200.

"Agreement" with the Southern Pacific Company covering installation of automatic electric signals at intersection of South Sixth Street and the tracks of SP Company in Klamath Falls.

"Agreement" re granting to the US Forest Service a one-year extension, to June 30, 1957, of their lease agreement covering the use of certain rooms and floor space in Timberline Junction Maintenance Headquarters, for housing and subsistence of Forest Service employees on a seasonal basis. Rate $60.00 per month.

"Relinquishment of Title" re relinquishing to Douglas County title to a haul road acquired to a gravel pit about six miles north of Myrtle Creek.

"Agreement" with SP Company covering a longitudinal encroachment on their right of way on Coquille-Rink Creek Section of Oregon Coast Highway, Coos County.

"Agreement" re installation of traffic signals and illumination at intersection of Mt. Hood Highway with Powell Valley Road in Multnomah County. (Authorized 4-26-56.)

"Pipe line easement" to Vera Martin covering easement for pipe line, pump house and power line across Casey Park in Jackson County.

"Finance and Maintenance Agreement" with Clackamas County covering the Oswego section of FAS 680.

"Finance and Maintenance Agreement" with Marion County covering the Champoeg Creek Bridge section of FAS 128.

"Revised Grant of Access" with U.S. Corps of Engineers re granting of an easement of access to the revised location on the Lookout Point Reservoir section of the Willamette Highway in Lane County.

"Agreement" with City of North Bend covering the construction of a portion of Virginia Avenue between Broadway and Monroe, and Broadway between 16th Street and Virginia Avenue.

"Agreement" with Southern Pacific Company relative to the installation of PUC Type 2, flashing light signals, 2 cattle guards and easement for the crossing, in Sheridan, Salmon River Highway in Yamhill County.

"Indenture of Access" to Columbia Hospital District re access to property on the Goble-St. Helens section of the Columbia River Highway in Columbia County.

"Indenture of Access" to Central Oregon Irrigation District re access to property on the Deschutes River Section of the McKenzie Highway in Deschutes County.

"Petition" to the City of Juntura requesting vacation of a portion of an alley in the city which bisects the State Highway property.

"Petition" to the City of Lakeview requesting vacation of an alley which bisects the Highway Commission's maintenance station site in Lakeview.

"Relinquishment of Title" to City of Reedsport re changing angle of street intersections on Oregon Coast Highway in City of Reedsport.

"Minutes of April 26 and 27, 1956 and June 4 and 5, 1956.

There being no further business to come before the Commission at this time, the meeting was declared adjourned by Chairman Chandler at 5:00 p.m.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

July 12 and 13, 1956

EXHIBIT "A"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PORTLAND-SALEM EXPRESSWAY

22912 McConnell, John H. and W. Lydia (Black)
Right of Way
Option expires December 3, 1956

16,243 sq. ft., lump sum	$2,000.00	
Amount to be paid owners - chrg to Right of Way		$2,000.00
State to assume 1956-57 taxes. Estimate		40.00
GRAND TOTAL (Estimate) - chrg to Right of Way		$2,040.00

Grantor to sign and return deed 5 days after receipt of same.

Entire taking -

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Valley Juntion-Sheridan Section of the Salmon River Highway described as follows:

A parcel of land lying in the Wm. Chapman D. L. C. #41, Township 5 South, Range 6 West, W. M. Yamhill County, Oregon, and being a portion of that tract of land described in that certain deed to Jack W. and Wilma D. Eden, recorded in Book 178, Page 263 of Yamhill County Records of Deeds; the said parcel being that portion of said property lying Northerly of a line which is parallel to and160 feet Northerly of the relocated centerline of the Salmon River Highway as said centerline is described in that deed from Jack W. and Wilma D. Eden to the State of Oregon, by and through its State Highway Commission, dated March 13, 1956. The said parcel being more particularly described as follows: Beginning at a stake set 23.88 chains North and 22.49 chains West of the Southeast corner of said D. L. C. #41, said point being the Southeast corner of said Eden tract; thence North 1° East along the East line of said tract 845 feet, more or less, to a line which is parallel to and 160 feet Northerly from the relocated centerline of the Salmon River Highway and the true point of beginning; thence Southwesterly along said parallel line 760 feet, more or less, to the Westerly line of said Eden tract; thence North 21° West along said Westerly line640 feet, more or less, to the Northwest corner; thence East 14.88 chains to the Northeast corner; thence South 1° West along the Easterly line 325 feet, more or less, to the point of beginning.

The parcel of land to which this description applies contains 9.86 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes, provided

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $4000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of such property shall provide that there

EXHIBIT "B-1" (Cont)

is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to from and between said real property and the right of way of the Salmon River Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 11 be entered in the minutes and records of the Commission as of the 12th day of July, 1956.

26781

EXHIBIT "B-2"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Salem By-Pass Section of the Pacific East Highway described as follows:

A parcel of land lying in the Towner Savage D. L. C. also in Section 12, Township 7 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that tract of land described in that certain deed to State of Oregon by and through its State Highway Commission, recorded in Book 435, Page 455 of Marion County Records of Deeds; the said parcel being described as follows:

Beginning on the West line of said Savage D. L. C. at the Northeast corner of that tract conveyed to the State of Oregon by and through its State Highway Commission by deed recorded in Book 460, Page 12, Marion County Deed Records, said point being on the North line of relocated Park Lane; thence Northeasterly 235 feet, more or less, to a point which is opposite and 40 feet Westerly of centerline station 13+00 on the Hollywood Frontage Road; thence North 13° 35' 20" West parallel to said frontage road centerline 405 feet to a point opposite and 40 feet Westerly of station 8+95 on said frontage road centerline; thence Westerly at right angles to said frontage road centerline 75 feet, more or less, to the West line of said Towner Savage D. L. C.; thence Southerly along said West line 530 feet, more or less, to the place of beginning.

Save and except that portion conveyed to the First Baptist Church of Hayesville, Oregon by deed recorded in Volume 234, Page 121, Marion County, Oregon Deed Records, which parcel was the subject of an attempted conveyance from said Organization to the First Baptist Church of Salem, recorded in Volume 235, Page 578, Marion County, Oregon Deed Records.

The parcel of land to which this description applies contains 1.35 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2700.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

EXHIBIT "B-2" (Cont)

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to from and between said real property and the right of way of the Pacific Highway, except access shall be granted by way of frontage road.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 12 be entered in the minutes and records of the Commission as of the 12th day of July, 1956.

26783

EXHIBIT "C-1"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interst therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part and relocate in part, construct, improve and maintain the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway; and

WHEREAS, for the purpose of widening in part and relocating in part, constructing, improving, and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled southerly from Highway Engineer's centerline Station 163+50;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Pendleton-Pilot Rock Section of the Pendleton-John Day Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's

EXHIBIT "C-1" (Cont)

respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature on the Pendleton-John Day Highway south of Highway Engineer's centerline Station 163+50 thereon, between the right of way of the widened and improved or relocated Pendleton-John Day Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining lands, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Pendleton-Pilot Rock Section of the Pendleton-John Day Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 637.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map,

EXHIBIT "C-2"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and purposes to relocate, construct, improve and maintain the Neskowin - Salmon River Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

EXHIBIT "C-2" (Cont)

and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Neskowin - Salmon River Section of the Oregon Coast Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Neskowin-Salmon River Section of the Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Neskowin-Salmon River Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed

EXHIBIT "C-2" (Cont)

and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 638.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 638, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

26789

EXHIBIT "C-3"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part and relocate in part, construct, improve and maintain the Finn Rock-Elk Creek Section of the McKenzie Highway; and

WHEREAS, for the purpose of widening in part and relocating in part, constructing, improving, and maintaining the said highway to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Finn Rock-Elk Creek Section of the McKenzie Highway certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "C-3" Cont)

2. That the widening in part, relocation in part, construction, improvement and maintenance of the said Finn Rock-Elk Creek Section of the McKenzie Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 639.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 639, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

26791

EXHIBIT "C-4"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutues, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture or road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes. the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Willamette River-Hayesville Section of the Portland-Salem Expressway; and

WHEREAS the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of widening, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described as necessary, and that access to and from the said highway should be controlled,

EXHIBIT "C-4" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening improvement and maintenance of the Willamette River-Hayesville Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A: is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the widening, improvement and maintenance of the Willamette River-Hayesville Section of the Portland-Salem Expressway and the highway facilites for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 640.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 640, under the heading "Real Property Condemnation Resolution," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

26791

EXHIBIT "C-5"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads, highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public, and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Beaverton-Hillsdale Highway, and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Beaverton-Hillsdale Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list. marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the widening, improvement and maintenance of the said Beaverton-Hillsdale Highway and the highway facilities for which each of the

said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 641.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 641, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-6"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Pacific Highway West, and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED, by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Pacific Highway West, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the widening, improvement and maintenance of the said Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is

necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 642.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 642, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-7"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS the State Highway Commission, on the 22nd day of September, 1955, by resolution declared the necessity for the acquisition of certain real property owned by Mary Burch, et al., File No. R-18168, situated in the Nathaniel Ford Donation Land Claim in Township 7 South, Range 5 West, Willamette Meridian, and Township 7 South, Range 4 West, Willamette Meridian, Polk County, Oregon, for right of way purposes for the construction, improvement and maintenance of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway as a throughway and also for the widening, improvement, and maintenance of the Dallas-Rickreall Highway; and

WHEREAS the said resolution declared the necessity for the acquisition or extinguishment of all rights of access between the right of way of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway and the widened and improved Dallas-Rickreall Highway and all of the contiguous real property of the owners except for two accesses to the said Willamina-Salem Highway for the production and transportation to market of farm products from the owners' remaining land and for private residential use only and two accesses to the said widened and improved Dallas-Rickreal Highway for the production and transportation to market of farm products from the owners' remaining land and for private residential use only; and

WHEREAS the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the locations of two of the four above-mentioned accesses and in addition, to allow the owners an additional access to the said widened and improved Dallas-Rickreall Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That pages 18 and 19, Exhibit A, of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 22nd day of September, 1955, pertaining to the rights of access reserved to the said owners, Mary Burch, et al., File No. R-18168, be and the same hereby is amended to read as follows:

> A right of access to the relocated Willamina-Salem Highway of a width of 25 feet on the southerly side of said highway opposite Highway Engineer's centerline Station 851+45 for the production and transportation to market of farm products from the owners' remaining land and for private residential use only.

EXHIBIT "C-7" (Cont)

A right of access to the relocated Willamina-Salem Highway of a width of 25 feet on the northerly side of said highway opposite Highway Engineer's centerline Station 840+00 for the production and transportation to market of farm products from the owners' remaining land and for private residential use only.

A right of access to the widened and improved Dallas-Rickreall Highway of a width of 25 feet on the northerly side of said highway opposite Highway Engineer's centerline Station "D" 838+25 for the production and transportation to market of farm products from the owners' remaining land and for private residential use only.

A right of access to the widened and improved Dallas-Rickreall Highway of a width of 25 feet on the southerly side of said highway opposite Highway Engineer's centerline Station "D" 838+25 for the production and transportation to market of farm products from the owners' remaining land and for private residential use only.

A right of access to the widened and improved Dallas-Rickreall Highway of a width of 25 feet on the southerly side of said highway oppose Highway Engineer's centerline Station 853+50 for the production and transportation to market of farm products from the owners' remaining land and for private residential use only.

If, after written notice to desist, the owners, or any person holding under them, shall use the above rights of access for any purpose not stated for those particular places, or shall permit or suffer any person to do so, the rights of access shall automatically be suspended. The State Highway Commission shall thereupon have the right to close the places of access for all purposes. The suspension shall terminate when satisfactory assurance has been furnished the State Highway Commission that the places of access will be used only for the purposes herein stated, provided, however, that the State Highway Commission may first require a bond with sureties satisfactory to it in an amount not in excess of $1,000.00, conditioned upon faithful compliance with the above provisions concerning the use of the accesses at said places. The State's rights to close the places of access and require a bond shall be continuing as to each succeeding use for a purpose not herein stated.

The State Highway Commission shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road, or roads, within the boundaries of any present or hereafter acquired right of way; thereupon the rights of access herein granted to and from the aforesaid highway which are on or adjacent to any such frontage road, or roads, shall cease, but the owners, their heirs and assigns, shall have access to the said frontage road, or roads. Said frontage road, or roads, on the northerly side of the right of way shall be connected to the said relocated Willamina-Salem

EXHIBIT "C-7" (Cont)

Highway at a point not a greater distance to the West of the owners' remaining land than a point approximately opposite Highway Engineer's centerline Station 672+00, and at a point not a greater distance to the East of the owners' remaining land than a point approximately opposite Highway Engineer's centerline Station 857+00. Said frontage road, or roads, on the southerly side of the right of way shall be connected to the said relocated Willamina-Salem Highway at a point not a greater distance to the East of the owners' remaining land than a point approximately opposite Highway Engineer's centerline Station 857+00.

2. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 560-b.

26801

EXHIBIT "C-8"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS the State Highway Commission, on the 22nd day of September, 1955, by resolution declared the necessity for the acquisition of certain real property owned by Elsie M. Monson, et al., File No. R-18166, situated in Section 25, Township 7 South, Range 5 West, Willamette Meridian, Polk County, Oregon, for right of way purposes for the construction, improvement, and maintenance of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway as a throughway; and

WHEREAS the said resolution declared the necessity for the acquisition or extinguishment of all rights of access between the right of way of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway and all of the contiguous real property of the owners except for a farm crossing more particularly described on page 14, Exhibit A, of said resolution; and

WHEREAS the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the location of the farm crossing on the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway;

NOW, THEREFORE, BE IY AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That paragraph 2 on page 14, Exhibit A, of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 22nd day of September, 1955, pertaining to the property owned by Elsie M. Monson, et al., File No. R-18166, be and the same hereby is amended to read as follows:

> The right, so long as any portions of the remaining property on both sides of the said relocated Willamina-Salem Highway and served by such crossing are held by a common ownership, to establish, maintain and use a crossing of a width of 30 feet at Highway Engineer's centerline Station 823+00, such right to continue only so long as the crossing shall be used for farm purposes only. The construction of a frontage road or roads shall not defeat the right of crossing.

2. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 560-c.

EXHIBIT "C-9"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS the State Highway Commission, on the 22nd day of September, 1955, by resolution declared the necessity for the acquisition of a parcel of real property owned by Isaac Reimer, et al., File No. R-18159, situated in Section 15, Township 7 South, Range 5 West, Willamette Meridian, Polk County, Oregon, for right of way purposes for the construction, improvement and maintenance of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway; and

WHEREAS the State Highway Commission, on the 4th day of June, 1956, amended the said resolution of September 22, 1955, by setting forth additional property needed for the said right of way of the said Willamina-Salem Highway and also, as in said resolution of June 4, 1956, provide the property owners with a farm crossing 30 feet in width at Highway Engineer's centerline Station 694+80; and

WHEREAS the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State of Oregon and the owners for the State Highway Commission to change the location of the said farm crossing and also to reduce its width;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That page 2 of that certain resolution made and entered in full in the minutes and records of the Commission on the 4th day of June, 1956, insofar as said resolution pertains to the rights of access to the remaining property owned by the said Isaac Reimer, et al., File No. 18159, be and the same hereby is amended to read as follows:

> It is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Willamina-Salem Highway and all of the contiguous real property of the owners which abuts thereon remaining after the appropriation of the above-described real property, providing, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:
>
> The right, so long as any portions of the remaining property on both sides of the said relocated Willamina-Salem Highway and served by such crossing are held by a common ownership, to establish, maintain, and use a crossing of a width of 20 feet, said crossing to cross the northerly right of way line opposite Highway Engineer's centerline Station 693+50 and the southerly

right of way line opposite Highway Engineer's centerline Station 695+75, such right to continue only so long as the crossing shall be used for farm purposes only.

2. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 560-aa.

EXHIBIT "C-10"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS the State Highway Commission on the 11th day of August, 1955, by resolution declared the necessity for the acquisition of real property owned by Ross A. Simpson, et ux., File No. 18155, situated in Section 15 and Section 16, Township 7 South, Range 5 West, Willamette Meridian, Polk County, Oregon, for right of way purposes for the construction, improvement and maintenance of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway; and

WHEREAS the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State of Oregon and the owners for the State Highway Commission to change the location of one farm crossing from Highway Engineer's centerline Station 631+00 to Highway Engineer's centerline Station 633+00; and further to change the location of one northerly and one southerly access point from Highway Engineer's centerline Station 631+00 to Highway Engineer's centerline Station 633+00.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that certain resolution made and entered in full in the minutes and records of the Commission on the 11th day of August, 1955, in so far as said resolution pertains to accesses and to the right of crossing, for farm purposes only, on the remaining property owned by the said Ross A. Simpson, et ux., File No. 18155, be and the same hereby is amended to read as follows:

> The right, so long as any portions of the remaining property on both sides of the said relocated Willamina-Salem Highway and served by such crossing are held by a common ownership, to establish, maintain, and use a crossing of a width of 30 feet at Highway Engineer's centerline Station 633+00, such right to continue only so long as the crossing shall be used for farm purposes only. The construction of a frontage road, or roads, shall not defeat the right of crossing.
>
> A right of access to the relocated Willamina-Salem Highway of a width of 25 feet on the northerly side of said highway opposite Highway Engineer's centerline Station 633+00, for the production and transportation to market of farm products from the owners' remaining land, and for private residential use only.
>
> A right of access to the relocated Willamina-Salem Highway of a width of 25 feet on the southerly side of said highway

EXHIBIT "C-10" (Cont)

opposite Highway Engineer's centerline Station 633+00, for the production and transportation to market of farm products from the owners' remaining land, and for private residential use only.

2. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 643-a.

EXHIBIT "C-11"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS the State Highway Commission on the 11th day of August, 1955, by resolution declared the necessity for the acquisition of certain real property owned by Joseph H. Harland and Arlene L. Harland, husband and wife, file No. R-18161, situated in Section 23, Township 7 South, Range 5 West, Willamette Meridian. Polk County Oregon, for right of way purposes for the construction, improvement and maintenance of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway; and

WHEREAS the said resolution declared the necessity for the acquisition or extinguishment of all rights of access between the right of way of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway and all of the contiguous real property of the owners, except six rights of access to the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway for the production and transportation to market of farm products from the owners' remaining land and for private residential use only, and three crossings to be used for farm purposes only, so long as any portions of the remaining property of the owners are held in common ownership; and

WHEREAS the State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the location of four of the rights of access to the Dolph Corner-Rickreall Section of the Willamina-Salem Highway, and two of the farm crossings;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That paragraph 2 of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 11th day of August, 1955, pertaining to the property owned by Joseph H. Harland and Arlene L. Harland, husband and wife, file No. R-18161, be and the same is hereby amended to read as follows:

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".

26807

EXHIBIT "C-11" (Cont)

Exhibit A

File No. R-18161
Owner: Joseph H. Harland, et ux.
Use: The following described real property is necessary for right of way purposes, for the construction, improvement and maintenance of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway, to wit:

A parcel of land lying in Section 23, Township 7 South, Range 5 West, W. M., Polk County, Oregon, and being a portion of that property lying in Section 23 as described in that deed to Joseph H. Harland and Arlene L. Harland, recorded in Book 150, Page 128 of Polk County Records of Deeds, the said parcel being that portion of said property included in a strip of land variable in width, lying on each side of the center line of the Willamina-Salem Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's centerline Station 715+00, said Station being 3006.26 feet North and 272.5 feet West of the Southwest corner of the Harrison Brunk Donation Land Claim No. 61, Township 7 South, Range 5 West, W. M.; thence South 51° 12' East 5500 feet to Station 770+00, said center line crossing the Westerly and Southerly lines of said property approximately at Stations 718+05 and 768+20, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station	to Station	Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
715+00	733+00	50 feet	50 feet
733+00	770+00	60 feet	60 feet

The parcel of land to which this description applies contains 13.13 acres.

It is necessary that there shall be no rights of access of any nature between the right of way of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway and all of the contiguous real property of the owners which abutts thereon remaining after the appropriation of the above-described real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Willamina-Salem Highway of a width of 25 feet on the northerly side of said highway opposite Highway Engineer's centerline Station 719+75, for the production and transportation to market of farm products from the defendants' remaining land and for private residential use only.

EXHIBIT "C-11" (Cont)

Exhibit A (Cont)

A right of access to the Willamina-Salem Highway of a width of 25 feet on the southerly side of said highway opposite Highway Engineer's centerline Station 719+75, for the production and transportation to market of farm products from the defendants' remaining land and for private residential use only.

A right of access to the Willamina-Salem Highway of a width of 25 feet on the northerly side of said highway opposite Highway Engineer's centerline Station 741+25, for the production and transportation to market of farm products from the defendants' remaining land and for private residential use only.

A right of access to the Willamina-Salem Highway of a width of 25 feet on the southerly side of said highway opposite Highway Engineer's centerline Station 741+25 for the production and transportation to market of farm products from the defendants' remaining land and for private residential use only.

A right of access to the Willamina-Salem Highway of a width of 25 feet on the northerly side of said highway opposite Highway Engineer's centerline Station 752+70 for the production and transportation to market of farm products from the defendants' remaining land and for private residential use only.

A right of access to the Willamina-Salem Highway of a width of 25 feet on the southerly side of said highway opposite Highway Engineer's centerline Station 752+70 for the production and transportation to market of farm products from the defendants' remaining land and for private residential use only.

If, after written notice to desist, the defendants, or any person holding under them, shall use the above rights of access for any purpose not stated for those particular places, or shall permit or suffer any person to do so, the rights of access shall automatically be suspended. The plaintiff shall thereupon have the right to close the places of access for all purposes. The suspension shall terminate when satisfactory assurance has been furnished the plaintiff that the places of access will be used only for the purposes hereinabove stated; provided, however, that the plaintiff may first require a bond with sureties satisfactory to it in an amount not in excess of $1,000.00, conditioned upon faithful compliance with the above provisions concerning the use of the accesses at said places. The plaintiff's rights to close the places of access and require a bond shall be continuing as to each succeeding use for a purpose not herein stated.

The plaintiff shall, however, have the rights at its option to build at any future time, at its sole cost, a frontage road,

or roads, within the boundaries of any present or hereafter acquired right of way, thereupon the rights of access herein granted to and from the aforesaid highway which are on or adjacent to any such frontage road, or roads, shall cease, but the defendants, their heirs and assigns, shall have access to the said frontage road, or roads. Said frontage road, or roads, shall be connected to the said Willamina-Salem Highway at a point not a greater distance to the west of the defendants' remaining land than a point approximately opposite Highway Engineer's centerline Station 672+00 and at a point not a greater distance to the east of the defendants' remaining land than a point approximately opposite Highway Engineer's centerline Station 857+00.

The right, so long as any portions of the remaining property on both sides of the said Willamina-Salem Highway and served by such crossing are held by a common ownership, to establish, maintain, and use a crossing of a width of 30 feet at Highway Engineer's centerline Station 719+75, such right to continue only so long as the crossing shall be used for farm purposes only. The construction of a frontage road, or roads, shall not defeat the right of crossing.

The right, so long as any portions of the remaining property on both sides of the said Willamina-Salem Highway and served by such crossing are held by a common ownership, to establish, maintain, and use a crossing of a width of 30 feet at Highway Engineer's centerline Station 752+70, such right to continue only so long as the crossing shall be used for farm purposes only. The construction of a frontage road, or roads, shall not defeat the right of crossing.

The right, so long as any portions of the remaining property on both sides of the said Willamina-Salem Highway and served by such crossing are held by a common ownership, to establish, maintain, and use a crossing of a width of 30 feet at Highway Engineer's centerline Station 741+25, such right to continue only so long as the crossing shall be used for farm purposes only. The construction of a frontage road, or roads, shall not defeat the right of crossing.

A right of passage across the Willamina-Salem Highway through a corrugated metal tube 84 inches in diamter which the plaintiff will place, at its sole cost, under the highway to be constructed at Highway Engineer's centerline Station 745+50. Said right of crossing shall continue only so long as any portion of the remaining property on both sides of the highway and served by the said underpass are held under a common ownership.

That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956 as Condemnation Resolution No. 540-a.

26811

EXHIBIT "C-12"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS the State Highway Commission, on the 3rd day of November, 1955, by resolution declared the necessity for the acquisition of certain real property owned by Edith B. Mars, et al., File No. R-23265, situated in Block "P", Railroad Addition to Ashland, Jackson County, Oregon, for right of way purposes for the relocation, construction, improvement, and maintenance of the northbound route of the Ashland Section of the Pacific Highway; and

WHEREAS the said State Highway Commission, after further investigation, has found that it is to the best interests of the state and the public to acquire an additional parcel of real property in connection with the proper relocation, construction, improvement, and maintenance of the northbound route of the Ashland Section of the Pacific Highway; and

WHEREAS said resolution of November 3, 1955, does not include the additional real property needed for the above-mentioned right of way and should, therefore, be amended to include the same; and

WHEREAS the State Highway Commission found it necessary to acquire an easement over certain real property for the purpose of constructing and maintaining and repairing the slopes of cuts or fills occasioned by or resulting from the relocation, construction, improvement, and maintenance of said northbound route of the Ashland Section of the Pacific Highway; and

WHEREAS the description of part 1 of said easement is incorrect; and

WHEREAS the Oregon Legislature, under ORS 374.405 and ORS 374.410 has provided that no rights of access shall accrue to any real property abutting upon any portion of any state highway constructed, relocated, or reconstructed after May 12, 1951, except that the said State Highway Commission may prescribe and define the location, width, nature, and extent of any rights of access that may be permitted to the owners' remaining real property; and

WHEREAS the said Commission, in said resolution of November 3, 1955, did not specifically prescribe and define the location, width, nature and extent of any rights of access from the said relocated northbound route of the Ashland Section of the Pacific Highway to the said owners' remaining real property; and

WHEREAS it appears to the said Commission that it will be to the best interests of the State of Oregon and the owners of the said real property to allow certain rights of access to be permitted from the said owners' remaining land to the said relocated section of the said Pacific Highway as prescribed and defined as follows:

EXHIBIT "C-12" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That certain resolution duly made and entered in full in the minutes and records of the Commission on the 3rd day of November, 1955, pertaining to the property owned by Edith B. Mars, et al., File No. R-23265, and described on page 7 of Exhibit A in said resolution, be and the same hereby is amended to include the following:

The following-described real property is necessary for right of way purposes for the relocation, construction, improvement, and maintenance of the northbound route of the Ashland Section of the Pacific Highway, to wit:

Parcel No. 3:

Parcel No. 3 being that portion of the North 15 feet of Lot 15, Block "P", Railroad Addition to Ashland, Jackson County, Oregon, that is situated southwesterly from a line which is 30 feet distant southwesterly from and parallel to the center line of the northbound route of the Pacific Highway in Ashland, said center line is described as follows:

Beginning at Engineer's centerline Station 31+47.96, said Station being 252.4 feet South and 192.6 feet East of the monument at the intersection of Second and "C" Streets; thence South 28° 36' East, 652.34 feet to Station 38+00.30, said center line crossing the northerly line of said Lot 17 and the easterly line of said Lot 20 approximately at Stations 34+42 and 35+83 respectively, containing 263 square feet, more or less.

2. That Part 1 of the real property necessary for an easement for the purpose of constructing and maintaining and repairing the slopes of cuts or fills on page 7 of Exhibit A of the resolution of November 3, 1955, is amended to read as follows:

A parcel of land lying in Lots 15, 16, 17, 18, 19 and 20, Block "P", Railroad Addition to Ashland, Jackson County, Oregon, the said parcel consisting of two parts:

Part 1 being that portion of said Lots 15, 16, 17, 18, and 19 included in a strip of land 5 feet in width lying adjacent to and westerly of the 60 foot strip of land described in Parcel No. 1. Except that portion lying within the North 15 feet of said Lot 15.

3. That Exhibit A, page 7, of that certain resolution duly made and entered in full in the minutes and records of the Commission on the

EXHIBIT "C-12" (Cont)

3rd day of November, 1955, pertaining to the property owned by Edith B. Mars, et al., File No. R-23265, be and the same hereby is amended to include the following paragraphs:

That there shall be granted unto the owners, their heirs and assigns, for service of their remaining land, the following:

A right of access to the relocated northbound route of the Ashland Section of the Pacific Highway of a width not to exceed 25 feet on the West side of the said highway opposite Highway Engineer's centerline Station 34+58.

A right of access to the relocated northbound route of the Ashland Section of the Pacific Highway of a width not to exceed 25 feet on the West side of the said highway opposite Highway Engineer's centerline Station 35+13.

A right of access to the relocated northbound route of the Ashland Section of the Pacific Highway of a width not to exceed 25 feet on the East side of the said relocated Pacific Highway opposite Highway Engineer's centerline Station 35+13.

4. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 617-a.

EXHIBIT "C-13"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials, approach or hauling roads, connecting road, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain Unit No. 2 of the T. H. Banfield Expressway, as a throughway; and

WHEREAS, in connection with the establishing, constructing and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and in connection with the establishment, construction and maintenance of the said Unit No. 2 of the T. H. Banfield Expressway, fee simple title to a certain parcel of real property and an easement over a certain parcel of real property. The said parcels of real property needed and required, or which in the best interests of the State and the owner should be acquired, and the specific use to be made thereof, is more particularly described in the attached list, marked Exhibit "A", under the Commission's respective file number and the name of the record owner or reputed owner; and said Exhibit "A" is by this reference adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "C-13" (Cont)

2. That the establishment, construction and maintenance of the said Unit 2 of the T. H. Banfield Expressway and the highway facilities for which the said parcels of property are required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owner and other persons having an interest in said parcel of real property as to the compensation to be paid for the taking; and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 12th day of July, 1956, as Condemnation Resolution No. 644.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 644, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4184 with Parker-Schram Co. for grading and paving on the St. Helens-McNulty Creek Section of the Old Portland and Goble County Roads in Columbia County, completed September 21, 1955.

"Contract No. 4185 with Parker-Schram Co. for grading and paving on the Tide Creek-St. Helens Unit, Goble-St. Helens Section of the Columbia River Highway in Columbia County, completed October 15, 1955.

"Contract No. 4297 with Tom Lillebo for constructing six structures on the Coast Fork Willamette River-Divide Unit of the Pacific Highway in Lane County, completed June 15, 1956.

"Contract No. 4333 with L. B. Read for constructing the Blodgett Overcrossing on the Corvallis-Newport Highway in Benton County, completed June 21, 1956.

"Contract No. 4382 with K. F. Jacobsen & Co., Inc. for grading and paving the Rock Creek-Damascus Section of the Clackamas-Boring Road in Clackamas County, completed June 21, 1956.

"Contract No. 4426 with Tom Lillebo for constructing the Applegate River Bridge on the Redwood Highway in Josephine County, completed April 15, 1956.

"Contract No. 4430 with Tri State Painting Co. for painting the North Fork Quartz Creek and Necarney Creek Bridges on the Sunset and Oregon Coast Highways in Clatsop and Tillamook Counties, completed June 17, 1956.

"Contract No. 4441 with Peterson Construction Co. for Beverly Beach Park Camp Extension on the Oregon Coast Highway in Lincoln County, completed May 16, 1956.

"Contract No. 4452 with Tom Lillebo for constructing the Luckiamute River Bridge on the Burns Corner-Suver Road in Polk County, completed June 29, 1956.

"Contract No. 4459 with the United Contracting Co. for paving the Cannon Beach (2nd St. -1st St.) Section of the Oregon Coast Highway in Clatsop County, completed June 19, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4463 with Warren Northwest, Inc. for grading and paving on the Turner-Aumsville Section of the Salem-Turner-Aumsville County Road in Marion County, completed June 20, 1956.

"Contract No. 4519 with Tom Lillebo for constructing the Clear Lake Bridge and Approaches on Clear Lake County Road No. 604 in Marion County, completed June 13, 1956.

"Contract No. 4561 with Durbin Bros. for grading and oiling on the West Unit, Black Bridge-Richland Section of the Baker-Homestead Highway in Baker County, completed June 5, 1956.

"Contract No. 4580 with M. C. Lininger & Sons for furnishing crushed materials in stockpiles on the Ashland-State Line Section of the Pacific Highway in Jackson County, completed May 25, 1956.

"Contract No. 4583 with Trowbridge Electric Co. for installing traffic signals on the East Springfield Section of the McKenzie Highway in Lane County, completed June 27, 1956.

"Contract No. 4584 with Trowbridge Electric Co. for installing traffic signals on the Hunsacker Lane-Fir Lane Section of the Junction City-Eugene Highway in Lane County, completed June 15, 1956.

"Contract No. 4585 with Trussfab, Inc. for constructing guardrail on the Division No. 4 Guardrail Project on The Dalles-California and Willamette Highways in Klamath and Lane Counties, completed June 1, 1956.

"Contract No. 4612 with Umatilla Ready-Mix Co. for furnishing crushed material in stockpiles on the Milton-Freewater Section of the Oregon-Washington, Freewater and Sunnyside Highways in Umatilla County, completed May 29, 1956.

"Contract No. 4620 with Charles E. Wiedeman for constructing the Oak Creek Bridges on the Orleans-Lebanon and Lebanon-Brownsville County Roads in Linn County, completed June 26, 1956.

"Contract No. 4635 with J. C. Compton Co. for paving the 12th St.-Boyd St. (Medford) Section of the Pacific Highway in Jackson County, completed June 29, 1956.

"Contract No. 4641 with Warren Northwest, Inc. for paving on the Amity (4th & Stanley Sts.) City Street Section in Yamhill County, completed June 5, 1956.

"Contract No. 4668 with R & W Construction Co. for constructing guardrail on the Detroit Reservoir Section of the North Santiam Highway in Marion County, completed July 7, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4676 with Vern Hoaglin for constructing guardrail in Divisions 1 and 2 on four State highways in Clatsop, Tillamook and Columbia Counties, completed July 3, 1956.

"Contract No. 4677 with E. H. Itschner Co. for furnishing crushed materials in stockpiles on the Beech Creek-Mt. Vernon Section of the Pendleton-John Day and Beech Creek Highways in Grant County, completed May 31, 1956.

"Contract No. 4684 with Russell Olson Construction Co., Inc. for grading and paving the Lexington (Arcade Street) City Street Section in Morrow County, completed June 11, 1956.

"Contract No. 4738 with Russell Olson Construction Co., Inc. for paving the Hermiston (Orchard Ave.) City Street Section in Umatilla County, completed June 21, 1956.

"Contract No. 4742 with Babler Bros., Inc., for paving on the Culver ("E" Street) City Section in Jefferson County, completed July 4, 1956."

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 53 shall be entered in the minutes and records of the Commission as of the 12th day of July, 1956.

26813

EXHIBIT "E"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, ORS 366.800 provides that:

"There shall be and hereby are appropriated out of the highway fund annually such sums of money as will equal 10 per cent of all moneys credited to the highway fund by the State Treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the highway fund by the State Treasurer under ORS 319.410, 481.540, 767.635 and from fines and penalties collected for violations of the motor vehicle and transportation laws. The appropriation shall be distributed among the several cities as provided in ORS 366.785 to 366.820."

AND, WHEREAS, ORS 366.805 provides:

"The appropriation specified in ORS 366.800 shall be allocated to the cities as follows:

(1) The sum of $250,000 shall be withdrawn from the appropriation each year and set up in a separate account to be administered by the commission.

(2) Such account shall be spent each year by the commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area of heavy and unusual industrial traffic.

(3) The commission shall determine the distribution of the expenditures after considering applications made to it therefor from the cities.

(4) The balance remaining in the appropriation after the withdrawal of the $250,000 shall be distributed to all the cities.

(5) Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, ORS 366.810 provides that:

"Funds accrued and payable to cities under ORS 366.785 to 366.820 shall be remitted semiannually by the Secretary of State to the financial officer of each city. The funds appropriated shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the commission, which shall certify the apportionment to the Secre-

EXHIBIT "E" (Cont)

tary of State. Upon receipt of such certificate the Secretary of State shall issue his warrants therefor payable to the cities in the amounts set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of January 1 to June 30, inclusive, of the year 1956, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of ORS 481.540 (motor vehicle registration and operators' license fees) total.....	$ 6,236,587.68
Funds resulting under the provisions of ORS 319.410 (gasoline tax) total.....	14,159,211.43
Funds resulting under the provisions of ORS 767.635 (motor carrier fees) total.....	5,066,533.72
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws total.....	205,142.67
	$25,667,475.50

AND, WHEREAS, the statutory ten per cent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,566,747.55, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period January 1 to June 30, 1956, the sum of $2,441,747.55, and

WHEREAS, by applying the factors of allocation or distribution provided for in ORS 366.800 to 366.810, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below:

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: NEHALEM SECONDARY HIGHWAY (Clatsop County)

Highway number 102 Route number 202

Location of Termini				Established Speed
M.P. 0.41 (a point 0.16 mi. east of S. E. 8th St.)	to	M.P. 0.63 (a point 250 feet west of S. E. Wall St.)		45 M.P.H.

RESOLUTION

WHEREAS, the Oregon Coast Highway, No. 9, is one of the major state primary highways under the control and jurisdiction of the State Highway Commission, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that on the said Oregon Coast Highway in the vicinity of the Juno Inn just north of Tillamook, a hazard is created to both vehicular and pedestrian traffic by the parking of vehicles on the east side of the highway; and

WHEREAS, vehicular traffic moves at relatively high speeds over this section of the highway; and

WHEREAS, an area has been provided for off-highway parking at said location; and

WHEREAS, in the opinion of the Commission, public welfare and public safety require that shoulder parking of vehicles should be prohibited within said area,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigations, reports, and recommendation by members of its staff, that the parking of vehicles on the east side of the said Oregon Coast Highway, No. 9, between M.P. 74.11 (Engineer's Station 124+00) and M.P. 74.19 (Engineer's Station 120+00), in the vicinity of the Juno Inn just north of Tillamook, creates a hazard to both vehicular and pedestrian traffic.

2. That this Commission does hereby find and declare that the parking of vehicles on the east side of said highway within said termini should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

4. That a certified copy of this resolution be sent to the owners of the Juno Inn and a like copy to the Superintendent of the Department of State Police for his information.

EXHIBIT "G-1" (Cont)

5. That this resolution be entered in the minutes and records of the State Highway Commission as of the 12th day of July, 1956, as No Parking Resolution No. 145.

26837

EXHIBIT "G-2"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, the Beaverton-Hillsdale Highway, No. 40, is a primary highway under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the width of said highway from the Multnomah-Washington County line to the City of Beaverton does not permit the parking of vehicles on the shoulders of said highway and at the same time provide the degree of safety to which the traveling public is entitled, and

WHEREAS, parking of vehicles on said section of highway restricts the capacity of the highway and is considered hazardous to the traveling public as well as to the operators and occupants of said vehicles, and

WHEREAS, in the opinion of this Commission, public welfare and public safety require that shoulder parking of vehicles should be prohibited within said area,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigations, reports, and recommendation by members of its staff, that the parking of vehicles on either side of the said Beaverton-Hillsdale Highway, No. 40, between the Multnomah-Washington County Line (M. P. 3.27) and the east city limits of Beaverton (M. P. 5.89) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, which signs installed along the uncurbed portion of the highway shall bear in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS", and along the curbed portion shall bear the wording "NO PARKING AT ANY TIME."

EXHIBIT "G-2" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 146 be entered in the minutes and records of the State Highway Commission as of the 12th day of July, 1956.

26839

EXHIBIT "G-3"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, the Richardson-Eugene Secondary Highway, No. 220, is a state secondary highway under the jurisdiction and control of the Oregon State Highway Commission; and

WHEREAS, it appears that on a section of the said Richardson-Eugene Highway in the vicinity of Fern Ridge Reservoir, a hazardous condition exists resulting from the parking of cars on the highway shoulders, and

WHEREAS, there have been provided two off-highway parking areas at said location, and

WHEREAS, in the opinion of the Commission, public welfare and public safety require that shoulder parking of vehicles should be prohibited within said area,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigations, reports, and recommendation by members of its staff, that the parking of vehicles on either side of the said Richardson-Eugene Secondary Highway, No. 220, between M.P. 39.51 (Engineer's Station 512+00) immediately west of the bridge that crosses the west fork of Coyote Creek, and M.P. 41.63 (Engineer's Station 399+50), approximately the east end of the bridge crossing Coyote Creek, creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS."

EXHIBIT "G-3" (Cont)

5. That a certified copy of this resolution be sent to Central Grange No. 360, of Veneta, Oregon, and a like copy to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 12th day of July, 1956, as No Parking Resolution No. 147.

26841

EXHIBIT "H-1"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of:

a. China Gulch-Copper Road Section of the Medford-Provolt Highway in Jackson County;

b. River Banks Farm Section of the Rogue River Loop Highway in Josephine County;

c. Finn Rock-Elk Creek Section of the McKenzie Highway in Lane County; and

d. Walton-Noti Section of the Richardson-Eugene Highway in Lane County,

and in connection therewith to prepare maps showing the routes and locations of said sections, and to file said maps, reports, and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1-a. That the survey of the China Gulch Copper Road Section of the Medford-Provolt Highway, beginning at Highway Engineer's Station 116+00, approximately 0.75 mile west of Copper Road, and extending in an easterly direction to Highway Engineer's Station 69+00, a short distance east of Copper Road, together with the map, which for identification purposes bears Map File No. 8B-2-20 and the date of June, 1956 (Drawing No 1R-5-901), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-b. That the survey of the River Banks Farm Section of the Rogue River Loop Highway, beginning at Highway Engineer's Station 0+00, approximately 2.75 miles north of the junction with the Redwood Highway,

extending in a southerly direction to Highway Engineer's Station 0+36.05 at the junction with the Redwood Highway, together with the map, which for identification purposes bears Map File No. 8B-2-22 and the date of June, 1956, (Drawing No. 1R-5-903), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-c. That the survey of the Finn Rock-Elk Creek Section of the McKenzie Highway, beginning at Highway Engineer's Station 157+25.83 at Finn Rock, and extending in a northerly and easterly direction to Highway Engineer's Station 241+43, approximately 1.5 miles west of the community of Blue River, together with the map, which for identification purposes bears Map File No. 8B-2-17 and the date of June, 1956, (Drawing No. 1R-5-894), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-d. That the survey of the Walton-Noti Section of the Richardson-Eugene Highway, beginning at Highway Engineer's Station 754+65.60, a short distance west of the community of Walton, and extending in an easterly and northerly direction to Highway Engineer's Station 283+81.5 in the community of Noti, together with the map, which for identification purposes bears Map File No. 8B-2-18, 19 and the date of June, 1956, (Drawing No. 1R-5-900), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, re-construction, or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the twelfth day of July, 1956, as Survey Resolution No. 142.

26843

EXHIBIT "H-2"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of:

a. Whiteson Unit of the South Yamhill River-Amity Section of the Pacific Highway West in Yamhill County;

b. Willowdale-Lyle Gap Unit of the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County; and

c. Gold Beach-Cape Sebastian Section of the Oregon Coast Highway in Curry County;

and in connection therewith to prepare maps showing the routes and locations of said sections, and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1-a. That the survey of the Whiteson Unit, South Yamhill River-Amity Section of the Pacific Highway West, beginning at Highway Engineer's Station 168+00, approximately 0.75 mile south of the South Yamhill River, and extending in a southerly direction to Highway Engineer's Station 225+00, approximately 2 miles north of the town of Amity, together with the map which for identification purposes bears Map File No. 8B-2-21 and the date of June, 1956 (Drawing No. 1R-5-902), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-b. That the survey of the Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway, beginning at Highway Engineer's Station 449+00 in the community of Willowdale, and extending in a southerly direction to Highway Engineer's Station 736+81 at Lyle Gap,

EXHIBIT "H-2" (Cont)

together with the map which for identification purposes bears Map File No. 8B-2-24 and the date of June, 1956, (Drawing No. 1R-5-906), field notes and other engineering data submitted by the Engineer hereby are approved and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-c. That the survey of the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, beginning at Highway Engineer's Station 15+54 in the town of Gold Beach, and extending in a southerly direction to Highway Engineer's Station 320+00, approximately one mile north of Cape Sebastian Park, together with the map, which for identification purposes bears Map File No. 8B-2-28, 29 and the date of July, 1956, (Drawing No. 1R-5-911), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission said sections of said highways have been designated as throughways within the meaning and purpose of ORS 374.055, commonly known as the "Throughway Law", and, for the reasons stated therein, the above named sections of said highways should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law, except any portion of said sections which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said sections of highways were designated as throughways.

5. That this resolution be entered in the minutes and records of the Commission as of the twelfth day of July, 1956, as Survey Resolution No. 143.

26845

EXHIBIT "I"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, the Wallowa Lake State Park is an Oregon Park established by and under the jurisdiction and control of the State of Oregon, by and through its State Highway Commission; and

WHEREAS, picnic facilities and overnight camping facilities are provided in the North area of said Wallowa Lake State Park; and

WHEREAS, various persons on numerous occasions ride horses in said North area of said Wallowa Lake State Park. Said riders do not confine their riding to the roads located therein but ride through the picnic area and through the overnight camping area endangering the lives and safety of the persons using the picnic facilities and the overnight camping facilities; and

WHEREAS, it is the opinion of the Highway Commission that it is necessary, in order to protect the lives and safety of persons using the picnic facilities and overnight camping facilities in the North area of said state park, to prohibit the use or riding of horses at any time within the North area of Wallowa Lake State Park;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED AND ORDERED by the Highway Commission, as follows:

1. The Commission does hereby find and declare that the riding of horses in the North area of the Wallowa Lake State Park creates a hazard that endangers the lives and safety of those using the picnic facilities and the overnight camping facilities therein. Attached hereto, marked Exhibit A and by this reference made a part hereof, is a map of one page of the said North area of the Wallowa Lake State Park.

2. The Highway Commission does further find, declare and order that the use or riding of horses in said North area of said Wallowa Lake State Park is prohibited at all times.

3. The State Parks Superintendent or his authorized representative is hereby instructed to erect signs within the said park area prohibiting the use or riding of horses therein.

4. A duplicate original hereof shall be filed with the Secretary of State of Oregon in accordance with ORS 183.020.

5. That this resolution be entered in the minutes and records of the State Highway Commission as of the 12th day of July, 1956.

July 12, 1956

EXHIBIT "J"

Minutes of July 12 and 13, 1956

RESOLUTION

WHEREAS, the State Highway Commission relocated a certain section of the Columbia River Highway (Ore. 2) in Hood River County, known as the Hood River-Mosier Section of the Columbia River Highway; and,

WHEREAS, as a consequence of the relocation of the said section, a certain portion of the old Columbia River Highway as located before the re-location, known as the Hood River Loops, was no longer needed for state highway purposes; and,

WHEREAS, this Commission did therefore, in accordance with an agreement entered into with Hood River County, dated on the 16th day of April, 1952, and under the provisions of ORS 366.300, by Abandonment and Retention Resolution Number 256, dated on the 6th day of August, 1953, transfer the jurisdiction of and vest the title to the said Hood River Loops to and in Hood River County to be maintained as a county road for the service of persons living on the said highway and for the service of a community served thereby. Said portion of the old Columbia River Highway transferred to and vested in Hood River County is designated as Unit B in the said Abandonment and Retention Resolution; and,

WHEREAS, this Commission had acquired certain property within the loops of the said Hood River Loops of the old Columbia River Highway for sight clearance on the said highway, which property was not transferred to Hood River County by the said resolution; and,

WHEREAS, it is the intent and purpose of this Commission to transfer to Hood River County that property between the loops of the said Hood River Loops of the old Columbia River Highway, to become a part of the said unit of the old Columbia River Highway transferred to the county for county road purposes.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the following described real property be and the same hereby is transferred to Hood River County, and all right, title and interest which the State has in the said property hereby passes to and vests in Hood River County, by and through its County Court, to become a part of that portion of the old Columbia River Highway transferred to and vested in the said County as Unit B in Abandonment and Retention Resolution Number 256.

the intersection of north line of said Section 31 and the southerly right of way line of the Columbia River Highway; thence south 8° 40' east 212.6 feet to point of curve on northwesterly right of way line of the Columbia River Highway; thence north 39° 14' east 386 feet along the northwest right of way line of the Columbia River Highway to point of curve; thence northerly on a 72.3 foot radius curve to the left 238.2 feet to point of tangency on said right of way line; thence south 25° 44' west 57.0 feet to a point of curve on said right of way line; thence southerly on a 234.6 foot radius curve to the right 177 feet to point of beginning; containing 1.00 acres, more or less, Hood River County, Oregon.

Said parcels are shown in red on the map attached hereto, marked Exhibit A and by this reference made a part hereof.

2. That this resolution shall be entered in the minutes and records of the Commission on this 12th day of July, 1956, as Abandonment & Retention Resolution Number 256a, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Hood River County.

Salem, Oregon
July 26, 1956

At the call of the Chairman, a special meeting of the State Highway Commission was held in the office of the State Highway Engineer, Room 137, State Highway Building, at 10:45 a. m., this date, to consider the resignation of Mr. R. H. Baldock as State Highway Engineer, and other matters. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
H. B. Glaisyer, Secretary

The meeting was called to order by the Chairman who explained that Mr. Baldock has submitted his resignation, effective August 16, 1956, to permit him to accept an appointment as head of a special mission to the country of Iraq to assist the government of that country in the establishment of a modern highway system. He expressed regrets that Mr. Baldock considers it necessary to terminate his connections with the Oregon State Highway Department after having served that department for 41 years, of which 24 were as State Highway Engineer, but he complimented Mr. Baldock on his new appointment and extended to him every good wish for success in his new endeavors. Commissioners Reynolds and McIver expressed themselves similarly. The following resolution wherein the Commission expresses its regard for Mr. Baldock was thereupon adopted by the Commission by unanimous vote upon motion offered by Commissioner Reynolds which was duly seconded by Commissioner McIver, and a signed copy thereof was delivered to Mr. Baldock:

RESOLUTION

WHEREAS, R. H. Baldock has tendered his resignation as Highway Engineer of the State of Oregon after having faithfully served the State Highway Department since 1915, during which time he rose to the office of State Highway Engineer through merit; and

WHEREAS, R. H. Baldock, during his employment by the State Highway Commission, has continually exhibited outstanding leadership, integrity, and engineering competence; and

WHEREAS, R. H. Baldock has lead the Highway Department in the adoption of new and superior methods, practices, and ideas in the field of highway engineering and finance, thereby earning the title "pioneer for highways in the State of Oregon"; and

26851

WHEREAS, R. H. Baldock, in addition to crusading for superior highways in the State of Oregon and thereby establishing Oregon's national highway leadership, has been recognized for his many activities in promoting high standards for highways throughout the nation, and for his many bold innovations, methods, theories, and ideas which have been adopted and used by sister states and the Federal Bureau of Public Roads; and

WHEREAS, the highway leadership of R. H. Baldock has been nationally recognized, and he has received national honors as President of the Western Association of State Highway Officials, President of the American Association of State Highway Officials, Chairman of the Highway Research Board of the National Academy of Sciences, and recipient of the George S. Bartlett Award in 1950, all of which brought great credit to himself and the State of Oregon; and

WHEREAS, R. H. Baldock's career in the Oregon State Highway Department has been characterized by his intense fidelity to truth, based upon the accurate and fair evaluation of assembled facts, and to the building of highways to standards not limited by present accepted practices and requirements, but governed by requirements of traffic in future years which are not perceptible to persons of less vision and imagination, and to the defending of his ideas and theories in the face of opposition, such fidelity being easy to describe but difficult to execute.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That in behalf of the State Highway Department and the people of the State of Oregon, sincere regret is hereby expressed for the loss of the services of R. H. Baldock, which regret is nevertheless tempered by the realization that the high standards established and the valuable contributions made by him during his years with the Highway Department will have lasting effect and have charted the course for even greater advancements.

2. That the Oregon State Highway Commission hereby officially expresses its appreciation for the years of effective leadership of and service to the State, the Nation and the citizens thereof.

3. That a signed copy of this resolution be delievered to R. H. Baldock.

4. That this resolution be entered in the minutes and records of this Commission this 26th day of July, 1956.

July 26, 1956

STATE OF OREGON, by and through its State Highway Commission

/s/ Ben R. Chandler
Chairman

/s/ Chas. H. Reynolds
Commissioner

/s/ M. K. McIver
Commissioner

The next order of business was the selection of a State Highway Engineer to fill the vacancy caused by Mr. Baldock's resignation. Commissioner Reynolds nominated Mr. W. C. "Dutch" Williams, present Deputy State Highway Engineer, for a four year term, commencing August 16, 1956, at an annual salary of $15,000. The motion was seconded by Commissioner McIver and was declared by Chairman Chandler to have received the unanimous vote of the Commission. The following resolution in regard thereto was thereupon adopted by the Commission by unanimous vote:

RESOLUTION

WHEREAS, under the provisions of ORS 366.145 the State Highway Commission is required to appoint a State Highway Engineer who shall, after appointment, hold office during the pleasure of the Commission; and

WHEREAS, said law further provides that said State Highway Engineer shall receive an annual salary to be fixed by the Commission; and

WHEREAS, the Commission has considered and examined the experience, training and qualifications of W. C. Williams;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission as follows:

1. That it is the judgment and finding of this Commission that W. C. Williams is a competent Civil Engineer and is well qualified by technical training as well as practical experience in highway engineering, and by reason of said experience and qualifications is a competent person to serve as State Highway Engineer.

2. That W. C. Williams be and he hereby is appointed, effective August 16, 1956, to the office of State Highway Engineer, to hold office during the pleasure of the Commission, but for a period not in excess of four years without reappointment.

July 26, 1956

3. That from the effective date of his appointment as State Highway Engineer, W. C. Williams shall receive an annual salary of $15,000.00, payable in monthly installments of $1,250.00, and shall be entitled to receive reimbursement for such actual traveling and other necessary expenses as may be incurred in the performance of his official duties.

4. That W. C. Williams shall furnish a fidelity bond as required by ORS 366.150, and prior to entering into the discharge of his respective duties, shall take and subscribe the usual official oath.

5. That a copy of this resolution be certified by the Secretary of this Commission and by him filed with the Secretary of State, together with a sample of the signature of W. C. Williams as State Highway Engineer.

6. That this resolution be entered in the minutes and records of this Commission as of the 26th day of July, 1956.

The following letter, directed to the Hon. Earl T. Newbry, Secretary of State, notifying him of Mr. Williams' appointment as State Highway Engineer, was approved and signed by the Commission:

July 26, 1956

Honorable Earl Newbry
Secretary of State
Capitol Building
Salem, Oregon

Dear Sir:

The State Highway Commission, due to the resignation of R. H. Baldock as State Highway Engineer, has on this date appointed W. C. Williams to that position, effective August 16, 1956. A certified copy of the resolution adopted by the State Highway Commission for that purpose is enclosed herewith for your information.

Under the provisions of ORS 366.145, the State Highway Commission is authorized to fix the salary to be paid the State Highway Engineer. You will note that in the enclosed resolution the annual salary of W. C. Williams has been fixed at $15,000.00, payable in monthly installments of $1,250.00. The salary fixed by the Highway Commission is greater than the minimum salary provided for the State Highway Engineer under ORS 292.317, and because of that fact this notification

is filed in your office as required by ORS 292.318.

Yours very truly,

APPROVED:

OREGON STATE HIGHWAY COMM.

/s/ Elmo Smith
Governor

/s/ Ben R. Chandler
Chairman

/s/ Chas. H. Reynolds
Commissioner

/s/ M. K. McIver
Commissioner

The Secretary was instructed to deliver the letter to Mr. Newbry if approved and signed by Governor Elmo Smith. (The letter was approved by Governor Smith and was delivered to Mr. Newbry on the following day together with Mr. Williams' official "Oath of Office" and a sample of his signature. See fully executed copy of the letter attached to the resolution appointing Mr. Williams State Highway Engineer, being Miscellaneous Resolution No. 194.)

Next discussed was the appointment of an engineer to fill the position of Deputy State Highway Engineer caused by the promotion of Mr. Williams to State Highway Engineer. Mr. Williams stated that Mr. Forrest Cooper, who is presently serving the department as Construction Engineer, is well qualified to fill this position, and he recommended that Mr. Cooper be appointed first Assistant State Highway Engineer to serve as Deputy State Highway Engineer, effective August 16, 1956. The Commission approved the recommendation unanimously upon motion of Commissioner Reynolds which was duly seconded by Commissioner McIver, it being understood that Mr. Cooper's starting annual salary shall be $10,140 as approved by the Civil Service Commission and the Department of Finance and Administration. The following resolution relative to Mr. Cooper's appointment was thereupon adopted by the Commission by unanimous vote:

RESOLUTION

WHEREAS, under the provisions of ORS 366.145, the Highway Commission is authorized to appoint one or more Assistant State Highway Engineers who, after appointment, hold office during the pleasure of the Highway Commission; and

WHEREAS, said ORS 366.145 further provides that said Assistant State Highway Engineers shall receive annual salaries to be fixed by the

Commission, subject to any applicable provision of the State's Civil Service Law; and

WHEREAS, Forrest Cooper is a registered Civil Engineer and has had many years experience in Highway Engineering and Construction;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Highway Commission, as follows:

1. That it is the judgment and finding of this Commission, having duly considered and examined his qualifications, that Forrest Cooper is a competent Civil Engineer and is well qualified by technical training as well as practical experience in Highway Engineering and Construction, and by reason of said qualifications is a competent person to serve as Assistant State Highway Engineer.

2. That Forrest Cooper is hereby appointed, effective August 16, 1956, as an Assistant State Highway Engineer to serve with the working title of Deputy State Highway Engineer, and shall perform such duties as may be assigned to him by the State Highway Engineer or by this Commission and shall, under the direction of or in the absence of the State Highway Engineer, have full authority to perform any duty required or permitted by law to be performed by the State Highway Engineer.

3. That Forrest Cooper as Assistant Highway Engineer shall receive a starting annual salary of $10,140.00 payable in monthly installments of $845.00 per month, as approved by the Civil Service Commission and the Department of Finance and Administration for the classification of Deputy Highway Engineer (Civil Service Classification No. 3018) in step IV, providing, however, that he shall receive annual or other raises as provided by the Civil Service Commission for his Civil Service Classification, and shall be entitled to receive reimbursement for such actual traveling and other necessary expenses as may be incurred in the performance of his official duties.

4. That prior to entering into the discharge of his respective duties, the said Forrest Cooper shall take and subscribe the usual official oath.

5. That a copy of this resolution be certified by the Secretary of this Commission and by him filed with the Secretary of State, together with a sample of the signature of Forrest Cooper as Assistant State Highway Engineer.

6. That this resolution be entered in the minutes and records of this Commission as of the 26th day of July, 1956.

The Secretary was instructed to file a certified copy of this resolution, together with Mr. Cooper's official "Oath of Office" and a sample of his signature, with the Secretary of State. (A certified copy of the resolu-

tion, a copy of Mr. Cooper's "Oath of Office" and a sample of his signature were sent to the Secretary of State on August 30, 1956.)

At the request of the Commission Mr. Cooper was present throughout the remainder of the session.

The appointment of a Construction Engineer to fill the vacancy caused by the advancement of Mr. Forrest Cooper to the position of Deputy State Highway Engineer was next discussed. Mr. Williams stated that Mr. Tom Edwards, presently Division Engineer, Division III, Roseburg, is well qualified for this position, and he recommended approval of Mr. Edwards' appointment as Construction Engineer, effective August 16, 1956. The Commission adopted the recommendation by unanimous vote upon motion of Commissioner Reynolds which was duly seconded by Commissioner McIver.

There followed a general discussion of the new appointments and the effect they will have on the State Highway Department as a whole and on the State of Oregon. The Commission authorized public announcement of the appointments through the press at 12:00 noon this day.

The Engineer (Mr. Baldock) brought up for discussion the desirability to negotiate for advertising rights on the owners' remaining property within view of interstate highways at the time negotiations are being carried on to acquire rights of way for such highways. He recommended that such authority be granted as being in the best public interest. The Commission accepted the recommendation and thereupon unanimously adopted the following resolution with regard thereto upon motion offered by Commissioner Reynolds which was duly seconded by Commissioner McIver:

RESOLUTION

WHEREAS, it is the declared legislative policy of this State that in order to provide for the safe and efficient use, and the orderly appearance of the public highways in the State, it is necessary and is in the public interest to regulate the erection and maintenance of advertising structures and signs within view from public highways, and

WHEREAS, it is the desire and purpose of this Commission to conform to the fullest practical extent with the declared policy of the legislature.

NOW, THEREFORE, BE AND IT HEREBY IS RESOLVED BY THIS HIGHWAY COMMISSION,

1. That, in all negotiations for rights of way and for abutting lands acquired for other highway purposes on state highways or portions thereof which have been or may hereafter be designated as portions of the "Interstate System" under the Federal-Aid Highway Act of 1944, as amended and supplemented by the Federal-Aid Highway Act of 1956, there be a serious endeavor and attempt to agree with the owners of such lands that instru-

ments of conveyance contain a clause reading substantially as follows:

"The grantors herein hereby expressly convenant to and agree with the grantee that the remaining land of the grantors shall never be used for the placing, maintenance or display of any advertising sign, bill or poster, within view from the _____ Highway, except such thereof as may advertise the use to which the said remaining property is devoted, or for the sale or lease of said property or any portion thereof. In the event of violation of this convenant and agreement the grantee herein shall have the right through its authorized officers, agents or employees to enter upon the said remaining property and to remove, destroy or obliterate any offending sign, bill or poster, without liability for damage or injury thereto, and to recover the costs thereof from the owners of the property. The rights herein stated shall not be exclusive and shall not be in derogation of any other right or remedy which the grantee may have. The covenants, agreements, restrictions, rights and conditions herein contained, shall run with the land and shall forever bind the grantors, their heirs, successors and assigns".

2. That this Resolution be entered in the minutes and records of the Commission as of the 26th day of July, 1956, as Miscellaneous Resolution No. 190a.

Consideration was given by the Commission to the adoption of a memorial for the retiring State Highway Engineer, Mr. R. H. Baldock, in recognition of the exceptional and meritorious service that he has rendered to the State of Oregon and to the State Highway Department in the capacity of State Highway Engineer. Chairman Chandler expressed his feeling that a fitting and proper way to record the achievements of Mr. Baldock and to credit them permanently in the memories of the people of Oregon and more especially in the minds of the traveling public, would be to rename the Portland-Salem Expressway between Hayesville Interchange, north of Salem, and its connection with the Harbor Drive Section of the Pacific Highway West in Portland the "R. H. Baldock Freeway". Commissioners Reynolds and McIver expressed concurrence in the suggestion which was approved by the Commission by unanimous vote upon motion of Commissioner Reynolds, duly seconded by Commissioner McIver. The following resolution relative thereto was unanimously adopted by the Commission:

RESOLUTION

WHEREAS, R. H. Baldock has completed 41 years of exceptional and meritorious service to the State of Oregon and the Oregon State Highway Department, 24 of the years having been in the capacity of State Highway Engineer; and

WHEREAS, R. H. Baldock during his tenure of office was highly

instrumental in the development of modern high speed highways and specifically the Portland-Salem Expressway; and

WHEREAS, the Highway Commission deems it desirable to record the achievements of the said R. H. Baldock and to credit them permanently in the memories of the people of Oregon and more especially the traveling public;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. The section of the Portland-Salem Expressway which lies between the Hayesville Interchange, north of Salem, and the connection of the Portland-Salem Expressway with the Harbor Drive Section of the Pacific Highway West in Portland, is hereby designated and shall hereafter be known as the R. H. Baldock Freeway.

2. This Resolution be entered in the minutes and records of the Commission as of the 26th day of July, 1956, as Miscellaneous Resolution No. 195, and a true copy thereof filed with the Secretary of State.

The Commission ordered signs erected immediately along this freeway bearing the new name.

Commissioner Reynolds expressed a desire for a copy of the report that was rendered by Mr. Forrest Cooper upon his return from a meeting of the Administrative Heads of the members of AASHO which was held in Chicago, Illinois, during July 12 and 13, 1956 to consider adoption of standards for the geometric design of the national system of interstate and defense highways, which meeting Mr. Cooper attended as a representative of the State Highway Engineer, Mr. R. H. Baldock. The Deputy Highway Engineer, Mr. W. C. Williams, stated that he would furnish each member of the Commission a copy of the report which bears the date July 16, 1956. (A copy of the report was furnished each commissioner later in the session.)

A suggestion from Governor Elmo Smith that the people of the state be advised more fully through press releases, regarding the new federal funds that have been authorized by Congress for highway construction was called to the Commission's attention by the Deputy Engineer. It is the Governor's thought, he said, that such press releases will eliminate numerous requests that are being received concerning such funds. He stated his concurrence in the Governor's feeling in the matter and advised that he will prepare a press release for approval by the Commission at its meeting on August 16, 1956. The Commission approved the Governor's suggestion unanimously and instructed the Engineer to prepare the release in such a manner that it can be easily understood by everyone.

The State Highway Engineer read aloud and presented to the Commission a letter, dated July 26, 1956, with reference to the problem of the

trans-Columbia Bridge at Astoria. He advised that the Tudor Engineering Company, which has been retained by local authorities to investigate the feasibility of this bridge, estimated in 1955 that the bridge would cost about $25,430,000. He gave as his feeling that the eventual cost of the structure would be nearer $30,000,000 considering the increase in price of steel, and other factors. It is estimated, he said, that tolls will finance approximately 50% of this cost, so other sources must be found to take care of the balance. If the States of Oregon and Washington joined in the undertaking each would be called upon to contribute $6,357,500, and if the States guaranteed the interest on the bonds, it would require an additional contribution from each State that would average $400,000 annually for 22 years when it is believed that revenues will equal debt-service requirements. The Engineer pointed out that the ferry service that is now being rendered at this place is not able to take care of peak traffic volume during mid-day rush hours, on Sundays, and on several other days and that some cars even when all three ferries are operating have to wait at the dock approximately 30 minutes of time, except on Sundays when the waiting period is much longer. A careful review of the situation, he said, discloses that were another ferry provided equal in size to the "Chessman", delays to present day traffic volume when four ferries are being operated would be entirely eliminated. He gave as his opinion that four ferries will be able to handle the traffic satisfactorily for the next five years, and he expressed his feeling that the State of Washington is equally concerned with the facilities as is the State of Oregon. He recommended in view thereof that consideration be given to interesting that State in participating in the ferry operation and the placement of another ferry in service at the earliest possible time, also, in the replacement of the small ferry with a larger one. The matter of constructing the proposed bridge, he added, could be deferred for another ten years and then be given further study. There followed a general discussion of the matter, during which the feeling was expressed that the State of Washington should pay its proportionate share of the cost to provide suitable ferry service at this place. The suggestion was offered that the Commission go to Astoria for a discussion of the matter with local authorities with the view to getting them to initiate the matter with the authorities of the State of Washington. As a result of the discussion, the Commission decided to ask the Astoria group to be present on the first day of the Commission's next regular meeting, scheduled for August 16 and 17, 1956. The Secretary was instructed to invite the group to be present at such meeting.

The adoption of a definite two-year construction program and a tentative five-year construction program for the new federal funds that have been made available by the Congress was brought up for discussion by the Engineer who urged early action in order to get the new program underway. Consideration of this matter was deferred by the Commission until the afternoon session.

The meeting recessed for luncheon at 12:00 noon and reconvened at 1:30 p.m. with the same persons present and participating.

Consideration was given by the Commission to the award of the contract for paving the Dolph Corner-Rickreall Section of the Willamina-Salem

Highway, Polk County, bids for which were received by the Commission at its meeting on July 12, 1956, the award having been postponed at that time awaiting the decision of the Oregon Supreme Court on the injunction proceedings brought by Mr. Joseph Harland. The Engineer advised that the Supreme Court has decided the case in favor of the State. He recommended in view thereof immediate award of the contract to the Central Paving Company, Independence, which submitted the low bid for the project at $307,503. Motion was made by Commissioner Reynolds that this contract be awarded to the Central Paving Company at its bid price. The motion was seconded by Commissioner McIver and was declared by Chairman Chandler to have received the unanimous vote of the Commission.

The Commission resumed discussion of its two-year program and five-year construction program for the new federal funds as recommended by the Engineer during the morning session. The Engineer presented two lists of projects for consideration, one being for the proposed two-year program and the other for the proposed five year program. He recommended definite approval of the projects listed for the two-year program and tentative approval of those proposed for the following three years. Both programs were carefully considered by the Commission, and as a result thereof, the Commission unanimously approved the projects listed for the first two years subject to confirmation at its next regular meeting on August 16, 1956. Action on the program for the next following three-year period was deferred for future consideration. The Commission decided not to release the two-year program to the press until after it has been confirmed by the Commission at the August meeting. (The two-year program as adopted was confirmed by the Commission at its meeting on August 16, 1956 and the list of projects contained therein are recorded in the minutes of that meeting.)

The Secretary presented, in behalf of the Chief Counsel, Mr. C. W. Enfield, a request for authority to condemn property needed from Hazel Bodding, et al., as right of way for the Neskowin-Salmon River Section of the Oregon Coast Highway, Tillamook County, File No. R-24129. He explained that the Commission on June 4, 1956, by resolution, authorized the condemnation of this property and at that time there was reserved for the service of the remaining land of Hazel Bodding, et al., two rights of access to the highway, said rights of access being subject to termination upon the future construction of a frontage road within the boundaries of the highway. Since that time it has been considered in the best interest of the State and the public that these rights of access should not be subject to termination upon construction of the frontage road, and it has been deemed advisable by the Chief Counsel to amend the original resolution in that respect. The following resolution covering the matter was presented and adopted by the Commission by unanimous vote:

RESOLUTION

WHEREAS, the State Highway Commission on the 4th day of June, 1956, by resolution declared the necessity for the acquisition of certain real property owned by Hazel Bodding, et al., File No. R-24129, situated in Tillamook County, Oregon, for right of way purposes, for the reloca-

tion, construction, improvement and maintenance of the Neskowin-Salmon River Section of the Oregon Coast Highway; and

WHEREAS, the said State Highway Commission deemed it necessary that there be no rights of access between said highway and all of the contiguous real property of Hazel Bodding, et al., reserving, however, two rights of access to said highway for the service of the remaining land of Hazel Bodding, et al.; and

WHEREAS, said rights of access were made subject to termination upon the future construction of a frontage road, or roads, within the boundaries of said highway; and

WHEREAS, the said Commission has determined after further investigation and consideration that it is in the best interests of the State and the public that the above-mentioned rights of access should not be subject to termination upon the construction of said frontage road, or roads;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that certain resolution duly made and entered in full in the minutes and records of the Commission on the 4th day of June, 1956, pertaining to the property owned by Hazel Bodding, et al., File No. R-24129, is hereby amended by deleting from page 3 of Exhibit "A" of said resolution the following language.

> The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road, or roads, within the boundaries of any present or hereafter acquired right of way; thereupon the rights of access herein granted to and from the aforesaid highway which are on or adjacent to any such frontage road, or roads, shall cease, but the owners, their heirs and assigns, shall have access to the said frontage road, or roads. Said frontage road, or roads, shall be connected to the said relocated Oregon Coast Highway at a point not a greater distance to the North of the owners' remaining land than a point approximately opposite Highway Engineer's centerline Station 251+00, and at a point not a greater distance to the South of the owners' remaining land than a point approximately opposite Highway Engineer's centerline Station 300+00.

2. That this resolution be entered in full in the minutes and records of the Commission this 26th day of July, 1956, as Condemnation Resolution No. 626a.

There being no further business to come before the Commission at this time, the meeting adjourned at 3:30 p. m.

Deputy State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

July 26, 1956

Portland, Oregon
August 16, 1956

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

(C. W. Enfield, Chief Counsel, was excused because of military duty.)

Chairman Chandler announced to those assembled for the opening of bids that today is the effective date of Mr. R. H. Baldock's resignation as State Highway Engineer, and that he is now on his way to Iraq. Today, he continued, marks completion of the five-year program inaugurated in 1951 and the launching of a new thirteen-year highway construction program under the new Federal Act. This new program, he stated, will be a great challenge to contractors, to the Highway Department, and to the Commission. It was his thought that the Highway Commission will at this meeting adopt a program for the first two years of that period, and that some of the projects under the new program will be offered for bids at the September meeting. He introduced Mr. W. C. Williams as State Highway Engineer, replacing Mr. R. H. Baldock. The Commission, he concluded, is confident that Mr. Williams and members of his staff will meet the challenge of the new program. He called on Mr. Williams, who stated that he was elated and awed at the work which lies ahead. During the next thirteen years, he said, it is expected that Oregon will spend approximately $640,000,000 for highway construction and rights of way, or approximately $50,000,000 annually. He expressed appreciation for the confidence exhibited by the Commission in appointing him as Chief Highway Engineer and commented that this confidence had been enhanced by the cooperation given by the highway contractors. He expressed the hope that the pleasant relations between contractors and the State Highway Department will continue on the same high plane as in the past.

Bids as follows were then opened and read aloud by the Secretary, who announced that the Commission would award contracts at 3:00 p.m. in the same room.

Commissioner Reynolds reported receipt of a telephone call from Mr. Tom Roach, of the Idaho Power Company, concerning an agreement with the Company pertaining to the rebuilding of a section of the Baker-Homestead Highway, which will be flooded when the dams on the Snake River near Brownlee and Oxbow are completed. Mr. Roach, he stated, advised that the Company is not satisfied with the proposed agreement in its present form, claiming that the specifications are too rigid, and requested revisions. The Engineer commented that the agreement as prepared contains no unusual requirements. He pointed out that it allows 12-degree curves, requires the installation of guardrail at dangerous locations, and that the roadbed width has been reduced from 33 feet in width to 32 feet. Commissioner Reynolds continued that Mr. Roach also complains about the application of crushed rock to the road after it is built, and concerning the width of right of way.

The Assistant Counsel pointed out that the contractor for the dams will haul much heavy equipment over the road for construction of the dams and should be required to maintain the roadway during such hauling. In connection with right of way width he stated that 100-foot width had been required on private land, 200-foot width on government-owned property, with the exception that all of the land is to be acquired between the highway and the edge of the pool. The Engineer stated that in his opinion the Company should not be permitted to start work on construction of the highway until the agreement is approved by all concerned. The Assistant Counsel called attention to the fact that legislative action will be required before the old route of the Baker-Homestead Highway can be abandoned and a new route approved. It was pointed out by the Engineer that there is not much that can be told the Power Company until the Legislature takes action, unless the Power Company wishes to replace the highway along the canyon wall, which would be very expensive. Replacement of the highway on an entirely new line would, of course, require legislative action. Chairman Chandler stated that in his opinion the Power Company must agree in writing to replace the highway, although at this time the Commission cannot tell them where, and that the Commission does not intend to change its previous action on the matter.

(On the following day the matter was again brought up by Commissioner Reynolds. He stated his feeling at that time that the Commission

is obligated to the Power Company to the extent that the Power Company should be directed as to what highway work they can perform, when and where. He mentioned a meeting with the Company officials, who, he said, will meet with the Commission any time at any place that may be designated. The Engineer stated his willingness to meet with the Power Company officials to discuss the matter, but he cautioned against any formal action until the Legislature acts and the Power Company agrees to rebuild the highway along the Pine Creek or some other alternate route that is approved by the Commission. The Commission left it with Commissioner Reynolds to inform the Company of the action taken.)

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Appointment of George H. Weyerhaeuser as a member of the Travel Advisory Committee: Mr. Carl Jordan, Director of Travel and Information Department, reported that Mr. Weyerhaeuser accepted the appointment with pleasure and had so informed the Secretary by letter.

2. Request of Bonneville Power Administration to install a power transmission line along the east side of Cove Palisades State Park: The Parks Superintendent explained that part of the land over which they desire to build is government-owned land, leased to the State for park purposes, and part is owned by the State. The transmission line, he stated, will not interfere with the operations of the park, and he recommended that the Commission approve a permit to the Federal Government on the State-owned land, and that a letter be sent to the Department of Agriculture advising that the State has no objection to construction of the power line on the land leased from the government. The Commission approved his recommendation.

3. Purchase of Indian-owned land adjoining Shore Acres State Park, Coos County: The Parks Superintendent requested confirmation of the telephonic authority granted him by the Commission to negotiate acquisition of this tract, which consists of 46 acres of land situate in Government Lot 3, S. 8, T. 26 S., R. 14 W., W.M. He said that 72/105 shares of this land are Indian-owned and that the remaining 33/105 shares are owned by two other people who are not Indians, one of whom passed away in 1946, and the whereabouts of the other is unknown, but neither have any heirs. He further stated that the 46 acres were appraised by a Highway Department appraiser at $18,889.00 and by a representative of the Bureau of Indian Affairs at $14,643.00. The land was offered for sale by the Bureau of Indian Affairs in June, but no bids were received. Since then the Bureau of Indian Affairs has stated a willingness to accept $10,041.00 for the 72/105 portion, plus $2.50 filing fee, a total of $10,043.50. In order to acquire the remaining 33/105 portion, he said, it will be necessary to resort to condemnation. He asked the Commission to approve payment of $10,043.50 for the 72/105 share and to authorize the Chief Counsel to condemn the remainder. He also requested authority to negotiate acquisition of an additional two or three acres of land owned by John B. and Julia Keizer, which lies west of the other tract. He explained that he did not know about this small area when negotiations were being conducted for the

46-acre tract, but it is needed in order to fill out the park. The Commission confirmed purchase of the 72/105 portion of the 46 acres for the sum of $10,043.50 and also authorized the Chief Counsel to condemn the remaining 33/105 portion. The Commission also authorized the Parks Superintendent to negotiate purchase of the additional two or three acres from Mr. and Mrs. Keizer.

4. Agreement with the Central Lincoln People's Utility District to furnish electric power at Fogarty Creek State Park in Lincoln County: An area is being developed at Fogarty Creek for public use, the Parks Superintendent stated, and in order to furnish the necessary electric power the Utility District has requested an agreement guaranteeing a minimum annual payment of $48.00. It was his thought that the annual charge for the current would considerably exceed this figure and he recommended that the agreement be approved. The Commission approved the agreement.

5. Request of the Bureau of Land Management to issue an oil lease on a portion of the land in Cove Palisades State Park: These lands, the Parks Superintendent stated, are leased from the U. S. Department of Agriculture for state park purposes, and the lease agreement reserves to the Federal Government all rights to minerals, gas and oil. The Bureau of Land Management, he said, wishes to issue oil and gas leases on twenty-seven 40-acre tracts west of the Deschutes River, and on seven 40-acre tracts east of the Deschutes River. The tracts are so located that the oil operations will not interfere with the operation of the park. He recommended that permission be given to the Federal Government to issue the leases. The Commission accepted his recommendation.

6. Requests of "The Oregon Journal" and "The Oregonian" newspapers to sell newspapers from vending machines within overnight camping areas: Overnight campers, the Parks Superintendent stated, are much in favor of having the newspapers, and he recommended that this accommodation be extended to them on a trial basis at convenient spots in Wallowa Lake and Honeyman State Parks. The Commission adopted the recommendation.

7. Request of W. B. Tucker, Jackson County Extension agent, and State Representative E. A. Littrell, Medford, for development as state parks reservoir sites located at Emigrant Springs near Ashland, at Howard Prairie, about 20 miles east of Ashland, and at Hyatt Prairie, all in Jackson County: The Parks Superintendent reported that he does not have enough information on these locations as to their value from a park standpoint to make a recommendation. He requested that he be given authority to study the areas. The Commission granted the request.

8. Report on results of competitive bidding for Indian land on the Oregon Coast Highway near the north limits of Oceanlake: The Parks Superintendent recalled that at the July meeting the Commission authorized him to submit a bid of $18,000 for this property. The bid was submitted but along with others was not accepted, because the amounts offered were considered by the Bureau of Indian Affairs too low. The Commission accepted his report.

9. Transfer to Grant County of a portion of the entrance road to Mascall Overlook on US 26, a short distance west of Dayville: In 1935 an overlook was purchased from Mr. Mascall, the Parks Superintendent reported, together with a roadway 4100' long leading to it. Mr. Mascall now requests that a cattle guard be placed along the highway entrance or that the right of way be fenced to control his stock. An investigation of the matter disclosed that little use is being made of the overlook and the road; accordingly, the matter was discussed with the Grant County Court, which agreed to take over and maintain approximately one half of the road as a county road. Upon his favorable recommendation, the Commission approved conveyance to the County by deed that portion of the road which is being used by the County as a county road.

The Parks Superintendent reported that so far this year overnight camping facilities that have been provided in state parks have not been sufficient to accommodate the large number of people who want to use them, especially in the coast area. He pointed out that 200 additional overnight camping spaces have been made available but there still are not enough of them. Commissioner Reynolds in this regard commented that the development at Fort Stevens State Park is excellent. The Parks Superintendent stated that use of the park had far exceeded expectations and that it has been very crowded this summer; also, that plans call for oiling the park roadway.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed as state highway right of way or for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Authority was requested by the Right of Way Engineer to acquire three parcels of property in Clackamas County and one parcel in Hood River County, for which no authority previously has been granted. These parcels, he stated, are needed in connection with highway improvements to be undertaken in the near future. The Commission authorized negotiations as requested for the following parcels of property:

COUNTY and SECTION	FILE NO. and NAME	PURPOSE	AREA	HWY.
Clackamas				
Portland-Milwaukie	25036-Charles H. Counsell	Right of Way	163 sq. ft.	Pacific East
	25035-General Petroleum Corp.	"	96 sq. ft.	"
	25037-Pioneer Bank	"	2440 sq. ft.	"

COUNTY and SECTION	FILE NO. and NAME	PURPOSE	AREA	HWY.
Hood River Cascade Locks-Herman Road	19973-Walter and Elnora Kendrick	Slide removal-Right of Way	14.1 ac.	Columbia River

A report on sales of miscellaneous properties made since the last Commission meeting was presented by the Right of Way Engineer and accepted by the Commission.

(For details, see Miscellaneous Sales Report, dated August 16 and 17, 1956, in the General Files).

Also presented was a Supplemental Rental Report prepared by the Property Manager showing properties newly rented and properties sold between July 1, 1956 and August 10, 1956. The report was accepted by the Commission.

(For details, see Supplemental Rental Report for July 1, 1956 to August 10, 1956, in the General Files.)

In connection with the sales of miscellaneous properties, the Right of Way Engineer reported that approximately $21,000 has been received from sale of machinery and tools from the Superbilt factory in Portland. Receipts of about $25,000 had been expected.

A number of changes in points of access for property owners was presented by the Right of Way Engineer. He explained that in no instance is additional access being granted, merely changes in existing points of access for a greater degree of safety and convenience to the traveling public and the property owners. Following his favorable recommendation, the Commission approved indentures of access as follows:

1. Engle property, File 21583, on the Clackamas Overcrossing Section of the Clackamas Highway in Clackamas County.

2. Maiken property, File 5228A, on the Manning-Sunset Camp Section of the Sunset Highway in Washington County.

3. Jacobsen property, File 24067, on the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway in Coos County.

4. McKean property, File 23871, on the Moro-Grass Valley Section of the Sherman Highway in Sherman County.

5. Haslebacher property, File 18162, on the Dolph Corner-Rickreall Section of the Willamina-Salem Highway in Polk County.

6. Bogert property, File 24064, on the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway in Coos County.

7. Moore property, File 23874, on the Moro-Grass Valley Section of the Sherman Highway in Sherman County.

A grant of access form was presented by the Right of Way Engineer allowing access from the Robert E. and Mary Morris property to the Noble Slough-Foster Section of the Santiam Highway in Linn County. He explained that no access had originally been given to this property, as the property owners could use a roadway easement across property abutting on the south of the owners' remaining property. However, the roadway easement has been terminated and the owners are now without access to any public road. He recommended that access be allowed in the same manner as was granted to other property owners in the vicinity. The Commission approved the access as recommended.

Upon the favorable recommendation of the Right of Way Engineer the Commission approved the payment of $2,433.00 as final settlement for use of a gravel pit optioned from Harry Fukiage for the same amount. He explained that the gravel supply has been exhausted and the property is of no further value to the State. Although it was originally intended under the option to take title to the property, difficulties were encountered due to the objections of a mortgage holder, and it now appears that the best thing to do is to pay for the gravel taken and not take title to the property.

An exchange of properties with the Union Pacific Railway Company on the Cascade Locks-Viento Section of the Columbia River Highway in Hood River County was considered. The Right of Way Engineer explained that agreement has been reached with the U.S. Forest Service whereby a portion of Lot 5, S. 6, T. 2 N., R. 9 E. can be exchanged for a portion of Lot 2, S. 5, T. 2 N., R. 9 E. The properties are of comparable value and will provide land which the State is obligated to deed to the Union Pacific Railway Company. The Commission approved the exchange of properties.

Compensation to Douglas Electric Cooperative for the actual cost of moving a power line situated on its land along the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County was discussed. The Right of Way Engineer explained that it was necessary to move the power line to accommodate construction of this section of highway. He recommended that the Company be paid the sum of $413.95, which is the actual cost of moving the line. The Commission approved the payment.

The Right of Way Engineer requested authority to offer at public sale 9.3 acres of excess property, acquired under File No. 19105, on the Divide-Rice Hill Section of the Pacific Highway in Douglas County at a minimum price of $2,325.00 and with the usual restriction of access and limitations on advertising. The Commission granted the authority by adopting the attached resolution relative thereto, marked EXHIBIT " B", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Right of Way Engineer also requested and the Commission granted authority to offer at public sale timber located on the Reckon

Quarry Site on the Alsea-Deadwood Secondary Highway in Benton County for a minimum price of $900.00, which is the appraised value of the timber.

The Right of Way Engineer reported the results of negotiations with the U.S. Public Housing Administration with reference to acquisition of land to enlarge the East Portland Division Headquarters on US 99E between Portland and Milwaukie. As a result of these negotiations, he said, it is now possible for the State to purchase 4.0815 acres lying east of the present site and extending to the Southern Pacific Company's right of way. This tract, he said, is badly needed for the proper functioning of the State Highway Department's activities at this location and can be purchased from the Public Housing Administration for the sum of $37,788.88, which is considerably less than the State would have to pay for it later on. He mentioned that the expansion of the present headquarters is an immediate necessity, and in view thereof he recommended purchase of the area now at the price quoted. As a result of the discussion the Commission unanimously authorized purchase of the property for $37,788.88 as recommended. The Right of Way Engineer was authorized to complete the transaction on such basis and to assure the Public Housing Administration that the property is to be utilized exclusively for purposes for which the State Highway Department was organized. The attached resolution relative to the foregoing transaction, marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was adopted by the Commission unanimously.

The Commission considered the matter of compensating the Pacific Power and Light Company for rearranging its transmission lines on the South Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County. These power lines, the Right of Way Engineer stated, are on the Company's own right of way and must be re-established to make way for highway construction. The estimated cost to move the lines, he said, is $1,506.66, and he recommended that the Company be reimbursed for the actual cost of the work. The Commission approved his recommendation.

Sale of 0.15 acre of property situate on the Kilchis River-Bay City Section of the Oregon Coast Highway in Tillamook County to a Mr. Robert Illingsworth was discussed. This property, the Right of Way Engineer stated, is excess property no longer needed for highway purposes, and Mr. Illingsworth has offered to pay $75.00 for the land, which in his estimation is a reasonable price. He recommended that it be sold to Mr. Illingsworth with complete restriction of access to the Oregon Coast Highway and with the usual restriction on display advertising. The Commission approved the sale on such basis.

Consideration was given to a request from the Bonneville Power Administration for a power line easement across excess state highway property acquired in connection with the R.H. Baldock Freeway in Marion County. The Right of Way Engineer explained that the easement is adjacent to but outside of the normal westerly right of way line and that the Power Administration is willing to pay for it the sum of $9,486.50, which is more than one half of what was originally paid for the property. He recommended that the easement be granted. The Commission accepted his recommendation

The Right of Way Engineer asked the Commission to approve release of a haul road that was acquired to serve a gravel pit on the Klamath Indian Reservation which was used in construction of the Mazama Junction-Lobert Section of The Dalles-California Highway in Klamath County. He pointed out that in order to secure gravel from the pit permission was received from the Commissioner of Indian Affairs to use this haul road. The gravel pit has been exhausted and a request has been received for the cancellation of the haul road easement. He recommended that the haul road be returned to the Agency and he presented a form of agreement to accomplish this purpose, which the Commission approved.

Consideration was given to the matter of compensating the West Coast Telephone Company for its cost to adjust and re-establish its telephone line on the Catching Slough-Chandler Bridge Section of the Coos River Secondary Highway. The Right of Way Engineer explained that it is necessary to reimburse the Company for this expense because the telephone line is situated on company property which is needed for construction of the highway. The estimated cost of the work, he said, is $2,110, and he recommended that the Telephone Company be paid the actual cost of moving on a time and material basis. The Commission approved payment as recommended.

Upon the favorable recommendation of the Right of Way Engineer the Commission signed a Bargain and Sale Deed conveying to Frank H. Lux and Donna Lux a parcel of excess property containing 9.86 acres on the Valley Junction-Sheridan Section of the Salmon River Highway, the sale of which at a minimum price of $4,000 was authorized by the Commission at the July 12 and 13, 1956 meeting.

The Right of Way Engineer presented a form of "Application for Public Highway", requesting the U.S. Department of Interior to grant a right of way 250 feet wide across Indian lands to facilitate widening to four lanes the Emigrant Hill-Deadman's Pass Section of the Old Oregon Trail. The Commission approved the application upon favorable recommendation of the Engineer.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission's resolution dated December 20, 1951:

Canyonville Section of the Pacific Highway

R-23774- Darrell E. Brown and Lillian Brown
Right of Way (Douglas County)
0.32 acre

R-23783- Bernard O. Bordeaux and Virginia Bordeaux
Right of Way (Douglas County)
0.09 acre

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway

R-23614- Harold E. Brunner and Gladys E. Brunner
Right of Way (Josephine County)
9.02 acres

Myrtle Creek-Canyonville Section of the Pacific Highway

R-25140- Lois M. Clough
Right of Way (Douglas County)
1.28 acres

Walton-Noti Section of the Richardson-Eugene Secondary Highway

R-25164- H. R. Swanson and Nettie Swanson, W. H. Swanson and Ethel Swanson
Right of Way (Lane County)
1.25 acres

R-25331- The Long-Bell Lumber Company
Right of Way (Lane County)
4.70 acres

R-25330- Otto W. Heider and Callie B. Heider
Right of Way (Lane County)
0.16 acre

R-25335- Clarence C. Woodbury and Hazel L. Woodbury
Right of Way (Lane County)
0.01 acre

River Bank Section of the Rogue River Loop Highway

R-25168- John C. Rawls and Elva T. Rawls
Right of Way (Josephine County)
0.67 acre

R-25169- William W. Woodward and Hallie T. Woodward
Right of Way (Josephine County)
2.62 acres

R-25165- Harvey Warner Mead, Sr., and Opal Phillips Mead
Right of Way (Josephine County)
0.18 acre

R-25172- Stanley M. Adcock and Henrietta H. Adcock
Right of Way (Josephine County)
Parcel No. 1: 0.92 acre
Parcel No. 2: 2.22 acres

August 16, 1956

Pendleton-Pilot Rock Section of the Pendleton-John Day Highway

R-24870- Joseph W. Miller and Belle Miller
New resolution to reduce right of way

R-24231- Wayne E. Chapman and Eathel Chapman
New resolution to condemn a right of entry to go upon owners' remaining real property to remove and destroy a house which is located partially upon the right of way and partially upon the owners' remaining real property

R-13014- George R. Runyan and Grace Runyan
Right of Way (Umatilla County)
0.076 acre

Tillamook-Donaldson Creek Section of the Wilson River Highway

L-2535- John Kunzi, et ux.
New resolution to change the location of the underpass

L-2558- Lester Donaldson, et al.
New resolution to change the location of the underpass

Horseshoe Bend-Peach Section of the Central Oregon Highway

R-25591- Union Pacific Railroad
Right of Way
0.70 acre

Salem By-Pass-Jefferson Junction Section of the Pacific Highway East

R-24316- Harvey Jacobsen and Cornelia Jacobsen
Right of Way (Marion County)
0.32 acre

R-24312- Roy V. Bell and Mary Jane Bell
Right of Way (Marion County)
0.09 acre

Wilderville-Grants Pass Section of the Redwood Highway

R-23985- Martin Kamzay
(Josephine County)
Parcel No. 1: 2.8 acres Right of Way
Parcel No. 2: 0.3 acre Excess Taking

R-22987- George L. Shoaf and Irene M. Shoaf, husband and wife
Right of Way (Josephine County)
0.83 acre

August 16, 1956

River Banks Farm Section of the Rogue River Loop Highway

R-25166- David E. Turnidge and Wilma B. Turnidge, husband and wife; J. Eldon Turnidge and Mary E. Turnidge, husband and wife
Right of Way (Josephine County)
20.04 acres

R-25171- Neal McCorkle and Marie A. McCorkle
Right of Way (Josephine County)
2.84 acres

Unit No. 2 of the T. H. Banfield Expressway

R-25117- M. C. Curtis
Temporary Easement for Detour (Multnomah County)
2205 square feet

Cascade Locks-Viento Section of the Columbia River Highway

R-24568- Frank L. Johnson, et al.
Right of Way (Hood River County)
0.65 acre

Johns-Glendale Junction Section of the Pacific Highway

R-12198- Robert Gordon Stumbo, Allan P. Stumbo, Harry W. Stumbo, Clair W. Stumbo
Right of Way (Douglas County)
0.08 acre

McMinnville Airport-Dayton Junction Section of Three Mile Lane Secondary Highway

R-25297- Frank Foster
Right of Way (Yamhill County)
0.5 acre

Horseshoe Bend-Peach Section of the Central Oregon Highway

R-25448- F. C. Vaughan and Floyd Vaughan
(Malheur County)
Parcel No. 1: 6.86 acres Right of Way
Parcel No. 2: 30.46 acres Right of Way
Parcel No. 3: 28.81 acres Material Source

McMinnville (Adams Street) Section of the Pacific Highway West

R-22193- Allie O. Middleton Steinbruck and Fred V. Steinbruck
Right of Way (Yamhill County)
13,300 square feet

R-22202- Cyril D. Henderson and Anabel D. Henderson
Right of Way (Yamhill County)
0.077 acre

August 16, 1956

Right of way maps, constructions plans and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBITS "C-1" through "C-16", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

With regard to the Stumbo property on the Johns-Glendale Section of the Pacific Highway in Douglas County, File R-12198, the Assistant Counsel explained that when adjoining property was acquired a few years ago for right of way purposes it was considered unnecessary to acquire this 16.5-foot lane because it was understood to be a public road. He referred briefly to the recent action taken by the Stumbos in erecting a blockade across the highway and their talk of collecting tolls for crossing over the 16.5-foot strip of road.

The Commission accepted a report submitted by the Chief Counsel enumerating details concerning cases tried before the courts since the Commission meeting held on July 12 and 13, 1956, as follows:

REPORT OF CONDEMNATION CASES TRIED JULY 12 TO JULY 25, 1956

Case	County	Highway	Section	State's Offer	Defendant's Demands	Verdict
Round Prairie Lumber Co. R-21567 R-21568	Douglas	Pacific	Shady Point-Booth Ranch	$4,150	$30,000	$22,500
Hoyt R-19776	Linn	Santiam	Noble Slough-Foster	168	1,500	2,280
Schwab R-23841	Washington	Tualatin Valley	Hillsboro-One-way Street	7,000	16,290	5,700

(For additional details see copy of the Chief Counsel's letter of August 9, 1956, in the General Files.)

The Commission also considered and accepted a report from the Chief Counsel concerning cases which have been settled out of court since the Commission meeting held on July 12 and 13, 1956, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Briggs R-23901	Clackamas	Mt. Hood	Laurel Hill-Still Creek	$4,860	$4,860
Wilkinson R-24628	Coos	Ore. Coast	Davis Creek-Bethel Creek	325	325
Garrett R-24930	Douglas	Pacific	Oakland-Deady	6,500	7,000
Dean R-23232	Jackson	Pacific	Ashland	17,500	20,000
Shaw R-23245	Jackson	Pacific	Ashland	7,500	8,750
Coulsey R-24788	Lane	Ore. Coast	Glenada Climbing Lane	100	150
Jones R-24420	Washington	Tualatin Valley	Forest Grove-Hillsboro	5,500	5,500
Moore R-19831	Washington	Wilson River	Washburn-North Plains	2,280	5,250
Towne R-24381	Washington	Tualatin Valley	Forest Grove-Hillsboro	360	360
Smith L-2344	Marion	Pacific East	Salem By-pass-Jefferson Jct.	1,500	1,500

(For additional details, see copy of the Chief Counsel's two letters of August 9, 1956, in the General Files.)

The Commission approved offers as follows, made by the Chief Counsel to owners for acquisition of real property, which offers were tendered prior to the institution of condemnation proceedings, in compliance with a resolution adopted by the Commission on December 20, 1951:

Neskowin-Salmon River Section of the Oregon Coast Highway:

R-24129 - Hazel Rogers, et al. 2.6 acres for right of way purposes. Offer of $2,825.00 approved by Mr. McIver July 18, 1956.

R-24652- E. G. Calkins, et al. 19.3 acres for right of way purposes. Offer of $5,710.00 approved by Mr. McIver July 18, 1956.

August 16, 1956

Neskowin-Salmon River Section of the Oregon Coast Highway - Cont.

R-24653 - Lawrence Gnos, et al. 18.69 acres for right of way purposes. Offer of $7,275.00 approved by Mr. McIver July 18, 1956.

R-24654 - Lynn Goyne, et al. 9.6 acres for right of way purposes and 0.79 acre for excess taking. Offer of $2,860.00 approved by Mr. McIver July 18, 1956.

R-24656 - Lloyd Wallace, et al. 3.48 acres for right of way purposes. Offer of $3,950.00 approved by Mr. McIver July 18, 1956.

R-24657 - Elmer Wallace, et ux. 0.13 acre for right of way purposes. Offer of $865.00 approved by Mr. McIver July 18, 1956.

R-24658 - Leola Church, et al. 6.40 acres for right of way purposes. Offer of $2,570.00 approved by Mr. McIver July 18, 1956.

R-24659 - Elden Church, et al. 2.18 acres for right of way purposes. Offer of $1,010.00 approved by Mr. McIver July 18, 1956.

Florence-Douglas County Line Section of the Oregon Coast Highway:

R-24791 - Albert O. Weekly Estate. 0.11 acre for right of way purposes. Offer of $345.00 approved by Mr. Chandler July 20, 1956.

Pendleton-Pilot Rock Section of the Pendleton-John Day Highway:

R-24231 - Wayne E. Chapman, et ux. 2.5 acres for right of way purposes. Offer of $9,000.00 approved by Mr. Chandler August 15, 1956.

R-24860 - Joseph C. Winslow, et ux. 0.16 acre for right of way purposes. Offer of $610.00 approved by Mr. Chandler August 15, 1956.

R-24867 - Mary Lyon. 2.84 acres for right of way purposes. Offer of $17,430.00 approved by Mr. Chandler August 15, 1956.

R-24870 - Joseph W. Miller, et ux. 3.0 acres for right of way purposes. Offer of $3,800.00 approved by Mr. Chandler August 15, 1956.

A report was presented by the Assistant Counsel and accepted by the Commission concerning matters before the Public Utilities Commissioner, summarized as follows:

PUX 157: Grade crossing signals near the north limits of Newberg at the relocated grade crossing of Southern Pacific Company tracks on the Hillsboro-Silverton Highway. Reconsideration of the original order had been requested so as to allocate 50 percent of the cost of the signals to Southern Pacific Company instead of 10 percent. On July 20, 1956, the

motion for reconsideration was denied.

PUX 170: Weaver County Road Overcrossing of the tracks and right of way of the Southern Pacific Company near Myrtle Creek in Douglas County. This involves relocation of the Weaver County Road and will include an overcrossing of Southern Pacific Company tracks and the revised location of the Pacific Highway. No part of the cost is to be borne by Southern Pacific Company.

PUX 173: Signals on South Sixth Street in Klamath Falls at the north end of the new South Sixth Street Overcrossing: By agreement the State is to reimburse Southern Pacific Company for 50 percent of the cost of acquisition and installation of the signals. Maintenance of the signals will be the responsibility of Southern Pacific Company.

PUX 175: Grade crossing of the tracks of Southern Pacific Company near Richardson in Lane County. This involves a grade crossing of Southern Pacific Company tracks. This is a county road and does not directly affect the State Highway Commission.

PUX 186: Grade crossing of Baker-Homestead Highway at Robinette in Baker County: If a plank crossing is installed, the Railroad Company is required to maintain the same between the rails and for two feet on each side thereof. If in the future the highway is paved, the Railroad Company is required to remove the planked crossing and to provide guardrails to retain the highway pavement, with maintenance of the street portion thereafter to be assumed by the Highway Commission, including the area between the rails. Cost of construction of the present crossing is to be borne by the Railroad Company, the Oregon-Washington Railroad and Navigation Company. The State is to install and maintain advance warning signs.

The Assistant Counsel presented for the Commission's consideration a number of proposed legislative bills pertaining to highway matters which, if approved by the Commission, will be presented to the Highway Interim Committee After some discussion, the Commission approved the bills and authorized their presentation to the Highway Interim Committee.

Chairman Chandler suggested some legislative action that would permit the Highway Commission to employ and retain its own legal counsel, rather than having to get the approval of the Attorney General, so as to avoid the drafting of attorneys for legal service not connected with Highway Department affairs, such as has been done recently. It was his considered opinion that all of the attorneys on the present staff are needed to take care of highway affairs and that the need will be even more urgent in the future when the expanded highway program gets under way. Commissioners Reynolds and McIver expressed themselves similarly, whereupon the Assistant Counsel was instructed to prepare a brief showing reasons why the State Highway Commission should have complete control over its own legal staff and report the same to the Commission at its next meeting, when the Commission will decide what future action to take.

The Assistant Counsel brought up the matter of salaries for State Highway attorneys. He recalled that at the meeting on July 12 and 13, 1956 the Commission approved certain increases, some of which were in excess of the salary of the Deputy Attorney General. The Attorney General, he stated, has taken the stand that he will not approve any attorney salary in excess of $750 per month. He called attention to the fact that in addition to their duties as attorneys the Chief Counsel and the Assistant Counsel are also charged with supervision of the Right of Way Department, which is responsible for purchasing all land and property that is needed for state highways. He recommended that the Commission authorize additional compensation for these additional duties by approving salary increases for the Chief Counsel in the sum of $107 per month, and for the Assistant Counsel in the sum of $81 per month. The Commission approved the recommendation. The Assistant Counsel presented a tabulation showing salaries now paid, proposed salaries, recommended new salaries, and the new salaries authorized by the Attorney General. He called attention to the salary of Mr. William H. Winslow, recommended at $575 and approved at $590 per month. Mr. Winslow's work, he stated, has been found to be of excellent quality and a salary of $600 per month was later recommended to the Attorney General, who approved a compromise figure of $590. He also requested Commission approval for the promotion of Mr. Frederick A. Morgan from Attorney IV to Attorney V, providing an increase from $570 to $610 per month. The Commission approved all salary increases authorized by the Attorney General. (For details see copy of Assistant Counsel's letter to the Commission, dated August 14, 1956, in the General Files.)

Consideration was given to a form of agreement with Crook County for joint use of a cinder pit and haul road west of Prineville on the Powell Butte-Prineville Section of the Ochoco Highway. The Assistant Counsel stated that in 1954 twenty acres of land were purchased from a Mr. Gilbert W. Harris for use as a cinder pit and haul road. At that time discussions with officials of Crook County indicated that the County would be permitted to use the State's haul road and the State would be permitted to take cinders and other minerals from the cinder pit, but through an oversight no written agreement was prepared. He presented a form of agreement bearing the signatures of the members of the Crook County Court and recommended that it be approved by the Commission. The Commission approved the agreement.

Attention was given to a request from Mr. Harry A. Slack, Attorney, Coquille, for vacation of Lumber Street in Coaledo in Coos County. The Assistant Counsel explained that Lumber Street abuts upon the right of way of the Oregon Coast Highway in Coaledo, and that vacation of the street will in no way affect the interests of the Highway Commission, as access is not controlled at that location and the street is at the top of a cutbank, some 20 feet above the pavement. He recommended that the Commission consent to the proposed vacation. The Commission adopted the recommendation

Attention was also given to the vacation of certain alleys in the O.V.L. Plat near Lakeview in Lake County. The Assistant Counsel recalled that the Commission at its meeting on July 12 and 13, 1956 executed a petition for vacation of these alleys for submission to the City of Lakeview. However, it has since been determined that the property lies outside the

city of Lakeview and is under the jurisdiction of Lake County. He recommended approval of a corrected petition, directed to the County Court. The Commission approved the recommendation.

Abandonment of four damage claims was recommended by the Assistant Counsel, as outlined in the following summarization:

CAO-56-258, Henry C. Landers: Damage in the amount of $105.87 was incurred on a State Highway truck because of a head-on collision on the Coos River Secondary Highway. The insurance carrier for Mr. Landers has rejected liability on the grounds that the accident was unavoidable, and it is believed that a jury would come to the same conclusion.

CAO-55-158, E. W. Dobbels: For damage to a State Highway Department vehicle on the Enterprise-Lewiston Highway, approximately 29 miles north of Enterprise, caused by a collision with a sedan owned by Mr. E. W. Dobbels. Mr. Dobbels' car was in the wrong lane of traffic, being towed by a tractor when the State vehicle ran into his car. A claim in the amount of $80.84 was presented for damages to the State vehicles but it was later revealed that the highway was completely ice covered and neither driver could control his vehicle.

CAO-55-168, Manley P. Nichols: A sedan owned by Mr. Nichols demolished a State Highway sign valued at $6.92. Mr. Nichols orally agreed to pay for the sign but has ignored subsequent letters.

CAO-56-174, Joseph Claude Edgar Morency: Mr. Morency, while traveling at an excessive rate of speed, collided with and damaged a State truck and a sander to the extent of $350.86. Mr. Morency, who it appears is a resident of Detroit, Michigan, abandoned his automobile following the accident. It has been impossible to locate Mr. Morency.

The Commission approved abandonment of the foregoing claims as recommended.

The Assistant Counsel's request for authority to institute legal proceedings for the collection of damages to State property, summarized as follows, was approved by the Commission:

CAO-53-90, Ed Biescke: For damages to a State truck, incurred July 4, 1953 on the Cape Arago Highway near Charleston, in the sum of $187.81.

CAO-54-80, Theodore L. Anderson: For damages to a State dump truck, incurred July 28, 1954, in the sum of $73.97.

CAO-55-49, Martin Borlick and Robert Mathews: For damages to the railing of the Isthmus Slough Bridge on the Coos River Secondary Highway, incurred December 14, 1954, in the sum of $29.62.

CAO-55-4, B. L. Brewer: For damages to a State truck, incurred December 27, 1954, in the sum of $47.75.

CAO-55-67, G. P. Rick: For damages to the north gatehouse on the Interstate Bridge, north of Portland, incurred May 21, 1955, in the sum of $60.74.

CAO-55-100, Leighton H. Dorsett: For damages to a concrete panel and post at the north end of the Interstate Bridge near Portland, incurred June 23, 1955, in the sum of $78.83.

CAO-55-141, Calvin C. Miller: For damages to a guardrail on the Columbia River Highway, incurred September 20, 1955, in the sum of $81.87.

CAO-56-183, Donald Robert Rominger: For damages to a traffic signal, incurred November 23, 1955 on the Pacific Highway, a short distance north of Medford, in the sum of $108.17.

CAO-56-194, Ruth Isaacson: For damages incurred on December 6, 1955 to a State Highway sedan, in the sum of $194.90.

CAO-56-200, National Industrial Products Corporation: For damages to a State Highway sedan, incurred November 9, 1955, in the sum of $106.50.

CAO-56-240, J. T. Pollanz: For damages to an illuminated directional sign, incurred February 1, 1956 on the Oregon-Washington Highway in Milton-Freewater, in the sum of $93.36.

Authority was also requested by the Assistant Counsel and granted by the Commission to start legal proceedings against Mr. Joe Schmidhamer of Portland. Mr. Schmidhamer in constructing a road approach to the Pacific Highway East a short distance south of Kellogg Lake in Milwaukie resloped a cut bank and completely filled a highway ditch. He repeatedly refuses to reopen the ditch, notwithstanding numerous requests to do so.

A report was presented by the Assistant Counsel concerning a request from the Crook County Court that the County be allowed to abandon a portion of the old Ochoco Highway between Marks Creek and Prineville. He recalled that this matter was presented at the July meeting and an investigation was made as to whether the old section of highway could be abandoned legally. He recommended that the abandonment agreement with the County be amended, allowing the County to close the old road if it is determined that it no longer is needed by any person or persons residing thereon, or is not needed for any public use. The Commission accepted the recommendation.

The Engineer reviewed briefly the status of the proposed bridge across the Columbia River at Astoria, concerning which a delegation is to appear later in the day. The estimated cost of the bridge, he stated, is $30,000,000. The sponsors plan to sell $18,000,000 of bonds, which will create a $12,000,000 deficit, but if the States of Oregon and Washington will guarantee the deficit they can then sell the full $30,000,000 of bonds. It is estimated that to finance the deficit will require a contribution of

approximately $400,000 by each State during the first year's operation of the bridge, and payments thereafter will diminish annually until they are entirely eliminated at the end of 23 years, making an average annual payment of about $200,000. During the next 23 years the estimated schedule of income indicates that the States would be refunded in full for the amount advanced during the first 23 years. He compared the State's cost of the bridge project with the cost to provide additional ferry service, and he commented on the fact that plans for the bridge, although prepared by Tudor Engineering Company, have not yet been cleared with the U. S. Army Engineers, who might require a more expensive structure. The Commission took no action on the matter.

The Engineer reported that under authority previously granted him by the Commission he has awarded contracts as follows, the conditions of the awards having been satisfied:

(1) Grading and oiling the South Unit, Vale-Grand Avenue Section of Lytle Blvd. Road, Malheur County. Bids received June 5, 1956. Conditions of award satisfied July 16, 1956. C. E. Leseberg, Nyssa, low bidder.

(2) Grading and paving 8th Street-14th Street (Coos Bay) Section of Empire-Coos Bay Highway, Coos County. Bids received June 5, 1956. Conditions of award satisfied July 17, 1956. A. T. Fox, North Bend, low bidder.

(3) Construction of Champoeg Creek Bridge on Newberg-Yergens Corner Road, Marion County. Bids received July 12, 1956. Conditions of award satisfied July 18, 1956. United Builders, Inc., Beaverton, low bidder.

(4) Deschutes County Roads Oiling Project on five county roads, Deschutes County. Bids received July 13, 1956. Conditions of award satisfied July 19, 1956. The Central Heating Co., Ore. Ltd., Eugene, low bidder.

(5) Grading and paving the Josephine County Line-Rogue River Road Section of Pacific Highway, Jackson County. Bids received July 12, 1956. Conditions of award satisfied July 25, 1956. Fred H. Slate Co. & E. C. Hall Co., Portland, low bidder.

(6) Guardrail construction on Shady-Booth Ranch Unit, Shady-Canyonville Section of Pacific Highway, Douglas County. Bids received July 12, 1956. Conditions of award satisfied August 7, 1956. Vern Hoaglin, Beaverton, low bidder.

(7) Grading and pavement widening on Glenada Hill Section of Oregon Coast Highway, Lane County. Bids received July 12, 1956. Conditions of award satisfied August 10, 1956. Umpqua River Navigation Co., Reedsport, low bidder.

The Commission approved the awards as reported.

A report was presented by the Engineer concerning a study made for the closure of 13th Avenue through the University of Oregon campus in Eugene. This study, he stated, indicates the need for a project costing a total of $90,000, which should be borne by three parties: $5,000 by the University of Oregon; $50,000 by the City of Eugene; and $35,000 by the State Highway Department. He pointed out that the University is confronted with an almost intolerable condition in that 13th Avenue practically bisects the campus and a large portion of the student body crosses this street in going from one classroom to another. The University, he said, now attempts to close the street for 10-minute intervals while classes are changing, but under the proposed plan the street would be closed daily from 7:00 a.m. to 6:00 p.m., except on Saturday afternoons and on Sundays. Closure of 13th Avenue will direct more traffic onto the highway than can be adequately handled at the intersection of 11th Avenue and Franklin Boulevard, making necessary the revision of this intersection at an estimated cost of $35,000. He requested authority to discuss the plan with the University and the City of Eugene. The Commission granted the request but cautioned the Engineer to make no commitment whatsoever as to construction of the project. He was instructed to report the results of contacts with the University and the City.

The Commission accepted a report submitted by the Engineer containing a tabulation of statistics taken from weighmaster records for a three-month period from April through June for the years 1952 to 1956, inclusive. He called attention to the fact that the average fine paid per violation is considerably above the average for the first quarter of 1956 and very closely approaches the April-June period of 1953; also, the percentage of violations has decreased considerably from the previous three-month period.

The Engineer reported the results of a reconnaissance survey for a proposed highway between Frenchglen and Denio in Harney County as instructed at the previous Commission meeting, when a Harney County delegation appeared in behalf of the project. The investigation, he said, revealed that to construct the road to secondary standards will cost approximately $1,479,000. Traffic on the 74.5-mile section is extremely light, being 60 vehicles at Frenchglen and dwindling to a low of 9 at the Nevada State Line. A check with the State of Nevada discloses that the paved highway from Denio to Winnemucca carries only 37 vehicles daily at a point one mile south of Denio. Considering traffic volume and the cost of the highway, it was his opinion that the proposed road should under no conditions be designated a state highway. The Commission took no action at this time pending the appearance of a delegation on the following day.

(The delegation which appeared on August 17 made no comment concerning this highway.)

The Engineer also reported the results of a reconnaissance survey of the Siuslaw Highway in the vicinity of Triangle Lake, as requested by a

delegation at a previous meeting and authorized by the Commission. He said that the survey revealed that the rerouting of the highway along the south side of the lake is entirely feasible, the benefit quotient being 3.87 on one route and 3.25 on an alternate route. The project, he stated, is a meritorious one, but the cost of approximately $1,000,000 is high. He recommended that the project be considered for improvement some time in the future when Forest Highway funds can be spared to finance it, as it does not appear that the project can be included in the forthcoming Five-year Program. The Commission accepted his recommendation.

Removal of load limit restrictions on the "R. H. Baldock Freeway" was reported by the Engineer. The restricted load limit of 10,000 pounds, he stated, was placed when the highway was opened to traffic in 1955 because of very light surfacing on a section. The paving has now been completed and the load limit removed, effective at 12:00 noon, August 10, 1956, between M. P. 19.07, at a junction with the Wilsonville-Hubbard Highway, and M. P. 43.17, at the south end of the Hayesville Interchange, north of Salem. The Commission accepted the report.

A report concerning a request made by the Morrow County School District in Heppner for construction of a footpath along the Heppner Highway (ORE 74), between the Heppner High School and the county fairgrounds was presented by the Engineer. He said that the High School athletic events are held at the fairgrounds and students in going to and from the High School and the fairgrounds now have to walk on the highway or on the immediate shoulder and are subject to a definite hazard. An investigation has determined that a footpath with a protective curb along the shoulder of the highway can be constructed for approximately $4,800. He recommended that the work be performed as a minor betterment project before school opens in 1956, if possible. He recalled that County Judge Garnet Barratt, who appeared at the July meeting concerning this footpath, offered to donate right of way as may be needed for the same across his property. The Commission approved the footpath construction by adopting the attached resolution relative thereto, marked EXHIBIT "K-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission considered items of unfinished business appearing on the Secretary's summary dated July 13, 1956, as follows:

1. Feasibility study of the Diamond-Crater area near Burns for recreational development: The Parks Superintendent stated that his report on this subject is not yet complete. The Commission ordered the item retained on the list of unfinished business.

2. Request of County Judge Garnet Barratt of Morrow County for construction of a footpath along Highway No. 74 between the High School grounds and the fairgrounds in the City of Heppner: This item was ordered deleted from the list as a report had been previously presented by the Engineer.

3. Request of Crook County Court that a portion of the old Ochoco Highway between Marks Creek and Prineville be abandoned for public use: This item was ordered deleted from the list of unfinished business as a report previously had been presented by the Assistant Counsel.

4. Request of City of Milwaukie for an extension of the International Harvester frontage road between Portland and Milwaukie: The Engineer reported that several conferences recently had been held with Milwaukie City Officials concerning the elimination of left turns at the intersection of US 99E and River Road in Milwaukie, and also concerning the City's desire to extend Main Street northerly to a connection with the service road in front of the International Harvester plant. The proposal that Main Street be extended and that traffic bound for River Road cross the highway at the existing signalized intersection at "A" Street is the most economical solution. However, this would cause a circuitous routing of traffic from Milwaukie to the new woolen mills plant to be built on River Road near its intersection with US 99E. An alternate solution would be to construct a new crossing of the highway at a point approximately 350 feet north of Scotts Street, including a bridge over Johnson Creek to make a connection with River Road. It is estimated that this project would cost approximately $56,900. He pointed out that the intersection of US 99E and River Road has one of the worst accident records in the State, and he recommended that he be authorized to negotiate further with the City on the basis of the State assuming 75 percent of the cost and the City 25 percent, with the understanding that the City would provide all necessary right of way. If this project is completed the extension of Main Street northerly would be of no benefit to the State, and if it is done it should be entirely a City matter. Extension of Main Street to the type of construction desired by the City is estimated to cost $42,600. He recommended that the State not participate in the extension of Main Street. The Commission instructed the Engineer to discuss the matter again with the City Officials and ordered the item deleted from the list of unfinished business. It is to be considered as new business when the matter again comes up for discussion.

5. Request of the City of Hillsboro that the contract now underway in the city be expanded to include the widening of an additional one-half block on 10th Street between Oak Street and Base Line Street: The Engineer estimated the cost to perform the additional work at approximately $5,000. He said further that the improvement will fit in very nicely with the work that is now being performed by the State's contractor. He recommended approval of the additional work. The Commission approved the project and ordered the item deleted from the list of unfinished business.

6. Request of Al Pearce Co. for elimination of hazards at a curve near the Standard Oil Company plant on the Oregon Coast Highway in the city of Coos Bay: The Engineer gave as his understanding that the Pearce Company was to send a letter outlining its request in detail, but no such letter as yet has been received; however, the Traffic Engineer has been instructed to contact the Company and to make an investigation. The Commission ordered the item deleted from the list of unfinished business.

At the request of the Engineer the Commission authorized increases in contract project authorizations, as follows:

1. $13,000 on Contract No. 4422 for grading and surfacing S. E. Stark Street-Powell Valley Road Section of East Burnside Road in Multnomah County. Additional subbase reinforcement and additional drainage structures were required.

2. $25,000 on Contract No. 4576 for grading and paving the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway in Coos County. It was necessary to increase embankment quantities by approximately 50,000 cubic yards to correct an extensive failure in a fill foundation.

3. $45,000 on Contract No. 4298 for grading and oil-mat surfacing on the Booth Ranch-Myrtle Creek Unit of the Pacific Highway in Douglas County. This overrun was caused by removal of slides, excessive winter maintenance, and the need for placement of additional surfacing materials.

4. $34,000 on Contract No. 4338 for paving the Booth Ranch and Booth Ranch-Myrtle Creek Units on the Pacific Highway in Douglas County. The overrun was caused principally by slide removal, excessive winter maintenance, and the need to use more crushed materials than was anticipated.

5. $90,000 on Contract No. 4311 for paving the Glenwood-North Plains Section of the Wilson River Highway in Washington County. This overrun resulted from a necessary change in the source of surfacing ma-l terials and the moving of the contractor's equipment to the new pit.

The Commission considered the adoption of surveys for relocated sections of highways on the Central Oregon Highway and on the Oregon Coast Highway. The Engineer presented maps showing the proposed relocations and stated that in each instance the revised route has been very carefully considered to provide the best facility for the greatest number of people commensurate with the cost involved. He recommended adoption of surveys for the following sections:

1. Horseshoe Bend-Peach Section of the Central Oregon Highway in Malheur County.

2. Davis Slough-Bandon Section of the Oregon Coast Highway in Coos County.

The Commission approved the surveys by adopting the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was given by the Commission to a letter from Hon. Ray Shell, Mayor Pro-tem of the City of John Day, stating that the City is

prepared to pay one fourth of the cost to improve South Canyon Boulevard (John Day-Burns Highway) between the Catholic Church and the south city limits of John Day, provided the total cost of the job does not exceed $45,000. The Engineer recommended acceptance of the City's offer and that the work be performed, with the City's cooperation, as early in the year 1957 as conditions will permit, it being too late in the season to perform the work this year. The Commission approved the project on the basis of the City's offer, as recommended by the Engineer, the State's share to be paid with State money.

Consideration was given to a letter from Berke and O'Neil, General Contractors, Portland, protesting the assessment of engineering costs for failure to complete Contract No. 4223 for grading the Booth Ranch Unit of Pacific Highway in Douglas County within the time limit specified in the contract. The Engineer advised that assessment of the engineering cost was recommended in April of 1956, but it now appears that the information provided from the field on which the recommendation was based was erroneous. The facts show that the job was substantially completed within the specified time limit except for removal of a rock cut, which was originally specified as a source for roadbed topping. The rock cut, he said, was found to be unsuitable for topping, so the contractor was ordered to secure material from another source. The delay, he said, cannot justifiably be charged to any negligence on the part of the contractor, in view of which he recommended that the engineering assessment in the sum of $846.91 be rescinded. The Commission accepted his recommendation.

The Commission gave attention to a proposed agreement with the U. S. Coast and Geodetic Survey for the establishment of geodetic control, both horizontal and vertical, in conjunction with highway projects to be let by contract. The type of control work to be done, the Engineer stated, will assist the Department in the preparation of highway location studies and in the preparation of maps. He pointed out that this work can be made a participating item using federal funds as a planning survey project, and that there are sufficient funds in the planning survey budget to cover this item for the year 1956. He requested permission to enter into an agreement with the U. S. Coast and Geodetic Survey for a project estimated to cost $15,000 during the remainder of 1956. The Commission approved the request.

A request from the City of Willamina for an access road from Willamina to the new Valley Junction-Sheridan Highway which is now under construction was discussed by the Commission. The Engineer advised that studies have been made concerning the proposed road and it was found that the new road would be approximately 0.7 mile long, plus approximately 0.65 mile in frontage road and interchange legs at the intersection with the new highway; also, a new bridge would be required across the Yamhill River which would bring the cost of the entire project to approximately $300,000. This connection, he added, would be of material benefit to Willamina, but there are no funds available to finance it. He suggested that the matter be considered some time in the future after the new road has been completed. The Commission took no action pending the appearance

of a delegation on the following day.

(When the delegation appeared they stated that they had in writing a commitment from the Polk County Court to take over the old section of the Salmon River Highway in Polk County if the new road is constructed. The Commission asked the delegation to secure, if possible, a similar written statement from Yamhill County Court with respect to that portion of the old highway that lies in Yamhill County.)

The Engineer called attention to a procedure that has been followed during the past four years for financing county federal-aid secondary highways, whereby the Federal Government provides 60 percent of the funds and the State and the County each contribute 20 percent. The County also acquires all right of way at its expense and the State makes the surveys at State expense. He said that the Commission's most recent approval of this arrangement expires soon, and he recommended that it be extended for another 2-year period so it will be applicable for the federal fiscal year 1958 and 1959 monies. This policy procedure, he said, has worked very well, and the counties seem to be well satisfied with it. The Commission approved the extension of this policy as recommended.

Allocation of federal-aid funds to the counties for the fiscal year 1957 was considered. The Engineer advised that under the new highway bill an additional sum of $662,937 was made available for secondary road construction in the fiscal year 1957, one half of which, after deducting planning survey costs amounting to $2,937, must be spent on county roads. The amount thus made available for county roads is $330,000, which will provide a total construction fund of $550,000 after adding the State and County match money pursuant to the provisions of the formula which has just been approved by the Commission for an additional two-year period. He recommended and the Commission approved the following allocation of funds to the counties:

ADDITIONAL FISCAL YEAR 1957 FAS ALLOCATION TO COUNTIES
JULY, 1956

County	Federal Funds	TOTAL FUNDS Including State & Counties Match Money (Rounded to Thousands)
Baker	$ 6,076	$ 10,000
Benton	6,462	11,000
Clackamas	21,190	35,000
Clatsop	6,826	11,000
Columbia	8,277	14,000
Coos	9,996	17,000
Crook	5,420	9,000
Curry	3,948	7,000
Deschutes	6,739	11,000
Douglas	14,243	24,000
Gilliam	4,200	7,000
Grant	4,955	8,000

Additional Fiscal Year 1957 FAS Allocation to Counties - Cont.

County	Federal Funds	TOTAL FUNDS Including State & Counties Match Money (Rounded to Thousands)
Harney	$ 5,784	$10,000
Hood River	5,534	9,000
Jackson	11,372	19,000
Jefferson	4,740	8,000
Josephine	7,027	12,000
Klamath	9,508	16,000
Lake	6,247	10,000
Lane	22,447	37,000
Lincoln	7,826	13,000
Linn	12,738	21,000
Malheur	10,785	18,000
Marion	18,020	30,000
Morrow	5,302	9,000
Multnomah	25,581	42,000
Polk	9,056	15,000
Sherman	3,633	6,000
Tillamook	6,945	12,000
Umatilla	13,478	22,000
Union	5,316	9,000
Wallowa	5,205	9,000
Wasco	5,247	9,000
Washington	16,669	28,000
Wheeler	3,686	6,000
Yamhill	9,522	16,000
	$330,000	$550,000

Summary, Entire State - Additional Fiscal Year 1957 Funds

Total Federal Funds	$662,937
Less Planning Survey (Est.)	2,937
Total for Construction.....	$660,000
County Share (50% of Total for Construction)	$330,000
Plus Est. Required Match Money: State Funds	110,000
County Funds	110,000
Total County Road FAS Fund.....	$550,000

NOTE: Above funds allocated to individual counties on the basis of formula proposed by Association of Oregon Counties and approved by Highway Commission. Federal funds are estimated to represent 60% of Total County Road FAS fund with State and County Funds estimated to be 20% each.

The Engineer reported that Oregon has received an additional allotment of $199,844 of Federal Lands Funds that must be used to finance

highway construction across Federal-owned lands. He recommended that they be used for improvements on the I.O.N. Highway in Malheur County. He pointed out, however, that it will be necessary to provide State funds to pay for construction across private land sections which must be improved in connection with the sections across the federal lands. He recommended that the Commission authorize $120,000 of unappropriated State funds to match the federal funds to pave a section approximately 16 miles in length immediately adjacent to the improvement that has been completed or that is underway on the I.O. N. Highway. The Commission authorized utilization of the funds as recommended.

The Commission discussed briefly, but deferred action until later in the session, formulation of a two-year Construction Program for federal fiscal years 1957-58 and 1959 funds.

The Commission also discussed briefly with the Engineer a petition from the Hood River County Chamber of Commerce requesting improvement of the Mt. Hood Highway between Parkdale and the Wapinitia Junction. Action on the matter was deferred by the Commission pending appearance of a delegation from Hood River on the following day.

(The delegation that appeared on the following day was informed that their project will be discussed with representatives of the U. S. Bureau of Public Roads and U. S. Forest Service when a joint conference is held to provide a program for available Forest Highway funds, but no answer can be given now.)

Attention was given to a request from the City of Roseburg for early construction of a one-way street couplet through the business district of Roseburg. The Engineer advised that even though the Roseburg By-pass is in operation the average daily traffic on Stephens Street in the central business district is in excess of 13,000 vehicles per day. He referred to Technical Report No. 55-4, "A Traffic Survey in Roseburg and Vicinity", wherein it is recommended that a one-way couplet be established using the existing highway on Stephens Street for southbound traffic and Rose Street between East Second Avenue South and Mosher Street for northbound traffic. He estimated the cost to provide such one-way couplet between East Second Avenue South and Mosher Street, thence on Mosher Street to a connection with Stephens Street, at $248,500, of which amount $100,000 represents right of way cost and $148,500 construction cost. The City, he said, has indicated that it will purchase the right of way at City expense and will also bear the cost to improve Mosher Street from Rose to Stephens, which is estimated at $23,500. He estimated that the State's share of the project on such basis would be approximately $125,000. He recommended that a survey be made and property descriptions turned over to the City for acquisition of right of way and that the Commission approve the project provided the City will acquire the right of way and will perform at City expense the construction work on Mosher Street between Rose and Stephens Streets. The Commission approved the project as recommended and authorized the survey, it being understood that the State's portion will be financed with urban funds from Division No. 3. The Commission ordered the arrangement

covered by an appropriate agreement with the City outlining things to be done by the City and by the State, if the City is willing to proceed as outlined.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p. m. in the same room with the same persons present and participating.

The State Highway Engineer introduced Mr. Fred T. Fowler, former City Traffic Engineer, Portland, who recently was appointed to the newly created position of Highway Coordinator for the City, and whose duties will necessitate many contacts with the State Highway Department. Chairman Chandler complimented Mr. Fowler on his assignment and informed him that he will always be welcome to sit in on Highway Commission meetings.

Attention was given to a request from Ross E. Hearing, City Attorney for Elgin, concerning difficulty that large trucks experience in making a turn at the intersection of the Wallowa Lake Highway and the Weston-Elgin Highway within the city. The Engineer advised that an investigation revealed that to solve the problem it will be necessary to cut the curb back for a distance of approximately 20 feet on each of these streets and to widen the pavement to allow the larger trucks to make the turn without encroaching on the opposing traffic lane. He recommended approval of the project, which he estimated will cost about $500, provided the City of Elgin will re-establish at City expense a fire hydrant that is involved. The Commission approved the project on such basis.

The Commission considered and, upon recommendation of the Engineer, granted extensions of time within which to complete state highway contracts as follows:

1. Warren Northwest, Inc., Contract No. 4599, for paving the East Parkrose Section of the Columbia River Highway in Multnomah County, requested an extension of time from June 30, 1956 to July 15, 1956. Approved to July 6, 1956, the actual completion date of the contract. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

2. Knight Pearcy Nursery, Contract No. 4532, for roadside improvement on 102nd Avenue-Fairview Rd. Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from May 31, 1956 to June 30, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

3. W. R. Grasle Company, Contract No. 4631, for installation of traffic signals on Mt. Hood Highway (E. Powell Blvd.) at E. 122nd Ave.

and E. 136th Ave., in Multnomah County, requested an extension of time from June 30, 1956 to July 31, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

4. Trowbridge Electric Company, Contract No. 4549, for illumination of access points on the Anlauf-Shady Unit of the Pacific Highway, in Douglas County, requested a second extension of time from May 29, 1956 to August 27, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

5. O & K Construction Company, Contract No. 4517, for grading the Hay Creek Canyon Section of Mikkalo Road in Gilliam County, requested an extension of time from April 30, 1956 to June 27, 1956, the actual completion date of the contract. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

6. Vernie Jarl, Contract No. 4300, for grading and topping the Forest Boundary-Meadow Brook Section of the Ukiah-Hilgard Highway in Union County, requested an extension of time from July 31, 1955 to July 31, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

7. Warren Northwest, Inc., Contract No. 4211, for paving 42nd Ave. -92nd Ave. Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from December 15, 1954 to June 30, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

8. Tom Lillebo, Contract No. 4616, for construction of Meda Bridge on Little Nestucca Highway in Tillamook County, requested an extension of time from June 30, 1956 to August 24, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

9. R. H. Jones, Contract No. 4510, for construction of the Chemult Sand Storage Shed in Klamath County, requested an extension of time from December 31, 1955 to June 30, 1956. Approved to June 15, 1956, actual completion date of the contract. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

10. Hannan Bros. Company, Contract No. 4505, for grade separation structures on the Olds Ferry-Ontario Section of the Old Oregon Trail in

Malheur County, requested an extension of time from June 30, 1956 to July 31, 1956. Approved to July 26, 1956, actual completion date of the contract. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

11. Tom Lillebo, Contract No. 4297, for six structures on the Coast Fork Willamette River-Divide Unit of the Pacific Highway, in Lane County, requested a second extension of time from November 30, 1955, to June 15, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

12. Rochat Electric, Contract No. 4680, for installation of traffic signals in Albany and Sweet Home on the Pacific East and Santiam Highways, in Linn County, requested an extension of time from July 31, 1956 to August 31, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

13. C & W Crushing Company, Contract No. 4573, for the Columbia River-Dufur Rock Production Project on The Dalles-California Highway, in Wasco County, requested an extension of time from June 30, 1956 to July 31, 1956. Approved as requested. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of this extension was waived by the Commission.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract Numbers 4428, 4469, 4488, 4495, 4505, 4510, 4517, 4549, 4570, 4574, 4579, 4594, 4599, 4602, 4605, 4610, 4613, 4625, 4629, 4631, 4660, 4661, 4669, 4674, 4678, 4679, 4686, 4706, 4732, and 4734 for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission confirmed a negotiated contract with Fred H. Slate Company and E. C. Hall Company in the sum of $65,000 for emergency repairs to the Ochoco Highway at Mitchell necessitated by a flash flood that occurred on July 13, 1956. The Engineer commented that the total

expense to the State has been nearly $80,000, of which approximately $65,000 will be payable to the contractor.

Consideration was given to a request from the City of Medford for designation of a one-way street couplet through the city, using 8th Street and Main Street as the proposed routing for the Medford-Provolt State Secondary Highway. The Engineer advised that the construction involved is estimated to cost $241,000, and it is being proposed if the project materializes, to charge 75 percent of the cost to the State and 25 percent to the City. This would result in a cost of $178,750 to the State and $62,250 to the City. Main Street at the present time, he said, carries an average daily traffic of approximately 11,000 vehicles, and the studies revealed that this one-way couplet is most feasible. He further stated that the City is planning to present to its voters at the November election a bond issue for street improvements which will include this project, and has inquired whether or not the Commission will enter into an agreement providing for the improvement if the bond issue is approved by the people. He recommended approval of the project on the basis of 75 percent cost to the State and 25 percent to the City, provided the City can finance its share. The Commission approved the project as recommended, using funds from the urban reserve in Division No. 3, and ordered the arrangement covered by appropriate agreement outlining obligations of the City and the State.

The Engineer reported that the towns of Dayville, Dufur and Mosier have satisfied legal requirements with respect to the expenditure of State Tax Street Funds accrued to them during the second six-month period of 1955, and that the plans for the projects proposed to be financed with the funds have been examined and found satisfactory. He recommended approval of the plans. The Commission approved the plans by adopting the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer requested authority for an expenditure of $8,000 for channelization work at the intersection of US 101 and the road serving the Coquille Plywood Company, north of Coquille. He advised that a number of requests have been received during the past few years for improvements at this location and in October, 1955, a 45-mile-per-hour speed zone was designated and "No Passing" signs were installed, notwithstanding which the accident frequency at the intersection has continued to increase; in fact, the traffic volume has increased to such an extent that the widening of the highway sufficiently to provide a left-turn refuge and decelerating and accelerating lanes adjoining the intersection is warranted. He estimated the cost of such improvement at $8,000, exclusive of right of way, and he recommended approval of the project as a minor betterment in 1957. The Commission approved the project as recommended and also authorized negotiations to acquire needed right of way.

Consideration was given to a request from the Blue Mountain Ski Club of Spout Springs, Oregon for expansion of the parking area on the Weston-Elgin Highway near the Spout Springs access road for the benefit

and convenience of winter sports enthusiasts. The Engineer advised that an investigation discloses that the present parking space, which requires parallel parking of cars, and which will accommodate only 140 vehicles, was severely overtaxed during the last winter season. To relieve the situation and to provide for greater safety he recommended that approximately 60 percent of the present parking space be widened an additional 20 feet to permit cars to be parked on an angle, thus increasing the capacity of the widened area from 80 to 154 cars. He estimated the cost involved at $6,000. The Commission approved the project as recommended and instructed the Engineer to get the work done this year, if possible, so the additional space will be available for use during the coming winter season.

The Commission considered a petition from the Rogue Wonderland Association requesting early completion of the reconstruction of the Crater Lake Highway between the town of Trail and Cascade Gorge. The Engineer commented that the proposed two-year program that is now being considered by the Commission contains an item of $550,000 for grading, oiling and structures on this highway between Trail and Elk Creek. Action on the petition was deferred by the Commission pending consideration of the program.

Consideration was given to a letter from Ray C. Swanson, Chairman of the Board of Education, School District No. 88, Noti, asking reconsideration of the Commission's previous action denying their request for a footpath on the Richardson-Eugene Secondary Highway and advising that the Parent-Teacher Association of the Noti community has offered to contribute $500.00 toward the costs involved. The Engineer advised that the cost to build the footpath is estimated at $2,800, the expenditure of which by the State was considered unwarranted at the time of the original investigation; however, the picture changes when considering the offer of the Parent-Teacher Association to contribute $500 toward the expense, and it is his recommendation that the footpath be constructed when the $500 contribution has been received. The Commission approved the Engineer's recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "K-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein. The Engineer was instructed to perform the work this year if possible.

A letter was presented from the City Council of Scappoose requesting that the existing reduced speed zone on US 30 in Scappoose be extended northerly from its present terminus at the north city limits. The Engineer advised that this matter has been investigated and it has been determined that for the safety of the traveling public the speed zone should be extended as requested; accordingly, he recommended an extension of the existing 35-mile-per-hour speed zone on the Columbia River Highway from the north city limits of Scappoose, at M.P. 21.66, to a point 500 feet north thereof, at M.P. 21.76. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was also given by the Commission to a request from the Klamath County Court for establishment of a 35-mile-per-hour speed zone on the Klamath Lake Secondary Highway west of Klamath Falls city limits. The Engineer advised that an investigation by the Traffic Engineer reveals that the establishment of such a zone is not warranted at this time. He recommended that the request be denied. The Commission adopted the recommendation.

Upon recommendation of the Engineer the Commission authorized out-of-state travel for the following employees:

(1) Carl W. Jordan, Director of Travel Information Division, to attend the Annual Convention of the Pacific Northwest Travel Association at Glacier Park, Montana, during September 8, 9, and 10, 1956, at an estimated cost of $127.00.

(2) David Garrett, Traffic Investigator, to attend a course in Traffic Engineering at the University of California during August 27 to 31, 1956, at an estimated cost of $56.00.

(3) W. C. Williams, State Highway Engineer, to attend a meeting of the Advisory Committee on the AASHO Test Road, at LaSalle, Illinois during September 10 and 11, 1956, at an estimated cost of $250.00.

(4) Messrs. Ben R. Chandler, Chas. H. Reynolds, M. K. McIver, W. C. Williams, Forrest Cooper, G. S. Paxson, and C. W. Enfield, to attend the annual conference of the American Association of State Highway Officials in Atlantic City, New Jersey during November 27, 28, 29, and 30, 1956, at an estimated cost of $425.00 each, total $2,975.00.

(5) R. B. Sipprell, Director of Permits, to attend a meeting of the Western Interstate Committee on Highway Policy Problems, Council of State Governments, in Santa Fe, New Mexico, on September 26 and 27, 1956, at an estimated cost of $170.00.

The matter of signing "Plans Credit Certificates" issued to contractors as a refund when projects are withdrawn from a contract letting or when bids received at such letting are rejected was discussed. The Engineer commented that the present form provides that the certificate be signed by the State Highway Engineer; however, he pointed out that the certificates are issued by the Secretary, in view of which he suggested that the Secretary be authorized to sign them. The Commission approved the suggestion.

Consideration was given to a request from the Hood River County Chamber of Commerce for relief from payment of the expense of water that is used for irrigating the landscaped area at the Second Street Interchange on US 30 in Hood River. The Engineer pointed out that the State now pays for the irrigation of landscaped areas in other communities, and he recommended that the State assume payment of such expense at Hood River. The Commission accepted his recommendation.

The Engineer reported that a request had been received from the Oregon State Employees Association that a study be made relative to increasing the per diem allowance to employees of oiling, paving and bridge

crews which are subject to frequent moves. He advised that a questionnaire was sent to the States of California, Idaho, Nevada and Washington inquiring to their practice in such matter, and the replies received reveal that they make allowances varying from $4.00 to $11.00 per day. He recommended that the per diem allowance for paving crews, oiling crews, center line striping crews, bridge crews, tunnel crews, and extra gang crews engaged on either extra gang maintenance or small force construction projects be increased from $4.50 per day to $5.00 per day for the days actually worked, effective August 20, 1956. The Commission approved such increase.

The Assistant Counsel reported a claim filed against the State by Kenneth F. Brookshire in the amount of $750.00 for damages caused by the flash flood in Mitchell on July 13, 1956, and a claim from Hattie Harnden of Mitchell in the sum of $688.00 for personal property loss in the same flash flood. He recommended that these claims be denied. He commented that he has been notified of additional claims totaling approximately $200,000. The Commission decided to deny all of them.

The Commission approved the Secretary's report of voucher lists signed by him on behalf of the Commission pursuant to the provisions of ORS 291-472 during the period from July 10, 1956 through August 13, 1956.

The Commission discussed a date for its next regular meeting and decided to hold such meeting in Portland on Thursday and Friday, September 27 and 28, 1956. The Secretary was instructed to arrange for use of the Queens Room in the Imperial Hotel. The Commission also tentatively set Thursday and Friday, November 8 and 9, 1956 as the date for its next following meeting.

Consideration was given to the renewal of a lease from the Army Engineers covering a material storage site located on Government-owned property adjacent to US 30, a short distance east of Seufert, Wasco County. The Engineer advised that this lease is a one-year extension of a previous lease that expired on June 6, 1956, and he recommended its approval. The Commission approved the lease as recommended.

A resolution from the City of Madras requesting designation of a one-way street couplet through Madras, utilizing 5th Street for northbound travel and 4th Street for southbound travel was considered by the Commission. The Engineer advised that presently, and probably for several years to come, there will be no critical problem from the standpoint of 5th Street being able satisfactorily to carry traffic from both directions. He recommended in view thereof that the request be denied as not warranted at this time. The Commission adopted the recommendation.

The Commission discussed a letter from the Lincoln County Historical Society inviting the members of the State Highway Commission, the State Highway Engineer, the State Parks Superintendent, and the Commission Secretary to be present at the dedication of a historical marker in Yaquina Bay State Park, Newport, on Saturday, September 1, 1956. The Commission declined the invitation with regrets, previous commitments

precluding their attendance at this function. The Parks Superintendent was delegated to represent the Commission on this occasion.

The Engineer reported that the Sheriff of Multnomah County has called to his attention a hazardous condition that exists on the Mt. Hood Highway in the vicinity of S. E. 87th Avenue, east of Portland. An investigation was conducted, he said, and it was found that an Auction Mart in this area is responsible for a great deal of shoulder parking, which creates a hazard. During the period from January 1, 1951 to June 30, 1956, there were 21 reported accidents in this section, three of which were caused by parking maneuvers. In view of the hazards at this location he recommended that "No Parking at Any Time" signs be erected on the north side of the Mt. Hood Highway from M.P. 5.45, Engineer's Station 13+80, to M.P. 5.55, Engineer's Station 19+00, and on the south side of the highway from M.P. 5.44, Engineer's Station 13+20, to M.P. 5.55, Engineer's Station 19+00. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer presented a proposed agreement with Benton County whereby the County agrees to take over for County purposes an old section of the Corvallis-Newport Highway which is being replaced by the Blodgett Overcrossing Section. Upon his favorable recommendation the Commission approved the agreement. The Engineer also reported that the Blodgett Overcrossing Section of the Corvallis-Newport Highway in Benton County has been opened to traffic and that under the terms of the abandonment agreement with the County Court which has just been approved, it now is in order for the Commission to relinquish to the County the old highway section. He recommended adoption of a resolution effecting such transfer. The Commission approved the recommendation and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof, with like effect as though extended in full herein. In this connection the Engineer also presented a Bargain and Sale Deed conveying to Benton County that portion of the old right of way that is not required for highway purposes, consideration $1.00. The Commission approved such conveyance.

The Commission gave attention to a form of "lease agreement" with Cascade Natural Gas Corporation concerning installation of a metering system on a small triangular area of highway property situate outside of the limits of the highway right of way which is being retained to control highway access. The Engineer explained that the installation is in connection with the Corporation's transcontinental pipe line which is being built along US 30 easterly from its intersection with the Cold Springs Highway into the city of Pendleton. The installation, he said, will not interfere with highway traffic. Because it is for the benefit of the City of Pendleton, he recommended approval of the lease, which is cancellable at the option of the Commission, for a rental fee of $1.00. The Commission approved the lease as recommended.

The Engineer reported that a test run had been made with a 60-foot truck and full trailer over the Little Sheep Creek Secondary Highway and it was found that such equipment can negotiate curves on this highway without encroaching upon the opposing traffic lane. The highway, he stated, was classified as a Group III Highway, but on the basis of the test run it should be reclassified as a Group I Highway throughout its entire length, and he so recommended. The Commission approved such reclassification.

An "extension rider" agreement with the Union Pacific Railroad Company extending an existing lease on two material storage sites near Speece on the John Day Highway, north of Condon, was presented by the Engineer, who recommended its approval. He explained that this agreement extends the lease to December 31, 1961, at an annual rental cost of $5.00. The Commission approved the lease extension.

The Secretary read aloud a letter from Mr. Earl W. Snyder, Director of the Oregon State Board of Aeronautics, in which formal application is made to the State Highway Commission and to the Bureau of Public Roads for title to the Alkali Lake Flight Strip on the Lakeview-Burns Highway. Mr. W. W. Stiffler, Assistant Highway Engineer, advised that the flight strip was built by the Highway Department during the second world war for defense purposes and is not needed for highway purposes. He recommended that title to the flight strip be conveyed to the Oregon State Board of Aeronautics. The Commission approved such transfer.

The Commission discussed with the Engineer matters to be presented by delegations later in the day and on the following day, but action was deferred pending the appearance of these delegations.

The Commission also discussed the proposed two-year construction program utilizing Federal Funds for Fiscal Years 1957-58 and 1959 recently made available by the Congress, which program was approved by the Commission at a special meeting in Salem on July 26, 1956 subject to confirmation at this meeting. The Engineer explained the projects contained therein and advised that if the Commission definitely approves the program as prepared the contracting of the work involved can be started at the September letting. He recommended approval of the program as prepared. As a result of careful consideration the Commission unanimously approved the following program for the funds available during the next two years, upon motion of Commissioner Reynolds, seconded by Commissioner McIver, thus confirming the action taken at the special meeting on July 26, 1956, and authorized the Engineer to advertise as many of the projects as is possible for bids to be received at the September meeting:

The Commission authorized a press release containing a list of all of the projects in this program.

Bids received at the morning session were discussed with the Engineer and at 3:00 p.m. Commissioner Reynolds announced awards of contracts, as follows:

"State-wide Aerial Photography Project: The Commission awarded the contract to the low bidder, Columbia Aerial Surveys, Inc., Boise, Idaho, at their bid price of $5,980.

"Construction of a latrine and a work shed at Fort Stevens State Park in Clatsop County: The Commission awarded the contract to the low bidder, P. S. Lord Mechanical Contractors, Portland, at their bid price of $9,690.

"Grading and paving on the Broadway-Front Street Connection in the city of Coos Bay in Coos County: The Commission awarded the contract to A. T. Fox, North Bend, who submitted the only bid, at $11,057.

"Embankment repair for the Milo-Corn Creek Section of the Tiller-Trail Highway in Douglas County: The Commission awarded the contract to the low bidder, Rupert & Fish, Days Creek, at their bid price of $10,132.

"Construction of a latrine and a water system at the Umpqua Lighthouse State Park in Douglas County: The Commission awarded the contract to Tom Lillebo, Reedsport, who submitted the only bid for this project, at $5,770.

"Construction of the Beech Creek Bridge at Mt. Vernon on the John Day Highway in Grant County: The Commission awarded the contract to the low bidder, George E. Berry, Beaverton, at his bid price of $37,110.

"Construction of three bridge piers for the Finch Bridge over the Illinois River on a county road near Kerby in Josephine County: Three bids were received for this project and all were referred to Josephine County by the Commission.

"Construct concrete deck girder bridge over Slate Creek on the Redwood Highway at Wilderville in Josephine County: The Commission elects to accept the bid of Ausland Construction Company, Grants Pass, who submitted the low bid, in the sum of $21,435 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Josephine County is received and the sum of $4,820 is deposited by the County.

"Construct a frame dwelling house with garage and radio room at Silver Lake Maintenance Station in Lake County: The Commission awarded the contract to the low bidder, Hampton C. Platt, Salem, at his bid price of

$12,100.

"Relining of the Cape Creek Tunnell on the Oregon Coast Highway in Lane County: Miller and Strong, Inc., Eugene, submitted the only bid for this project at $243,600, which bid was rejected by the Commission as being too high.

"Grading, paving and construction of reinforced concrete bridge on the East Unit, Finn Rock-Elk Creek Section of the McKenzie Highway in Lane County: The Commission elects to accept the bid of A. H. Saxton & Son, Portland, who submitted the low bid in the sum of $161,858.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading, oiling and furnishing crushed material in stock piles on the Walton-Noti Section of the Richardson-Eugene Highway in Lane County: The Commission elects to accept the bid of Morse Bros. & Durbin Bros., Harrisburg, who submitted the low bid in the sum of $371,439, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Santiam Junction Rock Production Project on the Santiam and North Santiam Highways in Linn and Jefferson Counties: The Commission awarded the contract to C. C. Meisel, McMinnville, who submitted the only bid for this project at $28,500.

"Grading and paving on the Horseshoe Bend-Gwynn Undercrossing Unit, Juntura-Vale Section of the Central Oregon Highway in Malheur County: The Commission elects to accept the bid of C. E. Leseberg, Nyssa, who submitted the low bid in the sum of $172,120.90 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Stone base and oiling 6.35 miles on the Iowa School-LaGrande Section of the Mt. Glen Road in Union County: The Commission elects to accept the bid of Arthur Simonsen & So., Baker, who submitted the low bid in the sum of $156,520, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Union County is received and the sum of $80,300 is deposited by the County.

At 3:15 p.m. a delegation representing the Port of Astoria and the Oregon Coast Association came before the Commission concerning plans for a bridge across the Columbia River at Astoria. The following people were present: Floyd Wright, R. J. Bettendorf, and G. T. McLean, Port of Astoria, Astoria; J. D. Waterhouse, Port of Astoria, Gearhart; William R. Manion, Port of Astoria, Seaside; and Vern Ayers, Manager, Oregon Coast Association, Newport. Mr. Wright headed the group. He declared that the existing ferry service between Astoria and Megler is very inadequate, and that during the month of July many cars were forced to wait from one to five hours to get across the river. As a consequence many tourists turned back and traveled other routes. During

the winter months, he said, ferry service is often interrupted by storms resulting in delays to the free flow of goods and traffic between Oregon and Washington. He emphasized the point that the Oregon Coast Highway is a vital economic artery for the City of Astoria and other coast cities and communities. The Tudor Engineer Company, he continued, has completed a survey for a new bridge across the Columbia River which is estimated to cost about $30,000,000. Revenue bonds, he stated, can be sold in the amount of $18,000,000 but some other arrangements will have to be made to underwrite the deficit. Attempts to secure funds through Congress, he said, have failed, so they are asking the States of Oregon and Washington to take care of the deficit, on an equal share basis, it being their feeling that the project is the responsibility of both states. If the two states will assume this responsibility, he added, the bonds can be sold and the states will not be required to advance funds. Under this arrangement, he explained, each state would be required to pay $400,000 the first year of operation of the bridge and thereafter a decreased amount which will average about $200,000 annually for 23 years when it is estimated that toll revenues will take care of debt requirements. He gave as their understanding that the operation of the ferries presently results in a deficit of about $80,000 per year and on that basis the deficit for 23 years will amount to $1,800,000. He cited the need for three additional ferries like the "Chessman" which will cost about $1,000,000 each, and improvement of the landing slip on each side of the river which, he said, will cost about $250,000; in other words, the cost to the State for ferry operation during the next four years will be about $5,000,000, which is an indication that the proposed bridge eventually will have to be built. He suggested that US 101 at this point be designated an "Interstate" Highway so Federal Interstate Highway monies can be used to finance the bridge, and that the Washington State Highway Department be asked to join in the undertaking. Mr. Manion emphasized the fact that during the summer the ferries are unable to handle the traffic without considerable delays. He endorsed Mr. Wright's remarks and declared the expenditure of $5,000,000 justified. Mr. Waterhouse expressed the opinion that if the Highway Engineers would review the plans for the proposed bridge they might be able to make suggestions which would save considerable in the cost of the bridge. Mr. McLean stated in this regard that all of the facts assembled by the Tudor Engineering Company will be made available to the Highway Department Engineers in their study of the plans. It was his belief that the studies made by the Tudor Engineering Company are based on maximum requirements. Commissioner Reynolds inquired if the plans for the project have been cleared by the Army Engineers. Mr. McLean replied in the negative, but he expressed confidence that they would be approved. The loss of tourist traffic on the Oregon Coast Highway because of delays at the ferries was mentioned by Mr. Ayers. The Oregon Coast Association, he said, is most anxious to have the ferries replaced by a bridge. Inquiry was then made by Commissioner Reynolds as to what has been done to interest the State of Washington in the project. Mr. Wright replied that preliminary discussions were had with the Washington Highway Department and with the County Court of Pacific County, but formal discussion of the matter has been deferred until the attitude of the Oregon Highway Commission is known. Mr. Bettendorf advised

that Mr. William Bugge, Director of Highways, indicated a willingness to discuss the matter with the Oregon Highway Department at anytime. Chairman Chandler commented that the Oregon Highway Commission is vitally interested in the matter but much study will be required to definitely determine just what Oregon can do. He mentioned that the Commission has a big problem on its hands to solve the handling of traffic at this point during the next four or five years, and it now appears necessary to increase the ferry facilities or construct the bridge; however, nothing can be done about it today. Mr. Wright again pointed out that under the proposed plan the States of Oregon and Washington will be asked to finance only the deficit feature during the first 23 years the bridge is in operation and that the monies that are advanced by the states will be returned to them from toll collections during the next following 23-year period. He suggested that information now available be explored and that a conference be held with the Washington Authorities to ascertain what kind of a program can be arranged to assure construction of the bridge. He gave as his feeling that the Washington Highway Commission would need an enabling act and that the Oregon Highway Commission now has such authority. Chairman Chandler stated that before any concrete action can be taken a thorough examination and study of all of the facts available must be made to determine whether or not special legislation is required and if the States can finance this project. This matter was discussed further at considerable length during which the Engineer suggested that the bridge plans and the ferry operation be thoroughly analyzed by his staff, and that a conference then be arranged with the Washington Highway Department to talk things over. Chairman Chandler stated that in his opinion one more step should be taken, and that is to determine whether the Army Engineers will approve the plans that are being considered. The Commission approved the Engineer's suggestion and authorized him to proceed accordingly, including the checking of the plans as to clearance by the Army Engineers. He was instructed to report to the Commission before conferring with the Washington Highway Department. Mr. Wright stated that his group will arrange a meeting with the Washington Highway Commission and will present their proposition to that Commission as has been done here today.

The Right of Way Engineer presented a quitclaim deed conveying to the City of Eugene a strip of land 60 feet wide, extending from the west line of the Prior F. Blair DLC No. 39 to the 7th Avenue connection with the Pacific Highway in the city of Eugene. This land, he stated, is part of the Chester Conger property (File 15003 - Miscellaneous C. & A. 1139) and is being transferred to the City for use as a city street. The Commission approved the conveyance by adopting the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The meeting adjourned at 4:55 p.m. to reconvene at 9:00 a.m. on the following morning.

Portland, Oregon
August 17, 1956

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

(Mr. C. W. Enfield, Chief Counsel, was excused on account of military duty.)

Bids as follows for highway construction work were opened and read aloud by the Assistant Secretary in conformity with previously published notice, following which he announced that the Commission would award contracts at 3:15 p.m. in the same room:

CLATSOP COUNTY
CONSTRUCTION OF AVENUE "U" BRIDGE OVER NECANICUM RIVER NEAR SEASIDE

P. S. Lord Mechanical Contractors, Portland	$ 49,860.00
George E. Berry, Beaverton*	55,250.00
Pettijohn Engineering Co., Portland	55,637.40
General Construction Co., Portland	55,719.80
J. N. Conley, Portland	58,216.90
Palmberg Construction Co., Astoria	58,780.00
C. J. Eldon, Portland	59,498.00

*Bidder will accept award of only one project.

DOUGLAS COUNTY
UMPQUA RIVER BRIDGE PIER PROTECTION PROJECT AT REEDSPORT

Tom Lillebo, Reedsport	$ 13,650.00

DOUGLAS COUNTY
DRAINAGE IMPROVEMENT ON SHERMAN ST. -PINE ST. SECTION
OF ELKTON-SUTHERLIN HIGHWAY IN SUTHERLIN

Fred J. Stubbert, Springfield	$ 10,215.00
Funderburk Construction Corp., Sutherlin	15,110.00

HOOD RIVER COUNTY
GRADING AND OILING INDIAN CR. -WINDMASTER CORNER SECTION
OF BROOKSIDE DRIVE ROAD

Babler Bros., Inc., Portland	$ 27,129.00
Oregon Asphaltic Paving Co., Portland	32,253.00
Parker & Fuhrman, Portland	34,173.50
J. Bacaloff Co., Portland	36,874.00

JACKSON COUNTY
GRADING AND OILING CHINA GULCH-COPPER ROAD SECTION
OF MEDFORD-PROVOLT HIGHWAY

F. L. Somers, Medford	$ 69,553.00
Keith Bros. Construction, Medford	78,206.50
Marlin Tryon, Fort Dick, California	82,694.00
T. W. Thomas, Portland	83,217.00
M. C. Lininger & Sons, Medford	86,867.00
Henry H. Miller Construction, Roseburg	87,066.00
Fred H. Slate Co., Ore. Ltd., & E. C. Hall Co., Portland	96,587.50
Miller & Strong, Inc., Eugene	99,259.00
J. Bacaloff Co., Portland	106,609.00

JOSEPHINE COUNTY
GRADING AND PAVING RIVER BANKS FARM SECTION
OF ROGUE RIVER LOOP HIGHWAY

F. L. Somers, Medford	$147,050.00
C. R. O'Neil, Medford	149,728.50
Fred H. Slate Co., Ore. Ltd., & E. C. Hall Co., Portland	157,935.50
J. Bacaloff Co., Portland	199,060.00

LANE COUNTY
GRADING, PAVEMENT WIDENING AND ILLUMINATION OF
LOOKOUT POINT LAKE PARK INTERCHANGE
ON WILLAMETTE HIGHWAY

Eugene Gardens, Eugene	$ 15,573.38

MALHEUR COUNTY
GRADING AND PAVEMENT WIDENING ON VERDE DRIVE-S. W. 11TH ST.
(ONTARIO) SECTION OF OLD OREGON TRAIL HIGHWAY

C. E. Leseberg, Nyssa	$ 14,261.00
Russell Olsen Constr. Co., Inc., Pendleton	14,261.00

August 17, 1956

MALHEUR COUNTY
OLDS FERRY-ONTARIO SECTION ILLUMINATION

Trowbridge Electric Co., Roseburg	$ 19,995.00
J. J. Walton, Salem	23,306.00
Ace Electric Co., Portland	29,850.00
W. R. Grasle Co., Portland	29,980.00

MARION COUNTY
12TH STREET BRIDGE WIDENING IN SALEM

United Builders, Inc., Beaverton	$ 26,599.75
George E. Berry, Beaverton*	30,075.00
P. S. Lord Mechanical Contractors, Portland	32,050.00

*Bidder will accept award of only one project.

MARION COUNTY
CLEAR LAKE BRIDGE ON CLEAR LAKE COUNTY ROAD

Johnston & Bryant, Newberg	$ 33,720.00
United Builders, Inc., Beaverton	33,999.50
P. S. Lord Mechanical Contractors, Portland	36,608.00
Gaylord Construction Co., Portland	38,007.50
Tom Lillebo, Reedsport	38,220.00
Hamilton & Thoms, Eugene	40,220.00
Glen Snook, Eugene	42,307.50
George E. Berry, Beaverton*	42,750.00
C. J. Eldon, Portland	47,176.00

*Bidder will accept award of only one project.

UMATILLA COUNTY
HATROCK STATE PARK FOREMAN'S COTTAGE

Sam L. Godwin, Hermiston	$ 14,380.00
K. L. Clark, Hermiston	14,960.00
Carl Anderson, Walla Walla, Wn.	17,028.65
Walt M. Young, Hermiston	20,474.00

UNION COUNTY
GRADING AND TOPPING LADD CANYON SLIDE SECTION OF OLD OREGON TRAIL HIGHWAY

Cartwright Construction Co., Durkee	$ 43,056.00
Arthur Simonsen & Co., Baker	45,015.00
Fred H. Slate Co., Ore. Ltd., Portland	55,783.00
Durbin Bros., Eugene	57,416.00

WASHINGTON COUNTY
TRAFFIC SIGNAL INSTALLATIONS AT INTERSECTIONS OF SCHOLLS FERRY ROAD AND OLESON ROAD WITH BEAVERTON-HILLSDALE HIGHWAY

Trowbridge Electric Co., Roseburg	$ 20,400.00
W. R. Grasle Co., Portland	21,143.00
Rochat Electric, Portland	21,250.00

CLACKAMAS COUNTY
GRADING AND PAVING 2ND ST. -5TH ST. (S. MILWAUKIE) SECTION OF 7TH AVENUE (COUNTY ROAD)

Inland Construction Co., Milwaukie	$ 18,382.20
Portland Road & Driveway Co., Portland	19,806.20
K. F. Jacobsen & Co., Inc., Portland	19,872.50

KLAMATH COUNTY
LOST RIVER BRIDGE AND K. I. D. "A" CANAL BRIDGE

Tom Lillebo, Reedsport	$ 65,047.50
Hamilton & Thoms, Eugene	73,200.00

A delegation representing the City of Willamina came before the Commission concerning construction of a new access road from the City of Willamina to the newly located section of the Salmon River Highway which by-passes Willamina. The following people were present: W. H. Dashney, McMinnville, Willamina City Attorney; H. A. Parrett, Willamina, President of the Kiwanis Club, and A. C. Louden, President of the Willamina Chamber of Commerce. Mr. Dashney was spokesman for the group. He said that the City is very much interested in securing a direct connection to the new highway rather than use the two existing legs of the old highway; also, that the Polk County Court has stated in writing its willingness to maintain the old highway (Route #18) within Polk County up to Valley Junction if the State will build the new access road which includes a new bridge over the Yamhill River, and the Yamhill County Court has agreed orally to accept maintenance of the old highway section between Sheridan and Willamina if the new access road is constructed. He estimated the cost to construct the access road and the bridge at $300,000, and he urged approval of the project as a safety and convenience measure. Commissioner McIver stated that in his opinion the project has real merit and will have to be constructed at some time. Chairman Chandler stated that the request will be given very careful consideration and that the Highway Commission will help if the Yamhill County Court will agree in writing to take over and assume maintenance of the old highway section within Yamhill County when the new highway is opened to traffic. Mr. Dashney agreed to contact the County Court relative thereto.

Commissioner Reynolds recalled that at the July meeting the Commission authorized the sending of a letter to the Washington Toll Bridge Authority requesting that the commission received for purchase of insurance for the Interstate Bridge be divided equally between the Insurance Agents Associations of Oregon and Washington. The Toll Bridge Authority, he said, has agreed to such division of this commission, which amounts to approximately $4,000.

The matter of controlling speed on the "R. H. Baldock Freeway" between Portland and Salem was brought up for discussion. The Engineer commented that excessive speeds have been observed on this highway and that the Superintendent of State Police is very much concerned and presently is thinking about apprehending drivers who exceed 70 miles per hour. The matter of posting the highway was brought into the discussion, and it was generally agreed that if signs are placed they should limit speed to 70 miles per hour. It was also agreed that if legislation is needed, it should be introduced by the State Police and that it will not be opposed by the Highway Commission.

Chairman Chandler inquired of the Auditor as to the availability of matching money to finance highway construction projects during the next two years. The Auditor stated that there will be approximately $7,000,000 on hand at the end of this year, $4,000,000 on hand at the end of 1957, and approximately $2,000,000 on hand at the end of 1958. He gave as his opinion that it will be necessary in order to meet the State's obligations in contract payments and right of way acquisitions to sell $5,000,000 of highway bonds. The Engineer advised that the Commission must have a year-end balance of at least $6,000,000. He stated his concurrence in the Auditor's statement that it may be necessary to secure $5,000,000 from the sale of bonds in order to meet the State's obligations, and he suggested that the Legislature be requested to authorize such sale even though the Commission may now have legal authority to do so. It was his feeling that the additional money would not be needed until the fall of 1957. The State, he said, will have sufficient match money but the trouble is to secure reimbursement from the Federal Government for monies advanced on Federal jobs. He added that extra money will be needed for 3 or 4 years, and that he will report facts later. Commissioner McIver expressed a desire for a schedule of funds needed during the next few years. From such information, he said, the Commission will be in a position to take action as may be necessary, including the securing of legislative authority to sell bonds if that is required. Commissioner Reynolds suggested that the matter should be referred to the Legislature notwithstanding that the Commission may now have authority to sell bonds for this purpose. The Engineer was instructed to render a report showing the amount of highway funds that will be needed during the next 2 or 3 years. The Chief Counsel was instructed to prepare a bill for presentation to the 1957 Legislature if necessary or desirable.

A delegation representing the Portland Zoo Commission and the Oregon Museum of Science and Industry came before the Commission regarding improvement of a section of the Sunset Highway (Canyon Road) adjacent to the Zoological Gardens. The following people were present, all from Portland: Harry Buckley, Superintendent of Parks, Zoo Commission; Edward M. Miller, Zoo Commission; Don Ostensoe, Chairman, Zoo Commission; Jack Marks, Director of the Zoo; Abbott Lawrence, Architect of the Zoo; Ernest Tucker, Architect of the Zoo; Max Sagner, Zoo Commissioner; Ron Moxness, Oregon Museum of Science and Industry; Dr. Walt O. Hanson, Zoo Commission; Dave Thompson and Dr. Frank B. Queen, Zoo Commission. Mr. Buckley was spokesman for the group. He presented a letter signed by Mr. Ostensoe containing statistics as to estimated attendance at the zoo and the museum, and urging construction of an overpass and the necessary connecting roads at an early date. The development of this cultural center, he said, will greatly increase the amount of traffic into and out of the center, as well as on the highway leading to it, and he urged construction of the overpass in advance of other contemplated improvements on Canyon Road. He estimated that the zoo would be opened to the public in August, 1957 and that the museum and the golf course most likely will be completed and opened to the public at that date or earlier. Models of the zoo gardens and the museum were exhibited, and the Commission was advised that the cost to construct the facilities is estimated at $4,000,000. Mr. Ostensoe urged early action for the sake of the safety of visitors to the new facilities. Chairman Chandler advised that the Commission on the previous day adopted a two-year program for the new Federal monies that are available and approved a certain amount to pay for right of way along the section concerned. He suggested the transfer of $400,000 of such amount to finance construction of the overcrossing project as requested. Commissioners Reynolds and McIver approved the suggestion, and it was so ordered. Mr. Ostensoe commented that the City of Portland owns some land at the location of the overpass which very likely will be made available to the Commission when it is needed.

The Clackamas County Court, represented by Hon. Wallace R. Telford, County Judge, Messrs. Stan Skoko and Darrell Jones, County Commissioners, came before the Commission regarding improvement of the Cascade Secondary Highway (82nd Avenue) between the towns of Clackamas and Gladstone. Judge Telford stated that the section between the Southern Pacific railroad overpass and Park Place is badly in need of improvement and that the bridge at Park Place is also a hazard. He called attention to the large volume of traffic that uses 82nd Avenue, and he urged the Commission to provide for early construction of the improvement. Mr. Skoko pointed out that the area north of the Clackamas River is rapidly becoming industrialized and that improvement of the highway is needed to take care of the resulting industrial traffic. According to figures, he stated, there is more truck traffic on 82nd Avenue north of the Clackamas River than there is on McLaughlin Boulevard, Route of 99E. Judge Telford thanked the Commission for other work done in Clackamas County, particularly the overpass at Clackamas. Chairman Chandler informed the Court that the Commission has provided funds in

the two-year program that was adopted on the previous day to pay for right of way for the 82nd Avenue project.

A delegation representing "Foster Boosters" and the S. E. Portland Chamber of Commerce came before the Commission regarding an extension of Foster Road to a connection with the Mt. Hood Highway. The following people were present: L. A. Mathisen; John J. Barratt; Harry Vawter; Joe Hogan; Art W. Ledgerwood; A. H. Buker; Meredith L. Fisher; George Tenny; and Clyde J. McDonald; all of Portland. Mr. Mathisen, who acted as spokesman, recalled that a survey for this extension was made about twenty-one years ago from a point west of Sandy to 141st Street, passing through or near the town of Boring. He alleged that when the survey was made the route was deemed a good one by the State Highway Engineer but was not constructed because funds were not available to finance the work. He also recalled that when Mr. T. H. Banfield was Chairman of the Highway Commission the suggestion was made by him that the County build the road after which the State would consider taking it over; however, that was not done. He expressed his feeling that a freeway type of highway should be placed on the highway program by-passing the city of Gresham. The Engineer commented that the section requested is about ten miles long and that no part of it is on the state highway system. Chairman Chandler mentioned that he is unfamiliar with the project, and he called attention to the Commission's policy of modernizing the present state highway system before new highways are added. He also said that the Commission will review the Engineer's report on the old survey and advised the group to contact either the State Highway Engineer or the Secretary for further information.

Following departure of the group, the Engineer pointed out that a new county road which is being constructed will take approximately sixty per cent of the traffic from Gresham. The proposed project, he stated, will cost approximately $3,000,000 or $4,000,000, and there are many others throughout the state that have higher priority.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

At 2:00 p.m. a delegation from the cities of Astoria, Seaside, and Warrenton came before the Commission concerning improvements to the Oregon Coast Highway between Seaside and Astoria. The following people were present: Charles DeFoe, Manager of Chamber of Commerce, Astoria; R. J. Bettendorf, Port of Astoria, Astoria; Malcolm H. MacEwan, Manager of Chamber of Commerce, Seaside; John Shepherd, President of the Chamber of Commerce; George Stuckrath, City Commissioner; E. R. Baldwin, City Manager; and C. E. Wade, Director of Chamber of Commerce; all of Warrenton. Mr. Charles DeFoe was spokesman. He inquired whether or not the Commission has reached a decision concerning this improvement. Chairman Chandler advised that the Commission has decided that the Smith Point Bridge across Youngs Bay should be considered as the No. 1 project, and

that it is planned to acquire necessary right of way and to perform the engineering in the next two years. Construction of the bridge, he said, is contemplated as a high priority project in 1959. Mr. MacEwan urged construction of the Seaside by-pass along Roosevelt Drive so as to relieve traffic congestion on the present route of the Oregon Coast Highway through Seaside.

A delegation from the City of Forest Grove appeared before the Commission to urge continuation of the improvement on the Tualatin Valley Highway between Cornelius and Forest Grove. The following people were present: J. R. Shick, City Attorney; Arnold Franks, Manager of Chamber of Commerce; Donald Skogseth, President of Chamber of Commerce; the following Chamber of Commerce members: Joseph R. McCready; Don Brandan; Richard Fendall; Chas. E. Cox; Douglas D. Olds; Thos. Feazle; Omar Wallace; Dr. D. L. Miller; Kenneth Bump; James Sehorn; H. E. Shelton; Mr. and Mrs. A. M. Austin; Mr. and Mrs. Myron Sheelar; Charles Davis; Hans Running, Photographer; John M. Richardson, Editor of "News Times"; Walter Richardson, Student; Walter Haney, Citizen; and Roy Ligon, F. G. Plumbing Company. Mr. Shick was spokesman for the group. He alleged that there is a greater traffic volume between Cornelius and Forest Grove than on the section of highway between Cornelius and Hillsboro which is now being improved. Traffic into Forest Grove, he stated, is increasing and the accident rate on the section immediately east of the town is high, and he advised that people have been told to defer development of their properties because the highway was going to be built soon. He inquired as to what plans the Commission has for this section. Chairman Chandler stated that presently the Commission has no plans for improvement of the section between Forest Grove and the newly improved section east of the city. The Engineer commented that although no provision has been made for this project in the recently approved two-year program, it is being considered in the long range program. He pointed out that completion of the highway between North Plains and Glenwood would reduce considerably the amount of traffic in Forest Grove. Mr. Shick stated that the weekend traffic is not particularly bothersome but the problem lies in the regular weekday traffic, and he inquired if the improvement could be included in the two-year program. Chairman Chandler replied in the negative. Mr. Shick then inquired about issuing building permits on property which will ultimately be needed for the highway improvement in Forest Grove. The Engineer stated that the State has not asked the City to withhold any building permits and that any statements that may have been made to that effect by the Location Engineer were not authorized, in fact, the Highway Department is not asking anyone to defer proposed developments. Mr. Shick then inquired as to why the improvement had stopped where it did -- east of Forest Grove. He was informed that available funds were not sufficient to finance a longer project. He was further informed that consideration is being given to improvement of this section during the three-year period next following the two-year program which has just been adopted, but whether or not it will be included therein cannot be stated at this time. There followed further discussion but the Commission made no definite commitment to the project.

A delegation representing the Hood River County Chamber of Commerce was present and requested the immediate improvement of the Mt. Hood Highway between Parkdale and the Wapinitia Highway Junction. Present were: Percy Bucklin, Chairman of Highway 35 Improvement Committee; Arvo Hukari, County Judge, Hood River County; Kenneth Abraham, District Attorney, Hood River County; Charles Howe, Mayor; W. C. Sundby, President, Chamber of Commerce; George Bartch, Manager of Port of Hood River and Chamber of Commerce; Roy Webster, Manager of Webster Orchards; all of Hood River. Also present were Baker Ferguson and Jack Stewart, Portland, who represented the Mt. Hood Committee of the Portland Chamber of Commerce. Mr. Bucklin, who acted as spokesman, introduced the other members of the delegation and presented a brief showing the need of the improvement as an aid to the lumbering, fruit and other industries of the district and as an attraction to tourists. He particularly urged that the highway be improved so that timber can be hauled from the Bennett Pass area to mills in and near Hood River. The present road, he stated, is so narrow and crooked that permits are granted for hauling logs only on solo vehicles which must be preceded by a pilot car. Half of the income of Hood River County, he added, is dependent upon the logging and lumbering industry, and the timber now being harvested closer to Hood River will soon be exhausted. He urged the improvement in order to maintain the present lumber production and to avoid a reduction in the community's payroll. He explained that unless timber in considerable quantity is made available from the Bennett Pass area, mills in the Hood River vicinity will be forced to shut down within two to four years. Judge Hukari recalled that the County in 1921 bonded itself to help finance the original Mt. Hood Highway and he pointed out that the sectio. which they want improved is in the same condition as it was when the highway was first constructed. He declared the problem an economic one. The scenic value of the road was also emphasized by Judge Hukari who stated that tourists are reluctant to travel the route because of its obsolete condition. Mr. Abraham emphasized the urgency of obtaining additional timber at an early date and inquired as to the availability of forest highway funds. Chairman Chandler stated that no current Forest Highway program has yet been adopted, and he suggested that the delegation present its problem to the Forest Service officials. Mr. F. E. Andrews of the Bureau of Public Roads, who was present, stated that there may be some confusion with reference to use of forest highway funds and forest access road funds. He explained that the access road funds are not used on state highways and are under control of the Forest Service, whereas Forest Highway funds are allocated to state highways within national forests by mutual consent among the State Highway Commission, the Forest Service, and the Bureau of Public Roads. He added that the Mt. Hood Highway is not eligible for access money and that a program for Forest Highway Funds has not yet been arranged. Mr. Abraham commented that he was informed that the Forest Service officials had indicated that they would give a high priority to improvement of this section. He then inquired if the Commission would consider improvement with Forest Highway funds. Chairman Chandler replied that the Commission had not had time to consider the matter nor to meet with

the Forest Service and Bureau of Public Road officials, but the request would most certainly receive consideration when the joint conference is held. Mr. Ferguson spoke for the improvement from the scenic and tourist standpoint. Mr. Steward stated that his committee has not had time, as yet, to study in detail the proposal of the Hood River Chamber of Commerce but it is their feeling that the Hood River group has an excellent point in the need for more logs. He requested a careful study of the problem. This concluded the conference.

Mr. James R. Daugherty, President of the South Douglas County Highway Association, was present and advised that he has been asked by the Association to appear before the Commission for the purpose of getting acquainted. Proposals are being formulated by the Association, he stated, for improvement of ORE 42 between Coquille and Roseburg and further improvement on the North Umpqua Highway. He mentioned Highway 42 as their most important and first priority project, and that they are not asking for any definite commitment now but will present something later on. The Commission took no action.

A delegation from Burns, consisting of J. L. McCullouch and Ellis Bennett, representing the Harney County Chamber of Commerce, and Walter Dickenson, City Councilman, appeared before the Commission. Mr. McCullouch, who acted as spokesman, asked that the work that is now under way on the Poison Creek Section of US 395, north of Burns, be expedited so the highway will be travelable this winter. He was informed that this is a Forest Highway Contract which is being carried on under the supervision of the U. S. Bureau of Public Roads to whom the matter will be referred. Mr. McCullouch also urged that high priority be given to needed construction on US 20, particularly between Juntura and Harper Valley and a section near Gap Ranch. Mr. Bennett declared that the City of Burns acts as a gateway to a large recreational area in Western Oregon and that many tourists inquire how to reach Crater Lake and other scenic attractions in that part of the state. He suggested that a sign be maintained at the junction of US 26 and US 20 in Vale calling attention to the fact that people can travel to Portland via US 20 which, he said, is the fastest road across the state. The existing sign, he advised, directs travel to Portland via US 26 only and he asked for an even break in tourist traffic. The Commission took no action on the request.

The Commission discussed with the Engineer bids received at the morning session. The Engineer observed that tie bids were submitted by C. E. Leseberg and Russell Olson Construction Company, Inc. for the Verde Drive-S. W. 11th Street (Ontario) Project in Ontario. A coin was flipped publicly to determine the successful bidder, and Mr. Leseberg won the toss. At 3:15 p. m. Commissioner McIver announced the awards of contracts, as follows:

"Construction of a reinforced concrete deck girder bridge on Avenue "U" over the Necanicum River in Clatsop County: The Commission referred to Clatsop County the seven bids received for this project inasmuch as it is a county job.

"Construction of a steel and timber pier fender at the Umpqua River Bridge at Reedsport in Douglas County: The Commission awards the contract to Tom Lillebo, who submitted the only bid at $13,650.

"Drainage improvement on the Sherman Street-Pine Street (Sutherlin) Section of the Elkton-Sutherlin Highway in Douglas County: The Commission awards the contract to the low bidder, Fred J. Stubbert, Springfield, at his bid price of $10,215.

"Grading and oiling 1.5 miles on the Indian Creek-Windmaster Corner Section of the Brookside Drive Road in Hood River County: The Commission elects to accept the bid of Babler Bros., Inc., Portland, who submitted the low bid in the sum of $27,129, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Hood River County is received and the sum of $6,125 is deposited by the County.

"Grading and oiling on the China Gulch-Copper Road Section of the Medford-Provolt Highway in Jackson County: The Commission awards the contract to the low bidder, F. L. Somers, Medford, at his bid price of $69,553.

"Grading and paving 2.05 miles on the River Banks Farm Section of the Rogue River Loop Highway in Josephine County: The Commission elects to accept the bid of F. L. Somers, Medford, the low bidder, in the sum of $147,050, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading, pavement widening and illumination of the Lookout Point Lake Park Interchange on the Willamette Highway in Lane County: The Commission awards the contract to Eugene Gardens, Eugene, who submitted the only bid for this project in the sum of $15,573.38.

"Grading and pavement widening on the Verde Drive-S. W. 11th Street (Ontario) Section of the Old Oregon Trail in Malheur County: C. E. Leseberg, Nyssa, and Russell Olsen Construction Co., Inc., Pendleton, submitted identical bids of $14,261 for this job. The contract was awarded to C. E. Leseberg on the flip of a coin.

"Olds Ferry-Ontario Section illumination project at three interchanges on the Old Oregon Trail Highway in Malheur County: The Commission awards the contract to the low bidder, Trowbridge Electric Co., Roseburg, at their bid price of $19,995.

"Widen 12th Street Bridge over Shelton Ditch in the City of Salem, Marion County: The Commission awards the contract to the low bidder, United Builders, Inc., Beaverton, at their bid price of $26,599.75.

"Construction of the Clear Lake Bridge on Clear Lake County Road in Marion County: The Commission elects to accept the bid of Johnston & Bryant, Newberg, who submitted the low bid in the sum of $33,720, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $18,968 is deposited by the County.

"Construct frame dwelling foreman's cottage, with attached garage, at Hatrock State Park in Umatilla County: The Commission awards the contract to the low bidder, Sam L. Godwin, Hermiston, at his bid price of $14,380.

"Grading and topping the Ladd Canyon Slide Section of the Old Oregon Trail Highway in Union County: The Commission awards the contract to the low bidder, Cartwright Construction Co., Durkee, at their bid price of $43,056.

"Traffic signal installation at the intersections of Scholls Ferry Road and Oleson Road with the Beaverton-Hillsdale Highway in Washington County: The Commission awards the contract to the low bidder, Trowbridge Electric Co., Roseburg, at their bid price of $20,400.

"Grading and paving on the 2nd St. -5th St. (South Milwaukie) Section of 7th Avenue., a county road, in Clackamas County: The Commission awards the contract to the low bidder, Inland Construction Co., Milwaukie, at their bid price of $18,382.20.

"Construction of Lost River Bridge on the Charles Drew County Road, and K.I.D. "A" Canal Bridge on the Homedale Road, in Klamath County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, who submitted the low bid in the sum of $65,047.50, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Klamath County is received and the sum of $14,630 is deposited by the County.

Mr. George Zimmerman, representing the Chamber of Commerce of the City of Yamhill, Mr. O. H. Schrepel, a farmer from Gaston, and Mr. Stovall, also a member of the Yamhill Chamber of Commerce, came before the Commission concerning completion of the improvement of the Yamhill-Newberg Secondary Highway. He mentioned that part of the highway was reconstructed last year, and now they want it rebuilt throughout. The Engineer advised that the survey has been completed but no funds have been allocated to finance construction. Chairman Chandler commented that the Commission presently has no idea when money will be available for additional work on this road.

A request from the U.S. Forest Service that the State take over as a wayside area an existing U.S. Forest camp near Austin on the John Day Highway in Baker County was presented by Commissioner Reynolds. The Commission instructed the Parks Superintendent to

investigate the request and report the findings at the next meeting.

The Assistant Counsel requested authority to condemn eight additional parcels of land that are needed for highway improvements, as follows, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution dated December 20, 1951:

Myrtle Creek-Canyonville Section of the Pacific Highway

R-22482- Kenneth Bruce Amesbury and Dorothea Amesbury, Husband and Wife
(Douglas County)
Parcel No. 1: 1.16 acres Right of Way
Parcel No. 2: 0.36 acre Excess Taking
Parcel No. 3: 0.11 acre Excess Taking

R-22483- Alton E. Alspaugh and Dorothy M. Alspaugh, Husband & Wife
(Douglas County)
Parcel No. 1: 1.16 acres Right of Way
Parcel No. 2: 0.36 acre Excess Taking
Parcel No. 3: 0.49 acre Excess Taking

R-21012- and R-22926- Roy W. Alspaugh and Ethel Alspaugh, Husband and Wife
(Douglas County)
Parcel No. 1: 3.41 acres Right of Way
Parcel No. 2: 0.07 acre Right of Way
Parcel No. 3: 2.38 acres Excess Taking

R-21013- Adeline Weaver
Right of Way (Douglas County)
Parcel No. 1: 6.66 acres
Parcel No. 2: 1.58 acres

R-21014- Orville H. Weaver and Laura Weaver
Right of Way (Douglas County)
Parcel No. 1: 5.43 acres
Parcel No. 2: 0.84 acre

R-21015- Eleanor Jones
(Douglas County)
Parcel No. 1: 3.29 acres Right of Way
Parcel No. 2: 0.17 acre Right of Way
Parcel No. 3: 1.04 acres Excess Taking

R-21016- Bess W. Briggs and Ermel Briggs, Wife and Husband
(Douglas County)
Parcel No. 1: 2.25 acres Right of Way
Parcel No. 2: 0.95 acre Excess Taking

Euchre Creek-Wedderburn Section of the Oregon Coast Highway

L-2326- L. E. Goudy, et ux.
New resolution permitting owner an easement for septic tank and outfall pipe

Right of way maps, construction plans and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Assistant Counsel's request by adopting the attached resolutions relative thereto marked EXHIBITS "C-17" and "C-18", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Assistant Counsel stated that Mr. E. L. Kennard, contractor for construction of the west approaches to the Salem Bridges, Contract No. 3756, has filed suit against the State to collect damages in the amount of $22,238 which he alleges he incurred by reason of the change in plans for the project whereby the yardage of material moved was reduced from 90,000 cubic yards (estimated) to 62,000 cubic yards (actual), his proposal having been figured on the estimated 90,000 cubic yards. The Assistant Counsel advised that it is quite possible that Mr. Kennard will be able to collect at least a portion of his claim if he takes it to court, but he has offered to settle out of court if paid the sum of $13,158.18, which amount includes interest. He recommended approval of such settlement. The Engineer recalled that the contract originally was awarded to Mr. Kennard who defaulted, and the work was completed under another contract by F. O. Laws. He further stated that the change in plans referred to by Mr. Kennard is correct and resulted in a reduction of about 30,000 cubic yards of material to be moved. He gave as his feeling that the settlement as proposed is reasonable. The Commission unanimously approved the settlement.

Mr. F. E. Andrews, Division Engineer, U.S. Bureau of Public Roads, was present regarding programming of Forest Highway funds. He said that the new apportionment has been made and that the Bureau of Public Roads and Forest Service would like to meet with the Commission soon to discuss the new program. Chairman Chandler suggested an advance meeting among Engineers of the Bureau of Public Roads, the U.S. Forest Service, and the State Highway Department to arrange a tentative program for the funds available, the results thereof to be reported to the Commission at its September meeting when final action can be taken. The suggestion was adopted by all.

The Secretary presented a resolution from the County Court of Morrow County wherein the Court expresses appreciation for the service rendered by Mr. R. H. Baldock to the State of Oregon during the many years that he was connected with the State Highway Department. He explained that the Court expressed a wish that this resolution be recorded in the Commission's minutes. The Commission so ordered.

The Commission signed the following agreements and other papers:

"Indentures of Access" on the following properties:

a. Engle property on Clackamas Overcrossing Section of Clackamas Highway, Clackamas County.

b. Maiken property on Manning-Sunset Camp Section of Sunset Highway, Washington County.

c. Jacobsen property on Coquille-Rink Creek Section of Coos Bay-Roseburg Highway, Coos County.

d. McKean property on Moro-Grass Valley Section of Sherman Highway, Sherman County.

e. Haslebacher property on Dolph Corner-Rickreall Section of Willamina-Salem Highway, Polk County.

f. Bogert property on Coquille-Rink Creek Section of Coos Bay-Roseburg Highway, Coos County.

"Grant of Access" to the Morris property on Noble Slough-Foster Section of Santiam Highway, Linn County.

"Transmission Line Easement" to Bonneville Power Administration across excess property acquired in connection with the R. H. Baldock Freeway.

"Release of Haul Road" covering haul road acquired to serve a gravel pit which has been exhausted on the Klamath Indian Reservation situate on Mazama Junction-Lobert Section of The Dalles-California Highway, Klamath County.

"Agreement" with Crook County for joint use of a cinder pit.

"Petition to Vacate" covering vacation of certain alleys in Lake County.

"License" for renewal of a lease from the Corps of Engineers, U. S. Army, covering a storage site on certain government-owned land situate on US 30, a short distance east of Seufert.

"Finance and Maintenance Agreement" with Marion County covering the Clear Lake Bridge Section, ER-43(1), FAS 592. (Authorized 7-12-56)

"Agreement" with Clackamas County covering the 2nd Street-5th Street (S. Milwaukie) Section of 7th Avenue in Clackamas County. (Bids to be received on August 17, 1956)

"Bargain and Sale Deed" to City of Eugene for four parcels of land lying in Section 36, Township 17 South, Range 4 West, W.M., Lane County. (Authorized 1-18-55)

"Bargain and Sale Deed" to Lloyd Selby for a parcel of land on the Bear Creek-Talent Section of the Pacific Highway in Jackson County. (Authorized 12-19-55)

"Bargain and Sale Deed" to R. E. Gard for property on the Tigard-Newberg Section of the Pacific Highway in Washington County. (Authorized 1-26-56.)

"Relinquishment of Title" to City of Eugene for a parcel of land in the Prior F. Blair D.L.C. No. 39, Lane County. (Authorized 9-22-55)

"Finance and Maintenance Agreement" with Josephine County covering the Slate Creek (Wilderville) Bridge Section, S-324(1), FAS 266. (Authorized 6-4-56)

"Agreement" and "Bargain and Sale Deed" covering abandonment and transfer of the right of way in connection with the Blodgett Overcrossing Section of the Corvallis-Newport Highway, Benton County. (Agreement signed August 16, 1956)

"Bargain and Sale Deed" to Frank H. Lux and Donna Lux, husband and wife, for parcel of land lying in the Wm. Chapman D.L.C. No. 41, Township 5 South, Range 6 West, W.M., Yamhill County.

"Indenture of Access" on Moore property on the relocated Sherman Highway in Sherman County.

"Lease Agreement" with Cascade Natural Gas Corporation covering installation on Old Oregon Trail-Cold Springs Junction Section of US 30, Umatilla County.

"Agreement" with Douglas County covering future use and maintenance of the Ferry Slip and Float on the Umpqua Highway in vicinity of Koepke Slough. (Authorized 4-26-56)

"Finance Agreement" with Hood River County covering the Indian Creek-Windmaster Corner Section, S-315(1), FAS 663. (Authorized 12-19-55)

"Finance and Maintenance Agreement" with Klamath County covering Lost River (Wilson Dam) Bridge S-316(1), FAS 685, and K.I.D. "A" Canal (Homedale Road) Bridge Section, S-317(1), FAS 686. (Authorized 12-19-55)

"Finance Agreement" with Jackson County covering North Approach, Bybee Bridge Section, ER-32(1), FAS 273. (Authorized 7-12-56)

"Finance and Maintenance Agreement" with Union County covering Iowa School-LaGrande Section, S-326(1), FAS 478. (Authorized 10-28-54)

"Bargain and Sale Deed" to Guy E. Abraham for a parcel of land on the Siletz-Toledo Section of the Siletz Highway in Lincoln County. (Authorized 8-11-55)

"Quitclaim Deed" to Deschutes County covering a parcel of land on the Bend Section of The Dalles-California Highway in Deschutes County. (Authorized 7-12-56)

"Supplemental Agreement" with Crook County re the abandonment of certain units of the Ochoco Highway in Crook County.

"Quitclaim Deed" to City of Eugene for a strip of land 60 feet wide extending from the West line of the Prior F. Blair D. L. C. No. 39 to 7th Avenue connection of Pacific Highway.

"Commercial Power Contract" with Central Lincoln Peoples' Utility District for furnishing electric power at Fogarty Creek State Park in Lincoln County.

"Extension Rider" with Union Pacific Railroad Company, extending existing leases on two material storage sites near Speece on the John Day Highway, about 12 miles north of Condon.

"Application for Public Highway" with Department of Interior re widening (to a four lane highway) of the Emigrant Hill-Deadman's Pass Section of the Old Oregon Trail Highway, US Route 30.

"Consent to Vacation" of a portion of Lumber Street in the City of Coaledo in Coos County.

There being no further business to consider at this time, the meeting was declared adjourned by Chairman Chandler at 3:45 p. m.

State Highway Engineer

EXHIBITS "A" THROUGH "L"

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

August 16 and 17, 1956

EXHIBIT "A"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public. it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be. and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PORTLAND-SALEM EXPRESSWAY

24835 Parker, Virgil and Jeanette V. (Black)

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Divide-Rice Hill Section of the Pacific Highway described as follows:

> A parcel of land lying in Section 31, Township 22 South, Range 4 West, W.M., Douglas County, Oregon, and being a portion of that tract of land described in that certain deed to State of Oregon by and through its State Highway Commission, recorded in Book 220, Page 89 of Douglas County Records of Deeds; the said parcel being that portion of said property lying Easterly of that certain 15 acre tract conveyed to School District #30 by the State of Oregon by and through its State Highway Commission by a deed dated September 25, 1953.
>
> The parcel of land to which this description applies contains 9.3 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,325.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 13 be entered in the minutes and records of the Commission as of the 16th day of August, 1956.

EXHIBIT "C-1"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real

EXHIBIT "C-1" (Cont)

properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked "Exhibit "A".*

3. That the widening, improvement, construction and maintenance of the said Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquite the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "C-1" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 647.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 647, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-2"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

EXHIBIT "C-2" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the said Pacific Highway as a throughway, certain interest in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 648.

EXHIBIT "C-2" (Cont)

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 648, under the heading "Real Property Condemnation Resolutions " and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

26992

EXHIBIT "C-3"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and

WHEREAS the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known and the Throughway Law; and

WHEREAS the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part

EXHIBIT "C-3" (Cont)

of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and the contiguous real property of the owners remaining after the appropriation of the said real property, except that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted as to the parcel on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 649.

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 649, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-4"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the River Banks Farm Section of the Rogue River Loop Highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way for any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the River Banks Farm Section of the Rogue River Loop Highway will be relocated, constructed or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles

EXHIBIT "C-4" (Cont)

promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the River Banks Farm Section of the Rogue River Loop Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said relocated River Banks Section of the Rogue River Loop Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3. That the relocation, construction, improvement and maintenance of the said River Banks Farm Section of the Rogue River Loop Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property, or interest therein.

EXHIBIT "C-4" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 650.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 650, under the heading "Real Property Condemnation Resolutions," and said descriptions, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

26998

EXHIBIT "C-5"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled southerly from Highway Engineer's centerline Station 163+50;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Pendleton-Pilot Rock Section of the Pendleton-John Day Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list,

EXHIBIT "C-5" (Cont)

marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature on the Pendleton-John Day Highway south of Highway Engineer's centerline Station 163+50 thereon, between the right of way of the widened and improved or relocated Pendleton-John Day Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Pendleton-Pilot Rock Section of the Pendleton-John Day Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 651.

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 651, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27000

EXHIBIT "C-6"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS the State Highway Commission on the 26th day of January, 1956, by resolution declared the necessity for the acquisition of certain real property owned by John Kunzi, et ux., File No. 23503, situated in Section 28, Township 1 South, Range 9 West, Willamette Meridian, Tillamook County, Oregon, for right of way purposes for the relocation, construction, improvement, and maintenance of the Tillamook-Donaldson Creek Section Section of the Wilson River Highway and including its use for connections between said relocated Wilson River Highway and two intersecting county roads; and

WHEREAS the said resolution provided a right of crossing through a reinforced concrete box-type underpass to be constructed by the State Highway Commission on the real property described therein; and

WHEREAS the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the location of the underpass;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the paragraph on page 8 of Exhibit A of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 26th day of January, 1956, pertaining to the property owned by John Kunzi, et ux., File No. 23503, be and the same hereby is amended to read as follows:

> A right to cross through a reinforced concrete box-type underpass to be constructed by the State Highway Commission, at its sole cost, on the real property hereinabove described, and under the highway to be constructed thereon at Highway Engineer's centerline Station 119+70. The said underpass will have a maximum horizontal clearance of 10 feet, 21 inches below the ceiling and 21 inches above the floor and will have a minimum horizontal clearance of 9 feet at the floor and ceiling and will have a maximum vertical clearance of 8 feet measured 6 inches inside the walls. Said right of crossing shall continue only so long as the portions of the property severed by the said highway and served by the said underpass are held under a common ownership.

2. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 577-a.

August 16, 1956

EXHIBIT "C-7"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS the State Highway Commission on the 26th day of April, 1956, by resolution declared the necessity for the acquisition of certain real property owned by Lester Donaldson, et al., File No. 23508, situated in Section 22, Township 1 South, Range 9 West, Willamette Meridian, Tillamook County, Oregon, for right of way purposes for the relocation, construction, improvement, and maintenance of the Tillamook-Donaldson Creek Section of the Wilson River Highway; and

WHEREAS the said resolution provided a right of crossing through a reinforced concrete box-type underpass to be constructed by the State Highway Commission on the real property described therein; and

WHEREAS the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the location of the underpass;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the last paragraph on page 1 of Exhibit A of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 26th day of April, 1956, pertaining to the property owned by Lester Donaldson, et al., File No. R-23508, be and the same hereby is amended to read as follows:

> A right to cross through a reinforced concrete box-type underpass to be constructed by the State Highway Commission, at its sole cost, on the real property hereinabove described, and under the highway to be constructed thereon at Highway Engineer's centerline Station 165+50. The said underpass will have a maximum horizontal clearance of 10 feet, 21 inches below the ceiling and 21 inches above the floor and will have a minimum horizontal clearance of 9 feet at the floor and ceiling, and will have a maximum vertical clearance of 8 feet measured 6 inches inside the walls. Said right of crossing will continue only so long as the portions of the property severed by the said highway and served by the said underpass are held under a common ownership.

2. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 611-a.

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as througnways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve, and maintain the Salem By-Pass-Jefferson Junction Section of the Pacific Highway East; and

WHEREAS the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "C-8" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS for the purpose of widening, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, the public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the widening, improvement, and maintenance of the said Salem By-Pass-Jefferson Junction Section of the Pacific Highway East as a throughway, certain interests in or fee simple title to certain parcels of real property The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening, improvement, and maintenance of the said Salem By-Pass-Jefferson Junction Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to

final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 652.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 652, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-9"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Wilderville-Grants Pass Section of the Redwood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

EXHIBIT "C-9" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Wilderville-Grants Pass Section of the Redwood Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Redwood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Wilderville-Grants Pass Section of the Redwood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No 653.

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 653, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27008

EXHIBIT "C-10"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the River Banks Farm Section of the Rogue River Loop Highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way for any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the River Banks Farm Section of the Rogue River Loop Highway will be relocated, constructed or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles

promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the River Banks Farm Section of the Rogue River Loop Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said relocated River Banks Section of the Rogue River Loop Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3. That the relocation, construction, improvement and maintenance of the said River Banks Farm Section of the Rogue River Loop Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property, or interest therein.

EXHIBIT "C-10" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 654.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 654, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-11"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain Unit No. 2 of the T. H. Banfield Expressway, as a throughway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

EXHIBIT "C-11" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of Unit No. 2 of the T. H. Banfield Expressway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the establishment, construction and maintenance of the said Unit No. 2 of the T. H. Banfield Expressway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 655.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 655, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-12"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads; frontage roads; highway drainage; drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve, and maintain the Cascade Locks-Viento Section of the Columbia River Highway; and

WHEREAS the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

EXHIBIT "C-12" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the betterment, construction, improvement, and maintenance of highways of the state highway system and the widening, construction, improvement, and maintenance of the said Cascade Locks-Viento Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to a parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached Exhibit A, under the name of the record owner or reputed owner and the Commission's file number, and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That widening, construction, improvement, and maintenance of the said Cascade Locks-Viento Section of the Columbia River Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 656.

---

are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 656, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27016

EXHIBIT "C-13"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road, or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Pacific Highway; and

WHEREAS the Highway Commission has by a resolution ordered and declared that said highway shall be relocated, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real

EXHIBIT "C-13" (Cont)

property hereinafter described is necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the relocation, construction, improvement, and maintenance of the said Pacific Highway as a throughway, certain interests in or fee simple title to a parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in Exhibit A attached, under the name of the record owner or reputed owner and the Commission's file number, and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property; except that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted as to the parcel on the attached list marked Exhibit A.*

3. That the relocation, construction, improvement, and maintenance of the said Pacific Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "C-13" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 657.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 657, under the heading "Real Property Condemnation Resolution," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-14"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its

EXHIBIT "C-14" (Cont)

discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Three Mile Lane Secondary Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property, except that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted as to the parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. The the Legal and Right of Way Department is directed to attempt to agree with the owners and other perons in interest of said

EXHIBIT "C-14" (Cont)

parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 658.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 658, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein

EXHIBIT "C-15"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road, or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve, and maintain the Horseshoe Bend-Peach Section of the Central Oregon Highway; and

WHEREAS the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated in part, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part

EXHIBIT "C-15" (Cont)

of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described as necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the widening in part, relocation in part, construction, improvement, and maintenance of the said Horseshoe Bend-Peach Section of the Central Oregon Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Central Oregon Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit A.*

3. That the widening in part, relocation in part, construction, improvement, and maintenance of the said Horseshoe Bend-Peach Section of the Central Oregon Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said

parcels of real property as to the compensation to be paid for the taking and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August, 1956, as Condemnation Resolution No. 659.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 659, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-16"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the McMinnville (Adams Street) Section of the Pacific Highway West; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said McMinnville (Adams Street) Section of the Pacific Highway West, fee simple title to certain parcels of real property. The said parcels of real property needed and required, or which in the best interest of the State and the owners should be acquired, and the specific use to be made thereof, are more particularly described in the attached list, marked Exhibit "A", under the Commission's respective file number and the name of the record owner or reputed owner; and said Exhibit "A" is by this reference adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "C-16" (Cont)

2. That the relocation, construction, improvement and maintenance of the said McMinnville (Adams Street) Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons having an interest in said parcels of real property as to the compensation to be paid for the taking; and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, the Chief Counsel or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 16th day of August 1956, as Condemnation Resolution No. 660.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 660, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C-17"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any State highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of anythroughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway, and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of anythroughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to

EXHIBIT "C-17" (Cont)

final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of August, 1956, as Condemnation Resolution No. 661.

---

*FOOTNOTE:

27030

EXHIBIT "C-18"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS the State Highway Commission, on the 9th day of August, 1954, by resolution declared the necessity for the acquisition of certain real property owned by L. E. Goudy and Etta Goudy, husband and wife, File No. R-21508, situated in Lot 4, Section 30, Township 36 South, Range 14 West, Willamette Meridian, Curry County, Oregon, said parcel being further described in Exhibit A, page 5 of the said resolution, for right of way purposes for the relocation, construction, improvement, and maintenance of the Euchre Creek-Wedderburn Section of the Oregon Coast Highway; and

WHEREAS the said State Highway Commission, after further investigation, has found that the owners of the said property sought to be acquired had, prior to the said resolution of August 9, 1954, installed a septic tank and outfall pipe approximately 105 feet north of relocated Highway Engineer's centerline Station 1388+40 and said Commission has found further that it will be to the best interests of the State and the owners to permit the said owners, their heirs and assigns, to continue to use and maintain the said existing septic tank and outfall pipe in its present location even though the same may be located within a portion of the right of way of the said relocated Oregon Coast Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION as follows:

1. That Exhibit A, page 5, of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 9th day of August, 1954, pertaining to the property owned by L. E. Goudy and Etta Goudy, husband and wife, File No. R-21508, be and the same hereby is amended to include the following paragraph:

> That there is reserved to the owners, their heirs and assigns, the right to use and maintain, in its present location, an existing septic tank and outfall pipe located approximately 105 feet north of relocated Highway Engineer's centerline Station 1388+40 that may be located within the present right of way of the relocated Oregon Coast Highway.
>
> That the owners, their heirs and assigns, shall have a right of entry to the said relocated Oregon Coast Highway right of way for the sole purpose of using and maintaining the said septic tank and outfall pipe and for that purpose only.

2. That this resolution be entered in full in the minutes and records of the Commission this 17th day of August, 1956.

EXHIBIT "D"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4428 with Miller & Strong, Inc. for constructing the Ashland Undercrossing on the Pacific Highway in Jackson County, completed June 30, 1956.

"Contract No. 4469 with C. J. Eldon for constructing the Deschutes River Bridge on the McKenzie Highway in Deschutes County, completed June 30, 1956.

"Contract No. 4488 with C. J. Eldon for grading and surfacing on the Bruce Jct.-Martins Lake Section of the Martins Lake Road in Benton County, completed June 4, 1956.

"Contract No. 4495 with Rogers Construction, Inc. for grading and paving on the Walker Mountain Road-Lenz Road Unit, Lapine-Lenz Road Section of The Dalles-California Highway in Klamath County, completed July 19, 1956.

"Contract No. 4505 with Hannan Brothers Company for constructing overcrossing and undercrossing structures on the Olds Ferry-Ontario Section of the Old Oregon Trail Highway in Malheur County, completed July 26, 1956.

"Contract No. 4510 with R. H. Jones for constructing a sand shed at Chemult in Klamath County, completed June 15, 1956.

"Contract No. 4517 with O & K Construction Co. for grading on the Hay Creek Canyon Section of the Mikkalo County Road in Gilliam County, completed June 27, 1956.

"Contract No. 4549 with Trowbridge Electric Co. for illunination installation on the Anlauf-Shady Unit of the Pacific Highway in Douglas County, completed August 2, 1956.

"Contract No. 4570 with Babler Bros., Inc., for oiling on the Emerson Loop County Road Section in Wasco County, completed July 17, 1956.

"Contract No. 4574 with Steeck Electric Co. for installing the Medford traffic signals on the Pacific Highway in Jackson County, completed May 15, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4579 with Marshall Construction Co. for reconstructing two timber bridges at Suntex Junction on the Central Oregon Highway in Harney County, completed May 31, 1956.

"Contract No. 4594 with Keith Bros. Construction for grading and surfacing on the Brookings-Morse Ranch Section of the Chetco River Road in Curry County, completed July 30, 1956.

"Contract No. 4599 with Warren Northwest, Inc., for paving on the East Parkrose Section of the Columbia River Highway in Multnomah County, completed July 6, 1956.

"Contract No. 4602 with Shrubbery Plantings for roadside improvement on the Hess Creek (Newberg) Section of the Pacific West Highway in Yamhill County, completed June 26, 1956.

"Contract No. 4605 with Keith Bros. Construction for grading and oiling on the Casey Park Section of the Crater Lake Highway in Jackson County, completed July 24, 1956.

"Contract No. 4610 with Russell Olson Construction Co., Inc., for shoulder oiling on the Ontario-Nyssa Section of the Old Oregon Trail Highway in Malheur County, completed July 7, 1956.

"Contract No. 4613 with The United Contracting Co. for pavement widening on the Shogren Overcrossing-Chatfield Section of the Columbia River Highway in Wasco County, completed July 30, 1956.

"Contract No. 4625 with Warren Northwest, Inc., for paving on the Glendale (Pacific Avenue) City Street Section in Douglas County, completed July 14, 1956.

"Contract No. 4629 with Quinn Bros. & Robbins, Inc., for furnishing crushed materials in stockpiles on the Adrian Section, on four highways, in Malheur County, completed July 6, 1956.

"Contract No. 4631 with W. R. Grasle Co. for installing traffic signals on East Powell Boulevard of the Mt. Hood Highway in Multnomah County, completed July 10, 1956.

"Contract No. 4660 with C. H. Savage Co. for painting the Oregon City and Columbia Slough Bridges on the Oswego and Pacific West Highways in Clackamas and Multnomah Counties, completed July 27, 1956.

"Contract No. 4661 with J. C. Compton Co. for oiling on the Divisions 1 and 2 Oiling Project in Clackamas and Yamhill Counties, completed July 27, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4669 with Tri State Painting Co. for painting Santiam River Bridge on the Pacific Highway in Marion and Linn Counties, completed August 10, 1956.

"Contract No. 4674 with George E. Berry for constructing Glover Sand Shed in Union County, completed August 4, 1956.

"Contract No. 4678 with G. M. Snider for illumination installation on the Second Street connection in Hood River on the Columbia River Highway in Hood River County, completed July 26, 1956.

"Contract No. 4679 with J. C. Compton Co. for oiling on the Division No. 4 Oiling Project in Lake and five other counties, completed July 10, 1956.

"Contract No. 4686 with Vernie Jarl for furnishing crushed materials in stockpiles on the Grass Valley-Kent Section of the Sherman Highway in Sherman County, completed June 19, 1956.

"Contract No. 4706 with Russell Olson Construction Co., Inc., for re-oiling on the Ironside-Lancaster Section of the John Day Highway in Malheur County, completed July 16, 1956.

"Contract No. 4732 with Vern Hoaglin for constructing guard rail on the Tiernan-Mapleton Section of the Siuslaw Highway in Lane County, completed July 21, 1956.

"Contract No. 4734 with Perkins Bros. for median drainage on the Fairview-Sundial Section of the T. H. Banfield Expressway, completed August 3, 1956."

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 54 shall be entered in the minutes and records of the Commission as of the 16th day of August, 1956.

27034

EXHIBIT "E"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

FROM REVENUES ACCRUING DURING SECOND SIX-MONTH PERIOD OF 1955

Dayville	$1,070.26
Dufur	1,579.19
Mosier	969.22

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adoped and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 16th day of August, 1956.

EXHIBIT "F"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, the relocated Blodgett Overcrossing Section of the Corvallis-Newport Primary Highway No. 33 located in Benton County, the easterly terminus of which is at Highway Engineer's Survey Station 828+00 and the westerly terminus of which is at Highway Engineer's Survey Station 853+00 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, portions of the former and of the new right of way are no longer needed for right of way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Benton County and the State Highway Commission entered into an agreement on the 16th day of August, 1956, relating to the disposition to be made of the portions that may be eliminated, therein and hereinafter referred to as Units "A", "B", and "C"; and

WHEREAS, said agreement provided that Units "A" and "C" would be abandoned by the State as part of the Corvallis-Newport Highway by formal resolution and would revert to the abutting property owners; that Unit "B" having been acquired by the State for the purpose of relocating a county road shall be transferred by deed to the County for county road purposes; and

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right of way of the Blodgett Overcrossing Section of the Corvallis-Newport Highway, together with other real property acquired by the State for roadway right of way and other public purposes, is needed and valuable for right of way purposes and public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the former and of the new right of way of the said Corvallis-Newport Highway referred to herein as Units "A", "B", and "C", as well as all the property affected by reason of said realignment.

NOW, THEREFORE, based upon the power and authority vested in the Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED THAT:

1. The portions of the former and of the new right of way which by reason of the relocation of the Blodgett Overcrossing Section of the Corvallis-Newport Highway are no longer needed as part of the new

EXHIBIT "F" (Cont)

right of way are identified as Units "A", "B", and "C", and described as follows:

UNIT "A"

All the land situated within the right of way boundaries of the Corvallis-Newport Highway as formerly routed beginning at the southerly right of way line of the Southern Pacific Railroad Company in the southeast quarter of the southeast quarter ($SE\frac{1}{4}$ $SE\frac{1}{4}$), Section 22, Township 11 South, Range 7 West, W. M., thence southwesterly via said former highway to the northeasterly right of way line of a parcel of land acquired by the State for the relocation of a county road in the southeast quarter of the southeast quarter ($SE\frac{1}{4}$ $SE\frac{1}{4}$) of Section 22, Township 11 South, Range 7 West, W. M.

UNIT "B"

A parcel of land lying in the southeast quarter ($SE\frac{1}{4}$) of Section 22, Township 11 South, Range 7 West, W. M., Benton County, Oregon, and being a portion of the following described property: that tract of land which was conveyed by that certain deed to Edith Davis and Rollie F. Davis, recorded in Book 83, page 558, of Benton County Record of Deeds, the said parcel being described as follows:

Beginning at a point that is opposite and 50 feet distant southeasterly from Engineer's Station 837+06.3 of the Corvallis-Newport Highway; said point also being 908 feet north and 1324 feet east of the quarter corner on the south line of said Section 22; thence south 41° 51' east a distance of 117.2 feet; thence north 48°09' east a distance of 10 feet; thence south 41°51' east a distance of 99.4 feet to the existing southwesterly right of way line of the county road; thence north 56°30'45" east a distance of 30.3 feet to the northeasterly right of way line of said county road; thence north 41°51' west a distance of 103.9 feet; thence north 48°09' east a distance of 10 feet; thence north 41°51' west a distance 112.4 feet; thence south 53°36' west a distance of 50.2 feet to the place of beginning.

The parcel of land to which this description applies contains 0.20 acre.

UNIT "C"

All the land situated within the right of way boundaries of the Corvallis-Newport Highway as formerly routed beginning at the southwesterly right of way line of a parcel of land acquired by the State for the relocation of a county road in the southeast quarter of the southeast quarter ($SE\frac{1}{4}$ $SE\frac{1}{4}$), Section 22, Township 11 South, Range 7 West, W. M.; thence westerly via said former highway to the southeasterly right of way line opposite Highway Engineer's Survey Station 840+50 of the relocated highway in the

EXHIBIT "F" (Cont)

southwest quarter of the southeast quarter (SW¼ SE¼), Section 22, Township 11 South, Range 7 West, W. M.

2. Pursuant to the agreement entered into with Benton County on the 16th day of August, 1956, Units "A" and "C" indicated on the map attached hereto marked Exhibit "A", and by this reference made a part hereof, are hereby duly abandoned as part of the Corvallis-Newport Highway and the state highway system; all right, title, and interest which the State has in the right of way of Units "A" and "C" herein described, pass to and vest in the abutting property owners; and that real property described as Unit "B" now belonging to the State of Oregon, by and through its State Highway Commission, be relinquished to Benton County to be used and to continue to be used for county road purposes, and that this be accomplished by executing and delivering a good and sufficient deed relinquishing to Benton County said Unit "B".*

3. The right of way of the former and of the relocated Blodgett Overcrossing Section of the Corvallis-Newport Highway, together with the real property acquired by the State for roadway right of way and other public purposes as indicated and shown colored in green on Exhibit "A" attached hereto, shall be retained and held by the State.*

4. This Abandonment & Retention Resolution No. 320 be entered in the minutes and records of the Oregon State Highway Commission as of the 16th dav of August, 1956, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Benton County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 320 under the heading "Abandonment & Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, on May 17, 1949, the State Highway Commission granted to Chester Conger an access road permit over and across the real property hereinafter described; and,

WHEREAS, the grantee of certain land of Chester Conger has requested the City of Eugene, Oregon, a municipal corporation, to assume full liability and responsibility for the maintenance of said road; and,

WHEREAS, the City of Eugene has requested that the title to said real property of the State be relinquished to the City of Eugene for public road purposes; and,

WHEREAS, said real property is no longer needed by the State Highway Commission for public uses,

NOW, THEREFORE, BE IT RESOLVED that the hereinafter described real property now belonging to the State of Oregon, by and through its State Highway Commission, be conveyed by quitclaim deed, pursuant to the provisions of ORS 271.330, without consideration, to the City of Eugene, Oregon, a municipal corporation, to be used by said grantee for public road purposes,

A strip of land 60 feet in width extending from the West line of the Prior F. Blair D.L.C. No. 39 to a line which is parallel to and 50 feet Southwesterly from the centerline of the 7th Avenue connection (southbound lanes) of the Pacific Highway. The centerline of said strip of land being described as follows:

Beginning at a point which is opposite and 30 feet Northwesterly from the intersection of the Southerly line of said strip of land and the West line of said Prior F. Blair D.L.C. No. 39; said point being 1033.7 feet N 0°33'30" E along said D.L.C. line and 18.75 feet S 58° 38'30" W of the S W Corner of said Blair D.L.C.; thence N 58°38'30" E 260 feet, more or less, to the centerline of said 7th Avenue connection of the Pacific Highway at Station 654+54.8.

BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 193 be entered in the minutes and records of the Commission as of the 16th day of August, 1956, and that a certified copy thereof be forwarded to the said City of Eugene.

EXHIBIT "H"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: COLUMBIA RIVER HIGHWAY (COLUMBIA CO.)

Highway Number 2W Route number US 30

M.P.	to M.P.	M.P.H.
21.66 (North city limits of Scappoose)	21.76 (500 ft. North of the North city limits of Scappoose)	35

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

EXHIBIT "H" (Cont)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 230 be entered in the minutes and records of the Commission as of the 16th day of August, 1956.

EXHIBIT "I"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, the Mt. Hood Highway is a primary highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that on said Mt. Hood Highway in the vicinity of S. E. 87th Avenue vehicles are parked on the shoulders of said highway at said location for extended periods of time; and

WHEREAS, the parking of said vehicles in said section creates a hazard to the traveling public by making emergency movements impossible, and also creates a hazard to pedestrians by reason of said vehicles being parked on a gravel footpath, thereby forcing pedestrians to walk on the roadway; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking should be prohibited on said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the north side of the Mt. Hood Highway, No. 26, from M. P. 5.45 (Engineer's Station 13+80) to M. P. 5.55 (Engineer's Station 19+00), and on the south side of said highway from M. P. 5.44 (Engineer's Station 13+20) to M. P. 5.55 (Engineer's Station 19+00) creates a hazard to the traveling public and to pedestrians.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the shoulders of the pavement on either side of said Mt. Hood Highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared on which signs shall be printed in plain letters the words "NO PARKING AT ANY TIME."

EXHIBIT "I" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 148 be entered in the minutes and the records of the State Highway Commission as of the sixteenth day of August, 1956.

EXHIBIT "J"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of the Horseshoe Bend-Peach Section of the Central Oregon Highway, US 20, in Malheur County, and of the Davis Slough-Bandon Section of the Oregon Coast Highway, US 101, in Coos County, and in connection therewith to prepare maps showing the routes and locations of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1-A. That the survey of the Horseshoe Bend-Peach Section of the Central Oregon Highway, beginning at Highway Engineer's Station 185+00, approximately two miles east of the town of Juntura, and extending in an easterly direction to Highway Engineer's Station 450+00, a short distance west of the Peach railway station, together with the map, which for identification purposes bears map file No. 8B-3-6 (Drawing No. 1R-3-1122) and the date July, 1956, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-B. That the Survey of the Davis Slough-Bandon Section of the Oregon Coast Highway, beginning at Highway Engineer's Station 310+00, approximately five miles south of the city of Coos Bay, and extending in a southerly direction to Highway Engineer's Station 1223+50 in the city of Bandon, together with the map, which for identification purposes bears map file No. 8B-3-9, 10, 11, and 12 (Drawing No. 1R-5-929) and the date August, 1956, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations

unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission, dated November 3, 1948, said sections of said highways as described above have been designated as throughways within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-named sections of said highways should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said sections which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said sections of highways were designated as throughways.

5. That this resolution be entered in the minutes and records of the Commission as of the sixteenth day of August, 1956, as Survey Resolution No. 144.

EXHIBIT "K-1"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, under the provisions of ORS 366.460, the State Highway Commission may construct and maintain within the right of way of any state highway, or section thereof, sidewalks or footpatns when it appears that such is necessary in the public interest and will contribute to the safety of pedestrians, the motoring public or persons using the highway, and

WHEREAS, it has been proposed that a footpath be constructed along the Heppner Highway from a point in front of the Heppner High School at the end of the existing sidewalk at Milepost 47.27 to the Morrow County Fair Grounds at Milepost 47.51, and

WHEREAS, it appears that the need for the said footpath is based upon the fact that the Heppner High School conducts all its outdoor athletic activities in the Morrow County Fair Grounds, which state of affairs results in considerable pedestrian traffic between the high school and fair grounds (a large part of it at football games at night), and

WHEREAS, as hereinabove described, this Commission finds that the construction of a footpath will remove pedestrian travel from the highway or the highway shoulder to the consequent safety of the traveling public and pedestrians and that said footpath is necessary in the public interest.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That a footpath be constructed along the westerly and northerly sides of the Heppner Highway from a point in front of the Heppner High School at the end of the existing sidewalk at Milepost 47.27 to the main entrance to the Morrow County Fair Grounds at Milepost 47.51 of said highway.

2. That the State Highway Engineer is directed to proceed with the construction of the said footpath.

3. That this resolution be entered in the minutes and records of this Commission as of the 16th day of August, 1956, as Footpath Construction Resolution No. 1.

27046

EXHIBIT "K-2"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, under the provisions of ORS 366.460, the State Highway Commission may construct and maintain within the right of way of any state highway, or section thereof, sidewalks or footpaths when it appears that such is necessary in the public interest and will contribute to the safety of pedestrians, the motoring public or persons using the highway, and

WHEREAS, it is proposed to construct a footpath along the Richardson-Eugene Highway in the community of Noti along the northerly side of the said highway from the Noti post office at Milepost 31.48 to the Noti grade school at Milepost 31.79 of said highway, and

WHEREAS, this commission finds that there is considerable pedestrian traffic in this community generated by travel to and from the post office and the grade school along the said highway and the construction of said footpaths as hereinabove described will remove pedestrian travel from the highway to the consequent safety of the traveling public and pedestrians and that said footpaths are necessary in the public interest.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this commission:

1. That a footpath be constructed along the Richardson-Eugene Highway in the community of Noti along the northerly side of said highway from the Noti post office at Mile post 31.48 to the Noti grade school at Milepost 31.79 of said highway.

2. That the State Highway Engineer is directed to proceed with the construction of the said footpaths.

3. That this resolution be entered in the minutes and records of this commission as of the 16th day of August, 1956 as Footpath Construction Resolution No. 2.

EXHIBIT "L"

Minutes of August 16 and 17, 1956

RESOLUTION

WHEREAS, under the provisions of ORS 366.340 the State Highway Commission is authorized to purchase real property or any right or interest therein deemed necessary for the construction of shops, equipment sheds, office buildings or maintenance sites.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the following described real property, belonging to the United States of America, is necessary for maintenance site and office building purposes in connection with the operation and administration of the State Highway system.

> A parcel of land lying in Milwaukie Industrial Park, also in the West Half of the Northwest Quarter ($W\frac{1}{2}NW\frac{1}{4}$) of Section 25, Township 1 South, Range 1 East, Willamette Meridian, Clackamas County, Oregon.
>
> The said parcel being Tracts No. 1 and No. 2 and that portion of Tract No. 4 lying Northerly of the Easterly prolongation of the Southerly line of Beta Street of said Milwaukie Industrial Park.
>
> The parcel of land to which this description applies contains 4.0815 acres.

2. That the Legal and Right of Way Department is directed to negotiate for the purchase of the above-described real property from the United States of America.

3. That this Resolution be entered in the minutes and records of the Commission this 16th day of August, 1956, as Miscellaneous Resolution No. 173a.

TABLE OF CONTENTS

Page	Date 1956	Subject
27048	Sept.27	BIDS received on construction projects.
27051		COMMISSION MEETING MINUTES approved for July 12-13, and July 26, 1956.
		CLATSOP COUNTY. Astoria. Columbia River Bridge (proposed).
27052		Conference of Oregon and Washington officials approved.
27053		PARKS SUPT. reports on following matters:
		Coos County. Tenmile Creek outlet. 80-acre tract. County's offer to donate tract for park purposes deferred.
		Harney County. Burns SE. Diamond Crater Areas. Negotiations authorized with BLM for preservation of area.
		Lincoln County. Depoe Bay. Concession building. Name selection discussed. Referred to Comm. McIver and Parks Supt.
27054		Champoeg State Park. Marion County. Drilling of well approved.
		Shore Acres State Park. Coos County. One-year lease to US Navy for antenna construction approved.
		Clackamas County. Wilsonville. Willamette River Bridge. County requests use of area for park purposes.
27055		REAL PROPERTY. Acquisition approved. See EXHIBIT "A".
		SALE OF MISCELLANEOUS PROPERTIES report approved.
		SUPPLEMENTAL RENTAL REPORT presented.
		DOUGLAS COUNTY. Pacific Hwy. Roseburg-Winchester Section. Evans Products Co. permit granted to install water main.
		YAMHILL COUNTY. Salmon River Hwy. Valley Jct.-Sheridan Section. Eden property. Sale of 6.36 acres authorized. See EXHIBIT "D-1".
		MULTNOMAH COUNTY. Portland-Salem Expressway. Barbur Blvd.-Harbor Drive Section. Sale of Fir Crest Auto Court sign location to "Pancake House" approved.
27056		MARION COUNTY. R. H. Baldock Freeway. Claxter Frontage Road. Salem north. Sale of 0.80 acre authorized. See EXHIBIT "D-2".
		SEWER ASSESSMENTS not to be protested as follows:
		Newport. Fredricksburg Addition. $979.
		Woodburn. Remington's Subdivision. $3,831.46.
		North Bend. Block 17. $8,086.66.
		MARION COUNTY. R. H. Baldock Freeway. Willamette River-Gervais Road. Dreher property. Sale to Mary Lofgren approved.
		ACCESS CHANGES on five properties approved.
27057		MULTNOMAH COUNTY. Banfield Expressway. Unit #5. Expenditure of $796 to reroof and paint dwelling authorized.
		LANE COUNTY. Springfield. Washburne Addition. Lease agreement with Pacific Power & Light Company approved.
		CLACKAMAS COUNTY. Wilsonville-Hubbard Hwy. Roos-Murray properties. Sale of 0.56 acre to the Irions confirmed.
		YAMHILL COUNTY. Salmon River Hwy. Valley Jct.-Sheridan Section. Harris property. Construction of new well approved.

Page	Date 1956	Subject
057	Sept.27	MULTNOMAH COUNTY. Banfield Expressway. Portland. York Addition. 5-year lease to Associated Chemists, Inc., approved.
058		MARION COUNTY. Pacific Hwy. Salem south. Vista Avenue. 3-year lease of 0.12 acre to the Willsmores approved.
		MARION COUNTY. Pacific Hwy. East. Salem-Illahee Section. Hilfiker property. 5-year lease to Mr. Eyerly approved.
		POLK COUNTY. Pacific Hwy. West. Monmouth. Request from City to open new street connection with hwy. approved.
		CONDEMNATION OF REAL PROPERTY approved. See EXHIBITS "J-1" through "J-15".
063		CONDEMNATION CASES tried. Counsel's report approved.
064		DAMAGE CASE. Darold V. and Mildred Knox vs. State Hwy. Commission and Fred E. Dorn. Counsel presented report.
		CONDEMNATION CASES settled. Counsel's report approved.
065		CONDEMNATION CASES. Offers for property approved.
067		PUC MATTERS re Hwy. Commission. Counsel reports: Lincoln County. County Road #520. Georgia-Pacific Plywood Co. truck road crossing. Benton County. Corvallis. South 11th Street. SP Company grade crossing. Multnomah County. Banfield Expressway-Sandy Blvd. Jct. NE 37th Avenue impaired clearance over railroad.
		CLAIMS. Abandonment of four damage claims authorized.
068		WHEELER COUNTY. Mitchell flash flood. Nine legal actions. Counsel submitted report.
		GRANT COUNTY. John Day Hwy. Mt. Vernon. Osborn vs State of Oregon. Counsel submitted report.
069		LEGISLATIVE MATTERS: State Hwy. Engineer's Revolving Fund. Increase to $1,500,000 recommended. Pacific Ocean Shore. Transfer of jurisdiction and control to State Land Board. Hwy. Interim Committee. 12 matters approved by Commission. Committee willing to sponsor only 2.
		TRAVEL - OUT OF STATE confirmed for C. W. Enfield to Olympia, Wn., September 13-14, 1956, for joint educational seminar.
		LEGAL DEPARTMENT AND RIGHT OF WAY. Commission approved for: Employment of Leo V. Nuttman and Luther L. Jensen, Jr. Salary increases for Wm. Mansfield and Gale Powell. Employment of three additional attorneys for Trial Section.
070		LANE COUNTY. Eugene. 7th Avenue. Chester Conger. Termination of access road permit approved.
		TRAVEL INFORMATION DEPARTMENT. Travel Advisory Committee. Budget - 1957. Proposed budget presented. Action deferred.
		AWARD OF CONTRACTS. Engineer reports awards.
071		COOS COUNTY. Oregon Coast Hwy. Coos Bay-North Bend. Al Pierce Lbr. Co. Parking prohibited. See EXHIBIT "F"-1".

Page	Date 1956	Subject
27072	Sept.27	UNION COUNTY. Cove Secdy. Hwy. Reclassification to Group I.
		MULTNOMAH COUNTY. Interstate Bridge. Letter to BPR re construction of bridge as FA Interstate Hwy. project signed.
		MULTNOMAH COUNTY. Mt. Hood Hwy. Portland. Foster Road extension. Engineer reported re cost of project.
		LANE COUNTY. Eugene. 13th Avenue closure. City-U of Oregon-Hwy. Engineer Conference. Action deferred.
27073		HIGHWAY DEPARTMENT FINANCIAL CONDITION. Federal-aid Program. Engineer submitted report. Action deferred.
		CLATSOP COUNTY. Astoria. Columbia River Bridge (proposed). Engineer submitted financial report.
		CLATSOP COUNTY. Astoria-Megler Ferry Boats operation. Engineer presented report on operation of ferry boats.
27074		CLATSOP COUNTY. Astoria. Columbia River Bridge (proposed). Counsel presented report re legal aspects of financing bridge.
		TRAVEL - OUT OF STATE authorized for W. C. Williams, Forrest Cooper, and G. S. Paxson to Olympia, Wn., re bridge project.
		COMMISSION MEETING RECESSED at 12:00 noon to reconvene at 2:00 p.m.
		FOREST HIGHWAY PROGRAM. $3,500,000 fund. Projects approved as presented. Letter to Washington, D.C., signed.
27077		TILLAMOOK COUNTY. Boyer-Dolph Cut-off (proposed). Substitution for Dolph-Valley Jct. Section in Forest Hwy. program.
		JACKSON COUNTY. Pacific Hwy. Blackwell Hill-Ashland Section. Medford By-pass. Hearing to be held in Medford.
27078		JACKSON COUNTY. Pacific Hwy. Ashland. North Main Street. Hwy. reconstruction. Hearing in Ashland.
		CLATSOP COUNTY. Judge Boyington expresses appreciation for: Fort Stevens State Park improvement. Astoria. Youngs Bay Bridge construction.
		UNFINISHED BUSINESS MATTERS discussed: HARNEY COUNTY. Burns. Diamond-Crater recreational area. LANE COUNTY. Eugene. 13th Avenue closure. CLATSOP COUNTY. Astoria. Columbia River Bridge (proposed).
27079		WASCO COUNTY. US197. The Dalles-Eightmile Creek. Hwy. realignment and bridge construction discussed.
		SALE OF BONDS TO FINANCE NEW HIGHWAY PROGRAM. Engineer to
27080		confer with Governor Smith.
		BAKER COUNTY. Unity area. Forest Camp. Request that State take over camp. Action deferred.
		WASHINGTON COUNTY. Sunset Hwy.-Murray Road Jct. Installation of flashing beacon approved.
		LANE COUNTY. Springfield-Creswell Hwy. Falls Creek County Road Jct. Installation of flashing beacon approved. Through-stop resolution of 9/21/49 amended. See EXHIBIT "G-1".
27081		LANE COUNTY. Pacific Hwy. Eugene. 6th and 7th Avenues Jcts. with Garfield Street. Request for traffic signals approved.

Page	Date 1956	Subject
7081	Sept.27	SURVEYS completed and adopted as follows: (See EXHIBIT "H") Malheur County. Central Oregon Hwy. Peach-Jonesboro Section. Malheur County. Central Oregon Hwy. Tunnel-Namorf Section. PROJECT AUTHORIZATION INCREASES approved for: Contracts #4540, #4497, and #4650.
7082		MULTNOMAH COUNTY. Portland. Ross Island Bridge. Widening of existing 4-lanes approved on 50-50 basis. CLATSOP COUNTY. Oregon Coast Hwy. Seaside. Relocation on Roosevelt Drive requested. CLATSOP COUNTY. Fort Stevens State Park Latrine contract. Merrell Steel Building, Inc., protest denied. MULTNOMAH COUNTY. Hillsdale-Beaverton Hwy. Washington County Line-Hillsdale Section. Maplewood Water District. Payment approved.
7083		WASCO COUNTY. Warm Springs Jct. Maintenance Station. Contract with Wasco Electric Coop. for electric power approved. CLATSOP-TILLAMOOK COUNTIES. Elsie-Wheeler Cut-off. Completion of survey authorized. WALLOWA COUNTY. Wallowa Lake Hwy. Enterprise. Main Street. Widening 2 blocks approved on cooperative basis.
7084		LINCOLN COUNTY. Oregon Coast Hwy. Delake. "D" River Bridge. Footpath construction under bridge approved. See EXHIBIT "I". BUDGET for 1957-59 Biennium for submission to 1957 Legislative

		CLAIMS. Abandonment of six damage claims approved.
27477		MULTNOMAH COUNTY. Banfield Expressway. NE 39th Ave.-NE 49th Ave. Section. Report on Drake Lumber Co. damage suit.
		LINN COUNTY. Santiam Hwy. Ames Creek Section. Kelman Auto Court. Report on Kelman damage suit.
27478		DAMAGE CASES. Counsel authorized to institute legal proceedings in 7 cases of damage to state property.
		LEGAL DEPARTMENT. Approval of following: Employment of Robert J. Patterson in Trial Section, and Robert A. Holland in Office Section.
27479		Salary increase for Doanld R. Stark in Title Section.
		DOCUMENTARY TAX STAMP ACT of 1950. Discussion of problem re conveyances to the State.
		BENTON COUNTY. Pacific Hwy. West. Corvallis area. Starker property. "Access Clause" amendment in deed from owners approved.
		CLATSOP-TILLAMOOK COUNTIES. Elsie Cutoff. Request for cutoff construction. Action deferred.
27480		AWARD OF CONTRACTS. Engineer reports awards.
		UMATILLA COUNTY. Hermiston Secdy. Hwy. Hinkle-Bucks Corner Section. Rejection of low bid of Vail Company confirmed.
		JACKSON COUNTY. Pacific Hwy. Medford By-pass (proposed). High Line Route not to be considered. Decision at January mtg.
27481		CLATSOP-TILLAMOOK COUNTIES. Elsie Cutoff (proposed). Report on project. No construction at present.
		GRANT COUNTY. Kimberly-Long Creek Secdy. Hwy. MP 0.0 to MP 26.89. Reclassification of hwy. to Group I approved.
		MULTNOMAH COUNTY. Portland. Ross Island Bridge. Removal of speed zone from 2 east bound lanes authorized.
		KLAMATH COUNTY. The Dalles-California Hwy. Klamath Falls north. Johns-Manville Corp. access discussed.
27482		MULTNOMAH COUNTY. Banfield Expressway south. 87th Street. Establishment of 3rd maintenance district in Div. 1 authorized.
		YAMHILL COUNTY. Pacific Hwy. West. McMinnville-St. Joseph Undercrossing Section. Parallel bridge in next program.
		BAKER COUNTY. Baker-Homestead Hwy. Idaho Power Company. Agreement with Company re hwy. relocation approved.
27483		Furnishing survey crews and maps to Company approved.
		LEGISLATIVE MATTERS. Baker County. Baker-Homestead Hwy. Counsel to prepare bill covering rerouting of hwy.

Page	Date 1956	Subject
27483	Dec. 17	DOUGLAS COUNTY. Pacific Hwy. Myrtle Creek-Missouri Bottom Unit. Low bid held in abeyance pending further cost study.
		COMMISSION MEETING RECESSED at 12:00 noon to reconvene at 2:00 p.m.
		UNFINISHED BUSINESS MATTERS discussed:
		GRANT COUNTY. Mt. Vernon. Beech Creek Dam. Request for structure to reduce flooding deferred pending Army Engineers investigation.
		COOS COUNTY. Oregon Coast Hwy. Coos Bay Bridge north. Brelage motel. Request to establish restaurant approved.
27484		YAMHILL COUNTY. Pacific Hwy. West. St. Joseph Cemetery area.
		JACKSON COUNTY. Pacific Hwy. Medford By-pass route.
		RELOCATION OF TELEPHONE AND POWER LINE FACILITIES. Request for State to stand expense. Report not completed.
		MULTNOMAH COUNTY. Columbia Gorge Commission's request for help.
		LINN COUNTY. Lebanon. Main Street-Milton Street Jct. Request for traffic signals approved.
		MARION COUNTY. Hillsboro-Silverton Secdy. Hwy. Silverton west. Henjum's Corner. Installation of flashing beacon approved.
27485		CLATSOP COUNTY. Columbia River Hwy. Knappa-Svensen County Road Jct. Installation of flashing beacon approved.
		DOUGLAS COUNTY. Roseburg. Stephens St.-Brockway St. Jct. School crossing type signal approved for intersection.
		INCREASE IN PROJECT AUTHORIZATIONS approved for: Contracts #4792, #4587, and #4311.
		LANE COUNTY. Springfield-Creswell Hwy. County Court's request for transfer of funds to Route "F" approved.
27486		DOUGLAS COUNTY. Tiller-Trail Secdy. Hwy. Days Creek. Request for footpath construction approved. See EXHIBIT "K".
		LANE COUNTY. Eugene. Jefferson Street and Washington Street. Request for overpasses deferred for future programming.
		MULTNOMAH COUNTY. Portland School District #1. 82nd Avenue. NE Thompson St.-NE Russell St. Drainage agreement approved.
27487		KLAMATH COUNTY. Klamath Lake Secdy. Hwy. Lake of the Woods Road designation as secdy. hwy. Action deferred.
		HARNEY COUNTY. Central Oregon Hwy. Burns-Hines Section. Transfer of funds to Vale-Juntura Section to be considered.
27488		COOS COUNTY. Oregon Coast Hwy. Glasgow County Road Connection. Reconstruction approved on 50-50 basis.
		SPECIAL CITY ALLOTMENT FUND - 1957. Disbursement of fund to 16 city projects approved.
27489		CROOK COUNTY. Paulina Secdy. Hwy. Camp Creek-Paulina Section. Survey adopted. See EXHIBIT "L".
		EXTENSIONS OF TIME to complete contracts granted.
27492		UNION COUNTY. Old Oregon Trail. Ladd Canyon Slide Section. Contract #4798. Request for extension of time denied.
27493		CONTRACTS completed and accepted. See EXHIBIT "D".
		COUNTY FAS SYSTEM ADDITIONS approved in Clatsop-Crook-Deschutes-Gilliam-Grant-Harney-Yamhill Counties.

Page	Date 1956	Subject
27494	Dec. 17	COUNTY FAS ROAD PROJECTS approved for improvement.
27496		SPEED ZONES AND NO SHOULDER PARKING ZONE ESTABLISHED as follows:
		Hood River County. Odell Secdy. Hwy. Odell Section. Speed zone established. See EXHIBIT "M-1".
27497		Hood River County. Odell Secdy. Hwy. MP 1.76 - MP 1.86. No shoulder parking zone established. See EXHIBIT "M-2".
		Clackamas County. Cascade Secdy. Hwy. Clackamas south. Speed zone established. See EXHIBIT "M-3".
		Lincoln County. Oregon Coast Hwy. Depoe Bay area. Speed zone established. See EXHIBIT "M-4".
27498		Baker County. Baker-Homestead Hwy. Richland area. Speed zone established. See EXHIBIT "M-5".
		Baker County. Old Oregon Trail. Lime area. No parking zone established. See EXHIBIT "N-1".
		Multnomah County. Cascade Secdy. Hwy. Portland. No parking zone established. See EXHIBIT "N-2".
		Coos County. Oregon Coast Hwy. Coos Bay south. Harriet St. No parking zone established. See EXHIBIT "N-3".
27499		TRAVEL - OUT OF STATE approved for:
		Gene Huntley to San Francisco, January 17-19, 1957, for Western College Placement Association conference.
		Carl W. Jordan to Butte, Montana, January 12-13, 1957, for NW Travel Association meeting.
		Dennis D. Clarke to San Francisco Automobile Show, January 3-15, 1957.
		R. B. Sipprell to San Francisco, January 12-13, 1957, for Western Interstate Committee on Hwy. Policy Problems.
		LINN COUNTY. Corvallis-Eastside Secdy. Hwy. Calapooya River Bridge-Orleans Section designated "Riverside Drive" Section.
		ASSOCIATION OF OREGON COUNTIES. Resolution presented expressing appreciation for services rendered by Mr. R. H. Baldock.
27500		WASCO COUNTY. Columbia River Hwy. Chenoweth Creek-The Dalles Section. Throughway agreement with The Dalles approved.
		CLATSOP COUNTY. Columbia River Hwy. Bradley Park-Wauna Section. Settlement of slide damage claim with Fir-Tex Co. approved.
		SECRETARY'S REPORT on papers signed approved.
		MALHEUR COUNTY. Old Oregon Trail. Olds Ferry-Ontario Section. Old hwy. route designated as Olds Ferry-Ontario Secdy. Hwy. See EXHIBIT "E".
27501		JOSEPHINE COUNTY. Redwood Hwy. Applegate River Bridge Section. Unit "A" abandoned to County. See EXHIBIT "F". Unit "B" designated as part of Rogue River Loop Secdy. Hwy. See EXHIBIT "G".
		WASHINGTON COUNTY. Gales Creek County Road returned to jurisdiction of County. See EXHIBIT "H".
		UMATILLA COUNTY. Pendleton-John Day Hwy. Pendleton-Pilot Rock Section. Closure of Bud Parks St. approved. See EXHIBIT "I".

Portland, Oregon
September 27, 1956

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows were opened and read aloud by the Secretary, who announced that the Commission would award contracts in the same room at 4:00 p.m.

COLUMBIA COUNTY
NORTH FORK SCAPPOOSE CREEK BRIDGE ON PITTSBURG-SCAPPOOSE HIGHWAY

S & D Construction Co., Portland	$19,318.00
Charles R. Schmiedeskamp, Portland	22,762.00
L. B. Read & Mac Sharp, Portland	22,856.00
George E. Berry, Beaverton*	23,552.00
J. N. Conley, Portland	23,976.00
Schrader Construction Co., Portland	24,532.00
Birkemeier Construction Co., Milwaukie	24,880.00
Pettijohn Engr. Co., Portland	27,708.00
P.S. Lord Mechanical Contractors, Portland	28,996.00

*Bidder will not accept award of projects totaling more than $120,000.00.

DESCHUTES COUNTY
GRADING AND PAVING EAST UNIT, FORT ROCK ROAD-BROTHERS SECTION OF THE CENTRAL OREGON HIGHWAY

Warren Northwest, Inc., Portland	$307,977.00
Babler Bros., Inc., Portland	314,961.00
Central Paving Co., Independence	338,465.00
Rogers Construction Co., Portland	341,611.00
J. C. Compton Co., McMinnville	353,137.00
The Central Heating Co., Ore. Ltd., Eugene	361,662.00
Porter Yett, Portland	383,908.50
Parker-Schram Co., Portland	424,422.50

27049

DOUGLAS COUNTY
PAVING FORDS BRIDGE UNIT, MYRTLE CREEK-CANYONVILLE SECTION OF THE PACIFIC HIGHWAY

C. R. O'Neil, Creswell * **	$196,200.50
Warren Northwest, Inc., Portland**	198,211.50
Calkins Construction Co., Oceanlake	212,054.00
J. C. Compton Co., McMinnville	214,394.00
The Central Heating Co., Ore. Ltd., Eugene	216,105.40
E. C. Hall Co., Portland	230,301.00
Parker-Schram Co., Portland	248,950.00

*Bidder will not accept award of projects totaling more than $1,350,000.

**Bidder will accept award of this project only in the event he is also awarded the Fords Bridge-Canyonville Unit Project.

DOUGLAS COUNTY
GRADING AND PAVING FORDS BRIDGE-CANYONVILLE UNIT, MYRTLE CREEK-CANYONVILLE SECTION OF PACIFIC HIGHWAY

C. R. O'Neil, Creswell * **	$697,708.00
Warren Northwest, Inc., Portland **	742,572.00
Fred H. Slate Co., Ore. Ltd., & E.C. Hall Co., Portland	773,045.00
The Central Heating Co., Ore. Ltd., Eugene	846,252.40
Parker-Schram Co., Portland	930,202.00

*Bidder will not accept award of projects totaling more than $1,350,000.

**Bidder will accept award of this project only in the event he is also awarded the Fords Bridge Unit Project.

DOUGLAS COUNTY
WEAVER ROAD STRUCTURES ON RELOCATED SECTION OF WEAVER ROAD NEAR MYRTLE CREEK

Ausland Construction Co., Grants Pass	$ 93,728.00
Tom Lillebo Construction Co., Reedsport	94,460.00
Hamilton & Thoms, Eugene	101,870.00
Glen Snook, Eugene	103,276.00
Lee Hoffman, Beaverton	120,710.00

GRANT COUNTY
JOHN DAY ROCK PRODUCTION PROJECT ON JOHN DAY AND JOHN DAY-BURNS HIGHWAY

E. H. Itschner Co., Molalla	$ 20,000.00
N. A. Toole Construction Co., Ontario	28,000.00
C. C. Meisel, McMinnville	31,200.00

September 27, 1956

HOOD RIVER COUNTY
VIENTO STATE PARK LATRINES AT THE VIENTO STATE PARK

Gilbert Roberts, Hood River	$ 14,096.00
P.S. Lord Mechanical Contractors, Portland	14,672.50
Merrell Steel Building Co., Portland	20,015.00
Schrader Construction Co., Portland	21,795.00

MARION COUNTY
SALEM STORAGE BUILDING

Erwin E. Batterman, Salem	$ 37,234.00
John B. McLeod Constr. Co., & S & D Constr. Co., Portland	37,547.00
M. L. Mills, Salem	38,283.00
R. I. Randolph Constr. Co., Salem	40,162.00
Thompson & Georgeson, Portland	40,192.00
Robert D. Morrow, Salem	40,557.00
Charles R. Schmiedeskamp, Portland	44,501.00
Lorentz Bruum Co., Portland	45,739.00
L. B. Read and Mac Sharp, Portland	47,400.00

MULTNOMAH COUNTY
ILLUMINATION INSTALLATION, N. E. 42ND AVENUE-TROUTDALE SECTION OF THE T. H. BANFIELD EXPRESSWAY

Trowbridge Electric Co., Roseburg	$ 51,500.00
J. J. Walton, Salem	57,428.00
Montgomery Electric Co., Portland	57,498.00
Ace Electric Co., Portland	58,973.00
W. R. Grasle Co., Portland	59,890.00
Olson Electric Co., Vancouver, Wn.	65,030.90
Lord Electric Co., Inc., Portland	87,400.00
Huenergard Electric Co., Portland	91,560.00

UMATILLA COUNTY
GRADING EMIGRANT HILL-DEADMANS PASS SECTION OF THE OLD OREGON TRAIL HIGHWAY

Rogers Construction, Inc., Portland	$1,050,740.00
Gibbons & Reed Co., Portland	1,069,600.00
Max J. Kuney Co., Inc., Spokane, Wn.	1,157,475.00
Fred H. Slate Co. & E. C. Hall Co., Portland	1,290,307.50
C. R. O'Neil, Creswell	1,305,304.00
Kuckenberg Const. Co., Portland	1,339,080.00
Morrison-Knudsen Co., Inc., Boise, Idaho	1,361,190.00
Natt McDougall Co., Portland	1,457,134.00

UMATILLA COUNTY
UMATILLA RIVER BRIDGE ON HINKLE-BUCKS CORNER SECTION OF HERMISTON SECONDARY HIGHWAY

White Bros. Co. & White Bros. Const. Co., Inc. Walla Walla, Wn.	$102,689.00

September 27, 1956

Umatilla River Bridge on Hermiston Sec. Hwy. - Cont.

R. H. Jones, Hillsboro	$106,150.00
Pettijohn Engr. Co., Portland	110,964.50
George E. Berry, Beaverton *	115,841.00
Rogers Construction Co., Portland	116,143.00
Marshall Construction Co., Hermiston	116,594.70
Teeples-Thatcher Co., Portland	118,093.00
Hamilton & Thoms, Eugene	125,555.00
Schrader Construction Co., Portland	130,408.00
Peter Kiewit Sons' Co., Vancouver, Wn.	151,327.00

* Bidder will not accept award of projects totaling more than $120,000.00.

WHEELER COUNTY
GRADING PARISH CREEK UNIT, SPRAY-WATERMAN SECTION OF THE SPRAY-WATERMAN COUNTY ROAD

Morgan Bros., Coquille	$ 49,597.44
Earl L. McNutt Co., Eugene	65,158.00

Hannan Bros. Co., Portland	152,720.00
Hamilton & Thoms, Eugene	159,175.00
Pettijohn Engr. Co., Portland	159,462.00

The Commission approved the minutes of the meetings held on July 12 and 13, 1956 and on July 26, 1956. Approval of the minutes of the meeting held on August 16 and 17, 1956 was deferred until the next regular meeting of the Commission.

Mr. Charles DeFoe, Manager, Astoria Chamber of Commerce, and Mr. R. J. Bettendorf, Manager, Port of Astoria, came before the Commission concerning plans for the proposed bridge across the Columbia River at Astoria. Mr. Bettendorf stated that they recently had a meeting with Governor Langlie of the State of Washington, Mr. William Bugge, Director of

Highways, and representatives of the Washington Toll Bridge Authority and Pacific County, at which meeting the Governor indicated an interest in a bridge at Astoria and expressed a willingness to discuss the matter with Oregon officials but gave as his opinion that the Oregon State Highway Commission should take the lead in negotiations leading to construction of a bridge. He also mentioned that it would be necessary for the Washington Legislature to enact enabling legislation before the State of Washington could participate. It was also the Governor's suggestion that preliminary details be worked out as soon as possible so that an application can be made immediately in the event that federal funds can be used to finance the structure. Mr. Bettendorf stated that Governor Langlie felt that it would be difficult to get the Washington Legislature to approve the necessary legislation. He asked the Commission to assume the responsibility for the project and to pursue it to a conclusion as soon as possible. He pointed out that whereas the cost of the bridge in 1933 was estimated at $5,000,000, it is now estimated to cost more than $30,000,000 with prospects that the cost will be higher in the future.

Chairman Chandler inquired if it is Mr. Bettendorf's feeling that the Washington agencies will cooperate and assume their respective shares. Mr. Bettendorf replied in the affirmative. Commissioner Reynolds inquired as to which Washington groups are involved. Mr. Bettendorf replied that representatives of the Washington Toll Bridge Authority, Pacific County, the Washington State Highway Department, the Port of Astoria and Governor Langlie were present at the conference, and they indicated that they would cooperate as much as possible. Mr. DeFoe stated that about six weeks ago a meeting was held with representatives of western Washington counties and that a lady Representative from King County agreed to sponsor appropriate legislation in the Washington Legislature. Mr. Bettendorf then inquired if changes in the plans for the bridge as prepared by Tudor Engineering Company could be made to reduce the cost of the bridge. He mentioned the possibility of substituting a fill for a trestle across the mud flats and some adjustments at the north end of the project. Chairman Chandler commented that before any definite plans can be considered, approval of the Army Engineers will have to be secured. Mr. Bettendorf gave as his feeling that the plans as prepared by Tudor Engineering Company will meet maximum requirements of the Army Engineers and that there are possibilities that costs can be reduced by introducing some changes. Inquiry was made by Commissioner Reynolds as to whether or not the Washington authorities have considered the matter of participating in the operation of the present ferry service at Astoria. He expressed his feeling that the Oregon Highway Commission would be glad to meet with the Washington authorities for a discussion of the subject before the first of the year when the legislature will convene. Mr. Bettendorf replied that ferry operation has not been discussed with the Washington people. Chairman Chandler also expressed an interest in the bridge and advised that the Commission will give it serious study.

(On the following day this matter was again discussed. Commissioner Reynolds at that time suggested that representatives from the Oregon State

Highway Department meet with representatives of the Washington State Highway Department and the Washington Toll Bridge Authority to go over details and to search for a basis of cooperation. The Highway Engineer stated that although it was his feeling that the Washington Highway Department was not greatly in favor of the bridge, he would be glad to discuss the matter with them and suggested that Mr. Forrest Cooper, Deputy State Highway Engineer, and Mr. G. S. Paxson, Assistant State Highway Engineer, accompany him. The Commission authorized the conference to be held in the State of Washington and also authorized the necessary out-of-state travel expense. However, the Commission pointed out that the conference should be exploratory only to ascertain the attitude of the Washington people and to obtain an idea as to what can be done. It was pointed out that the Oregon State Highway Commission has not committed itself other than the holding of the conference.)

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Proposed state park at the outlet of Tenmile Creek in Coos County: An investigation was made, the Parks Superintendent reported, as previously authorized by the Commission based on a request from Mr. Allen Terry, member of the Port of Coos Bay. A careful study was made of the 80-acre area which Coos County had offered to donate. Most of the land is sandy and subject to sand blow, and the principal use is by fishermen. He pointed out that there is a private development on the stream below the bridge which can take care of most of the present use for fishing purposes. It was his thought that if the sand dunes are stabilized the area will become valuable for recreation other than fishing. Immediate development, he felt, would be expensive in relation to the prospective use of the area and he recommended that any action for acquisition or development be deferred until the sand dunes are stabilized or demand is greater. The Commission accepted his recommendation.

2. Study of Diamond Crater Areas southeast of Burns: As previously authorized by the Commission, the Parks Superintendent stated that a study has been made of the areas consisting of approximately 15,000 acres of federally owned land, administered through the Bureau of Land Management. He pointed out that there has been some damage to the cinder cones by the taking of material for road purposes, but there is little use at the present time from a recreational standpoint. There is an old road through the area and from this road a number of craters, lava sheets, pressure edges, et cetera, can be seen, which should be preserved from destruction. He recommended that negotiations be authorized with the Bureau of Land Management for preservation of the area by the Bureau through administrative action, leases, or withdrawals. The Commission authorized the negotiations.

3. Request that the new building at Depoe Bay be given an official name: The immediate request for a name, the Parks Superintendent stated, has been made by Mr. Jack Flaucher, who has the concession in the building; also Representative McClellan and other people in the vicinity of Depoe

Bay have suggested that the building be named "Cliff House." It was his feeling that the name "Observation Building" or "Observatory" would be more appropriate. In discussing this matter the Commission indicated that whatever name is selected reference should be made to the word "Highway" or "Parks", so the public will know it is not a privately owned building. Action, however, was deferred pending the appearance of Mr. Flaucher on the following day.

(Following the appearance of Mr. Flaucher the Commission referred the matter to Commissioner McIver and the Parks Superintendent to select a name for the building.)

4. Defective well at Champoeg State Park: The Parks Superintendent reported that a steel pipe well used for drinking water has filled with sand and will have to be replaced. The old well is located underneath the museum building, but it would be advantageous to drill a new well a short distance to the south. He estimated the cost of the well, including a small building to house the pump, at $1,500, and he recommended that it be constructed as soon as possible so as to provide satisfactory water for the people who visit the park and for the caretaker who lives there. The Commission approved the recommendation.

5. Request of the U.S. Navy through the Thirteenth Naval District of Seattle, Washington, for permission to construct a temporary antenna at Shore Acres State Park: The Navy, the Parks Superintendent stated, requests lease of an area 320 feet wide and approximately 730 feet long, located between Shore Acres State Park and Cape Arago State Park, west of the highway. They also wish to use the present service road and to erect a power line to serve the antenna. Proposed use of the area is for one year, with the right of renewal but not beyond the 30th day of September, 1959. Careful investigation, he stated, has been made and it is his recommendation that the Commission approve a lease for a period of one year, with the right of renewal to September 30, 1959. The Commission approved the lease on such basis.

6. Request of Clackamas County Court for permission to develop a park area at the north end of the Willamette River Bridge at Wilsonville: The Parks Superintendent advised that the area in which the County is interested is on land acquired to protect the end of the bridge and to eliminate access to the freeway, as well as to provide a source of materials for highway construction. Materials for the new road have been obtained and there is a considerable area that can be utilized for local or county park purposes. As the development of a local park would serve the public, he recommended that a revocable lease be given to Clackamas County without access to the freeway. The Commission deferred action on this matter pending the appearance of a delegation on the following day.

(When the delegation appeared, it was informed that the Commission will ask the Parks Superintendent and the Engineer for a complete report on the matter, with a view to granting a long-term lease or permit.)

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed as state highway right of way or for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

NOTE: Regarding the Schnitzer-Wolf Investment Company property listed in the resolution, File 21553, the Right of Way Engineer explained that although the Company has signed the deed, title will not be taken nor will the consideration be paid until the property is needed for construction. The Investment Company, he said, will pay the taxes that are assessed against the property until it is taken by the State, but it will not pay rent for use of the property.

A report on miscellaneous properties sold since the last Commission meeting was presented by the Right of Way Engineer and accepted by the Commission.

(For details, see Miscellaneous Sales Report, dated September 27-28, 1956, in the General Files.)

Also presented was a Supplemental Rental Report prepared by the Property Manager showing new rentals and terminations of rentals during the period August 10 to September 15, 1956.

(For details, see Supplemental Rental Report dated August 10 to September 15, 1956, in the General Files.)

Consideration was given to a permit agreement with the Evans Products Company whereby the Company is granted the right to install a water main across highway right of way on the Roseburg-Winchester Section of the Pacific Highway in Douglas County. The Right of Way Engineer explained that the permit covers a period of 10 years from the first day of August, 1956, and provides that the Evans Products Company shall pay $50 per year in advance for the privilege. Upon his favorable recommendation, the Commission approved the agreement.

The Right of Way Engineer requested authority to offer at public sale 6.36 acres of land originally acquired from a Mr. Eden on the Valley Junction-Sheridan Section of the Salmon River Highway in Yamhill County. This land, he stated, is no longer required for highway purposes and he recommended that it be offered for sale at a minimum price of $1,500. The Commission authorized the sale by adopting the attached resolution relative thereto, marked EXHIBIT "D-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer also requested authority to sell the former Fir Crest Auto Court sign location on the Barbur Blvd.-Harbor Drive Section of the Portland-Salem Expressway in Multnomah County. This area,

he explained, contains approximately 70 square feet of land and the owner of the "Pancake House", which is located on the adjoining lot, has offered to pay $500 for the property. He further explained that because of highway advertising restrictions no one else could buy the property, which is located between S. W. 24th Street and Barbur Blvd., and use it as a sign location. He recommended that the property be sold to the owners of the "Pancake House" at the price offered. The Commission approved the sale at such figure.

Authority to sell 0.80 acre of land originally acquired from a Mr. Farmer was requested by the Right of Way Engineer, who explained that the property is located on the Claxter Frontage Road on the Willamette River-Hayesville Section of the R. H. Baldock Freeway north of Salem and access is restricted to that part of the property which fronts on Claxter Road. He recommended that the property, which is no longer needed for highway purposes, be offered at public sale for a minimum price of $4,250. The Commission authorized the sale by adopting the attached resolution relative thereto, marked EXHIBIT "D-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Right of Way Engineer reported that a notice of sewer assessment has been received from the City of Newport involving Lots 1-2-3-4-5-6-7-and 12 of Fredricksburg Addition to the City of Newport, in the sum of $979; also, that a sewer assessment has been received from the City of Woodburn against Lots 13-14 and 15 of Remington's subdivision in the amount of $3,831.46; also, an assessment was received from the City of North Bend for street improvements along Block 17 in the amount of $8,086.66. These assessments, he explained, are for improvements that are a direct benefit to state highway property, and he recommended that no protest be filed when the assessments are presented to the Legislature for approval. The Commission accepted his recommendation.

Sale of 0.8 acre of property acquired from a Mr. Dreher on the Willamette River-Gervais Road Section of the R. H. Baldock Freeway in Marion County to Mary Lofgren for the sum of $200 was considered. The Right of Way Engineer advised that this parcel of land is no longer needed for highway purposes and that the price of $200 is a fair value of the property. The Commission approved the sale at such figure.

A number of changes in points of access from adjoining properties to state highways were presented by the Right of Way Engineer, who explained that in each instance no additional access is being granted and that the proposed changes involve relocation only for the convenience and safety of the traveling public and the property owners. He recommended approval of the changes in access points as follows:

1. Nash property, File 20172, on the Frankport-Rinehart Creek Section of the Oregon Coast Highway in Curry County.

2. Sauers property, File 17735, on the Reedsport-Coos County Line Section of the Oregon Coast Highway in Douglas County.

3. Hemphill property, File 24225, on the South Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County.

4. McUne property, File 21743, on the Sage Hen Hill-Hines Section of the Central Oregon Highway in Harney County.

5. Fay property, File 17795, on the Sage Hen Hill-Hines Section of the Central Oregon Highway in Harney County.

Authority was requested by the Right of Way Engineer to spend approximately $796.00 to reroof and paint a dwelling house on Unit No. 5 of the T. H. Banfield Expressway in Multnomah County. He explained that although the house and the lot have been offered for sale, no offer to purchase it has been received as yet, probably because the house is very close to the right of way line. He also said that the property has been rented since 1951, and he gave as his opinion that inasmuch as it cannot be sold for a reasonable price, it probably would be wise to rent it for a number of years. The Commission concurred in his reasoning of the matter and thereupon authorized the expenditure as requested.

Consideration was given to the renewal of a lease agreement with Pacific Power and Light Company for the use by the Company of state highway property described as a portion of Block 61, Washburne Addition to the city of Springfield. The Right of Way Engineer advised that under the terms of the lease the Company is required to pay all of the taxes that are assessed against the property and $400 per year rental for a term of four years, beginning November 1, 1956. The Commission approved the lease renewal.

Sale of 0.56 acre of highway property, acquired originally from Roos and Murray, on the Barbur Boulevard-Marion County Line Section of the Wilsonville-Hubbard Highway, near Wilsonville, to Don G. and Helen F. Irion, was discussed. The Right of Way Engineer stated that the property is no longer required for highway purposes, and it is proposed to sell it to the Irions, who own the adjoining property, for the sum of $500.00, which is considered a fair price. The Commission confirmed the sale, with the understanding that no access is to be allowed to the freeway but will be allowed to the frontage road.

The Right of Way Engineer brought up the matter of constructing a new well on the I. B. Harris property, located on the Valley Junction-Sheridan Section of the Salmon River Highway in Yamhill County. He explained that Mr. Harris' original well has dried up due to the severing of a vein of water during highway construction. Mr. Harris, he said, does not wish to accept a cash settlement and insists that the State develop a new well for his use. The Right of Way Engineer recommended that a new well be constructed for Mr. Harris, at an estimated cost of $850. The Commission accepted his recommendation.

Lease of state highway property described as a portion of Lots 4, 5, 6, and 7 in Block 5, York Addition, Portland, to Associated Chemists,

Inc., was presented by the Right of Way Engineer. The property, he explained, is located on the Banfield Expressway and is not presently needed for highway purposes. The proposed lease covers a period of five years, beginning October, 1956, and contains a six-month cancellation clause. The lessee is to pay $500 annually and all taxes that are assessed against the property which is to be used by the lessee for a driveway from Sullivan Street to the rear of their factory. The Commission approved the lease.

Also considered was a proposed lease agreement with John P. Allison and Herbert G. Willsmore covering rental of highway property on the Salem-Pringle Creek Section of the Pacific Highway at Vista Avenue south of Salem. This property, the Right of Way Engineer explained, contains 0.12 acre and the proposed lease is for a period of three years from October 1, 1956; also, the lease contains a provision that it may be terminated on three months' written notice by either party. The lessee is to pay the State the sum of $35.00 per month in advance for the use of the property. Upon the Right of Way Engineer's favorable recommendation the Commission approved the lease.

A form of lease agreement with Lee U. Eyerly by which Mr. Eyerly is allowed the use of a parcel of property originally acquired from a Mr. Hilfiker on the Salem-Iliahee Section of the Pacific Highway south of Salem was presented by the Right of Way Engineer. The lease, he stated, covers a period of five years, beginning June 1, 1955, and contains a six-month cancellation clause; also, the lessee is to pay $62.40 per year and all taxes that are assessed against the property; moreover, the lease provides for restriction of access to the Pacific Highway East except at two designated 50-foot access points. The Commission approved the lease as reported.

The Right of Way Engineer stated that he has received a request from officials of the City of Monmouth for permission to open a new street 66 feet wide which will connect with the Pacific Highway West in the city of Monmouth at Engineer's Station 1025+08. He recalled that the Pacific Highway West is a controlled access highway and that any street connection to it must be approved by the Highway Commission. The plans for the street connection, he stated, have been approved by the Highway Engineer and he recommended that the Commission allow the connection as requested. The Commission accepted his recommendation.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission's resolution dated December 20, 1951:

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-20989- H. Irene Hinnells
Right of Way (Multnomah County)
0.469 acre

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway (Cont)

R-21165- A.F.K.O., Inc.
Right of Way (Multnomah County)
0.042 acre

R-22730- John C. Miller and Florence Miller
Right of Way (Multnomah County)
0.18 acre

R-23148- J. Jerold Norman and Judith McW. Norman
Right of Way (Multnomah County)
375 square feet

R-23674- Charles W. Marshall and Gertrude M. Marshall
Right of Way (Multnomah County)
5,000 square feet

R-24244- Mary Colistro
Right of Way (Multnomah County)
0.22 acre

R-24643- F. B. Turner
Right of Way (Multnomah County)
5,379 square feet

R-24837- Edmond Verdurmen and Elodie Verdurmen
Right of Way (Multnomah County)
6,831 square feet

R-22712- William F. Holmes and Shirley V. Holmes
Right of Way (Multnomah County)
1,820 square feet

Chehalem-Newberg Section, Hillsboro-Silverton Highway

R-24310- Dale D. Compton and Myrtle Compton, husband and wife
Right of Way (Yamhill County)
680 square feet

Salem By-Pass-Jefferson Junction Section, Pacific Highway East

R-25773- Ben F. Brandon and Phylis Jeanne Brandon, husband and wife
Right of Way (Marion County)
0.04 acre

R-25395- J. McNally & Fern McNally
Right of Way (Marion County)
0.13 acre

Salem By-Pass-Jefferson Junction Section, Pacific Highway East (Cont)

R-22123- Ben Bennett and Rosa Bennett, et al.
Right of Way (Marion County)
0.67 acre

Klamath Falls, West Side By-Pass Section of The Dalles-California Highway

R-23043- Herbert D. Amos and Lila H. Amos
Right of Way (Klamath County)
156 square feet

R-23069- Clifford Engelking
Right of Way (Klamath County)
10,404 square feet

R-23083- Jack E. Ferris and Dawn M. Ferris
Right of Way (Klamath County)
3,125 square feet

R-23099- Carl T. Wildermuth and Ruth Z. Wildermuth
Right of Way (Klamath County)
9,380 square feet

R-23102- Duane C. Schofield and E. J. Schramm
Right of Way (Klamath County)
3,600 square feet

R-23109- Murrell Betsch and Sally Joe Betsch
Right of Way (Klamath County)
210 square feet

R-23116- John D. Adams and Dorothy E. Adams
Right of Way (Klamath County)
650 square feet

McMinnville (Adams Street) Section of the Pacific Highway West

R-22204- William A. Stuhlfeier
New resolution to condemn a right of entry to go upon owners' remaining real property to remove and destroy a commercial structure which is located partially upon the right of way and partially upon the owners' remaining real property.

West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Section of the Redwood Highway

R-24432- Frank Ward and Vivian A. Ward
Right of Way (Josephine County)
0.25 acre

West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Section of the Redwood Highway (Cont)

R-24438- John J. Katin and Frieda H. Katin
Right of Way (Josephine County)
2.18 acres

R-25770- John J. Katin and Frieda H. Katin; William A. Decker and Fern A. Decker
Right of Way (Josephine County)
6.75 acres

River Banks Farm Section of the Rogue River Loop Highway

R-25172- Stanley M. Adcock and Henrietta H. Adcock
New resolution to eliminate taking of Parcel No. 2 and to increase the area of Parcel No. 1

Forest Grove-Hillsboro Section of the Tualatin Valley Highway

L-2545- George Behrmann, et al.
New resolution to change the location of existing accesses and to add new accesses

Sexton Mountain Section of the Pacific Highway

R-24502- Louise Trollope
Right of Way (Josephine County)
0.04 acre

Salem By-Pass-Jefferson Junction Section of the Pacific Highway East

R-24032- Asel C. Eoff and Mary J. Eoff
Right of Way (Marion County)
0.81 acre

R-24317- Carrie Hochspeier
Right of Way (Marion County)
Parcel No. 1: 1.83 acres
Parcel No. 2: 1.5 acres

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-25009- Paul J. Sabel and Margaret Sabel
Multnomah County
Parcel No. 1: 11,500 square feet Right of Way
Parcel No. 2: 8,500 square feet Excess Taking

R-22748- Tom McLean and Grace McLean fee owners; Glen J. Simley and Palmyre Marie Simley, contract purchaser (Multnomah County)
Parcel No. 1: 3,011 square feet Right of Way
Parcel No. 2: 17,000 square feet Excess Taking

Ferry Street Bridge-Mohawk Road Section of the Eugene-Springfield Highway

R-23532- Melvin L. Ellis and Bessie L. Ellis, husband and wife
Right of Way (Lane County)
0.70 acre

McMinnville (Adams Street) Section of the Pacific Highway West

R-22197- Parnel M. Grow and Alta E. Grow, et al.
Right of Way (Yamhill County)
870 square feet

R-22203- G. A. Nelson and Blanche M. Nelson, et al.
Right of Way (Yamhill County)
10,450 square feet
(Permit of entry to remove building)

R-22202- Cyril D. Henderson and Anabel D. Henderson
Right of Way (Yamhill County)
0.077 acre

R-24622- Ralph S. Grow
Right of Way (Yamhill County)
24,050 square feet

Myrtle Creek-Canyonville Section of the Pacific Highway

R-21030- Ora Weaver Carter and Harlan B. Carter, husband and wife
Right of Way (Douglas County)
Parcel No. 1: 12.57 acres
Parcel No. 2: 0.24 acre

R-25774- Thomas G. Bryant and Syble J. Bryant, husband and wife
Right of Way (Douglas County)
0.4 acre

R-21040 Venita Starns
Right of Way (Douglas County)
Parcel No. 1: 5.36 acres
Parcel No. 2: 2.00 acres

R-25622- Weaver District Improvement Company
Right of Way (Douglas County)
0.53 acre

R-21017- William P. Weaver and Mary H. Weaver
(Douglas County)
Parcel No. 1: 1.75 acres Right of Way
Parcel No. 2: 0.79 acre Excess Taking

September 27, 1956

Myrtle Creek-Canyonville Section of the Pacific Highway (Cont)

R-21015- Eleanor Jones
Right of Way (Douglas County)
Parcel No. 1: 3.38 acres
Parcel No. 2: 0.17 acre
Parcel No. 3: 1.04 acres

R-21016- Bess W. Briggs and Ermel Briggs, wife and husband
(Douglas County)
Parcel No. 1: 2.55 acres Right of Way
Parcel No. 2: 0.95 acre Excess Taking

R-23773- J. W. Irwin and Nora B. Irwin
Right of Way (Douglas County)
11.3 acres

Pacific Highway West (Harbor Drive and Clay Street and Columbia Street Interchange)

R-25151- R. M. Hofer and L. F. Hofer
(Multnomah County)
Access Control Only

Pacific Highway (within the City of Canyonville)

R-16307- H. M. Brainard and Rosa V. Brainard
Right of Way (Douglas County)
875 square feet

Right of way maps, construction plans and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBITS "J-1" through "J-15", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission accepted a report submitted by the Chief Counsel enumerating details concerning cases that have been tried in court since the Commission meeting held on August 16 and 17, 1956, as follows:

REPORT OF CONDEMNATION CASES TRIED AUGUST 29 TO SEPTEMBER 15, 1956

Case	County	Highway	Section	State's Offer	Defendant's Demands	Verdict
McBride R-22683	Clackamas	Cascade Secondary	S.E. Flavel-Lake Rd.	$ 850	$3,000	$4,500

REPORT OF CONDEMNATION CASES TRIED (Cont)

Case	County	Highway	Section	State's Offer	Defendant's Demands	Verdict
McClellan R-24572	Clackamas	Pacific East	Portland-Oregon City	$1,250	$12,400	$2,500
Kruger R-24146	Yamhill	Salmon River	Valley Jct.-Sheridan	6,200	7,500	7,530
McGill R-23424	Yamhill	Three Mile-Lane	McMinnville Airport-Dayton Jct.	2,500	6,000	6,250

In addition to the above cases, the Chief Counsel reported that two other cases have been disposed of. These cases are Darold V. Knox vs. State Highway Commission and Fred E. Dorn, L-2487, and Mildred Knox vs. State Highway Commission and Fred E. Dorn, L-2488, both actions arising out of an automobile accident on December 25, 1953, one mile east of the City of Umatilla. The two actions demanded recovery of total sum of $12,278 from State Highway Commission and Mr. Fred E. Dorn, operator of the State vehicle. Defense of the action was tendered to the insurance carrier for the State, and the service of summons and complaint upon the State Highway Commission was set aside, vacated, and quashed upon motion by attorneys for the insurance carrier. The cases are, therefore, terminated insofar as the Highway Commission is concerned, but the insurance company has not advised what disposition has been made of the cases insofar as they pertain to Mr. Fred E. Dorn.

(For additional details, see copy of the Chief Counsel's letter of September 20, 1956 in the General Files in Salem.)

The Commission considered and accepted a report from the Chief Counsel concerning cases which have been settled out of court since the Commission meeting held on August 16 and 17, 1956, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Reinertson R-24933	Coos	Empire-Coos Bay	Central Ave.	$ 2,500	$ 2,500
Burch R-18168	Polk	Willamina-Salem	Dolph Corner-Rickreall	7,625	8,000
Chapman R-24231	Umatilla	Pendleton-John Day	Pendleton-Pilot Rock	9,000 (inc. $500 fence allow.)	9,000 State to build fence

REPORT OF CONDEMNATION CASES SETTLED - Cont.

Case	County	Highway	Section	State's Offer	Amount of Settlement
Pearson R-23416	Yamhill	Three Mile Lane	McMinnville Airport-Dayton Jct.	$ 2,335	$ 3,800
Olsen R-22792	Union	Old Oregon Trail	Meacham-Hilgard	2,500 for partial taking	10,000 for entire taking
Payne R-24806	Baker	Old Oregon Trail	LaGrande-North Powder	Case dismissed by stipulation	
Caufield R-23801	Tillamook	Wilson River	Tillamook-Donaldson Cr.	Case dismissed	
Roth R-24149	Yamhill	Salmon River	Wallace Bridge-Sheridan	$ 8,000	$ 8,100

REPORT OF OTHER CASES SETTLED

Case	Plaintiff	Defendant	County	Cause of Action	Demand of Plaintiff	Settlement
L-2380	State	Glen H. Stout	Grant	Damage to bridge	$139.07	$100.00

(For additional details, see the Chief Counsel's letters, dated September 20 and 25, 1956, in the General Files in Salem, Oregon.)

In compliance with a resolution adopted by the Commission on December 20, 1951, the Chief Counsel presented offers that were tendered for the acquisition of real property prior to the institution of condemnation proceedings, as follows:

River Banks Farm Section of the Rogue River Loop Highway:

R-25169- William W. Woodward, et al. 2.62 acres for right of way purposes. Offer of $2,950.00 approved by Mr. McIver September 19, 1956.

R-25171 - Neal McCorkle, et al. 2.22 acres for right of way purposes. Offer of $3,450.00 approved by Mr. McIver September 19, 1956.

R-25172 - Stanley M. Adcock, et ux. 0.5 acre for right of way purposes. Offer of $450.00 approved by Mr. McIver September 19, 1956.

September 27, 1956

Meacham-Hilgard Section of the Old Oregon Trail Highway:

R-24089 - Pendleton Ranches, Inc. 36.82 acres for the acquisition of roadbuilding materials. Offer of $2,000.00 approved by Mr. Reynolds September 10, 1956.

Pendleton-Pilot Rock Section of the Pendleton-John Day Highway:

R-13014 - George R. Runyan, et ux. 0.076 acre for right of way purposes. Offer of $18,500.00 approved by Mr. Reynolds August 29, 1956.

McMinnville (Adams Street) Section of the Pacific Highway West:

R-22197 - Parnell M. Grow, et al. 780 square feet for right of way purposes. Offer of $250.00 approved by Mr. McIver August 29, 1956.

R-22204 - William A. Stuhlfeier, et ux. 0.297 acre for right of way purposes. Offer of $43,500.00 approved by Mr. McIver August 29, 1956.

R-24622 - Ralph S Grow, et al. 24,050 square feet for right of way purposes. Offer of $6,000.00 approved by Mr. McIver August 29, 1956.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway:

R-21290 - Multnomah County, et al. 27,000 square feet for right of way purposes. Offer of $10,125.00 approved by Mr. McIver August 29, 1956.

R-22546 - R. Glickman, et ux. 20,000 square feet for right of way purposes. Offer of $8,000.00 approved by Mr. McIver August 29, 1956.

Pacific Highway West:

R-23476 - Larry Hilaire, et ux. 0.84 acre for right of way purposes. Offer of $900.00 approved by Mr. McIver August 29, 1956.

Finn Rock-Elk Creek Section of the McKenzie Highway:

R-25132 - Arthur S. Dustan, et ux. 0.24 acre for right of way purposes. Offer of $600.00 approved by Mr. McIver August 29, 1956.

Reedsport-Hauser Section of the Oregon Coast Highway:

R-23883 - Roy Agee, et al. 0.28 acre for right of way purposes. Offer of $100.00 approved by Mr. Chandler August 21, 1956.

Unit No. 2 of the T. H. Banfield Expressway:

R-24650 - J. C. Anderson, et ux. 982 square feet for right of way purposes and 596 square feet for a temporary construction easement. Offer of $6,000.00 approved by Mr. McIver August 20, 1956.

Willamette River-Hayesville Section of the Portland-Salem Expressway:

R-25124 - William W. Cottew, et ux. 1.63 acres for right of way purposes. Offer of $675.00 approved by Mr. McIver August 20, 1956.

Wilderville-Grants Pass Section of the Redwood Highway:

R-22987 - George L. Shoaf, et ux. 0.83 acre for right of way purposes. Offer of $4,350.00 approved by Mr. McIver September 20, 1956.

R-23985 - Martin Kamsey, et al. 2.8 acres for right of way purposes and 0.3 acre for excess taking. Offer of $725.00 approved by Mr. McIver September 20, 1956.

Northbound Route of Ashland Section of the Pacific Highway:

R-23265 - Edith B. Mars, et al. 263 square feet for right of way and slope easement. Offer of $265.00 approved September 27, 1956.

The Commission approved the offers as presented.

Orders as issued by the Public Utilities Commissioner on matters pertaining to highways were reported by the Chief Counsel, summarized as follows:

PUX 178: Georgia-Pacific Plywood Company truck road crossing on a Lincoln County road. This matter involves a private road crossing with Lincoln County Road No. 520, and does not affect any state highway.

PUX 182: Alteration of grade crossing of the tracks and right of way of Southern Pacific Company on South 11th Street in Corvallis. This crossing does not involve any street under the jurisdiction of the Highway Commission.

PUX 189: Impaired clearance at the intersection of Sandy Boulevard and T. H. Banfield Expressway at N. E. 37th Avenue in Portland. This matter involves authorization for temporary impaired clearances over the tracks of Union Pacific Railroad Company in connection with reconstruction of the existing grade separation structure.

The Commission authorized abandonment of damage claims as follows, which have been reported by the Chief Counsel as being uncollectible:

CAO-55-126, Jack R. Ash: For damages to a State mower, incurred September 2, 1955 on US 30, approximately seven miles west of Pendleton, in the amount of $253.27. All efforts to locate Mr. Ash have been unsuccessful.

CAO-55-153, Alfred Roberts: For damage to a guardrail on the Coos Bay-Roseburg Highway on August 11, 1955, in the amount of $138.39. Mr. Roberts claimed that the accident was caused by a broken steering shaft on his Kenworth logging truck, and there are no witnesses to dispute his claim.

CAO-56-278, Wilson and O'Dell: For damages to a sign installation on June 5, 1956, at the junction of Highways 26 and 126, near Prineville, in the amount of $38.10. Neither Mr. Wilson nor Mr. O'Dell can be located.

CAO-56-290, James D. Collier: For damages to a State Highway Department truck at the Big Cliff Dam on the North Santiam Highway, June 5, 1956, in the amount of $130.66. Witnesses later stated that the operator of the State truck did not signal or turn properly and the State's insurance carrier has paid the claim of Mr. Collier against the State.

The Chief Counsel submitted a report on nine legal actions which have been instituted against the State as a result of a flash flood which occurred in the town of Mitchell on July 13, 1956. The total amount of these nine cases, he stated, is $207,500 plus interest at six percent plus $62,250 attorney's fees. The plaintiffs contend that a new bridge constructed by the Highway Department across Bridge Creek at the westerly end of Mitchell narrowed and altered the channel so as to cause flood waters to flow at a greatly increased velocity and volume upon the property of the plaintiffs. A motion, he added, has been filed to quash and dismiss all of the cases on the grounds that the State can be sued only in Marion County. No action has been taken on the motion as yet, and it is probable that the Court will defer action until the Supreme Court renders a decision in connection with a mandamus action in the case of the State vs. Goodwin involving a similar question.

He also reported that on August 28, 1956 a service of summons and complaint had been made upon Mr. H. B. Glaisyer, Secretary, in the case of Osborn vs. State of Oregon. The plaintiffs demand the sum of $10,000 plus interest at six percent and an additional sum of $3,500 as attorney's fees for damages to their market and filling station in the town of Mt. Vernon. They contend that in the year 1953 the grade of the John Day Highway in front of the plaintiffs' property was raised, causing flood waters to back up on their property. It appears, he continued, that resurfacing of the John Day Highway in 1953 did raise the grade a few inches, but the flooding of the plaintiffs' property was in no way caused or made more severe by any facilities or activities of the State Highway Department. A motion has been filed to dismiss this case on the grounds that the Commission can be sued only in Marion County. The Commission accepted both reports.

The Commission gave attention to possible changes in proposed legislation to be submitted to the 1957 Legislative Assembly. The Chief Counsel recalled that the Commission previously approved an increase in the State Highway Engineer's Revolving Fund from the sum of $1,000,000 to $2,000,000. Because of a shortage of funds for highway construction, it appears to be in the best interests of the State that the increase be limited to $1,500,000. The Commission gave its approval to such revision.

The Chief Counsel also recalled that among other legislative bills which the Commission had approved was one designed to transfer jurisdiction and control over the shore of the Pacific Ocean from the State Highway Commission to the State Land Board. He said that a copy of the bill was submitted to the State Land Board for consideration and that a letter has been received from Mr. E. T. Pierce, Clerk of the State Land Board, stating that the Board considers that such transfer of the control of the shore will not contribute to the efficiency and the economy of state government. He requested instructions from the Commission whether or not to withdraw the bill. Chairman Chandler expressed his feeling that the Highway Commission should not have this responsibility unless it has full control of the ocean shore. It was his thought that inasmuch as the State Land Board has control of other public lands, it should also have control of the ocean shore so all public lands would be under the jurisdiction of one body. Commissioner Reynolds expressed his concurrence with the Chairman's point of view, and he suggested that the matter be referred to the Legislature for action. The Commission adopted the suggestion.

The Chief Counsel commented that it appears that of the twelve legislative matters that were approved by the Highway Commission, the Highway Interim Committee is willing to sponsor only two of the more minor proposals.

Confirmation for out-of-state travel to the State of Washington was requested by the Chief Counsel to cover his trip to Olympia, Washington, on September 13 and 14, 1956, to attend a joint educational seminar to discuss problems encountered in the acquisition of real property for highway purposes. He stated that he was invited to speak on the subject "Fixtures vs. Personal Property" because of experience in the case of the State vs. Superbilt Manufacturing Company. The Commission confirmed his traveling expenses in the amount of $41.50, originally authorized by Chairman Chandler.

The Chief Counsel requested and the Commission approved employment of the following attorneys to work in the Legal and Right of Way Department: Leo V. Nuttman at a salary of $426 per month, effective October 1, 1956; Luther L. Jensen, Jr., at a salary of $410 per month, effective October 1, 1956. He also requested and the Commission approved salary increases for William Mansfield and Gale Powell, Assistant Attorneys, as they have now completed their initial six months' employment. The Attorney General, he said, has authorized increases for these men from $459 to $477 per month. He also requested and the Commission granted authority to employ three additional attorneys immediately to work

in the Trial Section, with the understanding that when qualified and competent attorneys are found Commission approval will be obtained before making official appointments.

Termination of an access road permit heretofore granted to Chester Conger on 7th Avenue in Eugene was discussed. The Chief Counsel recalled that on August 17, 1956 the Commission conveyed by deed to the City of Eugene the property to which this access road is applicable. It is planned that the property will be used by the City of Eugene as a city street, and it no longer is necessary for the access road permit to be outstanding. The permit, he said, specifically provides for termination on 30 days' written notice, and he recommended that it be officially revoked, effective November 5, 1956, and that he be authorized to notify the permittee of the Commission's action. The Commission approved the revocation of the permit.

Mr. Robert C. Notson, Portland, member of the Travel Advisory Committee, came before the Commission to present a proposed budget for the Travel Information Department for the year 1957. He presented a copy of the proposed budget and explained that it contemplates an increase of approximately 1 percent over that approved by the Commission for 1956. Chairman Chandler stated that the Commission will give the budget careful consideration and will take final action on it at the November Commission meeting. He expressed appreciation for the excellent job that has been performed by the Travel Advisory Committee in its report on state parks.

The Engineer reported that under authority previously granted him by the Commission he has awarded contracts as follows, the conditions of the awards having been satisfied:

(1) Grading and paving on North Unit of Pendleton-Pilot Rock Section of Pendleton-John Day Highway, Umatilla County. Bids received June 4, 1956. Conditions of award satisfied August 17, 1956. Rogers Construction, Inc., Portland, low bidder.

(2) Construction of Slate Creek Bridge on Redwood Highway at Wilderville, Josephine County. Bids received August 16, 1956. Conditions of award satisfied August 21, 1956. Ausland Construction Co., Grants Pass, low bidder.

(3) Stone base and oiling the Iowa School-LaGrande Section of Mt. Glen Road, Union County. Bids received August 16, 1956. Conditions of award satisfied August 22, 1956. Simonsen & Company, Baker, low bidder.

(4) Construction of Lost River Bridge and K.I.D. "A" Canal Bridge, Klamath County. Bids received August 17, 1956. Conditions of award satisfied August 24, 1956. Tom Lillebo, Reedsport, low bidder.

(5) Grading and paving on S. Unit, Pendleton-Pilot Rock Section of Pendleton-John Day Highway, Umatilla County. Bids received July 12, 1956. Conditions of award satisfied August 24, 1956. Roy L. Houck & Sons, Salem, low bidder.

(6) Construction of Clear Lake Bridge on Clear Lake County Road No. 604, Marion County. Bids received August 17, 1956. Conditions of award satisfied August 28, 1956. Johnston & Bryant, Newberg, low bidder.

(7) Grading and oiling the Indian Creek-Windmaster Corner Section of Brookside Drive Road, Hood River County. Bids received August 17, 1956. Conditions of award satisfied August 29, 1956. Babler Bros., Inc., Portland, low bidder.

(8) Grading and paving and construction of a bridge on East Unit, Finn Rock-Elk Creek Section of McKenzie Highway, Lane County. Bids received August 16, 1956. Conditions of award satisfied September 5, 1956. A. H. Saxton & Son, Portland, low bidder.

(9) Grading and oiling and furnishing crushed material in stock piles on Walton-Noti Section of Richardson-Eugene Highway, Lane County. Bids received August 16, 1956. Conditions of award satisfied September 7, 1956. Morse Bros. & Durbin Bros., Harrisburg, low bidder.

(10) Construction of McKay Creek Bridge and widening of Tutuilla Creek Bridge on Pendleton-John Day Highway, Umatilla County. Bids received July 13, 1956. Conditions of award satisfied September 18, 1956. Rogers Construction Co., Portland, low bidder.

(11) Grading and paving Horseshoe Bend-Gwynn Undercrossing Unit, Juntura-Vale Section of Central Oregon Highway, Malheur County. Bids received August 16, 1956. Conditions of award satisfied September 21, 1956. C. E. Leseberg, Nyssa, low bidder.

The Engineer presented a report concerning a hazardous condition as reported by the Al Pierce Lumber Company on the Oregon Coast Highway at the access to the lumber company's dock between Coos Bay and North Bend. This access, he stated, is on the east side of the highway, and when ships are loading and unloading at the lumber dock there is a great deal of parking along the east side of the highway. He recommended that parking be prohibited along the east side of the Oregon Coast Highway from M.P. 236.86 (Engineer's Station 216+30) to M.P. 236.88 (Engineer's Station 217+40). The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer presented a report concerning a request from the trucking industry for a test run with a truck and trailer having an overall length of 60 feet, over the Cove Secondary Highway in Union County. He said that the test run revealed that such equipment can negotiate the entire length of the highway without encroaching upon the opposing traffic lane. He further stated that in view thereof and under authority previously granted him, he approved on August 23, 1956 the reclassification of the Cove Secondary Highway from a Group II status to a Group I classification. The Commission confirmed his action.

The Commission gave attention to a proposed letter directed to Mr. F. E. Andrews, Division Engineer of the Bureau of Public Roads, Portland, concerning the possibility of constructing the Interstate Bridge project between Portland and Vancouver, Washington, as a Federal-aid Interstate Highway project. The Engineer stated that the matter had been discussed with Mr. Clark, Deputy Commissioner of the Bureau of Public Roads in Washington, D. C., Mr. Andrews, and Mr. W. A. Bugge, Director of Highways for the State of Washington, and by phone with Commissioners Reynolds and McIver. The Commission considered the proposed letter carefully and authorized the Engineer to sign it after making some changes as suggested by the Engineer and by Mr. Bugge.

(For details, see an executed copy of the letter in the General Files in the Highway Commission Office in Salem.)

The Commission gave attention to a report submitted by the Engineer concerning an extension of Foster Road, southeast Portland, to a connection with the Mt. Hood Highway as requested by a delegation that appeared before the Commission on August 17, 1956. The Engineer presented a map showing the proposed route and estimated that construction would cost approximately $3,700,000, including right of way, based on four-lane construction. He pointed out, however, that even if the Foster Road Section were constructed it still would be necessary to four-lane a section of the Powell Valley Highway from a point near 50th Avenue in Portland to Gresham, estimated at $2,250,000, and if the improvement of the Mt. Hood Highway southeasterly from Gresham to a connection with the proposed Foster Road extension were included an expenditure of an additional $1,650,000 would be required. The Commission accepted the report and ordered a copy of it sent to the spokesman for the delegation which appeared at the August meeting.

The Engineer reported that pursuant to instructions from the Commission at the previous meeting a conference was held in Eugene on September 6 among representatives of the City, University of Oregon, and others with respect to the closure of 13th Avenue across the campus of the University of Oregon in Eugene, at which time his plan for the solution of the University's problem was discussed in detail. The local group, he said, took no action to put the plan into operation; on the contrary, there appeared to be some objection to the plan by some of the councilmen, which indicated that there is no meeting of minds at the local level as to the desirability of proceeding with the project. In view of this situation, he

recommended that the matter be held in abeyance until such time as the local authorities submit a definite proposal. The Commission accepted his recommendation.

The Engineer submitted a written report on his study of the Highway Department's financial condition, with particular regard to financing the new Federal-aid program. The Commission deferred action until later in the session. See ahead for additional entry.

The Commission considered a report submitted by the Engineer concerning the financing of a proposed bridge across the Columbia River at Astoria. In his report the Engineer pointed out briefly that the estimated cost to construct the bridge now, including financing costs and interest, is slightly more than $34,000,000, and that to finance a bond issue of this size the States of Oregon and Washington would be required to contribute $8,545,000 to keep up interest payments, starting at $720,440 in 1962 and decreasing to zero in 1983, an average annual cost of $360,220, which would be divided equally between the two states. Retirement of the bonds on this schedule, he said, would start in the year 1994 and would be completed in 2016. He questioned that bonds of a term this long could be sold. A second possibility would be to issue revenue bonds for the $17,700,000 that, according to the Tudor report, the bridge revenue would support, and a second bond issue to be paid by the States concurrently with the revenue issue. This plan would require approximately $923,175 per year over a 32-year period to retire the $16,500,000 to be paid off by the States.

The Engineer also presented a report concerning the operation of the ferry boats between Astoria and Megler, Washington. It appears that to adequately handle traffic during the next 10-year period it will be necessary to add another ferry boat comparable to the "Chessman", at a cost of about $750,000. Based on past experience, the annual deficit for this additional ferry would be approximately $47,500, which, added to the present deficit of about $80,000, would indicate an annual deficit of $127,500 to operate the ferries. He also called attention to the possibility that it might be necessary to add still another ferry, which would increase the deficit. For purposes of consideration he pointed out that if a new bridge could be financed through the sale of bonds at an annual cost to the two States of $720,440, beginning in 1962 and diminishing to zero in 1983, the average annual cost to each of the States would be $181,100. If the bridge were built this deficit is scheduled to cease after 21 years and could be returned in another 36 years. The deficit on the ferry operation, beginning at $127,500 at such time as a new boat is put into service, would probably increase and would go on forever. He also called attention to the fact that two of the present ferries are now 25 and 30 years old and one of them will have to be replaced in a few years. If there is any appreciable increase in the number of ferry boats in service, construction of new terminal facilities also will be required which would cost in the neighborhood of $250,000. He called attention to the fact that there are many assumptions in this analysis, but on the basis of information available it was his thought that serious consideration should be given to building a bridge if it is possible to sell bonds that would mature in 56 years.

The Commission also considered a report submitted by the Chief Counsel concerning the legal aspects of financing a bridge across the Columbia River at Astoria. It was his opinion that the Highway Commission has legal authority to obligate itself to pay such amounts as are necessary to pay interest charges upon revenue bonds, and that the Commission also has legal authority to issue bonds payable out of the State Highway Fund with which to pay a part of the cost of constructing a toll bridge at this location. He added a word of caution, however, in that bond attorneys are inclined to raise highly technical questions concerning the bonding authority of public bodies, and he suggested that consideration be given to the introduction of express legislation on the subject if a financing plan is viewed with favor.

The Commission accepted the reports but deferred action thereon until the next day. (Discussion of this subject was resumed on the following day, at which time the Engineer was instructed to confer with the Washington authorities and ascertain their attitude with respect to the project without urging its approval. Out-of-state travel for the Engineer, the Deputy Engineer, Mr. Forrest Cooper, and Assistant Engineer, Mr. G. S. Paxson, to go to Olympia, Washington, for this purpose was authorized.)

(For further details, see the Engineer's letters of September 20 and 21, 1956 and the Chief Counsel's letter of September 20, 1956 in the General Files in Salem.)

The meeting recessed at 12:00 noon for luncheon and reconvened at 2:00 p.m. with the same persons present and participating.

Representatives of the Bureau of Public Roads and the U.S. Forest Service appeared before the Commission to discuss a program for $3,500,000 of new forest highway money that is available. Present were: R. W. Kellogg, Engineer of Federal Construction, and W. A. Wood, Highway Engineer, representing the Bureau of Public Roads; R. F. Grefe, Regional Engineer, and V. M. Blackwell, Highway Engineer, representing the U.S. Forest Service. Mr. W. C. Williams, State Highway Engineer, presented a list of proposed projects and recommended that they be approved. Mr. Grefe and Mr. Kellogg stated that the proposed projects meet their approval. As a result of careful consideration the projects were approved unanimously by the Commission as presented upon motion offered by Commissioner Reynolds, seconded by Commissioner McIver. (The following letter, listing the projects as mutually approved, was signed by the Commission on the following day but is entered here as a matter of convenience when referring to the subject:)

(See following page for letter.)

DEPARTMENT OF COMMERCE
Bureau of Public Roads
Division 8

P. O. Box 3900
Portland 8, Oregon

September 28, 1956

Commissioner of Public Roads
Chief, Forest Service
Washington 25, D. C.

Gentlemen:

In accordance with the Rules and Regulations for Administering Forest Highways, the Forest Highway program outlined herein is recommended by the Regional Forester, Region 6, the Oregon State Highway Commission, and the Division Engineer of the Bureau of Public Roads.

Fiscal Year 1958 funds available for programing	(lapsing)	$3,815,607.00
Unprogramed balance from previous fiscal years	(lapsing)	23,883.67
Unprogramed balance from previous fiscal years	(non-lapsing)	24,721.65
Total available		$3,864,212.32

Project and Account No.	Route Name and Type of Work	Length (Miles)	Forest Highway Funds
REVISED PROJECTS			
	Withdraw previously approved project to increase allocation		
FH 25-A11 (L-3233-00)	Mt. Hood Highway Grading	2.4	-575,000
	Substitute the following project		
FH 25-A11 (L-3233-00)	Mt. Hood Highway Grading	2.4	775,000
NEW PROJECTS - CONSTRUCTION			
FH 3-A2 (L-3345-00)	Oregon Coast Highway Grading	.75	670,000
GH 8-A4, B4 (L-3346-00)	Umpqua Highway Grading, Surfacing and Bituminous Treatment	3.5	400,000

September 27, 1956

For Commissioner of Public Roads

Approved:

Acting Chief, Forest Service Date

The Engineer referred to a request from the Tillamook County Court, and others, for construction of a cut-off highway between Boyer on the Salmon River Highway and Dolph on the Three Rivers Highway. The suggested route, he said, lies in Tillamook County, and it has been proposed to substitute it in the Forest Highway program for the section of the Three Rivers Highway between Dolph and Valley Junction, which lies mostly in Yamhill County; in fact, the County Courts of both counties have indicated a willingness to take over the section of the Three Rivers Highway if the State will construct the new section from Dolph to Boyer. He recommended such substitution of highways if the Federal authorities will approve it. The Commission indicated a favorable attitude toward the change but took no action at this time, it appearing to the Commission that the change should be initiated by the Counties in writing and that the Counties should declare themselves definitely with respect to the Dolph-Valley Junction Section.

The matter of reconstructing to freeway standards the Pacific Highway between Blackwell Hill and Ashland in Jackson County, by-passing Medford, was discussed. The Engineer explained details with respect to the four alternate routes that have been studied, viz. (1) the Hillcrest line, which is 25.67 miles long and is estimated to cost $18,343,000; (2) the Genessee line, which is 25.75 miles long and is estimated to cost $18,295,000; (3) the Hawthorne Park line, which is 25.68 miles long and

is estimated to cost $18,723,000; and (4) the West Medford-Oak Grove route, 25.36 miles in length, which is estimated to cost $22,497,000. He remarked that the information obtained in the surveys indicates that the Genessee route will be the least expensive and will cause the least loss of tax monies from destruction of farm and fruit land. He recommended in order to satisfy the legal requirements that a hearing be held in Medford some time during the latter part of October and requested authority to submit maps and other pertinent data to the cities affected, including the Jackson County Court and the local Chambers of Commerce, approximately three weeks before the hearing date. As a result of discussion, the Commission adopted the recommendation and set the hearing date for 10:00 a.m. on Thursday, October 25 in Medford. The Secretary was instructed to notify the Mayor of each city and town affected by the improvement.

The matter of holding a public hearing in the city of Ashland concerning reconstruction of the Pacific Highway along North Main Street was discussed. The Commission authorized the Engineer to conduct such a hearing in Ashland within the two or three weeks, the exact date to be determined later, it being understood that the Commission would probably not be present. The Commission also authorized the Engineer to conduct hearings in other cities and towns affected by the proposed relocation of the Pacific Highway in Jackson County, if requested by the cities. (The Engineer later set Wednesday, October 17, 1956 as the date for the Ashland hearing, same to be held in the City Hall, Ashland, and to start at 3:00 p.m.)

Hon. Guy Boyington, County Judge, Clatsop County, was present. He said that he had nothing particular in mind to discuss with the Commission except that he wanted to express appreciation for the improvements that have been made in Fort Stevens State Park and for the consideration that has been given toward constructing a bridge across Youngs Bay at Smith Point in Astoria.

The following items of unfinished business, appearing on the Secretary's summary, dated August 17, 1956, were considered by the Commission:

1. Feasibility study of the Diamond-Crater area near Burns for recreational development: This item was ordered deleted from the list of unfinished business as the Parks Superintendent had reported on it earlier in the day.

2. Proposed closure of 13th Avenue at the University of Oregon in Eugene: This item is to be removed from the list of unfinished business as the Engineer presented a report on the subject earlier in the session.

3. Proposed Columbia River Bridge at Astoria: Inasmuch as the Engineer and Chief Counsel had previously submitted reports on this subject, the Commission ordered the item deleted from the list of unfinished business.

4. Purchase of right of way on proposed realignment of US 197 between The Dalles and Eightmile Creek: The Engineer stated that the Wasco County Court has indicated to him that it intends to discuss the matter with the Commission at its November meeting, and that the Court restated its willingness to purchase needed right of way for the proposed relocation and to give the State authority to condemn properties as may become necessary. The County Officials, he added, have also indicated that they plan to reissue bonds for the bridge across the Columbia River at The Dalles and have tentatively offered approximately $400,000 for improvement of US 197 south of Eightmile Creek. The Commission took no action. This item was ordered deleted from the list of unfinished business.

5. Proposed sale of bonds to finance new highway program: The Engineer stated that after careful study of the projected financial condition of the State Highway Department during the next few years, it appears that current revenues will not be sufficient to carry the maximum possible contracting load during the beginning years when available match monies are at the lowest levels and when the required amounts are at their highest, so it will be necessary to provide additional monies to carry on during that period if the program is to proceed as planned. He gave the following reasons for not being able to carry the program at the maximum rate during the early years:

1. The program was originally planned to cover a 13-year period but in actual operation it covers only 12 calendar years, thus increasing the annual program by approximately 8 percent.

2. Due to the retroactive feature of the law, funds for the first two years were made available at the same time, so the program for the first year of contracting was increased approximately 50 percent.

3. The ratio of non-interstate funds to interstate funds was materially increased, thereby adding to the amount of required matching funds.

4. Amounts of State money available for matching Federal-aid have decreased due to increased amounts of state funds required for maintenance and other non-construction activities.

5. The need to be more conservative than heretofore in estimating the rate at which Federal-aid money can be collected so as to avoid creating a fund deficit.

He presented a number of tables in support of his oral remarks, some of which contemplate a program that can be financed without selling bonds, and others which contemplate a program that will require the sale of short-term bonds in the amount of $8,000,000, of which $4,000,000 would be sold in 1957 and $4,000,000 in 1958. He recommended that the Legislature be asked to authorize such a bond issue, which could be retired by the end of 1965 and would permit the contracting of work through 1957, 1958 and 1959 at a rate of $36,900,000 per year, and purchase of right of way which is estimated to cost an additional $7,000,000.

The matter was discussed at length, during which Chairman Chandler recalled that former Governor Paul Patterson and the present Governor, Hon. Elmo E. Smith, both indicated about two years ago that such a procedure might be followed. The Chief Counsel pointed out that the Commission now has certain authority to sell bonds in situations of this nature. It was the expressed feeling of the members of the Commission that it might be wise to secure new legislation covering the matter regardless of the present authority; accordingly, the Engineer was instructed to discuss the matter with Governor Smith and secure his advice and counsel as to the method to pursue, and to ask his support in presenting the matter to the Highway Interim Committee. The Engineer was further instructed to report to the Commission, by telephone, the results of his interview with the Governor. The Commission will then decide which method of procedure is the most feasible - to act under authority granted under the present law or to secure new legislation. The Commission indicated its approval of the $8,000,000 bond issue as recommended by the Engineer.

(Note: For additional details concerning financing of the federal program, see copy of the Engineer's letter to the Commission, dated September 21, 1956, in the General Files.)

The Commission ordered this item deleted from the list of unfinished business.

6. Request of the U. S. Forest Service that the State take over a forest camp near Unity: The Parks Superintendent stated that Forest Service officials have requested that this matter be held in abeyance for the time being. In view of this information the Commission ordered the item deleted from the list of unfinished business. It is to be considered as new business if and when it again arises.

The Engineer requested authority to spend about $700 to install a flashing beacon at the intersection of the Sunset Highway and Murray Road, west of Portland. This location, he stated, was carefully investigated by the Traffic Engineer, and the findings disclosed that a flashing beacon should be installed for the protection of the traveling public. The Commission approved the installation as requested.

The Engineer recommended the installation of a flashing beacon at the intersection of the Springfield-Creswell Highway and the Fall Creek County Road in Lane County, which he estimated will cost about $500. He explained that this is a T-type intersection where state highway traffic is required to make a right-angle turn; also, that an investigation by the Traffic Engineer discloses that were a flashing beacon installed the accident rate would decrease. The Commission approved the installation.

In this connection the Engineer also recommended that the through-stop highway resolution adopted September 21, 1949, so far as it concerns

the Springfield-Creswell Highway, be amended to require vehicles eastbound on the Springfield-Creswell Highway to stop before entering the intersection and to allow northbound vehicles on Fall Creek County Road to proceed without stopping. This action, he stated, is necessary because of the volume of traffic that enters the intersection from the county road. The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

A letter was presented from Robert A. Finlayson, City Manager of Eugene, requesting the installation of traffic signals at the intersections of Sixth and Seventh Avenues with Garfield Street in Eugene, Sixth and Seventh Avenues being the streets over which Pacific Highway travel is routed. An investigation conducted by the Traffic Engineering Division, the Engineer stated, revealed that traffic volumes at these two intersections exceed minimum warrants for signalization. He recommended in view thereof that fixed time traffic signals be installed, complete with an interconnection with the existing traffic signal system, at an estimated cost of $7,000, using 1957 Minor Betterment Funds to finance the work. The City of Eugene, he added, has agreed to pay one half the cost, or $3,500, to furnish electrical energy, and to maintain the signals after the installation is complete. The Commission approved the project subject to the City's paying one half the cost.

The Engineer reported that two surveys previously authorized by the Commission have been completed. The route recommended for each survey, he stated, has been selected to provide the traveling public with the best highway facility commensurate with the cost. He pointed out that construction is scheduled to be performed on both projects in the coming highway program, provided that the surveys are approved, and he accordingly recommended approval of the surveys at this time. After due consideration, the Commission approved the surveys as follows, by adopting the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

1. Peach-Jonesboro Section of the Central Oregon Highway in Malheur County.

2. Tunnel-Namorf Section of the Central Oregon Highway in Malheur County.

Increases in project authorizations for the following contracts were requested by the Engineer and approved by the Commission:

1. An increase of $21,000 for Contract No. 4540 on the Hillsboro Section of the Tualatin Valley Highway. Additional improvements on First and Ninth Streets and the widening of Tenth Street between Oak and Baseline Streets were responsible for the additional cost.

2. An increase of $20,000 for Contract No. 4497 for work on the Louse Creek-Grants Pass Section of the Pacific Highway. This overrun was caused by a grade change due to unstable material and additional drainage for erosion control.

3. An increase of $15,000 for Contract No. 4650, construction of the S. E. Stark Street-Powell Valley Road connection. This overrun was due to a change in grade caused by the main conduit of the Bull Run water supply being encountered at a higher elevation than was reported by the Portland Water Bureau, and additional storm drainage.

Consideration was given to a proposal from the Board of County Commissioners of Multnomah County for a cooperative agreement providing for widening of the Ross Island Bridge by removing the south sidewalk and replacing it with roadway deck. The Engineer reviewed the matter briefly, recalling that an informal request from the County was considered at the June Commission meeting, but action was deferred pending a definite proposal from the County. The estimated total cost of the project, he said, is $180,000 and the County has stated a willingness to assume one half of the expense. He pointed out that presently there are two sidewalks on the bridge, and he advised that removal of the south sidewalk will allow for widening the roadway for four traffic lanes, each ten feet wide. He added that the improvement is a desirable one, and he recommended acceptance of the County's offer, the arrangement to be covered by an appropriate agreement between the County and the State. The Commission accepted the recommendation, with the understanding that the project is to be contracted in 1957.

The Commission gave attention to a letter from the Seaside Chamber of Commerce endorsing a resolution adopted by the City Council of Seaside urging relocation of the Oregon Coast Highway along Roosevelt Drive. The Engineer commented briefly that the project is not included in the next two-year program, but he believed it possible to undertake the project in the following three-year program. The Commission deferred action pending the appearance of a delegation.

(When the delegation appeared the Commission informed them that if funds to finance the project can possibly be found the work will be undertaken in the third year of the program that is now being started.)

The Commission considered a protest from Merrell Steel Building, Inc. against award of a contract to P. S. Lord Mechanical Contractors for construction of a latrine at Fort Stevens State Park in Clatsop County, on which bids were received August 16, 1956. The Engineer recalled that the Merrell bid, which happened to be the low one received for this job, was not read at the August 16 opening because the contractor had failed to sign the proposal bond. He recommended confirmation of the award, as made, as a matter of policy. The Commission confirmed the award of the contract to P. S. Lord Mechanical Contractors.

Payment of the sum of $7,591.23 to the Maplewood Water District for the actual cost to rearrange its water facilities on the Washington

County Line-Hillsdale Section of the Hillsdale-Beaverton Highway was discussed. The Engineer stated that when plans were formulated for this job an estimate based on information then available indicated that the cost to rearrange the facilities would be approximately $5,150, and an agreement was entered into with the Water District to reimburse the District for the necessary rearrangement on an actual cost basis but not to exceed such sum; however, when the work was performed changes were necessary which were not contemplated when the original estimate was made, and as a result the total cost of the project increased to $7,591.23. A review of the situation, he said, indicates that a billing in this amount would be a fair charge and he recommended that the Water District be reimbursed on an actual cost basis but not to exceed $7,591.23. The Commission approved the payment.

Consideration was given to the Engineer's recommendation that the Commission enter into a contract with Wasco Electric Cooperative, Inc., for an extension of its power line to provide electrical energy for the Warm Springs Junction Maintenance Station. The Engineer explained that there are no private buildings nearby and the State provides residences for five families and trailer shelter for four trailer houses. Electrical energy has been provided in the past by a diesel electric generator plant, but this plant is not large enough to provide the current that is needed, particularly during the winter season, and an investigation was made as to the possibilities of securing commercial power. The Wasco Electric Cooperative, he said, has agreed to extend its line approximately four miles to the maintenance headquarters provided the State will pay a minimum of one percent of the construction cost each month for a period of five years, after which regular service rates will apply. Cost of the power line extension, he stated, is estimated at $8,000, which would be at the rate of $80.00 per month for five years. He said also that occupants of the five residences and trailer shelters will pay over one half of the $80.00 minimum monthly charge, so the annual cost to the State should be less than $480.00. He pointed out that the cost to operate and maintain the present electrical plant is $950.00 per year. The Commission approved the contract as recommended.

The Engineer reported that it will cost approximately $1,000 to complete the economic analysis and reconnaissance survey of the Elsie Cutoff extending from the Sunset Highway near Elsie, in Clatsop County, to the town of Wheeler, in Tillamook County. He recalled numerous requests for this road, particularly for the survey, and he recommended in view of the fact that personnel are now availble for this type of work, that the Commission authorize completion of the survey. The Commission authorized completion of the survey as requested.

A request was made by the Engineer for authority to spend an additional $4,705 as the State's share of the cost to widen two blocks on Main Street in the city of Enterprise, which is used as the route of the Wallowa Lake Highway. He recalled that the Commission at its meeting on June 4 and 5, 1956 approved a cooperative project with the City, based on a total cost of $8,000, of which the City was to bear 25 percent ($2,000) and the

State 75 percent ($6,000). After a detailed survey was made, it was found that the widening of these two blocks will cost $14,275. The City has signified its willingness to contribute 25 percent of the revised estimate, or $3,570, leaving a State contribution of $10,705. The Commission approved the project as revised.

Consideration was given to a request from the City of Delake that the State construct a footpath under the "D" River Bridge on the Oregon Coast Highway at Delake. An investigation, the Engineer reported, indicates that there is sufficient pedestrian traffic to justify an expenditure for this purpose, estimated at $500, and he recommended that the footpath be constructed this year, if possible, within the limits of the highway right of way beneath the north approach span to the bridge as a Minor Betterment project. The Commission approved the project by adopting the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission gave attention to the adoption of a budget for the 1957-59 biennium for submission to the 1957 Legislative Assembly. The Engineer presented a budget summarized by budget classification as follows:

	Estimated 1955-57	REVENUES Proposed 1957-59	Over-(Under) Current Biennium
State funds	$113,490,000	$ 117,900,000	$ 4,410,000
Federal funds	29,050,000	50,632,000	21,582,000
Cooperation and misc. funds	3,925,000	2,270,000	(1,655,000)
Sub total	$146,465,000	$170,802,000	$ 24,337,000
Less contributions	36,229,034	37,967,325	1,738,291
Sub total	$ 110,235,966	$132,834,675	$ 22,598,709
Balance carried forward from previous period	21,351,515	4,281,481	(17,070,034)
Total funds available	$131,587,481	$137,116,156	$ 5,528,675

	Estimated 1955-57	EXPENDITURES Proposed 1957-59	Over-(Under) Current Biennium
Construction	$ 62,855,000	$ 61,710,000	($ 1,145,000)
Rights of Way	13,000,000	16,000,000	3,000,000
Other capital outlays (net)	6,526,000	8,560,000	2,034,000
Maintenance	24,395,000	25,320,000	925,000

(Continued on next page)

(Continued)	EXPENDITURES Estimated 1955-57	Proposed 1957-59	Over-(Under) Current Biennium
Operations and personal services	$ 9,864,000	$ 12,969,000	$ 3,105,000
Debt service	10,666,000	10,274,000	(392,000)
Total expenditures	$127,306,000	$134,833,000	$ 7,527,000

The Engineer explained that the budget contemplates limiting the contracting of the new Federal-aid program to $26,100,000 per year for the calendar years 1957, 1958 and 1959, as this is the maximum rate that can be financed without increasing the State Highway income. After discussion, the Commission approved the budget as prepared.

The Engineer recalled that in 1947 the Commission established rules and regulations pertaining to the administration of the $250,000 special city street funds and ordered as one of the requirements that no allocation to any city should exceed $ 15,000 in any one year. He pointed out that due to rising costs a project that could have been performed for approximately $15,000 in 1948 would now cost approximately $20,000. He recommended in view thereof that the $15,000 limit be raised to $20,000. The Commission approved such increase in allocation amount, subject to concurrence by the League of Oregon Cities.

The Commission considered a report submitted by the Engineer showing amounts available for programming for county Federal-aid Secondary Projects during the fiscal years 1958 and 1959. Upon the Engineer's favorable recommendation, the Commission, after study, approved the allocation of such funds as follows:

SUMMARY OF TOTAL COUNTY FAS FUNDS AVAILABLE FOR PROGRAMING
(September, 1956)

County	Balance 1957	1958	1959 (Estimate)	Total
Baker	$ 9,000	$ 59,000	$ 61,000	$ 129,000
Benton	13,000	73,000	75,000	161,000
Clackamas	35,000	239,000	245,000	519,000
Clatsop	13,000	77,000	79,000	169,000
Columbia	11,000	93,000	96,000	200,000
Coos	17,000	113,000	116,000	246,000
Crook	9,000	58,000	60,000	127,000
Curry	12,000	45,000	46,000	103,000
Deschutes	11,000	76,000	78,000	165,000
Douglas	28,000	161,000	165,000	354,000
Gilliam	12,000	47,000	49,000	108,000
Grant	9,000	56,000	57,000	122,000
Harney	69,000	65,000	66,000	200,000
Hood River	8,000	62,000	63,000	133,000

SUMMARY OF TOTAL COUNTY FAS FUNDS AVAILABLE FOR PROGRAMING (September, 1956) - Cont.

County	Balance 1957	1958	1959 (Estimate)	Total
Jackson	$ 25,000	$128,000	$ 132,000	285,000
Jefferson	8,000	54,000	55,000	117,000
Josephine	1,000	79,000	81,000	161,000
Klamath	45,000	107,000	110,000	262,000
Lake	7,000	71,000	73,000	151,000
Lane	42,000	250,000	257,000	549,000
Lincoln	12,000	87,000	89,000	188,000
Linn	43,000	143,000	147,000	333,000
Malheur	35,000	122,000	125,000	282,000
Marion	60,000	202,000	208,000	470,000
Morrow	10,000	60,000	62,000	132,000
Multnomah	39,000	288,000	295,000	622,000
Polk	15,000	102,000	105,000	222,000
Sherman	7,000	41,000	42,000	90,000
Tillamook	12,000	78,000	80,000	170,000
Umatilla	22,000	153,000	157,000	332,000
Union	---	60,000	62,000	122,000
Wallowa	13,000	56,000	58,000	127,000
Wasco	13,000	59,000	61,000	133,000
Washington	57,000	187,000	192,000	436,000
Wheeler	5,000	42,000	43,000	90,000
Yamhill	16,000	107,000	110,000	233,000
TOTAL.....	$743,000	$3,700,000	$3,800,000	$8,243,000

NOTE: Above funds include federal, state, and county money.

The Engineer also reported that several counties have selected projects for the 1958 and 1959 county FAS funds totaling $1,158,000, as follows, and he recommended approval of the same by the Commission:

PROPOSED 1958 & 1959 COUNTY FAS PROJECTS
(Supplemented with Unobligated 1957 Funds)

County	FAS Hwy. No.	Section & Description	Programed Amount	FAS Fund
Lane	228	Mohawk River Bridge. Structure only.	$ 100,000	'57 & '58
	238	Knowles Creek Bridges (3) Structures only.	150,000	'58
	238	Knowles Creek Section, 1 Mile. Grading.	229,000	'58
		Subtotal, Lane County...	$ 549,000	
Malheur	515	North Unit, Vale Grand Avenue, 7 Miles. Grade, surface, and oil.	$ 225,000	'57 & '58

PROPOSED 1958 & 1959 COUNTY FAS PROJECTS
(Continued)

County	FAS Hwy. No.	Section & Description	Programed Amount	FAS Fund
Morrow	682	East Unit, Heppner-Forest Boundary, 7 Miles. Surface & oil.	$ 70,000	'57 & '58
Tillamook	616	Short Creek-Oceanside, 1 Mile. Grading.	90,000	'57 & '58
Umatilla	472	Cayuse-Thornhollow, 5.3 Miles. Grade, surface, & oil. Partial cost - additional funds for 1957 project.	150,000	'57 & '58
Yamhill	586	Yamhill River (Lafayette) Bridge Section. Partial cost - additional funds for 1957 Project.	74,000	'57 & '58
		TOTAL.....	$1,158,000	

SUMMARY BY FISCAL YEARS:

	1957 & 1958	1959	Total
Available September, 1956	$4,443,000	$3,800,000	$8,243,000
Proposed Projects, 9/17/56	1,158,000	---	1,158,000
Unprogramed Balance.....	$3,285,000	$3,800,000	$7,085,000

The Commission approved the projects as recommended.

An expenditure of $4,500 was requested by the Engineer to widen the easterly side of the Oregon Coast Highway southerly from its junction with the south access road to the town of Otter Rock in Lincoln County. The Engineer stated that northbound traffic wishing to turn into the Otter Rock access road must now cross the southbound or downhill traffic lane. This junction point, he said, is on a curve where adequate sight distance for safety is not provided, so it is proposed to widen the highway on the easterly side to provide a left-turn refuge, using 1956 minor betterment funds to finance the work. The Commission approved the expenditure as requested.

The Commission considered and, upon recommendation of the Engineer, granted the following extensions of time with which to complete state highway contracts. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of these extensions was waived by the Commission:

1. Bill Broderick, Contract No. 4682, for fencing on the 122nd Avenue-Sundial Section of the T.H. Banfield Expressway in Multnomah County, requested an extension of time from July 31 to September 15, 1956.

Approved to August 13, 1956, the actual completion date of the contract.

2. Arthur Simonsen & Co., Contract No. 4542, for bridge, grading and paving the Havana Section of the Havana-Helix Highway in Umatilla County, requested an extension of time from June 30 to August 30, 1956. Approved to August 8, 1956, the actual completion date of the contract.

3. N. A. Toole Construction Co., Contract No. 4458, for stone base and oiling the Forest Boundary-Halfway Section of the Pine Creek Road in Baker County, requested an extension of time from October 15, 1955 to August 31, 1956. Approved as requested.

4. Coos Bay Dredging Company, Contract No. 4325, for grading and oiling the West Unit, Reedsport-Dean Creek Section of the Umpqua Highway in Douglas County, requested an extension of time from September 30, 1955 to April 26, 1956. Approved as requested.

5. Inland Construction Company, Contract No. 4451, for structure, grading and paving the Clackamas Railroad Overcrossing of the Clackamas Highway in Clackamas County, requested an extension of time from November 30, 1955 to August 15, 1956. Approved as requested.

6. C. C. Meisel, Contract No. 4354, for grading and paving the East Unit, Carlton Jct.-Newberg Section of the Yamhill-Newberg Highway in Yamhill County, requested an extension of time from September 30, 1955 to August 31, 1956. Approved to August 22, 1956, the actual completion date of the contract.

7. Porter W. Yett, Contract No. 4267, for paving the Crosby Road-Concomley Road Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway (R. H. Baldock Freeway), in Marion County, requested an extension of time from October 31, 1955 to August 31, 1956. Approved to August 8, 1956, the actual completion date of the contract.

8. Glen Ousley, Contract No. 4651, for slide correction on the Mussel Creek Section of the Oregon Coast Highway in Curry County, requested an extension of time from July 15, 1956 to August 15, 1956. Approved to August 4, 1956, the actual completion date of the contract.

9. Kuckenberg Construction Co., Contract No. 4298, for grading and surfacing the Booth Ranch-Myrtle Creek Unit, Shady-Canyonville Section of the Pacific Highway in Douglas County, requested an extension of time from October 15, 1955 to July 21, 1956. Approved as requested.

10. Warren Northwest, Inc., Contract No. 4523, for grading and paving the 122nd Avenue Ramp Unit, 92nd Avenue-Fairview Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from August 31, 1955 to July 31, 1956. Approved as requested.

11. Newport Construction Company, Contract No. 4248, for grading and paving on the Willamette River-Crosby Road Section of the Salem-Portland Expressway (R. H. Baldock Freeway), in Marion and Clackamas Counties, requested an extension of time from October 31, 1955 to August 8, 1956. Approved as requested.

12. C. E. Leseberg, Contract No. 4609, for grading and paving the Idaho State Line-Sucker Creek Section of the I.O.N. Highway in Malheur County, requested an extension of time from July 31, 1956 to August 31, 1956. Approved as requested.

13. Jackson and Ray, Contract No. 4621, for Weaver Bridge over Wallowa River on the Werst Corner-Wallowa Road in Wallowa County, requested an extension of time from August 31, 1956 to April 30, 1957. Approved as requested.

14. Tri-State Painting Co., Contract No. 4666, for painting Ojalla and Fuller Bridges on the Siletz Highway in Lincoln County, requested an extension of time from August 31, 1956 to October 31, 1956. Approved as requested.

15. Trowbridge Electric Company, Contract No. 4689, for traffic signals on the Hillsboro (Tenth Avenue-Dennis Avenue) Section of the Tualatin Valley Highway in Washington County, requested an extension of time from July 31, 1956 to September 29, 1956. Approved as requested.

16. John Helstrom, Contract No. 4531, for constructing Concession Building in Depoe Bay, in Lincoln County, requested an extension of time from May 31, 1956 to June 30, 1956. Approved as requested.

17. Babler Bros., Inc., Contract No. 4568, for grading Dolph Corner-Rickreall Section of the Willamina-Salem Highway in Polk County, requested an extension of time from July 31, 1956 to August 31, 1956. Approved as requested.

18. U. S. Steel Corporation, Contract No. 4681, for fencing on Harbor Drive Median on the Hooker Street to Pennoyer Street Section of the Pacific Highway in Multnomah County, requested an extension of time from July 31, 1956 to September 30, 1956. Approved as requested.

19. A. H. Saxton and Son, Contract No. 4496, for the Weaver Overcrossing of Southern Pacific Co. tracks on the Pacific Highway in Douglas County, requested an extension of time from May 15, 1956 to August 15, 1956. Approved as requested.

20. W. H. Shields Construction Co., Contract No. 4342, for three bridge structures on the Coast Fork Willamette River-Divide Section of the Pacific Highway in Lane County, requested a second extension of time from June 30, 1956 to August 13, 1956. Approved as requested.

21. Neilson & Smith, Contract No. 4473, for two bridge structures on the Olds Ferry-Ontario Section of the Old Oregon Trail Highway in Malheur County, requested an extension of time from April 30, 1956 to July 7, 1956. Approved as requested.

22. Parker & Fuhrman, Contract No. 4737, for grading and oiling the Clackamas River Park Interchange on the Pacific Highway East in Clackamas County, requested an extension of time from July 31, 1956 to September 15, 1956. Approved to September 12, 1956, the actual completion date of the contract.

23. Porter W. Yett, Contract No. 4313, for grading and paving the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway in Washington County, requested an extension of time from September 15, 1955 to September 30, 1956. Approved to September 8, 1956, the actual completion date of the contract.

24. Tom Lillebo, Contract No. 4537, for bridge construction and grading and surfacing the Cow Creek Bridge Section on Yokum Road in Douglas County, requested an extension of time from August 31, 1956 to October 31, 1956. Approved as requested.

25. N. A. Toole Construction Co., Contract No. 4638, for rock production on the Folly Farm Section of the Crane-Scotts Butte Highway in Malheur County, requested an extension of time from July 31, 1956 to September 30, 1956. Approved to September 6, 1956, the actual completion date of the contract.

26. Warren Northwest, Inc., Contract No. 4338, for paving the Booth Ranch and Booth Ranch-Myrtle Creek Units, Shady-Canyonville Section of the Pacific Highway in Douglas County, requested an extension of time from October 15, 1955 to August 31, 1956. Approved as requested.

27. Steeck Electric Co., Contract No. 4582, for illumination installation at the junction of the Willamette Highway with The Dalles-California Highway in Klamath County, requested an extension of time from April 30, 1956 to August 30, 1956. Approved as requested.

28. Rogers Construction, Inc., Contract No. 4200, for grading and paving on the Willamette Junction-Walker Mountain Road and Chemult-Beaver Marsh Units, Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County, requested an extension of time from July 31, 1955 to July 15, 1956. Approved as requested.

29. Fidelity and Casualty Co. of New York (P. A. Shoat Co. defaulted), Contract No. 4410, for oiling in Division II on the North Santiam; Silver Creek Fall.; Salmon River and Newport-Corvallis Highways, and Robbins Lane Frontage Road, in Marion, Lincoln, Tillamook and Polk Counties, requested an extension of time from August 31, 1955 to September 10, 1956. Approved as requested.

30. . Russell Olson Construction Co., Contract No. 4425, for grading and paving North 10th Avenue in the city of Elgin, in Union County, requested an extension of time from August 31, 1955 to September 30, 1956. Approved as requested.

31. Martin Kincheloe, Contract No. 4633, for grading and stone base on the Yellow Creek Section of the Powers Secondary Highway in Coos County, requested an extension of time from July 31, 1956 to September 20, 1956. Approved to September 12, 1956, the actual completion date of the contract.

32. Babler Bros., Inc., Contract No. 4717, for stone base and oiling on the Juniper Ridge-Wagontire Section of the Lakeview-Burns Highway in Harney County, requested an extension of time from September 15, 1956 to September 30, 1956. Approved to September 19, 1956, the actual completion date of the contract.

33. Porter W. Yett, Contract No. 4449, for shoulder paving on the Beaverton Section of the Tualatin Valley Highway in Washington County, requested an extension of time from August 31, 1955 to October 31, 1956. Approved to September 18, 1956, the actual completion date of the contract.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that contract numbers 4200, 4211, 4267, 4300, 4313, 4325, 4342, 4354, 4355, 4410, 4425, 4444, 4449, 4451, 4458, 4473, 4496, 4526, 4531, 4542, 4563, 4603, 4609, 4611, 4614, 4627, 4628, 4633, 4634, 4638, 4644, 4647, 4649, 4651, 4663, 4664, 4682, 4695, 4705, 4708, 4712, 4737, 4745, 4749, 4760, 4767, 4775, and 4777 for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted said contracts by adopting the attached resolution, marked EXHIBIT "B", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission discussed with the Engineer a letter received from State Representative John D. Hare of Hillsboro, requesting improvement of the Tualatin Valley Highway between Cornelius and Forest Grove. The Commission instructed the Engineer, or his representative, to explain to Mr. Hare personally why the Commission has not been able to provide funds for such project.

The Engineer reported that a request has been received from the U. S. Bureau of Public Roads that the Bureau discontinue as soon as possible all maintenance on Forest Highway projects. He commented that it has been the policy of the Bureau in the past to maintain sections constructed as Forest Highways for a period of two years following completion of the construction contract. The Bureau now wants the State to perform such maintenance on those projects immediately following completion of the contracts. He presented a list of jobs on which the Bureau has requested the State to take over maintenance as of November 1, 1956. Maintenance cost for the balance of the year on these sections he estimated at $6,000, and at $34,000 for the year 1957. It was his opinion that State maintenance would effect a material saving in cost, as maintenance by the Bureau requires a crew on extremely short sections, which is usually uneconomical. He pointed out that the State would not lose any federal funds by assuming the maintenance obligation as the money that would have been spent by the Bureau of Public Roads for maintenance would be available in the future for construction. He recommended that the State assume maintenance of the projects as shown in the following statement as of November 1, 1956, with the exception of the Cascade Lakes project in the amount of $3,800 which is not on a state highway but is a Federal-aid county road, and of future projects when construction contracts are completed:

ESTIMATED MAINTENANCE COSTS
FOREST HIGHWAY PROJECTS

Based on State Assuming Maintenance November 1, 1956

Project Number	Highway and Unit	Miles	Type Surface	Completion Date	Est. Maint. Cost 1956 2 Mos.	Est. Maint. Cost 1957
DIVISION I:						
25A10	Mt. Hood-Little Zig-Zag-Still Cr.	3.6	Surface	Aug. '57	$ 200	$ 2,500
DIVISION III:

36-B3	John Day(1)-Co. line-Forest Bdry.	4.5	Paved	July'57	450	2,300
					$6,000	$34,000

The Commission approved State maintenance of the projects as recommended by the Engineer.

Attention was given to a request from the U. S. Army Corps of Engineers that the State Highway Department make a study, at its expense, to determine how much it will cost to convert to a four-lane interstate standard the present route of the Columbia River Highway between a point approximately three miles west of the John Day River and Arlington, including some revisions in the Boardman-Irrigon area and in the northerly ends of the John Day and Heppner Highways. The Engineer explained that reconstruction of these highways will be required by construction of the proposed John Day Dam on the Columbia River. The cost to widen the present facility, he stated, will be financed on the 90-10 basis as an interstate highway, and the additional cost to construct the new facility, which will be considerably greater than the cost to convert the present highway to a freeway, will be borne by the Corps of Engineers. He estimated the cost to make the study as requested at $20,000, and he recommended that the Commission authorize the survey on the condition that the State will be reimbursed by the Corps of Engineers. The Commission authorized the survey as recommended.

A request was considered from the City Council of Brookings that the Oregon Coast Highway be resurfaced with asphaltic concrete pavement from Pacific Street to the east city limits through this town. The Engineer recalled receipt of a similar request, dated June 26, 1956, and that a State patching crew was sent to Brookings in July when approximately 150 tons of asphaltic concrete was applied to repair all broken or damaged spots, and following the patching a state oiling crew applied a light seal coat, all of which cost the State $2,706. He further stated that the section of highway referred to is now in excellent condition and that no repairs of any nature are presently indicated; in fact, the resurfacing of the highway is not required at this time. He recommended that the request be denied. The Commission accepted the recommendation.

Parking of vehicles on the Pacific Highway shoulders in the vicinity of the Rice Hill Interchange was discussed. The Engineer stated that patrons of a cafe and service station at this location park their vehicles on the east shoulder of the northbound section of the highway, thereby creating a hazardous condition. He recommended that parking be prohibited on all highway shoulders on the Pacific Highway between M.P. 169.72 (Engineer's Station 1018+00) and M. P. 170.32 (Engineer's Station 1050+00). The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Attention was given to a hazardous condition reported by the Engineer at the intersection of the Pacific Highway West and the Beaver Creek Road south of Corvallis. The Engineer reported that this matter was called to his attention by Mrs. Robert J. Allison, Route 3, Corvallis, and that an investigation by the Traffic Engineer revealed that this is a T-type intersection with several business establishments. Sight distance from the Beaver Creek Road, he said, is unlimited except when vehicles are parked too close to the pavement edge in front of the business establishments. He recommended that the shoulder parking of vehicles be prohibited on both sides of the highway between M.P. 93.20 (Engineer's Station 528+70) and M.P. 93.40 (Engineer's Station 518+70). Such restriction, he added, together with certain changes in the directional signs and the clearing of brush on the easterly side of the highway, should solve the problem. The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F-3", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Upon the favorable recommendation of the Engineer, the Commission approved an amount of $21.40 to cover the out-of-state travel expense incurred by G. S. Paxson, Assistant State Highway Engineer, and F. B. Crandall, Traffic Engineer, incident to a trip to Olympia, Washington on August 23, 1956 to confer with the Washington Toll Bridge Authority and the Counties of Klickitat, Washington, and Sherman, Oregon, relative to the proposed Biggs Rapids Bridge over the Columbia River.

Out-of-state travel expense in the amount of $20.00 was also approved for F. B. Crandall, Traffic Engineer, who attended the Governor's Safety Conference at Olympia, Washington, on September 19 and 20, 1956 as a representative of the Oregon State Highway Department.

Discussed by the Commission was a letter from Mr. Lester L. Large, Portland, advocating the collection of tolls on the new Interstate Bridge only between Portland and Vancouver and that the existing bridge be operated toll free. The Engineer advised that the question whether or not tolls should be collected on the existing bridge was carefully considered in the negotiations leading to the project, and it was decided at that time that the adverse effects of charging traffic to get into the State of Oregon and letting them out free more than balanced any additional cost that might be incurred. Also, the project involves more than the building of

a new bridge because major revisions must be made to the existing bridge to comply with navigation requirements, which are estimated to cost approximately $3,000,000. It appears only logical, he continued, that some of the tolls should be provided by the existing bridge. He also pointed out that agreements have been entered into between the States of Oregon and Washington and that the contract under which the bonds are being sold provides that tolls shall be collected on both bridges. He recommended against revising the existing toll plan for this project. The Commission decided to adhere to the present plan and require a toll charge for crossing each structure.

The Commission gave attention to a request from the Associated General Contractors that more frequent bid lettings be held. The Engineer stated that there are a number of advantages in holding bid openings oftener and he listed the following:

1. Saving of time at Commission meetings in the actual reading of bids.

2. More orderly bidding by contractors.

3. The possibility of obtaining more favorable prices if the contractors are allowed more time to inspect the jobs.

4. A decrease in the tendency for contractors to become overloaded with work because they may be successful on several projects at the more infrequent lettings.

He pointed out that in California all bids are opened at district office headquarters, and in Washington the bid openings are held approximately every two weeks at Olympia. He recommended that bid openings be held at least once, and possibly oftener, between regular Highway Commission meetings, it being understood that the results of the bidding would be presented to the Commission to award contracts at its next regular meeting, and that bids also be received at regular meetings as is now being done. As a result of the discussion that followed Commissioner Reynolds moved that bid openings for highway contract projects be authorized between regularly scheduled Commission meetings. The Commission unanimously approved the motion by adopting the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered the matter of establishing a formal program of public relations for the Highway Department. The Engineer pointed out that more and more attention is being given to public relations in both industry and public service. He gave as his opinion that with the accelerated highway construction program in the immediate future an effective public relations program would be of great value to the department. The California Division of Highways, he stated, has a combined Department of Public Relations and Personnel which functions very effectively, and he gave as his thought that a similarly combined public

public relations and personnel function in the Oregon Highway Department would be the most efficient and economical way to handle these two related phases of administration. He recalled that the Commission in 1952 authorized the Chief Counsel to employ a public relations officer in the Right of Way Division, but the Chief Counsel deferred filling the position when he learned that there were possibilities of establishing a central public relations division for the entire department, and it now is his belief that the program he had in mind can be most effectively handled in a combined public relations and personnel division, and he no longer plans to employ the additional man. This new division, he continued, will in no way infringe upon the regular functions of the Travel Information Division in promoting tourist trade in Oregon. He recommended establishment of such a Division of Public Relations and Personnel and the appointment of Mr. Gene Huntley, present Personnel Director, as the Director of the combined division. He mentioned that Mr. Huntley is well qualified by education and experience to perform the duties of the position and that he is proposing that a Civil Service salary range of $655-$810 per month be set for this position, with Mr. Huntley's salary to be $715 per month starting on January 1, 1957. The Commission authorized establishment of a "Division of Public Relations and Personnel" and the appointment of Mr. Gene Huntley as Director.

(For additional details see copy of the Engineer's letter dated August 29, 1956 in the General Files.)

Consideration was given to a suggestion submitted by Mr. H. E. Reese, Portland, that emergency telephones be installed at close intervals along limited access freeways in Oregon. The Engineer stated that negotiations have already been started with the Telephone Company for the installation of emergency phones on the freeway sections, and when a plan has been worked out it will be presented to the Commission for consideration.

Authority was requested by the Engineer for an expenditure of not to exceed $75.00 to pay for meeting rooms and a few other minor items that are needed to accommodate a regional meeting of the Design Committee of the AASHO, which is to be held in Portland during October 15 and 16, 1956. The Commission approved the expenditure.

Authority was requested by the Engineer to submit to the City of Portland and to Multnomah County a map showing the proposed extension of R. H. Baldock Freeway between the Washington County line and Harbor Drive in Portland, and to notify each by letter that an opportunity will be given for a public hearing on the project if such a hearing is requested. He explained that this procedure is necessary to satisfy state and federal laws. The Commission approved the request. The Commission also authorized similar information sent to the Cities of Coquille and Bandon and to the Coos County Court relative to the proposed relocation of the Oregon Coast Highway between Davis Slough and Bandon.

Attention was given to approval of an extension rider to a lease agreement with Union Pacific Railroad Company covering use of a materials storage site at Baker on which an underground asphalt storage tank

has been constructed. The Engineer recommended that the lease be continued in force until December 31, 1961, for a consideration of $5.00 per year. The Commission approved such extension.

The Engineer brought up for discussion the matter of establishing the Wilson River Highway throughout its entire length as a "through-stop" highway. He recalled that the Commission on April 27, 1943 adopted a resolution designating the Wilson River Highway as a "through-stop" highway from Tillamook to Balm Grove in the vicinity of Glenwood. He pointed out that construction of the section from Balm Grove to a junction with the Sunset Highway near North Plains will soon be completed, in view of which the designation should be extended to include this new portion. He recommended that the portion of the original resolution pertaining to the Wilson River Highway be rescinded and that action be taken to establish the highway as a "through-stop" highway from its intersection with the Oregon Coast Highway in the city of Tillamook to its intersection with the Sunset Highway near North Plains. The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer brought up for consideration a similar matter concerning the Beaverton-Aurora Highway, now known as the Beaverton-Tualatin Highway. He recalled that this highway also was designated a "through-stop" highway between Beaverton and Tigard by the resolution adopted on April 27, 1943, with the exception that all traffic thereon was required to stop before entering the intersection of the Scholls Highway with the Beaverton-Tualatin Highway at a place known as Progress. Completion of the Hall Street project in Beaverton, he explained, will cause a crossing of the Beaverton-Tualatin Highway and the Beaverton-Hillsdale Highway at Broadway Street, and he gave as his feeling that because of traffic volumes and other conditions, the Beaverton-Hillsdale Highway should retain its "through-stop" designation at this location and that traffic on the Beaverton-Tualatin Highway should be required to stop before entering the intersection. He recommended action by the Commission to that effect. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that as a part of a routine investigation conducted by the Traffic Engineering Division concerning traffic speeds it was found that the 35 mile per hour speed limit that was established on the South Santiam Highway south of Lebanon on April 28, 1948 is being exceeded by 85 percent of all vehicles that travel through the southerly portion of the restricted zone. He recommended that the 1948 speed zone resolution be rescinded and that a 35 mile per hour speed zone be re-established from the south city limits of Lebanon at M.P. 14.03 to a point 0.20 mile east of Big Brother Farm Road at M.P. 14.56; and that a 45 mile per hour speed zone be established from M.P. 14.56 to a point 0.26 mile east of Santiam Drive at M.P. 15.40. The Commission approved the recommendation by

adopting the attached resolution relative thereto, marked EXHIBIT "E-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Also requested by the Engineer was authority to post the old route of the Oregon Coast Highway at Otter Crest for a maximum speed of 20 miles per hour, inasmuch as this section, which soon will be opened to the traveling public, is very crooked and in some places narrow, particularly the section between Mile Points 129.75 and 132.95. The Commission approved the request by adopting the attached resolution relative thereto, marked EXHIBIT "E-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Commissioner Reynolds inquired as to what remedy could be applied to cure a section of slippery pavement on the **Sunset Highway at Elsie**. The Engineer replied that it is planned to resurface the section with 2 inches of bituminous pavement.

Inquiry was also made by Commissioner Reynolds as to what action could be taken at the east end of the Emigrant Hill Section where the old highway joins the new highway section. It appears that a number of motorists have missed the new highway at the junction, and he suggested the installation of signs to correct this condition. The Engineer was instructed to investigate the matter and take corrective action as required.

The matter of excessive speeds on the R. H. Baldock Freeway was discussed. Chairman Chandler mentioned that a motorist had been arrested for traveling 110 miles per hour on this freeway and that the case was dismissed by the Court, which held that the offender could not be convicted under the Oregon Basic Law. The Engineer stated that considerable thought had been given to this matter, and it is his recommendation that signs be placed limiting speed to 70 miles per hour on this highway between Hayesville, north of Salem, and its junction with Barbur Boulevard in Portland. The Engineer also stated that the Oregon Traffic Safety Council has requested that the highway be posted for such speed limit. Following discussion the Commission unanimously approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer bids received at the morning session for highway construction, and at 4:00 p.m. Commissioner McIver announced awards of contracts as follows:

"North Fork Scappoose Creek Bridge on the Pittsburg-Scappoose Highway, north of Scappoose, in Columbia County. The Commission elects to accept the bid of S & D Construction Company, Portland, in the sum of $19,318 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Columbia County is received and the sum of $4,345 is deposited by the County.

"Grading and paving the East Unit, Fort Rock Road-Brothers Section of the Central Oregon Highway in Deschutes County. The Commission awarded the contract to Warren Northwest, Inc., Portland, who submitted the low bid at $307,977.

"Paving the Fords Bridge Unit, Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County. The Commission awarded the contract to C. R. O'Neil, Creswell, who submitted the low bid at $196,200.50.

"Grading and paving the Fords Bridge-Canyonville Unit, Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County. The Commission elects to accept the bid of C. R. O'Neil, Creswell, in the sum of $697,708 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Weaver Road Structures on the relocated section of Weaver Road near Myrtle Creek, Douglas County. The Commission elects to accept the bid of Ausland Construction Company, Grants Pass, in the sum of $93,728 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"John Day Rock Production Project on the John Day and John Day-Burns Highways, near John Day in Grant County. The Commission awarded the contract to E. H. Itschner Company, Molalla, who submitted the low bid at $20,000.

"Construction of two small latrines at Viento State Park in Hood River County. The Commission awarded the contract to Gilbert Roberts, Hood River, who submitted the low bid at $14,096.

"Construction of concrete storage building at Salem in Marion County. The Commission awarded the contract to Erwin E. Batterman, Salem, who submitted the low bid at $37,234.

"Illumination installation on NE 42nd Avenue-Troutdale Section of the T. H. Banfield Expressway in Portland, Multnomah County. The Commission awarded the contract to Trowbridge Electric Company, Roseburg, who submitted the low bid at $51,500.

"Grading the Emigrant Hill-Deadmans Pass Section of the Old Oregon Trail Highway in Umatilla County. The Commission elects to accept the bid of Rogers Construction, Inc., Portland, in the sum of $1,050,740 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Umatilla River Bridge on the Hinkle-Bucks Corner Section of the Hermiston Secondary Highway in Umatilla County. The Commission awarded the contract to White Bros. Company and White Bros. Construction Company, Inc., Walla Walla, Washington, who submitted the low bid at $102,689.

"Grading the Parish Creek Unit, Spray-Waterman Section of the Spray-Waterman County Road in Wheeler County. The Commission elects to accept the bid of Morgan Bros., Coquille, in the sum of $49,597.44 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wheeler County is received and the sum of $11,180 is deposited by the County.

"Grading, paving and bridge construction on Whiteson Section of the Pacific Highway West in Yamhill County. The Commission elects to accept the bid of Workman & Wilson, Canby, in the sum of $139,862.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

The Engineer reported that several sections of state highways had been reconstructed and are now open to public travel. Under terms of agreements previously entered into with the Counties, sections of the old highways, which have been replaced by new sections, are no longer needed as parts of the highways and are ready to be abandoned to the respective Counties. He recommended that the Commission formally abandon the following described state highway sections:

1. Havana Section of the Havana-Helix Secondary Highway #335, Umatilla County. See EXHIBIT "C-1".

2. East Unit, Carlton Junction-Newberg Section of the Yamhill-Newberg Secondary Highway #151, Yamhill County. See EXHIBIT "C-2".

3. Moro-Grass Valley Section of the Sherman Highway #42, Sherman County. See EXHIBIT "C-3".

The Commission approved his recommendation by adopting the attached resolutions relative thereto marked EXHIBIT "C-1", EXHIBIT "C-2", and EXHIBIT "C-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given to a form of agreement with Mr. and Mrs. Earl Morley and Mr. and Mrs. Roy F. Smith concerning ingress and egress to their property adjacent to the old Pacific Highway near the northbound legs of the interchange south of the Umpqua River crossing at Booth Ranch in Douglas County. The Engineer explained that these people plan to construct a service station, restaurant, motel, and possibly other items. The agreement provides for complete restriction of access between the owners' property and the interchange legs. The owners are to deed to the State a small parcel of land to improve the intersection and they also waive any claim for damages. The State is to do a small amount of surfacing to improve the off ramps and turning movements at the northerly end of the interchange at a cost of approximately $2,000. Also, the State is to deed to the owners a small section of the old highway that no longer is needed for public use. Following the Engineer's favorable recommendation, the Commission approved the agreement.

The Commission approved the Secretary's report of papers signed by him on behalf of the Commission during the period of August 14 to September 25, 1956.

The Commission confirmed the dates of November 8-9, 1956 for its next regular meeting to be held in Portland, and tentatively set Monday and Tuesday, December 17-18, 1956 as the date for its next following meeting. The Secretary was instructed to make the usual arrangements for use of the Queens Room in the Imperial Hotel.

Consideration was given to a claim submitted by Mrs. Arline S. Knoll in the amount of $22.00, representing the cost to remove oil which she alleges was sprayed on her car by a road-paving crew on July 17, 1956. The Engineer explained that Mrs. Knoll claims the damage occurred approximately one mile west of the Sandy River Bridge on the Columbia River Highway; also, that there is some doubt that the damage occurred at that particular location, but the fact remains that the oil was sprayed on the car as the result of some highway operation. He recommended that the claim be paid. The Commission adopted the recommendation.

A request from the City Council of Oregon City for illumination of the underpass on US 99E in Oregon City was presented by the Engineer. He said that City officials have urged illumination of this point to eliminate a hazard to the traveling public during the hours of darkness, particularly during winter months when fog may enshroud the area. He estimated the cost of the project at $5,000, and he recommended its approval as a minor betterment job, the work to be performed by contract. The Commission approved the project.

The Commission discussed with the Engineer problems to be presented by delegations on the following day but deferred action pending appearance of the delegations, except as to the request of Mayor Gerald P. Johnson of Shaniko for improvements to the Shaniko-Fossil State Secondary Highway. Concerning this project Commissioner Reynolds suggested that $100,000 be taken from the reserve fund in Division IV and $100,000 from proposed expenditures on the Paulina Secondary Highway, or from some other unobligated secondary fund, to perform a $200,000 improvement project between Shaniko and Antelope. The Commission approved a $200,000 project on this highway section and authorized the Engineer to conduct a survey as may be required. (The Commission discussed the matter with the delegation on the following day and informed the group that it is planned to make a start to improve this highway, and the Commission is leaving it with the Engineer to decide which section should be improved first.)

The Engineer reported that he has been contacted by Governor Smith's office regarding a request by Georgia-Pacific Plywood Company for permission to install its waste disposal pipe line along the shoulders of the new Corvallis-Newport Highway between Toledo and Newport. He stated his objections to placement of the pipe line in such location, and

he suggested that it would be satisfactory were the facility to be installed along the old highway between these points where it would not interfere with maintenance of the new highway. Chairman Chandler commented that, if Georgia-Pacific is allowed to lay this pipe along the shoulders of the new highway, it would establish a precedent that would be very difficult to avoid in passing on similar requests in other places. Commissioner Reynolds observed that in his opinion the company should not be allowed to install the pipe in the location it has requested. The Commission instructed the Engineer to confer with the company representatives on the ground, to investigate all possibilities in the matter and to present a report to the Commission.

The Engineer brought up for discussion a proposed agreement with the Idaho Power Company concerning reconstruction of roads which will be inundated by water in the Snake River when the Oxbow and Brownlee Dams are completed. The Engineer stated that a form of agreement has been prepared and is ready for execution by both parties. He expressed some doubt, however, that any agreement should be entered into until there is a meeting of minds covering the whole matter of highway replacement because of these dams. After some discussion, the Commission authorized the Chief Counsel to send copies of the prepared agreement to the Idaho Power Company to sign first, without any commitment as to what the Highway Commission may do about signing it.

Commissioner Reynolds mentioned that a stock man near La Grande wishes to construct a new home near US 30 between La Grande and Perry and has inquired if he can have access to the highway, which has been designated a freeway. The Engineer stated that the recently enacted Federal-aid Highway Act contains very strict standards concerning access to interstate highways, of which the Old Oregon Trail is one. There is a possibility, he said, that the State may have to acquire the access rights on this and similar properties, as it would probably be cheaper to do that than construct an interchange structure.

The matter of holding a hearing in the city of Burns concerning adoption of a permanent route for the Central Oregon Highway through this city and the city of Hines was brought up by Commissioner Reynolds. The Engineer stated that he would render a report on this subject at the November meeting of the Commission.

Assistant State Highway Engineer, Mr. W. W. Stiffler, presented a request from two log haulers for permission to haul short alder logs on a single unit truck over the Crown Point Secondary Highway. He explained that these operators have 100 loads to haul approximately 1.6 miles upon this highway. He gave as his opinion that a permit of 60 days' duration could be granted to them, and he so recommended. The Commission authorized the granting of a permit for such length of time, on the condition that the hauling shall be limited to timber that has already been felled and bucked.

The meeting adjourned at 5:15 p.m., to reconvene at 9:00 a.m. on the following day.

September 27, 1956

Portland, Oregon
September 28, 1956

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction work were opened and read aloud by the Assistant Secretary in conformity with previously published notice, following which he announced that the Commission would award contracts at 3:00 p.m. in the same room.

CLACKAMAS COUNTY
ZIGZAG RIVER BRIDGE ON CLACKAMAS COUNTY ROAD NO. 820

White Bros. Co. & White Bros. Const. Co., Inc., Walla Walla, Washington	$ 37,740.00
S & D Const. Co., Portland	45,670.00
Teeples-Thatcher Co., Portland	46,945.00
Birkemeier Const. Co., Milwaukie	47,250.00
J. N. Conley, Portland	47,392.50
Schrader Const. Co., Portland	47,550.00
C. J. Eldon, Portland	47,955.00
Babler Bros., Inc., Portland	48,400.00
Pettijohn Engineering Co., Portland	50,215.00
Charles R. Schmiedeskamp, Portland	50,395.00
Hannan Bros. Co., Portland	51,075.00
P.S. Lord Mechanical Contractors, Portland	56,375.00

DOUGLAS COUNTY
MISSOURI BOTTOM-CANYONVILLE STRUCTURES ON THE MYRTLE CREEK-CANYONVILLE SECTION OF RELOCATED PACIFIC HIGHWAY

Lee Hoffman, Beaverton	$719,642.00
Tom Lillebo, Reedsport	725,801.00
Hamilton & Thoms, Eugene	748,070.00
Peter Kiewit Sons' Co., Vancouver, Wn.	796,244.00

JACKSON COUNTY
EMBANKMENT REPAIR ON BYBEE BRIDGE (ROGUE RIVER) SECTION OF TABLE ROCK ROAD

F. L. Somers, Medford	$ 4,860.00
Henry H. Miller Contr., Roseburg	5,940.00
M. C. Lininger & Sons, Medford	6,372.00
Keith Bros. Const. Co., Medford	6,480.00
C & D Lumber Co., Roseburg	7,279.20

JOSEPHINE COUNTY
GRADING AND PAVING EAST AND WEST FORKS ILLINOIS RIVER BRIDGE SECTIONS OF THE REDWOOD HIGHWAY

Durbin Bros., Eugene	$273,523.00
C. R. O'Neil, Creswell	277,019.50
Fred H. Slate Co. & E.C. Hall Co., Portland	292,513.00
Babler Bros., Inc., Portland	297,903.00
Natt McDougall Co., Portland	299,333.00
F. L. Somers, Medford	302,890.00
Peter Kiewit Sons' Co., Vancouver, Wn.	307,388.00

MARION COUNTY
GRADING AND PAVING ILLAHEE-NORTH JEFFERSON JUNCTION SECTION OF THE PACIFIC HIGHWAY EAST

Roy L. Houck & Sons, Salem	$573,220.50
Vernie Jarl, Gresham	595,835.00
Fred H. Slate Co., Ore. Ltd., & E. C. Hall Co., Portland	615,024.00
Babler Bros., Inc., Portland	633,255.00
R. A. Heintz Const. Co., Portland	677,044.00
J. N. Conley, Portland	685,526.00
Parker-Schram Co., Portland	744,560.50

MULTNOMAH COUNTY
STRUCTURE, GRADING AND STONE BASE ON THE 37TH AVENUE-42ND AVENUE SECTION OF THE T. H. BANFIELD EXPRESSWAY IN PORTLAND

Donald M. Drake Co., Portland	$455,002.00
Gibbons & Reed Co., Portland	475,000.00
Lee Hoffman, Beaverton	534,420.00
C. J. Montag & Sons, Portland	543,932.25
Lord Bros. Contractors, Portland	547,088.00

YAMHILL COUNTY
STRUCTURE, GRADING AND STONE BASE ON THE YAMHILL RIVER (LAFAYETTE) BRIDGE SECTION OF THE LAFAYETTE-SOUTH ROAD

Lee Hoffman, Beaverton	$204,971.00
P.S. Lord Mechanical Contractors, Portland	217,022.50

September 28, 1956

Yamhill River (Lafayette) Bridge Section of the Lafayette-South Road (Cont)

Tom Lillebo Const. Co., Reedsport	$218,991.30
General Const. Co., Portland	226,850.00
Hamilton & Thoms, Eugene	235,076.90
Hannan Bros. Co., Portland	239,821.50

A delegation representing the City of Corvallis came before the Commission concerning the rerouting of the Pacific Highway West over First Street in Corvallis. The following people were present: John F. Porter, City Manager; S.R.G. Rodriquez, President, Benton County Chamber of Commerce; Carl Williams, Mayor; Vic Goodnight, City Engineer; Robert Blackledge and Cecil Barker, Councilmen. Mr. Porter, who acted as spokesman, read aloud a prepared statement urging an early start on construction along First Street, including an excerpt from the Highway Commission minutes of April 13, 1951, outlining things agreed upon by the City and by the Commission. The City, he stated, has spent approximately $193,000 for right of way necessary for the First Street routing, and he asked the Commission to proceed with plans for construction within the next three years. Commissioner Reynolds inquired if the city officials want this project given priority over the proposed improvement between Corvallis and Philomath. Mr. Porter replied that the Philomath project still comes first but the First Street project is next in line. He urged preparation of the plans so that all necessary right of way can be acquired early and delays avoided. The Engineer advised that the First Street project is not in the current program; however, most of the right of way north of the Mary's River has been acquired. The project they are now requesting, he continued, does not involve a bridge across Mary's River. The City Engineer, Mr. Goodnight, mentioned that right of way between Harrison Street and Tyler Street still remains an unresolved problem, and the question is whether the City or the State is to acquire it. The Commission instructed the State Highway Engineer to check the right of way situation and report the findings. Mayor Williams urged the Commission to include in the Corvallis-Philomath project construction clear through the city to First Street so as to get rid of traffic congestion. He was informed by Chairman Chandler that the Commission will have no money to allocate to the First Street project until the Corvallis-Philomath project has been completed. This concluded the discussion.

A delegation from the City of Grants Pass appeared before the Commission to urge immediate construction of the proposed one-way street system in Grants Pass, particularly the portion recommended as Proposal No. 1 in the Highway Department's Technical Report No. 55-6, which concerns Sixth Street and Seventh Street. The following people were present: Morris Milbank, Highway Committee of the Chamber of Commerce; James P. McCourtney, County Commissioner, Josephine County; Robert C. Martin, Mayor; Fred Dayton, Chairman, Grants Pass Planning Commission; Karl Reherd, Assistant Director, Josephine County Civil Defense; Hugh McKinley, City Manager, and John F. Porter, present

City Manager of Corvallis, former City Manager of Grants Pass. Mr. Milbank, who acted as spokesman, introduced the other members of the delegation and presented resolutions from a number of local civic organizations in support of the one-way couplet plan. Mr. McCourtney stated that the County and City officials are united in requesting Project No. 1 at an early date. Mr. Martin expressed concurrence in the findings of the Commission as set forth in Technical Report No. 55-6, which report, he pointed out, lists the Sixth Street-Seventh Street one-way couplet as the No. 1 project. He declared that the narrow highway street in Grants Pass and the narrow bridge across the Rogue River constitute the worst traffic bottleneck on the Pacific Highway north of Mexico. He called attention to 185 accidents per year on the highway within the city and urged early relief as the volume of traffic is increasing at a rapid rate. Construction of a new bridge across Rogue River south of the city, he stated, is listed as the No. 2 project in Technical Report No. 55-6, and he urged that these two projects be started simultaneously at an early date. He mentioned that acquisition of right of way will constitute no problem. He also spoke for both improvements from the military defense standpoint, and as an aid to future planning and development of other city streets. Chairman Chandler inquired as to what progress has been made regarding abandonment of the old railroad that is involved, inasmuch as it concerns the Rogue River bridge project. He was informed by Mr. Milbank that such matter has not yet been resolved and that the decision of the Interstate Commerce Commission concerning it is still pending. He expressed his feeling that the railroad matter does not concern the No. 1 project. He was informed by the Engineer that abandonment of the railroad is vital to the securing of a proper interchange but does not concern the proposed improvement north of the Rogue River Bridge. He added that the cost to construct the proposed improvement south of the bridge will be greatly increased if the railroad is not abandoned, and that before anything is done a survey will have to be made. He also said that the improvement as planned north of the bridge will relieve traffic congestion through the city, and he suggested that the Commission authorize a survey of that section so needed right of way can be acquired. The Commission authorized him to make the survey. A member of the delegation inquired as to how long a time would be required to conduct the survey and build a bridge if the railroad is abandoned. The Engineer replied that although $875,000 has been allocated for improvement in the city north of the bridge, no money has yet been allocated to finance the bridge, and that it would probably be 1959 or later before the Commission can get to it. Chairman Chandler explained that when the survey which has just been authorized is completed and adopted by the Commission, acquisition of right of way can start immediately, and when the right of way has been acquired and plans prepared, the Commission will take action as to construction. Mr. Porter spoke in behalf of the Sixth Street-Seventh Street one-way couplet.

Mr. Milbank inquired concerning the proposed Pacific Highway by-pass around Grants Pass. The Engineer replied that consideration is being given to construction of a four-lane highway at such location within the next five years. Mr. McCourtney inquired concerning a crossing of the Rogue River about one-half mile north of Apple Lane. Plans for this

project, the Engineer stated, are not yet complete. Mr. Reherd inquired if construction of the Rogue River Bridge will precede the by-pass construction. These projects, the Engineer explained, are financed by separate funds but will probably be constructed at about the same time. Chairman Chandler thanked the delegation for its appearance and advised that as much work will be done in the Grants Pass area as is possible.

Mr. Howard Maple, Manager, Coos Bay Chamber of Commerce, came before the Commission concerning improvement of the Powers Secondary Highway. Pacific Power & Light Company, he stated, is installing a dam on the South Coquille River about nine miles south of Powers, which will develop a lot of traffic for the Powers Highway, which is now restricted to 50-foot vehicles on a 13-mile section. He asked for improvements so the highway can be reclassified as a Group I highway and made satisfactory to carry maximum size loads needed in construction of the Coquille River Dam. He added that the company plans to start construction of the dam in about a year. Chairman Chandler pointed out that there are no available secondary funds for Division III for the next two years, but a tentative allocation is being considered in the five-year program.

Mr. John P. Misko, attorney-at-law, Oregon City, came before the Commission in behalf of his clients, Mr. and Mrs. C. L. Rounds, of Fullerton, California, concerning their property a short distance north of Bend on The Dalles-California Highway. He reviewed the history of the matter briefly, pointing out that prior to starting construction of their service station they had been advised by some State Highway official, whose identity is not known, that they were encroaching on highway property. Upon contacting the Bend Division Office, however, they were informed that their construction was off the right of way. This same sequence of events, he stated, transpired three different times and in each instance they were assured by the Bend Office that their construction was on their own land. It has now developed, however, that because of a jog in the right of way line their constructed facilities encroach on the right of way $15\frac{1}{2}$ feet. They wish to sell the property but are unable to do so until their status on the right of way has been cleared. The Rounds, he stated, wish to buy the land that they now occupy, or they will accept a noncancellable lease for a 30-year period, or assistance in moving their facilities off the right of way. The Chief Counsel commented that there appears to be some difference of opinion concerning the events preceding Mr. Misko's appearance. Chairman Chandler stated that the Commission would discuss the matter with the Engineer, and the Secretary would advise Mr. Misko concerning their decision. Mr. Misko departed at this time. Discussion of the subject was continued, with the Engineer explaining that the wide piece of right of way had been acquired from the County and the State might possibly have to buy the Rounds' constructed facilities when the highway is widened to four lanes. He suggested that they be given a revocable lease to occupy their present location until the highway is widened to four lanes. He also pointed out that plans have been made for a four-lane highway which will miss their building. The Chief Counsel stated that any lease given to them should have minimum and maximum limits and should obligate them to pay taxes on the State property occupied. The Commission

authorized the granting of a ten-year lease to the Rounds for a consideration of $1.00, it being the feeling of the Engineer that construction of a four-lane highway facility will not be required before that time expires.

A delegation from Shaniko, Antelope, and Fossil came before the Commission concerning improvements to the Shaniko-Fossil Secondary Highway. The following people were present: G. P. Johnson, Mayor, Shaniko; O. E. Mathews, County Judge, Wheeler County, Fossil; J. R. Wood and Allen Wood, representing the City of Fossil; John Silvertooth, representing the Mayor of Antelope; and E. A. Maurer, rancher, Antelope. Mr. Johnson introduced the other members of the delegation. Judge Mathews, who acted as spokesman, pointed out that no improvements have been made on this highway for many years. He presented letters from the City of Fossil, the Kinzua Corporation and Carpenters' Union 2916 urging improvement. Mr. Wood called attention to the section of highway from Clarno to Fossil which, he stated, is in practically the same condition as it was in pioneer days. The road is used considerably by sportsmen and also serves as a short cut to Portland. Chairman Chandler inquired as to which section the delegation wants improved first as it was his understanding that they desired improvement between Shaniko and Antelope. Mr. Silvertooth declared that no improvement has been made to this road since it was taken over as a secondary highway. Stockmen and ranchers near Clarno, he said, ship many of their products to California and could save considerably if they had a better road. It was his personal opinion that improvement should be made first on the Shaniko end, but he stated his willingness to leave the final selection for improvement to the Highway Engineers. He stated that ranchers adjoining the highway would donate right of way if the State would install fences. Chairman Chandler stated that the Commission feels that some work should be performed, but there seems to be some difference of opinion as to where. The Engineer offered the suggestion that the section between Shaniko and Antelope should be improved first as it serves the greatest number of people and is the section most needed. Commissioner Reynolds commented that improvement between Shaniko and Antelope would not eliminate all of the problems on this highway but improvement between Clarno and Fossil would have to come sometime. Chairman Chandler concluded the discussion by stating that the Commission plans to make a start on improvement of this highway and has authorized the Engineer to conduct a survey between Shaniko and Antelope, and when the survey is completed a decision will be reached as to the section that should be improved first. The delegation asserted its approval of such an arrangement.

The Commission approved a request from the Chief Counsel for authority to institute condemnation proceedings, if necessary, to acquire the following properties that are needed as right of way in connection with highway improvements, and to tender offers for the same in conformity with instructions given him by the Commission's resolution dated December 20, 1951:

(See next page.)

South Yamhill River-Amity Section of the Pacific Highway West

R-25352 - Southern Pacific Company
Right of way (Yamhill County)
1.34 acres

Barbur Boulevard Section of the Pacific Highway West

R-25590 - Costello
Right of way (Multnomah County)
1.21 acres

Right of way maps, construction plans and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolution relative thereto, marked "EXHIBIT "J-16", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Chief Counsel also reported the following settlements of condemnation cases:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Lyons, Mary L-2614	Umatilla	Pendleton-John Day	Pendleton-Pilot Rock	$17,430	$18,750
Runyon, George A. L-2621	Umatilla	Pendleton-John Day	Pendleton-Pilot Rock	$18,500	$18,000

The Commission approved the settlements as reported.

(For additional details, see copy of Chief Counsel's written report dated September 27, 1956, in the Legal Files in Salem.)

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Jack Flaucher, Portland, operator of the concession in the new state building at Depoe Bay on the Oregon Coast Highway, appeared before

the Commission to ask that the building be given a name. It was his feeling that many out-of-state travelers fail to see the building, and he cited the absence of travelers checks and silver dollars as evidence of his contention. He pointed out that the amount of help necessary to operate the concession at the Vista House and at Depoe Bay is about the same, but the Depoe Bay concession has produced only one third as much business. Chairman Chandler advised that the Commission will consider naming the building before adjourning. Discussion of this matter was resumed following Mr. Flaucher's departure, at which time the Commission referred it to Commissioner McIver to select a name in collaboration with the State Parks Superintendent.

Malcolm MacEwan, Manager, Seaside Chamber of Commerce; Max Schafer, Publisher, "Seaside Signal"; Charles Cartwright, Owner of the Seaside Golf Course; and William Metcalf, State Vice President of the Oregon Motor Court Association, all of Seaside, came before the Commission concerning reconstruction of the Oregon Coast Highway along Roosevelt Drive through Seaside. Mr. MacEwan introduced the members of the group. Mr. Schafer called attention to the traffic congestion in the city and alleged that this congestion is driving people out of the business area. The City, he continued, employs a planning consultant and is trying to help itself, but it needs assistance from the State Highway Department in solving their problem. Mr. Metcalf stated that it is generally conceded that were the highway routed along Roosevelt Drive the traffic pattern within the city would be changed to the City's advantage. He urged construction of the Roosevelt Drive project to relieve severe peak traffic congestion and to enable the City to proceed with its planning. Mr. Cartwright commented that the construction requested would be of great value to the traveling public as well as to the City of Seaside. Commissioner Reynolds stated that everyone is aware of the need of this by-pass. Chairman Chandler stated that this improvement has been in the minds of the Commission for the past several years, and he gave as his feeling that something will have to be done about it and improvement of this highway south of Astoria. He mentioned that the Commission is endeavoring to find funds to finance the job, and if none can be found the improvement through Seaside may have to be deferred for about three years, although the Commission is hopeful that it can be accomplished sooner. He pointed out that all available money for the first two years has been allocated to definite projects. Following further discussion the Commission authorized the Right of Way Engineer to resume negotiations to acquire right of way that is needed for this project.

The Commission discussed matters pertaining to the proposed bridge across the Columbia River at Astoria which was considered on the previous day. As a result thereof the Commission instructed the Engineer to confer with the Washington authorities to ascertain their attitude with regard to the project without urging its approval. Out-of-state travel for the Engineer, Deputy Engineer Forrest Cooper, and Assistant Highway Engineer Glen Paxson was authorized for the purpose.

R. C. Cannon and James Damon, City Councilmen from the city of Mt. Vernon, came before the Commission concerning a flood problem in

the city and an improvement of the Beech Creek Secondary Highway northerly from Mt. Vernon. Mr. Cannon stated that the flooding problem is caused by a permanent-type irrigation dam below the bridge which holds the water back during flood seasons. He asked the Commission to replace the dam with a temporary type structure so that the water level could be lowered during floods. Commissioner Reynolds pointed out that the dam is not on highway property nor is it a highway structure, and he inquired why the City could not handle the matter. Mr. Cannon replied that a Highway Engineer, whose name he did not know, had stated that if the City could secure an agreement with the owners of the present dam the State would most probably put up the money for a temporary-type dam. The Engineer explained that the owners of the dam attached a 24" pipe onto the State's 36" pipe, which greatly restricts the overflow of flood water. He also said that the Army Engineers are supposed to be studying this problem. Mr. Damon pointed out that the presence of the existing dam presents a hazard to the state highway and cited conditions during the flood last spring when a number of logs struck the bridge. Commissioner Reynolds observed that the Commission should move very cautiously in matters affecting water rights. Mr. Cannon stated that the City has considered this angle and has agreed to relieve the State of any burden of suit for damages. He also pointed out that the owners of the dam have stated that they do not object to a type of structure which will permit lowering of the water level during floods. The Commission instructed the Engineer to investigate the matter fully and to present a report, following which action will be taken.

Mr. Cannon then mentioned that a number of complaints have been received concerning the condition of the Beech Creek Highway and he inquired as to how to proceed in asking for improvement on the 12-mile section from the Forest Boundary to Mt. Vernon. He was informed by Chairman Chandler that it will be necessary for the City Council to make a formal request for a survey in writing.

Messrs. Stan Skoko, Clackamas County Commissioner, Oregon City; and H. F. Sweeney, President, Wilsonville City Club, Wilsonville, came before the Commission regarding the establishment of park facilities at the north end of the Willamette River Bridge in Wilsonville on the R.H. Baldock Freeway. Mr. Skoko stated that the area of interest is an approximate 5-acre tract on the west side of the freeway. Clackamas County, he stated, in cooperation with the town of Wilsonville, hopes to develop the area for park and picnic purposes and also as a boat-launching site. If the land can be acquired, he said, development is planned near the river first and later on in the higher area, over a three to five year period. No access is requested to the freeway as the park can be reached from the old road. In the development of the park, he continued, it is not contemplated to use the area which the State has secured for a source of road material. Mr Skoko stated that the people of Wilsonville are much interested in developing a park facility, as there is no other park nearby, and have plans to raise funds for its beautification. The Commission referred the matter to the Parks Superintendent and the Engineer for a complete report. Chairman Chandler expressed the feeling, pending evidence to the contrary, that the Commission might approve on the basis of a long-term lease or "land use" permit.

The Commission discussed with the Engineer bids received at the morning session for highway construction and at 3:00 p.m. Commissioner Reynolds announced awards of contracts as follows:

"Construct 180' reinforced concrete bridge over Zigzag River on Clackamas County Road No. 820, in Clackamas County: The Commission referred all bids to Clackamas County for award.

"Construct Missouri Bottom-Canyonville structures on the Myrtle Creek-Canyonville Section of the relocated Pacific Highway in Douglas County: The Commission elects to accept the bid of Lee Hoffman, Beaverton, who submitted the low bid, in the sum of $719,642, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Embankment repair on the Bybee Bridge (Rogue River) Section of the Table Rock Road, in Jackson County: The Commission elects to accept the bid of F. L. Somers, Medford, who submitted the low bid, in the sum of $4,860, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County is received and the sum of $2,790 is deposited by the County and approval of the Bureau of Public Roads is received.

"Grading and paving on the East and West Forks, Illinois River Bridge Sections of the Redwood Highway in Josephine County: The Commission elects to accept the bid of Durbin Bros., Eugene, who submitted the low bid, in the sum $273,523, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving on the Illahee-North Jefferson Junction Section of the Pacific Highway East in Marion County: The Commission elects to accept the bid of Roy L. Houck & Sons, Salem, who submitted the low bid in the sum of $573,220.50, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Structure, grading and stone base on the 37th Avenue-42nd Avenue Section of the T.H. Banfield Expressway in Portland, in Multnomah County: The Commission elects to accept the bid of Donald M. Drake Co., Portland, who submitted the low bid in the sum of $455,002, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Structure, grading and stone base on the Yamhill River (Lafayette) Bridge Section of the Lafayette-South Road in Yamhill County: The Commission elects to accept the bid of Lee Hoffman, Beaverton, who submitted the low bid in the sum of $204,971, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Yamhill County

is received and the sum of $46,350 is deposited by the County.

The Secretary reported receipt of a letter from Mr. Jayne, an attorney representing Tom Lillebo, contractor, requesting that Mr. Lillebo be permitted to assign to Tom Lillebo Construction Co., an Oregon corporation, all state highway contracts that Mr. Lillebo now has under way as an individual. The Commission approved such assignment under condition that the sureties on the bonds furnished in connection with these contracts consent thereto, in writing, without prejudice to the bonds. The Secretary was authorized to sign in behalf of the Commission a form of "Consent to Assignment" in connection with each contract that Mr. Lillebo now has under way subject to such condition.

The Commission signed the following agreements and other papers:

"Permit Agreement" with Evans Products Company granting the company a right to install a water main across state property on Roseburg-Winchester Section of Pacific Highway, Douglas County.

"Bargain and Sale Deed" to Mary Lofgren for property on Willamette River-Gervais Road Section of R. H. Baldock Freeway, Marion County.

"Indentures of Access" on the following properties:

a. Nash property on Frankport-Rinehart Creek Section of Oregon Coast Highway, Curry County.

b. Sauers property on Reedsport-Coos County Line Section of Oregon Coast Highway, Douglas County.

c. Hemphill property on South Unit-Pendleton-Pilot Rock Section of Pendleton-John Day Highway, Umatilla County.

d. McUne property on Sage Hen Hill-Hines Section of Central Oregon Highway, Harney County.

e. Fay property on Sage Hen Hill-Hines Section of Central Oregon Highway, Harney County.

"Lease for Land" with Pacific Power and Light Company for property on Springfield Section of McKenzie Highway, Lane County.

"Bargain and Sale Deed" to Don and Helen Irion for property on Tualatin River-Wilsonville Section of R. H. Baldock Freeway, Multnomah County.

"Commercial Power Contract" with Wasco Electric Cooperative, Inc., for extension of power line and providing electrical energy to Warm Springs Junction Maintenance Station.

"Budget" covering 1957-59 biennium.

"Contract for Services" with Corps of Engineers for study to determine cost of converting to a four-lane freeway the present Columbia River Highway (US 30) in Sherman and Gilliam Counties necessitated by construction of the John Day Dam.

"Extension Rider" with UP Railroad Company for materials storage site at Baker.

"Agreement" with Mr. and Mrs. Earl Morley and Mr. and Mrs. Roy F. Smith covering safe ingress and egress to their service station adjacent to the old Pacific Highway, at Booth Ranch, Douglas County.

"Throughway Agreement" with Yamhill County covering the Whiteson Section of the Pacific Highway in Yamhill County. (Bids to be received September 27, 1956)

"Speed Limit Resolution" on Columbia River Highway North City limits of Scappoose.

"Lease for Land Agreement" with Associated Chemists, Inc., for rental of property situate on Banfield Expressway in Portland. Lease for period of 5 years. Rental $125 month.

"Lease Agreement" with John P. Allison and Herbert G. Willamore covering rental of property situate on Salem-Pringle Creek Section of Pacific Highway in Marion County. Lease for period of 3 years. Rental $35 per month.

"Agreement" with Washington County covering Project ER-44(1), Dawson Creek Tributary Drainage Structure on Baseline Road, FAS 676, Washington County.

"Agreement" with City of Beaverton covering the installation of a flashing beacon at the intersection of the Beaverton-Hillsdale Highway with Broadway Street in Beaverton.

"Throughway Agreement" with Douglas County covering Myrtle Creek-Missouri Bottom Unit, Myrtle Creek-Canyonville Section, Pacific Highway.

"Throughway Agreement" with Douglas County covering the Missouri Bottom-Fords Bridge Unit of the Myrtle Creek-Canyonville Section of Pacific Highway.

"Throughway Agreement" with City of Canyonville covering the Fords Bridge-Canyonville Unit, Myrtle Creek-Canyonville Section of Pacific Highway.

"Commission Meeting Minutes" for July 12 and 13, 1956.

"Commission Meeting Minutes" for Special Meeting of July 26, 1956.

There being no further business, the meeting was declared adjourned by Chairman Chandler at 3:30 p.m.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

September 27 and 28, 1956

EXHIBIT "A"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - R. H. BALDOCK FREEWAY

20992 Tomlinson, Perry M. and Dorothy M. (Black)
Right of Way
Option expires February 27, 1957

21,170 sq. ft., lump sum	$3,700.00	
House, 652 sq. ft. at $6.25 per sq. ft.	4,075.00	
Shed and freezer	500.00	
Nursery stock	900.00	
Improvements	325.00	
Amount to be paid owners - chrg to Right of Way		$9,500.00
State to assume 1956-57 taxes. Estimate		190.00

EXHIBIT "A" (Cont)

Amount to be paid owners - chrg to Right of Way $ 1.00

THINGS TO BE DONE BY THE STATE

Stockpile on Grantors' property hardpan material found to a depth of 16'. Estimated cost to State not over $ 4,000.00

Access controlled - none allowed -

DEADY-SHADY SECTION - PACIFIC HIGHWAY

19419 Holcomb, Charles A. and Lucille E. (Morgan)
Ease. for Const. & Maint. of outlet ditch
Option expires March 20, 1957

0.06 acre, easement only, lump sum $ 50.00

Amount to be paid owners - chrg to Right of Way $ 50.00

THINGS TO BE DONE BY THE STATE

Maintain ditch. Construct swinging gate. Grantee not to erect any fence along easement without written consent of Grantor.

Access not controlled - Previously access controlled - none allowed -

EXHIBIT "A" (Cont)

CANNON BEACH JUNCTION SECTION - SUNSET HIGHWAY

25659 Diehl, Paul and Laura M. (Friess)
Right of Way
Option expires March 24, 1957

0.098 acre, lump sum	$ 208.00	
Amount to be paid owners - chrg to Right of Way		$ 208.00

Grantors to re-establish 24 rods of fencing along new r/w line.

THINGS TO BE DONE BY THE STATE

Re-establish 2 approach roads to grantors driveways at present location.
Access: 180+80 and 183+70, E., unrestricted.

Access controlled -

25660 Kilby, James E. and Floy L. Kilby (Friess)
Right of Way
Option expires March 24, 1957

0.035 acre, lump sum	$ 100.00	
Amount to be paid owners - chrg to Right of Way		$ 100.00

THINGS TO BE DONE BY THE STATE

Re-establish Grantors approach road at approx. Sta. 184+56.
Access: Sta. 184+56, E., unrestricted.

Access controlled -

SALEM BY-PASS-JEFFERSON JUNCTION SECTION - PACIFIC HIGHWAY

25762 Thompson, Gerald G. and Ora Jean (Benner)
Right of Way
Option expires March 17, 1957

0.83 acre, lump sum	$ 1,000.00
House, 529 sq. ft. at $6.50 per sq. ft.	3,438.50
Well	402.00
Pump and tank	150.00
Tool house and shop, 288 sq. ft. at $1 per sq. ft.	288.00
Well house, outbuildings, fencing etc.	221.50

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4200 with Rogers Construction, Inc., for grading and paving on the Willamette Junction-Walker Mountain Road and Chemult-Beaver Marsh Units, Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County, completed July 14, 1956.

"Contract No. 4211 with Warren Northwest, Inc. for paving on the 42nd Avenue-92nd Avenue Section of the T. H. Banfield Expressway in Multnomah County, completed June 25, 1956.

"Contract No. 4267 with Porter W. Yett for paving on the Crosby Road-Concomley Road Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway (R. H. Baldock Freeway), in Marion County, completed August 8, 1956.

"Contract No. 4300 with Vernie Jarl for grading and topping on the Forest Boundary-Meadow Brook Section of the Ukiah-Hilgard Highway in Union County, completed July 9, 1956.

"Contract No. 4313 with Porter W. Yett for grading and paving on the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway in Washington County, completed September 8, 1956.

"Contract No. 4325 with Coos Bay Dredging Company for grading and oiling on the West Unit, Reedsport-Dean Creek Section of the Umpqua Highway in Douglas County, completed April 25, 1956.

"Contract No. 4342 with W. H. Shields Construction Co. for constructing three structures on the Coast Fork Willamette River-Divide Unit, Goshen-Divide Section of the Pacific Highway in Lane County, completed August 13, 1956.

"Contract No. 4354 with C. C. Meisel for grading and paving on the E. Unit, Carlton Junction-Newberg Section of the Yamhill-Newberg Highway in Yamhill County, completed August 22, 1956.

EXHIBIT "B" (Cont)

"Contract No. 4355 with A. H. Barbour & Son, Inc. for painting the McCullough Bridge on the Oregon Coast Highway in Coos County, completed August 23, 1956.

"Contract No. 4410 with P. A. Shoat Co. for oiling on the division No. 2 Oiling Project in Marion, Lincoln, Tillamook and Polk Counties, completed August 31, 1956.

"Contract No. 4425 with Russell Olson Construction Co., Inc., for grading and paving on the Elgin (N. 10th Avenue) City Street Section in Union County, completed September 18, 1956.

"Contract No. 4444 with Electric Corporation for illumination installations on the Hubbard Interchange-Hayesville Section of the Portland-Salem Expressway (R. H. Baldock Freeway) in Marion County, completed August 31, 1956.

"Contract No. 4449 with Porter W. Yett for shoulder paving on the Beaverton Section of the Tualatin Valley Highway in Washington County, completed September 18, 1956.

"Contract No. 4451 with Inland Construction Co. for structure, grading and paving on the Clackamas R. R. Overcrossing Section of the Clackamas Highway in Clackamas County, completed August 10, 1956.

"Contract No. 4458 with N. A. Toole Construction Co. for constructing stone base and oiling on the Forest Boundary-Halfway Section of the Pine Creek County Road in Baker County, completed August 8, 1956.

"Contract No. 4473 with Neilsen & Smith Construction Co. for construction of two structures (viaduct & bridge) on the Olds Ferry-Ontario Section of the Old Oregon Trail Highway in Malheur County, completed July 7, 1956.

"Contract No. 4496 with A. H. Saxton & Son for constructing a railroad overcrossing at Weaver on the Shady-Canyonville Section of the Pacific Highway in Douglas County, completed August 15, 1956.

"Contract No. 4526 with Glenn Snook for constructing three structures on the Shady-Canyonville Section of the Pacific Highway in Douglas County, completed August 31, 1956.

"Contract No. 4531 with John Helstrom for constructing a concession and rest room building at Depoe Bay on the Oregon Coast Highway in Lincoln County, completed June 30, 1956.

"Contract No. 4542 with Arthur Simonsen & Co. for constructing bridge, grading and paving on the Havana Section of the Havana-Helix Highway in Umatilla County, completed August 8, 1956.

EXHIBIT "B" (Cont)

"Contract No. 4563 with E. H. Itschner Co. for grading and oiling on the East Unit, Hamilton-Long Creek Section of the Kimberly- Long Creek Highway in Grant County, completed August 14, 1956.

"Contract No. 4603 with Hamilton & Thoms for constructing the Gazley Road Undercrossing on the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County, completed August 29, 1956.

"Contract No. 4609 with C. E. Leseberg for grading and paving on the Idaho State Line-Sucker Creek Section of the I.O.N. Highway in Malheur County, completed August 31, 1956.

"Contract No. 4611 with Schrader Construction Co. for reconstruction of the Messner Overcrossing on the Columbia River Highway in Morrow County, completed August 31, 1956.

"Contract No. 4614 with Durbin Bros. for grading and surfacing on the Boulder Gorge Section of the Sumpter Valley Highway in Baker County, completed August 21, 1956.

"Contract No. 4627 with Roger Holmes for widening the Little Deschutes River Bridge on the Crescent Lake Junction-The Dalles-California Junction Section of the Willamette Highway in Klamath County, completed August 17, 1956.

"Contract No. 4628 with Barney B. Helser for furnishing crushed rock in stockpile on the Newport Section of the Oregon Coast and Corvallis-Newport Highways in Lincoln County, completed July 25, 1956.

"Contract No. 4633 with Martin Kincheloe for grading and stone base on the Yellow Creek Section of the Powers Highway in Coos County completed September 12, 1956.

"Contract No. 4634 with J. J. Walton for illumination installation on the Shady Point-Myrtle Creek Unit, Goshen-Myrtle Creek Section of the Pacific Highway in Douglas County, completed August 17, 1956.

"Contract No. 4638 with N. A. Toole Construction Co. for furnishing crushed materials in stockpiles on the Follyfarm Section of the Crane-Scotts Butte Highway in Malheur County, completed September 6, 1956.

"Contract No. 4644 with Warren Northwest, Inc. for grading and paving on the Riddle (Main St.) City Street Section in Douglas County, completed August 31, 1956.

"Contract No. 4647 with Central Paving Co. and Calkins Crushing Co. for grading and paving on the Lost River-Hatfield Junction Section of the Klamath Falls-Malin Highway in Klamath County, completed July 28, 1956.

EXHIBIT "B" (Cont)

EXHIBIT "C-1"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the relocated Havana Section of the Havana-Helix Secondary Highway No. 335 located in Umatilla County, the northerly terminus of which is at Highway Engineer's Survey Station 2+00 and the southerly terminus of which is at Highway Engineer's Survey Station 51+94.04 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, portions of the former right of way are no longer needed for right of way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Umatilla County and the State Highway Commission entered into an agreement on the 27th day of April, 1956, relating to the disposition to be made of the portions that may be eliminated, therein and hereinafter referred to as Units "A," "B," "C," and "D."

WHEREAS, said agreement provided that Units "A,", "B," "C," and "D" would be abandoned by the State Highway Commission by a formal resolution as part of the Havana-Helix Highway and the state highway system; that Units "A" and "C" would be maintained thereafter by County as part of the county road system; and that Units "B" and "D" would revert to the owners of the abutting property; and

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right of way of the Havana Section of the Havana-Helix Highway, together with other real property acquired by the State for roadway right of way and other public purposes, is needed and valuable for right of way purposes and public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the former right of way of the said Havana-Helix Highway referred to herein as Units "A," "B," "C," and "D" as well as all the property affected by reason of said realignment;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portions of the former right of way which by reason of the relocation of the Havana Section of the Havana-Helix Highway are no longer within the boundaries of the new right of way are identified as Units "A," "B," "C," and "D," and described as follows:

EXHIBIT "C-1 " (Cont)

Unit "A"

All the land situated within the right of way boundaries of the Havana-Helix Highway as formerly routed, beginning at the westerly right of way line opposite Highway Engineer's Survey Station 6+50 of the said highway as relocated in the northeast quarter of the northwest quarter (NE 1/4 NW 1/4), Section 23, Township 3 North, Range 33 East, W. M.; thence southwesterly via said highway as formerly routed to a county road junction in the southeast quarter of the northwest quarter (SE 1/4 NW 1/4), Section 23, Township 3 North, Range 33 East, W. M.

Unit "B"

All the land situated within the right of way boundaries of the Havana-Helix Highway as formerly routed beginning at a county road junction in the southeast quarter of the northwest quarter (SE 1/4 NW 1/4), Section 23, Township 3 North, Range 33 East, W. M.; thence southerly via said highway as formerly routed to the northerly right of way line of the Union Pacific Railroad in the northeast quarter of the southwest quarter (NE 1/4 SW 1/4), Section 23, Township 3 North, Range 33 East, W. M.

Unit "C"

All the land situated within the right of way boundaries of the Havana-Helix Highway as formerly routed beginning at the southerly right of way line of the Union Pacific Railroad in the northeast quarter of the southwest quarter (NW 1/4 SW 1/4) of Section 23, Township 3 North, Range 33 East, W. M.; thence easterly and northeasterly via said highway as formerly routed to the east-west center line of Section 23, Township 3 North, Range 33 East, W. M.

Unit "D"

All the land situated within the former right of way boundaries of the Havana-Helix Highway as formerly routed, beginning at the easterly right of way line opposite Highway Engineer's Survey Station 48+70 of said highway as relocated in the northwest quarter of the northeast quarter (NW 1/4 NE 1/4), Section 26, Township 3 North, Range 33 East, W. M.; thence easterly via said highway as formerly routed to the northerly right of way line opposite Highway Engineer's Survey Station 327+80. 3 of the Oregon-Washington Highway No. 8 in the northwest quarter of the northeast quarter (NW 1/4 NE 1/4), Section 26, Township 3 North, Range 33 East, W. M.

2. That pursuant to the agreement entered into with Umatilla County on the 27th day of April, 1956, Units "A," "B," "C," and "D"

indicated on the map attached hereto and marked Exhibit "A", and by this reference made a part hereof, are hereby duly abandoned as part of the Havana-Helix Highway and the state highway system; all right, title, and interest which State has in the right of way Units "A" and "C" herein described, pass to and vest in the said County; and all right, title, and interest which State has in the right of way of Units "B" and "D" herein described, pass to and vest in the abutting property owners.

3. That the right of way of the former and of the relocated Havana Section of the Havana-Helix Highway, together with the real property acquired by State for roadway right of way and other public purposes, as indicated and colored in green on Exhibit "A" attached hereto, shall be retained and held by State.

4. That this Abandonment and Retention Resolution, No. 319 be entered in the minutes and records of the Oregon State Highway Commission as of the 27th day of September, 1956, and that the Secretary is ordered to mail a duly certified copy hereof to the County Court of Umatilla County.

27176

EXHIBIT "C-2"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the relocated East Unit of the Carlton Junction-Newberg Section of the Yamhill-Newberg State Secondary Highway No. 151, in Yamhill County, commencing at Highway Engineer's Survey Station 410+50 and extending easterly to Highway Engineer's Survey Station 580+60.4 of the relocated East Unit of the Carlton Junction-Newberg Section of said highway is open for public travel; and

WHEREAS, due to the relocation of the aforesaid section a portion of the former right of way is no longer needed for State Highway purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Yamhill County and the State Highway Commission entered into an agreement under date of April 14, 1955, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be abandoned by the State Highway Commission as part of the Yamhill-Newberg State Secondary Highway No. 151 and would be maintained thereafter by said County as a county road under the jurisdiction and control of said County; and

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right of way of the Yamhill-Newberg State Secondary Highway No. 151, together with other real property acquired by the State for roadway right of way and other public purposes, as is indicated on the map attached hereto marked Exhibit "A" and by this reference made a part hereof, are needed and valuable for right of way purposes and public use; and

WHEREAS, it is the purpose of the Highway Commmssion to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway referred to herein as Unit "A" and affected by reason of the said relocation;

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, IT IS HEREBY RESOLVED AND ORDERED that:

1. The portion or unit of the former right of way, which by reason of the relocation of the said Yamhill-Newberg State Secondary Highway No. 151 is no longer within the boundaries of the new right of

way, is identified as Unit "A" and described as follows:

Unit A

Beginning on the northerly right of way boundary line opposite Highway Engineer's Survey Station 522+00 of the relocated Yamhill-Newberg State Secondary Highway No. 151 in the southeast quarter of the northwest quarter (SE¼ NW¼), Section 13, Township 3 South, Range 3 West, W. M.; thence southeasterly via the former route of the Yamhill-Newberg State Secondary Highway No. 151 to the northerly right of way boundary line opposite Highway Engineer's Survey Station 566+85 of the relocated Yamhill-Newberg State Secondary Highway No. 151 in the northwest quarter of the south west quarter (NW¼ SW¼), Section 18, Township 3 South, Range 2 West, W. M., Yamhill County, Oregon.

2. Pursuant to the agreement entered into with Yamhill County on the 14th day of April, 1955, Unit "A" is hereby duly abandoned as part of the Yamhill-Newberg State Secondary Highway No. 151 and of the State Highway System; and all of the right title and interest which the State has in the right of way of Unit "A" herein described passes to and vests in the said Yamhill County.

3. The right of way of the former and of the relocated East Unit of the Carlton Junction-Newberg Section of the Yamhill-Newberg State Secondary Highway No. 151 together with the real property acquired by the State for roadway right of way and other public purposes, as shown in green on Exhibit "A" attached hereto, shall be retained and held by the State.

4. This Abandonment and Retention Resolution No. 301 be entered in the minutes and records of the Oregon State Highway Commission as of the 27th day of September, 1956, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Yamhill County, Oregon.

EXHIBIT "C-3"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the Moro-Grass Valley Section, being the northerly portion of the relocated Moro-Kent Section, of the Sherman State Primary Highway No. 42 located in Sherman County. the northerly terminus of which is at Highway Engineer's Survey Station 474+00 of said relocated highway, in the town of Moro, and the southerly terminus of which is at Highway Engineer's Survey Station 933+00 of the said relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, certain portions of the former right of way are no longer needed for right of way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Sherman County and the State Highway Commission entered into an agreement on the 4th day of November, 1955, relating to the disposition to be made of the portions that may be eliminated, therein and hereinafter referred to as Units "A", "B", "C" and "D"; and

WHEREAS, said agreement provided that Units "A", "B", "C" and "D" would be abandoned by the State Highway Commission, by a formal resolution, as part of the Sherman State Primary Highway No. 42 and of the state highway system; that the right, title and interest of the State to Units "A" and "D" would be vested in Sherman County and would be maintained thereafter by Sherman County as part of the county road system; that the right, title and interest of the State to Units "B" and "C" would be vested in the owners of the abutting property; and

WHEREAS, it is the judgement of the State Highway Commission that certain portions of the former right of way of the Sherman State Primary Highway No. 42, together with other real property acquired by the State for roadway right of way and other public purposes, are needed and valuable for right of way purposes and other public uses; and

WHEREAS, it is the purposes of the State Highway Commission to take official action and impress upon its records the disposition made of the portions of the former right of way of the said Sherman State Primary Highway No. 42 referred to herein as Units "A", "B", "C" and "D" as well as all the property affected by reason of said relocation.

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by this Commission, that:

1. The portions of the former right of way which by reason of the construction of the Moro-Grass Valley Section of the relocated Moro-Kent

EXHIBIT "C-3" (Cont)

Section of the Sherman State Primary Highway No. 42 are no longer within the boundaries of the new right of way are identified as Units "A", "B", "C" and "D" and described as follows:

Unit "A"

All the land situated within the right of way boundaries of the Sherman State Primary Highway as formerly routed beginning at the southerly city boundary of the City of Moro; thence southerly via said highway as formerly routed to the easterly right of way line opposite Highway Engineer's Survey Station 522+70 of said highway as relocated in the northwest quarter of the northwest quarter (NW 1/4-NW 1/4), Section 19, Township 1 South, Range 17 East, W. M.

Unit "B"

All the land situated within the right of way boundaries of the Sherman State Primary Highway as formerly routed, beginning at the westerly right of way line opposite Highway Engineer's Survey Station 624+30 of said highway as relocated in the northwest quarter of the northeast quarter (NW 1/4-NE 1/4), Section 36, Township 1 South, Range 16 East, W. M.; thence southerly via said highway as formerly routed to the westerly right of way line opposite Highway Engineer's Survey Station 639+00 of said highway as relocated in the southwest quarter of the northeast quarter (SW 1/4-NE 1/4), Section 36, Township 1 South, Range 16 East, W. M.

Unit "C"

All the land situated within the right of way boundaries of the Sherman State Primary Highway as formerly routed beginning at the westerly right of way line opposite Highway Engineer's Survey Station 714+00 of said highway as relocated in the northeast quarter of the southeast quarter (NE 1/4-SE 1/4), Section 2, Township 2 South, Range 16 East, W. M.; thence southwesterly via said highway as formerly routed to the westerly right of way line opposite Highway Engineer's Survey Station 762+10 of said highway as relocated in the southeast quarter of the northwest quarter (SE 1/4-NW 1/4), Section 11, Township 2 South, Range 16 East, W. M.

Unit "D"

All the land situated within the right of way boundaries of the Sherman State Primary Highway as formerly routed

EXHIBIT "C-3" (Cont)

beginning at the westerly right of way line opposite Highway Engineer's Survey Station 887+20 of said highway as relocated in the northeast quarter of the southeast quarter (NE 1/4-SE 1/4) of Section 22, and the northwest quarter of the southwest quarter (NW 1/4-SW 1/4) of Section 23, Township 2 South, Range 16 East, W. M.; thence southerly and easterly via said highway as formerly routed to the westerly right of way line opposite Highway Engineer's Survey Station 916+20 in the northeast quarter of the northwest quarter (NE 1/4-NW 1/4), Section 26, Township 2 South, Range 16 East, W. M.

2. Pursuant to the aforesaid agreement, Units "A" and "D" are hereby duly abandoned as part of the Sherman State Primary Highway No. 42 and the state highway system, and all the right, title and interest which the State has in the right of way of the said Units "A" and "D" hereby pass to and vest in Sherman County, and shall hereafter be maintained by said Sherman County as part of the county road system.

3. That Units "B" and "C" are not needed for the service of persons living thereon or for any communities served thereby or for any right of way or other public purposes and therefore they shall be and hereby are abandoned as part of the said Sherman State Primary Highway No. 42 and the state highway system and all the right, title and interest which the State has in the right of way of said Units "B" and "C" hereby passes to and vests in the owners of the abutting land.

4. The other portions of the right of way of the former Sherman State Primary Highway No. 42, not hereinbefore described in detail, together with the real property acquired by the State for highway right of way and other public purposes, all as indicated on Exhibit "A", attached hereto, shall be retained and held by the State.

5. This Abandonment and Retention resolution, No. 309 be entered into the minutes and records of the Oregon State Highway Commission as of the 27th day of September, 1956, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Sherman County.

EXHIBIT "D-1"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Valley Junction-Sheridan Section of the Salmon River Highway described as follows:

A parcel of land lying in the Wm. Chapman D. L. C. being Claim #41 in Township 5 South, Range 6 West and Claim #86 in Township 6 South, Range 6 West, W. M., Yamhill County, Oregon, and being a portion of that property described in that deed to Jack W. and Wilma D. Eden, recorded in Book 178, Page 263, of Yamhill County Records of Deeds; the said parcel being that portion of said property lying southerly of a line which is parallel to and 70 feet southerly of the center line of the Salmon River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 475+00, said Station being 247 feet North and 2630 feet West of the intersection of the East line of the William Chapman D. L. C. and the South line of Section 35, Township 5 South, Range 6 West, W. M.; thence North 71° 55' 24" East 1500 feet to Station 490+00, the Northerly line of said parcel crossing the Westerly and Easterly lines of said property approximately opposite center line Stations 480+43 and 487+11 respectively.

Bearings used herein are based upon the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 6.36 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to

EXHIBIT "D-1" (Cont)

advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to from and between said real property and the right of way of the Salmon River Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 14 be entered in the minutes and records of the Commission as of the 27th day of September, 1956.

27183

EXHIBIT "D-2"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Willamette River-Hayesville Section of the R. H. Baldock Freeway described as follows:

A parcel of land lying in Section 12, Township 7 South, Range 3 West, W.M., Marion County, Oregon, and being a portion of that tract of land described in that certain deed to G. C. Farmer, recorded in Book 301, Page 623 of Marion County Records of Deeds; the said parcel being described as follows:

Beginning at the most southerly corner of said property, said corner being 597.6 feet south and 517.6 feet west of the northwest corner of the Towner Savage D.L.C. #37, Township 7 South, Range 3 West, W.M., thence northwesterly along the southwesterly line of said property 108 feet to the true place of beginning; thence North 16° 30' 55" East, 230 feet; thence North 17° 37' 05" West, 45 feet; thence North 50° 15' 27" West, 73.23 feet, more or less, to a point on the northwesterly line of said property said point being 25 feet from the centerline of the Claxter Road right of way; thence southwesterly along the northwesterly line of said property 262.10 feet to the most westerly corner of said property; thence southeasterly along the southwesterly line of said property 179.15 feet, more or less, to the true place of beginning.

The parcel of land to which this description applies contains 0.80 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $4,250.00, and the Commission is desirous of selling and disposing of said property at a price not less that the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq.

EXHIBIT "D-2" (Cont)

AND BE IT FURTHER RESOLVED that this Property Resolution No. 15 be entered in the minutes and records of the Commission as of the 27th day of September, 1956.

27185

EXHIBIT "E-1"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: SANTIAM HWY. (Not "South Santiam Highway")(Linn County)

Highway number 16 Route number US 20

Location of Termini		Established Speed
M. P. 14.03 (South City limits of Lebanon)	to M. P. 14.56 (0.20 mile East of Big Brother Farm Road)	35 M. P. H.
M. P. 14.56	to M. P. 15.40 (0.26 mile East of Santiam Drive)	45 M. P. H.

EXHIBIT "E-1" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 231 be entered in the minutes and records of the Commission as of the 27th day of September, 1956.

2718:1

EXHIBIT "F-1"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the Oregon Coast Highway is a primary highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that on said Oregon Coast Highway a hazardous condition exists at the intersection of the access road to the Al Pierce Lumber Company between Coos Bay and North Bend, caused by the parking of vehicles on the east side of the said highway; and

WHEREAS, the parking of such vehicles on said highway creates traffic congestion to such an extent that in the opinion of the Highway Commission a hazardous condition is created to highway traffic; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on the east shoulder of said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, as follows:

1. The Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles upon the east side of the Oregon Coast Highway between M.P. 236.86 (Engineer's Station 216+30) and M.P. 236.88 (Engineer's Station 217+40) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that parking of vehicles on the east side of said Oregon Coast Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs along said sections at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS."

EXHIBIT "F-1" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police, for his information.

6. That this "No Parking" Resolution No. 151 be entered in the minutes and records of the State Highway Commission as of the 27th day of September, 1956.

27191

EXHIBIT "F-2"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the Pacific Highway is a primary highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that on said Pacific Highway in the vicinity of the Rice Hill Interchange in Douglas County vehicles are parked on the east shoulder of the northbound section of the highway near a cafe and service station; and

WHEREAS, the parking of vehicles on said highway section creates traffic congestion to such an extent that, in the opinion of the Highway Commission, a hazardous condition is created to highway traffic; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on the shoulders of said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, as follows:

1. The Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on all shoulders of said Pacific Highway between M.P. 169.72 (Engineer's Station 1018+00) and M.P. 170.32 (Engineer's Station 1050+00) creates a hazard to the traveling public.

2. That in the opinion of this Commission the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that parking of vehicles on all shoulders of said Pacific Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs along said section at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS."

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

EXHIBIT 'F-2" (Cont)

6. That this "No Parking" Resolution No. 152 be entered in the minutes and records of the State Highway Commission as of the 27th day of September, 1956.

27193

EXHIBIT "F-3"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the Pacific Highway West is a primary highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that a hazardous condition exists at the intersection of said Pacific Highway West and the Beaver Creek Road south of Corvallis, where a store, a service station, and a tavern are located, caused by the parking of vehicles in front of said business establishments; and

WHEREAS, the parking of vehicles on said highway section obstructs sight distance to vehicles entering from Beaver Creek Road to such an extent that, in the opinion of the Highway Commission, a hazardous condition is created to highway traffic; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on the shoulders of said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, as follows:

1. The Commission does hereby find and declare, based upon recommendation by members of its staff, that the parking of vehicles on both sides of said Pacific Highway West between M.P. 93.20 (Engineer's Station 528+70) and M.P. 93.40 (Engineer's Station 518+70) creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on both sides of said Pacific Highway West within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs along said section at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS."

EXHIBIT "F-3" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 153 be entered in the minutes and records of the State Highway Commission as of the 27th day of September, 1956.

27195

EXHIBIT "G-1"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or through highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers, notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 21st day of September, 1949, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or through highways, and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by said resolution of September 21, 1949 the Highway Commission declared the Springfield-Creswell Secondary Highway No. 222 to be a through highway and stipulated that traffic entering said highway shall stop before entering; and

WHEREAS, since adoption of said resolution of September 21, 1949 a traffic engineering investigation has been made which reveals that traffic conditions have changed at the intersection of the Springfield-Creswell Highway and the Fall Creek County Road, which is at the west end of the bridge across the Middle Fork, Willamette River, indicating that the volume of traffic entering the Springfield-Creswell Highway from the Fall Creek County Road is greater than the volume of traffic on the Springfield-Creswell Highway at this intersection; and

WHEREAS, based upon results of investigation the State Highway Engineer has recommended to this Commission modification of the order contained in the afore-mentioned resolution of September 21, 1949.

NOW, THEREFORE, based upon the results of said traffic engineering investigation and upon the recommendation of the State Highway Engineer, this Commission does hereby find, declare, resolve, and order, as follows:

1. That the portion of said resolution which requires traffic to stop before entering the Springfield-Creswell Secondary Highway be amended by adding the following paragraph:

EXHIBIT "G-1" (Cont)

"Except that at its intersection with the Fall Creek County Road at M.P. 5.15 those vehicles eastbound on the Springfield-Creswell Highway No. 222 shall be required to stop, and those vehicles northbound on the Fall Creek County Road shall not be required to stop."

2. That hereafter all vehicles traveling east on the Springfield-Creswell Secondary Highway shall come to stop before entering the intersection with the Fall Creek County Road.

3. That traffic on the Fall Creek County Road shall not be required to stop before entering the intersection with the Springfield-Creswell Secondary Highway.

4. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersection shall conform to the types and standards heretofore approved by the Commission.

5. That this resolution shall be entered in the minutes and records of the Commission as of the 27th day of September, 1956 as Through Highways Resolution No. 24, and a duly certified copy thereof delivered to the U. S. Bureau of Public Roads and a like copy to the County Clerk of Lane County, and to the Superintendent of the Department of State Police, for their information.

27197

EXHIBIT "G-2"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or through highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers, notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 27th day of April, 1943 adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or through highways, and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by said resolution of April 27, 1943 the Commission declared the Wilson River Highway No. 37 to be a through highway from Tillamook to Balm Grove, near Glenwood, and stipulated that traffic entering said highway should stop before entering; and

WHEREAS, by said resolution of April 27, 1943 the Highway Commission declared the Beaverton-Aurora (now Beaverton-Tualatin) Highway No. 141 to be a through highway from Beaverton to Tigard, and with certain exceptions required that all traffic should stop before entering said highway; and

WHEREAS, since adoption of said resolution of April 27, 1943, construction of the Wilson River Highway has been undertaken from Balm Grove easterly to a junction with the Sunset Highway near North Plains and it is desired to establish the Wilson River Highway as a through highway from its intersection with the Oregon Coast Highway No. 9 in the city of Tillamook to its intersection with the Sunset Highway No. 47 near North Plains; and

WHEREAS, since adoption of said resolution of April 27, 1943, a change has been made in the routing of the Beaverton-Tualatin Highway in Beaverton from Watson Street to Hall Street, thereby causing a crossing of the Beaverton-Tualatin Highway with the Beaverton Hillsdale Highway No. 40 at Broadway Street; and

WHEREAS, based upon said changes the State Highway Engineer has recommended to this Commission a modification of the order contained in the afore-mentioned resolution of April 27, 1943.

EXHIBIT "G-2" (Cont)

NOW, THEREFORE, based upon certain changes in said highways and upon the recommendation of the State Highway Engineer, this Commission does hereby find, declare, resolve, and order, as follows:

1A. That the portion of said resolution of April 27, 1943 which established the Wilson River Highway as a through highway "from Tillamook to Balm Grove" be amended to establish the Wilson River Highway as a through highway as follows:

"From its intersection with the Oregon Coast Highway No. 9 in the city of Tillamook to its intersection with the Sunset River Highway No. 47, near North Plains."

1B. That the portion of said resolution of April 27, 1943 pertaining to the Beaverton-Tualatin Highway No. 141, be amended to include the following exception: "All traffic on the Beaverton-Tualatin Highway No. 141 shall stop before entering the Beaverton-Hillsdale Highway No. 40 in Beaverton."

2. Traffic on the Beaverton-Hillsdale Highway No. 40 shall not be required to stop before entering the intersection with the Beaverton-Tualatin Highway in Beaverton.

3. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersection shall conform to the types and standards heretofore approved by the Commission.

4. That this resolution shall be entered in the minutes and records of the Commission as of the 27th day of September, 1956 as Through Highways Resolution No. 4a, and a duly certified copy thereof delivered to the U. S. Bureau of Public Roads and a like copy to the County Clerk of Washington County, and to the Superintendent of the Department of State Police, for their information.

27199

EXHIBIT "H"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of the Peach-Jonesboro Section of the Central Oregon Highway in Malheur County, and also of the Tunnel-Namorf Section of the Central Oregon Highway in Malheur County, and in connection therewith to prepare maps showing the route and location of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1A. That the survey of the Peach-Jonesboro Section of the Central Oregon Highway, beginning at Highway Engineer's Station 450+00, a short distance west of the railroad station known as Peach, and extending in an easterly direction to Highway Engineer's Station 690+28.30, approximately one-half mile west of a place known as Black Canyon, together with the map, which for identification purposes bears Map File No. 8B-3-7 and the date of August, 1956 (Drawing No. 1R-5-933), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1B. That the survey of the Tunnel-Namorf Section of the Central Oregon Highway, beginning at Highway Engineer's Station 1083+26.36, approximately one mile southerly from the west portal of the U. P. railroad tunnel in Section 2, Township 21 South, Range 40 East, Willamette Meridian, and extending in an easterly direction to Highway Engineer's Station 450+00, a short distance east of the railroad station of Namorf, together with the map, which for identification purposes bears Map File No. 8B-3-15 and the date of August, 1956 (Drawing No. 1R-5-934), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission

EXHIBIT "H" (Cont)

in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission dated November 3, 1948, said sections of the Central Oregon Highway between Peach and Jonesboro, and between Tunnel and Namorf have been designated as throughways within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-named sections of said highways should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portions of said sections which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said sections of highways were designated as throughways.

5. That this resolution be entered in the minutes and records of the Commission as of the twenty-seventh day of September, 1956 as Survey Resolution No. 145.

27201

EXHIBIT "I"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, under the provisions of ORS 366.460, the State Highway Commission may construct and maintain within the right of way of any state highway, or section thereof, sidewalks or footpaths when it appears that such is necessary in the public interest, and will contribute to the safety of pedestrians, the motoring public or persons using the highway, and

WHEREAS, it is proposed to construct a footpath under the northerly approach of the D River bridge at Delake, Oregon on the Oregon Coast Highway for the use of persons passing from Delake across the highway to the ocean shore, and

WHEREAS, it appears to this Commission that there is considerable pedestrian traffic to and from the ocean shore and DeLake across the Oregon Coast Highway near the said bridge and that the construction of the footpath as hereinabove described will remove pedestrian travel from the highway to the consequent safety of the traveling public and pedestrians.

NOW THEREFORE, BE IT RESOLVED by this Commission:

1. That this Commission does hereby find and declare that the construction of a footpath under the northerly approach to the D River bridge at Delake, Oregon, on the Oregon Coast Highway, is necessary in the public interest and will contribute to the safety of pedestrians, the motoring public or persons using the highway.

2. That the State Highway Engineer is directed to proceed with the constuction of the said footpath.

3. That this resolution be entered in the minutes and records of this Commission as of the 27th day of September, 1956, as Footpath Construction Resolution No. 3.

27202

EXHIBIT "J-1"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State or Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are

best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination

such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 668.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 668, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27205

EXHIBIT "J-2"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Hillsboro-Silverton Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Hillsboro-Silverton Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the widening, improvement and maintenance of the said Hillsboro-Silverton Highway and the highway facilities for which each of the

EXHIBIT "J-2" (Cont)

said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 669.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 669, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27207

EXHIBIT "J-3"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a thoughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Salem By-Pass-Jefferson Junction Section of the Pacific Highway East; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and,

WHEREAS, the Highway Commission, whenever it become necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best

served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, the public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Salem By-Pass-Jefferson Junction Section of the Pacific Highway East as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening, improvement and maintenance of the said Salem By-Pass-Jefferson Junction Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination

such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 670.

EXHIBIT "J-4"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

27211

EXHIBIT "J-4" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 671.

EXHIBIT "J-4" (Cont)

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 671, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27213

EXHIBIT "J-5"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the McMinnville (Adams Street) Section of the Pacific Highway West; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said McMinnville (Adams Street) Section of the Pacific Highway West, certain interest in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "J-5" (Cont)

2. That the relocation, construction, improvement and maintenace of the said McMinnville (Adams Street) Section of the said Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is authorized and directed to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 672.

27215

EXHIBIT "J-6"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the West Fort, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said sections of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "J-6" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway, as a throughway, certain interest in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated West Fork, Illinois River Bridge and the East Fork, Illinois River Bridge Sections of the Redwood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said West Fork, Illinois River Bridge and East Fork, Illinois River Bridge Sections of the Redwood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "J-6" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 673.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 673, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-7"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the River Banks Farm Section of the Rogue River Loop Highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way for any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the River Banks Farm Section of the Rogue River Loop Highway will be relocated, constructed or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles

promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the River Banks Farm Section of the Rogue River Loop Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said relocated River Banks Section of the Rogue River Loop Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3 That the relocation, construction, improvement and maintenance of the said River Banks Farm Section of the Rogue River Loop Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 674.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 674, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27221

EXHIBIT "J-8"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the State Highway Commission, on the 1st day of March, 1956, adopted Condemnation Resolution No. 586, declaring the necessity of acquiring certain parcels of property situated in Washington County, Oregon, for right of way purposes for the widening in part, relocating in part, construction, improvement and maintenance of the Cornelius-Hillsboro Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway; and

WHEREAS, the State Highway Commission, on the 1st day of April, 1956, amended said Resolution No. 586 with particular reference to the location of access reservations found on page 8 of Exhibit "A" of the original Resolution No. 586; and

WHEREAS, the State Highway Commission, after further investigation has found that the best interests of the State and the property owners concerned require that certain changes be made in the Exhibit "A" incorporated into said resolution, with particular reference to page 8 thereof and the location of access reservations;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the access control language in that certain Resolution No. 586, Exhibit "A", page 8 thereof, made and entered in full in the minutes and records of the Commission on the 1st day of March, 1956, pertaining to the property owned by the devisees of Herman Behrmann, File R-24383, as amended by that certain resolution duly made and entered in full in the minutes and records of the Commission on the 1st day of April, 1956, and specifically page 8 of Exhibit "A" thereof, be, and the same hereby is, amended to read as follows:

It is necessary that there shall be no rights of access of any nature between the right of way of the said Tualatin Valley Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

> A right of access to the Tualatin Valley Highway of a width not to exceed 25 feet on the northerly side of the said highway opposite Highway Engineer's centerline Station 192+00.

A right of access to the Tualatin Valley Highway of a width not to exceed 25 feet on the southerly side of the said highway opposite Highway Engineer's centerline Station 192+00.

A right of access to the Tualatin Valley Highway of a width not to exceed 25 feet on the northerly side of the said highway opposite Highway Engineer's centerline Station 193+00.

A right of access to the Tualatin Valley Highway of a width not to exceed 25 feet on the southerly side of the said highway opposite Highway Engineer's centerline Station 193+00.

A right of access to the Tualatin Valley Highway of a width not to exceed 25 feet on the northerly side of the said highway opposite Highway Engineer's centerline Station 194+00.

A right of access to the Tualatin Valley Highway of a width not to exceed 25 feet on the southerly side of the said highway opposite Highway Engineer's centerline Station 194+00.

2. That this resolution be entered in full in the minutes and records of this Commission this 27th day of September, 1956.

27223

EXHIBIT "J-9"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Pacific Highwy; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and with the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled,

EXHIBIT "J-9" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, and maintenance of the said Pacific Highway, as a throughway, certain inter ests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the widening, construction, improvement and maintenance of the said Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 675.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 675, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27225

EXHIBIT "J-10"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Through way Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

EXHIBIT "J-10" (Cont)

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 676.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 676, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27229

EXHIBIT "J-11"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Ferry Street Bridge-Mohawk Road Section of the Eugene Springfield Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary; and that access to and from the said highway should be controlled.

EXHIBIT "J-11" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and improvement of the said Ferry Street Bridge-Mohawk Road Section of the Eugene-Springfield Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired; are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said established Eugene-Springfield Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the establishment, construction and maintenance of the said Ferry Street Bridge-Mohawk Road Section of the Eugene-Springfield Highway and the highway facilities for which each of the said parcels of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

27232

EXHIBIT "J-12"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the McMinnville (Adams Street) Section of the Pacific Highway West; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way for any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the McMinnville (Adams Street) Section of the Pacific Highway West will be relocated, constructed or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of relocating, construction, improving, and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is

the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the McMinnville (Adams Street) Section of the Pacific Highway West, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said relocated McMinnville (Adams Street) Section of the Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3. That the relocation, construction, improvement and maintenance of the said McMinnville (Adams Street) Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his

EXHIBIT "J-13"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any State highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission , is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisionsand within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for

EXHIBIT "J-13" (Cont)

the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the

Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 679.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 679, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-14"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to improve and maintain the Pacific Highway West, including the construction and maintenance of an interchange between said Pacific Highway West and Clay and Columbia Streets in the City of Portland; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from the said highway should be controlled;

EXHIBIT "J-14" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that it is necessary to acquire, in connection with the improvement and maintenance of the Pacific Highway West, including the construction and maintenance of the interchange between said Pacific Highway West and Clay and Columbia Streets in the City of Portland, all rights of access for vehicular traffic to, from and between the said Pacific Highway West and the east line of the real property described as follows, to wit:

File No. R-25151
Owners: Laurence F. Hofer and Edna C. Hofer; and R. M. Hofer and Sabine L. Hofer

Lots 1 and 2, Block 112, City of Portland.

2. That the highway facility for which the said rights of access are required and are being taken has been planned, designed and located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking of said rights of vehicular access, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said rights of access.

4. That upon the trial of any suit or action instituted to acquire the rights of access, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 27th day of September, 1956, as Condemnation Resolution No. 680.

EXHIBIT "J-15"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

EXHIBIT "J-16"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to improve and maintain the Harbor Drive Section of the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

EXHIBIT "J-16" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the improvement and maintenance of the said Harbor Drive Section of the Pacific Highway West, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the improvement and maintenance of the said Harbor Drive Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in the minutes and records of the Commission this 28th day of September, 1956, as Condemnation Resolution No. 770.

27245

EXHIBIT "K"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, under the provisions of ORS 366.205 (2) the State Highway Commission is vested with general supervision and control over all matters relating to the letting of contracts for the construction, improvement, maintenance and operation of state highways and under the provisions of ORS 366.205 (4) is vested with the power to make such rules and regulations as to effectuate the authority granted it; and

WHEREAS, under the provisions of ORS 366.400 and ORS 366.405 the State Highway Commission is given further powers to enter into contracts for the construction, improvement, maintenance and operation of state highways and is given the power to call for competitive bids therefor; and

WHEREAS, the number of bids to be received at the regularly scheduled meetings of the Highway Commission for the construction, improvement, maintenance or operation of state highways are often so numerous that the Commission is unduly burdened in its consideration of the bids submitted and its consideration of other highway matters; and

WHEREAS, it is proposed that the State Highway Commission adopt such rules or regulations as will authorize the State Highway Engineer to call for bids on the highway contracts in the interim between meetings of the Commission, announce and tabulate the results of the bidding and refer the results to the Commission for its consideration and award at its next meeting; and

WHEREAS, it appears to this Commission that the adoption of such a rule would facilitate the letting of contracts for highway construction, improvement, maintenance or operation to the consequent benefit of persons bidding thereon, the State Highway Commission and the people of the State of Oregon; and

WHEREAS, it is the intent of this Commission to impose upon the State Highway Engineer certain ministerial duties as hereinbefore described.

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED BY THIS COMMISSION, as follows:

1. If it appears to the State Highway Engineer that the number of bids to be received by the State Highway Commission, at a regularly scheduled meeting, on contracts for the construction, improvement, maintenance or operation of state highways will be so numerous that the

EXHIBIT "K" (Cont)

Commission will be unduly burdened in its consideration of the bids submitted and other highway matters or that the time of its scheduled session will have to be extended, then the State Highway Engineer is authorized to call for bids for contracts for State Highway Commission projects during the interim between regularly scheduled meetings of the Highway Commission, under the following procedure:

(a) The State Highway Engineer shall first obtain the approval of at least one member of the State Highway Commission to call for bids on specific contracts during the interim between regularly scheduled meetings of the Commission.

(b) After obtaining such approval, the State Highway Engineer shall call for bids on said contracts and shall give notice or advertisement thereof in the manner now or hereafter required by the Commission.

(c) The bids submitted shall be opened and read in public meeting by such persons as may be designated by the State Highway Engineer and the results thereof tabulated and referred to the State Highway Engineer.

(d) The State Highway Engineer shall refer to the Commission at its next subsequent scheduled meeting the tabulation of the results of the bidding for the decision of the Commission as to any award to be made based thereon.

2. That this Resolution be entered in the minutes and records of this Commission as of the 27th day of September, 1956, as Miscellaneous Resolution No. 202.

27247

EXHIBIT "L"

Minutes of September 27 and 28, 1956

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has, therefore, determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which all motor vehicles, excepting motor trucks with pneumatic tires and school buses, as defined in ORS 485.010, may be driven upon the R. H. Baldock Freeway, which is primary highway No. 57, Route U.S. 99, from a point 0.28 mile South of S. W. Barbur Boulevard (M.P. 7.50) to the North city limits of Tualatin (M.P. 11.57); and from the South city limits of Tualatin (M.P. 11.96) to a point 200 feet North of the northbound Pacific Highway East overcrossing (M.P. 42.80) shall not exceed 70 miles per hour; that 45 mph shall be the maximum rate of speed for motor trucks equipped with pneumatic tires and school buses, within the meaning and purpose of said ORS 483.104

EXCEPT THAT ON

the Northbound Connection
to the Pacific Highway West:

From the R. H. Baldock Freeway to the Pacific Highway West,

EXHIBIT "L" (Cont)

and

On the Southbound Connection
from the Pacific Highway West:

From S. W. Barbur Boulevard to a point 0.28 mile south of the Pacific Highway West (M.P. 7.50),

and

On the Southbound Connection
to the Pacific Highway East:

From the R. H. Baldock Freeway to the Pacific Highway East,

and

On the Northbound Connection
from the Pacific Highway East:

From the Pacific Highway East to the R. H. Baldock Freeway, the rate of speed of all vehicles shall not exceed the rate of 45 miles per hour.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 233 be entered in the minutes and records of the Commission as of the 27th day of September, 1956, and that the Secretary of the State Highway Commission shall mail a duly certified copy of this resolution to the Secretary of State of the State of Oregon and a duly certified copy to the Superintendent of the Oregon State Police.

Medford, Oregon
October 25, 1956

Pursuant to formal notice heretofore given the Mayors of the cities of Medford, Ashland, Central Point, Phoenix, and Talent, the State Highway Commission conducted a public hearing at 10:00 a.m. this date in the Auditorium of the Craterian Theatre, Medford, relative to the Commission's plans to construct a new freeway that will by-pass each of these cities, extending from a connection with the existing route of US 99 at a place known as Seven Oaks, approximately two miles north of the City of Central Point, to a connection with the existing route of said highway at a point approximately one and one-half miles southeasterly from the corporate limits of the City of Ashland. The proposed route when constructed will become a section of US Route No. 99. The Highway Commission proposes to finance construction of this freeway partially with Federal monies, and accordingly must comply with certain Federal requirements, including Section 116(c) of the "Federal-aid Act of 1956", which provides that: "Any State Highway Department which submits plans for a Federal-aid highway project involving the by-passing of, or going through, any city, town or village, either incorporated or unincorporated, shall certify to the Commissioner of Public Roads that it has had public hearings, or has afforded the opportunity for such hearings, and has considered the economic effects of such a location:--" This hearing also was held to satisfy the requirements of the State of Oregon, particularly those contained in ORS 373.015.

It was the original intention of the Commission to conduct this hearing in the Medford City Hall; however, the meeting place was changed to the Craterian Theatre at the request of the Hon. Earl M. Miller, Mayor of the City of Medford, because in his estimation the City Hall would not accommodate the large number of people who it was anticipated would be present. The Mayor of each of the cities concerned was notified of the change in the meeting place and was requested to bring the information to the attention of the local citizens so they could arrange to be present and express themselves regarding the project should they so desire.

Present at this hearing, representing the State Highway Department were the following:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
R. L. May, Jr., Acting Chief Counsel
Frank D. Morgan, Division Engineer, Roseburg
H B. Glaisyer, Secretary

Also present, representing the U. S. Bureau of Public Roads, were Mr C. G. Polk, District Engineer, and Mr E. H. Cowan, Principal Highway Engineer, both of Salem.

There were about 500 people present representing the cities affected by the proposed improvement.

Chairman Chandler called the meeting to order at 10:00 a.m. and explained the purpose of the hearing. At his request, the State Highway Engineer, Mr. W. C. Williams, explained details concerning the several routes that have been investigated as follows: Hillcrest Route, Genessee Street Route, Hawthorne Park Route, and West Medford-Oak Grove Route. He exhibited a map on which was shown in colors the location of each of these routes. He pointed out that the Hillcrest Route is common with the Genessee Street Route and Hawthorne Park Route from Blackwell Hill to a connection with the Crater Lake Highway at which point the routes diverge, the Hillcrest Route by-passing the City of Medford about two miles to the east and continuing southerly to a connection with the Genessee Street Route just north of Ashland. The Genessee Street Route and the Hawthorne Park Route, he said, are alternates that pass through the City of Medford, and the West Medford-Oak Grove Route commences at Blackwell Hill and extends southerly to a connection with the Genessee Street Line opposite the City of Talent, by-passing the cities of Central Point and Medford to the west. He mentioned that all of the routes investigated are approximately the same length, the Hillcrest Line being 25.67 miles long, the Genessee Line 25.75 miles long, the Hawthorne Park Line 25.68 miles long and the West Medford-Oak Grove Alternate Line 25.36 miles in length, compared with 25.72 miles, the length of the existing highway between common points. He estimated the cost of constructing each route as follows:

Hillcrest Line	
Construction	$16,580,000
Right of way	1,763,000
Total	$18,343,000

Genessee Line	
Construction	$15,500,000
Right of way	2,795,000
Total	$18,295,000

Hawthorne Park Line	
Construction	$16,327,000
Right of way	2,396,000
Total	$18,723,000

West Medford-Oak Grove Line	
Construction	$19,245,000
Right of way	3,252,000
Total	$22,497,000

Mr. Williams also gave information as to the economic effects of each route and land usage along them, mentioning that the Hillcrest Route will require 1,050 acres of land for right of way over the entire distance from Blackwell Hill to the point south of Ashland, of which acreage 111.8 represents orchard land, 848 acres other agricultural land, 32 acres classified as commercial or area subject to industrial development, and residential 58.5 acres. At this point an unknown person in the audience interrupted by inquiring as to how many homes would be taken by the Hillcrest Route. Mr. Williams replied that about 25 or 30 would be taken but the number would be effected either more or less by proposed interchanges.

Chairman Chandler interposed that it might be well to defer further interrogation regarding the several routes until the Engineer has completed his explanations when all would be given an opportunity to ask questions

that they have in mind. The Commission, he said, is not advocating any particular line but is here today simply to get expressions from local people and from the information that is recorded, the Commission will later determine, along with the U. S. Bureau of Public Roads, who is represented at this meeting by Mr. C. G. Polk, District Engineer, the route to be used; however, the Commission's decision in the matter will not be made until the Commission has carefully considered all of the matter that is presented at this hearing.

The State Highway Engineer then continued with his explanation by advising that on the Hawthorne Park Line only 1.3 acres of orchard land and 943 acres of other agricultural land will be taken, and that only 50.6 acres of residential properties are involved. On the West Medford-Oak Grove Line, he said, there is a total of approximately 1,000 acres involved -- 150 acres of orchard land, 81 acres of other type of land, and only 3 acres of residential property, this line being outside of the residential area. This concluded the Engineer's explanation. The meeting was then turned over to the local groups.

Mr. John Graff inquired as to the relative widths of the proposed rights of way from beginning to end. The Engineer replied that rights of way will be uniform along all routes -- approximately 300 feet wide except in the residential portion of Medford and where interchanges are to be constructed. At these points, he said, the exact width of the right of way has not as yet been determined. Mr. Graff questioned the right of way costs as mentioned by the Engineer. He expressed the feeling that such costs cannot be a factor in the determination of the routes as now planned.

Chairman Chandler at this point asked those desiring to speak to step to one of the microphones that were provided in the aisles.

Mr. Otto J. Frohnmayer, Attorney, stated that he represents a group of land owners, property owners, and tax payers who are interested in the selection of the Hawthorne Park or Bear Creek Route. The preference of this group, he said, is for such route; however, as a second choice they favor the Genessee Street Route, but they are opposed to either the West Side Route or the Hillcrest Route. He called upon the following persons who spoke in favor of the Bear Creek Route:

(1) Mr. Howard E. Bush, President of the Fruit Growers League, representing 290 fruit growers in the Bear Creek Valley, who stated that the economy of the valley depends on two basic resources -- lumber and agriculture. He expressed their feeling that due to the gradual restrictions of the lumber industry, the future is more and more going to depend on the conservation and expansion of agricultural resources. He advised that considerable acreage already has been taken by subdivisions, and in their estimation any further withdrawals should be viewed with concern. The actual loss of the acres of orchard land, he said, is extremely important but that does not affect the true loss in fruit production. The problem of operation, he added, is emphasized in bisected areas and is particularly important in the orchard districts where interference with

natural irrigation contours poses severe problems. He declared that the orchard acreage today is less than it was twenty years ago, and he expressed the feeling in view of these considerations that they are justified in protesting the Hillcrest Route and in recommending the Bear Creek Route.

(2) Mr. W. Ben Tucker, County Agriculture Agent who stated that Jackson County has only a limited amount of acreage devoted to agriculture. Only 2 percent of the total of 1,802,888 acreage in the county, he said, is listed as farm acreage and of that acreage only 5 percent is crop land. He also said that the Bear Creek Route has a natural barrier on one side that would aid materially in lessening the damage that might be done. He pointed out that the Hillcrest Line will run diagonally through practically all of the property and will leave triangular pieces on either side of the highway, which owners cannot operate without considerable hazard; also, it would increase the cost of operating the land and would affect the type of agriculture that could be carried on.

(3) Mr. Cliff B. Cordy, County Horticulture Agent, who spoke for the Bear Creek Route from the horticulture standpoint. He pointed out the acreage loss and the crop loss that would result were the Hillcrest Route adopted. He estimated the annual crop loss from 175 acres in the valley at $210,000.

(4) Mr. Jack Hoffbuhr, Manager, Medford Irrigation District, who spoke from the irrigation standpoint stated that the Hillcrest route crosses their main canal seven times, and that such route will introduce many problems in the functioning of their operations, which will not be the case were the Bear Creek Route adopted.

(5) Mr. Paul Culbertson, President, Medford Irrigation District, who stated that the District has 1,860 users who will be adversely affected by the selection of the Hillcrest Route. He advised that their present water supplies are inadequate, and that a serious maintenance and distribution problem will result were that route adopted.

(6) Mr. Walter A. Hoffbuhr, Manager, Talent Irrigation District, who pointed out how the Hillcrest Route will affect their district. He mentioned among other things that such route will disrupt their plans for using water and will necessitate resumption of pumping operations and sprinkling. The Bear Creek Route will not so affect their district.

(7) Mr. David Holmes, Director, Talent Irrigation District, who stated that adoption of the Hillcrest route will materially affect the taxation and assessment rate for the acreage in their district and for the people concerned. He alleged that the district will lose between 400 and 500 acres of irrigable acreage were such route selected, which loss, he added, they cannot afford, because there already is a shortage of such acreage in the Valley.

(8) Mr. S. M. Tuttle, representative of the Rogue Valley Traffic Association, who advised that they are packers and shippers of pears in the district, as well as growers of pears in substantial amounts. He endorsed the testimony of Mr. Bush and Mr. Cordy, and gave as his feeling that the selection of the Hillcrest Route will result in heavy losses to them. He expressed himself emphatically in favor of the Bear Creek Route

Others speaking in behalf of the Bear Creek Route were:

(9) Mr. Robert A. Duff, City Manager, Medford, who stated that it will cost about $430,000 to convert Barnett Road to standards suitable as an access road between the freeway and Riverside Avenue in Medford, of which amount $270,000 is the estimated cost to improve the portion lying within the city limits of Medford.

(10) Mr. Paul B. Ryn n ing, County Engineer, Jackson County, who gave figures on the cost to the County to rebuild certain county roads to accommodate access travel. He particularly mentioned the Barnett Road, the county's portion of which, he said, will cost about $180,000. He estimated the cost to improve the Fern Valley Road leading into Phoenix at $60,000, and the cost to improve the Valley View Road, which is the north entrance to Ashland, at $90,000.

(11) Mr. Dan Adams, Mayor of the City of Phoenix, who advised that the City of Phoenix has unanimously voted to recommend the Genessee or Hawthorne Route. The access road, he said, would be much shorter and more convenient for the people of Phoenix, and the loss of business would be much less with such closer access. He mentioned that Bear Creek is a natural barrier, as would also be the freeway.

(12) J. Rodney Keating, County Judge, Jackson County, who advised that the County Court adopted a resolution favoring the Bear Creek Route. He presented a copy of the resolution for the records and files of the Highway Commission.

(13) Mr. Otto A. Ewaldson, President, Jackson County Chamber of Commerce, who gave seven reasons why the Chamber of Commerce is in favor of the adoption of the Bear Creek Route. He presented to the Commission a brief, in writing, containing these seven reasons in support of his oral presentation.

(14) Mr. Earl Miller, Mayor, City of Medford, who stated that the City Council has no definite recommendation to offer with respect to any of the routes that are under consideration. He read aloud and presented a prepared statement outlining the problems that the city will be faced with by adoption of each of the routes that are being discussed.

(15) Rev. George R. V. Bolster, Chairman, Board of Directors, Rogue Valley Memorial Hospital, who urged abandonment of any consideration for the Hillcrest route because of the adverse affect that the adoption

of that route will have on the new hospital that they are erecting. It is most essential, he said, that their hospital be located on a site sufficiently removed from industrial operation, heavy street and highway traffic, and other interference factors to merit the sanction and approval of authorities. The hospital, he added, is now under construction adjacent to Barnett Road, at its junction with Murphy Road, which site has the unqualified approval of all State and Federal agencies concerned, both in regard to location and freedom from travel, smoke, and other interference factors. Were the proposed Hillcrest Route approved, it would mean that their long-term planning would be negatived.

In closing the presentation of his group, Mr. Frohnmayer stated that the local hotel owners feel that present highway facilities for serving the public are adequate and that the traveling public should be kept as near these existing facilities as is possible. He also stated that the motel owners are very much concerned because of huge investments which they are fearful will be lost if the Hillcrest Route were adopted. He mentioned the name of Mr. Fred Moreland, restaurateur, who, he said, feels that their businesses will be adversely affected by selection of the Hillcrest Route because motels and eating places will be developed along Barnett Road. He added that the automobile dealers too, favor the Bear Creek Route, and have adopted a resolution regarding it. He read aloud and presented a copy of the resolution. Summarizing this presentation in favor of the Bear Creek Route he said that the speakers favor that route because it will follow a natural barrier, will destroy less agricultural and orchard land, and will require the re-establishment of fewer homes.

The first speaker following those headed by Mr. Frohnmayer was Mr. Frank Ross, who stated that he is an engineer and farmer, and that his land lies along the proposed West Side Route. He said that he speaks for himself and a number of relatives. He suggested adoption of a route above the Hillcrest Line, fringing the Valley on the east. He declared that construction of any of the routes that are being discussed today will be a big barrier to their Valley, and he expressed his opinion as an engineer that it is unnecessary to build a freeway through Medford and the Rogue River Valley.

Mr. Dick House, insurance agent, spoke for the Hawthorne Park Route as being the route that will cause the least economic loss. He suggested either the Hawthorne Park Line or placement of the highway on the edge of the Valley as suggested by Mr. Ross, where residents will not be uprooted and where economic losses will be at a minimum.

Mr. Chester Hubbard, Member of the Highway Committee of the Jackson County Chamber of Commerce expressed himself in favor of the Bear Creek Route through Hawthorne Park from the standpoint of acreage of residential property that will be taken. He mentioned that the Bear Creek location will take only 15.6 acres of land compared with 36.7 acres along the Genessee Line. He also mentioned that the City of Medford is due to lose a small portion of its park if the Bear Creek Route is selected. He suggested the purchase of some land along Hawthorne Avenue, including

a few residences and two or three business establishments, as compensation for the loss of the park area. He estimated the cost involved at $148,348 on todays market.

Mr. C. W. Reames, attorney, Medford, headed a group that opposed the Bear Creek Route. He presented petitions signed by 584 property owners in which the Commission is asked to not place Highway 99 on the Genessee Street nor Geneva Street location because of the detrimental effect it would have on the City of Medford; also, in which they gave as their opinion that the highway should be located either to the East or to the West of Medford, with access road connections provided for those who wish to enter the City. He alleged that if the highway were routed through Medford it will ruin their City.

Mrs. Mary Ann Wilson, housewife, spoke in behalf of the Bear Creek Route and in opposition to the Hillcrest and West Side Routes. She volunteered to secure petitions in support of her contentions to offset those presented by Mr. Reames if that would help the Commission in reaching its decision.

Mr. Trautman expressed his preference for the Bear Creek Route as a natural artery.

Mr. J. C. Barnes, a retired real estate dealer, eighty years old, asserted that the east side of the Valley is not the place for the highway -- not the kind of a highway or freeway that the people want because it will bar expansion of the City in the direction that it naturally will go. He visioned a highway elevated sufficiently so that it can be arched over the Creek and join the east side of Medford with the west side of Medford, with a parkway on both sides of the Creek. He declared that such plan will solve the park problem inasmuch as the space under the elevated highway could be developed for the parking of cars and could be beautified as an extension of the existing park.

Mr. Mel Krows spoke against the Bear Creek Route because, he said, people would be constantly subject to poison from monoxide gases that would infiltrate the whole east side of the City. The health of the people of Medford, he added, demands that the highway be located elsewhere than along Bear Creek. He advocated the by-passing of the City and he discounted the alleged losses of fruit acreage.

Mrs. Richard Schuchard, housewife and mother of five children asked the Commission to consider the problem from some standpoint other than the monetary values involved, and place the highway where it will not bother anyone. She prefaced her remarks with a request that the highway be routed where thousands of children will not be subjected to dangers as they will be were the highway located along Bear Creek.

Colleen Hope mentioned that the City has a large tract of land that is being operated as a Victory Housing project. She suggested that this property be developed as is Hawthorne Park, so the present park

will not be missed were the highway located across it. Her idea was that the State should purchase the property along Hawthorne Park, estimated at $148,000, to compensate the City for right of way taken from the Park area.

Mrs. Ruth Eden, Member Medford Planning Commission, spoke in behalf of residents along the Genessee route who believe that their homes will be rendered unlivable because of the noise, and gas fumes that they will be subjected to if that route were selected. She stated that she is not recommending any particular route, but is objecting to the selection of the Genessee Route. She asked those present whose ideas coincide with hers to arise -- about fifty people responded.

At this point Chairman Chandler remarked that the Highway Commission desires to adjourn this meeting at 1:00 p.m. so it can have lunch before proceeding to a scheduled meeting at Klamath Falls this evening.

Mr. Kenneth Denman, Attorney, Medford, declared himself against any route that will pass through the City of Medford. He gave as his opinion that the new highway should be routed outside of the City and he advocated a route closer to the foothills where right of way costs will be the least. He said that he resides on Geneva Street just east of the proposed Genessee Route, but none of his property will be taken for highway use. If the highway must go through Medford, he said, the Bear Creek Route will be the safest one and will injure less people. He added that such will be the case were the Genessee Route selected. Mr. Denman quoted the former State Highway Engineer, Mr. R. H. Baldock, to the effect that "Whenever feasible these highways should bypass the towns". He mentioned bypasses that have been provided around Salem, Cottage Grove, Roseburg and Gold Hill, and those contemplated around Eugene, Central Point and Ashland. He said that with this picture in mind it is hard to understand what peculiar circumstances exist that give a sound basis for not bypassing Medford. He called attention to two kinds of objections which should be considered in the selection of a route, viz, damage to individuals and damage to the future of the City, and he pointed out features of each proposed route for comparison purposes. He presented a brief in support of nis oral remarks and petitions signed by numerous local people requesting that this freeway be located outside of the city limits of Medford, and urging a location either to the east or west of their City.

Mr. Donald E. Faber, Mayor of the City of Central Point, offered three proposals from the Central Point City Council and the City Planning Commission as follows:

1. That a plan be considered and thoroughly investigated to construct the freeway up the west side of the Valley from the Dardalelle to Ashland.

2. That surveys be made to determine feasibility of swinging the highway further to the east, from the Willow Springs junction, to pass through the low Valley land in the Gibbons

Acres area, thence to the east of the Medford airport.

3. While the City prefers that the new highway miss Central Point by a greater distance than has been proposed, if it finally must follow the line just to the east of the City, both the Planning Commission and the City Council ask that two frontage roads be provided paralleling the highway where it passes Central Point.

Mr. Faber presented a copy of a letter dated May 22, 1956 from the City of Central Point to Mr. Tom Edwards, Division Engineer, outlining what the City Council has in mind.

Mr. Jack Stewart, owner of the Bear Creek Motel on US 99, one and one-fourth miles south of Medford, urged adoption of the Bear Creek Route. It was his contention that the freeway should be constructed as closely as is possible to Medford so as to provide the shortest and nearest access to the City for the benefit of tourists who want to stop over night in Medford.

Mrs. Robert Kagy stated that she is in the agricultural business on the west side of the Valley. She endorsed the arguments presented by those representing the Hillcrest area, advising that those arguments fit the west side area marvelously because both areas are under irrigation. She urged adoption of the Bear Creek Route.

Mr. Fred Moreland, restaurteur, spoke in behalf of restaurant owners. He alleged that the route of the highway completely out of the City will create a definite hardship on cafeteria operators.

Mr. Fred Baker, property owner, spoke for a location back of the Hillcrest Line where, he said, a beautiful view of the City of Medford may be obtained and where it will not affect irrigation systems and orchards. He added, "If we are going to have a freeway through here let's have a nice big freeway and let's get it out of town where it belongs."

Fred Taylor, Ashland, expressed concurrence with the remarks of Mr. Baker. The routing of the highway through the City of Medford, he said, is the wrong answer to the problem. He added that business interests in Medford have no more "right to holler" about their business than do the people in Salem, Grants Pass and Ashland, where bypasses already have been constructed or are planned.

Dick House inquired if people write to the Commission expressing their views on this matter, where should their letters be sent. He was informed by Chairman Chandler that the State Highway Department belongs to the people, and that their letters should be addressed to the Highway Commission, State Highway Building, Salem.

An unidentified gentleman from the Seven Oaks district stated that he owns land in that district. He expressed preference for the route which

passes through Medford where the least acreage of agricultural land will be taken. Homes, he said, can be replaced, but that is not true of agricultural ground.

Chairman Chandler concluded the hearing with the following statement, "We have had a long session here today, about three hours, and notes have been taken of all arguments presented. Studies of the project will be conducted and the information gained today will be given careful consideration in those studies." The Commission, and the Engineers, he added, have several years in which to continue these studies and to make complete surveys, so people affected will not be distrubed for at least five years, because this project is part of the thirteen-year construction program for Federal and State monies. He thanked the assemblage for the courteous way in which the conference has been conducted and for the courteous treatment that has been afforded the Commission. He mentioned that the preponderance of opinions expressed at this meeting appear to be unfavorable to the Hillcrest and West Side Routes, and that the Genessee or Hawthorne Park Routes are those most desired. However, he added, the Commission will not make a decision today. He declared the meeting adjourned at 1:00 p. m.

Following adjournment, the Commission and party had lunch at Medford and then motored to Klamath Falls for an informal meeting with representatives of that community.

State Highway Engineer

Chairman

Secretary

Commissioner

October 25, 1956

Portland, Oregon
November 8, 1956

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids, as follows, were opened and read aloud by the Secretary, who then announced that the Commission would award contracts at 3:00 p.m. in the same room.

CLATSOP COUNTY
CANNON BEACH JUNCTION SECTION OF THE SUNSET AND OREGON COAST HIGHWAYS

Eugene Gardens, Eugene	$ 19,970.10
Grimstad & Vanderveldt, Astoria	24,003.00
The United Contracting Co., Portland	25,019.50

LINCOLN COUNTY
SOUTH FORK YACHATS RIVER BRIDGE NO. 1 AND 4 ON THE YACHATS RIVER ROAD

Frank Watt Const. Co., Portland	$ 32,160.00
Babler Bros., Inc., Portland	33,824.00
Tom Lillebo Constr. Co., Reedsport	33,984.00
R & M Const. Co., Central Point	36,000.00

Logan Taylor & Co., Portland	262,158.00
J. C. Compton Co., McMinnville	275,605.00

November 8, 1956

Commissioner McIver stated that the Portland Chamber of Commerce plan to hold a meeting in Portland, November 19, 1956, and has inquired as to whether the Highway Department has available any material, including maps, pictures, method of financing and other data concerning the new highway program, especially on US routes 30 and 99. He inquired if the Engineer could present these matters. Commissioner Reynolds commented that in his opinion Commissioner McIver should attend the meeting as well as the Highway Engineer to introduce the staff members and also to represent the Commission. The Commission authorized the presentation of the material, as mentioned by Commissioner McIver, at the meeting which is to be held in the Multnomah Hotel.

The Commission approved the minutes of August 16 and 17, and September 27 and 28, 1956.

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Agreement with U. S. Coast Guard for Water Supply at Umpqua Lighthouse State Park in Douglas County: The Parks Superintendent stated that the State's water supply is not sufficient for drinking purposes and sanitary use. An arrangement has been made with the Coast Guard to connect to their water system, which pumps water from Lake Marie within the park area, for the sanitary requirements in the park. In exchange the State is to allow the Coast Guard to use water from the State's source for drinking purposes. The Commission approved an agreement covering this matter following a favorable recommendation by the Parks Superintendent.

2. Proposal submitted by Allen G. Terry concerning development of a state park or recreational area near Coos Bay: This matter, the Parks Superintendent recalled, was considered at the September meeting, at which time the recommendation was made that the area around Lower Tenmile Lake Creek should not be acquired at this time as a state park as there is apparently not sufficient interest in it. Mr. Terry also mentioned an area at Coos Head and urged the installation of overnight facilities near the Marine Biological Station. A report was made on November 3, 1955 concerning this area, particularly the west portion of the former federally owned land. There is still the possibility that the area may be required by the U. S. Navy, and he recommended that no action be taken until a decision is made by the Navy. The Commission accepted his recommendation.

3. 1957 Budget for State Parks Division: The Parks Superintendent explained the budget briefly, pointing out that the total budget is approximately $80,000 less than for the year 1956. Operation cost is up approximately $46,000 whereas capital outlay is approximately $127,000 less. However, the construction and betterment portion of the capital outlay is $105,000 more than in 1956. The sum of $238,000, he stated, is included to construct 321 additional overnight camping spaces, and the total for overnight camping in the budget is $305,400. This addition, he continued, will provide a total of 1,338 overnight camping sites in 27 park areas. During the present year, 325 overnight camping sites have been

completed. The total proposed budget is $1,339,000 compared to $1,420,800 in 1956. He called attention to the great demand for overnight camping sites, and to meet this demand, facilities have been increased approximately 50 per cent each year. During the 1956 vacation season, approximately 230,000 people used the overnight camping facilities and many were turned away. The Commission discussed with the Parks Superintendent other items in the budget, and after careful perusal of the individual items, Commissioner Reynolds moved that the budget be adopted as presented with the understanding that items for acquisition of new areas be presented to the Commission when acquisition is to be made. Commissioner McIver seconded the motion and it was declared unanimous by Chairman Chandler. Commissioner McIver complimented the Parks Superintendent for the excellent work performed in preparing the budget and for the great accomplishments secured with the money expended during the year 1956. Commissioner Reynolds and Chairman Chandler also expressed their satisfaction for work well performed.

(For details of the budget as approved with changes, see copy of budget filed in the Secretary's Office under the heading "Highway Department's Budgets 1957".)

Chairman Chandler inquired if the Lloyd Corporation had made any further statements concerning transferring to the State of an area near Wedderburn for park purposes. The Parks Superintendent replied that a representative of the corporation had indicated that an answer would be forthcoming in less than 90 days.

Commissioner Reynolds stated that Mr. Collier has some improvements in mind to be added to Collier State Park near Klamath Agency, and inquired if he had contacted the Parks Superintendent concerning this matter. The Parks Superintendent stated that no contact had been made with Mr. Collier, but he would discuss the matter with him. Chairman Chandler suggested that the Parks Superintendent also contact Mr. Howard Maple, Manager of the Coos Bay Chamber of Commerce, concerning acquisition of land for overnight camping purposes in Sunset Bay State Park. Mr. Maple and a Mr. Nelson, he continued, have done some negotiating with the owners of a 15.5 acre tract of land suitable for overnight camping.

4. Proposed withdrawals of land by the Bureau of Land Management on land adjacent to the Rogue River: The Bureau of Land Management, the Parks Superintendent stated, plans to hold a hearing in Grants Pass on November 20, 1956, concerning withdrawals of national forest lands from appropriation under the general mining laws, and remaining public lands from all forms of appropriation under the public land laws, except designated areas classified under the Small Tract Act. The proposed withdrawals would retain in public ownership lands within approximately one-half mile of the river, located principally between Grants Pass and Agness; also, there are a few areas along the Crater Lake Highway and in Jackson County. Although most of the areas are not needed for park development at this time, it was his thought that the State should take action to preserve and protect the areas for future recreational purposes. To this end, he stated, he has prepared a written report to present at the hearing, and asked that the Commission authorize him to present the report. Other State agencies are interested, and he commented that the

Game and Fish Commissions have indicated support of the withdrawals whereas the State Bureau of Mines has indicated that they may oppose them. The Commission authorized the Parks Superintendent to present his report.

5. Report on Diamond Crater Area in Harney County: The Parks Superintendent stated that a letter has been received from the Bureau of Land Management to the effect that no classification for entry or disposal will be made of the area that is adverse to public interest. It appears that present laws are adequate to hold the land in its existing status. The Bureau of Land Management also plans to examine the area in detail as to its recreational value when personnel and funds will permit. It also appears that the area can be preserved by Bureau administrative action rather than by leasing the area to the State. The Commission accepted the report.

6. Request of Robert and Duane Wiggins for extension of a boat rental lease at Wallowa Lake State Park: The present lease, the Parks Superintendent stated, was granted to the Wiggins in 1952 and will expire January 1, 1957. Their operation has been satisfactory and they have provided good service at reasonable prices. The present agreement provides that they pay the State 10 per cent of the gross income, which 10 per cent amounted to $813.61 in 1955 and $911.84 in 1956. He recommended that the lease be extended in the name of Robert and Duane Wiggins for a five-year period, beginning January 1, 1957. The Commission approved the lease extension.

7. Request from the City of North Bend that a portion of Simpson Park at the south end of the Coos Bay Bridge be deeded back to the City: Simpson Park, the Parks Superintendent explained, was given to the City of North Bend by the Simpson estate and in 1936 was donated by the City to the State. The State has a stock-pile site on a portion of the area, the remainder of which is undeveloped and covered with a stand of brush, alder, and cedar trees. There are no plans to develop the area for use as a park, and he recommended that the State deed to the City of North Bend the area east of the road to be constructed by the Weyerhaeuser Timber Company in accordance with an agreement with Mr. Al Peirce in 1954, with the understanding that the area will be used for park purposes and that the City will provide a suitable stock-pile site to replace the one within the park area. The Commission approved the transfer of the land as recommended.

8. Report on Columbia River Gorge activities in acquiring land to preserve scenic values: The Parks Superintendent reported that he had met recently with the Columbia River Gorge Commission and had discussed with them and had solved a number of their problems. He pointed out that of the $50,000 appropriated for purchase of lands in the Columbia Gorge, approximately $12,700 has been spent to date. The Gorge Commission has inquired as to the expiration date for the expenditure of the $50,000 appropriation, and has also brought up the matter of acquiring lands in the Gorge high on the canyon walls, which lands would not be suitable for park purposes. The Gorge Commission, he

stated, has requested examination of 35 areas, and, of these, 27 have been examined or appraised; four purchases were made, and negotiations have reached a standstill on 15 others; seven negotiations are pending; and assistance has been given in the exchange of lands through the Bureau of Land Management on four other parcels. He suggested that to speed up acquisition, the Gorge Commission should indicate if they wish to purchase an area when the request for investigation is made. Concerning the expiration date of the $50,000 authorization, Commissioner McIver indicated that it would be well to have a cutoff date on the money to define the State's liability to acquire lands. He called attention to the fact that there are a number of negotiations pending, and inquired as to what would happen if all of them offered to sell. The Parks Superintendent replied that no specific offers have been made to any of the owners but they have been told only that if they are willing to sell, the matter will be presented to the Commission. No further action was taken at this time pending the appearance of a delegation on the following day.

Use of a portion of Boiler Bay State Park to erect a television antenna: The Parks Superintendent reported that residents in the vicinity of Depoe Bay and Boiler Bay are anxious to get TV reception and arrangements have been completed to pipe TV programs in by wire, which requires an antenna for transmission. An annual lease has been prepared allowing Mr. and Mrs. Lloyd C. Finley the right to install a TV antenna and an underground transmission cable in the southeast portion of Boiler Bay State Park, at a rental rate of $100 per year. Upon his favorable recommendation, the Commission approved the lease.

Selection of a name for the new building at Depoe Bay: The Parks Superintendent reported that, as previously directed by the Commission, he and Commissioner McIver had given the matter careful consideration and had decided to recommend the name - "State Park--Depoe Bay Lookout". Commissioner McIver added that it was thought best to put signs along the highway so that travelers would know they were approaching the building, and, in addition, to place a sign on the building itself. The Commission approved the name as presented.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Authority to negotiate for acquisition of three parcels of property needed for highway purposes was requested by the Right of Way Engineer who explained that no authority has previously been given to acquire these parcels and they are now needed for highway construction. The Commission authorized negotiations for acquisition of the following parcels of land:

COUNTY and SECTION	FILE NO. and NAME	PURPOSE	AREA	HWY.
Coos				
Cedar Point-Coquille	25826-Campbell & McLean, Inc.	Right of Way	.26 ac.	Oregon Coast
	25827-Interstate Tractor & Equip. Co.	"	.17 ac.	"
	25828-D. M. King	"	.01 ac.	"

A report on miscellaneous properties sold since the last Commission meeting was presented by the Right of Way Engineer and accepted by the Commission.

(For details, see Miscellaneous Sales Report, dated November 8 and 9, 1956, in the General Files).

Also presented was a supplemental rental report prepared by the Property Manager showing new rentals and terminations of rentals from September 15 to October 31, 1956.

(For details, see Supplemental Rental Report, dated September 15 to October 31, 1956, in the General Files).

Consideration was given to deeding back to Mertie Conger a parcel of land on the Eugene Section of the Pacific Highway, which was acquired for a borrow area. The Right of Way Engineer explained that the property was not used for a borrow area, and the State has no anticipated use for it. This property was acquired from the Congers in exchange for granting an easement to Southern Pacific Company to construct a spur line across state highway property to the Conger property. The land deeded by the Congers to the State was to provide approximately 25,000 cubic yards of material. The contemplated construction was not undertaken and he recommended that it be deeded back to Mertie Conger. The Commission approved his recommendation.

The Right of Way Engineer reported that several parcels of right of way acquired for highway purposes are no longer needed and can be disposed of. He recommended that the following parcels of property be offered at public sale:

a. 0.10 acre of land on the Modoc Point Section of The Dalles-California Highway in Klamath County - File 1790, minimum price $150.

b. 1.45 acres of land on the Blackwell Hill-Seven Oaks Section of the Pacific Highway in Jackson County - File 20802, minimum price $1,500. (See EXHIBIT "B-1").

c. 0.42 acre on the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway in Multnomah County - File 24719, minimum price $7,725. (See EXHIBIT "B-2").

d. 0.56 acre of land on the Chenoweth Park-Deady Section of the Pacific Highway in Douglas County - File 18960, minimum price $3,500. (See EXHIBIT "B-3").

e. 9.21 acres of land on the Salem-Stout Creek Section of the North Santiam Highway in Marion County - File 22361, minimum price $7,500. (See EXHIBIT "B-4").

f. 3.8 acres of land on the Salem By-pass Section of the Pacific Highway East in Marion County - File 18265, minimum price $3,500. (See EXHIBIT "B-5").

g. 9.05 acres of land on the Willamette River-Hayesville Section of the R. H. Baldock Freeway in Marion County - File 20852, minimum price $3,000. (See EXHIBIT "B-6").

The Commission approved his recommendation by adopting the attached resolutions relative thereto, marked EXHIBITS "B-1" through "B-6", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

The Engineer reported that negotiations have been made to sell several small parcels of property at fair prices, and he requested that the Commission approve the following sales, as the parcels are no longer required for highway purposes:

a. 1.26 acres on the Seufert-Dufur Section of The Dalles-California Highway, File 1448, to Mr. Miller, the adjoining property owner, for $100 and without access to the highway.

b. 2.88 acres on the Crooked River-Terrebonne Section of The Dalles-California Highway in Deschutes County, File 6115, sold to the high bidder, Max and Alberta Montgomery, for the sum of $250 and without access to the highway.

c. 0.32 acre of land on the Siletz-Toledo Section of the Siletz Highway in Lincoln County, File 23811, to Georgia-Pacific Plywood Company to be used as a pumping plant site, for the sum of $200, which is the appraised market value of the land.

d. The Right of Way Engineer also requested confirmation for the sale of 8,772 square feet of real property located in Lots 3, 4, 5, 6, 7, 8, and 9, Block 29, Coos Bay Plat "B" Addition to North Bend, File 9534, to a Mr. Moss, for the sum of $7,100, with two unrestricted points of access. He explained that this property had inadvertently been advertised for sale without securing prior Commission authorization. However, the error was not discovered until after bids had been received and inasmuch as the price offered is considerably in excess of the cost of

the land, he requested that the sale be confirmed. The Commission confirmed the sale, by adopting the attached resolution relative thereto, marked EXHIBIT "B-7", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A proposed Ground Lease with the Grand Island Sand and Gravel Company, located on Grand Island in the Willamette River, a few miles north of Salem, in Yamhill County, was presented by the Right of Way Engineer. He explained that the lease has been secured from them for the stock piling of state owned paving aggregates for a one-year period, beginning October 1, 1956. The Commission approved the lease for a consideration of $1.00.

Consideration was given to a "Trust Agreement" with Bonneville Power Administration covering rearrangement of a Bonneville transmission line because of construction on the Emigrant Hill-Deadmans Pass Section of the Old Oregon Trail in Umatilla County. The Right of Way Engineer explained that the cost of rearranging the transmission line is estimated to be $13,400, and he recommended that the agreement be approved, which involves the State's making an advance deposit of $13,400. The Commission approved the agreement.

Consideration was given to a form of sublease between the U. S. National Bank, Trustee, and Irene Hamilton, Owner, and Standard Oil Company of California, doing business as Signal Oil Company, Lessor, and the State of Oregon through its Highway Commission as Lessee. This property, the Right of Way Engineer explained, is on the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway in Multnomah County, consisting of Lot 4, Block 1, Huber Tracts. During construction of the intersection of Capitol Highway and Barbur Boulevard it is necessary to remove the pumps and close up the service station building. The State agrees to pay for rental of the property the sum of $1,500 the first year, and the sum of $375 each three months thereafter until the lease is terminated. The lease, he added, is to terminate upon final completion of the intersection, or December 31, 1958, whichever date is earlier. Upon his favorable recommendation, the Commission approved the sublease.

The Right of Way Engineer brought up the matter of deeding back to D. P. and Carolyn W. Schnakenburg 2.2 acres of land between the old highway and the relocated Pacific Highway on the Jump Off Joe Creek-Grants Pass Section in Josephine County. He explained that in preparing the deed to acquire property from the Schnakenburgs, an error had been made in the description, thereby erroneously including 2.2 acres north of the highway. To correct this error he recommended, and the Commission approved, deeding the land back to the Schnakenburgs.

He also presented a deed reconveying to John E. Herman an area consisting of 10,000 square feet on the Willamette Highway Junction-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County. This parcel of property, he stated, was erroneously included in the deed in which the original property was acquired and

was not included in the option that Mr. Herman accepted. Upon his favorable consideration, the Commission approved reconveying the property to Mr. Herman.

The Commission gave attention to a request from the Sunray Mid-Continent Oil Company for the right to make exploratory gas and oil drilling operations on the Columbia River Highway in Multnomah County. The Right of Way Engineer explained that the lease is necessary because if oil or gas is found near the right of way, the source of these products may extend beneath the highway right of way and thereby the State would be entitled to a royalty and the proposed lease so provides. The consideration for the lease is to be $1.00 per acre per year and no drilling operations are to be carried on within the right of way. The Commission approved the lease.

The Right of Way Engineer also presented a similar type of lease for exploratory gas and oil drilling requested by the Standard Oil Company. Under the terms of the proposed lease, the Standard Oil Company will pay a rental of 25 cents per acre per year and will perform no drilling or exploring operations on the highway proper. The site of these drillings, he stated, is near the Wasco-Heppner Highway and the John Day Highway in Gilliam County. The Commission approved the lease.

Indentures of Access involving changes in existing points of access to state highways were presented by the Right of Way Engineer. He explained that in all of the instances, except the Hanby property, the indentures provide only for a change in an existing point of access for the benefit of the traveling public and the convenience of the property owners. Concerning the Hanby property on the Baker-Homestead Highway, a new grant of access is being given to the property owner at two locations for a width of 25 feet each. He explained that these accesses will be similar to existing accesses in this area and will not contribute materially to the detriment of the traveling public. Upon his favorable recommendation, the Commission approved the following indentures of access:

a. McGlone property, File 15932, on the Cascade Locks-Viento Section of the Columbia River Highway in Hood River County.

b. Bellevance property, File 21782, on the Beaver Marsh Section of The Dalles-California Highway in Klamath County.

c. Gard property, File 18628, on the Tigard-Newberg Section of the Pacific Highway West in Washington County.

d. Moore property, File 23874, on the Moro-Grass Valley Section of the Sherman Highway in Sherman County.

e. Gouldin property, File 21609, on the Sage Hen Hill-Hines Section of the Central Oregon Highway in Harney County.

f. Gouldin property, File 21604, on the Sage Hen Hill-Hines Section of the Central Oregon Highway in Harney County.

g. Hanby property, File 20354, on the East Unit, Love Bridge-Black Bridge Section of the Baker Homestead Highway in Baker County. This action provides for a 25 foot access at Highway Engineer's Station 1561+00 on the southerly side of the highway and at Engineer's Station 1564+00 on the northerly side of the highway. The access is to be for private residence and for the transportation of products from farm to market.

Consideration was given to an exchange of property with the Bureau of Land Management whereby the State is to convey to the Bureau Lots 10 and 11, Walters Second Addition to Lakeview in exchange for the $S\frac{1}{2}NW\frac{1}{4}$ of Section 34, Township 37 S., Range 11 E., in Lake County. The Right of Way Engineer explained that the Commission had previously authorized sale of the State's property to the Bureau of Land Management but because of budgetary difficulties encountered by the Bureau, the sale was never completed. The Bureau, however, has suitable property which it can exchange with the State. The two properties, he added, have a value of approximately $6,500 each, and he recommended that the exchange be approved. The Commission accepted his recommendation.

The Right of Way Engineer recommended and the Commission approved the expenditure of $200 to repair the roof on the Blachly property, File 24719, located on the Washington County Line-Hillsdale Section of the Beaverton Highway in Multnomah County. This property, he stated, is now rented and cannot be disposed of by sale.

Settlement of a claim presented by Charles A. Dussler concerning an approach to his property, File 12634, on the Tidewater Section of the Alsea Highway in Lincoln County, was discussed. The Right of Way Engineer pointed out that when the option to buy a portion of the Dussler property had been signed it was agreed to construct a two-way access to his property. The highway was constructed under the direction of the Bureau of Public Roads and due to unforeseen difficulties the two-way access was not constructed as provided in the option. Mr. Dussler has agreed to accept the sum of $750 in cash in lieu of the two-way access, and the Right of Way Engineer recommended that the settlement be approved. The Commission accepted his recommendation.

Extension of an industrial lease with the Northwest Technical Institute for use of the former Vanguard property, File 15508, located on the T. H. Banfield Expressway in Multnomah County, was considered. The present lease, the Right of Way Engineer stated, expires November 16, 1957, and the school has expressed a wish to extend the lease until November 16, 1960. Under the terms of the proposed lease extension, the school is to pay a monthly rental of $525, whereas the old lease provided for a monthly payment of $480. Commissioner McIver inquired as to why the property could not be sold outright. The Right of Way Engineer

explained that a portion of the building is located on the normal right-of-way width and should not be disposed of as excess property until highway construction is undertaken. The Commission approved the lease extension following the favorable recommendation of the Right of Way Engineer.

Consideration was given to a claim made by Bertyl D. Harris for damage to a well on his property on the Valley Junction-Sheridan Section of the Salmon River Highway. The Right of Way Engineer explained that construction activities on the new highway section had caused his domestic well to go dry. An agreement has been reached with Mr. Harris releasing the State from all damages, provided a satisfactory new well is drilled. Cost of this well, he stated, is estimated at $1,300, and he recommended that the new well be drilled under terms of a written agreement. The Commission approved his recommendation.

Consideration was also given to a form of permit agreement with Davidson Industries, Inc., allowing them to construct a roadway on state right of way on the Mapleton-Tiernan Section of the Siuslaw Highway in Lane County. The company, the Right of Way Engineer stated, wishes to construct the road to be used for access to a local log dump and has agreed to pay all costs involved. He recommended that the permit, which contains a 30-day cancellation clause, be granted. The Commission granted the permit as recommended.

The Commission gave attention to the matter of additional compensation to W. F. Stucki for relocating his well along the Sunset Highway in Washington County. The Right of Way Engineer explained that in the right-of-way transaction acquiring property from Mr. Stucki it had been agreed to drill a new well, and such well had been drilled. However, it did not prove satisfactory and Mr. Stucki has agreed to accept the sum of $733 to provide a satisfactory well. Upon his favorable recommendation, the Commission approved the payment.

The Commission also considered payment to Mr. I. B. Harris for the cost of installing a new well on his property on the Valley Junction-Sheridan Section of the Salmon River Highway. The Right of Way Engineer recalled that the Commission at its September meeting had authorized the expenditure of $850 to develop a new well. A satisfactory well was drilled but it was found that the final cost amounted to $1,199. He recommended that Mr. Harris be paid the additional sum of $349, as provided in the terms of the option with Mr. Harris. The Commission approved the payment.

The Engineer brought up the matter of securing additional land for the Maintenance Headquarters in Enterprise. He stated that Mr. Harold Voetburg owns a lot and a house adjoining the Maintenance Headquarters, specifically Lot 4, Block 26, Gardners Addition to Enterprise. This land will fit in very nicely with the needs of the Maintenance Headquarters and Mr. Voetberg has offered to exchange it for 18 acres of State-owned land not needed for highway purposes located on the Little

Sheep Creek Secondary Highway between Engineer's Stations 134+65 and 154+95, provided he is allowed to remove the house and is paid the sum of $240. The Voetberg property has been appraised at $4800 and the 18 acres owned by the State, at $3400. He recommended that they be exchanged and that Mr. Voetberg be paid the sum of $240. The Commission approved the exchange as recommended.

The Parks Superintendent reported that as previously authorized by the Commission, a new well had been drilled in Champoeg State Park, which proved to be an artesian well flowing at the rate of 23 gallons a minute.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements and for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission's resolution dated December 20, 1951:

Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway

R-25344 - Rose Marie Adolf, Walter Allen Adolf, Katherine Rose Adolf, and Phillip Daniel Adolf
Right of Way (Yamhill County)
10.44 acres

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-20988 - Ernest L. Miller and Elsie A. Miller
Right of Way (Multnomah County)
0.133 acre

R-20998 - George A. Edwards and Alice Ruth Edwards
Right of Way (Multnomah County)
3,750 square feet

R-22711 - Albert P. Walton and Helen J. Walton
Right of Way (Multnomah County)
1,600 square feet

R-22733 - Melanie A. Parke
Right of Way (Multnomah County)
Parcel No. 1: 5,821 square feet
Parcel No. 2: 0.852 acre
Parcel No. 3: 2,526 square feet

R-25009 - Paul J. Sabel and Margaret Sabel
Revised resolution to provide complete restriction of access

Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway

R-25520 - Glen F. Fulton and Ruth E. Fulton
(Jefferson County)
Parcel No. 1: 23.29 acres Right of Way
Parcel No. 2: 0.44 acre for temporary permit to relocate and construct existing irrigation canal and pipe line

Cornelius-Hillsboro Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway

R-24408 - Lloyd Wiedewitsch and Viola Wiedewitsch
Revised resolution to change description and number of places of access

Right of way maps, construction plans and other data were submitted to the Commission and the Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBITS "K-1" through "K-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and accepted a report from the Chief Counsel concerning cases which have been tried in court since the Commission meeting held September 27 and 28, 1956, as follows:

REPORT OF CONDEMNATION CASED TRIED TO NOVEMBER 1, 1956

Case	County	Highway	Section	State's Offer	Defendant's Demands	Verdict
Needham L-2521 R-23323	Josephine	Pacific	Jumpoff Joe Cr. - Grants Pass	$ 8,000	$16,000	$ 8,290

(For additional details, see the Chief Counsel's letter, dated November 1, 1956, in the General Files in Salem.)

In compliance with a resolution adopted by the Commission on December 20, 1951, the Chief Counsel presented offers that were tendered to property owners for the acquisition of real property prior to the institution of condemnation proceedings, as follows:

Myrtle Creek-Canyonville Section of the Pacific Highway:

R-22480 - R. F. Klose, et al. 0.71 acre for right of way purposes and 0.27 acre for excess taking. Offer of $686.00 approved by Mr. Chandler, October 16, 1956.

R-22481 - Treva Alspaugh, et al. 0.92 acre for right of way purposes and 0.4 acre for excess taking. Offer of $924.00 approved by Mr. Chandler October 16, 1956.

R-22482 - Kenneth B. Amesbury, et al. 1.16 acres for right of way purposes and 0.47 acre for excess taking. Offer of $1,141.00 approved by Mr. Chandler October 16, 1956.

R-22483 - Alton E. Alspaugh, et al. 1.16 acres for right of way purposes and 0.85 acre for excess taking. Offer of $1,407.00 approved by Mr. Chandler October 16, 1956.

November 8, 1956

Myrtle Creek-Canyonville Section of the Pacific Highway - Cont.

R-23783 - Bernard O. Bordeaux, et al. 0.09 acre for right of way purposes. Offer of $375.00 approved by Mr. McIver October 5, 1956.

R-25140 - Huron W. Clough, et al. 1.28 acres for right of way purposes. Offer of $250.00 approved by Mr. McIver October 11, 1956.

R-16307 - H. M. Brainard, et al. 875 square feet for right of way purposes. Offer of $550.00 approved by Mr. McIver October 11, 1956.

R-23774 -Darrell E. Brown, et al. 0.32 acre for right of way purposes. Offer of $3,950.00 approved by Mr. Chandler October 19, 1956.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway:

R-22730 - John C. Miller, et ux. 0.18 acre for right of way purposes. Offer of $9,750.00 approved by Mr. Chandler October 19, 1956.

R-22748 - Tom McLean, et al. 4,836 square feet for right of way purposes and 17,000 square feet for excess taking. Offer of $9,750.00 approved by Mr. McIver October 26, 1956.

R-23674 - Charles W. Marshall, et ux. 5,000 square feet for right of way purposes. Offer of $7,450.00 approved by Mr. Chandler October 19, 1956.

R-24643 - F. B. Turner, et ux. 5,379 square feet for right of way purposes. Offer of $1,500.00 approved by Mr. Chandler October 19, 1956.

R-24837 - Edmond Verdurmen, et ux. 6,831 square feet for right of way purposes. Offer of $930.00 approved by Mr. Chandler October 19, 1956.

R-25009 - Paul F. Sable, et ux. 11,500 square feet for right of way purposes and 8,500 square feet for excess taking. Offer of $14,750.00 approved by Mr. Chandler October 19, 1956.

Salem By-Pass--Jefferson Junction Section of the Pacific Highway East:

R-22123 - Ben Bennett, et al. 0.67 acre for right of way purposes. Offer of $18,500.00 approved by Mr. Chandler October 16, 1956.

R-24312 - Roy V. Bell, et al. 0.09 acre for right of way purposes. Offer of $150.00 approved by Mr. McIver October 5, 1956.

Salem By-Pass--Jefferson Junction Section of the Pacific Highway East:-Cont.

R-24316 - Harvey Jacobsen, et ux. 0.32 acre for right of way purposes. Offer of $160.00 approved by Mr. McIver October 5, 1956.

R-25395 - J. McNally, et al. 0.13 acre for right of way purposes. Offer of $1,100.00 approved by Mr. Chandler October 16, 1956.

R-25773 - Ben F. Brandon, et ux. 0.04 acre for right of way purposes. Offer of $325.00 approved by Mr. McIver October 30, 1956.

West Fork, Illinois River Bridge and East Fork, Illinois River Bridge Sections of the Redwood Highway:

R-24438 - John J. Katin, et ux. 2.18 acres for right of way purposes. Offer of $1,015.00 approved by Mr. Chandler October 19, 1956.

R-25770 - John J. Katin, et al. 6.75 acres for right of way purposes. Offer of $3,065.00 approved by Mr. Chandler October 19, 1956.

McMinnville (Adams Street) Section of the Pacific Highway West:

R-22203 - G. A. Nelson, et al. 10,450 square feet for right of way purposes. Offer of $16,250.00 approved by Mr. McIver October 26, 1956.

R-24622 - Ralph S. Grow, et al. 24,050 square feet for right of way purposes. Offer of $6,000.00 previously authorized by Mr. McIver August 29, 1956, without complete restriction of access. Offer of $6,500.00 approved by Mr. McIver October 26, 1956, with complete restriction of access.

Klamath Falls, West Side by-Pass Section of The Dalles-California Highway:

R-23069 - Clifford Engelking, et ux. 10,404 square feet for right of way purposes. Offer of $650.00 approved by Mr. Chandler October 16, 1956.

R-23116 - John D. Adams, et al. 650 square feet for right of way purposes. Offer of $750.00 approved by Mr. McIver October 5, 1956.

Ferry Street Bridge-Mohawk Road Section of the Eugene-Springfield Highway:

R-23532 - Mervin L. Ellis, et ux. 0.70 acre for right of way purposes. Offer of $7,750.00 approved by Mr. Chandler October 19, 1956.

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway:

R-23614 - Harold E. Brunner, et ux. 9.02 acres for right of way purposes. Offer of $902.00 approved by Mr. Chandler October 19, 1956.

McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway:

R-25297 - Frank Foster, et ux. 0.5 acre for right of way purposes. Offer of $175.00 approved by Mr. McIver October 5, 1956.

Nobel Slough-Foster Section of the Santiam Highway:

R-19935 - James Stock, et ux. 0.19 acre for right of way purposes. Offer of $100.00 approved by Mr. McIver October 5, 1956.

The Commission approved the offers as presented.

A report was also submitted by the Chief Counsel and accepted by the Commission concerning orders which have been issued by the Public Utilities Commissioner in which the State has been made a party, as follows:

PUX 37: Weyerhaeuser and Crown Zellerbach private crossings on Cascade & Woodburn-Estacada Secondary Highways in Clackamas County. The order authorized the use of greater vehicle lengths and further ordered that the timing on certain traffic signals be changed accordingly.

PUX 168: Application of Spokane, Portland and Seattle Railway Company, Oregon Electric Railway Company and Oregon Trunk Railway for an order requiring motor vehicles transporting logs, poles, or piling to stop at certain railroad grade crossings. An order issued October 23, 1956, dismissed the application without prejudice.

PUX 176: North Jefferson Junction Overcrossing on the Pacific Highway in Linn County. The order authorizes construction of an additional overcrossing over the tracks of Southern Pacific Company.

PUX 177: Application of the City of Hermiston to construct a crossing at grade with the tracks of Oregon-Washington Railroad and Navigation Company at Hermiston. This matter involves extension of a city street and no State highway route is directly involved.

PUX 184: Application of Ellingson Lumber Company to construct a private road crossing at grade with the John Day Highway near Unity in Baker County. The order authorized construction and specified that the applicant bear the expense connected therewith.

PUX 190: Chinchalo Grade Crossing with the tracks and right of way of Southern Pacific Company at or near Chinchalo siding in Klamath County. This matter was instigated by the Bureau of Indian Affairs and no State highway is directly involved.

PUX 192: Industrial Spur Crossing at grade across a county road near Conroy in Benton County. This matter arose upon application of Southern Pacific Company and no State highway is directly involved.

PUX 199: Boone Road Crossing Signals in Marion County. The order authorizes installation of signals, stipulating that Marion County and Southern Pacific Company each bear 50 percent of the cost of installation. Maintenance of the signals is to be borne by Southern Pacific Company and no State highway is directly involved.

The Chief Counsel reported on the damage suit that was instituted by Elizabeth Strasbaugh as an individual and as executrix of the estate of Fred J. Strasbaugh, deceased, against Babler Brothers, Inc., a corporation, and Rogers Construction Company, a partnership, whereby Mrs. Strasbaugh seeks compensation for materials that were taken by the contractors under State Highway Contract 3370, for grading and paving the Ontario-Nyssa Section of the Old Oregon Trail in Malheur County. He said that the plaintiff seeks to recover the sum of $34,000 plus cost and disbursements; also that this is a second case that has been commenced since the original case was instituted by Mr. and Mrs. Strasbaugh on December 21, 1950 against the members of the State Highway Commission, several officers and employees of the State Highway Department and other employees, including the state contractors, the outcome of which was a voluntary nonsuit against the members of the Highway Commission and others and an involuntary nonsuit against the contractors. Defense of the present action by members of the Highway Department's legal staff, he said, has been authorized by the Attorney General because the cause of the action arises out of a contract the defendants were performing for the State Highway Commission. The Chief Counsel further stated that he has received a request from the attorneys for the contractors for assurance that if in the present case a judgment is entered against the contractors reimbursement will be made by the State Highway Commission to the contractors to the extent of their obligation under the judgment. He pointed out that the original contract obligates the Highway Commission to furnish sources of material and since the materials taken for the project were from rock designated by the State, in his estimation the State should reimburse the contractors to the extent of the judgment if a judgment is entered against the contractors. He requested authority to advise the attorneys for the contractors to that affect, which, he said, is in conformity with commitments made relative to the original litigation. The Commission unanimously approved the request.

A report of claims which have been abandoned as being uncollectible was presented by the Chief Counsel. He pointed out that all reasonable means to collect the claims have been used and he recommended that collection of the following claims be abandoned:

CAO-56-38, Exley Produce Express: On March 15, 1954, an Exley Produce truck axle broke, causing the vehicle to damage a guardrail on the Columbia River Highway, in the sum of $175.31. The evidence available indicates that it is extremely questionable whether Exley Produce Express is liable for the damage and is insufficient to justify an action for damages.

CAO-56-342, Henry Owen Evans: On July 26, 1956, a car driven by Mr. Evans collided with the guardrail on The Dalles-California Highway and damaged it to the extent of approximately $200. Mr. Evans cannot be located and the automobile has been repossessed by the company which sold the car to Mr. Evans.

CAO-56-347, Roy Thompson: On September 2, 1956, a car operated by Mr. Thompson collided with a concrete handrail on the Rogers Road Overcrossing at M.P. 185.07 on the Pacific Highway, damaging the rail to the extent of approximately $250.00. Mr. Thompson, a minor, was killed in the accident. He left no estate and carried no liability insurance.

The Commission approved abandonment of the claims.

A report was submitted by the Chief Counsel concerning efforts to secure a more adequate enforcement of the vehicle weight and size law. He reported briefly that Mr. James Minturn, District Attorney for Crook County; Mr. Michael S. Mogan, District Attorney for Grant County; and Mr. Walter Foster, District Attorney for Polk County, have indicated that as soon as the proper case comes up, they would make every effort to press a test case to a conclusion. The Commission accepted the report.

The Commission authorized the institution of legal proceedings for the collection of damages resulting from destruction of State property reported by the Chief Counsel, as follows:

CAO-55-55, Edward S. Duhon: On April 3, 1955, a car driven by Mr. Duhon struck a temporary viaduct at 82nd Avenue and Halsey Street, causing damage in the amount of $236.96. Mr. Duhon was traveling at approximately 100 miles per hour, and has failed to reply to any of the State's letters.

CAO-55-160, Blue Mountain Mills: In 1951, the Blue Mountain Mills constructed an earth reservoir on the southerly side of and above the John Day Highway just west of the City of John Day. The reservoir, when filled with water, showed considerable leakage and Blue Mountain Mills was notified of the situation and was presented with a demand to take corrective action. During September and October, 1954, and in April 1955, several slides occurred which were caused by the leakage from the reservoir. The State expended $3,579.98 in removing the slide material. At that time, Blue Mountain Mills indicated that it would be willing to pay one-half the cost of removing the slide material.

Subsequently, they refused to pay any part, and the Chief Counsel recommended that legal proceedings be taken to collect the full amount of $3,579.98.

CAO-56-190, Thomas Stitts: On January 9, 1956, a car operated by a State Highway employee collided with a Ford Sedan operated by Thomas Stitts on the Pacific Highway approximately 18 miles north of Grants Pass. Mr. Stitts has disclaimed liability through his attorney and it is recommended that legal action be taken to collect the cost of repairs to the State vehicle in the amount of $434.16.

CAO-56-205, Dolores L. Knight: On January 17, 1956, a car driven by Dolores Knight collided with an undercrossing structure on Interstate Avenue, Portland, causing damages in the sum of $210.05. An investigation revealed that Miss Knight's driver's license had been suspended because of another accident which occurred in August of 1955. Legal proceedings to collect this claim appear to be necessary.

CAO-56-214, Marvin A. Hall: On December 7, 1955, a handrial and felloe guard on the Willamette River Bridge at Harrisburg was damaged to the extent of $232.16. There were no witnesses to the accident, however, a bumper with a license plate attached was found at the scene of the accident, indicating that the vehicle belonged to Marvin A. Hall. Mr. Hall has not replied to letters concerning the accident. It appears that legal proceedings will be necessary to collect the claim.

CAO-56-245, James Day: On January 26, 1956, a car driven by Mr. Day collided with a State truck which was stopped on Highway 20 approximately 20 miles east of Burns, damaging the State vehicle to the extent of $80.36. Mr. Day has not replied to any State letters but his attorney has presented a claim in the amount of $582.78 for damages to Mr. Day's vehicle. The facts indicate that there was no negligence on the part of the State driver and the sole cause of the accident was the negligence of Mr. Day. It appears that legal proceedings will be necessary to collect the State's claim.

CAO-56-281, Pelky and Morlan: On May 4, 1956, a car operated by Morlan collided with a guardrail at M. P. 0.74 on the Three Rivers Highway, causing damages in the amount of $212.46. No answer has been received to any of the letters making claim for damages and it appears that legal proceedings must be instituted to obtain collection.

CAO-56-325, Douglas W. Smith: On July 25, 1956, a car operated by Douglas W. Smith collided with a State car, causing damages to the State car in the amount of $30.75. Mr. Smith has not replied to letters presenting the claim. Mr. Smith apparently was in the wrong and legal proceedings appear necessary to collect the State's claim.

CAO-56-256, Thomas L. Leopard: On March 22, 1956, the Sweet Home Scale House on Highway U. S. 20, between Foster and Sweet Home, was practically demolished by a car operated by Mr. Leopard.

The damage amounted to $1,309.67. Mr. Leopard was arrested at the scene of the accident and was later convicted of a charge of reckless driving. Mr. Leopard's attorney has contended the accident occurred because the Scale House was located very close to the highway and that a truck being weighed at the time cast its headlights into Mr. Leopard's eyes, blinding him. A subsequent investigation reveals that there is little doubt as to Mr. Leopard's legal liability for the damage, but it appears necessary that legal proceedings be instituted to collect the claim.

The Commission authorized collection of the claims as presented.

Consideration was given to payment of additional money to Mr. Frank Foster for damages sustained by him by removal of a power line from his property, located on the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway in Yamhill County. The Chief Counsel explained that in acquiring right of way from Mr. Foster, it had been agreed to preserve the power line for his future use. During construction, however, the power line was destroyed. Cost of replacing the power line has been estimated at $425. Mr. Foster has agreed to accept the sum of $400 as full compensation for all damages and has agreed to execute a full release for such damages upon payment of this sum. The Commission approved payment to Mr. Foster as recommended by the Chief Counsel.

The Chief Counsel brought up the matter of assignment of a lease held by Cascade Natural Gas Corporation to the Chase Manhattan Bank and Fred F. Voorhees, as trustees. He recalled that on August 7, 1956, the Commission had leased to the Gas Corporation a small parcel of real property on the Old Oregon Trail-Cold Springs Section of the Old Oregon Trail Highway to establish a meter installation. The Gas Corporation has requested the assignment in order to obtain a loan. The Chief Counsel pointed out that the lease is subject to termination upon 90 days' written notice and, as it appears that the interests of the State will not be adversely affected, he recommended that the assignment be approved and that he be authorized to sign on behalf of the Commission an appropriate form of consent to assignment. The Commission accepted his recommendation.

Also considered was a request from the Long Bell Lumber Company for an assignment of a permit for the use of a roadway beneath the westerly span of the bridge over Weatherly Creek at M.P. 22.72 on the Umpqua Highway in Douglas County. The Chief Counsel stated that the Long Bell Lumber Company, who are now merging with the International Paper Company, have requested the assignment to the International Paper Company as an incident necessary to the merger of the two companies. Investigation of the matter disclosed that the interests of the State would not be adversely affected by the assignment and he recommended that the assignment be approved and that he be authorized to execute a formal consent to assignment in behalf of the Highway Commission. His recommendation was accepted.

Mr. Gale Powell, an attorney employed by the Highway Commission, has announced that he will resign at the end of November, the Chief Counsel reported. He explained that Mr. Powell had been elected District Attorney in Gilliam County at the recent election as a result of a write-in campaign. The Commission accepted Mr. Powell's resignation and expressed their good wishes for him in his new assignment.

The Commission discussed a letter from Mr. C. W. Enfield tendering his resignation as Chief Counsel for the Oregon State Highway Commission, effective December 5, 1956. Mr. Enfield stated that he is resigning with great reluctance in order to permit his acceptance of appointment as Solicitor of the Federal Bureau of Public Roads which has been tendered him by the Hon. Sinclair Weeks, Secretary of Commerce. He expressed regrets at leaving the employ of the State Highway Department where he spent almost nine years of pleasant and stimulating practice of law and as legal advisor to Commissioners whose foresight, judgment, courage, and integrity were outstanding. He added that the close day to day cooperation between the several divisions of the Highway Department in striving to obtain one common goal, the building of the finest state highway system in the nation, will serve as a guidepost for him in continuing highway work with the Bureau, and he expressed the hope that in his new work he will be able in someway to continue to contribute to the advancement of the highways of this state. The Commission accepted the resignation unanimously with regrets. Chairman Chandler, speaking for the Commission, complimented Mr. Enfield for doing a splendid job, and he also said that the Commission is sorry to lose Mr. Enfield's services but wishes him success and happiness in his new endeavors.

The Engineer reported that under authority previously granted him by the Commission, he has awarded contracts as follows, the conditions of the awards having been satisfied:

(1) Grading and paving River Banks Farm Section of Rogue River Loop Highway, Josephine County. Bids received August 17, 1956. Conditions of award satisfied September 28, 1956. F. L. Somers, Medford, low bidder.

(2) Embankment repair on Bybee Bridge (Rogue River) Section of Table Rock Road, Jackson County. Bids received September 28, 1956. Conditions of award satisfied October 3, 1956. F. L. Somers Medford, low bidder.

(3) Structure, grading and stone base on Yamhill River (Lafayette) Bridge Section of the Lafayette-South Road, Yamhill County. Bids received September 28, 1956. Conditions of award satisfied October 8, 1956. Lee Hoffman, Beaverton, low bidder.

(4) Grading Parish Creek Unit, Spray-Waterman Section of Spray-Waterman County Road, Wheeler County. Bids received September 27, 1956. Conditions of award satisfied October 9, 1956. Morgan Bros., Coquille, low bidder.

(5) Missouri Bottom-Canyonville structures on Myrtle Creek-Canyonville Section of relocated Pacific Highway, Douglas County. Bids received September 28, 1956. Conditions of award satisfied October 10, 1956. Lee Hoffman, Beaverton, low bidder.

(6) Construction of North Fork Scappoose Creek Bridge on Pittsburg-Scappoose Highway, Columbia County. Bids received September 27, 1956. Conditions of award satisfied October 12, 1956. S & D Construction Company, Portland, low bidder.

(7) Grading on Emigrant Hill-Deadmans Pass Section of Old Oregon Trail Highway, Umatilla County. Bids received September 27, 1956. Conditions of award satisfied October 23, 1956. Rogers Construction, Inc., Portland, low bidder.

(8) Grading and paving Fords Bridge-Canyonville Unit, Myrtle Creek-Canyonville Section of Pacific Highway, Douglas County. Bids received September 27, 1956. Conditions of award satisfied October 30, 1956. C. R. O'Neil, Grants Pass, low bidder.

(9) Grading and paving East and West Fork Illinois River Bridge Sections of Redwood Highway, Josephine County. Bids received September 28, 1956. Conditions of award satisfied October 30, 1956. Durbin Bros., Eugene, low bidder.

(10) Construction of Weaver Road Structures on relocated section of Weaver Road, Douglas County. Bids received September 27, 1956. Conditions of award satisfied November 5, 1956. Ausland Construction Co., Grants Pass, low bidder.

(11) Grading and paving Illahee-North Jefferson Section of Pacific Highway, East, Marion County. Bids received September 28, 1956. Conditions of award satisfied November 5, 1956. Roy L. Houck & Sons, Salem, low bidder.

(12) Structure, grading and stone base on 37th Avenue-42nd Avenue Section of T. H. Banfield Expressway, in Portland, Multnomah County. Bids received September 28, 1956. Conditions of award satisfied November 7, 1956. Donald M. Drake Co., Portland, low bidder.

The Commission considered a report submitted by the Engineer concerning a reconnaissance survey on the Oregon Coast Highway between Garibaldi and Bay City. The Engineer reported that a survey had been conducted as previously authorized and two general routes were investigated, one being the Electric Creek Route and the other being the Bay Route. Although he was not able at this time to recommend a specific route for adoption, he did recommend that the Electric Creek Route be dropped from consideration due to excessive vertical and horizontal curvature, excessive grade, and because a part of the location is through an area of unstable ground; also, the route would conflict with the Garibaldi water supply. For these reasons it appears that the Bay route or one of its alternates would be more acceptable. An economic analysis indicates that the Bay Route would have a benefit quotient of 2.98 but the project is estimated to cost approximately $620,000 per mile. No money is available at this time for construction and it was his thought that a re-evaluation of the possible alternates would be in order at some future time. The Commission accepted his report.

At the request of trucking interests, the Engineer reported that test runs were made on the Territorial Secondary Highway No. 200 and on the Hermiston Secondary Highway No. 333 to determine if a combination of equipment consisting of a truck-tractor and full trailer having an over-all length of 60 feet could negotiate the highway on its own side of the center line. The test runs were satisfactorily made, and he reported that the status of these highways had been changed from Group II to Group I, as follows:

1. Territorial Secondary Highway No. 200 from its junction with US99W at Monroe to its junction with the Siuslaw Highway, just west of Cheshire, effective October 3, 1956.

2. Hermiston Secondary Highway No. 333 from its junction with the Columbia River Highway, two miles west of Cold Springs, to its junction with the Boardman-Stanfield Highway at M.P. 12.61, effective October 23, 1956.

The Commission confirmed the highway reclassifications.

Consideration was given to a request from the Harvey Aluminum Company for an access road to US30 at the Harvey Aluminum Company plant at The Dalles. The Engineer pointed out that in June, 1953 the Harvey Aluminum Company had requested the State to install a traffic light at the proposed entrance to the plant, and had requested an easement on which they proposed to construct at their own expense, a third lane or turnout for the aluminum plant. The cost of this project was estimated at $3500 for the signal. The request has now been renewed but as the traffic pattern has changed, the original plans have been enlarged so that the cost, including the signal, is now estimated at $35,000. The Harvey Aluminum Company was contacted to determine if it would pay one-half the cost. He pointed out that, although the State's

participation is justified on the basis that traffic will be interfered with, on the strict basis of law the Aluminum Company could be compelled to bear the entire cost. He recommended that the Aluminum Company be required to pay at least fifty per cent of the cost of the access. The Commission accepted his recommendation.

A tabulation of high bids received October 30, 1956, was presented by the Engineer, covering used equipment and scrap materials located at State Highway Shops at Salem, Bend, La Grande and Klamath Falls. He pointed out that the total amount of high bids for the 84 items was $22,093.17, whereas, the estimated value of these same 84 items was $19,007.00. The Commission confirmed the Engineer's award of items 1 through 84 to the high bidders.

A report on weighmaster operations during the three-month period from July through September for the years 1952 to 1956, inclusive, was presented by the Engineer. He commented briefly that the only particularly significant point about the 1956 figures compared with those for earlier years was the fact that the number of violations above 10,000 pounds among log haulers is about two and one-half times the corresponding figures for the years 1954 and 1955. The average fine paid is somewhat higher than the corresponding quarter in 1954 and 1955, being about 10 per cent higher than a year ago and 4 per cent higher than in 1954. The Commission accepted the report.

A report was also presented by the Engineer concerning a previous request made by Commissioner Stan Skoko of Clackamas County for the use of an area at the north end of the Willamette River Bridge on the R. H. Baldock Freeway at Wilsonville for park purposes. He recalled that when the request had been made he and the Parks Superintendent had been instructed to make an investigation and a report. He pointed out that an area containing 3.62 acres obtained from Anselm H. Berger, under Right of Way File No. 22382, could be made available for temporary use. However, it should be clearly understood that the property was acquired for a source of road building materials and should be retained as such, as material sources in that area are few. He recommended that a permit be granted to Clackamas County without cost, for an initial three-year period, with the understanding that the State may have full use of the property if it is needed. The Commission approved the proposed permit.

The Engineer presented a report on a meeting held in Hood River on October 18, 1956, with representatives of the Hood River Chamber of Commerce, the U. S. Bureau of Public Roads, the U. S. Forest Service, and the State Highway Department, concerning improvement of the Mt. Hood Highway to allow hauling of logs. This problem, the Engineer reported, has been brought to the critical stage by the fact that a large saw mill in the vicinity of Hood River has burned and the owners are hesitant to rebuild unless they have assurance of a supply of timber being available. Their present supply of logs, he stated, amounts to about a three-year operation. He recommended that in compiling the next forest

highway program, which should be sometime in 1957, a substantial allocation of forest highway funds, probably $400,000 to $500,000, be made to the Mt. Hood Highway, with the plan in mind that improvement would begin at the northerly end of the existing narrow road near Cooper's Spur and extend southerly toward Bennett Pass. The Commission accepted the Engineer's report.

(A delegation which appeared on the following day was advised that the Commission would cooperate with the Forest Service in placing improvement of a 9.7-mile section on the next Forest Highway program and that it would probably require three or four years to complete the project).

The Engineer reported that a public hearing pertaining to the widening of North Main Street had been held in Ashland, in conformance with previous Commission instructions. He stated that practically no opposition was voiced at this hearing, which was held October 17, 1956, in the City Hall in Ashland. He thereupon recommended that the Commission approve a survey for the Ashland Undercrossing-Hellman Street Section of the Pacific Highway in Ashland. The Commission approved the survey as recommended by adopting the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof, with like effect as though extended in full herein. The Engineer was authorized to advertise the project for bids to be received at an early date. The Engineer also presented and the Commission accepted a written report of the proceedings at the Ashland hearing, as follows:

Ashland, Oregon
October 17, 1956

As previously authorized by the Commission, a public hearing was held in the City Hall in Ashland at 3:00 p.m., October 17, 1956, pertaining to the widening of North Main Street in the city of Ashland, route of the Pacific Highway, from the Southern Pacific railroad undercrossing at the north city limits, southerly to a connection with the newly constructed oneway couplet at Helman Street. The meeting was called to order by Mr. W. C. Williams, State Highway Engineer. Other Highway Department representatives present were Mr. Frank D. Morgan, Division Engineer, Roseburg; Mr. Gene Huntley, Public Relations and Personnel Director; and Mr. Floyd Query, Assistant Secretary, both from Salem. Twenty-seven residents of Ashland were also present. The Engineer explained that the meeting is being held in compliance with Oregon law, and he thereupon read Section 373.015 of the Oregon Laws pertaining to highways in cities. He called attention to a large-scale map which was posted on the wall and explained the proposed project which, if built, will consist of four 12-foot traffic lanes, with a six-foot sidewalk on each side. The views and opinions as expressed by various persons attending the meeting, he continued, will be presented to the Highway Commission at its November 8-9, 1956 meeting.

The Engineer then invited anyone to speak on the proposed improvement. Mr. R. L. Neill, Mayor of Ashland, stated that although the City Council had received two letters objecting to the proposed improvement, the City Council felt that the project is necessary, and it was his feeling that the majority of the residents of Ashland also favor the improvement. Mr. Floyd Flood, a rural mail carrier, stated that in his work he is required to travel the street four times daily, and because of congested traffic a dangerous condition is created. He favored widening of the street or the prohibition of parking along the existing street. He observed that one of the churches had raised some objection to the widening plan but felt that if their access was shifted to Helman Street no particular difficulty would be encountered. Mr. W. M. Wright inquired if parking would be allowed on the improved section. The Engineer replied in the negative, stating that all available space would be needed for the four traffic lanes and the two sidewalks. Mr. Flood also mentioned that a great many children use the sidewalks on both sides, and as the curbs will be high in some sections he inquired as to whether a railing could be installed for the children's protection. The Engineer pointed out that the State exercises control only from curb to curb and that sidewalk railing would be a City matter. Mrs. W. V. McCullough read a letter written by J. W. McCoy, Minister of the Presbyterian Church, pointing out a dangerous condition which might be created at the intersecting streets when Main Street is widened. The letter also questioned the economic advisability of widening Main Street when construction of a by-pass is contemplated in the near future. Objection was made to the removal of parking space and to the removal of a number of mature trees along Main Street. It also was suggested that speed on Main Street from Maple Street to the north end of the one-way couplet be limited to 25 miles per hour. She gave the letter to the Engineer, who explained that construction of the by-pass would be undertaken in about seven to thirteen years. He called attention to the fact that experience with constructed by-passes shows that about 40 percent of the total traffic will use the by-pass route. At the rate that traffic is now increasing there will be a 42 percent increase in seven years, so that there will probably be more traffic on Main Street in seven years than there is now, even though the by-pass is in operation. Mr. Eric Wacker inquired as to whether the State would pay for paving private accesses which will be removed in the new construction. The Engineer replied that it is planned to pave such areas. Mr. Archie Fries stated that the existing congested traffic condition is critical, and only by widening Main Street as proposed can the City secure the benefit of the new one-way couplet section between Helman Street and East Main Street. The Reverend Ross Knox, Pastor of the Methodist-Episcopal Church, stated that there should be a traffic light in operation on Sundays when a great number of pedestrians cross Main Street at the church. He also called attention to the fact that widening of the street will require in some places a very high curb section and inquired if some protection could be constructed for these high curbs. The Engineer replied that curbs which are more than 10 inches high will be constructed with a step curb. Mr. Elmer Beagle pointed out that a

traffic light is now installed at the intersection where the Methodist Church is located, and it can be pedestrian-controlled to protect pedestrians on Sundays. Miss Aneta Curtiss inquired concerning a speed limit which might be placed on the new street. Control of this matter, the Engineer stated, is exercised by the Speed Control Board, who set speed limits within cities on highway sections. Such speeds, he added are usually determined by the rate of speed at which 85 percent of the vehicles move, and it was his estimate that the speed limit might be 35 to 40 miles per hour. Mr. Fred Taylor stated that he favored the widening project and then inquired as to improvement of Siskiyou Boulevard, which is also somewhat restricted in width. The Engineer explained that funds are available only for the North Main Street project and that plans for the Siskiyou Boulevard are in the planning stage only and he could not state when construction would be undertaken.

The Engineer inquired if anyone else had any comments they wished to make, and, there being none, the meeting was adjourned at 3:30 p.m.

/s/ W. C. Williams
State Highway Engineer

/s/ Floyd Query
Assistant Secretary

The Engineer reported that under authority previously granted to him by the Commission, he had posted a ten-ton load limit on the Vine Maple Bridge at M.P. 3.75 on the Fishhawk Falls Secondary Highway No. 103, effective 8:00 a.m., November 1, 1956, because of rotted bridge timbers which are now being replaced.

The Commission accepted his report.

Consideration was given to an item on the unfinished business agenda concerning a proposed re-routing of the Central Oregon Highway through the city of Burns. The Engineer commented that this project has been the subject of considerable discussion but has never been resolved because of divergent opinions in the city of Burns. Re-routing of the highway through Burns, he continued, is not a matter of great urgency and he recommended that money that had been allocated for the Burns project be used on the section between Juntura and Vale. If such action is taken then a hearing concerning re-routing of the highway in Burns will not be required. The matter was discussed briefly and Commissioner Reynolds stated that in his opinion a letter should be addressed to the Burns City Officials, advising them of the proposed

shift of funds and to ask their opinion in the matter. The Commission approved the suggestion as offered by Commissioner Reynolds.

Attention was given to a letter from Earl Middleton of Echo concerning improvement of a section of the Stanfield-Pendleton Secondary Highway between Echo and the Stanfield junction. The Engineer pointed out that there are two sharp curves in this section, but they are much less severe than the curvature on many other portions of the highway system. The two curves are well signed with 25 mile speed indicators attached, so that motorists should not be imperiled if they drive as indicated. Improvement of the 0.65 mile section, he estimated, would cost approximately $52,000. Although improvement would be desirable, to do so at this time would mean curtailment of other desirable secondary highway projects in Division 5, and he suggested that this project not be given priority over other projects within the division, but consideration should be given to the project within the next two or three years when funds are available. The Commission accepted his suggestion.

The Commission considered a report made by the Engineer concerning a new highway route along the Clackamas River and east across the Cascade Mountains. The Engineer stated that a group of individuals from Bend, Redmond, Madras, Prineville and Estacada had met in his office and requested construction of the Clackamas River route across the Cascades. The proposed route, he continued, would be roughly parallel to the present Warm Springs-Mt. Hood Highway, and would be approximately six miles longer than the existing route via Government Camp. A rough estimate of cost indicates that the project would cost nearly $11,000,000 and is not justified at this time. He recommended that no further action be taken, but that a copy of the map showing the costs involved be sent to the interested parties. The Commission accepted his recommendation.

The Commission gave attention to a report submitted by the Engineer concerning acquisition of right of way in the city of Corvallis for the proposed relocation of US99W on First Street. He recalled that at the Highway Commission meeting September 28, a delegation from Corvallis had appeared and requested clarification of the right of way status on the First Street project between Van Buren and Tyler Streets. Under the terms of an agreement previously executed, there is no clear understanding as to whether the city or the state is to acquire rights of way between Van Buren Street and Tyler Street, a distance of two blocks. The city, he stated, is acquiring the necessary property between Van Buren and Harrison Streets, which will cost approximately $25,000. In view of the city's action in acquiring this property, he recommended that the Commission acquire the necessary rights of way between Harrison Street and Tyler Street, which property has been appraised at $20,000. The Commission approved the acquisition of property as recommended.

The Commission considered a number of items of unfinished business as they appeared in the Secretary's summary dated September 28, 1956, as follows:

1. Delegation request for a bridge across the Columbia River at Astoria: The Engineer reported that since the original study had been made for construction of this bridge, costs have risen approximately twenty per cent and it will now be necessary to sell bonds in the amount of $32,900,000. Serious consideration, he stated, is now being given to the issuance of general obligation bonds which could probably be sold at about three per cent interest. In re-evaluating the estimated cost and income for the bridge, it has been determined that from the year 1961, when the bridge might be opened to traffic, revenues would not meet costs until 1972. During the eleven years between 1961 and 1972, he estimated that it would cost approximately $115,000 per year for each of the states of Oregon and Washington to finance the deficit. Under this proposed plan, the bonds would be completely amortized in the year 2006. He suggested that this information be submitted to the Port of Astoria authorities so they could present the plan to their financial consultant. The Washington Highway authorities, he stated, have indicated that if this or a similar plan is put into operation, they would assume half of the deficit, which is estimated at $230,000 per year for an eleven year period.

Mr. R. J. Bettendorf of Astoria, representing the Port of Astoria and Mr. Charles DaFoe, representing the Chamber of Commerce of Astoria, came before the Commission concerning this matter. Mr. Bettendorf emphasized the fact that they have a very limited amount of time in which to take action, as the matter must be presented to and approved by the Oregon Legislature before action can be taken. He estimated that a report could be secured from their financial advisors in about two weeks concerning feasibility of the plan for financing, as outlined by the Engineer. He pointed out that there is much preparatory work to be done in the legal and engineering phases before the matter can be presented to the Legislature. He requested the Commission to assign an attorney and such engineering assistance as is necessary to prepare a proper bill and to work out unresolved details between the Oregon and Washington Highway Departments. The Port of Astoria officials, he stated, can perform much of the leg work but assistance is needed in the legal and engineering fields. Commissioner Reynolds observed that the Commission had been considering the matter and if a feasible method of financing is found, favorable consideration could probably be given; however, it was his thought that neither the Commission nor the members of the Highway Department should enter into any sort of a campaign to sell the matter to the 1957 Legislative Assembly. This particular angle, he felt, should be borne by the sponsors of the project. No action was taken at this time pending the appearance of the balance of the delegation later in the day.

The meeting recessed at 12:00 noon and reconvened at 2:00 p. m. in the same room with the same persons present and participating.

A delegation representing the Port of Astoria came before the Commission concerning construction of a new interstate bridge between Oregon and Washington at Astoria. The following people were present: William R. Manion, Seaside; J. D. Waterhouse, Gearhart; R. J. Bettendorf, Astoria; Floyd Wright, Warrenton; and Charles DaFoe, Clamber of Commerce, Astoria. Mr. Bettendorf renewed his request that the Commission authorize an engineer and an attorney to work with the Port of Astoria authorities in preparing legislation to be presented to the 1957 Legislative Assembly. Mr. Wright pointed out that their people, in conferring with members of the Washington Highway Department, would be very ineffective unless they had an Oregon Highway Department representative to advise them. He urged that action be taken soon so that a proper bill can be drawn up. Commissioner Reynolds commented that the Commission at the present time is not in a position to act as it is not known whether the new proposed method of financing is feasible. The Engineer recalled that it was his understanding that the Oregon Highway Department representatives were to meet with the Washington Highway Department representatives when a financing plan has been declared feasible. Mr. Wright summarized his understanding of the matter as being that when a financing plan has been found to be feasible, his group will then contact the Oregon State Highway Engineer and arrangements will then be made to meet with the Washington Highway representatives. Mr. Bettendorf inquired if tentative approval could be given provided a financing plan is found feasible and bonds can be sold for not more than three per cent interest. The Engineer pointed out that the State of Washington would also have to give their consent and their position is somewhat different than Oregon's. Inquiry was then made by Mr. Bettendorf as to whether general obligation bonds would include highway funds. The Engineer replied that, generally speaking, they would. He added that when an answer is received from the financial consultant, action can then be taken, as determined by the consultant's statement. This concluded the conference whereupon discussion of unfinished business items was resumed.

2. Selection of a name for the new building at Depoe Bay: This item was deleted from the list of unfinished business as a name had been selected earlier in the day.

3. Request of Georgia Pacific Company to place waste disposal pipe upon the shoulders of the Corvallis-Newport Highway: The Engineer reported that, as previously authorized by the Commission, he had conferred with members of the Company and a plan had been worked out which is acceptable to the State. It is planned to give them a permit to place their pipe on a short section of the highway, which will not be detrimental to the State. The Commission approved the plan as outlined by the Engineer. This item is to be deleted from the list of unfinished business.

4. Public hearing in the city of Burns concerning proposed relocation of the Central Oregon Highway: This item was ordered removed from the list of unfinished business as it had been considered in a report previously rendered by the Engineer.

5. Request of Corvallis delegation that Pacific Highway West be relocated on First Street: This item is to be deleted from the list of unfinished business as the matter had been taken care of in a report previously submitted by the Engineer.

6. Request of Mount Vernon delegation for replacement of permanent dam with a temporary structure to reduce flooding hazard: The Engineer suggested that action on this matter be deferred until the U. S. Army Engineers have conducted a hearing which involves this matter. The Commission accepted his suggestion. This item is to remain on the list of unfinished business.

7. Request of Clackamas County delegation for use of highway property for park purposes at the north end of the Willamette River Bridge on the R. H. Baldock Freeway at Wilsonville: This matter was considered in a report rendered by the Engineer earlier in the day and is to be deleted from the list of unfinished business.

Attention was given to a report submitted by the Engineer concerning an increase in weight limits under special single-trip permits. The Engineer stated that in 1941 issuance of special single-trip permits had been approved for vehicles having a maximum gross weight of 84,000 pounds, with a limitation of 19,000 pounds on any axle and 38,000 pounds on any tandem axle. Since that time, however, manufacturers have continued to build larger machines for use in the construction and logging industries, and a number of them are now being built which cannot be hauled within the above limitations without being partially stripped. It is often very difficult to replace the disassembled parts at destination points as facilities for the handling of these parts are frequently not available. Considerable study, he stated, has been given to the problem and discussions have been held with the Associated General Contractors, the heavy-hauling industry, and equipment manufacturers and distributors. As a result of these discussions it has been deemed advisable to recommend an increase in the weight limits allowed under special single-trip permits when road conditions are good, as follows:

Maximum gross weight of any vehicle or combination of vehicles, 96,000 pounds.

Maximum gross weight of any axle, 21,500 pounds.

Maximum gross weight of any tandem axle, 43,000 pounds.

Maximum gross weight in pounds of any group of axles spaced more than 18 feet apart is determined by the formula $W = 1200 \times (L+40)$.

Maximum gross weight in pounds of any group of axles spaced 18 feet or less apart is determined by the formula $W = 1000 \times (L+40)$.

He also recommended that the Commission authorize the issuance of special single-trip permits for the movement of unladen construction equipment of the single-axle tractor and scraper combination type having large low-pressure tires, in accordance with the following schedule:

Minimum Tire Width		Maximum Axle Weight
No.	Gross Section Diameter	
2	21-inch (or equivalent)	26,000 pounds
2	24-inch (or equivalent)	34,000 pounds
2	27-inch or larger	36,000 pounds

The Engineer also recommended that a correction be made in the list of field offices authorized to issue such permits, and that these field offices be authorized to issue within their respective districts permits for overwidth loads up to 11 feet 6 inches without first contacting the Salem Permit Office for clearance. The Commission accepted his recommendations and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was given to a request from Commissioner Stan Skoko, the Clackamas County Court, for an investigation of traffic hazards on the newly constructed section of the Clackamas Highway just east of the Cascade Highway. This section, the Engineer stated, consists of a new section of pavement, an overcrossing structure over the Southern Pacific Railroad, and a new junction with the Cascade Highway. An investigation was conducted which revealed that 85 per cent of the vehicles traveled at or below 46.42 miles per hour, and speeds as high as 65 miles per hour were recorded. The vertical curvature over the railroad track presents somewhat of a surprise element in stopping at the intersection of the Cascade Highway. In view of the facts disclosed by the investigation, he recommended that a flashing beacon be installed at the intersection of the Cascade Secondary Highway and the Clackamas Secondary Highway at an estimated cost of $600. He also recommended the establishment of a 45 mile per hour speed zone on the Clackamas Secondary Highway from the intersection with the Cascade Secondary Highway at M.P. 5.04 to a point one mile east at M.P. 6.04. The Commission approved his recommendations and thereupon adopted the attached resolution relative thereto marked EXHIBIT "H-1", which resolution is by this reference made a part hereof with like effect as though extended in full herein.

The Commission also considered a request from Mr. Thomas H. Griffin, Clerk of Clackamas County School Dist. No. 84 and Mr. Martin Redfern of Mulino, for an investigation of traffic hazards on the Cascade

Secondary Highway in the community of Mulino and for the installation of a flashing beacon at the intersection of the Cascade Secondary Highway and the D. W. Graves Road. The Engineer reported that a careful traffic engineering investigation had been made and from the facts disclosed concerning roadside culture, amount and speed of traffic, and other conditions, it appeared that conditions do not at this time warrant the installation of a flashing beacon and he recommended that the request be denied. The Engineering investigation, he stated, did reveal that it would be advisable to establish a 35 mile per hour speed zone from a point 250 feet north of the north end of the Milk Creek Bridge at M.P. 25.42 to a point 0.11 mile south of Passmore Road at M.P. 25.82, with the exception that a 20 mile per hour speed zone be indicated from M.P.25.57 to M. P. 25.77 during the hours of school crossings. The Commission approved the Engineer's recommendations and thereupon adopted the attached resolution relative therto marked EXHIBIT "H-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Also considered was a request made by the city of Forest Grove for the installation of traffic signals at the intersection of Pacific Avenue (ORE Rt. 6) and Cedar Street at the easterly edge of Pacific University campus. This request, the Engineer stated, was investigated by the Traffic Engineer, and it was found that traffic volumes are too low to warrant the installation of the traffic signals. It was also found that the relatively high accident ratio at this location appears to be caused to a degree by sight restriction in the northwest quadrant of the intersection, and conditons could be improved materially if parking could be prohibited at this location. He recommended that the request for traffic signals be denied and if the city will prohibit parking on the north side of Pacific Avenue from the west property line of Cedar Street to a point fifty feet west thereof, that the Commission concur in such action. The Commission accepted his recommendations.

The Engineer requested authority to rent an IBM 650 Electric Data Processing Machine to facilitate consolidation of functions in the several sections now using IBM equipment. He stated that for several months a survey has been under way to determine the feasibility of installing additional electric computers in the Salem office. Several makes of equipment were carefully evaluated. The cost of the proposed installation would result in a net increase in rental of $3,190 per month, or a total expenditure for the present and proposed equipment in the amount of $6,790. In order to get full use of the new machine and to coordinate the work of the various divisions, it is proposed to consolidate all of the functions of the various sections now using IBM equipment into a single data processing section. It is anticipated that considerable work can be performed for other state or governmental agencies on a fee basis, and installation of this equipment will effect a material saving in engineering manpower. The state of Washington, he added, is making a similar installation and he recommended that this installation be approved. The Commission approved the installation.

The Engineer requested and the Commission granted increases in contract project authorizations as follows:

1. An increase of $62,000 on Contract No. 4324 on the Siletz Bay-Depoe Bay Unit of the Oregon Coast Highway in Lincoln County. Additional culvert capacity and additional base rock were the principal causes of the overrun.

2. An increase of $32,000 on Contract No. 4576 for grading and paving the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway in Coos County. This overrun was caused by subsidence of fill foundations with the resultant increase in base material to compensate for the settlement.

3. An increase of $83,000 on Contract No. 4359 for surfacing and paving on the Goshen-Cottage Grove Section of the Pacific Highway. The need for an elaborate subdrainage system near the Kuni Undercrossing and additional surfacing materials to stabilize the grade because of unstable soils were the principal causes of the overrun.

4. An increase of $20,000 on Contract No. 4646 for grading and paving the Chehalem Mountain-Newberg Section of the Hillsboro-Silverton Secondary Highway in Yamhill County. Principal causes of the overrun were a requirement that the state pay 90 per cent of the cost of railroad crossing signals and an increase in the depth of surfacing to stabilize the roadbed.

5. An increase of $7,900 on Contract No. 4600 for work on the Ross Island Bridge On-ramp Section of the Pacific Highway East, Multnomah County. Major cause of the overrun was the constuction of additional median islands to restrict left-turn movements and an increase in grading costs because of inferior materials

6. An increase of $22,000 on Contract No. 4754 for work on the Oswego Section of the Country Club Road and "A" Road, Clackamas County. The additional cost on this project was caused by the necessity to construct a storm sewer from Fourth Street to State Street. The increase is subject to concurrence by the Bureau of Public Roads.

The Engineer requested authority to expend $24,000 to construct a quarter-mile section of new highway from the intersection of the relocated North Santiam Highway and Airport Road westerly to Mission Street in Salem. He pointed out that when the North Santiam Section had been constructed a temporary connection had been made from the new section to State Street. The great increase in traffic at the intersection of the relocated North Santiam Highway and Airport Road has resulted in a very material hazard to traffic. He pointed out that approximately 4,000 vehicles enter this intersection daily, including a considerable number of log trucks. To correct this condition, he proposed to build a new section of highway, extending westerly from the Airport Road to a connection with Mission Street near the east city limits of Salem. He

recalled that many requests have been received from the State Police, the County Court, and the trucking industry for correction of the present interchange. The Commission approved the request as a State project in the 1957 budget. In discussing this matter, the Engineer also pointed out that the Marion County Court has agreed to maintain the new section after it is constructed.

The Commission considered the Engineer's recommendation to enter into an agreement with the U. S. Geological Survey for a one-year continuation of a previous agreement concerning the measuring of flood runoff waters from certain drainage areas in Oregon. The Engineer recalled that a similar type of agreement had first been entered into in 1951 and had been extended from year to year since that time. From the results of these studies, valuable data have been obtained in determining the size of culverts and other drainage structures needed in highway construction. The Bureau of Public Roads, he continued, has requested continuation of the study as the data obtained will be valuable in construction on the Federal Interstate Highway Program. The Commission approved extension of the agreement for one year and authorized the expenditure of $5,000 as the State's share.

An agreement with the City of Reedsport was considered concerning illumination, installation of signals, and channelization at the intersection of Winchester Avenue and the Oregon Coast Highway in Reedsport. The proposed work, the Engineer stated, is needed for the safety and convenience of the traveling public, and the City has agreed to pay one-half the cost of the project, which is estimated at $1,500. The State is to construct the channelization work. The City has also agreed to maintain and operate the signals and the luminaire units after installation. Upon favorable recommendation of the Engineer, the Commission approved the agreement.

The Commission gave attention to a request for an increased expenditure in cooperation with Klickitat County, Washington; Sherman County, Oregon; and the Washington Toll Bridge Authority for an additional traffic survey concerning the potentialities of the proposed Columbia River Bridge at Biggs Rapids. The Engineer recalled that in September 1955, the Commission entered into an agreement with these parties to cooperate in an amount not to exceed $6,000. In June, 1956, a report was made by N. W. Haner and Associates. The Tudor Engineering Company, who were consultants for the Columbia River Bridge at The Dalles, made a later report to Wasco County with a much more unfavorable forecast than was given in the Haner report. In view of the conflicting reports, the two Counties and the Washington Toll Bridge Authority cannot proceed until the differences are reconciled. The Engineer commented that the State has already expended the sum of $3825, and he recommended that the Commission participate to an amount of not more than $9,000 total instead of the $6,000, as first agreed. The Commission authorized the additional expenditure if it is required.

The Engineer presented a proposed agreement with the Coos Bay-North Bend Water Board covering the cost of rearranging the Water Board's facilities in construction of the Virginia Avenue and Broadway project in North Bend. The Engineer stated that the total cost of the facilities project is estimated at $16,892.28 and that of that total, labor is estimated to cost $5,100. He recommended that the agreement be approved, in which the State will pay the cost of the labor. The Commission approved the agreement.

Consideration was given to a letter from Robert F. Dwyer, Treasurer of the Pacific Logging Congress, for a study of the probable cost to bring the Estacada-Portland Highway and other highways in the state to a standard necessary to carry 40,000 pound dual-axle loads. The Engineer pointed out that even though it might not be illegal, it would be inimical to the best interests of the State to expend state funds in making a survey to carry loads which under present law are illegal. He recommended against the expenditure of any state moneys to conduct a survey of this nature. The Commission approved his recommendation. In the discussion of this matter, Commissioner McIver commented that he had heard that it was the intention of the Logging Congress to pay for the extra construction cost for the heavier load on a test section of road. Commissioner Reynolds observed that if such a road were to be constructed to allow heavier traffic, there would be an immediate demand to reconstruct all existing highways to the same standard. The Engineer called attention to the fact that Federal-aid funds would probably not be available for construction of highways for the heavier loads. Such construction would also require immediate reconstruction on a great number of bridges. Commissioner McIver suggested that the Engineer advise Mr. Dwyer concerning the results of the road test conducted at Malad, Idaho, as he felt that the results of that test would probably solve the question in the minds of the Logging Congress people as to the additional cost of the type of road they had requested.

The Engineer presented for the Commission's consideration, a proposed budget covering the operations of the Highway Department for the year 1957. He outlined briefly the principal divisions of the budget as follows:

	Original Budget 1956	Estimated Expenditures 1956	Proposed Budget 1957
Construction	$29,500,000	$30,650,000	$30,550,000
Purchases of Rights of Way	3,500,000	6,000,000	8,000,000
Other Capital Outlays (Net)	c 4,641,000	4,869,000	5,384,000
Maintenance	11,940,000	12,596,000	12,442,000
Operations	5,124,980	5,130,000	6,574,000
Service & Clearing Accounts	-	100,000Cr.	-
Debt Service	5,327,000	5,327,000	5,207,000
Totals	$60,032,980	$64,472,000	$68,157,000

November 8, 1956

He called attention to an increase of $1,444,000 in the proposed operations budget and explained the causes for this overrun as outlined in the following summary:

	Estimate 1956	Proposed 1957	Over 1956 Estimate
Administration and General Supervision	$2,176,000	$2,558,000	$ 382,000
Planning and Traffic Surveys	505,000	718,000	213,000
Truck Load Inspection	425,000	577,000	152,000
Social Security and Retirement Fund Contributions	662,000	740,000	78,000
Increase in Revolving Fund	-	500,000	500,000
Eighteen Other Items of Expense	1,362,000	1,481,000	119,000
Total	$5,130,000	$6,574,000	$1,444,000

The increase of $382,000 in the administrative division, he stated, is due primarily to salary increases effective September 1, 1956, and the authorization for 24 additional employees. The estimated cost of planning surveys has also been increased by $213,000 due to additional federal funds. The proposed budget for truck load inspection has also been increased $152,000 as a result of 23 additional weighmasters as recommended by the Highway Interim Committee.

Chairman Chandler stated he had examined the budget carefully, and there should be added to the budget for purchase of equipment, one large center-striping machine. He pointed out that the traveling public demands that center stripes be bright at all times and it was his feeling that the equipment now on hand is not sufficient. Upon the motion made by Commissioner Reynolds, seconded by Commissioner McIver, and declared unanimous by Chairman Chandler, the Commission approved the budget as presented and ordered that an additional center-striping machine be purchased. (For details see copy of the budget filed in the Commission's files in Salem.)

Consideration was given to resolutions from the Klamath County Court and the Jackson County Court requesting that the Little Butte State Secondary Highway be extended to a connection with the Klamath Lake Secondary Highway, and that the Commission intercede in behalf of the counties to secure designation of this highway as a Forest Highway. The Engineer commented that the length of the section from the west forest boundary to the Rocky Point junction of the Klamath Lake Secondary Highway is approximately 25 miles, and that the western portion between the forest boundary and the Klamath-Jackson County line presently is on the State Secondary Highway System; however, it is not improved and should be included as a portion of the Forest Highway System. He felt that this is a meritorious project and that with the larger amount of Forest Highway funds now available, it might be possible to close the gap between the two secondary state highways in a four or five year period. He therefore

recommended that the Commission approve the request of the County Courts and petition the Bureau of Public Roads and the United States Forest Service to place the road on the Forest Highway System.

In the discussion of this matter, Chairman Chandler recalled a tenative agreement with the Klamath County Court, that the State would take over this section of road as a State Secondary Highway as far east as Rocky Point, if Klamath County would take over the Klamath Lake Secondary Highway from Rocky Point north to Fort Klamath. As a result of the discussion, the Commission decided unanimously to extend the Little Butte Secondary Highway to a connection with the Klamath Lake Secondary Highway on the condition that Klamath County will take over the Klamath Lake Secondary Highway north from Rocky Point; also, to ask the federal authorities to place the highway on the Forest Highway System.

Attention was given to a petition from residents of Halfway and vicinity concerning rerouting of the Baker-Homestead Highway from Richland to Halfway, thence down Pine Creek to Oxbow on the Snake River, and also concerning rerouting of the present highway between Oxbow and Brownlee Bridge, which section will be inundated upon completion of the Oxbow Dam. Action was deferred in this matter pending the decision of the legislature on rerouting the highway.

The Engineer requested authority to cooperate with the city of Salem in remodeling the traffic signal at the intersection of the Pacific Highway East with Silverton Road and Highland Avenue. He recalled that several years ago the State had cooperated with the City in the original installation of the signal. Increased traffic at this intersection has demonstrated the need for installing three-phase fully actuated signal controller, which he estimated would cost $2600. He recommended that the State cooperate in the remodeling and share one-half the cost, or $1300, provided that the City will pay the other one-half. The Commission accepted his recommendation.

Consideration was given to requests from Benton, Gilliam, Hood River, Lake, Marion, Multnomah and Wasco Counties for additions to the Federal Aid (County Road) Secondary Highway System, totaling 83.8 miles. The additional mileage, the Engineer stated, has been reviewed by representatives of the Bureau of Public Roads and appears to qualify from the standpoint of service and importance within the counties. He recommended, and the Commission approved the following additions to the Federal Aid System:

Benton County: FAS 206, 4.7 miles, an extension from the present westerly terminus at Beaver Creek School, westerly to a junction with the Alsea Highway approximately 6 miles southwest of Philomath.

Gilliam County: FAS 714, 18 miles, extending from the Columbia River at Blalock southerly to FAS 440 at Mikkalo; FAS 720, 18 miles, extending from the John Day Highway south of Condon, easterly to a county road junction at the CK&S railroad tracks.

Hood River County: FAS 700, 1.1 miles, extending from the Hood River Secondary Highway southerly to FAS 662; FAS 701, 6.3 miles, extending from the Mt. Hood Highway approximately 2 miles south of the city of Hood River, thence southerly, westerly and northerly to FAS 115, approximately 5 miles south of Hood River; FAS 702, 0.6 mile, extending from the Mt. Hood Highway easterly to FAS 701; FAS 703, 3 miles, extending from FAS 305 east of Odell, southerly and easterly to FAS 661.

Lake County: FAS 699, 2.2 miles, extending from the Warner Secondary Highway at Adel, southerly to a county road junction approximately 2.2 miles south of Adel.

Marion County: FAS 734, 7.5 miles, extending from the Pacific Highway East, near Chemawa, easterly to the Hillsboro-Silverton Secondary Highway east of Silverton; FAS 735, 5.7 miles, extending from FAS 159 near Concomly, thence westerly and southerly to FAS 592 near Clear Lake; FAS 738, 10.5 miles, extending from the North Santiam Highway in Salem, easterly via Pratum, to FAS 130 south of Silverton; FAS 739, 9 miles, extending from FAS 679 at Four Corners east of Salem, thence easterly to FAS 130; FAS 742, 5.5 miles, extending from the Pacific Highway East in Salem, southerly via Lincoln, to a road junction at Bunker Hill.

Multnomah County: FAS 726, 1.1 miles, extending from the Columbia River Highway between Linnton and Burlington, thence southwesterly to Skyline Boulevard east of Portland; FAS 727, 2 miles (1.1 miles county road and 0.9 mile state highway) extending from the Airport Administration Buildings at the Portland Airport, southerly to the intersection of N. E. 82nd Avenue (Cascade State Highway) with N. E. Sandy Boulevard. The section from the Airport to Columbia Boulevard will be a county road on a new location, and the section from Columbia Boulevard to Sandy Boulevard is along the present route of the Cascade Secondary Highway.

Wasco County: FAS 311, 5 miles, extension of an existing road from the present terminus south of Wamic, southwesterly to a road junction at the north side of the White Horse River Canyon.

The Engineer presented a number of proposed construction projects on the County (FAS) System for 1958 and 1959 for the counties of Benton, Gilliam, Hood River, Jackson, Lake, Marion, Multnomah, Polk and Wasco. If these projects are approved, he stated, there will still remain an unprogrammed county (FAS) fund balance in the amount of $5,243,000 for the 1958-1959 programs. He pointed out that with the exception of the projects in Jackson and Polk Counties, the projects requested are on additions to the County (FAS) Systems previously approved at this meeting. He recommended and the Commission approved the following projects:

ADDITIONAL PROPOSED 1958 AND 1959 COUNTY FAS PROJECTS
(Supplemented with Unobligated 1957 Funds)

County	FAS Hwy. No.	Section & Description	Programed Amount	FAS Fund
Benton	206	Alsea Highway-Beaver Creek School, 4.7 miles. Grade and surface.	$ 150,000	'57 & '58
Gilliam	714	Rock Creek Bridge, structure only.	$ 15,000	'57 & '58
	720	Thirtymile Creek Bridge, structure only.	15,000	'57 & '58
		Subtotal, Gilliam County.	$ 30,000	
Hood River	662, 700	Parkdale Road Section, 2 miles.		
	701	Neal Creek Road, 1.2 miles.		
	702	Glass Road, 0.6 mile.		
	703	"Y" East Drive and Central Vale School section, 1.5 miles. Grade, surface, and oil.....	$ 133,000	'57 & '58
Jackson	273	Gregory Road-Central Point Road, 1.5 miles. Regrade, surface, and pave	$ 70,000	'57 & '58
	274	Jacksonville-North, 2.4 miles. Regrade, surface, and pave.	100,000	'58
	274	Table Rock Road-Crater Lake Highway, 1.5 miles. Regrade, surface, pave.	60,000	'59
		Subtotal, Jackson County.	$ 230,000	
Lake	699	Deep Creek Bridge, structure only.	$ 37,000	'57 & '58
Marion	735	Hopmere Road-McNary "Y", 2.8 miles. Regrade, surface, and pave.	$ 80,000	'57 & '58
	739	Four Corners-Geer Station, 4.2 miles. Regrade, surface, pave.	175,000	'58
	738	Pudding River, Beaver Creek, and Pratum Junction Bridges (3).	60,000	'59
	734	Pudding River Bridge, structure only.	35,000	'59
	742	Browning Avenue-Rosedale, 3 miles. Regrade, surface, and pave.	120,000	'59
		Subtotal, Marion County	$ 470,000	

November 8, 1956

ADDITIONAL PROPOSED 1958 AND 1959 COUNTY FAS PROJECTS
(Continued)

County	FAS Hwy. No.	Section & Description	Programed Amount	FAS Fund
Multnomah	638	102nd Avenue-122nd Avenue, 1.2 miles. Grade and pave.	$ 155,000	'57 & '58
	726	Newbury Road Section, 1.1 miles. Grade and pave.	167,000	'58
	727	Airport-Columbia Boulevard, 1.1 miles. Grade and pave.	200,000	'59
	654	Division Street-Powell Valley Road, 1.4 miles. Grade and pave.	100,000	'59
		Subtotal, Multnomah County	$ 622,000	
Polk	560	Airlie-Suver, 4 miles. Grade and surface.	$ 100,000	'57 & '58
Wasco	311	Rock Creek and Gate Creek Sections. Grade and structure	$ 70,000	'57 & '58
		TOTAL.....	$1,842,000	

SUMMARY BY FISCAL YEARS:

	1957 & 1958	1959	Total
Available September, 1956	$4,443,000	$3,800,000	$8,243,000
Previously Approved	1,158,000	--	1,158,000
Unprogramed Balance	$3,285,000	$3,800,000	$7,085,000
Proposed Projects, 10/29/56..	1,267,000	575,000	1,842,000
Unprogramed Balance.....	$2,018,000	$3,225,000	$5,243,000

The Commission considered and, upon recommendation of the Engineer, granted the following extensions of time within which to complete state highway contracts. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of these extensions was waived by the Commission:

1. T. W. Thomas, Contract No. 4740, for paving Nachez & "F" Streets in the city of Vale in Malheur County, requested an extension of time from September 15, 1956 to October 15, 1956. Approved to September 21, 1956, the actual completion date of the contract.

2. E. H. Itschner Company, Contract No. 4601, for rock production on the Weston-Elgin Section of the Weston-Elgin Highway in

Umatilla and Union Counties, requested an extension of time from August 15, 1956 to October 31, 1956. Approved to September 25, 1956, the actual completion date of the contract.

3. Harbert Brothers, Contract No. 4662, for slide correction on the Shady-Booth Ranch Section of the Pacific Highway in Douglas County, requested an extension of time from July 31, 1956 to August 30, 1956. Approved as requested.

4. Fred J. Stubbert, Contract No. 4482, for guardrail on the Willamette River-Hayesville Section of the R. H. Baldock Freeway in Marion and Clackamas Counties, requested an extension of time from July 1, 1956 to October 1, 1956. Approved to September 27, 1956, the actual completion date of the contract.

5. Vernie Jarl, Contract No. 4739, for grading and oiling on the Van Sycle-Helix Section of the Helix-Van Sycle Road in Umatilla County, requested an extension of time from August 31, 1956 to October 15, 1956. Approved to September 28, 1956, the actual completion date of the contract.

6. J. N. Conley, Contract No. 4724, for grading on the Humbug Summit Section of the Sunset Highway in Clatsop County, requested an extension of time from August 31, 1956 to October 1, 1956. Approved to Setpember 25, 1956, the actual completion date of the contract.

7. Central Paving Company, Contract No. 4547, for grading and paving the East Unit, Eagle Rock-Post Section of the Paulina Secondary Highway in Crook County, requested an extension of time from August 31, 1956 to October 15, 1956. Approved to September 29, 1956, the actual completion date of the contract.

8. Porter W. Yett, Contract No. 4539, for paving the Fairfield Junction-Hopmere Section of the North River Road in Marion County, has requested an extension of time from July 31, 1956 to October 31, 1956. Approved to October 4, 1956, the actual completion date of the contract.

9. Erickson Paving Company, Contract No. 4133, for grading the Little Creek-Estacada Section of the Woodburn-Estacada Highway in Clackamas County, has requested an extension of time from November 15, 1954 to August 22, 1956. Approved as requested.

10. Porter W. Yett, Contract No. 4559, for grading and paving the Beaverton (Highway Junction-12th Street) Section of the Beaverton-Aurora Highway in Washington County, requested an extension of time from August 31, 1956 to October 31, 1956. Approved to October 3, 1956, the actual completion date of the contract.

11. Pettijohn Engineering Company, Contract No. 4578, for bridge construction on the Nehalem River (Birkenfeld) Bridge Section of the Nehalem Highway in Columbia County, requested an extension of time from October 31, 1956 to November 30, 1956. Approved as requested.

12. Hamilton & Thoms, Contract No. 4556, for construction of the Dayton Bridge over the Yamhill River on the Three Mile Lane Secondary Highway in Yamhill County, requested an extension of time from September 30, 1956 to December 15, 1956. Approved as requested.

13. Cartwright Construction Company, Contract No. 4700, for grading and stone base on the Barnes Butte Road Section of the Barnes Butte County Road in Crook County, requested an extension of time from July 31, 1956 to October 13, 1956. Approved to October 10, 1956, the actual completion date of the contract.

14. Hill A. Lind, Contract No. 4617, for grading the Short Creek Section of the Cape Mears Loop Highway in Tillamook County, requested an extension of time from August 31, 1956 to October 31, 1956. Approved to October 10, 1956, the actual completion date of the contract.

15. United Contracting Company, Contract No. 4696, for paving Winchester Avenue in the city of Reedsport in Douglas County, requested an extension of time from September 30, 1956 to October 10, 1956. Approved to October 6, 1956, the actual completion date of the contract.

16. Umpqua River Navigation Company, Contract No. 4736, for grading and paving Galligher Street in the city of Florence in Lane County, requested an extension of time from September 15, 1956 to October 15, 1956. Approved as requested.

17. Babler Bros., Inc., Contract No. 4707, for reoiling and rock production on the Burns-Crooked Creek-Jordan Valley Section of the I.O.N., Burns-Crane, Crane-Scotts Butte and Jordan Valley Highways in Malheur and Harney Counties, requested an extension of time from August 31, 1956 to October 30, 1956. Approved to October 18, 1956, the actual completion date of the contract.

18. Roger E. Holmes, Contract No. 4693, for construction of the Klaskanine River Bridge on the Youngs River Loop in Clatsop County, requested for an extension of time from September 30, 1956, to November 15, 1956. Approved as requested.

19. Lee Hoffman, Contract No. 4521, for construction of the Siletz River Bridge on the Siletz Highway in Lincoln County, requested a second extension of time from October 31, 1956 to December 15, 1956. Approved as requested.

20. Trowbridge Electric Company, Contract No. 4689, for traffic-signal installation on the Hillsboro Section of the Tualatin Valley Highway in Washington County, requested a second extension of time from September 29, 1956 to November 28, 1956. Approved as requested.

21. The United Contracting Company, Contract No. 4671, for paving Park Street in the city of Rockaway, requested an extension of time from September 15, 1956 to October 5, 1956. Approved to September 26, 1956, the actual completion date of the contract.

22. A. T. Fox, Contract No. 4773, for grading and paving 8th Street-14th Street in the City of Coos Bay on the Empire-Coos Bay Highway in Coos County, requested an extension of time from September 30, 1956 to November 1, 1956. Approved to October 22, 1956, the actual completion date of the contract.

23. Allum Bros., Contract No. 4569, for surfacing and oiling Westside-Dry Creek Section of the Westside Road in Lake County, requested an extension of time from July 31, 1956 to October 9, 1956. Approved as requested.

24. J. C. Compton Company, Contract No. 4598, for grading and paving Basque Maintenance Station-McDermitt Section of the I.O.N. Highway in Malheur County, requested an extension of time from September 1, 1956 to December 1, 1956. Approved to September 14, 1956, the actual completion date of the contract.

25. Allum Bros., Contract No. 4422, for grading and surfacing the S. E. Stark Street-Powell Valley Road Section of the East Burnside Road in Multnomah County, requested an extension of time from September 30, 1955 to October 31, 1956. Approved as requested.

26. Hill A. Lind, Contract 4617, for grading the Short Creek Section of the Cape Mears Loop Highway in Tillamook County, requested an extension of time from August 31, 1956 to October 31, 1956. Approved to October 10, 1956, the actual completion date of the contract.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Commission also considered and upon recommendation of the Engineer took action on the following requests for increases in the number of work days specified for the completion of certain state highway contracts:

1. Henry H. Miller, Contract No. 4750, for slide correction on the West Unit, Reedsport-Dean Creek Section of the Umpqua Highway in Douglas County, requested an increase of 6 work days from 30 days specified in the contract to 36 days actually required. The Commission approved the request.

2. A. T. Fox, Contract No. 4784, for grading and paving the Broadway-Front Street Connection (Coos Bay) Section of the Oregon Coast Highway in Coos County, requested an increase of 6 work days from the 20 days specified in the contract to 26 days actually used. The Commission denied the request and ordered collection of fixed and liquidated damages as specified in the contract.

3. Babler Bros., Inc., Contract No. 4747, for rock production in Division IV sand and material project on the Ochoco, The Dalles-California, and the Santiam Highways in Crook and Deschutes Counties, requested an increase in the number of work days from 59 days as specified in the contract to 62½ days actually used. The Commission denied the request and ordered collection of fixed and liquidated damages as specified in the contract.

4. C. E. Leseberg, Contract 4794, for grading and paving the Verde-S. W. 11th Street Section in Ontario, Malheur County, requested an increase of 3 work days from 20 days specified in the contract to 23 days actually used. The Commission denied the request and ordered collection of fixed and liquidated damages as specified in the contract.

FOOTNOTE: The action taken by the State Highway Commission upon the requests for increases in number of work days specified for completion of the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests. For details regarding these matters, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract numbers 4248, 4298, 4422, 4434, 4466, 4482, 4502, 4523, 4539, 4547, 4559, 4568, 4569, 4577, 4582, 4598, 4601, 4607, 4617, 4621, 4624, 4655, 4662, 4670, 4671, 4696, 4697, 4700, 4702, 4717, 4719, 4723, 4724, 4731, 4736, 4739, 4740, 4748, 4753, 4757, 4763, 4764, 4773, 4780, 4784, 4785, 4789, 4791, 4793, 4794, and 4800 for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer commented on the prevailing speeds as driven by motorists on the R. H. Baldock Freeway between Barbur Boulevard and Salem. Subsequent to the installation of signs indicating a maximum speed of 70 miles per hour, he said, the maximum recorded speed dropped from 105 to 85 miles per hour, and the average speed is now between 61 and 70 miles per hour.

Consideration was given to a proposed agreement with the U. S. Bureau of Public Roads for center-line painting on the Cascade Lakes Highway. This agreement, the Engineer explained, has been requested by the Bureau as they do not have the necessary equipment. Painting of a center line over approximately 20.69 miles is proposed and the Bureau of Public Roads agrees to pay the entire cost of such painting provided the charge shall not exceed a maximum of $700. The Commission approved the agreement.

The Commission gave attention to a request from Mr. Irvine French, Director, Fish Culture, State Game Commission, for a reduced speed zone on the North Santiam Secondary Highway near Marion Forks. The Engineer reported that the request was carefully investigated and because of the lack of roadside culture and the not excessive prevailing speeds, it is his recommendation that the request be denied. The Commission approved the recommendation.

The Engineer reported that the State Speed Control Board at its meeting September 21, 1956, took action to establish school zone exceptions in the speed zone on the Pacific Highway East in the city of Albany. There is one school crossing at the west city limits and to provide a 20 mile per hour exception for this crossing, it will be necessary to extend the existing speed zone into the rural area. He therefore recommended that a 45 mile per hour speed zone be established between the west city limits of Albany, M.P. 76.20, and a point 0.14 mile west thereof, M. P. 76.34, except that between M.P. 76.20 and M.P. 76.28, the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that on April 6, 1943, a 15 miles per hour speed zone was established on the Woodburn-Estacada Secondary Highway between M.P. 7.61 and M. P. 7.91, near Hamricks Corner. Signs denoting this speed were removed years ago and the existing 85 percentile speeds are near 45 miles per hour. Because of the existing traffic conditions, he recommended that the 15 miles per hour speed zone be rescinded. The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Out-of-state travel authorization was requested by the Engineer, and authorized by the Commission, for Mr. Mark Astrup, Landscape Engineer, and G. S. Paxson, Assistant State Highway Engineer, to attend the annual meeting of the Highway Research Board in Washington, D. C., January 7-11, 1957, at an estimated cost of $360 for each person. Upon the recommendation of the Engineer, the Commission also authorized the attendance of Mr. David Schoppert at this same meeting but his expenses are to be paid by the Highway Research Board.

The Engineer reported that a new highway section known as the Elkhead Road-Rice Hill Unit on the Pacific Highway in Douglas County had been completed and opened to public travel. The old section of the road replaced by the new one is no longer required as a part of the highway and he recommended that it be formally abandoned to Douglas County as provided in the terms of an abandonment agreement previously executed with the county. The Commission approved the abandonment by adopting the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given to a request submitted by H. Brelage, North Bend, owner of the Bay Bridge Motel, for modification of a Land Use Permit granted to him by the State to allow establishment of a small restaurant in connection with his motel at the north end of the Coos Bay bridge on the Oregon Coast Highway in Coos County. The Engineer reported that Mr. Brelage has not done as well financially in his new motel as expected, and he wishes to construct a restaurant building on his own land to encourage motel trade. This would involve a change in the Land Use Permit that he now holds from the State, and which at present calls for use of the land for a lawn. Mr. Brelage wishes to make a cut in the curb and would like permission to gravel and blacktop a section to provide parking space. Chairman Chandler commented that in his opinion, the existing lease with Mr. Brelage should be re-examined to see if an equitable solution could be arranged. The Right of Way Engineer was instructed to contact Mr. Brelage.

The Commission discussed with the Engineer bids received at the morning session and at 3:00 P.M. Commissioner McIver announced awards of contracts as follows:

"Grading, paving, and highway illumination on the Cannon Beach Junction Section of the Sunset and Oregon Coast Highways in Clatsop County. The Commission awarded the contract to Eugene Gardens, Eugene, who submitted the low bid at $19,970.10.

"Construction of South Fork Yachats River Bridges No. 1 and 4 on the Yachats River Road in Lincoln County. All bids were referred to Lincoln County for award as this is a county project.

"Construction of latrine in Beverly Beach State Park on the Oregon Coast Highway in Lincoln County. The Commission awarded the contract to Lee-Built Homes & John D. Bachman, Springfield, who submitted the low bid at $6,569.00.

"Construction of a latrine in Fogarty Creek State Park in Lincoln County. The Commission awarded the contract to Lee-Built Homes & John D. Bachman, Springfield, low bidder, at $6,980.00.

"Construction of Newberg-Gerin Corner Structures, including a bridge over the Willamette River, on the Hillsboro-Silverton Highway in Marion and Yamhill Counties. The Commission elects to accept the bid of Manson Construction & Engineering Company, Seattle, low bidder, in the sum of $1,187,980.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Construction of masonry block addition to Maintenance Building in North Portland in Multnomah County. The Commission awarded the contract to H. A. Starr Concrete, Inc., Portland, at their low bid price of $8,610.00.

"Grading and paving on the Hinkle-Bucks Corner Section of the Hermiston Highway in Umatilla County. The Commission elects to accept the bid of L. W. Vale Company, Inc., Pasco, Washington, in the sum of $61,042.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading, paving, and construction of a concrete structure on the Chenoweth Creek-The Dalles Section of the Columbia River Highway in Wasco County. The Commission elects to accept the bid of Roy L. Houck & Sons, Salem, in the sum of $632,586.00, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Co nstruct a bridge over Mill Creek and a grade separation structure at Sheridan on the Valley Junction-Sheridan Section of the Salmon River Highway in Yamhill County. The Commission awarded the contract to Tom Lillebo Construction Company, Reedsport, who submitted the low bid at $96,533.50.

"Grading and paving the 17th Street-Cozine Creek (Adams Street, McMinnville) Section of the Pacific Highway West (southbound) in McMinnville, in Yamhill County. The Commission elects to accept the bid of Perkins. Bros., Portland, in the sum of $222,778.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

The Commission approved the Secretary's report of papers signed by him in behalf of the Commission during the period of September 25, 1956, to November 8, 1956.

The Commission confirmed Monday and Tuesday, December 17 and 18, 1956, as the date for its next regular meeting and instructed the Secretary to make the usual arrangements for use of the Queens Room in the Imperial Hotel in Portland. The Commission also tentatively set Thursday and Friday, January 24 and 25, 1957, as the date for its next following meeting.

November 8, 1956

Consideration was given to the erection of an historical marker on the South Santiam Highway at Lost Prairie honoring a group of early pioneers who camped there while searching for a cattle trail over the Cascade Mountains. The Engineer advised that the Memorials Committee of the Oregon Historical Society has approved such marker and has prepared a text to be inscribed thereon. He recommended that the text be approved and that he be authorized to erect the text board at a cost of approximately $350. The Commission approved the erection of the text board to contain the following inscription:

"OREGON HISTORY"
Lost Prairie

"LOST PRAIRIE WAS NAMED BY A GROUP OF WILLAMETTE VALLEY SETTLERS WHO CAMPED HERE IN APRIL 1859 WHILE SEARCHING FOR A CATTLE TRAIL OVER THE CASCADE MOUNTAINS TO CENTRAL OREGON PASTURES. THE EXPEDITION WAS LED BY ANDREW WILEY. TO REASSURE LESS STOUT-HEARTED MEMBERS WHO FELT THE PARTY WAS LOST, WILEY CLIMBED A TREE ON A NEARBY MOUNTAIN AND WAS THE FIRST WHITE MAN TO VIEW THE SANTIAM PASS FROM THE WEST SIDE OF THE MOUNTAINS.

WILEY LATER SERVED AS CHIEF LOCATOR FOR THE WILLAMETTE VALLEY AND CASCADE MOUNTAINS ROAD PROJECT IN 1866 AND 1867."

The Engineer brought up for discussion the request from the Lane County Court that the State deed to the County a portion of the Patterson gravel bar between Eugene and Springfield which they want to use as a site for a proposed juvenile home. The Lane County Commissioners, he stated, have now presented an alternate proposal in the form of an exchange of land. The County has secured an option to purchase for $20,000, a 13.5-acre parcel adjoining the State's property, but closer to the Willamette River, and they propose to exchange this 13.5-acre parcel for 15 acres of the Patterson bar land. This exchange, he stated, appears to be fair in that it will not injure the State in any manner and will provide a suitable site for the juvenile home. He recommended that the exchange be made, provided the material contained in the parcel offered by the County is suitable for road-building purposes. The Commission approved the exchange on the conditional basis offered by the Engineer.

A request from Coos Bay longshoremen for measures to protect pedestrians at the Al Pierce Lumber Company on the Oregon Coast Highway between Coos Bay and North Bend was presented by the Engineer. This matter, he stated, has been investigated and it was found that a crosswalk, crosswalk signs, and lights are needed to provide safety for pedestrians. However, the pedestrians are nearly all employees of the Lumber Company and it appears that the Lumber Company should cooperate in the improvement which is estimated to cost $1,000. After some discussion, the Commission agreed to make the installations as mentioned by the Engineer, provided the Al Pierce Lumber Company will contribute $500.00 toward the expense involved.

A request from the town of Fairview was presented by the Engineer concerning their request for a traffic interchange with the Banfield Expressway in Multnomah County. He exhibited a map showing the location of the requested interchange and pointed out the close proximity to the railroad would make the interchange very costly. He recommended that the request be denied and he advised that the Fairview city officials may request an appearance before the Commission at a later date. The Commission took no action on the matter.

Assistant Highway Engineer, Mr. W. W. Stiffler, stated that a trial run had been conducted with 60' truck and trailer equipment over the Albany Airport Highway, No. 214, and it was found that the equipment could negotiate the highway on the proper side of the center line. A request has been received to classify this as a Group I highway, and in view of the results of the test, he stated that such action has been taken under authority previously granted by the Commission. The Commission confirmed the Engineer's action.

The Commission discussed with the Engineer, matters to be presented by delegations on the following day, particularly the Outdoor Advertising Association of Oregon and the Oregon Motor Court Association concerning Miscellaneous Resolution No. 190a pertaining to the acquiring of advertising rights on private property. The Chief Counsel stated that after a careful examination of the statutes it appears that the Commission does not have legal authority to acquire rights on private property which would prohibit outdoor advertising signs. He recalled that at the 1955 session of the Legislature, a bill was introduced which would give the Commission such authority but it failed to pass. The Right of Way Engineer pointed out that under the option forms now in use an attempt is made to get the property owner to agree to voluntarily prohibit advertising on his remaining property. The Engineer called attention to a situation in which a property owner who had voluntarily agreed to prohibit advertising might be placed at a financial disadvantage if his neighbor who had not agreed to prohibit advertising should sell advertising rights. Commissioners Reynolds and McIver both expressed the thought that the Commission should not attempt to assume authority which the Legislature has not seen fit to grant. Commissioner Reynolds thereupon made a motion that Miscellaneous Resolution No. 190, adopted

March 1, 1956, and Resolution No. 190a, adopted July 26, 1956, be rescinded. Commissioner McIver seconded the motion and it was declared unanimous by Chairman Chandler. The attached resolution rescinding both resolutions, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was adopted by the Commission unanimously.

The matter of relocating power and telephone facilities when highway construction is undertaken was also discussed. The Engineer pointed out that under the existing law, power and telephone companies are granted the right to install their facilities on highway right of way but are required to pay the cost to move them when highway reconstruction is undertaken. He stated that as far as he knew, the delegation to appear on the following day would ask the Commission not to resist a change in this law which they plan to sponsor, which would provide that the State pay the cost of moving the power and telephone lines when required by construction. The Chief Counsel pointed out that the only utilities concerned are the power and telephone companies which are allowed use of the right of way by law whereas, other utilities, such as gas and water, are allowed to use the right of way by virtue of permits granted by the Commission. Chairman Chandler and Commissioner Reynolds inquired as to the logic of requiring highway users to pay the moving costs and indicated that the legislation should be opposed. No action was taken at this time pending the appearance of a delegation on the following day. (When the delegation appeared before the Commission they were advised that their request would be given consideration).

Commissioner Reynolds presented a petition signed by eight residents of La Grande requesting the Commission to take such action as it could in conjunction with the Oregon State Police to stop truck drivers from leaving their motors running unattended while they stopped to eat at a restaurant near La Grande. The petitioners, he stated, have requested that signs be erected on the right of way calling attention to the fact that it is unlawful to leave vehicles unattended with the motor running. The Commission instructed the Engineer to investigate the matter and prepare a reply to the petitioners.

The Engineer reported that about six months ago a request had been made by the Johns-Manville Company for access to US97 near Chiloquin. It was found that the requested access is on a section of highway where the right of way was purchased before access control was started. At their request plans were prepared for a traffic-separator facility which would cost approximately $150,000. Mr. R. H. Baldock, former State Highway Engineer, submitted the plan to the Johns-Manville people and told them that if they would agree to pay one-half the cost he would recommend construction of the traffic separator. The Johns-Manville Company, however, have not replied to this offer. The Engineer pointed out that if they do not agree to share in the cost of this facility, the State will be forced to allow them access at grade, which will be hazardous to the traveling public. However, the State should not be required to pay the entire cost of the traffic-separator facility, as the use

of it will be entirely for the benefit of the Company. He stated that an effort would be made to secure a definite reply from the Company prior to the next Commission meeting.

Commissioner McIver stated that Mr. Louis Courtemanche of McMinnville had requested widening of a narrow bridge on US99W over the North Yamhill River near St. Joseph's Cemetery, north of McMinnville. The Engineer replied that the bridge is too narrow but no plans have been drawn for its replacement. The Engineer was instructed to determine the cost of replacing the bridge and present a report, including comments as to how it could be financed. He was also instructed to write Mr. Courtemanche and explain the facts as they exist.

Commissioner Reynolds stated that several people have written to him concerning a proposed route for the Pacific Highway by-passing Medford, known as the Foothills Route. The Engineer stated that this route is longer than other by-pass routes considered, and it appears to be more expensive; however, an estimate of the cost to construct such a route will be prepared and forwarded to the people who have made the inquiry.

The Engineer brought up the matter of changing the wording in several types of resolutions to incorporate the title of the person authorized to sign rather than the person's name. He explained that where the name of the person is designated in the resolution it is necessary for the Commission to adopt a new resolution whenever such personnel is changed, whereas, if the resolution designates the title of the person authorized to sign, a new resolution will not be required. He recommended that such change be made in the following resolutions: (1) Miscellaneous Resolution No. 186, authorizing the State Highway Engineer, the Deputy State Highway Engineer, and the Assistant State Highway Engineers to execute applications submitted to the Federal Communications Co mmission concerning radio station licenses; (2) A resolution dated February 6, 1950, using the titles of persons authorized to sign a permit form for the construction of approach roads; (3) A resolution adopted December 7, 1954, containing rules and regulations for a permit form covering transportation of overwidth loads; (4) A resolution adopted August 6, 1953, providing rules and regulations for a standard permit for the operation of overheight vehicles; (5) Resolutions adopted July 16, 1951, containing rules and regulations pertaining to permit forms for the operation of overlength, overwidth, overweight or overheight vehicles. The Commission approved his recommendation and thereupon adopted the attached resolutions relative thereto, marked EXHIBITS "G-1" through "G-3", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

The Commission signed the following agreements and other papers:

"Revocable License" to U. S. Coast Guard covering use of a pipe line and water at Umpqua Lighthouse State Park, Douglas County.

"Quitclaim Deed" to Mertie Conger reconveying property situate on Pacific Highway in Eugene which was previously acquired from her for a borrow area and never used.

"Bargain and Sale Deed" to Max and Alberta Montgomery for property on Crooked River-Terrebonne Section of The Dalles-California Highway, Deschutes County.

"Bargain and Sale Deed" to Bikman Investment Company for land on North Bend Section of Oregon Coast Highway, Coos County.

"Ground Lease" with Grand Island Sand and Gravel Company covering use of their storage yard situate in Yamhill County for stockpiling paving aggregate.

"Trust Agreement" with Bonneville Power Administrator covering rearrangement of a Bonneville transmission line made necessary by construction of Emigrant Hill-Deadmans Pass Section of Old Oregon Trail Highway, Umatilla County.

"Sub-Lease" between U. S. National Bank, Trustee, Irene L. Hamilton, and Standard Oil Company of California covering the leasing of Lot 4, Block 1, Huber Tracts, situate on City Limits-Barbur Boulevard Unit, Harbor Drive-Barbur Blvd. Section of Portland-Salem Expressway, Multnomah County.

"Bargain and Sale Deed" to D. P. and Carolyn W. Schnakenburg for property between old existing highway and relocated Pacific Highway situate on Jump-Off Joe Creek-Grants Pass Section, Josephine County.

"Bargain and Sale Deed" to John E. and Exzina Herman for property, containing a service station and restaurant, on Willamette River Junction-Diamond Lake Junction Section The Dalles-California Highway, Klamath County.

"Indentures of Access" on the following properties:

a. McGlone property on Cascade Locks-Viento Section of Columbia River Highway, Hood River County.

b. Bellevance property on Beaver Marsh Section of The Dalles-California Highway, Klamath County.

c. Gard property on Tigard-Newberg Section of Pacific Highway West, Washington County.

d. Moore property on Moro Grass Valley Section of Sherman Highway, Sherman County.

e. Gouldin property on Sage Hen Hill-Hines Section of Central Oregon Highway, Harney County.

f. Gouldin property on Sage Hen Hill-Hines Section of Central Oregon Highway, Harney County.

"Indentures of Access" - Cont.

g. Hanby property on East Unit, Love Bridge-Black Bridge Section of Baker-Homestead Highway, Baker County.

"Extension of Industrial Lease and Substitution of Parties" with Northwest Technical Institute on former Vanguard property situate on Sullivan Gulch Section of Banfield Expressway, Multnomah County.

"Claims Release Agreement" with Bertyle D. Harris which will release the State from all damage resulting from the drying up of his domestic well during construction of Valley Junction-Sheridan Section of Salmon River Highway.

"Permit Agreement" with Davidson Industries covering construction of a road upon the right of way of the Mapleton-Tiernan Section of Siuslaw Highway, Lane County.

"Agreement" with the U. S. Geological Survey for a one-year continuation of a previous agreement covering the measuring of flood runoff from representative drainage areas in Oregon.

"Signal Installation Agreement" with the City of Reedsport covering signal installation and channelization at the intersection of Winchester Avenue and the Oregon Coast Highway in Reedsport.

"Agreement" with Coos Bay-North Bend Water Board covering cost of the labor to rearrange its facilities in connection with construction of the Virginia Avenue and Broadway project in North Bend.

"Relinquishment of Title" releasing part of the Mascall Overlook Entrance Road on the Fossil Beds Section of the John Day Highway, Grant County, acquired by the Parks Department in 1935. (Authorized 8-16-56)

"Bargain and Sale Deed" to Edna Lee Glines for property on Jump-Off Joe Creek-Grants Pass Section of Pacific Highway, Josephine County. (Authorized 8-16-56)

"Bargain and Sale Deed" to Wilbur L. Jones et al for property on Forest Grove-Hillsboro Section of Tualatin Valley Highway, Washington County. (Authorized 8-16-56)

"Permit" to Lloyd C. Finley and Marian E. Finley for the right to erect and maintain a television mast and antenna and lay underground cable across Boiler Bay State Wayside State Park.

"Agreement" with Wasco County covering the closure of certain county roads; construction of frontage road; and maintenance of section of Old Columbia River Highway.

"Agreement" with City of McMinnville covering the one-way couplet construction on the 17th Street-Cozine Creek Section of the Pacific Highway West in the City of McMinnville.

"Agreement" with U. S. Bureau of Public Roads covering center line painting on the Cascade Lakes Highway. Cost to be paid by Bureau up to $700 maximum.

"Commission Meeting Minutes" for August 16-17, 1956.

"Commission Meeting Minutes" for September 27-28, 1956.

The meeting adjourned at 4:20 p.m., to reconvene at 10:00 a.m. on the following day.

Portland, Oregon
November 9, 1956

The meeting of the State Highway Commission reconvened at 10:00 a.m., in the Queens Room of the Imperial Hotel. The following persons were present:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

A delegation representing the Highway 99W Alternate Road Association came before the Commission to request improvement of the Tualatin Valley Highway between McMinnville and Forest Grove as a part of the proposed US99W alternate highway. The following people were present: From McMinnville: Cliff Elliott, Manager, Chamber of Commerce; A. W. Youngberg, Yamhill County Commissioner; H. Waynestanard, James E. Craig, Leonard Gillam, Ralph Farnham, all members of Chamber of Commerce; and C. P. Scovell. From Vernonia: Art Ostrander, President, Highway US 99W Alternate Road Association; Mona Gordon, Manager,

Chamber of Commerce; Guy I. Thomas, President, Chamber of Commerce; Mrs. Eugene Drips, Director, Chamber of Commerce; Ed Roediger and Eugene Drips, Roads & Highways Committee of Chamber of Commerce; Lee Wooden, Chamber of Commerce; Mrs. Ed Roediger, Mrs. Art Ostrander, and Mrs. George Biddle, housewives. From Forest Grove: Homer Waltz, Chairman, Roads & Highways Committee of Chamber of Commerce; M. O. Gardner, Chamber of Commerce; John M. Richardson, "News Times". From Gaston: W. M. Heesacker, Mayor; Oliver H. Schrepel, Councilman. From Yamhill: R. L. Wulf, Keith Schrepel, George Zimmerman, A. E. Stovll, all members of the Chamber of Commerce. From Banks: Clarence Sweere, Chamber of Commerce. From Buxton: Frances Pruett and Mrs. Ed Everett, housewives. Mr. Ostrander introduced the members of the delegation. Mr. Elliott, who was principal spokesman, commented that a delegation appeared before the Commission on a previous occasion concerning establishment of an alternate route for US99W from McMinnville through Forest Grove to a connection with the Lower Columbia River Highway at Rainier. He thanked the Commission for engineering assistance that had been given in the form of a reconnaissance survey for this route. The delegation, he said, has three purposes in promoting the US99W alternate route. First, to provide an interstate route north and south, which would bypass the large cities in the northern part of the state; second, to facilitate the economic development of the region traversed by the alternate route; and third, to secure the elimination of the dangers of the existing highway, particularly between McMinnville and Forest Grove. He called attention to the fact that truck haulers with loads originating in the vicinity of Yamhill and Gaston are forced to haul their products north to Portland because of the narrow condition of this highway. He mentioned specifically log and lumber haulers of Scoggins Valley who now have to transport their products north to Portland. The group realizes, he continued, that complete improvement of the proposed highway is a long-term project, so they are limiting their request to the improvement of the bad stretches first, particularly the section from McMinnville to Forest Grove. He urged implementation of the survey and construction at the earliest possible time. Commissioner McIver advised that the funds for highway construction are allocated proportionately in the five highway divisions and there is only so much money for each division. The proposed project, he said, is an expensive one and if undertaken it would mean that other projects would be delayed so it could be financed. Mr. Ostrander thanked the Commission for its attention to their request and left with the Commission a number of brochures in support of their project. Chairman Chandler inquired of the Engineer how much it will cost to improve this highway. The Engineer replied that based on the reconnaisance survey, the improvement will cost about $6,000,000 or $7,000,000.

A group representing the Hood River County Court and the Hood River County Chamber of Commerce came before the Commission to urge widening and straightening of a portion of the Mt. Hood Highway so that logs can be hauled into Hood River from national Forest lands. The following people were present: Percy Bucklin, Chairman, Highway No. 35 Improvement Committee; George Bartch, Manager, Port of Hood River,

and County Chamber of Commerce; Arvo Hukari, County Judge, Hood River County; W. C. Sundby, President, Chamber of Commerce; Charles Howe, Mayor; J. D. Wirrick, Official, Oregon Lumber Company at Dee; Don Emry, Co-owner of Neal Creek Lumber Company. Mr. Bucklin acted as spokesman and introduced the members of the delegation. He stated that the Neal Creek Lumber Company's sawmill recently burned, throwing 200 people out of work, and that the Company is loathe to rebuild the mill unless it can be assured of adequate timber reserves. Their present holdings, he said, will be enough to supply the mill for approximately three years. He pointed out that log hauling has been permitted on the section from Cooper Spur Junction south for 9.7 miles only under a special permit for solo truck movements with a pilot car, because of the extremely narrow and crooked condition of the highway. There is a great deal of government-owned timber which lies back of this section on the east slope of Mt. Hood, which could be hauled to Hood River mills if this section of the Mt. Hood Highway from Cooper Spur Junction south 9.7 miles is reconstructed. He said that this section is vital to their economy and he urged the Commission to improve it at the earliest possible time. Judge Hukari pointed out that taxes are a big problem in Hood River County and if the Lumber Company does not rebuild its mill, the County will lose in excess of $12,000 in taxes per year. He also said that 160 families depend on the operations of this mill for their livelihood and if the mill is not rebuilt they will be forced to move because they cannot be absorbed in the County. He inquired if the Commission could give an estimate as to when improvement of the 9.7 mile section can be undertaken. Mr. Bucklin stated that if the Neal Creek Lumber Company were given assurance that the improvement would be started next year and completed in two years, that would serve their purpose. The Engineer advised that the Bureau of Public Roads is now making a survey of this section and if everything goes according to schedule and if funds are allocated, construction could be started in the fall of 1957, but three or four years would be required to complete the work. Mr. Emry stated that the Company has timber reserves which will last the mill for three years maximum. Commissioner Reynolds stated that, although the Commission fully realized the need for improvement, there remains the question of securing funds to finance construction. The Commission, he said, has a desire to do the job and definitely will ask the Forest Service and Bureau of Public Roads to approve the project for the Forest Highway Program, but it most likely will take at least three years to finance the improvement because there are not enough Forest Highway funds available to complete the project in less time. It was his opinion that this project could be given a high priority rating in the Forest Highway Program. Mr. Bucklin stated their approval of such a program. The Engineer commented that Forest Highway allocations may be made as early as July, 1957, and to construct the 9.7 miles most urgently needed, will require about $500,000 of Forest Highway funds per year for a three or four-year period.

A delegation representing telephone, power and other utilities came before the Commission to request that they be relieved of paying for moving their facilities located on highway right of way when such

moving is required by highway construction. The following people were present: Earl R. Dean, Chairman, Oregon Independent Telephone Association, Hood River; John R. McCullough, Counsel, Public Utilities Commission, Salem; Francis Hill, Attorney, Pacific Power & Light Company and Portland Gas & Coke Company, Portland; Alexander J. Brown, City Attorney, Portland; Larry B. Bauer, Central Lincoln PUD, Newport; Lee Woodin, President, Oregon Electric Cooperative Association, Jewell; Edward Blanchfield, California-Oregon Power Company, Medford; Guy I. Thomas, Manager, West Oregon Electric Cooperative, Inc., Vernonia; John Grenbo, Secretary, Central Lincoln PUD, Waldport; W. A. Cook, Portland Gas & Coke Company, Portland; Carl Lundell, Utilities Engineer, Portland; Robert Short and Alan Fragall, Portland General Electric, Portland; Bruce Pickett, Supervisor of Taxes, Pacific Telephone and Telegraph Company, Salem; and John Geren, Salem Water Department, Salem. Mr. Dean headed the group and expressed appreciation for the opportunity to express their points of view before the Commission. He pointed out that recent federal legislation pertaining to interstate highways provides that cost of moving utilities occupying highway right of way may be considered as a part of the construction cost and, therefore, subject to reimbursement by the Federal Government up to 90 per cent on interstate highways. The delegation, he stated, has four objectives in mind -- 1. To learn more of the Highway Commission's plans; 2. To advise the Commission of the utility companies' problems; 3. To learn what the Commission's policy is in connection with the new program; and 4. To explore avenues that may be open to relieve the utility companies of the financial burden of relocating their facilities because of highway construction. Mr. Dean presented a written brief in support of his oral remarks. Mr. McCullough, speaking for the Public Utilities Commissioner, commented that rates are set by the Public Utilities Commissioner so as to return a fair rate of income on the utility companies' investment. It is the opinion of the Commissioner, he stated, that the cost to move utilities when borne by the utility companies should be passed on to the consumers in higher rates. Mr. Hill reviewed the history of utilities as located on public roads and commented that the present policy had been started at the beginning of this century. At that time roads were not a big problem and it did not make much difference whether necessary moves were paid by users of the utilities or by general taxes. A recent federal law, he said, provides that federal money may be used to move power and phone lines in the same ratio as for construction, provided there is no conflict with state law. He pointed out that, under the present law, a permit is secured to establish a telephone or power line on highway right of way and the utility companies obligate themselves to pay the cost to move their facilities when required to do so. The National Congress apparently has felt that the cost of such moves should be borne by the general tax payers as a defense measure. Forty-two states, he stated, have a problem similar to the one in Oregon. He asked the Commission not to oppose legislation which the utility companies plan to introduce in the legislature revoking that section of Oregon Law which requires the utility companies to pay for the cost of moving their facilities when located on highway rights of way. He also asked the Commission to assign an attorney to work with the utility companies in preparing a suitable bill to present to the Legislature. This same problem,

he stated, has been presented to the Washington Highway Commission but no action has yet been taken on legislation in that state, although two hearings have been held on the subject. Mr. Brown cited an instance which occurred in the City of Nashville, Tennessee, in which the City had to appeal to the Federal Government for help in moving some of its utilities. It was his opinion that the cost of moving utilities should be borne by the state and federal government as a part of the cost of highway construction. Mr. Bauer cited the example of the Central Lincoln Public Utilities District which has an investment of $6,000,000 in its plant and was required to spend $250,000 in a four-year period to relocate its power lines because of highway construction. It was his feeling that tourists in the State of Oregon should be required to pay a part of this cost of relocation through the gas tax. Other public utility districts, he stated, have the same point of view. Mr. Woodin stated that his company feels that they should be reimbursed for moving their facilities. Mr. Branchfield observed that his company had expended a large amount of money for moving power lines and it was his opinion that the utility users should not be required to pay higher rates because of moves which in some instances have to be made two or more times. Mr. Dean observed that the utility companies had not anticipated making the great number of moves which have been required in recent years and which will apparently continue in the years ahead. The utility companies, he continued, have no choice other than to pass the cost of these moves onto the consumer in the form of higher rates. Many of the utility companies are small and the moves present a real financial problem.

Commissioner Reynolds stated that he hoped the delegation appreciates the fact that the Highway Commission represents highway users. Chairman Chandler stated that this is the first time the matter has been presented by the utility companies in this manner. The problem has merit and will be given serious thought. The Commission, he added, will be glad to confer with company representatives if they so wish. The delegation departed at this time. Commissioner Reynolds inquired about the Central Lincoln Public Utilities District being required to expend approximately $250,000 in moving. The Engineer replied that costs of moving are high and frequently amount to $600 per pole. The Chief Counsel pointed out that the State now pays the cost to move utilities when the utilities are located off the right of way. Commissioner Reynolds stated that their request amounts to a reduction in funds actually available for highway construction. Commissioner McIver inquired if the utility companies would actually be hurt on the interstate highway construction program. The Engineer replied that the companies in urban areas, particularly in Portland and other large cities, will be required to expend large sums of money to move their facilities. The Chief Counsel commented that the first law regarding pole lines on roads was enacted in Oregon in 1862 and has been revised at intervals since that time, the last revisions having been made in 1955. He pointed out that power, telephone and telegraph utilities are allowed on highway right of way by virtue of law, whereas other utilities are allowed by permits granted by the Highway Commission. Another angle has now entered the picture, the Chief Counsel stated, in the fact that the power and telephone companies, when they install their

facilities one foot inside the right of way line do have an overhang over private property and in many cases they have secured easements from these property owners. They now claim that the State should pay a part of the overhand easement cost. Commissioner McIver stated that it appears to be a question of either the highway users paying for these moves or the utility consumers paying for them. Chairman Chandler cautioned against making any commitments in this matter and he gave as his feeling that use of highway rights of way by utility facilities has a real value to the utilities.

The meeting recessed at 12:00 noon, and reconvened at 2:00 p. m. with the same persons present and participating.

Mrs. Gertrude G. Jensen, Chairman, and Mr. George D. Ruby, Member, Columbia River Gorge Commission, came before the Highway Commission concerning acquisition of property to preserve the scenery in the Columbia Gorge. Mr. Ruby, who acted as spokesman, thanked the Commission for its past cooperation. In reviewing results of the past year and a half, he stated that the Gorge Commission has recommended purchases amounting to $33,568.50, and actual purchases have been made in the amount of approximately $11,000, although approximately $17,550 has been spent or committed if the Berger property is included. He inquired as to when the $50,000 authorized by the Legislature expires, and he also requested that an additional $50,000 be made available for this purpose during the next two years. He pointed out that the Gorge Commission is handicapped in that it has no funds of its own to finance preliminary investigations and research prior to purchasing. The assignment of a right-of-way agent to this work, he said, has not worked out very satisfactorily from their view point because they have no control over his actions and do not know what he is doing. The National Park Service, he stated, provided the Gorge Commission with limited funds and they hired a Mr. Kenneth Wolfe, a retired employee of that department, who has given very satisfactory service. However, the funds authorized by the Park Service will expire December 31, 1956. He asked the Commission to provide funds to pay for Mr. Wolfe's services until June 30, 1959, $2,000 for the period ending June 30, 1957, and $8,000 for the next biennum. He felt that the procedure of having the State's right-of-way agent report to the Highway Commission concerning acquisition of these properties, with the Gorge Commission then making a recommendation, is not a satisfactory arrangement. It was his opinion that the work could be expedited if the person working on the acquisition made the information available first to the Gorge Commission and then the Gorge Commission, in turn, could recommend to the Highway Commission. He also brought to the Commission's attention the matter of definition of lands suitable for acquisition in the Gorge area. Under the policy now followed only those lands are acquired which are suitable for State park use, which also has been interpreted to mean that the lands must be adjacent to existing State parks. He asked

that the definition of suitable lands as contained in the minutes of the Highway Commission on June 30, 1955 be changed so that such lands need not necessarily adjoin the highway or a State park, but must be in the Columbia River drainage bounded by the water shed line to the south, by Hood River to the east, and by Troutdale to the west. If such a definition is not acceptable, he suggested that the Chief Counsel and the Parks Superintendent might be able to prepare more suitable wording. In connection with the matter of procedure in acquiring the lands, he again emphasized the point that the Gorge Commission would prefer to have the person who is doing the work in connection with acquisition report directly to the Gorge Commission, and the Gorge Commission then make its recommendations to the Highway Commission with a carbon copy to the Parks Superintendent, and the response should be from the Highway Commission rather than the Parks Superintendent on each project. Chairman Chandler stated that the Commission would consider the requests made but it will take some time to prepare a reply. Concerning the $50,000 already allocated to the project, he said that the Commission does not intend to cancel the amounts not already spent, nor to set any particular deadline for the expenditure of this money, but whether or not an additional amount will be allocated to the project will be decided later. Commissioners Reynolds and McIver expressed concurrence in the Chairman's statement. Mrs. Jensen asked the Commission to take early action on their request for an additional appropriation, otherwise, she said, they will have to go to the legislature, which they prefer not to do. She suggested the possibility that the two Commissions could meet sometime to discuss their problems ("and work in lovely harmony"). She also paid a compliment to the Federal Government for their considerable assistance in acquiring in excess of 2,200 acres by trading lands with property owners. The Gorge Commission, she added, has met every two weeks for nearly four yours. Chairman Chandler stated that the Gorge Commission had performed an excellent service to the State and deserves all of the assistance that can be given. (Later in the day the Commission again discussed the expenditure of the $50,000 already allocated for this purpose and decided unanimously not to cancel the unexpended balance. As to an additional appropriation, the Commission decided against it for the time being. Concerning the employment of Mr. Wolfe, the Commission indicated that it would have no objection to the retention of his services provided his salary is paid out of the present $50,000 appropriation. The Engineer was instructed to analyze the whole thing and render a report at the next meeting. See ahead for additional entry.)

Hon. O. E. Effenberger, Tillamook County Judge, came before the Commission concerning riprap work along the Wilson River. He recalled that about three years ago the County had made a request for financial cooperation on a project with the Army Engineers in placing riprap along the Wilson River banks approximately one mile north of Tillamook. This riprap work, he stated, was conducted by the Army Engineers who let the contract for the revetment and dike. The work performed acts as a protection to the state highway bridge on the Oregon Coast Highway, but the project did not extend downstream far enough,

and another 50-foot extension is needed. Colonel Graham of the Army Engineers, he continued, has requested the County for 20 per cent match money on a project estimated to cost $30,000 and has also requested an engineer to look over the proposed work as to its feasibility. The Commission instructed the Engineer to examine the project.

The State Parks Superintendent stated that since reporting on the previous day regarding the Diamond-Crater area in Harney County, he has consulted officials of the Bureau of Land Management who advised that the Bureau of Land Management will control the area by administration, thereby protecting the scenic values, for at least one and a half years, so the State will not need to secure a lease for the protection of this area. (This entry is to confirm the Parks Superintendent's report on the previous day when he was instructed to get definite assurance from the Bureau of Land Management.)

The Parks Superintendent also stated that boating enthusiasts have complained about the shallow channel in the Columbia River at Rooster Rock State Park. He said that the river is now at low stage and it will be relatively easy to dredge a channel 3 1/2 to 4 feet deep to accommodate the considerable number of boats that use this area. He recommended and the Commission granted authority to call bids for dredging to deepen the boat channel, the work to be performed in 1957.

The Chief Counsel requested authority to acquire by condemnation if necessary, the following additional properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission's resolution dated December 20, 1951:

Mosier-The Dalles Section of the Columbia River Highway

R-25812 - Julius L. Keller and Ruth Marie Keller
Right of Way (Wasco County)
0.1 acre

R-25813 - Earl E. Smith and Agnes Smith
Right of Way (Wasco County)
0.1 acre

R-25864 - Harvey Machine Co., Inc.
Easement for Drainage Facility (Wasco County)
0.55 acre

R-25865 - Port of The Dalles
Easement for Drainage Facility (Wasco County)
0.32 acre

R-25811 - Fred Wetle and Nettie Anderson Wetle

Right of Way (Marion County)
4.7 acres

R-25061 - Daniel M. Ropp and Irva L. Ropp
Right of Way (Marion County)
1.5 acres

Right-of-way maps, construction plans and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBITS "K-6" through "K-12", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

November 9, 1956

Mr. Robert L. May, Jr., Assistant Counsel, extended to the members of the Commission an invitation to be present at a dinner that is to be held in the Marion Hotel, Salem, on Friday evening, November 16, 1956, honoring Mr. C. W. Enfield, Chief Counsel, who has resigned to accept a position as Solicitor for the Bureau of Public Roads in Washington, D. C.

The matter of selling $8,000,000 in highway bonds to facilitate the financing of the new Federal Highway program was discussed. The Engineer stated that he consulted Governor Elmo Smith, who approved the sale. He requested instructions whether or not to present the matter to the Legislative Interim Committee. Chairman Chandler suggested that the matter should first be discussed with Mr. Robert Holmes, Governor-elect. Commissioner McIver stated that he would discuss the matter with Mr. Holmes. In the ensuing discussion, it was decided to request authority to sell $8,000,000 of 10-year bonds without any specified interest rate and with the provision that retirement of the bonds would start in two years. The Engineer and the Counsel were instructed to prepare complete information, including program, maps, etc., and an appropriate bill for submission to the legislature, embodying the points agreed upon.

Commissioner McIver brought up for discussion the appointment of someone to fill the vacancy of Chief Counsel caused by the resignation of Mr. C. W. Enfield. He pointed out that Mr. Enfield's resignation will become effective prior to the next meeting of the Commission so it is necessary to appoint his successor now so as to prevent the office from being vacant for a period of weeks and to insure uninterrupted conduct of the Commission's legal business. Pursuant to the provisions of ORS 366.130, I move that the Commission adopt a resolution appointing Mr. Robert L. May, Jr., as Chief Counsel, subject to the approval of the Attorney General, with such appointment to become effective upon the date of Mr. Enfield's resignation, and that Mr. May be paid a salary of $738.00 per month, together with his actual traveling and other necessary expenses, and that the Attorney General be respectfully requested to approve this appointment. The motion was seconded by Commissioner Reynolds and was declared by Chairman Chandler to have received the unanimous vote of the Commission. The attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof, with like effect as though extended in full herein was thereupon adopted by the Commission unanimously. The Commission ordered a copy of the resolution sent to the Attorney General for his approval of the appointment.

Matters presented by the Columbia River Gorge Commission were again discussed, particularly its requests that the original $50,000 appropriation not be cancelled and that the employment of Mr. Kenneth Wolfe as an employee of the Gorge Commission be approved. The Chief Counsel stated that he did not know of any legal method by which the State Highway Commission could give the Gorge Commission funds for Mr. Wolfe's employment. The State Parks Superintendent commented that

Mr. Wolfe has performed good work in negotiating exchanges of land between property owners and the Federal Government. The Commission instructed the Engineer to present a report on the requests and recommendations previously made at this meeting by the Gorge Commission. By unanimous vote the Commission adopted the attached resolution regarding the $50,000 request, marked EXHIBIT "L", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported the unexpected death of Mr. John W. Cattrall, City-County Relations Engineer, on October 16, 1956. He said that Mr. Cattrall joined the State Highway Department on December 27, 1925, and worked with the the Department continuously since then, except for the time that he served in the military forces of the United States during 1941. He spoke very highly of John's service with the Department and expressed regrets that they no longer are to be available. The members of the Commission stated their appreciation for the service rendered by Mr. Cattrall and thereupon signed a letter directed to Mrs. Cattrall extending to her heartfelt sympathy in her loss.

Chairman Chandler reported that it is not possible for him to attend the annual meeting of the American Association of State Highway Officials which is to be held in Atlantic City, New Jersey, during November 26-30. At his suggestion the Commission authorized the Secretary, Mr. H. B. Glaisyer, to represent the Commission on this occasion at state expense.

There being no further business to consider at this time, Chairman Chandler declared the meeting adjourned at 3:15 p.m.

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

November 8 and 9, 1956

EXHIBIT "A"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

THINGS TO BE DONE BY THE STATE

Construct approaches to access roads at Stas. 2700, 3700, 5000, and 6500. Provide for two conduit sleeves for existing main line irrigation pipes where they pass under new hwy. Vacate existing hwy. to abutting owner from State Hwy. stock pile site in N'westerly direction to Jct. of Macy Loop Rd. and Robertson Bridge Road. Within a period of 3 years, State to deed to Grantor existing stock pile site located adjacent to River Loop Road, and a stock pile site located on banks of Applegate River as an exchange part of the settlement upon the grounds and for the reason that the said property, in the opinion of the commission, is no longer needed, required, or useful for highway purposes, and the value of the property to be acquired by the State is not less than the value of the property to be relinquished by the State, and the cash to be paid by the State.
Grantor to deed an equal area in the vicinity of the Jct. of Macy Loop Road and Robertson Bridge Road. The site to be deeded must be first approved as to location by the State Hwy. Commission. Upon the acceptance of deeds the State Hwy. Commission will then vacate that portion of the existing road between said stock pile site and the Rawls property.
Access: Stas. 27+00, 37+00, 50+00 and 65+00, unrestricted.

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Blackwell Hill-7 Oaks Section of the Pacific Highway described as follows:

> A parcel of land lying in the Southwest quarter of the Northeast quarter of Section 29, Township 36 South, Range 2 West, W.M., Jackson County, Oregon, and being those tracts of land described in that deed to Cyrus A. Justesen and Lola Justesen, recorded in Book 353, Page 263, and in that deed to E. B. McCall et ux, recorded in Book 352, Page 309, of Jackson County Deed Records. Except that portion of said property previously conveyed to the State of Oregon, by deeds recorded in Book 388, Page 143, and in Book 388, Page 146, of Jackson County Deed Records, containing 1.45 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 16 be entered in the minutes and records of the Commission as of the 8th day of November, 1956.

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway described as follows:

A parcel of land lying in Lot 4, Block 2, Rose Arbor, situated in the Northeast quarter of Section 18, Township 1 South, Range 1 East, W.M., Multnomah County, Oregon, the said parcel being that portion of said Lot 4 lying Northerly of a line which is parallel to and 55 feet Northerly of the center line of the Beaverton-Hillsdale Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 98+00, said Station being 1265 feet North and 466 feet East of the center of said Section 18; thence South 89° 34' 50" East 600 feet to Station 92+00; the South line of said parcel crosses the West and East lines of said Lot 4 approximately opposite Stations 94+10 and 93+30 respectively.

The parcel of land to which this description applies contains 0.42 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $7725.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 17 be entered in the minutes and records of the Commission as of the 8th day of November, 1956.

EXHIBIT "B-3"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the STATE OF OREGON, by and through its State Highway Commission, is the owner of a parcel of land in Willamette River-Hayesville Section of the Portland-Salem Expressway, described as follows:

A parcel of land lying in the John P. Poujade Donation Land Claim #45, Township 5 South, Range 2 West, Willamette Meridian, Marion County, Oregon, and being a portion of that property described in that deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 460, Page 606, of Marion County Records of Deeds; the said parcel being that portion of said property lying Southeasterly of a line which is parallel to and 100 feet Southeasterly of the center line of the Portland-Salem Expressway as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station L4E 1370+00, said Station being 2267.24 feet North and 1934.44 feet East of the Southwest corner of said Poujade Donation Land Claim #45; thence South 37° 28' West 3000 feet to Station 1400+00, the Northwesterly line of said parcel crossing the East line of said property approximately opposite center line Station 1385+40.

Except that portion of said parcel lying within the following described tract:

Beginning at the intersection of the center line of County Road #524 with the center line of the Portland-Salem Expressway, as described above, at Station 1399+18.39; thence South 72° 51' 15" East along said County Road center line 600 feet; thence North 17° 08' 45" East at right angles 75 feet; thence North 72° 51' 15" West 575 feet; more or less, to the center line of said Portland-Salem Expressway; thence South 37° 28' West along said center line to the point of beginning.

Bearings used herein are based upon the Oregon Coordinate System, North zone.

EXHIBIT "B-6" (Cont)

The parcel of land to which this description applies contains 9.05 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of said property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between the said real property and the Portland-Salem Expressway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 21 be entered in the minutes and records of the Commission as of the 8th day of November, 1956.

EXHIBIT "B-7"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the STATE OF OREGON, by and through its State Highway Commission, is the owner of a parcel of land in the North Bend-Marshfield Section of the Oregon Coast Highway described as follows:

> West 51 feet of Lots 3, 4, 5, 6, 7, 8, 9, Block 29, Coos Bay Plat "B" Addition to North Bend, Coos County, Oregon, containing 8772 square feet.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found to be the estimated sum of $7,100.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be, and he hereby is, authorized and instructed to advertise said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of said property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to and from and between the said real property and the relocated Oregon Coast Highway, except there will be granted two 25 feet points of access.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 22 be entered in the minutes and records of the Commission as of the 8th day of November, 1956.

EXHIBIT "C"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, on May 11, 1954, the State Highway Commission adopted a Miscellaneous Resolution No. 111 authorizing the issuance of permits pursuant to the provisions of ORS 483.528, for the movement of any vehicle or combination of vehicles, article, property or thing having any gross weight or dimension, or of a description not otherwise permitted to move over state highways; and

WHEREAS, based upon investigations and studies made by the State Highway Engineer and his recommendations to the Commission, it is the opinion of the Commission that Paragraph 4 of said resolution of May 11, 1954, should be amended in certain particulars; and

WHEREAS, the Commission believes that the best public interest will be served by amending said Paragraph 4 of said resolution of May 11, 1954, in the manner hereinafter set forth.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Commission, as follows:

1. That Paragraph 4 of the said resolution adopted by the State Highway Commission on May 11, 1954, is hereby amended to read as follows:

> Paragraph 4. That when either the State Highway Engineer, Deputy State Highway Engineer, any Assistant State Highway Engineer, Director of Permits, Transportation Permit Supervisor, or the personnel hereinafter designated in Paragraphs 10 and 11, find that the proposed movement is to be made over a highway classified as either a group 1 or group 2 highway as set forth in resolution of the Commission, dated December 19, 1955, pertaining to issuance of permits pursuant to the provisions of ORS 483.525, and all amendments and supplements thereto that have been or may thereafter be adopted, they are authorized to issue a permit for such movement, subject to the limitations hereinafter stated, having gross weights not in excess of the following, to-wit:
>
> Maximum gross weight of any vehicle or combination of vehicles, 96,000 pounds.
>
> Maximum gross weight of any axle 21,500 pounds.
>
> Maximum gross weight of any tandem axle 43,000 pounds.

EXHIBIT "C" (Cont)

Maximum gross weight in pounds of any group of axles spaced more than 18 feet apart is determined by the formula W = 1200 x (L + 40).

Maximum gross weight in pounds of any group of axles spaced 18 feet or less apart is determined by the formula W = 1000 x (L + 40).

In addition, permits may be issued for the movement of unladen construction equipment having a maximum gross weight of any single axle exceeding 21,500 pounds, when such single axle is equipped with low-pressure tires operated at a pressure of not more than 25 pounds per square inch in accordance with the following minimum tire sizes and maximum weights.

Minimum tire width		Maximum Axle weight
No.	Cross Section Diameter	
2	21-inch (or equivalent)	26,000 pounds
2	24-inch (or equivalent)	34,000 pounds
2	27-inch or larger	36,000 pounds

2. That paragraph 10 of the said resolution adopted by the State Highway Commission on May 11, 1954, is hereby amended to read as follows:

Paragraph 10. Under the direction of the State Highway Engineer, and subject to the conditions in this resolution set forth, the Resident Engineers and the officemen in the Resident Engineer's office at Medford, Gold Beach and Newport, Oregon, and the Maintenance Superintendents of the following districts, and in their absence, District Maintenance officemen in the District, hereby are authorized to issue permits for movement over Group I and Group II Highways, only within the limits of their respective districts, and not otherwise.

2-A Astoria
2-C Corvallis
2-D Tillamook
3-A Eugene
3-B Coquille
3-C Grants Pass
4-A The Dalles
4-B Redmond
4-C Klamath Falls
5-A John Day
5-B Pendleton
5-C Baker
5-D Burns

In addition to the above listed personnel, the Director of Permits, with the written approval of the State Highway Engineer, is authorized to designate qualified persons in any field office to sign and issue permits pursuant to the provisions of ORS 483.528, the resolution adopted by the Commission on May 11, 1954, and this amendment.

EXHIBIT "C" (Cont)

3. That paragraph 12 of the said resolution adopted by the State Highway Commission on May 11, 1954, is hereby amended to read as follows:

Paragraph 12. The maximum gross weights and dimensions that may be authorized in permits issued by persons designated in paragraphs 10 and 11 above are as follows:

a. Weight: Maximum weights shall be subject to the limitations set forth in paragraph 4 of this resolution.

b. Overheight: No permit shall be issued in excess of the clearance limits allowable for all structures as shown on "vertical clearance map" of the state highway system; provided, however, that no permit shall be issued for a height in excess of six inches less than the minimum vertical clearance on the route over which a movement is to be made.

c. Overwidth: No permit shall be issued permitting a width in excess of eleven feet six inches.

d. Overlength: No permit shall be issued permitting a movement having an overall length of more than sixty feet on Group I Highways, or more than fifty-five feet on Group II Highways.

4. That this resolution be entered in the minutes and records of the Commission as of the 8th day of November, 1956, as Miscellaneous Resolution No. 111a, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each the Superintendent of State Police, the Public Utilities Commissioner and the Secretary of State.

EXHIBIT "D"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4248 with Newport Construction Company for paving on the Willamette River-Crosby Road Unit of the Willamette River-Hayesville Section of the Portland-Salem Expressway (R. H. Baldock Freeway) in Marion County, completed August 8, 1956.

"Contract No. 4298 with Kuckenberg Construction Company, Inc. for grading and oil mat surfacing on the Booth Ranch-Myrtle Creek Unit, Shady-Canyonville Section of the Pacific Highway in Douglas County, completed on July 21, 1956.

"Contract No. 4422 with Allum Bros. for grading and surfacing on the S. E. Stark St.-Powell Valley Road Section of the East Burnside County Road in Multnomah County, completed October 31, 1956.

"Contract No. 4434 with F. L. Somers for stone base and oiling on the Valley Falls and Salt Creek-Lakeview Section of the Fremont Highway in Lake County, completed November 4, 1955.

"Contract No. 4466 with Manson Construction & Engineering Co. for construction of the Ross Island Bridge Ramp on the Mt. Hood Highway in Multnomah County, completed October 25, 1956.

"Contract No. 4482 with Fred Stubbert for constructing guard rail on the Willamette River-Hayesville Section of the Portland-Salem Expressway (R. H. Baldock Freeway) in Marion and Clackamas Counties, completed September 27, 1956.

"Contract No. 4502 with Hamilton & Thoms for constructing a bridge and overcrossing on the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County, completed October 5, 1956.

"Contract No. 4523 with Warren Northwest, Inc., for grading and paving on the 122nd Ave. Ramp Unit, 92nd Avenue-Fairview Section of the T. H. Banfield Expressway in Multnomah County, completed July 20, 1956.

"Contract No. 4539 with Porter W. Yett for paving on the Fairfield Junction-Hopmere Section of the North River Road in Marion County, completed October 4, 1956.

"Contract No. 4547 with Central Paving Company for grading and paving on the East Unit, Eagle Rock-Post Section of the Paulina Highway in Crook County, completed September 29, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4559 with Porter W. Yett for grading and paving on the Beaverton (Highway Jct.-12th St.) Section of the Beaverton-Aurora Highway in Washington County, completed October 3, 1956.

"Contract No. 4568 with Babler Bros., Inc. for grading on the Dolph Corner-Rickreall Section of the Willamina-Salem Highway in Polk County, completed August 30, 1956.

"Contract No. 4569 with Allum Bros. for surfacing and oiling on the Westside-Dry Creek Section of the Westside Road in Lake County, completed October 9, 1956.

"Contract No. 4577 with Durbin Bros. for grading on the Sublimity Gun Club-Stout Creek Section of the North Santiam Highway in Marion County, completed October 31, 1956.

"Contract No. 4582 with Steeck Electric Co. for illumination installation at the junction of The Dalles-California and Willamette Highways in Klamath County, completed August 30, 1956.

"Contract No. 4598 with J. C. Compton Company for grading and paving on the Basque Maintenance Station-McDermitt Section of the I.O.N. Highway in Malheur County, completed September 14, 1956.

"Contract No. 4601 with E. H. Itschner Company for furnishing crushed material in stockpiles on the Weston-Elgin Section of the Weston-Elgin Highway in Umatilla and Union Counties, completed September 25, 1956.

"Contract No. 4607 with Orlando C. Bennard for construction of the Ashland Creek Structures on the Helman St.-Third St. Section of the Pacific Highway in Jackson County, completed September 30, 1956.

"Contract No. 4617 with Hill A. Lind for grading on the Short Creek Section of the Cape Meares Loop Road in Tillamook County, completed October 10, 1956.

"Contract No. 4621 with Jackson & Ray for constructing Weaver Bridge over the Wallowa River on the Werst Corner-Wallowa Section of the Werst Corner County Road, completed October 30, 1956.

"Contract No. 4624 with Birkemeier Construction Co. for constructing the N. E. 21st Avenue Undercrossing on the T. H. Banfield Expressway in Multnomah County, completed September 28, 1956.

"Contract No. 4655 with George E. Berry for constructing an overcrossing, grading and oiling on the Hinkle-Bucks Corner Section of the Hermiston Highway in Umatilla County, completed September 28, 1956.

"Contract No. 4662 with Harbert Bros. for slide correction on the Shady-Booth Ranch Section of the Pacific Highway in Douglas County, completed August 30, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4670 with Central Paving Company for oiling, Division No. 2 Oiling Project in Marion, Lincoln, Linn and Benton Counties, completed August 31, 1956.

"Contract No. 4671 with The United Contracting Company for paving on the Rockaway (Park St.) City Street Section in Tillamook County, completed September 26, 1956.

"Contract No. 4696 with The United Contracting Company for paving on the Reedsport (Winchester Ave.) City Street Section in Douglas County, completed October 6, 1956.

"Contract No. 4697 with Porter W. Yett for paving on the Empire (Michigan Ave. & Morrison St.) City Street Section in Coos County, completed August 17, 1956.

"Contract No. 4700 with Cartwright Construction Co. for grading and stone base on the Barnes Butte County Road Section in Crook County, completed October 10, 1956.

"Contract No. 4702 with George A. Macon Painting Co. for painting the Coos Bay Area Bridges on the Oregon Coast and Powers Highway in Coos and Lane Counties, completed September 30, 1956.

"Contract No. 4717 with Babler Bros., Inc. for stone base and oiling on the Juniper Ridge-Wagontire Section of the Lakeview-Burns Highway in Harney County, completed September 19, 1956.

"Contract No. 4719 with Trowbridge Electric Co. for installing the Newport Traffic Signals on the Oregon Coast Highway in Lincoln County, completed October 19, 1956.

"Contract No. 4723 with Warren Northwest, Inc. for grading and paving on the Union St.-Bellevue St. (Salem) Section of the Silver Creek Falls Highway in Marion County, completed October 12, 1956.

"Contract No. 4724 with J. N. Conley for grading on the Humbug Summit Section of the Sunset Highway in Clatsop County, completed September 25, 1956.

"Contract No. 4731 with K. L. Clark for constructing a dwelling at Austin on the John Day Highway in Grant County, completed September 28, 1956.

"Contract No. 4736 with Umpqua River Navigation Company for grading and paving on the Florence (Gallagher St.) City Street Section in Lane County, completed October 15, 1956.

"Contract No. 4739 with Vernie Jarl for grading and oiling on the Van Sycle-Helix Section of the Helix-Van Sycle Road in Umatilla County, completed September 28, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4740 with T. W. Thomas for paving on the Vale (Natchez and "F" St.) City Street Section in Malheur County, completed September 21, 1956.

"Contract No. 4748 with R. H. Jones for constructing a sand shed at Bend in Deschutes County, completed October 26, 1956.

"Contract No. 4753 with Bechtel Brothers for constructing a sand shed at Mission Road Junction on the Old Oregon Trail Highway in Umatilla County, completed October 1, 1956.

"Contract No. 4757 with Kelly Construction Company for slide correction on the Ruthton Hill Section of the Columbia River Highway in Hood River County, completed September 17, 1956.

"Contract No. 4763 with Phoenix Sand and Gravel for embankment repair on the Torrent Creek Section of the Pacific Highway in Jackson County, completed October 8, 1956.

"Contract No. 4764 with Vernie Jarl for furnishing crushed material in stockpiles on the Deschutes River-Quinton Section of the Columbia River and Sherman Highways in Sherman and Gilliam Counties, completed October 10, 1956.

"Contract No. 4773 with A. T. Fox for grading and paving on the 8th St.-14th St. (Coos Bay) Section of the Empire-Coos Bay Highway in Coos County, completed October 22, 1956.

"Contract No. 4780 with Umpqua River Navigation Company for grading and pavement widening on the Glenada Section of the Oregon Coast Highway in Lane County, completed October 19, 1956.

"Contract No. 4784 with A. T. Fox for grading and paving on the Broadway-Front St. Connection (Coos Bay) Section of the Oregon Coast Highway in Coos County, completed October 17, 1956.

"Contract No. 4785 with Rupert and Fish for embankment repair on the Milo-Corn Creek Section of the Tiller-Trail Highway in Douglas County, completed September 20, 1956.

"Contract No. 4789 with C. C. Meisel for furnishing crushed material in stockpile on the Santiam Jct. Section of the Santiam and North Santiam Highways, in Lane and Jefferson Counties, completed October 12, 1956.

"Contract No. 4791 with Fred J. Stubbert for drainage improvement on the Sherman St.-Pine St. (Sutherlin) Section of the Elkton-Sutherlin Highway in Douglas County, completed October 19, 1956.

"Contract No. 4793 with Eugene Gardens for grading, pavement widening, and illumination of the Lookout Point Lake Park Interchange Section of the Willamette Highway in Lane County, completed October 17, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4794 with C. E. Leseberg for grading and paving of the Verde Drive - S. W. 11th Street (Ontario) Section of the Old Oregon Trail Highway in Malheur County, completed October 4, 1956.

"Contract No. 4800 with Inland Construction Company for grading and paving of the 2nd St.-5th St. (S. Milwaukie) Section of the 7th Avenue (County Road) in Clackamas County, completed October 3, 1956"

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 56 shall be entered in the minutes and records of the Commission as of the 8th day of November, 1956.

EXHIBIT "E"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the relocated Elkhead Road-Rice Hill Unit, Divide-Rice Hill Section of the Pacific Primary Highway No. 1, located in Douglas County, the northerly terminus of which is at Highway Engineer's Survey Station 685+48 and the southerly terminus of which is at Highway Engineer's Survey Station 1050+27.4 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the old right of way is no longer needed for state highway purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Douglas County and the State Highway Commission entered into a throughway agreement on the 22nd day of October, 1956, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be abandoned, to the County by the State Highway Commission, as part of the Pacific Highway; and that Unit "A" would be maintained thereafter by the County as part of the county road system as long as needed for the service of persons living thereon or for a community served thereby; and

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right of way of the Elkhead Road-Rice Hill Unit, Divide-Rice Hill Section of the Pacific Highway, together with other real property acquired by the State for roadway right of way and other public purposes, is needed and valuable for right of way and public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the former right of way of said highway referred to herein as Unit "A" as well as all the property affected by reason of said relocation;

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, IT IS HEREBY ORDERED AND RESOLVED that:

1. The portion of the former right of way, which by reason of the relocation of the Elkhead Road-Rice Hill Unit, Divide-Rice Hill Section of the Pacific Highway is no longer within the boundaries of the new right of way, is identified as Unit "A" and described as follows:

Unit "A"

All the land situated within the right of way boundaries

EXHIBIT "E" (Cont)

of the Pacific Highway as formerly routed, beginning at the easterly right of way line of said highway as relocated at Highway Engineer's Survey Station 1075+25 of said highway as formerly routed in the northeast quarter of the northwest quarter (NE 1/4-NW 1/4), Section 22, Township 23 South, Range 5 West, W.M.; thence southerly via said former highway to State Highway Engineer's Survey Station 1170+60 of said former highway at the easterly right of way line of said relocated highway in the southeast quarter of the southeast quarter (SE 1/4-SE 1/4), Section 28, Township 23 South, Range 5 West, W.M.

2. Pursuant to the aforesaid agreement entered into with Douglas County on the 22nd day of October, 1956, Unit "A" is hereby duly abandoned as part of the Pacific Highway and the state highway system; and all right, title, and interest which the State has in the right of way of Unit "A" herein described hereby passes to and vests in the said Douglas County. Unit "A" is shown on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof.

3. The right of way of the former and of the relocated Elkhead Road-Rice Hill Unit, Divide-Rice Hill Section of the Pacific Highway, together with the real property acquired by the State for roadway right of way and other public purposes, as indicated on Exhibit "A" attached hereto shall be retained and held by the State.

4. This Abandonment and Retention Resolution No. 321 be entered in the minutes and records of the Oregon State Highway Commission as of the 8th day of November, 1956, and the Secretary is ordered to mail a certified copy hereof to the Douglas County Court.

EXHIBIT "F"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, ORS 366.130 authorizes and requires the State Highway Commission, with the approval of the Attorney General, to appoint a Chief Counsel; and

WHEREAS, Mr. Clifton W. Enfield, presently Chief Counsel, has submitted his resignation, effective December 1, 1956, for the purpose of accepting an appointment as Solicitor for the Bureau of Public Roads; and

WHEREAS, Mr. Clifton W. Enfield's resignation as Chief Counsel will become effective prior to the next meeting of this Commission, and it is therefore necessary to appoint his successor at the present time in order to prevent the office of Chief Counsel from being vacant, and to insure uninterrupted conduct of the legal business of the Highway Commission; and

WHEREAS, Mr. Robert L. May, Jr., is an attorney and a member in good standing of the Oregon State Bar, and is admitted to practice before all of the courts of the State of Oregon and before the United States District Court for the District of Oregon, and is qualified to discharge the duties of Chief Counsel for the Commission;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That subject to the approval of the Attorney General of the State of Oregon, Mr. Robert L. May, Jr., is hereby appointed as Chief Counsel for the Highway Commission, to serve in such capacity for a term of four years, said appointment to become effective and said term of four years to commence upon December 1, 1956.

2. That the salary to be paid to Mr. Robert L. May, Jr., is hereby fixed by the Commission in the sum of $738 per month.

3. That, in addition to the salary which shall be paid to Mr. Robert L. May, Jr., he shall be entitled to and shall be paid his actual traveling and other expenses as may be incurred in the performance of his official duties.

4. That a duly certified copy of this resolution be delivered to the Attorney General of the State of Oregon, and that he be respectfully requested to approve the appointment of Mr. Robert L. May, Jr., as Chief Counsel for the State Highway Commission.

5. This this resolution be entered into the minutes and records of the Commission as Miscellaneous Resolution No. 201 this 9th day of November, 1956.

R E S O L U T I O N

WHEREAS, under the provisions of ORS 374.310, the State Highway Commission, with respect to state highways and sections of state highways which are not access controlled highways, is authorized and directed to adopt reasonable rules and regulations pertaining to and issue permits for the construction of any approach road, facility, thing or appurtenance upon the right of way of any state highway, and

WHEREAS, on February 6, 1950, the State Highway Commission did adopt a certain resolution together with the standard permit form for the construction of approach roads on the rights of way of state highways, and

WHEREAS, the said resolution did authorize certain officers and personnel of the State Highway Department to sign the said permits in the name of and for the State Highway Commission, and

WHEREAS, certain changes in the officers and personnel of the State Highway Department have made it necessary that the said resolution be amended in respect to those persons authorized to sign permits in the name of and for the State Highway Commission, and

WHEREAS, since the adoption of the said resolution, the legislature did amend ORS 374.310 by Chapter 424, Subsection II, Oregon Laws 1955, and

WHEREAS, it is proper that this commission re-examine its resolution in respect to the legislative amendment hereinabove referred to.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. That certain resolution dated February 6, 1950 providing for rules and regulations and a standard permit form for the construction of approach roads on the rights of way of state highways upon due consideration is hereby approved as of this date.

2. Paragraph 5 of the said resolution is hereby amended to read as follows: Whenever a permit is issued pursuant to this resolution and within the meaning and reach of ORS 374.310, such permit may, whenever convenient, be signed by the members of the Highway Commission or by a majority of the members of the commission or may be signed for the commission by any one of the following persons: The State Highway Engineer, the Deputy State Highway Engineer, any Assistant State Highway Engineer, the Director of Permits or the Assistant Director of Permits, and when so signed, such permit shall be deemed in full force and effect until the same is changed, modified, amended, or terminated by the official action of this commission.

EXHIBIT "G-1" (Cont)

3. This resolution be entered in the minutes and records of the Highway Commission as of this 8th day of November, 1956, as Special Matters Resolution No. 38a.

EXHIBIT "G-2"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the State Highway Commission adopted a resolution entitled "Miscellaneous Resolution No. 186" authorizing R. H. Baldock, State Highway Engineer, W. C. Williams, Deputy Highway Engineer, and G. S. Paxson, Assistant Highway Engineer, and W. W. Stiffler, Assistant Highway Engineer, to sign and execute for and on behalf of the State Highway Commission applications submitted to the Federal Communications Commission, Washington, D. C., for renewal of existing radio station licenses or for any change made at licensed stations or for any new stations put into operation, and

WHEREAS, certain changes in the officers of the State Highway Department have made it necessary that said resolution be amended in respect to those persons authorized to sign said applications.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. Paragraph 1 of that certain resolution adopted March 1, 1956 and entitled "Miscellaneous Resolution No. 186" is hereby amended to read as follows: The following persons are hereby authorized to sign and execute for and on behalf of the State Highway Commission any applications submitted to the Federal Communications Commission, Washington, D. C., for renewal of existing radio station licenses or for any change made at license stations or for any new stations put in operation: The State Highway Engineer, the Deputy State Highway Engineer or any Assistant State Highway Engineer.

2. That this resolution be entered in the minutes of the Oregon State Highway Commission as of this 8th day of November, 1956, as Miscellaneous Resolution No. 186a.

EXHIBIT "G-3"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, under the provisions of ORS 483.520, 483.522, 483.524, and 483.525, the State Highway Commission did adopt by diverse resolutions certain rules and regulations and standard permit forms as authorized by the said statute, which resolutions were as follows:

a. A standard permit form for the continuous operation of overwidth loads — forest products — adopted December 7, 1954.

b. A standard permit form for the continuous operation of overheight vehicles (temporary), adopted August 6, 1953.

c. A standard permit form for the continuous operation of overlength or overweight vehicles, group 1 or 2 highways (temporary), adopted July 16, 1951.

d. A standard permit form for excess length or weight, logs, poles, or piling (six wheeler), adopted July 16, 1951.

e. A standard permit form for excess length, logs, poles, or piling (four wheeler), adopted July 16, 1951.

WHEREAS, the said resolutions hereinabove referred to provided that certain officers and personnel of the State Highway Commission should sign said permits in the name of and for the State Highway Commission, and

WHEREAS, certain changes in the officers and the personnel in the State Highway Department have made it necessary that said resolutions be amended in respect to those persons authorized to sign in the name of and for the State Highway Commission.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission:

1. That certain resolution adopted December 7, 1954, providing for rules and regulations for and a standard permit form for the transportation of overwidth loads, forest products, is hereby amended so as to provide that said permits shall be valid when bearing the facsimile signature of the State Highway Engineer and bearing the signature of any of the following persons: The State Highway Engineer, the Deputy State Highway Engineer, any Assistant State Highway Engineer, the Director of Permits or the Transportation Permits Supervisor.

EXHIBIT "G-3" (Cont)

2. That certain resolution adopted August 6, 1953, providing for rules and regulations for and a standard permit form for the operation of overheight vehicles (temporary), is hereby amended so as to provide that said permits shall be valid when bearing the facsimile signature of the State Highway Engineer and bearing the signature of any of the following persons: The State Highway Engineer, the Deputy State Highway Engineer, any Assistant State Highway Engineer, the Director of Permits or the Transportation Permits Supervisor.

3. Those certain resolutions adopted July 16, 1951, providing for rules and regulations for and standard permit forms for the operation of overlength or overweight vehicles, group 1 or 2 highways (temporary), the transportation of excess length or weight, logs, poles, or piling (six wheeler), and the transportation of excess length or weight, logs, poles, or piling (four wheeler), is hereby amended so as to provide that said permits shall be valid when bearing the facsimile signature of the State Highway Engineer and bearing the signature of any of the following persons: The State Highway Engineer, the Deputy State Highway Engineer, any Assistant State Highway Engineer, the Director of Permits or the Transportation Permits Supervisor, and

4. That this resolution be entered in the minutes and records of this Commission as of this 8th day of November, 1956, as Miscellaneous Resolution No. 95a, and that the copy hereof be mailed to each of the following: The Secretary of State, the Superintendent of the State Police, and the Public Utilities Commissioner.

EXHIBIT "H-1"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Cascade Secondary Highway

Highway number 160 Route number Oregon 213

Location of Termini			Established Speed
M.P. 25.42 (250 ft. north of the north end of Milk Creek Bridge)	to M.P.	25.82 (0.11 mile south of Passmore Road)	35 M.P.H.

except that from M.P. 25.57 to M.P. 25.77 the indicated speed shall be 20 miles per hour during the hours of school crossings as required by law.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 236 be entered in the minutes and records of the Commission as of the 8th day of November, 1956.

Name of highway: Pacific Highway East

Highway number 1-E Route number US99E

Location of Termini			Established Speed
M.P. 76.20 (West City Limits of Albany)	to M.P.	76.34 (0.14 mile South and West of the West City Limits of Albany)	45 M.P.H.

except that between M.P. 76.20 and M.P. 76.28 the indicated speed shall be 20 miles per hour during the hours of school crossings as provided by law.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 234 be entered in the minutes and records of the Commission as of the 8th day of November, 1956.

EXHIBIT "H-4"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the Highway Commission on April 6, 1943 adopted a resolution designating a reduced speed zone of 15 miles per hour between M.P. 7.61 and M.P. 7.91 on the Woodburn-Sandy Secondary Highway No. 161 at Hamrick's Corner, (now known as the Woodburn-Estacada Secondary Highway), to provide safety for the traveling public; and

WHEREAS, traffic conditions have changed at said location and an engineering investigation has disclosed that said speed zone is no longer required; and

WHEREAS, said investigation further disclosed that signs denoting a speed of 15 miles per hour have long since been removed; and that the existing 85 percentile speeds are approximately 45 miles per hour.

NOW, THEREFORE BE IT, AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and affirmatively voting as follows:

1. The Commission does hereby find and declare, based upon investigations, reports and recommendations of the members or its staff, that because of changed traffic conditions a reduced speed zone is no longer required on said Woodburn-Estacada Secondary Highway between M.P. 7.61 and M.P. 7.91.

2. That this Commission does hereby declare and order that said resolution of April 6, 1943, establishing a speed zone of 15 miles per hour on the Woodburn-Estacada Secondary Highway between M.P. 7.61 and M.P. 7.91, hereby is rescinded.

3. That this speed zone resolution No. 235 be entered in the records of the State Highway Commission as of the eighth day of November, 1956.

4. That the Secretary be and he hereby is instructed to send a certified copy of this resolution to the Superintendent of State Police.

27421

EXHIBIT "I"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Ashland Undercrossing-Helman Street (Ashland) Section of the Pacific Highway in Jackson County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Ashland Undercrossing-Helman Street (Ashland) Section of the Pacific Highway, beginning at Highway Engineer's Station 79+89, a short distance south of the Southern Pacific Undercrossing near the northerly city limits of Ashland, and extending in a southerly direction to Highway Engineer's Station 141+00 at Helman Street in the city of Ashland, together with the map, which for identification purposes bears Map File No. 8B-3-17 and the date of August, 1956 (Drawing No. 1R-5-936), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "I" (Cont)

4. That heretofore by resolution of this Commission dated November 3, 1948, said section of the Pacific Highway has been designated as a throughway within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-named section of said highway should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That this resolution be entered in the minutes and records of the Commission as of the eighth day of November, 1956 as Survey Resolution No. 146.

27423

EXHIBIT "J"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the State Highway Commission in order to provide for the safe and efficient use and the orderly appearance of public highways adopted Miscellaneous Resolution No. 190, on the 1st day of March, 1956, which provided for the inclusion of a clause in all deeds conveying properties abutting upon the rights of way of any state highway, restrictions upon the use of said property for the display of any advertising sign, bill or poster within view of the adjoining highway; and

WHEREAS, the State Highway Commission in order to provide for the safe and efficient use and the orderly appearance of public highways adopted Miscellaneous Resolution No. 190a., on the 26th day of July, 1956, which provided that there be a serious attempt in negotiations for rights of way for the "Interstate System" to agree with owners of such lands to include in those instruments of conveyance restrictions upon the use of the owner's remaining land within view of the public highway, that such land would not be used for display of any advertising sign, bill or poster, except for purposes connected with the owner's use thereof; and

WHEREAS, the State Highway Commission has considered all aspects of the matter, and is of the opinion that restrictions on the display of advertising on the remaining land of owners from whom conveyances of rights of way are acquired, or in conveyances of state property abutting state highways, is not at the present time in the best interests of the State of Oregon.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission:

1. That Miscellaneous Resolution No. 190 adopted by the Commission on the 1st day of March, 1956, and Miscellaneous Resolution No. 190a., adopted by the Commission on the 26th day of July, 1956, in all particulars be and the same are hereby rescinded.

2. That this resolution be entered in the minutes and records of the State Highway Commission as of the 8th day of November, 1956 as Miscellaneous Resoltuion No. 190b.

EXHIBIT "K-1"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the eliminaton or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and purposes to relocate, construct, improve and maintain the Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way for any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway will be relocated, constructed or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway

travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full."

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said relocated Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3. That the relocation, construction, improvement and maintenance of the said Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property, or interest therein.

EXHIBIT "K-1" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of November, 1956, as Condemnation Resolution No. 684.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 684, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27427

EXHIBIT "K-2"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive- Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion,

EXHIBIT "K-2" (Cont)

acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "K-2" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of November, 1956, as Condemnation Resolution No. 685.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 685, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-3"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive- Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has be a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above

purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and

EXHIBIT "K-3" (Cont)

in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of November, 1956, as Condemnation Resolution No. 686.

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 686, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27433

EXHIBIT "K-4"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above

EXHIBIT "K-4" (Cont)

purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels

of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this eighth day of November, 1956, as Condemnation Resolution No. 687.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 687, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-5"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, the State Highway Commission, on the 1st day of March, 1956, adopted Condemnation Resolution No. 586, declaring the necessity of acquiring certain parcels of property situated in Washington County, Oregon, for right of way purposes for the widening in part, relocating in part, construction, improvement and maintenance of the Cornelius-Hillsboro Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway; and

WHEREAS, the State Highway Commission on the 26th day of April, 1956, adopted a resolution amending the above-mentioned condemnation resolution No. 586; and

WHEREAS, the State Highway Commission after further investigation has found that the best interests of the State and the property owners concerned require that certain changes be made in the Exhibit "A" incorporated into said resolution, said changes being necessary to reflect the location of access reservations;*

WHEREAS, the State Highway Commission, after further investigation has found that the best interests of the State and the property owners concerned require that certain changes be made in the Exhibit "A" incorporated into said resolution, said changes being necessary to reflect the correct amount of property necessary to be acquired, the description of the property, or the number and/or location of access reservations;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That page 26 of Exhibit "A" of said Condemnation Resolution No. 586 be, and the same hereby is, amended as shown on the attached list paginated to correspond with the page of said Exhibit "A" herein amended, which attached list is marked Exhibit "A" and by this reference made a part hereof.*

2. That this resolution be entered in full in the minutes and records of this Commission this 8th day of November, 1956.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway

Commission, Salem, being Resolution No. 586, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-6"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Mosier-The Dalles Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter

described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Mosier-The Dalles Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Mosier-The Dalles Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "K-7"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire

an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "K-7" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this ninth day of November, 1956, as Condemnation Resolution No. 689.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 689, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-8"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road, or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and

WHEREAS the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which is necessary

for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the relocation, construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit A under the name of the record owner or reputed owner, and the Commission's respective file number; and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit A.*

3. That the relocation, construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest; and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking; and in the event that no satisfactory agreement can be reached, then the Chief

EXHIBIT "K-8" (Cont)

Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 9th day of November, 1956, as Condemnation Resolution No. 690.

---

*FOOTNOTE:

EXHIBIT "K-9"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Pacific Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Pacific Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "K-10"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development. recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS the Beverly Beach State Park has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS the State Highway Commission plans and proposes to enlarge, develop, and maintain the Beverly Beach State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development, and maintenance of the Beverly Beach State Park fee simple title to a parcel of real property located in Lincoln County, Oregon and described as follows, to wit:

A parcel of land lying in the North half of the Southeast quarter (N 1/2 SE 1/4) of Section 5 and the West half of the Southwest quarter (W 1/2 SW 1/4) of Section 4, Township 10 South, Range 11 West, Willamette Meridian, Lincoln County, Oregon, more particularly described as follows:

Beginning at the intersection of the easterly right of way line of the abandoned Oregon Coast Highway and the South line of said

EXHIBIT "K-9" (Cont)

2. That the widening, improvement and maintenance of the said Pacific Highway and the highway facilities for which each of the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 9th day of November, 1956, as Condemnation Resolution No. 691.

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 691, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-10" (Cont)

North half of the Southeast quarter (N 1/2 SE 1/4) of Section 5; thence northeasterly along the said easterly right of way line of the abandoned Oregon Coast Highway 985 feet, more or less, to the southerly line of an existing logging road; thence approximately along the southerly line of said logging road as follows: South 24° 42' East 255 feet; South 87° 38' East 147.3 feet; South 37° 44' East 144.4 feet; South 65° 30' East 120.9 feet; South 48° 47' East 274.4 feet; North 86° 15' East 152 feet; North 76° 22' East 270.3 feet; North 85° 13' East 364.1 feet; North 38° 32' East 198.4 feet; North 88° 30' East 190.3 feet; South 57° 40' East 209.2 feet; South 84° 20' East 164.6 feet; thence leaving the southerly line of said road East 396 feet, more or less, to the East line of said West half of the Southwest quarter (W 1/2 SW 1/4) of Section 4; thence South along said East line 895 feet, more or less, to a point which is 450 feet South of the Northeast corner of the Southwest quarter of the Southwest quarter (SW 1/4 SW 1/4) of said Section 4; thence West parallel to the North line of said Southwest quarter of the Southwest quarter (SW 1/4 SW 1/4) of Section 4, a distance of 660 feet, more or less, to the East line of the Northwest quarter of the Southwest quarter of the Southwest quarter (NW 1/4 SW 1/4 SW 1/4) of said Section 4; thence North along said East line 450 feet to the North line of the Southwest quarter of the Southwest quarter (SW 1/4 SW 1/4) of said Section 4; thence West along said North line of the Southwest quarter of the Southwest quarter (SW 1/4 SW 1/4) of said Section 4 and the North line of the South half of the Southeast quarter (S 1/2 SE 1/4) of said Section 5 to point of beginning, containing 37.7 acres, more or less.

2. That the above-described real property and the park and recreational purposes for which it is being acquired is necessary for the convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

3. That the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed, and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "K-10" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 9th day of November, 1956, as Condemnation Resolution No. 692.

EXHIBIT "K-11"

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part and relocate in part, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part and relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening in part and relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access

to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part and relocation in part, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening in part and relocation in part, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is

EXHIBIT "K-11" (Cont)

authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 9th day of November, 1956, as Condemnation Resolution No. 771.

Minutes of November 8 and 9, 1956

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; of for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels or for the elimination or prevention of hazardous points of entry from adjacent property to state highways or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above

EXHIBIT "K-12" (Cont)

purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the siad North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the owners remaining after the appropriation of the said real property; except, that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and

EXHIBIT "K-12" (Cont)

in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 9th day of November, 1956, as Condemnation Resolution No. 800.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 800 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L"

Minutes of November 9, 1956

R E S O L U T I O N

The Legislative Assembly of the State of Oregon by Chapter 475, Oregon Laws 1953, created the Columbia River Gorge Commission for the purpose of preserving, developing and protecting the recreation, scenic and historic areas of the Columbia River Gorge without, however, appropriating any funds to carry out the said purposes.

The plans and purposes of the Columbia River Gorge Commission of preserving, developing and protecting the recreation, scenic and historic areas of the Columbia River Gorge in certain respects are likewise considered by the Highway Commission to be desirable and to fit in with plans and purposes for the culture of trees, preservation of scenic places adjacent to state highways, and for the development of parks and roadside development which will contribute to the convenience of the public and the general welfare and pleasure of the motoring public.

The Highway Commission has heretofore determined that it would, within the limits of its legal authority and resources and bearing in mind its responsibilities to the general public in the construction of highways and development of parks presently within its state park system, cooperate with the Columbia River Gorge Commission in accomplishing the aforementioned purposes.

To further the cooperation with the Columbia River Gorge Commission the Highway Commission heretofore set apart $50,000.00 for the purchase of property recommended by the Columbia River Gorge Commission, and which were found by the State Highway Commission to be desirable and to fit in with its plans and purposes.

At present date only a portion of the said $50,000.00 has been expended, and the Columbia River Gorge Commission has requested that the unexpended balance be continued for said purpose.

NOW, THEREFORE, BE IT AND IT IS HEREBY RESOLVED:

1. That the Highway Commission continue to cooperate with the Columbia River Gorge Commission by the purchase of real property recommended by said Commission when, in the opinion of the Highway Commission, the said real property is deemed necessary for the culture of trees and the preservation of scenic places and other objects of attraction or scenic value adjacent to, along or in close proximity to state highways, or which may be conveniently reached from or by a public highway, or when said real property is found necessary for the development and maintenance of parks, parking places, auto camps, campsites, roadside development, recreational grounds or resorts, forest or timbered areas, or other places of attraction and scenic value, and which are necessary to the convenience

EXHIBIT "L" (Cont)

of the public, and which will contribute to the general welfare and pleasure of the motoring public or road user.

2. That the fund consisting of the unexpended balance of the $50,000.00 heretofore set apart for the aforementioned purpose be held available for the purchase of real property when recommended by the Columbia River Gorge Commission and approved by the Highway Commission.

3. That this Resolution be entered in the minutes and records of this Commission as of the 9th day of November, 1956, as State Parks Resolution No. 8.

Portland, Oregon
December 17, 1956

The Oregon State Highway Commission met in regular session at 10:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Acting Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows were opened and read aloud by the Secretary who announced that the Commission would award contracts in the same room at 3:00 p.m.

DOUGLAS COUNTY
GRADING MYRTLE CREEK-MISSOURI BOTTOM UNIT, MYRTLE CREEK-CANYONVILLE SECTION OF THE PACIFIC HIGHWAY

C. R. O'Neil, Creswell	$1,246,997.00
Kuckenberg Construction Co., Portland	1,304,280.00
Gibbons and Reed Co., Portland	1,790,500.00
Fred H. Slate Co. and E. C. Hall Co., Portland	1,816,532.50

JACKSON COUNTY
GRADING AND PAVING ASHLAND UNDERCROSSING-HELMAN STREET (ASHLAND) SECTION OF THE PACIFIC HIGHWAY, AT ASHLAND

J. C. Compton Co., McMinnville	$ 165,648.50
Hughes & Dodd Co. and True Mix Equipment Co., Medford	171,225.00
M. C. Lininger & Sons, Medford	173,565.00
R & M Construction Co., Central Point	194,383.40
Charles R. Schmiedeskamp, Portland	209,850.00
George E. Berry, Beaverton	218,995.00

MALHEUR COUNTY
GRADING AND PAVING ON THE BURNS JUNCTION-BASQUE MAINTENANCE STATION SECTION OF THE I-O-N HIGHWAY

Central Paving Co., Independence	$ 263,160.40
J. C. Compton Co., McMinnville	269,505.50
Babler Bros., Inc. and Rogers Construction, Inc., Portland	275,640.00

Burns Junction-Basque Maintenance Station Section - Cont.

Warren Northwest, Inc., Portland	$ 277,926.50
L. W. Vail Co., Inc., Pasco, Wn.	285,541.00
The Central Heating Co., Ore. Ltd., Eugene	292.052.50
Gibbons & Reed Co., Portland	313.059.50
C. E. Leseberg, Nyssa	342,332.00

MULTNOMAH COUNTY
ILLUMINATION ON ROOSTER ROCK PARK INTERCHANGE ON COLUMBIA RIVER HIGHWAY, BELOW CROWN POINT VISTA HOUSE

J. J. Walton, Salem	$ 8,323.00
W. R. Grasle Co., Portland	8,788.00
Rochat Electric, Portland	8,950.00
Trowbridge Electric Co., Roseburg	9,950.00
Olson Electric Co., Vancouver, Wn.	13,850.00

UMATILLA COUNTY
GRADING AND PAVING ON HINKLE-BUCKS CORNER SECTION OF THE HERMISTON HIGHWAY

E. H. Itschner Co., Molalla	$ 59,519.00
Vernie Jarl, Gresham	60,456.00
Eugene Gardens, Eugene	60,685.00
L. W. Vail Co., Inc., Pasco, Wn.	61,975.00
C. C. Meisel, McMinnville	69,086.00
Erland and Blickle, Portland	69,482.00

WALLOWA COUNTY
GRADING AND PAVING ON WEST 3RD ST. - EAST 1ST ST. (ENTERPRISE) SECTION ON THE WALLOWA LAKE HIGHWAY AND MAIN STREET

H. J. and H. W. Miller, Baker	$ 23,970.00

COOS COUNTY
GRADING ON DAVIS SLOUGH-BEAVER LOOKOUT SECTION OF THE RELOCATED OREGON COAST HIGHWAY

Morrison-Knudsen Co., Inc., Seattle, Wn.	$ 962,295.00
Peter Kiewit Sons' Co., Vancouver, Wn.	1,136,050.00
Earl L. McNutt Co., Eugene	1,137.359.50
Fred H. Slate Co., and E. C. Hall Co., Portland	1,199,590.00
J. Ira McNutt Construction Co., Springfield	1,220,032.50
Kuckenberg Construction Co., Portland	1,233,390.00
Coos Bay Dredging Co., Inc., Coos Bay	1,395,670.00

The State Parks Superintendent reported on the following park matters:

1. Request of North Bend Chamber of Commerce for development of an overnight camping area on a narrow strip of land north of Coos Bay Bridge and between the old Oregon Coast Highway right of way and the bay: This location, the Parks Superintendent stated, is not suited for overnight camping as it is very steep and is exposed to northwest winds. The property was purchased, he recalled, with the thought of preserving the growth in the area as a timber wayside. In view of these conditions, he recommended and the Commission approved denial of the request.

2. Request of the City of Cottage Grove for development of a state park on the north side of the entrance road to their city from the Pacific Highway: The Parks Superintendent reported that this is a beautiful, moderately flat, and partially timbered area and is an excellent site for picnics. The land was purchased as a source of road-building material and is not now considered needed for that purpose. He pointed out that the land lies very close to the city of Cottage Grove, adjoining their fairgrounds and race track, and would be used primarily by the people of Cottage Grove. He recommended that the request be denied but that the area be made available to the City for park development by granting to the City a revokable lease if they wish to make the development. The Commission accepted his recommendation.

3. Proposed extension of lease with Mr. and Mrs. J. L. Campbell for concession privileges at Silver Falls State Park: The Parks Superintendent reported that the Campbells have been operating the Silver Falls Lodge for the past three years and their service has been quite satisfactory. The business conducted by the Campbells is not large but returned to the State $638.87 in 1956. He recommended that the lease be extended to cover the year 1957 under the same terms as the 1956 lease. The Commission approved such lease extension.

4. Request of Cooperative Extension Service of Oregon State College for use of a 19-acre tract in Silver Falls State Park for a tree-thinning project in connection with a study of the use of wooded lots by 4-H Clubs: This request, the Parks Superintendent stated, was made by Mr. Gary H. Sander, Forest Products Marketing Specialist, and Mr. Hollis Ottaway, County Extension Agent. The selected area is at the junction of the roads to Silver Creek Youth Camp and the Smith Creek Camp which is heavily timbered with fir trees from 40 to 60 years old. It is estimated that through a period of 25 years this 19-acre tract can produce approximately $1,000 per acre in this type of selected logging. As the demonstration will not provide any real detriment to the park and will produce a valuable demonstration, the Parks Superintendent recommended that the request be approved. The Commission accepted his recommendation.

5. Report of the Parks Superintendent concerning the employment of Mr. Kenneth Wolfe as requested by the Columbia Gorge Commission: He advised that, as instructed by the Commission at the November meeting, he has investigated this request very carefully but there appears to be no legal way whereby the Highway Commission can hire Mr. Wolfe. He would have to be an employee of the Highway Commission, but his age is against him, inasmuch as he will be 65 years old on December 12, 1956. Moreover, according to the Civil Service Department, the list of applicants for Right of Way agents is full. He mentioned also that thought was given to hiring him as a forester and as a real estate broker, but Mr. Wolfe does not have a real estate broker's license. The Commission accepted the report and ordered the information conveyed to the Gorge Commission. The Secretary mentioned that when Mr. Ruby appeared before the Commission in November, he also brought up the matter of having the Gorge Commission report directly to the Highway Commission. Chairman Chandler stated that he preferred to have the Gorge Commission present their matters to the Parks Superintendent, who, in turn, will report to the Highway Commission. The Commission decided to adhere to past practice in regard thereto, and to the policy heretofore adopted with regard to the definition of lands that the Commission will consider as desirable for state park purposes.

6. Request of Central Lincoln People's Utility District for a supplement to the agreement of August 17, 1956, increasing the minimum cost of furnishing power to the Fogarty Creek State Park area from $48.00 to $108.00 per year: The Parks Superintendent stated that it is planned to place electric stoves and additional lighting in the area so it appears that the power bills will far exceed the $108.00 minimum. He explained that the increase has been caused by the necessity to extend the power line southward approximately 900 feet to serve an additional area, which extension will cost the Utility District approximately $900.00. Upon his favorable recommendation the Commission approved the supplement to the previous agreement.

7. Request of Dr. R. E. Rinehart, Secretary of the Nehalem Bay Expansion Association, Inc., for installation of signs at Oswald West State Park indicating the location of Short Sand Beach: The Parks Superintendent pointed out that although the name of the park itself has been changed from Short Sand Beach State Park to Oswald West State Park, the Commission did not change the name of the beach or the creek passing through the park or any other features. It was his feeling that to erect large signs on the highway indicating Short Sand Beach would confuse the traveling public, but he recommended that finger-board signs be maintained on trails within the park directing people to Short Sand Beach. The Commission accepted his recommendation.

8. Request of City of Waldport for permission to construct restroom facilities on state park property at Waldport for convenience of members of the Ground Observation Corps: This area, the Parks

Superintendent stated, is known as the South Waldport Ocean Wayside and a permit has been granted to construct a small observation building on the area for the use of the Ground Observation Corps. Construction of a small toilet facility, he stated, would not interfere with the use of the park and would be of a temporary nature. He recommended in view thereof, that the City of Waldport be granted a permit to construct such a facility at the expense of the City in the north end of the Wayside. The Commission adopted the recommendation.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

NOTE: In this connection the Commission discussed with the Engineer and with the Right of Way Engineer an option obtained from Mr. Lew Wallace, Portland, to acquire a parcel of property at the proposed Tunnel portal on the Southwest 14th Avenue Section of the Sunset Highway. The Right of Way engineer stated that he could recommend acquisition of the land as far as price is concerned, but he questioned the advisability of purchasing the tract now, due to the indefiniteness of highway plans in this area . The Commission deferred action on the matter until later in the day. (The subject was again considered later in the session where it was decided not to purchase Mr. Wallace's land. See ahead for additional minute entry.)

A report on miscellaneous properties sold since the last Commission meeting was presented by the Right of Way Engineer and accepted by the Commission. (For details see Miscellaneous Sales Report dated December 17-18, 1956, in General Files.)

The Right of Way Engineer also presented a supplemental rental report prepared by the Property Manager, showing new rentals and termination of rentals during the period from October 31, 1956, to December 6, 1956. The Commission approved the report. (For details see Supplemental Rental Report dated October 31 to December 6, 1956, in the General Files.)

The Right of Way Engineer reported that several parcels of property acquired for highway purposes are no longer needed for such purposes and may be sold. He presented a list of the properties and recommended that authority be granted him to advertise them for public sale. After careful consideration the Commission approved the sale of the following properties by adopting the attached resolutions relative thereto, marked EXHIBITS "B-1" through "B-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

a. The former McDonald property, File No. 22822, on the Beaverton-Forest Grove Section of the Tualatin Valley Highway in Washington County. 0.27 acre with one point of unrestricted access for a minimum price of $1,500. (See EXHIBIT "B-1")

b. The former Inkley property, File No. 24399, on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County. 0.31 acre with one unrestricted point of access to the Tualatin Valley Highway, for a minimum price of $1,620. (See EXHIBIT "B-2")

c. The former DeLespinasse property, File No. 19884, on the Barbur Boulevard-Boones Ferry Road Section of the R. H. Baldock Freeway in Washington County. 1.64 acres without access to the Freeway or to the Lower Boones Ferry Road, for a minimum price of $1,640. (See EXHIBIT "B-3")

d. The former O'Connell property, File 24575, on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County. 0.27 acre with two points of unrestricted access for a minimum price of $7,500. (See EXHIBIT "B-4")

e. The former Burson property, File 19838, on the Washburn-North Plains Section of the Wilson River Highway in Washington County. 0.33 acre without access to the highway, for a minimum price of $3,750. (See EXHIBIT "B-5")

f. The Right of Way Engineer also requested authority to offer for public sale 2.94 acres of the former Faix property located on the Gervais-Hayesville Unit of the R. H. Baldock Freeway in Marion County. This property, he stated, has been used as a borrow site and has been excavated to a depth of approximately 6 to 8 feet, consequently is filled with water 6 or 7 months of the year. Also, an easement has been granted to the Bonneville Power Administration which covers a majority of this parcel. He recommended that authority be granted to offer the land for sale at a minimum price of $150.00 without access to the Freeway and subject to the power line easement. The Commission granted the authority.

The matter of formally conveying to Benton County the old Tampico-Lewisville Highway was considered. The Right of Way Engineer explained that this highway was formerly on the State Secondary Highway System but was abandoned several years ago in favor of Benton County for use as a County Road, however, the right of way still is in the name of the State. A "Relinquishment of Title" instrument, he stated, is necessary to clarify the situation, and he recommended approval of such an instrument. The Commission accepted his recommendation.

The Commission considered a proposed sale to a Mr. Claude Kerns, of approximately 50 acres of excess land for the sum of $1,000. The Right of Way Engineer explained that in 1953 the Commission acquired from Mr. Kerns as a source of cinder roadbuilding materials,

certain property located in Lot 4, Section 4, Township 40 South, Range 8 East, on the Klamath Falls-Keno Section of the Green Springs Highway in Klamath County. In the original transaction with Mr. Kerns, he said, it was also necessary to secure an easement for a haul road, and a stockpile site, consisting of 1.33 acres. Also, a number of construction obligations were demanded by Mr. Kerns as a part consideration of the sale to the State. It so happens that the property is not needed for state highway purposes and Mr. Kerns would like to get it back and has agreed to pay the sum of $1,000 for the 50 acres of land, which is the same price that the State paid for it; moreover, he has also agreed to accept the 1.33 acres which was acquired for a stockpile site, plus 7.7 acres for a haul road easement, in exchange for the release of the construction obligations incurred in the original transaction. As the property is no longer needed for highway purposes, and as the State will not suffer a financial loss in the matter, he recommended that the transaction be approved. The Commission approved the transaction as recommended.

Sale of timber on the Reckon Quarry Site on the Alsea-Deadwood Highway near Alsea, in Benton County, was discussed. This timber, the Right of Way Engineer explained, has been cruised by a State timber cruiser at a value of $360.00, and Mr. J. F. Conatser has offered to pay such sum for it. The removal of the timber, he said, will be to the State's advantage in operation of the quarry site, in view of which he recommended that the timber be sold to Mr. Conatser at such figure. The Commission approved the sale for $360.00.

Renewal of a lease with Union Pacific Railroad covering a stockpile storage site at Albina in Portland was recommended by the Right of Way Engineer who stated that the present lease expires December 31, 1956, and that it should be extended for a period of 5 years, consideration $10.00 per year. The Commission approved the lease extension as recommended.

The matter of a "Trust Agreement" with the Bonneville Power Administration concerning relocation of a structure on The Dalles-Golden Dale electric transmission line was also presented by the Right of Way Engineer. He explained that in performing construction work on the Columbia River Highway, it is necessary to relocate the structure carrying the electric transmission line. To cover the cost of this move which is to be performed by the Bonneville Power Administration, it is necessary for the State to deposit with the Bonneville Power Administration in advance, the sum of $3,700 and to execute a form of "Trust Agreement". He recommended that the deposit be made and that the "Trust Agreement" be approved. The Commission accepted his recommendation.

The Acting Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements, or for other purposes, and to tender offers for the same in conformity with

instructions given him by the Commission's resolution dated December 20, 1951.

Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway

R-25853 - J. Lester Horigan and Alma F. Horigan, legal owners; Henry W. Lever, contract purchaser
Revised resolution to correct size of corrugated metal tube undercrossing from 72" to 78", and to change location from Station 625+00 to 605+00

Pistol River Section of the Oregon Coast Highway

R-25869 - Marion F. Walker and Mildred Walker, husband and wife (Curry County)
Parcel No. 1: 34.5 acres for Roadbuilding Material
Parcel No. 2: 0.15 acre Haul Road Easement

Davis Slough-Bandon Section of the Oregon Coast Highway

R-25897 - Al Peirce and Hilda Peirce, husband and wife; Menasha Plywood Corporation
Right of Way (Coos County)
Parcel No. 1: 87.0 acres
Parcel No. 2: 5.0 acres
Parcel No. 3: 0.3 acre

Mosier-The Dalles Section of the Columbia River Highway

R-25813 - Earl E. Smith and Agnes Smith
Right of Way (Wasco County)
Parcel No. 1: 0.1 acre
Parcel No. 2: 1,122 square feet
(Amendment to authorize condemnation of additional Parcel No. 2)

Klamath Falls, West Side By-Pass Section of The Dalles-California Highway

R-23137 - Kathryn Geis
Right of Way (Klamath County)
0.25 acre

R-23132 - Edward C. Clark and Helen G. Clark
Right of Way (Klamath County)
0.06 acre

Pendleton-Pilot Rock Section of the Pendleton-John Day Highway

R-25047 - Ray V. Gilham and Winifred J. Gilham, husband and wife
Right of Way (Umatilla County)
0.011 acre

Cornelius-Hillsboro Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway

R-25338 - Southern Pacific Company, the heirs at law of Benjamin Scholfield and Sarah V. Scholfield, et al.
Right of Way (Washington County)
0.07 acre

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-25032 - Grace M. Powell
Right of Way (Multnomah County)
23,000 square feet

R-20986 - Hazel D. Clark; William A. Ekwall and Lina Ekwall, husband and wife; et al.
Right of Way (Multnomah County)
0.823 acre

R-25801 - Ove Hartmann Petersen and Eva Merle Petersen
Right of Way for Street Widening (Multnomah County)
6,280 square feet

R-25802 - Carrie E. Tibbits, legal owner; Eldreidge O. McGriff and Christine McGriff, contract purchaser
Right of Way for Street Widening (Multnomah County)
6,280 square feet

R-22722 - Fred R. Chapman and Ina C. Chapman
Right of Way (Multnomah County)
3,800 square feet

R-22600 - Henry Adams and Maudie L. Adams, et al.
Right of Way (Multnomah County)
1,118 square feet

R-25021 - Capitol Hill Methodist Church, an Oregon corporation; City Church Extension Society of the Methodist Episcopal Church of Portland, Oregon, an Oregon corporation, et al.
Right of Way (Multnomah County)
750 square feet

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway (Cont)

R-22721 - Charles W. Richterich, legal owner; Lloyd Asburry and Maryan R. Asburry, contract purchasers, et al.
(Multnomah County)
Parcel No. 1: 22,663 square feet for Right of Way
Parcel No. 2: 11,053 square feet for Right of Way
Parcel No. 3: 2,200 square feet for Right of Way for street widening

R-24043 - Portland Trust Bank, an Oregon corporation; Allen C. Park and Alice A. Park
Right of Way (Multnomah County)
700 square feet

Klamath Falls, West Side-By-Pass Section of The Dalles-California Highway

R-23038 - Carl N. Braathen, Henry W. Spooner and Juliet I. Spooner
Right of Way (Klamath County)
950 square feet

Siletz-Newport Section of the Oregon Coast Highway

R-4251 - F. R. Salway
Right of Way (Lincoln County)
4.70 acres

West Approaches to Salem Bridge - Willamina-Salem Highway

R-20547 - James Rowland and Clara Rowland
Right of Way (Polk County)
0.11 acre

Right of way maps, construction plans and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Acting Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBITS "O-1" through "O-11", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission accepted a report submitted by the Acting Chief Counsel enumerating details concerning cases that have been tried in court since the Commission meeting held on November 8 and 9, 1956, as follows:

REPORT OF CONDEMNATION CASES TRIED NOVEMBER 7 TO DECEMBER 7, 1956

Case	County	Highway	Section	State's Offer	Defendant's Demands	Verdict
Fischer L-2369 R-22923	Clackamas	Cascade Secondary	SE Flavel-Lake Road	$ 100.00	$ 1,000.00	$ 500.00
Mars L-2465 R-23265	Jackson	Pacific	Ashland	15,000.00	48,500.00	23,000.00

(For additional details see the Acting Chief Counsel's letters dated December 11, 1956, and December 13, 1956, in the General Files).

In conformity with a resolution adopted by the Commission on December 20, 1951, the Acting Chief Counsel presented offers that have been tendered for acquisition of real property prior to the institution of condemnation proceedings as follows:

December 17, 1956

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-20988 - Ernest L. Miller, et ux. 5,793 square feet for right of way purposes. Offer of $750.00 approved by Mr. McIver December 6, 1956.

R-20989 - H. Irene Hinnells, et al. 20,430 square feet for right of way purposes. Offer of $2,000.00 approved by Mr. McIver December 6, 1956.

R-21165 - Creighton C. Snyder, et al. 1,826 square feet for right of way purposes. Offer of $2,625.00 approved by Mr. McIver December 6, 1956.

R-22531 - Leo Gallagher, et ux. 25,000 square feet for right of way purposes. Offer of $87,500.00 approved by Mr. McIver December 6, 1956.

R-22711 - Albert P. Walton, et ux. 1,600 square feet for right of way purposes. Offer of $965.00 approved by Mr. McIver December 6, 1956.

R-22712 - William F. Holmes, et al. 1,820 square feet for right of way purposes. Offer of $770.00 approved by Mr. McIver December 6, 1956.

Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway

R-25344 - Walter Adolf, et al. 10.44 (10.0 net) acres for right of way purposes. Offer of $6,475.00 approved by Mr. Reynolds November 30, 1956.

Myrtle Creek-Canyonville Section of the Pacific Highway

R-21030 - Ora W. Carter, et al. 13 acres for right of way purposes and 0.2 acre for an easement for a drainage ditch. Offer of $12,350.00 approved by Mr. McIver December 6, 1956.

R-21031 - Alton E. Alspaugh, et ux. 1.38 acres for right of way purposes and 0.06 acre for excess taking. Offer of $650.00 approved by Mr. McIver December 6, 1956.

R-21040 - Venita Starnes, et vir. 7.36 acres for right of way purposes. Offer of $2,900.00 approved by Mr. McIver December 6, 1956.

R-21042 - Agnes A. Riddle, et al. 5.97 acres for right of way purposes. Offer of $3,900.00 approved by Mr. McIver December 6, 1956.

Myrtle Creek-Canyonville Section of the Pacific Highway - Cont.

R-23734 - William P. Weaver, et al. 25.5 (24.1 net) acres for right of way purposes and 0.18 acre for an easement for a drainage ditch. Offer of $17,000.00 approved by Mr. McIver December 6, 1956.

R-25622 - Incorporators of Weaver District Improvement Company. 0.53 acre for right of way purposes. Offer of $265.00 approved by Mr. McIver December 6, 1956.

R-25774 - Roy Carte, et ux. 0.4 acre for right of way purposes. Offer of $750.00 approved by Mr. McIver December 6, 1956.

Klamath Falls, West Side By-Pass Section of The Dalles-California Highway

R-23099 - Carl T. Wildermuth, et al. 9,380 square feet for right of way purposes. Offer of $3,600.00 approved by Mr. Reynolds November 30, 1956.

R-23102 - Duane C. Schofield, et al. 3,600 square feet for right of way purposes. Offer of $425.00 approved by Mr. Reynolds November 30, 1956.

R-23109 - Murrell Betsch, et al. 210 square feet for right of way purposes. Offer of $350.00 approved by Mr. Reynolds November 30, 1956.

Mosier-The Dalles Section of the Columbia River Highway

R-25813 - Earl E. Smith, et ux. 0.1 acre and 1,122 square feet for right of way purposes. Offer of $1,900.00 approved by Mr. McIver December 11, 1956.

The Commission accepted the offers as presented.

A report on matters before the Public Utilities Commissioner in which the State has been made a party, was presented by the Acting Chief Counsel as follows:

PUX 187: Thornhollow Grade Crossing. This matter involves a slight relocation and an improvement of an existing grade crossing with the Oregon-Washington Railroad & Navigation Company tracks on the Cayuse-Adams County Road in Umatilla County. Maintenance of the crossing is to be an obligation of Umatilla County.

PUX 188: Grade crossing of the tracks of Southern Pacific Company on Fifth Street in the City of Lebanon in Linn County. This matter pertains to an extension of Fifth Street in the City of Lebanon, and the Highway Commission is not directly affected.

PUX 194: Long-Bell private road crossing of Wolf Creek County Road No. 455, near Wolf Creek, 0.38 mile West of Timbered Ridge Road, in Lane County. The order authorizes construction of a private road crossing and no State highway is directly involved.

PUX 195: Long-Bell private road crossing of Wolf Creek County Road No. 455, 2.5 miles from junction of Timbered Ridge Road, in Lane County. The order authorizes construction of a private road crossing and no State highway is directly involved.

PUX 196: Southern Pacific Company Industrial Drill Track at grade crossing with McKinley Street in Eugene, Lane County. The order involves a grade crossing and no State highway is directly involved.

PUX 198: Locust Street and Park Avenue grade crossings in Nyssa, Malheur County. The order requires a grade crossing at Locust Street and closure of an existing crossing at Park Avenue. No State highway is directly involved.

L-1455: Grade crossings of Calapooia and State Streets in the City of Sutherlin, Douglas County. On July 2, 1947, authority was granted to Weyerhaeuser Timber Company to construct crossings at grade on Calapooia and State Streets. Automatic electric signals were installed at Calapooia Street, which was then the main route of the Pacific Highway. The order authorizes train movements during the hours of darkness.

A report was submitted by the Acting Chief Counsel concerning acquisition of property at Roseburg from the United States General Services Administration. He reviewed briefly preceding actions in which the Commission had authorized him to attempt to secure a 16.34 acre parcel of real property which was a part of the Veterans Administration Hospital Reservation in Roseburg. Application was made to purchase the property as a public park and recreation area at 50 percent of the appraised value. In a letter dated November 14, 1956, the State was advised that the application for purchase of the property had been approved subject to certain terms and conditions, one of which was that the State pay the sum of $4,000 not later than December 17, 1956. Telephone approval was obtained from Commissioner Reynolds and Commissioner McIver, the acceptance was signed by the Acting Chief Counsel in behalf of the Commission, and the sum of $4,000 plus $326 for costs

incurred by various federal agencies was submitted to the General Services Administration and a deed is expected in the near future. He asked the Commission to confirm this action and to authorize payment of other external administration costs as set forth in the letter notifying that the application of the Highway Commission had been approved. The Commission confirmed the Acting Chief Counsel's action and authorized additional payments as requested.

Abandonment of an old section of the Pacific Highway near Umpqua River crossing at Booth Ranch in Douglas County was considered. The Acting Chief Counsel explained that under the terms of an agreement previously entered into with Mr. and Mrs. Earl Morley and Mr. and Mrs. Roy F. Smith, the State had agreed to perform certain work to improve approaches to the highway at the Morley's and Smith's properties, and in addition, agreed to abandon a small portion of the old right of way of the Pacific Highway which is no longer needed for any public use. The Morleys and Smiths, he stated, have conveyed real property and access rights to the State as agreed, and he recommended in view thereof, that the right of way be abandoned to them. The Commission approved such abandonment by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved a report presented by the Acting Chief Counsel concerning claims which have been abandoned as being uncollectible, as follows:

CAO-55-161, Daniel David Perry: On November 7, 1955, a car owned and operated by Mr. Perry collided with a guard rail at M.P. 29.0 on the Warm Springs Highway when Mr. Perry went to sleep. The damage to the guard rail amounted to $52.88 and Mr. Perry has made one payment of $5.00, but since that time, has not replied to numerous letters demanding payment. Mr. Perry is a resident of Oklahoma and it is not deemed feasible to collect by legal proceedings.

CAO-56-273, Vern Meyer: On April 28, 1956, a car operated by Mr. Meyer collided with a traffic arm on the Interstate Bridge in Portland, causing damages in the sum of $40.00. The sum of $30.00 has been paid on the claim, but since the last payment no reply has been received to any of the State's letters. The cost of collecting the remainder would be in excess of the balance owed.

CAO-56-319, Margaret Wynn and Harry T. Alspaugh: On June 15, 1956, on Highway No. 212 near Boring, a State Highway vehicle attempted to pass a car operated by Harry Alspaugh and was struck by the Alspaugh vehicle which was making a left turn. No replys have been received to the State's letters demanding payment and as it appears that both parties were negligent, the State's interest would not be furthered by institution of legal proceedings.

CAO-56-333, Arnold Hedges: On July 23, 1956, a truck operated by Mr. Hedges burned at M.P. 167.0 on the Central Oregon Highway. The fire burned a hole in the highway which cost $157.60 to repair. Mr. Hedges' insurance carrier has denied the claim stating that there was no negligence on the part of Mr. Hedges. As no carelessness or negligence has been established on the part of Mr. Hedges, it is improbable that legal proceedings to collect the claim would be successful.

CAO-56-356, Charles E. Jacobs: On June 21, 1956, a car owned by Charles E. Jacobs collided with the handrail of the Theil Creek Bridge at M.P. 145.90 on the Oregon Coast Highway, causing damages in the amount of $245.31. Mr. Jacobs claimed that the vehicle was loaned to a Miss Joyce Phelps and that the automobile was stolen from her and wrecked. As the State has no evidence to rebut his contention that the automobile was stolen and as Mr. Jacobs is confined in the Lincoln County Jail, it appears that no successful action could be taken to recover damages.

CAO-56-386, Raymond Dale Carter: On September 17, 1956, the rear wheels of a truck operated by Mr. Carter came off causing the truck to spill its load of cornhusks, corncobs, etc., on the Pacific Highway at M.P. 87.90. The debris was removed at a cost of $23.99. Letters sent to Mr. Carter demanding payment have been returned and apparently Mr. Carter has moved without leaving a forwarding address.

The institution of a suit for damages by the Drake Lumber Company against the Highway Commission was presented by the acting Chief Counsel. He explained that service of summons and complaint had been made upon the Secretary for the Commission on November 13, 1956. The lumber company contends that they have suffered damages to their business located on Northeast Halsey Street and between Northeast 39th Avenue and Northeast 49th Avenue by reason of a change in grade in constructing the T. H. Banfield Expressway. They seek to collect damages in the sum of $60,000 plus attorney's fees in the sum of $4,500. Under Oregon Laws it appears that the State is liable for damages resulting from the change of grade, but controversy involves the amount to be paid. An offer was made to the Drake Lumber Company in the amount of $35,000, but was not accepted. Negotiations will continue, he added, and all possible action will be taken in defense of the case if an amicable settlement cannot be reached. The Commission accepted the report.

The Acting Chief Counsel also reported the institution of a suit against the State by Mr. and Mrs. Kelman for damages to their automobile court adjacent to Ames Creek on the Santiam Highway in Linn County. The plaintiff alleges that in 1952 the Highway Commission constructed a series of box conduits to carry the water of Ames Creek under the highway and in the course of such work, removed riprap which had been placed by the plaintiffs to prevent erosion to their property. The

complaint alleges that erosion has taken place because of the riprap removal and they seek damages in the amount of $5,000. Investigation, he continued, discloses that in 1954 State Highway forces had placed approximately 25 cubic yards of riprap in response to Mrs. Kelman's complaint, and again in January, 1956, had placed timber supports for the protection of buildings. Appropriate action will be taken, he stated, to defend the state in the event an amicable settlement cannot be arranged. The report was accepted by the Commission.

Upon the request of the acting Chief Counsel, the Commission authorized the institution of legal proceedings to collect damages to State property as follows:

CAO-56-173, Toddice L. Slayton: For damages to a State truck in the amount of $142.57 incurred December 7, 1955 on the Mt. Hood Highway approximately one mile west of Gresham.

CAO-56-184, Donald F. Deulen: For damages to a State-owned cyclone fence in the amount of $247.70 incurred November 11, 1955, near the Harvard Overcrossing at Roseburg on the Pacific Highway.

CAO-56-223, Harold G. Nash: For damages to a State-owned vehicle in the amount of $56.95 incurred February 24, 1956 on the Northeast Broadway in the city of Portland.

CAO-56-247, Arnold Smith Gaines: For damages to a State gasoline pump in the sum of $58.99 incurred March 8, 1956, in the city of Ashland.

CAO-56-272, Weldon E. Spangler, Jr., and Earl Arthur Khuen: For damages in the amount of $200.00 by reason of removing highway signs on the Coos Bay-Roseburg Highway between Coquille and Myrtle Point on March 21, 1956. Mr. Spangler and Mr. Khuen were convicted, fined and have made payment in the amount of $125, but have not replied to any subsequent letters.

CAO-56-300, Leon E. Baker: For damages in the amount of $637.69 to a bridge railing on the South Fork of Beaver Creek at M.P. 53.47 on the Columbia River Highway incurred May 14, 1956.

CAO-56-334, Ernest Llewellyn Faus: For damages to a State-owned drinking fountain in the sum of $75.76 incurred July 30, 1956, at M.P. 303.2 on the Ladd Canyon Section of the Old Oregon Trail.

Employment of two attorneys was requested by the Acting Chief Counsel. He recommended employment of Mr. Robert J. Patterson, age 39, in the Trial Section, at a salary of $590 per month effective January 1, 1957; and Mr. Robert A. Holland, age 32, in the Office Section, at a salary of $442 per month, effective December 18, 1956. The

Commission approved the employment of these two men upon assurance that their employment had been approved by the Attorney General.

Upon the favorable recommendation of the Acting Chief Counsel, the Commission approved an increase in salary for Mr. Donald R. Stark, who is to act as Chief of the Title Section, from $426 to $459 per month effective January 1, 1957. The Attorney General, he added, has approved this increase.

The matter of placing Federal Tax Stamps upon deeds conveying real property to the State was brought up by the Acting Chief Counsel. He recalled that a ruling of the Bureau of Internal Revenue in 1950 required tax stamps on deeds from a private owner to a state; however, Oregon, and other states including California and Washington, have followed a practice which existed prior to 1950 by not requiring Documentary Tax Stamps to be affixed to deeds conveying property to the State. No protest was offered by the Bureau of Internal Revenue and no action was taken by them concerning stamps on deeds; however, within the last few weeks, complaints have been received from two persons who conveyed property to the State Highway Department several years ago advising that representatives of the Bureau of Internal Revenue are insisting that these two persons furnish Tax Stamps to be placed upon the deeds executed in favor of the State at that time. An exhaustive research is now being made, he stated, to determine whether the 1950 regulation of the Bureau of Internal Revenue is valid under Federal Law, but no conclusion has been reached. He recommended that a letter be directed to each member of the Oregon Congressional Delegation requesting support of Federal legislation, specifically exempting conveyances to the State from the Documentary Tax Stamp Act. He also recommended that he be authorized to request an official ruling from the Commissioner of the Bureau of Internal Revenue concerning this matter, and to request the Commissioner to vacate and set aside the regulation of 1950. The Commission approved his recommendations.

Amendment to the "Access Clause" in a deed given by T. H. Starker and Margaret O. Starker concerning access to the remaining Starker property located near Corvallis on the Pacific Highway West in Benton County was discussed. The Acting Chief Counsel pointed out that the "Access Clause" in the original deed contains ambiguous language and he recommended that it be changed by setting forth specific things for which the access could be used. The original deed, he stated, provided for one 25 foot access but was not clear as to its use. The Commission approved his recommendation.

Dr. R. E. Rhinehart, Wheeler, Oregon, Secretary, Nehalem Bay Expansion Association, Inc., came before the Commission concerning construction of the "Elsie Cutoff" from a point near Elsie on the Sunset Highway southerly and westerly to a junction with the Oregon Coast Highway near Wheeler. He pointed out that the Nehalem Valley, which is now served by Highway No. 53, is greatly in need of a better route, as Highway 53 is extremely crooked and narrow. The lack of good roads to the

Wheeler area, he stated, is stifling construction of new homes. Following his departure, the Commission instructed the Secretary to write Dr. Rhinehart advising him of whatever action the Commission may take when the Engineer's report concerning the Elsie Cutoff is considered later in the day.

The Engineer reported that under authority previously granted him by the Commission, he has awarded contracts on which the conditions of the awards have been satisfied as follows:

(1) Grading and paving 17th Street-Cozine Creek (Adams Street-McMinnville) Section of Pacific Highway West (southbound), Yamhill County. Bids received November 8, 1956. Conditions of award satisfied November 16, 1956. Perkins Bros., Portland, low bidder.

(2) Grading and paving and bridge construction on Whiteson Section of Pacific Highway West, Yamhill County. Bids received September 27, 1956. Conditions of award satisfied December 5, 1956. Workman and Wilson, Canby, low bidder.

(3) Construction of a steel girder bridge and three overflow bridges on Newberg-Gerin Corner Section of Hillsboro-Silverton Highway, Marion and Yamhill Counties. Bids received November 8, 1956. Conditions of award satisfied December 12, 1956. Manson Construction & Engineering Co., Seattle, Washington, low bidder.

The Commission confirmed the awards unanimously.

The Commission considered the rejection of a low bid submitted by L. W. Vail Company on November 8, 1956, for grading and paving the Hinkle-Bucks Corner Section of the Hermiston Secondary Highway in Umatilla County. The Engineer explained that the Vail Company was pre-qualified as a partnership, but had submitted a bid for this project as a corporation, and under Oregon law, it was necessary to reject the bid. He asked the Commission to confirm the rejection. The project, he added, has been readvertized and bids were received at this meeting. The Commission confirmed rejection of the bid as requested.

A report was submitted by the Engineer concerning the feasibility of constructing a Pacific Highway by-pass around Medford on what is known as the "High Line" route. He recalled that this line was suggested as a possibility by certain individuals when the hearing was held in Medford re the Pacific Highway relocation. He pointed out that the "High Line" route is 0.37 mile longer than the "Hillcrest" line and costs approximately $6,750,000 more. He recommended that this route be given no further consideration because of its length, high cost and other undesirable features. The Commission accepted his recommendation. The Commission also decided to adopt a definite route for

the by-pass around Medford and Ashland at its January meeting.

A reconnaissance report on the proposed Elsie Cutoff between Elsie and Mohler in Clatsop and Tillamook Counties, was presented by the Engineer. He pointed out briefly that the project is 23.27 miles in length, will cost approximately $5,415,000, and shows a benefit quotient of only 0.55, whereas a quotient of 1.00 is required if the highway is to be economically feasible. The cutoff, he continued, will be needed in the future, but construction is not warranted at this time. He recommended that no action be taken in the matter at this time, and that he be authorized to submit copies of the reconnaissance report to Senator McMinimee and the Tillamook County Court. The Commission accepted his recommendation.

Consideration was given to a report from the Engineer concerning a request from owners of small lumber mills on the Kimberly-Long Creek Secondary Highway that equipment consisting of a tractor and full trailer having an overall length of 60 feet, be permitted to operate over the highway from Kimberly, M.P. 0.0, to the end of the improved section 3 miles east of Hamilton, M.P. 26.89. The Engineer stated that a test run disclosed that vehicles of this type can operate over this section without encroaching on the opposing traffic lane, so, under authority previously granted him, he approved, on November 15, 1956, the reclassification of the above described section of highway from Group II to Group I. The Commission accepted his report.

The Engineer reported that under authority previously granted by the Commission, he authorized removal of a temporary 25 MPH speed zone established March 26, 1956, on the east 1,000 feet of the two east bound lanes of the Ross Island Bridge in Portland. This speed zone was placed because of construction of the new ramp from the east end of the bridge to McLaughlin Boulevard. The ramp was completed and opened to traffic at 2:00 p.m. October 25, 1956, and the reduced speed zone was removed as of that date. The Commission accepted his report.

The Engineer also presented a report concerning an access to The Dalles-California Highway a short distance north of Klamath Falls, requested by Johns-Manville Corporation. He recalled that in previous negotiations for an improved access the Corporation had declined to participate financially in construction of an interchange which is estimated to cost about $150,000. Alternate plans have been formulated, one of which provides for a left turn refuge, and the other a turn-out with crossing at a signal light similar to the access to the International Harvester Company plant on McLaughlin Boulevard near Portland. He estimated that either of these two plans will cost about $25,000 and it was his thought that the Corporation should participate at least 50 percent. Action was deferred by the Commission pending appearance of a delegation on the following day. (When the delegation appeared they were informed concerning plans for the $25,000 improvement and that the Oregon law requires applicants to pay the costs to construct such accesses; however, in this instance, as the matter of safety to the traveling public, the State

is willing to pay one-half of the cost. The delegation indicated that such an arrangement would be satisfactory). (See ahead for additional entry.)

The Engineer reported the need to establish a third maintenance district in Division I, the same to be located on 87th Street south of the Banfield Expressway. He outlined briefly the responsibility of the two existing that are headquartered at Milwaukie, and advised that due to the increased mileage of highways to be maintained and the increased population of the Portland metropolitan area, the work involved cannot be administered satisfactorily without the new third district at 87th Street which would look after the Banfield Expressway and Upper and Lower Columbia River Highways. He also pointed out that the area covered by Division I contains 40 percent of the State's population and there has been a great increase in the number of permits issued, sanding of highways, and the red tape involved with a large population center. He recommended that approval of the third district, and that authority be granted to construct the necessary buildings on state owned property on 87th Street, which are estimated to cost about $28,000. The Commission approved establishment of the new maintenance district and authorized construction of a maintenance headquarters as recommended. The Engineer was also authorized to sign a petition in behalf of the Commission requesting the city of Portland to approve a zone change for the area that is required.

The Engineer reported on a request from Mr. L. A. Courtemanche for widening a bridge over the Yamhill River on US 99W between McMinnville and the St. Joseph Undercrossing. The Engineer stated that an investigation revealed that a new bridge is needed at this place but widening of the existing structure is not feasible; therefore, it would be necessary to construct a parallel bridge which is estimated to cost $240,000. As there are no funds available to finance it now, he recommended that the project be given high priority when the next construction program is arranged. The Commission accepted his recommendation.

A status report was presented by the Engineer concerning a proposed agreement with the Idaho Power Company covering the relocation of the Baker-Homestead Highway that is required by reason of the dams that are being constructed by the Power Company in the Snake River in the vicinity of Brownlee and Oxbow. He recalled that on June 11, 1956, the Commission had entered into an agreement with the Idaho Power Company allowing them to construct a detour around the end of the Brownlee Dam, and to route traffic over the detour. In construction of the Oxbow Dam it is necessary for the Power Company to plug an unused tunnel and to relocate a 7.3 mile section of the Baker-Homestead Highway south of Copperfield. A form of agreement has been executed by the Power Company which will permit them to perform this work on terms which will protect the best interests of the State. These terms, he continued, provide, among other things, for the 7.3 mile section to be constructed according to Highway Commission standards. The Company is to convey title to the right of way of the reconstructed highway to the State, and to provide maintenance until the new section is adopted as a part of the Baker-Homestead Highway. The Company also

is allowed to permanently plug an unused tunnel at M.P. 72.8. The Company also is to install 15,000 feet of guard rail plus an additional amount as may be deemed necessary by the Highway Commission after the section is constructed. He presented a form of agreement previously signed by the Idaho Power Company officials, and recommended that it be approved by the Commission. The Commission approved the agreement.

In connection with this matter, the Engineer stated that the Idaho Power Company is having difficulty in securing Engineers and has asked the State to assist in that regard. He recommended that the State Highway Department assist them by letting them use Highway Department maps and survey crews, when crews are available, with the understanding that the Power Company will reimburse the State for cost of such facilities and crews. The Commission approved such arrangement.

In this connection it was brought out that legislative action is required to change the routing of the Baker-Homestead Highway. The Acting Chief Counsel was instructed to prepare an appropriate bill covering this matter for presentation to the 1957 Legislative assembly.

The Bids received at the morning session on the Myrtle-Creek-Missouri Bottom Unit on the Pacific Highway in Douglas County were discussed. The Engineer pointed out that the low bid received is more than 10 percent above the State estimate, but he felt that the estimated cost of $.65 per cubic yard for moving rock could be faulty, as the general average of bids submitted by four reliable contractors is in the vicinity of $.85 per cubic yard. He suggested that the low bid be not rejected until a more careful study has been made of the estimated cost. The Commission accepted this recommendation.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

The Commission considered items of unfinished business that appear on the Secretary's summary dated November 9, 1956, as follows:

1. Request of Mt. Vernon delegation for replacement of a permanent dam in Beech Creek with a temporary structure to reduce flooding hazard: The Engineer reported that in investigating this matter, it was found that the Army Engineers are also making an investigation and he recommended that no action be taken until the Army Engineers have made their report. The Commission accepted the recommendation and ordered the item deleted from the list of unfinished business. It is to be considered as new business when the subject is again presented.

2. Request of Mr. H. Brelage of North Bend, to establish a restaurant in connection with his motel at the north end of Coos Bay Bridge on the Oregon Coast Highway: The Right of Way Engineer stated that as previously instructed, he had contacted Mr. Brelage concerning his request and possible modification of the existing lease he holds from

the State. A satisfactory arrangement appears to have been concluded except for a few minor details which can be taken care of. A full report, he stated, will be submitted at or prior to the January meeting. This item was ordered deleted from the list of unfinished business.

3. Request of Louis Courtemanche for widening a narrow bridge over the Yamhill River on US99W near St. Joseph Cemetery, north of McMinnville: This item was ordered deleted from the list of unfinished business as a report was presented by the Engineer earlier in the day.

4. Proposed foothills or "High Line" by-pass route of Medford: This item was ordered deleted from the list of unfinished business, as the Engineer had previously submitted a report on the subject.

5. Request of telephone and power line representatives concerning relocation of their facilities on highways at state expense: The Engineer stated that the assembling of information on this matter has not been completed, but in his estimation there is no reason why highway users should pay the costs to move these facilities. This item is to remain on the list of unfinished business.

6. Request of Columbia Gorge Commission for financial and other assistance in acquiring timbered areas in the Columbia Gorge: This item was ordered deleted from the list of unfinished business, as a report was submitted earlier in the day by the Parks Superintendent.

Consideration was given to a request from the City of Lebanon for installation of traffic signals at the intersection of Main Street and Milton Street. The Engineer explained that Main Street is the route of the Santiam Highway, and Milton Street is used as a log truck route. Investigation disclosed that traffic in the intersection exceeds minimum warrant for signalization and he recommended that a fully actuated traffic signal be installed at an estimated cost of $6,000 with the cost to be borne equally by the City and State, and provided that the City will furnish electrical energy and maintain the signals after installation. The Commission approved the installation as recommended.

Also considered was a petition from residents of Marion County requesting an investigation of traffic hazards at Henjum's Corner on the Hillsboro-Silverton Secondary Highway west of Silverton. The Engineer reported that an investigation disclosed, among other things, that there were 5 reported accidents at the intersection during the period January 1, 1951 to July 31, 1956, in which 3 persons were injured, but none were killed. The highway at this point, he said, makes a right angle turn and an uncontrolled conflict is set up between vehicles leaving the highway and those making the left turn around the angle. To alleviate this condition, he recommended the installation of a flashing beacon with a flashing-amber indication directed to vehicles entering the intersection from the Hillsboro-Silverton Highway to the north, a flashing-red indication to vehicles that enter from the County Road to the west, and a

flashing-red indication with a green right-turn arrow directed to vehicles entering from the east. The Commission approved the installation at an estimated cost of $600.

The Engineer requested authority to install a flashing beacon on the lower Columbia River Highway at its intersection with the Knappa-Svensen County Road, about 12 miles east of Astoria. An investigation by the Traffic Engineer, made at the request of the local Volunteer Fire Department, he stated, shows that there is inadequate sight distance at this intersection which is used as a school crossing. Also, there are numerous turning movements by log trucks in the intersection. The Commission granted his request at an estimated cost of $800.

The Commission gave attention to a request from Mr. George W. Farrell, City Manager of Roseburg, for installation of traffic signals at the intersection of Stephens and Brockway Streets in the City of Roseburg. An investigation which was conducted, the Engineer stated, disclosed that the problem centered around the school crossing, but it also disclosed that if a signal is to be installed, it should be at Haines Street instead of Brockway. He recommended installation of a school crossing type signal with a locked control box with a manual push button to be operated by the Supervisor of the School Patrol. The City, he stated, has indicated willingness to assume one-half of the $3,000 estimated installation cost and to maintain the signal and furnish electrical energy to operate it after the installation is completed. The Commission approved the installation as recommended.

Increases in project authorization were requested by the Engineer and approved by the Commission for the following contracts:

1. Contract #4792; for emergency work on the China Gulch-Copper Road Section of the Medford-Provolt Highway in Jackson County, in the amount of $12,500. Construction of a box culvert in lieu of corrugated metal culverts was the principal cause of the overrun.

2. Contract #4587; on the Knowles Creek-Turner Creek Tunnel Project on Route "F" in Lane County, in the sum of $258,000. This overrun, he stated, was caused solely by necessity of lining the entire tunnel, and Lane County will pay for all of the overrun. The County has already deposited $150,000, the balance to be paid after July 1, 1957.

3. Contract #4311; on the Glenwood-North Plains Section of the Wilson River Highway in Washington County, in the amount of $120,000. This overrun, the Engineer stated, was caused by having to secure an additional source of gravel by unstable subgrade materials which required additional base thickness, and the necessity of washing the material secured from the second gravel source.

Consideration was given to suggestions submitted by the Lane County Court concerning improvement of the Springfield-Creswell Highway between the Willamette Highway and Creswell. The Engineer

recalled that the 2-year construction program recently adopted by the Commission contains an item of $600,000 for improvement of this highway between the Willamette Highway and Creswell, but the Lane County Court has requested a modified project consisting of about 2½ miles of grading and surfacing near Cloverdale which will cost about $200,000, and that the remaining funds be transferred to Route "F" to improve the section easterly from Richardson. He pointed out that the improvement suggested by the County on the Springfield-Creswell Highway will eliminate a number of very sharp turns. He also said that the County Court requests that when the remainder of this highway is constructed, an entirely new route be adopted which will connect with the present junction of the Springfield-Creswell Highway, about a mile east of Pleasant Hill. He added that the County Court advises that if the State approves the arrangement the County will immediately assume jurisdiction over the northerly 3½ miles of the existing route as a County Road and will resurface and place an oil mat thereon. These suggestions, the Engineer continued, appear to have considerable merit and he recommended that they be approved. The Commission accepted his recommendation.

Consideration was given to a request from Mr. M. D. Yoder, Superintendent-Principal of the Days Creek Public Schools, Douglas County, for construction of a pedestrian footpath on the Tiller-Trail Highway in the community of Days Creek. The Engineer advised that an investigation was made by the Traffic Engineer and it was found, among other facts, that approximately 125 students walk along the highway on this section each day. Considering all of the factors, it was found that the relative warrant is 1.13; whereas, a unit of 1 is required to warrant construction. The Commission approved his recommendation that a footpath be constructed along the easterly side of the highway for a distance of about 400 feet south of the post office, the cost of which the Engineer estimated at $800, and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from the Santa Clara Grange for improvement of highway facilities to serve the River Road District in Eugene, including construction of overpasses at Jefferson and Washington Streets. The Engineer pointed out that 2 or 3 years ago the Commission tentatively earmarked $700,000 to cooperate with the City of Eugene in constructing the overpasses as a part of a 1-way street couplet; however, the City was unable to raise its share of funds so the State funds were transferred to finance the Willamette River Bridge at Springfield. As there are no funds available at this time, and as it appears that the City of Eugene is not in a financial condition to participate in the project, he recommended that the matter be tabled pending the formulation of a new program when the City can participate. The Commission accepted his recommendation.

The Commission considered and upon the favorable recommendation of the Engineer, approved an agreement with Portland School

District #1, Multnomah County, for the disposition of surface waters that accumulate on 82nd Avenue between N.E. Thompson Street and N. E. Russell Street. The Engineer explained that the agreement provides that the Highway Department shall construct on the right of way a concrete settling basin to catch all the debris and solids, and that the school district shall convey the overflow across the school grounds by means of three 8-inch open tile drains. The estimated cost of this project, he stated, is $6,200, which will be paid equally by the School District and the State.

Attention was given to a letter from the Klamath County Court concerning the County's taking over a section of the Klamath Lake Secondary Highway #421, northerly from Rocky Point Junction to Fort Klamath. The Court asks the Commission to hold in abeyance the County's assumption of jurisdiction over this section of Secondary Highway until a program can be worked out for it. The Court also requests the Commission to expedite action to place the Lake of the Woods Road on the Forest Highway System. The Engineer recalled that at a previous meeting, the Commission had approved the Lake of the Woods Road being made a part of the Forest Highway System, and a request has been submitted to the proper Federal officials. He also recalled that when matters pertaining to these two highways had been discussed with the Klamath County Court, the Commission had stated that if the Lake of the Woods Road in Klamath County is to be taken over as a state secondary highway, it would be on the condition that Klamath County take over the Klamath Lake Secondary Highway as a County Road from Rocky Point to Fort Klamath. The Commission discussed the matter briefly and instructed the Secretary to advise the Klamath County Court that it must agree to take over as a County Road the section from Rocky Point to Fort Klamath before the Commission will designate the Lake of the Woods Road from the Jackson County line to Rocky Point as a state secondary highway.

The Commission discussed a letter from Mr. Lee P. Reed, Mayor of the City of Burns, stating the City's approval of the transfer of funds tentatively budgetted to finance the rerouting of US20 through the City, to improvement of a section of US20 between Vale and Juntura. This matter, the Engineer stated, has been carried as an item of unfinished business in regards to holding a hearing for the residents of the Cities of Burns and Hines, if the highway is to be relocated. He pointed out that a considerable difference of opinion has developed in Burns as to whether the highway should be relocated or not, and at a previous Commission meeting, the Commission tentatively authorized transfer of the funds to the section between Juntura and Vale provided that officials of the City of Burns would concur. The Mayor's letter, he stated, is the City's official approval of the transfer and he recommended that the transfer be confirmed. Commissioner Reynolds commented that he had heard that some members of the Chamber of Commerce in Burns and some residents of the town of Hines are not satisfied with the transfer of funds to the Juntura-Vale Section. The Commission took no action at this time pending the appearance of a

delegation from Burns on the following day. (When the delegation appeared, it was informed that the Commission would give the matter further consideration.)

The Commission gave attention to a report submitted by the Engineer concerning reconstruction of the Glasgow County Road connection with the Oregon Coast Highway near the north end of the Coos Bay Bridge in Coos County. This connection, the Engineer explained, is on a steep grade and contains a sharp curve which has given a great deal of trouble to log trucks. Coos County has requested that the State and the County join in revising the connection with the State to assume construction costs within the highway right of way, and the County to assume costs outside the right of way. As it would not be practical to segregate the two sections, he recommended that the work be performed as one project at an estimated cost of $30,000, and that the cost be split equally between the State and the County. The Commission accepted his recommendation.

The Engineer reported that the County and City Relations Division has completed its study of requests made by cities for expenditure in 1957 of the $250,000 Special City Allotment Fund for cities under 5,000 population. A Total of 59 applications were received, and of this number, 16 are being recommended for approval. All of the applications, he stated, were carefully screened and in cases of nearly equal merit, preference had been given to those cities which had not had a previous project. Following his favorable recommendation, the Commission approved the following City Projects:

APPLICATIONS RECOMMENDED FOR APPROVAL — 1957 FUND

Application Number	City	Division	Estimated Cost		
			State	City	Total
1	Tualatin	I	$ 15,000	$ --	$15,000
3	Independence	II	12,000	--	12,000
4	North Powder	V	19,000	--	19,000
5	Eastside	III	13,800	--	13,800
6	Elgin	V	15,000	--	15,000
8	Prineville	IV	20,000	12,000	32,000
11	Stanfield	V	16,500	--	16,500
16	Philomath	II	19,900	--	19,900
20	Adams	V	13,000	--	13,000
27	Echo	V	15,500	--	15,500
35	Milton-Freewater	V	20,000	4,200	24,200
38	Madras	IV	20,000	9,900	29,900
46	Cove	V	19,100	900	20,000
57	Oakridge	III	20,000	700	20,700
58	Dayton	II	20,000	1,000	21,000

APPLICATIONS RECOMMENDED FOR APPROVAL (Cont) 1957 FUND

Application Number	City	Division	Estimated Cost State	City	Total
59	Beaverton	I	20,000	16,000	36,000
16	Recommended for Approval		$278,800	$44,700	$323,500
	Estimated Transfer to 1956 Fund..		5,000		
	Estimated Total 1957 Fund		$273,800		

NOTE: After actual costs have been determined, all State costs in excess of $250,000 will be transferred to the 1958 fund.

The Engineer reported that the location survey of the Camp Creek-Paulina Section of the Paulina Highway in Crook County previously authorized by the Commission has now been completed. The new location, he stated, generally follows the old route and if the survey is approved, it is planned to contract grading and surfacing of a portion, or possibly all of this unit in the spring of 1957. He recommended that the survey be adopted. The Commission approved the survey by adopting the attached resolution relative thereto marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and, upon recommendation of the Engineer, granted the following requests for extensions of time within which to complete state highway contracts. Reimbursement for engineering expense and other extra expense incurred by the State in connection with the work during the period of these extensions was waived by the Commission:

1. Russellville Nursery, Contract No. 4514, for the installation of an irrigation system on the 42nd Avenue-99th Avenue Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from November 1, 1955 to October 31, 1956. Approved to October 15, 1956, the actual completion date of contract.

2. Vanaken Sand & Gravel Co., Contract No. 4714, for rock production on the Elsie-Sunset Camp Section of the Sunset Highway in Clatsop, Washington, Tillamook and Columbia Counties, requested an extension of time from September 30, 1956 to November 30, 1956. Approved to November 1, 1956, the actual completion date of contract.

3. Warren Northwest, Inc., Contract No. 4743, for grading and paving Pioneer Road and Easy Street in the city of Brookings in Curry County, requested an extension of time from October 15, 1956 to December 1, 1956. Approved to November 3, 1956, the actual completion date of the contract.

4. C. R. O'Neil, Contract No. 4485, for grading and paving on the Applegate River Section of the Redwood Highway in Josephine County, requested an extension of time from July 31, 1956 to October 30, 1956. Approved as requested.

5. R. H. Jones, Contract No. 4725, for construction of the Sisters Sand Shed in Deschutes County, requested an extension of time from September 30, 1956 to October 26, 1956. Approved as requested.

6. Tom Lillebo, Contract No. 4630, for bridge construction on the Sublimity Gun Club-Stout Creek Section of the North Santiam Highway in Marion County, requested an extension of time from October 31, 1956 to January 31, 1957. Approved as requested.

7. Schrader Construction Co., Contract No. 4709, for Rooster Rock Park Facilities on the Columbia River Highway in Multnomah County, requested extension of time from October 31, 1956, to January 1, 1957. Approved as requested.

8. Rochat Electric, Contract No. 4680, for traffic signal installation on the Albany and Sweet Home Sections of the Pacific and Santiam Highways in Linn County, requested an extension of time from August 31, 1956 to October 2, 1956. Approved as requested.

9. Sig Andersson, Contract No. 4571, for bridge construction on the Millicoma River (Allegany) Section of the Coos River Secondary Highway in Coos County, requested an extension of time from October 31, 1956 to December 30, 1956. Approved as requested.

10. Perkins Bros., Contract No. 4600, for grading and paving the Ross Island Bridge On-Ramp on the Pacific Highway East in Multnomah County, requested an extension of time from June 30, 1956 to November 16, 1956. Approved to November 8, 1956, the actual completion date of the contract.

11. Warren Northwest, Inc., Contract No. 4650, for surfacing and paving the S. E. Stark St.-Powell Valley Road Section of the East Burnside Road in Multnomah County, requested an extension of time from October 15, 1956 to December 1, 1956. Approved to November 27, 1956, the actual completion date of the contract.

12. Steeck Electric Company, Contract No. 4581, for illumination of six intersections on the Rock Point-Medford Section of the Pacific Highway in Jackson County, requested an extension of time from April 30, 1956 to October 30, 1956. Approved as requested,

13. Pettijohn Engineering Company, Contract No. 4578, for bridge construction over the Nehalem River (Birkenfeld) Section of the Nehalem Highway in Columbia County, requested an extension of time from November 30, 1956 to December 30, 1956. Approved as requested.

14. Gibbons & Reed Co., Contract No. 4546, for bridge construction on the 33rd Avenue Undercrossing Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from July 31, 1956 to October 13, 1956. Approved as requested.

15. Warren Northwest, Inc., Contract No. 4619, for grading and paving on the East Unit Crescent Lake Jct. -The Dalles-California Jct. Section of the Willamette Highway in Klamath County, requested an extension of time from September 30, 1956 to November 9, 1956. Approved as requested.

16. Rogers Construction Co., Contract No. 4540, for grading and paving on the Hillsboro Section of the Tualatin Valley Highway in Washington County, requested an extension of time from August 31, 1956 to November 30, 1956. Approved to November 9, 1956, the actual completion date of the contract.

17. Barney B. Helser, Contract No. 4685, for rock production on the Rock Creek-Summit Section of the Heppner-Spray Highway in Morrow and Wheeler Counties, requested an extension of time from August 31, 1956 to November 30, 1956. Approved to November 15, 1956, the actual completion date of contract.

18. C. C. Meisel, Contract No. 4494, for grading and surfacing on the Werst Corner-Wallowa Section of the Werst Corner-Wallowa Highway in Wallowa County, requested an extension of time from October 31, 1955 to October 30, 1956. Approved as requested.

19. Rogers Construction Co., Contract No. 4507, for rock production on the Pendleton-LaGrande Section of the Old Oregon Trail in Umatilla and Union Counties, requested an extension of time from July 1, 1956 to November 10, 1956. Approved as requested.

20. C. R. O'Neil, Contract No. 4497, for grading on the Louse Creek-Grants Pass (Merlin Hill) Section of the Pacific Highway in Josephine County, requested an extension of time from May 31, 1956 to November 30, 1956. Approved to November 17, 1956, the actual completion date of contract.

21. F. L. Somers & George R. Stacy Co., Contract No. 4186, for grading on the Coast Fork Willamette River-Divide Unit, Goshen-Divide Section of the Pacific Highway in Lane County, requested an extension of time from July 31, 1955 to October 19, 1956. Approved as requested.

22. T. W. Thomas, Contract No. 4557, for bridge, grading and paving on the Burrell-Vale Section of the Central Oregon Highway in Malheur County, requested an extension of time from July 31, 1956 to November 4, 1956. Approved to October 25, 1956, the actual completion date of the contract.

23. Trussfab, Inc., Contract No. 4474, for guard rail and fencing on the Battle Creek Junction-Illahee Unit, Battle Creek Jct. - Jefferson Jct. Section of the Pacific Highway East, in Marion County, requested an extension of time from December 31, 1955 to November 29, 1956. Approved as requested.

24. Max J. Kuney Company, Contract No. 4359, for paving on the Goshen-Cottage Grove Unit, Goshen-Divide Section of the Pacific Highway in Lane County, requested an extension of time from October 31, 1955 to September 20, 1956. Approved as requested.

25. Johnston & Bryant, Contract No. 4694, for bridge construction over Rock Creek and Beaverton Creek on the Base Line Road in Washington County, requested an extension of time from December 31, 1956 to January 30, 1957. Approved as requested.

26. R & M Construction Co., Contract No. 4623, for construction of the McKee Bridge over the Applegate River on the Applegate County Road in Jackson County, requested an extension of time from November 30, 1956 to February 28, 1957. Approved as requested.

27. A. H. Saxton & Son, Contract No. 4567, for constructing Service Creek Bridge over the John Day River on the Service Creek-Mitchell Secondary Highway in Wheeler County, requested an extension of time from December 31, 1956 to July 31, 1957. The Commission granted the extension but ordered that engineering costs be assessed after March 1, 1957.

28. A. E. Fitzgerald, Contract No. 4665, for replacement of bridge rail on Spencer Bridge on the Green Springs Highway in Klamath County, requested an extension of time from October 31, 1956 to January 1, 1957. The Commission granted the extension but ordered that engineering costs be assessed after October 31, 1956.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Commission also considered and upon recommendation of the Engineer took action as follows on the request of Cartwright Construction Co. for an increase of 10 work days for completion of Contract No. 4798, for grading and topping the Ladd Canyon Slide Section of the Old Oregon Trail Highway in Union County. The Commission denied the request and ordered collection of fixed and liquidated damages as specified in the contract.

December 17, 1956

FOOTNOTE: The action taken by the State Highway Commission upon the requests for increases in number of work days specified for completion of the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests. For details regarding these matters, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that contract numbers 4133, 4338, 4356, 4359, 4474, 4494, 4512, 4514, 4532, 4543, 4545, 4546, 4573, 4581, 4593, 4600, 4619, 4642, 4650, 4680, 4689, 4707, 4714, 4718, 4725, 4733, 4743, 4747, 4750, 4751, 4752, 4755, 4756, 4759, 4783, 4795, 4814, and 4819 for highway construction have been completed according to the requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer presented maps showing proposed additions to the County FAS System in Clatsop, Crook, Deschutes, Gilliam, Grant, Harney and Yamhill Counties, totaling 112.8 miles. All of this mileage, he said, has been requested by the Counties concerned, has been reviewed by representatives of the Bureau of Public Roads, and appears to qualify from the standpoint of importance within the Counties. He recommended and the Commission approved the following additions to the County FAS System:

Clatsop County: Extension to FAS 608, 3.1 miles in length: beginning at a junction near the Netell Grange and extending southerly on the east side of Lewis and Clark River to a junction with FAS 608, approximately 1 mile north of Melville; FAS756, 5.1 miles: extending from the Columbia River Highway just east of Svensen, thence southerly, easterly and northerly to a junction with the Columbia River Highway south of Knappa.

Crook and Grant Counties: Revision and extension of FAS 453, 51 miles long: Existing FAS 453 extends from the John Day-Burns Highway south of John Day, westerly to Logdell. It is proposed to revise this routing along an improved alignment and extend the route through the Izee Valley in Grant County and Suplee in Crook County to a junction with the Paulina State Highway at Paulina.

Deschutes County: FAS 778, 3 miles: extends from a county road junction at the Deschutes-Jefferson County line north of Terrebonne, thence southerly, westerly, and southerly to

FAS 395 west of Terrebonne; FAS 779, 1.8 miles: extends from The Dalles-California State Highway north of Terrebonne, thence easterly and southerly to a county road junction east of Terrebonne; FAS 783, 2 miles: extending from FAS 658 easterly to FAS 690 west of Prineville Junction; FAS 785, 1 mile: extending from FAS 657 southwest of Redmond, thence southerly and easterly to the Culver State Highway; FAS 786, 2.5 miles: extending from FAS 397 in Bend, thence easterly and northerly to FAS 397 northeast of Bend; FAS 790, 4 miles: extending from FAS 554 north of Alfalfa, thence easterly, southerly and westerly to FAS 554 at Alfalfa; FAS 791, 2 miles: extending from The Dalles-California State Highway in Bend, thence easterly to FAS 692; FAS 793, 4 miles: extending from The Dalles-California State Highway approximately 15 miles south of Bend, thence southwesterly to the Deschutes National Forest Boundary.

Gilliam County: FAS 719, 11.1 miles: extending from the Wasco-Heppner State Highway approximately 4.5 miles west of Condon, thence westerly to a county road junction.

Harney County: FAS 696, 16.9 miles: extending from the Central Oregon State Highway at Buchanan, thence southerly to the Burns-Crane Highway at Crane.

Yamhill County: FAS 752, 5.3 miles: extending from the Pacific Highway West at Whiteson, thence southwesterly to the Bellevue-Hopewell Highway approximately 4 miles east of Hopewell.

The Engineer presented a number of proposed projects for improvement as County FAS Roads, using 1958 and 1959 funds. He explained that these projects are estimated to cost $1,118,000, which leaves an unprogrammed balance of County FAS Funds in the amount of $4,125,000 for the years 1958 and 1959. He pointed out that most of the projects are on routes which the Commission had just approved as additions to the County FAS System. He recommended and the Commission approved the following projects:

County	FAS Hwy. No.	Section and Description	Programed Amount	FAS Fund
Clatsop	608	Netell and Stavebolt Bridges (2), Structures only.	$ 115,000	'58
	756	Big Creek Bridge, Structure only.	35,000	'58
		Subtotal, Clatsop County..	$ 150,000	
Crook	453	Middle Unit, Paulina-Suplee Section, 8 miles. Grading	$ 127,000	'59

County	FAS Hwy. No.	Section and Description	Programed Amount	FAS Fund
Deschutes	657	West Unit, Cline Falls-Redmond Junction, 2 miles. Oiling.	)	
	778	Doney Road Section, 0.7 miles.) Oiling.		
	779	Austin Road Section, 1.8 miles.) Oiling.		
	783	Pershall Road Section, 2 miles.) Oiling.		
	785	Euston Road Section, 0.5 miles.) Oiling		
	786	Neff Road Section, 1.2 miles. Oiling.	$ 87,000	'58
	790	Horsell Road Section, 2.5 miles.) Oiling.		
	791	Bear Creek Road Section, 1 mile.) Oiling.		
	793	Vandervert-Tholstrup Road Section,) 4 miles. Oiling.		
Gilliam	719	Radar Station-Condon Junction Section, 1.7 miles. Oiling.	$ 10,000	'58
Harney	696	Buchanan-Crane Section, 16.9 miles. Surfacing.	$ 120,000	'58
Josephine	594	Windy Gap Section, 1 mile. Grading.	$ 161,000	'58
Linn	212	Crabtree Junction-Brewster Section, 3.8 miles. Paving	$ 75,000	'58
	216	Oak Creek School-Lebanon Section, 7 miles. Paving	$ 140,000	'58
		Subtotal, Linn County	$ 215,000	
Sherman	665	Moro Junction-Monkland Section, 5.2 miles. Grade, surface, oil, and bridge.	$ 123,000	'59
Yamhill	752	Salt Creek (Whiteson) Bridge Section, 0.2 miles. Grading and structure.	$ 158,000	'59
		SUBTOTAL, ADDITIONAL PROJECTS....	$1,151,000	

PREVIOUSLY APPROVED PROJECTS PROPOSED TO BE CANCELLED

County	FAS	Section and Description	Programed Amount
Sherman	665	Moro Junction-Monkland Section, 5.2 miles. Oiling	$ 26,000
	666	County Fairgrounds-Grass Valley Canyon Section, 1.5 miles. Oiling	7,000
		(Projects approved 11/3/55. Proposed for cancellation and revision as described in foregoing proposed projects.)	
		LESS SUBTOTAL, PROJECTS PROPOSED TO BE CANCELLED	$ 33,000
		TOTAL ADDITIONAL 1958 and 1959 COUNTY FAS FUNDS	$1,118,000

SUMMARY BY FISCAL YEARS

	1957 & 1958	1959	Total
Available September, 1956	$ 4,443,000	$3,800,000	$8,243,000
Previously Approved	2,425,000	575,000	3,000,000
Unprogramed Balance	$ 2,018,000	$3,225,000	$5,243,000
Proposed Projects 12/7/56	743,000	375,000	1,118,000
Unprogramed Balance	$ 1,275,000	$2,850,000	$4,125,000

Consideration was given to the request from the Hon. Arvo A. Hukari, Hood River County Judge, for establishment of a reduced speed zone on the Odell Secondary Highway in the community of Odell. An investigation was made by the Traffic Engineer, the Engineer reported, and the facts disclosed by this investigation indicated that a reduced speed zone should be established. He therefore recommended that a 40 MPH speed zone be established from a point 750 feet north of the road to Dee (M.P. 1.66) to a point 250 feet north of the road to Dukes Valley (M.P. 2.17), except that from M.P. 1.72 to M.P. 1.91 the indicated speed shall be 20 MPH during the hours of school crossings. He also recommended that a 25 MPH speed zone be established from a point 250 feet north of the road to Dukes Valley (M.P. 2.17) to a point 200 feet east of the road to Dukes Valley (M.P. 2.75), except that between M.P. 2.52 and M.P. 2.71 the indicated speed shall be 20 MPH during the hours of school crossings. The Commission accepted his recommendations by adopting the attached resolution relative thereto marked EXHIBIT "M-1", which resolution by this

reference is made a part hereof with like effect as though extended in full herein.

In connection with this same investigation, the Engineer stated, it was also found that to protect the traveling public, shoulder parking of vehicles should be prohibited on both sides of the Odell Highway for a distance of 250 feet north and south of the road to Dee, between M.P. 1.76 and M.P. 1.86. He recommended approval of such restriction. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "M-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request from Mr. Stan Skoko, Clackamas County Commissioner, for designation of a reduced speed sone on the Cascade Highway south of the community of Clackamas, was also considered. The Engineer reported that an investigation had been made and it was found that the majority of vehicles in this area travel between 27 and 37 miles per hour. He also pointed out that relocation of the junction with the Clackamas Highway has changed the traffic pattern so that previous accident records are not indicative of present conditions. He recommended that a 35 MPH speed zone be established on the Cascade Highway from a point 0.11 mile north of Jannsen Road (M.P. 10.22) to a point 500 feet south of the Clackamas Secondary Highway junction (M.P. 10.93), except that between M.P. 10.52 and M.P. 10.64, the indicated speed shall be 20 MPH during the hours of school crossings. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "M-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that in September, 1953, speed zones had been established on the Oregon Coast Highway in and near the community of Depoe Bay. However, since that time construction of the highway south of Depoe Bay and growth of the community has altered the traffic pattern. A request has been received from Mrs. Roy Riley, President of the Depoe Bay P.T.A., for extension of the existing 35 MPH speed zone to cover a school area, a short distance to the south. Based on facts disclosed by an engineering investigation, he recommended that the speed zones adopted in September, 1953, in this area, be rescinded and that a 45 mile per hour speed zone be established from the most southerly entrance to Boiler Bay State Park (M.P. 138.55) to M.P. 139.40 and that a 35 MPH speed zone be established from M.P. 139.40 to M.P. 140.26, except that between M.P. 139.96 and M.P. 140.16 the indicated speed shall be 20 MPH during the hours of school crossings. The Commission approved the recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "M-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the State Speed Control Board recently established a 30 mile per hour speed zone on the Baker-Homestead Highway through the City of Richland. To carry such speed zoning to a logical conclusion, he recommended that a 30 MPH speed zone be established by the Highway Commission from a point 400 feet west of the west city limits of Richland (M.P. 41.90) to the west city limits of Richland (M.P. 41.98), and that a 40 MPH speed zone be established from the east city limits of Richland (M.P. 42.27) to a point 0.31 mile east of the east city limits of Richland (M.P. 42.58), except that between M.P. 42.30 and M.P. 42.50 the indicated speed shall be 20 MPH during the hours of school crossings. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "M-5", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given to a request from Mr. Jim Skow of Weiser, Idaho, for improvement of an alledgedly hazardous condition on the Old Oregon Trail at Lime. This matter, the Engineer reported, was carefully investigated and to correct the situation, it is recommended that parking on highway shoulders be prohibited between Engineer's Station 2083+50 (M. P. 377.77) and Engineer's Station 2097+60 (M.P. 378.04). He also stated that appropriate signs are being installed to advise motorists about pedestrians. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "N-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also gave attention to a petition from residents of S. E. Franklin Street, Portland, requesting prohibition of parking on the easterly side of the Cascade Secondary Highway, (S.E. 82nd Avenue) just south of Franklin Street. This matter was investigated, the Engineer reported, and it was found that vehicles parked adjacent to the intersection restrict sight distance for individuals wishing to enter Cascade Highway. He therefore, recommended that parking of vehicles be prohibited on the east side of Cascade Highway from the south property line of Franklin Street (M.P. 4.43, Engineer's Station 196+60) to a point 60 feet south thereof (M.P. 4.45, Engineer's Station 197+20). The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "M-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that it has been called to his attention that parking of vehicles on the shoulders of the Oregon Coast Highway near Harriet Street south of Coos Bay, creates a hazard to the traveling public. An investigation was made, he stated, and from the facts disclosed in this investigation, it is recommended that parking be prohibited on the southerly side of the Oregon Coast Highway from a point 110 feet west of Harriet Street (M.P. 239.29, Engineer's Station 2+72) to the west property line of Harriet Street (M.P. 239.32, Engineer's Station 3+82). The Commission approved such no parking zone by adopting the

attached resolution relative thereto marked EXHIBIT "N-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer requested and the Commission approved out-of-state travel for the following personnel:

1. Mr. Gene Huntley, Personnel and Public Relations Director, to attend the Annual Conference of the Western College Placement Association in San Francisco, during January 17-19, 1957, at an estimated cost of $145.00.

2. Mr. Carl W. Jordan, Director, Travel Information Division, to attend the annual meeting of the Board of Directors of the Pacific Northwest Travel Association, in Butte, Montana, during January 12-13, 1957, at an estimated cost of $97.35.

3. Mr. Dennis D. Clarke, Assistant Director of Travel Information Division, to attend the San Francisco Automobile Show during January 3-15, 1957, at an estimated cost of $240.70.

4. Mr. R. B. Sipprell, Director of Permits, to attend a meeting of the Western Interstate Committee on Highway Policy Problems, in San Francisco, during January 12-13, 1957, at an estimated cost of $125.00. Mr. Sipprell's attendance at this meeting, the Engineer commented, has been requested by the Highway Interim Committee.

Attention was given to a petition, signed by approximately 70 people who reside along the Corvallis-Eastside Secondary Highway, requesting that a section of this highway between the Calapooya River Bridge immediately west of Albany and the intersection of the Corvallis-Lebanon County Road at Orleans, be designated as "Riverside Drive". The reason for this request, the Engineer commented, is to establish a mailing address for residents in this area which is being rapidly built into a residential district. The County Court, he stated, has also requested such designation. As such requests have been allowed in the past, and he could see no reason for denying this one, he recommended that the section mentioned be designated as the Riverside Drive Section of the Corvallis-Eastside Secondary Highway. The Commissibn accepted his recommendation and so ordered.

A resolution adopted by the Association of Oregon Counties expressing appreciation for the services rendered by Mr. R. H. Baldock while he was State Highway Engineer, was considered. The Commission accepted the resolution, as follows:

THEREFORE, BE IT RESOLVED that the Association of Oregon Counties in regular session at Portland, Oregon, November 15 - 16, 1956, does hereby acknowledge the services rendered to the State of Oregon and to the counties by Mr. R. H. Baldock, and with heartfelt sincerity we extend our profound appreciation for these many years of

meritorious and courageous duty, and trust that the succeeding years will be filled with enjoyable rewards that will, in a small way, compensate for the many personal sacrifices contributed to the nation, state and counties.

BE IT FURTHER RESOLVED that a copy of this resolution be presented to Mr. Baldock, a copy to the Oregon State Highway Commission for entry upon their records and a permanent inscription upon the pages of the Minutes of the Association.

Consideration was given by the Commission to a proposed throughway agreement with the City of The Dalles covering construction of the Chenoweth Creek-The Dalles Section of the Columbia River Highway in Wasco County, bids for which were received by the Commission on November 8, 1956. The Engineer explained details of the agreement and pointed out that it has been executed by the City. He recommended that the Commission also approve it. His recommendation was accepted.

The Engineer reported that in constructing the Bradley Park-Wauna Section of the Columbia River Highway in Clatsop County, approximately 140,000 cubic yards of excess material had to be wasted along embankment slopes. During periods of heavy rain fall, this loose material became fluid and flowed onto adjacent land owned by Fir-Tex Insulating Board, Inc. The Fir-Tex Company was contacted immediately but declined to make a settlement until the fill slopes had stabilized. The slopes are now stable, the Engineer stated, and a settlement has been agreed upon in the amount of $1,369.08 to cover damages to growing timber and the land itself. The claim seems to be reasonable and he recommended that it be paid, provided the Fir-Tex Company will sign a damage release document to be prepared by the State's Legal Department. The Commission approved the payment on such basis.

The Commission approved the Secretary's report showing a list of papers signed by him in behalf of the Commission during the period November 6 to December 13, 1956.

The Engineer reported that a new section of the Old Oregon Trail between Olds Ferry and Ontario in Malheur County has been relocated and it is now possible to remove certain portions of the former highway from the designated route of this highway. The eliminated portion, however, is of sufficient importance to warrant that it be retained as a secondary highway, and he recommended that the former route of the Old Oregon Trail be redesignated as the Olds Ferry-Ontario Secondary State Highway No. 455, beginning at a junction with the relocated Old Oregon Trail Highway near Olds Ferry and extending easterly and southerly to a junction with the relocated Old Oregon Trail Highway near Ontario, a distance of approximately 25.24 miles, including the Weiser Spur, 2.01 miles, and the Payette Spur, 1.66 miles, for a total of 28.91 miles. The Commission approved the redesignation by

adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the Applegate River Bridge Section of the Redwood Highway in Josephine County has been completed and is now open for public travel. In April, 1955, an agreement was entered into with Josephine County relating to disposition of portions of the old highway upon completion of the new section. This agreement provided that a portion of the old section of highway would be abandoned to the county upon completion of the new section, and a portion would be eliminated as a part of the Redwood Highway and would be maintained thereafter as a part of the Rogue River Loop Secondary Highway No. 260. As the relocated section is now complete, and to fulfill the terms of the agreement, the Engineer recommended that the portion of the old highway referred to as "Unit A", be abandoned to Josephine County to be maintained by the County as a public road. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In this connection the Engineer also recommended that a portion of the old section of the Redwood Highway, referred to in the agreement as "Unit B", be eliminated as part of the Redwood Highway and be redesignated and maintained as a portion of the Rogue River Loop Secondary Highway No. 260. His recommendation was accepted and the Commission thereupon adopted the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Return of the Gales Creek County Road to the jurisdiction of Washington County was discussed. The Engineer explained that in April, 1942, the State entered into an agreement with Washington County whereby the State assumed jurisdiction over the Gales Creek County Road as a part of the temporary route of the Wilson River Highway No. 37 until such time as the Wilson River Highway was completed and available to the general public. The Glenwood-North Plains Section of the Wilson River Highway, he said, is now complete and open to public travel, and he recommended that the Gales Creek Road from the north city limits of Forest Grove to the south end of the constructed Wilson River Highway near Washburn, a distance of approximately 10.4 miles, be returned to the control of Washington County. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a proposed agreement with the City of Pilot Rock concerning closure of Bud Parks Street in Pilot Rock. This agreement, the Engineer stated, is necessary to provide safety for the general public in connection with construction of the South Unit of the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway

in Umatilla County. Specifically, the agreement proposes to close Bud Parks Street at the southeasterly right of way line of the Pendleton-John Day Highway, and the closure of the street has been approved by the city officials. Upon the Engineer's favorable recommendation, the Commission also approved the agreement and adopted the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given to a proposal made by the Fort Worth, Texas, Chamber of Commerce for designation of a U. S. numbered highway beginning in Brunswick, Georgia, and extending westerly and northerly to Astoria, Oregon. The Engineer explained that U. S. Highway No. 84 is now continuous from Brunswick, Georgia, to Durango, Colorado, and that by selection of certain other highways, it could be extended to Astoria. In Oregon the extension of U. S. 84 would mean renumbering of the highway now designated as U. S. 26. Officials of the Oregon Highway 26 Association were contacted, he continued, and all replies received were favorable to the proposal. He recommended that the Commission authorize him to recommend to the Route Numbering Committee of the American Association of State Highway Officials, that U. S. Highway 84 be extended to Astoria, if and when the other states that are affected by the routing concur. The Commission accepted his recommendation.

The Commission discussed a date for its next regular meeting and decided to hold such meeting on Tuesday and Wednesday, January 22 and 23, 1957. The Secretary was instructed to arrange for the use of the Queens Room in the Imperial Hotel, Portland. A tentative date for the next following meeting was set for February 28 and March 1, 1957.

The Commission discussed matters to be presented by delegation scheduled to appear on the following day. The Engineer commented that the latest information he has received concerning financing of the bridge across the Columbia River at Astoria indicates that financing now will be very difficult, if not impossible. He pointed out that the interest rate on bonds of this type has risen sharply in the past few months as well as costs of bridge construction. To finance the bridge under present conditions would require a subsidy by the states of Oregon and Washington in the amount of approximately $25,000,000. The Commission deferred action on the matter pending discussion with the delegation on the following day.

The Commission also discussed with the Engineer bids received at the morning session and at 3:00 p.m. Commissioner McIver announced awards of contracts as follows:

"Grading Myrtle Creek-Missouri Bottom Unit on the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County. The Commission elects to accept the bid of C. R. O'Neil, Creswell, in the sum

of $1,246,997.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary approval of the Bureau of Public Roads is received.

"Grading and paving the Ashland Undercrossing-Helman Street Section of the Pacific Highway in Ashland, Jackson County. The Commission awarded the contract to J. C. Compton Co., McMinnville, low bidder, at $165,648.50.

"Grading and paving the Burns Junction-Basque Maintenance Station Section of the I-O-N Highway in Malheur County. The Commission awarded the contract to Central Paving Co., Independence, at their low bid of $263,160.40.

"Illumination of Rooster Rock Park Interchange on the Columbia River Highway, below Crown Point in Multnomah County. The Commission awarded the contract to J. J. Walton, Salem, at his low bid of $8,323.00.

"Grading and paving the Hinkle-Bucks Corner Section of the Hermiston Highway in Umatilla County. The Commission awarded the contract to E. H. Itschner Co., Molalla, at their low bid of $59,519.00.

"Grading and paving West 3rd Street-East 1st Street on the Wallowa Lake Highway and Main Street in Enterprise. The Commission elects to accept the bid of H. J. and H. W. Miller in the sum of $23,970.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Enterprise is received and the sum of $15,859.69 is deposited by the City.

"Grading on the Davis Slough-Beaver Lookout Section of the relocated Oregon Coast Highway in Coos County. The Commission elects to accept the bid of Morrison-Knudsen Co., Inc., Seattle, Washington, in the sum of $962,295.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received"

The Engineer advised that in order to provide an adequate electric supply for the Siskiyou Mountain Maintenance Station located on the Old Pacific Highway near Siskiyou Summit in Jackson County, it is necessary to enter into a form of agreement with California-Oregon Power Company permitting the attachment of electric distribution lines to three of the company's poles. Upon his favorable recommendation, the Commission authorized the securing of such a permit.

A form of resolution was presented by the Engineer relative to the establishment of group highway listings for the issuance of permits. He explained that each year in conformance with Oregon laws it is necessary to adopt a resolution form which, when approved, allows haulers to operate within the limits of the designated type of highways without permits. This resolution includes a permit division map, a

group I highway list, a special group I highway list and a group II highway list. Upon his favorable recommendation the Commission adopted the attached resolution relative thereto marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A proposed revision of ferry terminal facilities at Megler, Washington, was brought up for discussion by the Engineer who stated that such revision will be required because of highway reconstruction at the terminal. The terminal, he stated, will remain at the same location but some adjustment, estimated to cost about $4,600.00 will be necessary to meet the grade of the revised highway. The work is to be performed by the State of Oregon and the cost thereof to be paid by the State of Washington. He recommended and the Commission approved an agreement covering the proposed revision as outlined.

The Engineer brought up the matter of a building owned by Curtis L. Rounds which encroaches on The Dalles-California Highway right of way between Bend and Redmond. He recalled that at a previous meeting the Commission authorized entering into a lease with Mr. Rounds, allowing occupancy of the right of way under certain conditions. A form of lease was prepared and sent to Mr. Rounds who returned it unsigned with a statement that the lease terms are unsatisfactory, and a demand that the Highway Commission either pay him the amount necessary to move the building back the required distance estimated at $2,000.00, or pay to him the actual cost of the building, about $5,000. He also threatened to institute a damage suit against all Commission employees involved. The Chief Counsel advised that the possibility of Mr. Rounds securing a judgment against employees of the Commission appears rather remote. The Engineer suggested that as no highway development is planned in this area for at least ten or fifteen years, that the Commission take no action now but leave the matter in status quo with the thought in mind if Mr. Rounds initiates legal action, then proper defense can be made. The Commission accepted his suggestion.

The Chief Counsel brought up the matter of a proposed agreement with Idaho Power Company concerning relocation of the Baker-Homestead Highway which is required to accommodate construction of the Oxbow Dam on the Snake River. The power company, he stated, is anxious to secure the agreement before the Legislature convenes in January. He also said that the agreement, as prepared, has been discussed with the Engineer and it is their common recommendation that the Commission approve the agreement in principle at this meeting and then forward the agreement to the Idaho Power Company for signature. After the agreement has been signed by the power company, it will then be forwarded to the members of the Commission to sign. He then reviewed the contents of the agreement explaining the various paragraphs. The Commission approved the agreement in principle as recommended by the Chief Counsel and authorized him to send it to the power company for signature.

Again discussed by the Commission was the option obtained from Mr. Lew Wallace for acquisition of real property which may possibly be needed as right of way at the proposed Tunnel portal on the S. W. 14th Avenue Section of the Sunset Highway in Portland, which matter was first considered during the morning session. The Engineer stated that the plans for this project are not yet completed and there are possibilities that the Wallace property will not be needed. He suggested that it be not purchased at this time. It was brought out in the discussion that followed that Mr. Wallace was never asked to give the option, but did so voluntarily. The Commission decided, after carefully considering facts presented by the Engineer, not to accept the option and ordered that it be returned to Mr. Wallace at once.

The Commission signed the following agreements and other papers:

"Relinquishment of Title" deeding to Benton County the Tampico-Lewisville Highway for a county road.

"Agreement" with Idaho Power Company covering highway revisions in Baker County necessitated by Snake River dam construction.

"Agreement" with Portland School District No. 1, Multnomah County, covering a cooperative project for disposition of surface waters reaching or accumulated on 82nd Avenue between N. E. Thompson Street and N. E. Russell Street. Estimated total cost $6,200; State's share $3,100.

"Agreement" with the City of The Dalles covering Chenoweth Creek-The Dalles Section of the Columbia River Highway, Wasco County.

"Agreement" with City of Pilot Rock covering closure of Bud Parks Street in that city required in connection with construction of South Unit, Pendleton-Pilot Rock Section of Pendleton-John Day Highway, Umatilla County.

"Agreement" with City of Grants Pass covering the proposed exchange of traffic signal controllers on Pacific Highway in Grants Pass.

"Agreement" with U. S. Navy, for permission to construct a temporary antenna at Shore Acres State Park in Coos County.

"Bargain & Sale Deed" to Harold C. Voetberg for a parcel of land on the Joseph-Sheep Creek Hill Section of the Little Sheep Creek Highway in Wallowa County.

"Bargain & Sale Deed" to Floyd W. Lowden for a parcel of land on the Oakland Junction Deady Unit, Chenoweth Park-Deady Section of the Pacific Highway in Douglas County.

"Agreement" with Oregon State Game Commission covering installation of a boat-launching ramp within the boundaries of Ben Hur Lampman Wayside on the Rogue River near Gold Hill in Jackson County.

"Throughway Agreement" with City of Ashland covering the Ashland Undercrossing-Helman Street Section of Pacific Highway in Ashland.

"Throughway Agreement" with Coos County covering Davis Slough-Beaver Lookout Section of Oregon Coast Highway, Coos County.

"Agreement" with City of Enterprise covering improvement of Wallowa Lake Highway and certain city streets in city of Enterprise.

"Release and Conveyance Indenture" with Claude Kerns for property on the Klamath Falls-Keno Section of the Green Springs Highway in Klamath County.

"Amendment of Access Clause" in Deed to T. J. Starker to property on the Pacific Highway West-North Corvallis Section in Benton County.

"Supplemental Agreement to Commercial Power Contract" with Central Lincoln People's Utility District covering extension of electric power service to the Fogarty Creek State Park in Lincoln County. Increase in minimum charge from $48.00 per year to $108.00 per year.

"Extension Rider" with Union Pacific Railroad Company covering five-year extension of a stockpile lease at Albina on the Albina-Portland Section in Multnomah County.

"Bargain & Sale Deed" to Claude Kerns for a parcel of land, being in Lot 4 of Section 4, Township 40 South, Range 8 East, W.M. Klamath County, Oregon. Consideration $1,000.00.

"Trust Agreement" with U.S. Dept. of Interior, Bonneville Power Administration, re construction work on Columbia River Highway requiring the relocation of a structure of the Government's The Dalles-Goldendale Electric transmission line to conform to the National Electrical Safety Code.

"Contact Permit C-597" with California Oregon Power Company covering attachments on three poles located on the Old Pacific Highway near Siskiyou Summit south of Ashland, Oregon.

"Agreement" with Washington State Highway Commission re changes to ferry terminal at Megler, Washington, because of highway construction in Washington.

The meeting adjourned at 3:45 p.m. to reconvene at 10:00 a.m. on the following day.

Portland, Oregon
December 18, 1956

The meeting of the State Highway Commission reconvened at 10:00 a.m. in the Queens Room of the Imperial Hotel. The following persons were present:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Acting Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The Honorable Fred Mauser, Wasco County Judge, and Messrs. Verne Obrist and James Hunt, County Commissioners, came before the Commission concerning relocation of US197 between the city of The Dalles and Eightmile Creek. Mr. Mauser inquired as to when the proposed reconstruction would be undertaken. The Engineer replied that this project has been tentatively included in the next three-year program, but construction can not possibly be started prior to 1959. Mr. Mauser then called attention to the bad highway conditions which exist on the Tygh Valley grade and on the Maupin grade. These two projects he estimated would cost about $3,000,000 and be offered cooperation from the county in the amount of approximately $500,000, to be matched with a like amount of Federal money; the balance to be paid by the State. He urged the Commission to give consideration to improving these two sections. The County, he explained, plans to sell an issue of bonds on The Dalles Bridge and they expect to sell $500,000 extra which can be used for the highway improvement. Chairman Chandler recalled that a previous delegation which had requested improvement between The Dalles and Eightmile Creek had stated that the County would acquire the right of way necessary for the reconstructed section. Mr. Mauser replied that the County still plans to acquire this right of way, which he estimated would cost about $100,000. Commissioner Reynolds stated that the Commission is faced with the problem of where to get funds to match the County's offer, and also to be considered is the allocation of funds within the Division. The Engineer commented that there is no chance of securing additional funds unless the next congress provides it. Chairman Chandler stated that the Commission will give very careful

consideration to the County's offer but cannot give much encouragement today.

The State Parks Superintendent stated that the Governor's State Parks Advisory Committee has been of great assistance in park operations during the past year and he suggested that a letter be sent to each of the following members thanking them for their efforts: William Tugman, Chairman; Ralph R. Cronise; J. W. Forrester, Jr.; Herb Grey; George M. Henderson; Frank Jenkins; Fred E. Kiddle; Frank Loggan; Robert C. Notson; Arden X. Pangborn; Charles B. Stanton; and George Weyerhaeuser. Commissioner Reynolds made a motion that such a letter be sent over the signature of the Secretary with copies sent to the members of the Highway Commission. Commissioner McIver seconded the motion and it was declared unanimous by Chairman Chandler. The attached resolution relative thereto marked EXHIBIT "P", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

The Chief Counsel stated that officials of the Idaho Power Company had requested that the matter of relocating a section of the Baker-Homestead Highway which will be inundated by construction of dams on the Snake River, be included in the proposed legislative matters that are being prepared by the State Highway Commission. The Commission authorized the Chief Counsel to include this matter among those subjects to be presented to the 1957 Legislative Assembly.

The Honorable C. W. Craddock, Harney County Judge, and Mr. J. L. McCullough, representing the Burns Chamber of Commerce, came before the Commission concerning highway matters in Harney County. Judge Craddock stated that the County wishes to withdraw its recent request for extension of the Frenchglen Secondary Highway to Denio at the Nevada state line, and to request in lieu of such project the oiling of the Frenchglen Secondary Highway, starting at Burns and extending as far south as funds will permit. The Engineer pointed out that only recently an improvement had been made on Wright's Point to accommodate large trucks, and the State does not have funds available to finance further improvements. Chairman Chandler observed that it looked like it might be at least five years before the requested improvement could be undertaken. Commissioner Reynolds stated that all available secondary funds have been allocated for the next two years, and he inquired as to the volume of traffic that uses this road. Judge Craddock replied that he did not know the exact amount but it was quite heavy, especially during hunting and fishing seasons. The Engineer stated that a recent traffic count revealed an average daily traffic of 60 vehicles at Frenchglen and 100 vehicles at Wright's Point. Mr. McCullough endorsed the remarks of Judge Craddock and emphasized the importance of the hunting and fishing area south of Burns. He pointed out that 18,000 additional acres had been opened to public hunting and a 140-acre lake has been stocked with fish.

He also called attention to surveys which had been made through the city of Burns to provide a relocation for the Central Oregon Highway. The Chamber of Commerce, he stated, has offered its support on any route which the Commission selects. However, Burns City Officials since that time have withdrawn their approval of the new routing and now favor improvement of the existing route, and have given their approval to the transfer of the funds heretofore set up by the Commission for highway revision in Burns, to finance improvement of a section on US20 between Juntura and Vale. Transfer of these funds, he stated, is not a matter on which the City can pass, and the Chamber of Commerce and the County are quite concerned. He presented a letter signed by Mr. C. W. Craddock, County Judge, protesting transfer of the funds to any county other than Harney County, a letter from the Harney County Chamber of Commerce objecting to withdrawal of funds from the Burns-Hines area, and a letter from the Edward Hines Lumber Company protesting transfer of funds to some county other than Harney County. If a hearing is necessary to determine a highway route through the city of Burns he requested that it be held and the issue settled promptly so that property owners can make definite plans. The Engineer commented that a request for a hearing must be made by the city officials. Chairman Chandler stated that the request would be given consideration.

A delegation representing the City of Fairview came before the Commission concerning access to the T. H. Banfield Expressway. The following people were present: J. E. Poynor, Mayor; Melvin K. Moller, President, and Erick Enquist, City Planning Commission; Earl Elsasser, City Councilman; Murray Kemp, Multnomah Kennel Club, all of Fairview; and Senator Ward Cook, property owner in Fairview, Portland. Mayor Poynor, who acted as spokesman, stated that development of the City is restricted by lack of adequate access to the Expressway. At the present time residents of Fairview must go to 181st Street to the west, or to Wood Village to the east, in order to get onto the new highway, and he requested that better access be provided. Chairman Chandler pointed out that the Banfield Expressway is a part of the interstate highway system and as such it must conform to standards set by the U. S. Bureau of Public Roads. The interchanges at 181st Street and at Wood Village, he stated, are approximately three miles apart, closer than the average allowed on interstate freeways. Mayor Poynor called attention to the heavy traffic which uses Fairview Avenue and advised that future plans contemplate development of Fairview Avenue, which will encourage additional traffic. The Engineer pointed out that the average distance between interchanges on the interstate system should be at least five miles. Fairview Avenue, he stated, is a county road and the State has no plans for its development. Commissioner McIver commented that construction of interchanges at too frequent intervals destroys the purpose for which a freeway is provided. Mr. Poynor stated that in the opinion of the residents of Fairview the two access points available to them are poorly located and that both of them are inadequate and hazardous. Mr. Moller mentioned that in constructing the Banfield Expressway, approximately 20 acres had been removed from the tax rolls. It was his understanding that Multnomah County plans to widen

Fairview Avenue in the near future as the area served by this Avenue is growing rapidly. He felt that the access points constructed at Wood Village and at 181st Street are improperly located and that an access should be provided at Fairview Avenue. He asked the Commission to give the matter further study. Mr. Enquist stated that an interchange at Fairview Avenue would more adequately serve the City of Fairview and a large adjacent area than the existing access points. Mr. Cook called attention to subdivisions which are being developed near Fairview Avenue, the fact that the County has already widened Fairview Avenue twice and that the accesses at 181st Street and at Wood Village do not property serve traffic needs. Mr. Kemp mentioned the large volume of traffic created by the dog races nearby and the awkward condition created by the existing points of access. Mr. Elsasser urged the Commission to investigate the matter further. Following departure of the group Commissioner McIver commented that probably the matter does deserve further investigation as it appears from the presentation that the present points of access are not adequate. He suggested that the situation might be improved were the existing routes improved. The Commission instructed the Engineer to make a thorough study of this problem and submit a report.

Mr. Robert Beadle, property owner, Portland, and his attorney, Mr. William A. Martin, came before the Commission to request access to the Banfield Expressway from his property situate between 122nd Avenue and 132nd Avenue. Mr. Beadle stated that since last October there had been six accidents in this area and a large number of motorists attempt to turn around on the highway, some of them run out of gas and others get stuck in the ditches, and most of them ask to use his phone to get help. If access is granted to the Expressway, he proposed to install a motel, service station and restaurant near 132nd Avenue at a cost of near $200,000. Mr. Martin pointed out that freeways must furnish means to take care of human needs such as gasoline, food, drink and sleep and Mr. Beadle proposes to construct facilities to supply these needs. Chairman Chandler explained that on freeways all rights of access are purchased by the State. Many similar requests have been received for accesses but all must be denied, otherwise the freeway principle would be defeated. He stated that he could see no good reason for granting Mr. Beadle's request. The Engineer commented that the telephone people are now making a study with the object in mind of installing phones at frequent intervals on freeway sections for public convenience, which should solve Mr. Beadle's problem. Mr. Beadle remarked that if some arrangement can be made so that people would not bother him, he will be very pleased.

A delegation representing the Roads and Highway Committee of the Tillamook County Chamber of Commerce came before the Commission to request early construction of Highway 101 between Bay City and Garibaldi. The following people were present: Chas. A. Ross, Chairman, Roads and Highway Committee, Chamber of Commerce; Edwin Kiekhaefer, President, Chamber of Commerce; Burford Wilkerson, Manager, Chamber of Commerce; Hans Paulson, City Manager, Vice President of Chamber of

Commerce; Fred Guyton, Director and Member of Highway Committee; O. E. Effenberger, County Judge; August Schollmeyer, County Commissioner; Earl Sweet, Director, Tillamook County Chamber of Commerce; Robert R. Gordon, Vice President, Chamber of Commerce; Walter S. Ackley, Secretary, Jr. Chamber of Commerce, Tillamook County, Secretary, Insurance Agents Association; Larry McInerney, Jr. Chamber of Commerce, all of Tillamook. Verne Ayers, Manager, Oregon Coast Association, Newport. John Dillard, Observer; Walter R. Randolph, Mayor, both of Nehalem. A. F. Martin, M. D., Lions Club; George E. Hodges, President of Cottage Owners Assn., Public Relations, People's Utility District; A. W. Middleton, City Council; W. H. Walpole, President Lions Club, Chief of Police; Sam Mammano, Owner Natatorium; Ted DuFrain, Real Estate and Insurance; John W. Harvey, Insurance and Theater owner; Gene Kelty, Mayor; and Tom Bailey, Member Highway Committee, all from Rockaway. J. C. Bell, Community Club, Twin Rocks. Pat Graham, Restaurant owner, Manhattan. Mr. Kiekhaefer introduced the members of the delegation. Mr. Kelty stated that the section between Bay City and Garibaldi is very crooked and slippery, requires heavy maintenance expense, and is not nearly adequate for traffic needs. Mr. Randolph commented that because of the very poor condition of this section a great many products originating in northern Tillamook County are marketed to the north rather than being hauled south to the City of Tillamook. He also commented on the need for the Elsie Cutoff in order to attract new business and industry into the northern part of the county. Taxable property values have been greatly reduced because of the disastrous Tillamook Burn and new industries are needed to offset this loss. Mr. Ayres stated that in his work he drives on US101 from the south to the north Oregon boundaries and he felt that the section between Bay City and Garibaldi is almost as bad as the section between Gold Beach and Brookings. Judge Effenberger stressed the bad curvature on the present highway between Bay City and Garibaldi. He also stated that real property values in Tillamook County had decreased approximately 50 percent because of the Tillamook Burn. It was his feeling that to compensate for this loss, it is necessary that the county have more adequate highways. The county, he added, is also much interested in securing construction of the Elsie Cutoff. Mr. Ross pointed out that of the approximately 70 miles of US101 within Tillamook County, only 14 miles are constructed to modern standards, the balance being what he called a collection of cow paths and trails. These antiquated sections, he stated, have been put up with by the people because they realize that it costs a great deal of money to build highways, but it is now felt that further improvements should be made, particularly between Bay City and Garibaldi. He called attention to the economic value of this improvement as providing a benefit quotient of approximately 3.00, and he requested that this project be listed as the No. 1 project in Division No. 2. In conclusion, Mr. Randolph thanked the Commission and members of his staff for their courteous reception at this meeting and for their attendance at a recent meeting of the Nehalem Bay Association. The Commission made no comments concerning the delegation's request.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p. m. with the same persons present and participating.

Mr. Joseph W. Smith, Chairman, and Mr. Glen L. Jackson, Vice Chairman, of the Oregon Development Commission, came before the Commission concerning the application of the Johns-Manville Corporation for access to The Dalles-California Highway north of Klamath Falls. Mr. Jackson gave as his understanding that the section of The Dalles-California Highway where the access is being requested is not a limited access highway. The Johns-Manville Corporation, he stated, has started construction of their plant and soon will need some sort of access for their employees. Previous discussions in this matter, he stated, contemplated a grade separation structure which is estimated to cost about $150,000. The Engineer stated that a new plan has been developed which contemplates construction of a reasonably safe channelized intersection at grade at a cost of approximately $30,000. He pointed out that under Oregon laws in situations such as this, applicants for access could be required to pay the entire cost of the access, but inasmuch as safety to the traveling public is involved, as well as providing access for employees to the plant, he proposed that the State and Johns-Manville Corporation each pay half of the cost. Mr. Jackson expressed his feeling that the plan proposed by the Engineer would be very satisfactory. Accordingly, the Commission authorized the Engineer to advise the home office of the Johns-Manville Corporation that the State will join with the Company in constructing each access project on a 50/50 basis.

A group representing Lincoln County Pomona Grange Committee came before the Commission regarding expenditure of funds on secondary highways in Lincoln County. The following people were present: Thomas R. McClellan, Neotsu; Mrs. Minnie McFarland, Secretary, Depoe Bay; J. C. Barclay, Alsea; Paul Gerber, Yachats; Mike Miller, County Commissioner, Lincoln County Court, Siletz; L. T. Grant, Harlan; and F. J. Kernan, Portland. Mr. McClellan was principal spokesman. He introduced the members of the delegation and read aloud and presented a prepared statement urging improvement to secondary and county roads in Lincoln County. The statement pointed out that Lincoln County has available the sum of $100,000 as match money for state and federal funds. It also pointed out that improvement of these county and secondary roads not only provide better transportation for residents in Lincoln County but tend to attract permanent residents and tourists into the county. The statement included a list of eight federal aid secondary roads in Lincoln County totaling 56 miles on which improvement is needed. The Engineer remarked that all of these roads mentioned in the statement, except the Siletz Highway, are county roads. He explained the basis of allocation of monies for federal aid secondary county road projects and advised that requests for improvement of federal aid county roads must be made by the County Court. Chairman Chandler explained that the Highway Commission makes no attempt to determine projects for improvement with federal aid funds on county roads but looks to the County Court in each county to determine the projects they wish, and to establish their priorities, and so far as is possible, with the funds available, approves such projects. This concluded the discussion.

Mr. F. L. Wright, President of the Port of Astoria; Mr. R. J. Bettendorf, Manager of the Port of Astoria; Mr. C. DeFoe, Manager of the Astoria Chamber of Commerce and Mr. Vern Ayres, Manager of the Oregon Coast Association, came before the Commission concerning the financing of a new bridge across the Columbia River at Astoria. Mr. Wright stated that when the delegation appeared before the Commission at its November meeting they were quite optimistic about a plan for financing that was being considered at that time. However, the increase in interest rates on bonds which would have to be sold to finance the bridge has made that plan unworkable. Mr. Bettendorf commented that the subsidy of $2,000,000 which had been contemplated in the original plan has now risen to $18,000,000 or more and that the money market has priced the project out of the picture for the present; however, the bridge is needed and efforts for its construction must be carried on. He suggested that a design for the bridge should be made and necessary legislation enacted by the Oregon Legislature so that when the bond market becomes more favorable, action can be taken to sell the bonds and start construction. Commissioner Reynolds inquired as to what action had been taken by the State of Washington. Mr Bettendorf replied that during the last week he contacted Mr. Bugge, Director of Highways in that state, who gave as his feeling that the efforts should be continued but who gave as his opinion that the bridge is primarily an Oregon venture and they are more or less waiting for Oregon interests to take the lead, although he indicated that Washington would help on a reasonable project. Mr. DeFoe stated that contacts had been made with members of the Washington Legislature as a preliminary step to securing necessary legislation in Washington and similar action had been taken with members of the Oregon Legislature. Commissioner Reynolds inquired as to what the cost of designing the bridge would be. The Engineer replied that a rough estimate of cost would be somewhere between $100,000 and $150,000. Mr. Bettendorf then commented that the State of Washington will require an enabling law for the construction of the bridge. He was unable to state whether or not the State of Washington will contribute toward the cost of the bridge design. Chairman Chandler offered the opinion that the State of Oregon will participate in the construction of the bridge when the feasibility of the project has been established. After the delegation departed, Commissioner McIver inquired of the Engineer if he would recommend that the State participate in defraying the 18 or more million dollars of deficit that is now contemplated in construction of the bridge. The Engineer replied negatively, stating that a subsidy of that amount would have to come from highway funds and would thereby deprive the rest of the State of a considerable amount of needed highway improvement. He further stated that in his experience he has found that designs prepared several years ahead of construction are usually obsolete by the time the work begins and have to be greatly revised or completely done over. It was his feeling that the bridge should not be designed at this time. Commissioner McIver then inquired as to when the toll charges for use of the Astoria ferry were last raised. The auditor replied that there has been no increase during the last 3 years. Commissioner McIver then stated that possibly the rates

should be increased to reduce the increasing deficit in the operation of the ferry. The Engineer replied that the present rates are in line with comparable ferry service rates in Washington and if the rates are raised without increasing the quality of service, the public would most likely raise considerable objection. It was his thought that the rates might be increased if and when an additional ferry boat is put into service.

The Engineer, speaking in behalf of all highway department employees, extended to the Commission best wishes for a Merry Christmas and Happy New Year. He added that all appreciate very much the fine work that the Commission has performed and their eminently fair and efficient manner in handling highway problems. The members of the Commission personally expressed their appreciation to employees of the Commission for services rendered during the past year. Commissioner McIver stated that of a number of public bodies on which he has served, his work with the Highway Commission had been the most enjoyable, and he gave credit to the Highway Department personnel as the reason. Chairman Chandler commented briefly on the harmony and unity in which the Commission has operated. There being no further business to come before the Commission, the meeting was declared adjourned by Chairman Chandler at 3:00 p. m.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

December 17 and 18, 1956

EXHIBIT "A"

Minutes of December 17 and 18, 1956

R E S O L U T I O N

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - R. H. BALDOCK FREEWAY

25009 Sabel, Paul J. and Margaret H. (Stuntz)
Right of Way
Option expires May 7, 1957

11,500 sq.ft. at $0.16- per sq.ft.	$ 1,832.00
8,500 sq.ft. Excess at $0.15 per sq.ft.	1,275.00
House, 968 sq.ft. at $11.36+ per sq.ft.	11,000.00
Garage, 240 sq.ft. at $3.12 per sq.ft.	750.00
Amount to be paid owners - chrg to Right of Way	$14,857.00

Grantors to vacate 30 days from notice or 5 days after date of receipt of payment, or enter into rental agreement.

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Beaverton-Forest Grove Section of the Tualatin Valley Highway described as follows:

> That portion of the East half of the East half ($E\frac{1}{2}$ $E\frac{1}{2}$) of Lot 196 of the Johnson Estate Addition to Beaverton-Reedville Acreage lying Northerly of a line which is parallel to and 28 feet northerly of the center line of the west bound traffic lane of the Tualatin Valley Highway, situated in Section 7, Township 1 South, Range 1 West, W.M., Washington County, Oregon. The parcel of land to which this description applies contains 0.27 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Tualatin Valley Highway, except one point of access not to exceed 25 feet in width will be allowed at approximate Highway Engineer's Center Line Station 101+00 on the northerly side of the Tualatin Valley Highway, unrestricted as to use.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 23 be entered in the minutes and records of the Commission as of the 17th day of December, 1956.

EXHIBIT "B-2"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Forest Grove-Hillsboro Section of the Tualatin Valley Highway described as follows:

A parcel of land lying in the Benjamin Q. Tucker D. L. C. No. 66, also lying in Section 34, Township 1 North, Range 3 West, W.M., Washington County, Oregon, and being designated as Parcel No. 2 in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 380, page 355 of Washington County Records of Deeds; the said parcel being more particularly described as follows:

Beginning at the Northeast corner of said tract designated as Parcel 2 in said State of Oregon Deed said corner being North 495 feet and West 258 feet from the intersection of the East line of said Tucker D. L. C. No. 66 and the Baseline; thence West 93.98 feet, more or less, to the Northwest corner of said tract; thence South along the West line of said tract 145 feet, more or less, to a line which is parallel to and 40 feet Northerly of the center line of the west bound traffic lane of the relocated Tualatin Valley Highway; thence easterly parallel to said center line 94 feet, more or less to the East line of said tract; thence North 145 feet, more or less, to the place of beginning. Said center line referred to above is described in said State of Oregon deed.

The parcel of land to which this description applies contains 0.31 acre, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,620.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of such property shall

EXHIBIT "B-2" (Cont)

provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Tualatin Valley Highway, except one point of access will be allowed not to exceed 25 feet in width on the northerly side of the Tualatin Valley Highway at approximate Engineer's center line Station 141+95, unrestricted as to use.

AND BE IT FURTHER RESOLVED that this property sale Resolution No. 24 be entered in the minutes and records of the Commission as of the 17th day of December, 1956.

EXHIBIT "B-3"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Barbur Blvd.-Boones Ferry Road Section of the Portland-Salem Expressway described as follows:

A parcel of land lying in the Southeast quarter of Section 13, Township 2 South, Range 1 West, W.M., Washington County, Oregon, being a portion of the following described property: That tract of land which was conveyed by that certain deed to State of Oregon, recorded in Book 345, Page 210 of Washington County Record of Deeds.

The said parcel being described as follows: Beginning at the most northerly corner of Lot 54 of Tualatin Valley Homes, a subdivision in Section 13, Township 2 South, Range 1 West, W.M., Washington County; thence South 39° 00' 45" East along the northeasterly line of said Lot 54, a distance of 436.30 feet to a point opposite and 40 feet northerly from (when measured at right angles to) engineer's center line station 14+68.05 of the "B" line connection to Boones Ferry Road; thence on a 318.10 foot radius curve right (the long chord of which bears South 87° 44' 45" West 88.45 feet) a distance of 88.80 feet to a point 40 feet northerly from (when measured at right angles to) engineer's center line Station 15+67.95 of said "B" line connection; thence North 80° 48' 15" West a distance of 231.42 feet to a point in the southwest line of said Lot 54, which point is 54 feet northerly from (when measured at right angles to) said center line of said "B" line connection; thence North 39° 18' 45" West along said southwesterly line, a distance of 138.70 feet to the easterly right of way line of the Portland-Salem Expressway (75 feet easterly from and parallel to the center line of said Expressway); thence North 15° 49' 15" East along said easterly right of way line, a distance of 125.08 feet to the northwesterly line of said Lot 54; thence North 50° 57' 15" East along said northwesterly line, a distance of 123.54 feet to the point of beginning.

The parcel of land to which this description applies contains 1.64 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

EXHIBIT "B-3" (Cont)

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,640.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Portland-Salem Expressway and the Lower Boones Ferry Road.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 25 be entered in the minutes and records of the Commission as of the 17th day of December 1956.

EXHIBIT "B-4"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Forest Grove-Hillsboro Section of the Tualatin Valley Highway described as follows:

> A parcel of land lying in the William McLinn DLC No. 40, also lying in Section 3, Township 1 South, Range 3 West, W.M., Washington County, Oregon, and being a portion of that property described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 381, page 459 of Washington County Records of Deeds, the said parcel being described as follows:
>
> Beginning at the Southwest corner of said property, said corner being on the northerly right of way line of the Southern Pacific Railroad; thence East along the Southerly line of said property 200 feet to the Southeast corner of said property; thence North along the East line of said property 60 feet, more or less, to a line which is parallel to and 60 feet South of the relocated center line of the Tualatin Valley Highway; thence West along said parallel line 200 feet to the West line of said property; thence South along said West line 60 feet to the place of beginning.
>
> The parcel of land to which this description applies contains 0.27 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $7,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission, be and he hereby is authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Tualatin Valley Highway, except two points of access 40 feet in width

EXHIBIT "B-4" (Cont)

will be allowed at approximate Engineer's center line Station 114+90 and 116+35 on the southerly side of the highway, unrestricted as to use.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 26 be entered in the minutes and records of the Commission as of the 17th day of December, 1956.

EXHIBIT "B-5"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Washburn-North Plains Section of the Wilson River Highway described as follows:

A parcel of land lying in Lot 16, Block 8, Wilkesboro, situated in the Southeast quarter ($SE\frac{1}{4}$) of Section 31, Township 2 North, Range 3 West, W.M., Washington County, Oregon; the said parcel being that portion of said Lot 16 lying Northerly of a line parallel to and 60 feet Northerly of the center line of the Wilson River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2618+00.53, said Station being 1870.87 feet South and 1249.8 feet East of the center of said Section 31; thence North 75° 06' 30" East 1200 feet to Station 2630+00.53, said center line crosses the West and East lines of said Lot 16 approximately at Stations 2622+62 and 2624+50, respectively.

The parcel of land to which this description applies contains 0.33 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,750.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission, be and he hereby is authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Wilson River Highway.

EXHIBIT "B-5" (Cont)

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 27 be entered in the minutes and records of the Commission as of the 17th day of December, 1956.

EXHIBIT "C"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the relocated Booth Ranch-Myrtle Creek Unit of the Shady-Canyonville Section of the Pacific Highway in Douglas County, Oregon, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the old right of way is no longer needed for state highway purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, it has been agreed that the portion that may be eliminated, which is hereinafter referred to as Unit "A", would be abandoned to the abutting landowners because said Unit "A" is no longer needed as part of the Pacific Highway and for persons living thereon or communities served thereby; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the former right of way of said highway, referred to herein as Unit "A".

NOW, THEREFORE, based upon the authority vested in the Commission by the State of Oregon, IT IS HEREBY ORDERED AND RESOLVED that;

1. The portion of the former right of way, which by reason of the relocation of the Booth Ranch-Myrtle Creek Unit of the Shady-Canyonville Section of the Pacific Highway is no longer needed within the boundaries of the new right of way and which lies between points opposite and at right angles to Highway Engineer's Survey Stations 3187+12 and 3195+02 of the newly relocated Pacific Highway, is identified as Unit "A" and described as follows:

Unit "A"

That portion of the right of way of the existing Pacific Highway which lies northerly of the following described line:

Beginning on the northerly right of way line of the existing Pacific Highway at a point which is opposite and approximately 190 feet northeasterly from Station 3187+12 on the relocated center line of the Pacific Highway; said point being approximately 860 feet east and 610 feet south of the west quarter corner of said Section 7; thence southeasterly 250 feet, more or less, to a point opposite and

EXHIBIT "C" (Cont)

108 feet northeasterly of Station 3189+51 on said relocated highway center line; and southeasterly 385 feet, more or less, to a point which is opposite and 75 feet northeasterly of Station 3193+30 on said relocated highway center line; thence south 60° 08' 50" east parallel to said relocated highway center line 175 feet, more or less, to the northerly right of way line of the said existing Pacific Highway.

The parcel of land to which this description applies contains 0.79 acre.

2. That Unit "A" hereinabove described is no longer required for the service of persons living thereon, communities served thereby, nor for highway right of way or other public purposes.

3. That said Unit "A" is hereby duly abandoned as part of the Pacific Highway and the state highway system; and all right, title, and interest which the state has in the right of way of Unit "A" herein described hereby passes to and vests in the abutting landowners pursuant to ORS 366.300.

4. That this Abandonment and Retention Resolution No. 323 be entered in the Minutes and Records of the Oregon State Highway Commission as of the 17th day of December 1956, and the Secretary is hereby ordered to mail a certified copy hereof to the Douglas County Court.

EXHIBIT "D"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4133 with Erickson Paving Company for grading on the Little Creek-Estacada Section of the Woodburn-Estacada Highway in Clackamas County, completed August 22, 1956.

"Contract No. 4338 with Warren Northwest, Inc., for paving on the Booth Ranch and Booth Ranch-Myrtle Creek Unit, Shady-Canyonville Section of the Pacific Highway in Douglas County, completed August 31, 1956.

"Contract No. 4356 with Tom Lillebo for Umpqua River pier protection, Umpqua River Bridge, on the Oregon Coast Highway in Douglas County, completed November 30, 1956.

"Contract No. 4359 with Max J. Kuney Co., Inc. for paving on the Goshen-Cottage Grove Unit, Goshen-Divide Section of the Pacific Highway in Lane County, completed September 20, 1956.

"Contract No. 4474 with Trussfab, Inc., for constructing guard rail and fencing on the Battle Creek Junction-Illahee Unit, Battle Creek Junction-Jefferson Junction Section of the Pacific Highway in Marion County, completed November 29, 1956.

"Contract No. 4494 with C. C. Meisel for grading and surfacing on the Werst Corner-Wallowa Section of the Werst Corner-Wallowa County Road in Wallowa County, completed October 30, 1956.

"Contract No. 4512 with Enoch I. Maerz for constructing boat landing and parking area on the Detroit Lake Park camp site in Marion County, completed November 9, 1956.

"Contract No. 4514 with Russellville Nursery for installing irrigation system on the 42nd Ave. -99th Ave. Section of the T. H. Banfield Expressway in Multnomah County, completed October 15, 1956.

"Contract No. 4532 with Knight Pearcy for roadside improvement on the 102nd Avenue-Fairview Section of the T. H. Banfield Expressway in Multnomah County, completed June 30, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4543 with Rogers Construction Co. for grading and paving on the Olds Ferry-Ontario Section of the Old Oregon Trail Highway in Malheur County, completed October 3, 1956.

"Contract No. 4545 with Allum Bros. for grading on the Hell Gate Canyon Section of the Gallice County Road in Josephine County, completed September 29, 1956.

"Contract No. 4546 with Gibbons & Reed Co. for constructing 33rd Ave. Undercrossing on the T. H. Banfield Expressway in Multnomah County, completed October 13, 1956.

"Contract No. 4573 with C. & W. Crushing Co. for furnishing crushed materials in stockpiles on the Columbia River-Dufur Section of The Dalles-California Highway in Wasco County, completed July 28, 1956.

"Contract No. 4581 with Steeck Electric Co. for installing illumination on the Rock Point-Medford Section of the Pacific Highway in Jackson County, completed October 30, 1956.

"Contract No. 4593 with R. H. Jones for constructing Chemult Overcrossing on The Dalles-California Highway in Klamath County, completed November 20, 1956.

"Contract No. 4600 with Perkins Bros. for grading and paving on the Ross Island Bridge On-Ramp Section of the Pacific East Highway in Multnomah County, completed November 8, 1956.

"Contract No. 4619 with Warren Northwest, Inc. for grading and paving on the East Unit, Crescent Lake Junction-The Dalles-California Junction Section of the Willamette Highway in Klamath County, completed November 9, 1956.

"Contract No. 4642 with Hamilton & Thoms for constructing Yamhill River Bridge and East Sheridan Overcrossing on the Salmon River Highway in Yamhill County, completed November 9, 1956.

"Contract No. 4650 with Warren Northwest, Inc. for grading and paving on the S. E. Stark St.-Powell Valley Road Section of the East Burnside County Road in Multnomah County, completed November 27, 1956.

"Contract No. 4680 with Rochat Electric Co. for installing Albany and Sweet Home traffic signals on the Pacific and Santiam Highways in Linn County, completed October 2, 1956.

"Contract No. 4689 with Trowbridge Electric Co. for installing Hillsboro traffic signals on the Tualatin Valley Highway in Washington County, completed November 24, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4707 with Babler Bros., Inc., for re-oiling and furnishing crushed materials in stockpiles on the Burns-Crooked Creek-Jordan Valley Section of four highways in Malheur and Harney Counties, completed October 18, 1956.

"Contract No. 4714 with Vanaken Sand & Gravel Co. for furnishing crushed materials in stockpiles on the Elsie-Sunset Camp Section of the Sunset Highway in Clatsop, Washington, Tillamook and Columbia Counties, completed November 1, 1956.

"Contract No. 4718 with Steeck Electric Co. for installing Ashland Interchange illumination on the Pacific Highway in Jackson County, completed October 31, 1956.

"Contract No. 4725 with R. H. Jones for constructing Sisters Sand Shed in Deschutes County, completed October 26, 1956.

"Contract No. 4733 with Schrader Construction Co. for extending overnight camping area in the Jessie M. Honeyman State Park in Lane County, completed November 30, 1956.

"Contract No. 4743 with Warren Northwest, Inc., for grading and paving on the Brookings (Pioneer Road & Easy St.) City Street Section in Curry County, completed November 3, 1956.

"Contract No. 4747 with Babler Bros., Inc. for furnishing crushed materials in stockpiles on the Division No. 4 Sanding Materials Project on the Ochoco, The Dalles-California and Santiam Highways in Deschutes and Crook Counties, completed November 8, 1956.

"Contract No. 4750 with Henry H. Miller, Contractor, for slide correction on the West Unit, Reedsport-Dean Creek Section of the Umpqua Highway in Douglas County, completed September 25, 1956.

"Contract No. 4751 with A. E. Fitzgerald for constructing Klamath Falls Sand Shed in Klamath County, completed December 3, 1956.

"Contract No. 4752 with Lloyd G. Sperling for constructing Sweet Home Maintenance Building in Linn County, completed November 14, 1956.

"Contract No. 4756 with Ernest Ferrante & Co. for irrigation system and planting on the Garden Valley Road Interchange, Deady-Shady Section of the Pacific Highway in Douglas County, completed November 21, 1956.

EXHIBIT "D" (Cont)

"Contract No. 4759 with Central Paving Co. for grading and paving on the Hopmere Interchange and Battle Creek Junction North Bound Connection Section of the Portland-Salem Expressway in Marion County, completed October 12, 1956.

"Contract No. 4783 with P. S. Lord Mechanical Contractors for constructing latrine in Fort Stevens Park in Clatsop County, completed November 12, 1956.

"Contract No. 4795 with Trowbridge Electric Co. for installing illumination on the Olds Ferry-Ontario Section of the Old Oregon Trail Highway in Malheur County, completed November 18, 1956.

"Contract No. 4814 with E. H. Itschner Co. for furnishing crushed materials in stockpiles on the John Day Section of the John Day and John Day-Burns Highways in Grant County, completed November 2, 1956.

"Contract No. 4819 with F. L. Somers for embankment repair on the Bybee Bridge (Rogue River) Section in Jackson County, completed November 15, 1956.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 57 shall be entered in the minutes and records of the Commission as of the 17th day of December, 1956.

EXHIBIT "E"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the State Highway Commission has relocated and realigned the Old Oregon Trail Highway No. 6 (U.S. 30) in Malheur County between Olds Ferry and Ontario; and

WHEREAS, said relocation has made it possible to remove certain portions of the former Old Oregon Trail Highway from the route of the Old Oregon Trail Highway; and

WHEREAS, the redesignation of that portion of the former route of the Old Oregon Trail Highway eliminated by the said relocation (in the manner hereafter set forth) as a secondary state highway is in the best interests of the people of the State of Oregon and the motoring public;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the present route of the former Old Oregon Trail Highway No. 6 (U.S. 30) from its intersection with the relocated Old Oregon Trail Highway at or near Mile Post 390.80 of said relocated highway near Olds Ferry to its intersection with the relocated Old Oregon Trail Highway at or near Mile Post 409.40 of said relocated highway, together with the Weiser Spur and the Payette Spur of the present route of the former Old Oregon Trail Highway, is hereby designated as the Olds Ferry-Ontario State Secondary Highway No. 455 to be maintained hereafter as a secondary state highway of the state highway system, its route and termini being hereafter described as follows:

> Beginning at a junction with the relocated Old Oregon Trail Highway near Olds Ferry, thence easterly and southerly to a junction with the relocated Old Oregon Trail Highway near Ontario, a distance of approximately 25.24 miles, together with the Weiser Spur (2.01 miles) and the Payette Spur (1.66), a total mileage of 28.91 miles.

That portion of the route of the former Old Oregon Trail Highway redesignated as the Olds Ferry-Ontario Secondary State Highway is shown colored in red on Exhibit "A" attached hereto.*

2. That this Secondary Highway Designation Resolution No. 37 be entered in full in the minutes and records of the Highway Commission this 17th day of December, 1956.

EXHIBIT "E" (Cont)

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 37 under the heading "Secondary Highway Designation" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the relocated Applegate River Bridge Section of the Redwood Primary Highway No. 25 located in Josephine County, the westerly terminus of which is at Highway Engineer's Survey Station 467+00 and the easterly terminus of which is at Highway Engineer's Survey Station 517+00 of the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, portions of the former right of way are no longer needed for right of way for said highway and may be eliminated from the boundaries of the relocated highway, but said portions of the former right of way are needed for the service of persons living thereon and communities served thereby; and

WHEREAS, Josephine County and the State Highway Commission entered into an agreement on the 14th day of April, 1955, relating to the disposition to be made of the portions to be eliminated, therein and hereinafter referred to as Units "A" and "B"; and

WHEREAS, said agreement provided that State, by resolution, would elinimate Unit "A" as part of the Redwood Highway and the State highway system, and abandon said Unit "A" to County to be maintained as a part of the county road system; and that Unit "B" would be eliminated as part of the Redwood Highway and maintained thereafter by State as part of the Rogue River Loop Secondary Highway No. 260; and

WHEREAS, certain portions of the former right of way of the Applegate River Bridge Section of the Redwood Highway, together with other real property acquired by State, are necessary for right of way of the new routing and other public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the eliminated portions or units of the former right of way of the said Redwood Highway, referred to herein as Units "A" and "B", and all of the property affected by reason of said realignment;

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED by this Commission, all members being present and voting affirmatively, that:

1. The portions of the former right of way which by reason of the relocation of the Applegate River Bridge Section of the Redwood Highway are no longer within the boundaries of the new right of way

EXHIBIT "F" (Cont)

are identified as Units "A" and "B" and described as follows:

Unit A

All the land situated within the former right of way boundaries of the Redwood Highway as formerly routed, beginning at the intersection of said highway as formerly routed and the existing Rogue River Loop Secondary Highway No. 260 in the northeast quarter of the northwest quarter ($NE\frac{1}{4}$ $NW\frac{1}{4}$), Section 31, Township 36 South, Range 6 West, W.M.; thence easterly via said Redwood Highway as formerly routed to the northerly right of way line opposite Highway Engineer's Survey Station 514+00 of said highway as relocated in the northeast quarter of the northeast quarter ($NE\frac{1}{4}$ $NE\frac{1}{4}$), Section 31, Township 36 South, Range 6 West W.M.

Unit B

All the land situated within the former right of way boundaries of the Redwood Highway as formerly routed, beginning at the northerly right of way line opposite Highway Engineer's Survey Station 477+50 of said highway as relocated in the southeast quarter of the northwest quarter ($SE\frac{1}{4}$ $NW\frac{1}{4}$), Section 31, Township 36 South, Range 6 West, W.M.; thence northerly via said Redwood Highway, as formerly routed to its intersection with the existing Rogue River Loop Secondary Highway No. 260 in the northeast quarter of the northwest quarter ($NE\frac{1}{4}$ $NW\frac{1}{4}$), Section 31, Township 36 South, Range 6 West, W. M.

Attached hereto, marked Exhibit "A" and by this reference made a part hereof is a map of one page setting forth the relocated section of said Redwood Highway. Unit "A" is shown thereon marked in red. Unit "B" is shown thereon marked in purple. The portion to be retained is shown thereon marked in green.*

2. In accordance with the agreement entered into with Josephine County on the 14th day of April, 1955, Unit "A" is hereby duly abandoned as part of the Redwood Highway and the State highway system, and all right, title and interest which the State has in the right of way of Unit "A", herein described, passes to and vests in the said Josephine County; and Unit "B" is hereby eliminated from the Redwood Highway and shall henceforth be maintained by the State as part of the Rogue River Loop Secondary Highway No. 260. The portion of the former Applegate River Bridge Section of the Redwood Highway right of way, necessary for the new routing, together with the real property acquired by the State for roadway right of way and other public purposes shall be retained and held by the State.

EXHIBIT "F" (Cont)

3. This Abandonment and Retention Resolution, No. 299, be entered in the minutes and records of the Oregon State Highway Commission as of the 17th day of December, 1956, and the Secretary is ordered to mail a duly certified copy thereof to the County Court of Josephine County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 299, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, on November 13, 1931, the Highway Commission, by agreement with the County Court of Josephine County, by minutes entry, selected and designated as a secondary highway certain county roads in Josephine County then under the jurisdiction of the County Court of said County. Said roads described as:

Grants Pass River Loop (Rogue River Loop Secondary Highway No. 260)

Market Roads Nos. 2 and 3, beginning at the Applegate Bridge on the Redwood Highway and extending down river, crossing the new bridge and extending along the north side of the Rogue River to Grants Pass, approximately 20.5 miles,

were designated on the records of the Highway Commission as the Rogue River Loop Secondary Highway No. 260; and

WHEREAS, the Applegate River Bridge Section of the Redwood Highway No. 25 in Josephine County has been relocated so that the southerly terminus of the Rogue River Loop Highway no longer forms a junction with the relocated Redwood Highway; and

WHEREAS, the Highway Commission, by a Resolution dated this 17th day of December, 1956, eliminated a section of the said Redwood Highway to be designated as part of the Rogue River Loop Highway, said eliminated portion is described as follows:

Unit "B"

All the land situated within the former right of way boundaries of the Redwood Highway as formerly routed, beginning at the northerly right of way line opposite Highway Engineer's Survey Station 477+50 of said highway as relocated in the southeast quarter of the northwest quarter ($SE\frac{1}{4}$ $NW\frac{1}{4}$), Section 31, Township 36 South, Range 6 West, W.M.; thence northerly via said Redwood Highway, as formerly routed to its intersection with the existing Rogue River Loop Secondary Highway No. 260 in the northeast quarter of the northwest quarter ($NE\frac{1}{4}$ $NW\frac{1}{4}$), Section 31, Township 36 South, Range 6 West, W.M.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission as follows:

EXHIBIT "G" (Cont)

1. That the present Rogue River Loop Secondary Highway No. 260 shall be extended at its southerly terminus by adding thereto the eliminated section of the Redwood Highway No. 25 described herein as Unit "B"; that the extended highway shall retain the classification of a Secondary Highway and shall hereafter be designated the Rogue River Loop Secondary Highway No. 260, with a route and termini as follows:

> Beginning at a junction with the relocated Applegate River Bridge Section of the Redwood Highway No. 25 at milepost 35.5, approximately 1.7 miles easterly of Wilderville; thence northerly about 10 miles to and across the Rogue River; thence southeasterly along the north side of the Rogue River approximately 12 miles to a junction with the Pacific Highway No. 1 (U. S. 99), within the limits of Grants Pass, a distance of approximately 22.42 miles.

2. That this resolution be entered in the minutes and records of the Highway Commission this 17th day of December, 1956, as Secondary Highway Designation Resolution, File No. 36.

27572

EXHIBIT "H"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, on April 23, 1942, the State of Oregon, by and through its State Highway Commission and Washington County, a political subdivision of the State of Oregon, by and through its County Court, entered into an agreement whereby the Highway Commission assumed jurisdiction and control and the duty to maintain the Gales Creek County Road; and

WHEREAS, under said agreement the assumption of jurisdiction, control and maintenance of said county road was for the purpose of using said road as part of the temporary route of the Wilson River Primary Highway No. 37; and

WHEREAS, said agreement was to be operative until such time as the said Wilson River Highway was completed and made available to the general public and at such time under said agreement the said county agreed to accept jurisdiction of the said road and to release the state from any further obligation with respect to said agreement; and

WHEREAS, the Glenwood-North Plain Section of the Wilson River Highway is now completed and opened to public travel and the Gales Creek County Road is no longer used as a temporary route of the Wilson River Highway,

NOW, THEREFORE, IT HEREBY IS RESOLVED by the Highway Commission that:

1. Complete jurisdiction, control and the duty to maintain that certain road which was prior to April 23, 1942, designated and defined as follows:

> Gales Creek Road: from the north city limits of Forest Grove via Gales Creek County Road to the south end of the constructed Wilson River Highway near Washburn, a distance of approximately 10.4 miles,

is this date returned to Washington County.

2. The Gales Creek Road, as described in paragraph 1 is eliminated as part of the Wilson River Primary Highway No. 37.

3. This resolution be entered in the minutes and records of the Highway Commission this 17th day of December, 1956, as Primary Highway Designation Resolution, File No. 20, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Washington County.

EXHIBIT "I"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, that highway designated as the Pendleton-John Day Highway, otherwise known and designated as State Highway No. 28, is a state highway under the jurisdiction and control of the State Highway Commission; and

WHEREAS, pursuant to the provisions of ORS 373.010, the State Highway Commission has heretofore, selected and designated through the city of Pilot Rock the Pendleton-John Day Highway, and has designated a portion of Main Street in the city of Pilot Rock, as a portion of the route of said highway through said city; and

WHEREAS, under the provisions of ORS 373.050, the Highway Commission is permitted and authorized, whenever the Commission shall have selected and designated a street or streets over which to route a state highway within an incorporated city, to close any street at the point where the same intersects or is intersected by the street or streets designated as the route of the State Highway, by formal agreement with the municipal authorities of a city set out in a resolution or ordinance of the city designating the particular street or streets to be closed by name and intersection; and

WHEREAS, the Highway Commission has given due and careful consideration to the matter, based upon investigations and the reports and recommendations of the State Highway Engineer, and based also upon knowledge of existing traffic conditions.

NOW, THEREFORE, based upon the foregoing recitals of existing facts, it is hereby resolved by this Commission, all members being present and affirmatively voting, as follows:

1. That it hereby is found and declared that the entry and exit of vehicles to and from the Pendleton-John Day Highway at the intersection of Bud Parks Street impairs the free and safe flow of traffic using said highway and tends to and does create dangerous and hazardous traffic conditions.

2. That the closure and dead-ending of Bud Parks Street, where the same intersects with the Pendleton-John Day Highway, is necessary to the safety of the general public, and will contribute to a more expeditious and orderly movement of traffic on said highway.

3. That Bud Parks Street should be closed and dead-ended by constructing or erecting curbs or other suitable barriers at the point where said street intersects with the Pendleton-John Day Highway.

EXHIBIT "I" (Cont)

4. That the Secretary be and he hereby is instructed to furnish said City Officials with a duly certified copy of this resolution.

5. That the State Highway Engineer be and he hereby is directed to request the city of Pilot Rock to take appropriate action to close said Bud Parks Street pursuant to the provisions of ORS 373.050.

6. That this resolution be entered in the minutes and records of the Commission as of the 17th day of December, 1956, said resolution to be known as Miscellaneous Resolution No. 203.

EXHIBIT "J"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, Chapter 483 of Oregon Revised Statutes, sets forth maximum limits with respect to the size and weight of vehicles or combinations of vehicles, and the number of vehicles that may be coupled together in a combination of vehicles; and

WHEREAS, under the provisions of said law the State Highway Commission is authorized to issue permits for the operation, upon state highways, of vehicles and combinations of vehicles having a size, weight and number in combination in excess of said maximum limits; and

WHEREAS, under the provisions of ORS Section 483.525, when in the judgment of the State Highway Commission any state highway, or section thereof, is capable of carrying any combination of vehicles having a combination of vehicles gross weight in excess of that authorized in subsection (3) of ORS 483.506, or an overall length in excess of that authorized in subsection (4) of ORS 483.504, the Commission is authorized to so declare by resolution and to fix the maximum gross weight and length and types and classes of combinations of vehicles which may be operated thereon. Said law further provides that after such resolution is filed with the Secretary of State no permit shall be required for the operation upon such highway, or section thereof, of any combination of vehicles not exceeding the maximum gross weight and length fixed for combinations of vehicles of that type and class; and

WHEREAS, the State Highway Engineer has made investigations and studies and has compiled information and statistics relative to the strength, stability, design and alignment of all state highways:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That based upon the studies, investigations, information and statistics made and compiled by the State Highway Engineer, it is the judgment of this Commission that certain highways, or sections thereof, as set forth hereinafter, are capable of carrying combinations of vehicles having a combination of vehicles gross weight in excess of that authorized in subsection (3) of ORS 483.506, or an overall length in excess of that authorized in paragraph subsection (4) of ORS 483.504, or a number of vehicles in the combination in excess of that authorized in subsection (1) of ORS 483.508.

2. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles having an overall length not in excess

of 68,000 pounds may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Group II Highways", which for identification is marked "Attachment A", the attached list of "Group I Highways", which for identification is marked "Attachment B", and the attached list of "Special Group I Highways", which for identification is marked "Attachment C".

3. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck and full trailer, or of a truck-tractor and semitrailer drawing one trailer, or of a truck-tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel, having an overall length not in excess of 60 feet and a combination of vehicles gross weight not in excess of 76,000 pounds, may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Group I Highways", which for identification is marked "Attachment B".

4. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck-tractor and semitrailer having an overall length not in excess of 55 feet and a combination of vehicles gross weight not in excess of 72,000 pounds may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Special Group I Highways", which for identification is marked "Attachment C".

5. That nothing contained in this resolution shall be deemed to authorize the operation of vehicles having any gross weight in excess of the applicable gross weights set forth in the tables of weights in subsection (3) and (4) of ORS 483.524, nor any gross wheel, axle or tandem axle weight in excess of that set forth in subsection (3) of ORS 483.506. Nothing contained in this resolution shall be deemed to authorize the operation of any combination of vehicles which is not properly licensed, or does not carry proper Oregon P.U.C. plates and certificates or, except as otherwise expressly provided herein, which does not comply in all respects with the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

6. That the State Highway Engineer shall prepare, or have prepared, prints of a map to be issued to any person requesting the same, showing in contrasting colors the Group I Highways, the Group II Highways, and the Special Group I Highways referred to in paragraphs 2, 3 and 4 of this resolution. Attached hereto, and for identification marked "Attachment D" is a map showing such highways in contrasting colors. Said map is hereby approved by this Commission and prints thereof shall be issued to any interested person requesting the same.

7. That the provisions of this resolution are subject to any order heretofore or hereafter made by this Commission pursuant to ORS 483.532, and the posting of any highway, section of highway, or highway structure to

reduced limits of weights or dimensions shall be to that extent a modification of the weights or dimensions authorized by this resolution. This resolution may be changed, amended or rescinded at any time by resolution adopted by this Commission.

8. That this resolution revokes and supersedes a previous resolution of December 1955, dealing with this subject.

9. That this resolution be entered in the minutes of this Commission as of the 17th day of December, 1956, that the original of this resolution be filed in the records of the Secretary of the Commission, and that a duly certified copy thereof be filed with the Secretary of State, the Public Utilities Commissioner, and the Superintendent of State Police.
